ACCOUNTING

Whether you want to learn the fundamentals of accounting, progress to a more advanced level, earn a professional designation, or develop expertise in specialized business applications, the following accounting courses, along with the courses listed under Finance and Financial Planning, will meet your needs.

Accounting

All CACC course fees include a $10 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Accounting – Finance (pg. 22), Business Management (pg. 36), Entrepreneurship and Multiculturalism (pg. 55), Facility Management (pg. 62), Financial Management in Canada (pg. 67), Financial Planning (pg. 70)

★ Introductory Financial Accounting CACC 100

The course is designed to give students a basic understanding of accounting for business decisions. Accounting is the language of business. The course will emphasize how transactions impact the accounting equation (Assets = Liabilities + Shareholders’ Equity). Detailed journal entries will not be emphasized. Accounting 100 will emphasize the decision-makers or users. The course should be taken by students who don’t want to become accountants, but want to gain a basic understanding of accounting.

39 Hours  Fee: $779

Fall 2013
Distance: Internet
Saturday 9:00-12:00 Sep 7-Dec 7

Wednesday 18:30-21:30 Sep 10-Dec 10
Winter 2014
Distance: Internet
Saturday 9:00-12:00 Jan 11-Apr 12
Monday 18:30-21:30 Jan 11-Apr 12
Tuesday 18:30-21:30 Jan 14-Apr 15
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Distance: Internet
Monday & Thursday 18:30-21:30 May 3-Jul 26
Monday & Wednesday 18:30-21:30 May 5-Jun 18
Tuesday 18:30-21:30 May 6-Jun 17
Thursday 18:30-21:30 May 8-Jul 11
Monday & Wednesday 18:30-21:30 Jun 23-Aug 11
Tuesday & Thursday 18:30-21:30 Jun 24-Aug 7

For information on distance education, visit www.ryerson.ca/ce/de.

★ Core Concepts of Accounting CACC 333

This course is for students who have completed ACC 100 and ACC 406 and wish to major in either Accounting or Finance. It can also be taken by students wishing to minor in Accounting. This is a demanding course that should prepare you for Intermediate Accounting.

39 Hours  Fee: $624

Spring/Summer 2014
Wednesday 18:30-21:30 May 7-Jul 30

★ Introductory Management Accounting CACC 406

Designed for non-accounting majors, this course introduces the basic management accounting concepts to business students. Topics covered provide a good balance between the concepts and procedures used in the accumulation and use of date by management accountants to facilitate planning and decision-making. Cost behaviour and its implications for planning, reporting to management and control is stressed.

39 Hours  Fee: $624

Fall 2013
Distance: Internet
Saturday 9:00-12:00 Sep 7-Dec 7
Tuesday 18:30-21:30 Sep 10-Dec 10
Winter 2014
Distance: Internet
Saturday 9:00-12:00 Jan 11-Apr 12
Monday 18:30-21:30 Jan 13-Apr 14
Tuesday 18:30-21:30 Jan 14-Apr 15
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Distance: Internet
Monday & Wednesday 13:00-16:00 May 5-Jun 18
Monday & Wednesday 18:30-21:30 May 5-Jun 18
Tuesday 18:30-21:30 May 6-Aug 5
Tuesday & Thursday 13:00-16:00 Jun 24-Aug 7
Tuesday & Thursday 18:30-21:30 Jun 24-Aug 7

For information on distance education, visit www.ryerson.ca/ce/de.

★ Financial Accounting for Accounting Majors CACC 110

Designed for Accounting and Finance Majors, this course will introduce you to the interesting and challenging field of Financial Accounting. Financial Accounting is a language designed to capture, summarize, and communicate the economic facts about an organization in a set of financial statements and the related descriptive notes. The course will focus on the principles of accounting and reporting to various users that are external to the organization. Accounting 110 will emphasize the decision-makers or users. You will learn what information is provided in financial statements and the uses and limitations of this information to various decision-makers.

39 Hours  Fee: $749

Fall 2013
Distance: Internet
Thursday 18:30-21:30 Sep 7-Dec 7
Winter 2014
Distance: Internet
Monday 18:30-21:30 Jan 11-Apr 12
Thursday 18:30-21:30 Jan 16-Apr 17
Spring/Summer 2014
Distance: Internet
Tuesday 18:30-21:30 May 3-Jul 26
Tuesday 18:30-21:30 May 6-Aug 5
Thursday 13:00-16:30 May 8-Jul 31

For information on distance education, visit www.ryerson.ca/ce/de.
★ Management Accounting for Accounting Majors  
CACC 410  
Prerequisite(s): CACC 110 or Direct Entry

This course introduces the basic management accounting concepts to business students. Topics covered provide a good balance between the concepts and procedures used in the accumulation and use of data by management accountants to facilitate planning and decision making. Cost behaviour and its implications for planning, reporting to management and control is stressed.

39 Hours  Fee: $624

★ Intermediate Accounting I  
CACC 414  
Prerequisite(s): CACC 410 or CACC 333 or Direct Entry

This course reviews and embellishes the financial reporting requirements as presented in generally accepted accounting principles (GAAP). The topics will include revenue recognition and the asset side of the balance sheet. Students should expect to use and expand on the application of all the generally accepted accounting principles and concepts covered in introductory financial and management accounting courses. To be successful in the course, students should be prepared to work independently outside the class sessions.

★ Accounting Cases and Concepts I  
CACC 504  
Corequisite(s): CACC 514

This course begins with a conceptual review of accounting principles, and reviews issues studied in earlier courses such as revenue recognition, the treatment of research and development cost, and insolvency. Students are also introduced to accounting in the not-for-profit sector, and issues in international accounting. This course emphasizes the role of communication in the accounting profession. Critical thinking and problem solving skills are developed through extensive use of case analysis.

For the most current information, see our website at www.ryerson.ca/ce/de.

★ Auditing  
CACC 521  
Prerequisite(s): CACC 514

An introduction to the auditing standards and procedures developed by the accounting profession. Topics covered include: auditing standards, the audit report, materiality, risk, gathering of evidence and sampling. The course is useful to the student who is interested in the profession of auditing or developing a manager’s understanding of auditing.

Since taxation has an important effect on business decision-making in this course students will study the fundamental principles of the Canadian income tax laws and examine their effect on business decisions and financial planning. The tax treatment of various sources of income, as well as the legislation affecting small businesses will be included in the course. The student will develop decision making skills through numerous situational examples and case analysis.

ARCHITECTURE

Creating environments that are beautiful and functional is a complex and exciting process. Whether you are interested in interior or exterior spaces, these courses can introduce you to the principles, practices, and skills that contribute to effective design.

Architectural Preservation and Conservation

This program is designed to provide architects, and those in related design fields, with the opportunity to gain the applied state-of-the-art knowledge and skills necessary to keep pace with developments in the construction industry. Related certificate(s): Architectural Preservation and Conservation (pg. 28), Architecture (pg. 30), Architecture, Advanced (pg. 32), Sustainability Management (pg. 140)

Architectural Preservation and Conservation Workshop

CKAR 600

An introductory level lecture/seminar course on architectural preservation and conservation theory, philosophy, history, and concepts. The aesthetic, managerial, and technological aspects of the preservation and conservation sub-sector of the architectural profession will be covered, as well as future trends and issues.

39 Hours
Fee: $755

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12
Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Monday & Wednesday 18:00-21:00 May 5-Jun 18

Building Science for Architectural Preservation and Conservation

CKAR 601

An intermediate level course in building science examining the biological, chemical, and physical properties of the envelope and components of building structures as impacted by the internal and external environments. The proper material selection and methods of assembly of building envelope and components for durability, sustainability, and serviceability will also be investigated.

39 Hours
Fee: $755

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14
Spring/Summer 2014
Tuesday & Thursday 18:00-21:00 May 6-Jun 17

Management and Regulatory Framework

CKAR 604

An advanced level course on the project and construction management (sequencing, scheduling, estimating, etc.) of preservation and conservation projects. Governmental regulations (construction safety, heritage by-laws, etc.), non-governmental/cultural policies (ICOMOS, UNESCO, World Heritage Sites, etc.), and professional ethics/practices on architectural preservation and conservation will also be examined in detail.

39 Hours
Fee: $755

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11
Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14
Tuesday 18:30-21:30 Jan 14-Apr 15
Spring/Summer 2014
Monday & Wednesday 18:00-21:00 May 5-Jun 18

Comprehensive Seminar/Project

Prerequisite(s): CKAR 600 and (CKAR 601 or CKAR 602 or CKAR 604 or CKAR 610)

A thesis course. Students will be required to propose a preservation and conservation plan for an historical building or selected components of high complexity. The student will be required to assemble a thesis advisory group who will advise and monitor the progress of the student’s work.

39 Hours
Fee: $755

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9
Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17
Spring/Summer 2014
Tuesday & Thursday 18:00-21:00 May 6-Jun 17

Architecture

This program is designed to provide architects, and those in related design fields, with the opportunity to gain the applied state-of-the-art knowledge and skills necessary to keep pace with developments in the construction industry. Related certificate(s): Architectural Preservation and Conservation (pg. 28), Architecture (pg. 30), Architecture, Advanced (pg. 32), Facility Management (pg. 62), Sustainability Management (pg. 140)

Architectural Studio - Fundamental

Prerequisite(s): CKAR 102 or CKAR 300

An introductory studio workshop in architectural design and space planning. Topics include spatial and functional planning, human-interface and environmental systems, and architectural representation and presentation.

39 Hours
Fee: $755

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15
Supplies to be purchased by student: T-square, set square, scale, instruments, pencils, paper. Allow $80 for these supplies and texts - do not purchase until after the first session.

Mechanical and Electrical Systems for Buildings

Prerequisite(s): CKAR 310 or CKAR 105

An intermediate course examining the fire-protection, lighting, plumbing, heating, ventilation, air-conditioning, electrical, and communications systems and services that are required for buildings in Canada. The applicable standards, codes (including Parts 6, 7, and 8 of the Ontario/National Building Codes) and regulations governing the design of these mechanical and electrical systems will also be examined.

39 Hours
Fee: $755

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9
Tuesday 18:30-21:30 Sep 10-Dec 10

Architectural Studio - Intermediate

Prerequisite(s): CKAR 103

An intermediate workshop in architectural design. Topics include architectural design elements and principles, forms and spaces, circulation and procession, social and symbolic systems, and architectural representation and presentation.

39 Hours
Fee: $755

Supplies to be purchased by student: T-square, set square, scale, instruments, pencils, paper. Allow $80 for these supplies and texts - do not purchase until after first session.
An intermediate course in technical specifications writing, the tendering process, contracts and construction contract forms, Canadian contractual laws, and contract administration. Students will be expected to complete a partial set of specifications.

Note: Prerequisite waived for APC students.

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Cost Estimating and Control
Prerequisite(s): (CKAR 300 or CKAR 102) and (CKAR 310 or CKAR 105)

An intermediate course in quantities surveying for cost estimation and control of construction works. Topics include measurement methods, standardized formats and forms, methods of estimations, and cost control and procedures. Students will be expected to complete a cost estimate of a small building.

Note: Prerequisite waived for APC students.

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16

Digital Graphics for Architecture and Design
Prerequisite(s): CKAR 209

An intermediate lecture/laboratory course on computer imaging, graphics and presentation techniques. Utilization of authoring software and hardware for data management, graphics design, and imaging (image capture, manipulation, and outputting).

Fall 2014
Monday 18:30-21:30 Jan 13-Apr 14

Spring/Summer 2014
Monday & Wednesday 18:00-21:30 May 5-Jun 18

This course focuses on the architectural history of Toronto from its earliest settlement to the present day. A comprehensive overview of each stylistic period, its social-technical setting, and significant buildings will be presented. Field trips and guest lectures will enhance the students’ understanding of the origins and related artifacts that make up the physical setting of one of the world’s most dynamic cities.

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12

Computer-Aided Architectural Drawing
Prerequisite(s): CKAR 215

An introductory/intermediate lecture/laboratory course in architectural drafting and technical drawing utilizing AutoCAD (a computer-aided drafting system). Students will also be given an introduction to basic computer operations (MS Windows), and will be expected to complete a partial set of architectural working drawings.

39 Hours
Fee: $755

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

Architectural Drawing
Prerequisite(s): CKAR 300

This is a comprehensive course in architectural drawing and drafting which includes such topics as architectural representation and drawing and drafting styles and techniques. Students will learn perspective, isometric, and orthographic drafting as well as technical drafting. The course will include selected elements of designing process and its graphic components such as conceptual drawings, presentation drawings, design development, and details and technical drawings.

39 Hours
Fee: $755

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15

Materials and Methods
Prerequisite(s): CKAR 310

This course introduces the methods and materials of building construction with an examination of construction systems and components including: foundations, walls, floors, roofs, doors and windows, and finishes. Materials of construction are introduced and placed into the context of the interconnected systems that make up buildings.

39 Hours
Fee: $755

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16

Sustainable Buildings
Prerequisite(s): CKAR 103 and CKAR 310

The built environment has a substantial impact on the environment, specifically on energy and material resources. This overview course examines the sustainable development of buildings by examining how building process, materials, methods, components, and systems affect the environment and how designers such as architects and engineers have alternatives to affect a smaller environmental footprint. The course will include case studies and may include a field trip and/or guest speakers.

39 Hours
Fee: $755

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Architectural Preservation and Conservation Techniques
Prerequisite(s): CKAR 610

This is an advanced level course on archaic and contemporary materials and methods for preservation and conservation of building structures. Students will be taught the properties, decay mechanisms, and the maintenance and repairs of different building materials. The manufacturing, identification and methods of assembly of these materials will also be examined. Researching, inspecting, recording, and assessing the condition and quality of building structures will be taught. Students will also be taught historical research techniques; destructive and non-destructive building testing, investigation, and inspection techniques; manual, photographic, and computer-aided extant recording techniques; and building repair assessment techniques.
ARTS AND CONTEMPORARY STUDIES

These courses give you the opportunity to develop your learning, research, ethical, and literacy competencies—important ingredients for success in any pursuit. They combine traditional education in the humanities with practical skills and theoretical approaches to deal with relevant societal issues. Arts and Contemporary Studies courses may be credited towards Ryerson University’s full-time degree program, which stresses foundational skills and a broad liberal arts education.

Contemporary Studies

Related certificate(s): Social Sciences and Humanities Foundations (pg. 137)

★ Ideas That Shape the World I
This course studies ideas shaping the contemporary world and arguments that invigorate and challenge our sense of what it means to live as an individual, citizen, and member of the complex, multifaceted, volatile global society. The focus is on these issues as they have arisen in a Canadian context: it studies the contribution of Canadian thinkers to global debates; and it challenges students to articulate their own responses to central issues of the contemporary experience.

39 Hours  Fee: $588

Fall 2013  Thursday  18:00-21:00  Sep 12-Dec 12
Winter 2014  Tuesday  18:30-21:30  Jan 14-Apr 15

★ Introduction to the Humanities
In this course students learn to identify a humanistic perspective, and analyze how this perspective can infuse our understanding of the world around us. Students are also introduced to the various ways in which this perspective is applied in Arts and Contemporary Studies—in particular in the program’s subject-based and interdisciplinary options—while gaining some of the academic skills relating to effective research, writing, and expression that they will require to excel in a university setting.

39 Hours  Fee: $565

Winter 2014  Tuesday  18:00-21:00  Jan 14-Apr 15

★ Ideas That Shape the World II
This course examines the work of some seminal thinkers, writers, religious leaders, and artists of antiquity. Beginning with the ancients, the course traces the development of intellectual traditions up to the Renaissance. These traditions develop and explore ideas about the origins and structure of the physical world, human existence, the relationship of the individual to communities, the concepts of the state and politics, and the sacred.

39 Hours  Fee: $613

Fall 2013  Wednesday  18:30-21:30  Sep 11-Dec 11
Winter 2014  Wednesday  18:30-21:30  Jan 15-Apr 16

★ Introduction to Culture Studies
This course introduces the concepts and debates about the nature of culture and the development of culture industries. Students will examine a range of perspectives on the ‘invention’ of art and the boundaries between high and low culture. The various meanings of ‘entertainment’ will be explored. The creation of ideas outside the dominant culture will also be addressed.

39 Hours  Fee: $557

Winter 2014  Thursday  18:00-21:00  Jan 16-Apr 17
Biology is the study of living organisms and systems, including tissues, cells, and the structure and function of macromolecules. These courses introduce you to the basic principles of biology, ecological and environmental issues, human biology, and microbiology.

**Anatomy and Physiology**

A systematic approach to the complexity of the human body. Lectures include integumentary system, defense mechanisms, cardiovascular, lymphatic and respiratory systems; exercise; the male and female reproductive systems; pregnancy; skeletal, muscular, nervous, endocrine, digestive and urinary systems; senses.

78 Hours  Fee: $852

Fall 2013
Wednesday 18:30-21:30  Sep 11-Apr 16
Winter 2014
Tuesday & Thursday 18:30-21:30  Jan 14-Apr 17
Spring/Summer 2014
Monday & Wednesday 18:30-21:30  May 5-Aug 11

Students must have taken Grade 12U Biology, OAC Biology, CBLG 90A/B, or CKBG 108 and CKBG 109, prior to taking this course.

**Biology I**

This course is an introduction to the cellular and molecular mechanisms in the cell. Topics include macromolecule structure and function, enzymes, cell membrane structure and function, cell cycle control, cell division, metabolism, and photosynthesis. Also included is an introduction to genetics and patterns of inheritance, gene expression and developmental biology. Laboratory exercises complement lectures.

58.5 Hours  Fee: $852

Fall 2013
Wednesday 18:00-21:00  Sep 11-Dec 11
and alternate Mondays (lab) 18:30-21:30  Sep 16-Dec 9
Spring/Summer 2014
Wednesday 18:00-21:00  May 7-Jul 30
and Mondays (lab) 18:00-21:00  May 5-Jun 23

Attendance at labs is mandatory. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.

Students must have taken Grade 12U Biology, OAC Biology, CBLG 90A/B, or CKBG 108 and CKBG 109, prior to taking this course.

**Prerequisite(s):** CBLG 143

**Microbiology I**

This course introduces the student to the principles of microbiology. Topics include the history of microbiology, a survey of the different types of microorganisms, prokaryotic cell structure and function, microbial nutrition and growth, microbial metabolism and its applications, and bacterial genetics and gene expression. An introduction to bacterial gene expression will also be covered. The laboratory exercises complement the lectures and introduce the student to basic microbiological techniques and applications.

78 Hours  Fee: $1127

Fall 2013
Monday 18:30-21:30  Sep 9-Dec 9
and Wednesday (lab) 18:30-21:30  Sep 17-Dec 11
Spring/Summer 2014
Monday & Wednesday 18:00-21:00  May 5-Jun 18
and Tuesday & Thursday (lab) 18:00-21:00  May 6-Jun 17

Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.

**Prerequisite(s):** CBLG 143 and CBLG 144

**Biology of a Living City**

This course will examine current selected topics in biology including cloning, today’s epidemics, genetically modified foods and environmental issues. Students will be introduced to many fundamental principles of modern biology as well as the history and ethics pertaining to the topics. This course is open to all arts students and has no secondary school biology requirement. (Formerly SCI 181). BLG 181 is not available for credit to students who choose BLG 143 or BLG 144. (LL)

39 Hours  Fee: TBA

Fall 2013
Thursday 18:30-21:30  Sep 12-Dec 12
Winter 2014
Monday 18:30-21:30  Jan 13-Apr 14
Spring/Summer 2014
Monday & Wednesday 18:00-21:00  May 5-Jun 18

**Prerequisite(s):** CBLG 143, CBLG 144

**Antirequisite:** CKBG 100

**New!**

**Hth Tools to Mng the Human Body**

This course examines scientific findings, cases, and tools that could help individuals manage future, sudden, serious problems that arise in the human body for themselves or significant others.

8 Hours  Fee: $99

Fall 2013
Thursday 18:00-20:00  Sep 12-Oct 3
Winter 2014
Thursday 18:00-20:00  Jan 16-Feb 6
Spring/Summer 2014
Tuesday 18:00-20:00  May 6-May 27

**Certificate and degree credit**  **Degree credit**  **Certificate credit**  **Course series**
NEW! The Science of Food Foundations  CKBG 110
Based on scientific evidence, this course examines the human body and healthy diets for adults in mid-life including fibre, protein, fat, and carbohydrate requirements.

8 Hours  HST included  Fee: $99

Introduction to Biological Principles  CKBG 90A/B
This course is a two-term introduction to the basic principles of biology. In the first term, topics discussed include the scientific method, essential chemistry and biomolecules, cell structure and function, cellular respiration and photosynthesis, genetics and inheritance, evolution, and biological diversity. In the second term, topics discussed include phylogeny, animal and plant physiology, ecology, and environmental issues.

Note: Formerly CKBG 108 and CKBG 109.

78 Hours  HST included  Fee: $1,480

An Academic Bridging Course (see the Chang School website at www.ryerson.ca/ce) which may be used to meet the Grade 12 U Chemistry requirement for Ryerson admission purposes. Please note that mature student applicants will be considered on an individual basis. Please contact Undergraduate Admissions and Recruitment for details.

BUSINESS ANALYSIS

These courses will help you develop the expertise to make effective use of the vast amount of data available in business today.

Quantitative Methods

All CQMS course fees include a $10 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Accounting – Finance (pg. 22), Business Decision Analysis (pg. 34), Business Management (pg. 36), Financial Management in Canada (pg. 67), Financial Planning (pg. 70), Retail Management (pg. 134)

★ Business Statistics I  CQMS 102
Antirequisite(s): QMS 204, QMS 400

This course consists of an introduction to business statistics including methods of describing, summarizing, graphically presenting, measuring and analyzing statistical data, probability distributions, covariance applications, sampling distributions and control charts. The course emphasizes how to apply various statistical techniques in the support of managerial decisions in the various functional areas of business. Students will be required to use appropriate computer software and/or calculator to present and analyse statistical data.

Supplies needed: Software and calculator specifications will be announced at the first session. Students require access to a computer with Microsoft Windows. Calculators are not required for Internet classes.

★ Business Statistics II  CQMS 202
Prerequisite(s): CQMS 102 or QMS 204 or Direct Entry
Antirequisite(s): QMS 230

This course builds on the concepts introduced in QMS 102. Some of the topics to be studied follow: confidence interval estimation, hypothesis testing of means, variances, proportions, independence, and simple/multiple regression with applications to forecasting. The course emphasizes how to apply various inferential statistical techniques in the support of managerial decisions in the various functional areas of business. SPSS and/or programmable calculators are used.

**Multiple Regression for Business**  
*CQMS 442*

This course makes a comprehensive examination of both multiple regression and analysis of variance, the most commonly used statistics tools used in business, emphasizing model appropriateness for given business problem and followed by a critical analysis of any assumptions and an assessment of the model accuracy. A real-life project is used to demonstrate the practical use of the techniques. The course is supported by appropriate statistical software.

★ Business Optimization  
*CQMS 521*

**Prerequisite(s):** CQMS 202 or QMS 230 or Direct Entry

This course is designed to help the prospective manager define the management decision-making process and become familiar with the Operations Research and other linear techniques in practice today. Students will learn to recognize decision situations amenable to O.R. analysis through exposure to the analysis of business problems using model formulation and problem-solving techniques. Analysis will be done using appropriate of software and platforms with an emphasis on output interpretation.

COURSES

CARIBBEAN STUDIES

These courses will explore topics of culture, race, ethnicity, religion, and the social, economic, and political developments in the diverse Caribbean region.

- **Introduction to the Caribbean**
  - **Antirequisite(s):** SYC 183
  - **CCRB 100**
  - This course will focus on the similarities in historical development of the different societies in the Caribbean region and the common institutional structures and challenges that persist, despite the diversity of language and culture, race, ethnicity and religion. The course will examine the relationship between physical resources and social, economic and political developments within the colonial and neocolonial context and the resulting systems of inequality. (LL)
  - 39 Hours  Fee: $565
  - **Fall 2013**
    - Tuesday 18:30-21:30 Sep 10-Dec 10
  - **Winter 2014**
    - Distance: Internet 18:30-21:30 Jan 11-Apr 12
    - Tuesday 18:30-21:30 Jan 14-Apr 15
  - **Spring/Summer 2014**
    - Distance: Internet 18:00-21:00 May 3-Jul 26
    - Tuesday & Thursday 18:00-21:00 May 6-Jun 17

  For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

- **Families in the Caribbean**
  - **CCRB 500**
  - The Caribbean region is composed of peoples from different geographic and cultural areas of the world. This course will explore the major historical influences which define the present diverse structure and composition of families within the Caribbean region. It will examine how these structures have changed in response to globalization, the declining influence of religion, shifts in migration, changes in economic conditions and state policies, and in gender, race and ethnic relations. (UL)
  - 39 Hours  Fee: $547
  - **Fall 2013**
    - Thursday 18:30-21:30 Sep 11-Dec 11
  - **Winter 2014**
    - Thursday 18:30-21:30 Jan 15-Apr 16
  - **Spring/Summer 2014**
    - Tuesday & Thursday 9:30-13:00 May 5-Jun 18

- **Racism and Caribbean Peoples in Canada**
  - **CCRB 501**
  - The immigration of Caribbean peoples to Canada will be analyzed within the context of Canadian immigration laws and practices, labour market demands, and institutional responses to racial and ethno-cultural diversity. The major focus of the course will be on the establishment and growth of the Caribbean population in Canada, including employment, business and settlement patterns, changes to family structure, development of Caribbean organizations and community development activities, and issues of systemic and individual racism. (UL)
  - 39 Hours  Fee: $547
  - **Fall 2013**
    - Wednesday 18:30-21:30 Sep 11-Dec 11
  - **Winter 2014**
    - Wednesday 18:30-21:30 Jan 15-Apr 16
  - **Spring/Summer 2014**
    - Wednesday 9:30-13:00 May 7-Jul 30

- **Cultural Traditions in the Caribbean**
  - **CCRB 502**
  - This course analyzes the evolution and social significance of cultural traditions in the Caribbean, leading to an understanding of contemporary popular traditions. The course examines the ethnic, racial and cultural diversity of the area, as a source of distinct cultural traditions; the impact of foreign influences; and the export of Caribbean cultural forms to the international area. (UL)
  - 39 Hours  Fee: $547
  - **Fall 2013**
    - Monday 18:30-21:30 Sep 9-Dec 9
  - **Winter 2014**
    - Monday 18:30-21:30 Jan 13-Apr 14
  - **Spring/Summer 2014**
    - Monday & Wednesday 9:30-13:00 May 5-Jun 18

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
These courses are of interest to professionals in the chemical and biological fields as well as those seeking to upgrade their skills and theoretical background in specific topics.

NEW!

» General Chemistry I  CCHY 103
Atomic structure, stoichiometry, gases, chemical equilibrium, acids and bases, aqueous equilibria, thermochemistry, energy.

39 Hours  Fee: $563

Fall 2013  
Tuesday  18:00-21:00  Sep 10-Dec 10
Winter 2014  
Tuesday  18:00-21:00  Jan 14-Apr 15
Spring/Summer 2014  
Tuesday & Thursday  18:00-21:00  May 6-Jun 17

» Chemistry Applications to Living Systems  CCHY 182

The emphasis of this course will be on understanding chemistry and the role it plays in everyday life, particularly to those who live in an urban environment. The course will endeavor to have a conceptual and contextual focus rather than a quantitative approach, relating chemistry to urban/environmental issues with particular reference to life in Toronto where possible. Topics could include water/sewage treatment, air pollution, energy sources, soil chemistry, foods, and industrial chemistry (polymer, petroleum, pharmaceutical, etc). The curriculum could also include sections on street drugs, cosmetics, chemistry in the movies, and forensic chemistry. (Formerly SCI 182). (May not be used as a credit towards a science degree). CHY 182 is not available for credit to students who choose CHY 103 or CHY 113. (LL)

39 Hours  Fee: $TBA

Spring/Summer 2014  
Tuesday & Thursday  18:00-21:00  May 6-Jun 17

» Introduction to Forensic Sciences  CCHY 183
The popularity of TV shows depicting the science of criminal investigations has impacted the way forensic science is viewed by the public and media. This course will provide non-science students with an introduction to the field of forensic science. Students will develop an appreciation of the critical methods of scientific investigation, reasoning, and communication. Topics will include techniques of chemical analysis, physical investigation, and the role of expert witnesses in crime scene investigations. (Formerly SCI 183). (LL)

39 Hours  Fee: $TBA

Fall 2013  
Monday  18:30-21:30  Sep 9-Dec 9
Winter 2014  
Thursday  18:30-21:30  Jan 16-Apr 17
Spring/Summer 2014  
Monday & Wednesday  18:00-21:00  May 5-Jun 18

» Organic Chemistry II  CCHY 242

This course includes the mechanistic approach to the study of organic reactions and includes condensation reactions, aromatic chemistry and pericyclic reactions. Also included are spectroscopic methods of structure determination, organic synthesis and the use of organometallic reagents.

39 Hours  Fee: $563

Winter 2014  
Tuesday  18:00-21:00  Jan 14-Apr 15
Spring/Summer 2014  
Tuesday & Thursday  18:00-21:00  Jun 24-Aug 7

Introduction to Chemistry  CKCH 90A/B
This course is a two-term introduction to chemistry. In the first term, topics discussed include atomic structures, electronic configurations, bonding, formulae, nomenclature, the mole concept, chemical reactions, and stoichiometry. In the second term, topics discussed include gases, liquids and bases, chemical equilibria, electrochemistry, nuclear chemistry, and organic chemistry.

Note: Formerly CKCH 108 and CKCH 109.

78 Hours  Fee: $1480

Fall 2013  
Thursday  18:00-21:00  Sep 12-Apr 17
Spring/Summer 2014  
Tuesday & Thursday  18:00-21:00  May 6-Aug 5

An Academic Bridging Course (see the Chang School website at www.ryerson.ca) which may be used to meet the Grade 12 U Chemistry requirement for Ryerson admission purposes. Please note that mature student applicants will be considered on an individual basis. Please contact Undergraduate Admissions and Recruitment for details.

» General Chemistry Laboratory  CKCH 107
Corequisite(s): CKCH 106 or CCHY 103

Experiments cover the following topics: determination of water hardness, solution preparation, acid-base titration, calorimetry, solubility equilibria, and chemical kinetics. Equivalent to the laboratory portion of CHY 113.

39 Hours  Fee: $593

Winter 2014  
Tuesday  18:30-21:30  Jan 14-Apr 15
Thursday  18:00-21:00  Jan 16-Apr 17
Spring/Summer 2014  
Monday & Wednesday  18:00-21:00  May 5-Jun 18

Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.

» General Chemistry II  CKCH 113
Prerequisite(s): KCH 106 or CCHY 103

Electrochemistry, atomic theory, bonding, liquids and solids. Solutions, representative elements, transition metals, nuclear chemistry. Equivalent to the lecture portion of CHY 113.

39 Hours  Fee: $582

Winter 2014  
Tuesday  18:30-21:30  Jan 14-Apr 15
Thursday  18:00-21:00  Jan 16-Apr 17
Spring/Summer 2014  
Tuesday & Thursday  18:30-21:30  Jun 24-Aug 7

» Organic Chemistry I  CKCH 142
Prerequisite(s): CKCH 103 or CKCH 113 or CKCH 106

This is an introductory course based on the mechanistic approach to the study of organic reactions, and includes functionality, IUPAC nomenclature, structural and stereoisomerism, oxidation and reduction, nucleophilic additions, nucleophilic substitutions, eliminations, electrophilic additions of aliphatic compounds. Lecture portion of CHY 142.

39 Hours  Fee: $593

Fall 2013  
Monday  18:30-21:30  Sep 9-Dec 9
Wednesday  18:30-21:30  Sep 11-Dec 11
Spring/Summer 2014  
Monday & Wednesday  18:00-21:00  May 5-Jun 18
This laboratory course will cover the techniques involved in using the primary wet chemical tools: distillation, extraction, recrystallization, filtration, and rotary evaporation. Measurement of refractive index, melting point, and boiling point as well as some simple syntheses; isolation and purification operations will be carried out. Laboratory portion of CHY 142.

40 Hours Fee: $593

Prerequisite(s): CHY 142 or CHY 200 or CHY 142
Corequisite(s): CKCH 225

This course deals with the structures, functions, chemistry and food applications of proteins, carbohydrates, lipids and nucleic acids. Also included is an introduction to enzymology (coenzymes, nomenclature and classifications of enzymes and enzymatic control of biochemical reactions). Lecture portion of BCH 261.

40 Hours Fee: $605

Prerequisite(s): CKCH 142 or CHY 200 or CHY 142 and CBLG 143 and CBLG 144
Corequisite(s): CKCH 225

The laboratory provides an introduction to the basic biochemical techniques including chromatography, electrophoresis, and spectrophotometry. Laboratory portion of BCH 261.

39 Hours Fee: $656

Prerequisite(s): CKCH 142 and CKCH 143 or CHY 142
Corequisite(s): CKCH 225

This course will provide students with practical skills and tools needed to become effective peer mentors and leaders. Students will also develop skills to enhance their individual career, academic, and personal goals. Students will participate in a reflective learning process where their mentoring experiences are shared with other students. They will learn how to transfer these skills (learned through mentoring and course work) to career and academic objectives.

30 Hours Fee: $TBA

Prerequisite(s): Department consent
Corequisite(s): CKIH 200

By in-person registration only. For further details, please contact Sarah Kovacs, First Year and Common Science Office, at the Faculty of Science at skovacs@ryerson.ca.
CHILD AND YOUTH CARE

Child and youth care is a practice-based discipline, with roots in psychology, sociology, medicine, social work, and education. The following courses will allow you to explore a field focused on research and practice which integrates developmental, preventative, and therapeutic requirements into the life space of children, youth, families, and communities. For more information, visit www.ryerson.ca/ce/cyc.

Management in Human Service Organizations
CCYC 505
Introduces students to the concepts and vocabulary of organizational behaviour and its application to the practice of management and supervision in organizations that serve children and youth. Topics include organizational theories and structures, job design, work motivation, performance appraisal, staff recruitment, training and retention, and organizational leadership and supervision. Case studies will facilitate applications of course material.

Note: Completion of second year of Child and Youth Work Diploma or permission of the instructor is required to enroll in this course.

39 Hours Fee: $559

Fall 2013
Distance: Internet
Sep 7-Dec 7
For information on distance education, visit www.ryerson.ca/ce/de.

Children’s Rights
CCYC 602
The United Nations Convention on the Rights of the Child is examined. The convention is explored within the framework of human rights principles and citizenship. Policy and practice implications will be considered through the lens of child rights approach. Consideration will be given to understanding children’s development as “citizens” and children’s participation in society.

Note: Completion of second year of Child and Youth Work Diploma or permission of the instructor is required to enroll in this course.

39 Hours Fee: $559

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

Ecological Perspectives in CYC
CCYC 702
An ecological approach is used as a conceptual framework for understanding the behaviours of children and adolescents. Structural, biological, psychological, social, cultural and familial factors will be examined. A variety of theoretical viewpoints will be used to examine the multiple systems in which Child and Youth Care practice occurs. Child and Youth Care practice, which is strength-based, holistic and founded upon a set of established ethical principles will be explored from multiple perspectives.

Note: Completion of second year of Child and Youth Work Diploma or permission of the instructor is required to enroll in this course.

39 Hours Fee: $559

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

Intensive In-Home Family Support
CCYC 800
Focuses on a Child and Youth Care Approach to working with families. Topics covered include: characteristics of a CYC approach and effective workers; history and culture; context of interventions; understanding behaviour in context; meaning-making; a CYC process of intervention; the role of self in family work; and reflection in practice. Special emphasis is placed on working with families in their home and community.

39 Hours Fee: $563

Spring/Summer 2014
Classroom/Internet: Internet 9:00-16:30
and Wednesday-Friday: Jul 2-Jul 4
For information on distance education, visit www.ryerson.ca/ce/de.

Psycho-Educational Support
CCYC 801
Psycho-educational support is an essential component of school success for children and youth who have experienced trauma, are lacking supportive environments outside of school, or are diagnosed with mental health problems. This course will explore the role of the child and youth worker in the school and develop skills for supporting individuals and groups of children; working with teachers; understanding the school environment; and advocating for social-emotional needs of children and youth.

39 Hours Fee: $563

Spring/Summer 2014
Distance: Internet
May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

Incident Response with Children and Youth
CCYC 802
Prerequisite(s): CCYC 602 or CCYC 702

This course builds on previous knowledge of theoretical orientations to therapeutic relationships. Crisis theory is examined within a developmental-ecological perspective. Introduces students to critical incident debriefing protocols and first and second order crisis intervention responses to catastrophic situations. The focus is on interventions with children and youth within their milieu by front line children’s service personnel.

39 Hours Fee: $563

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

Integrated Case Management
CCYC 804
Prerequisite(s): CCYC 602 and CCYC 605

Child and youth care practitioners are often required to liaise with other professionals and placed in a case management/co-ordination role by virtue of their contact with the child/youth and his/her family in the day to day environment. This course will develop knowledge and skills in inter-disciplinary consultation; understanding and using assessment reports; documentation case planning; accessing resources; service co-ordination and an introduction to multi-disciplinary teamwork.

39 Hours Fee: $563

Fall 2013
Distance: Internet
Sep 7-Dec 7
For information on distance education, visit www.ryerson.ca/ce/de.

Residential Care Techniques
CCYC 808
This course, founded in contemporary, competency-based Child and Youth Care practice, explores approaches, strategies, and techniques in residential care. Areas covered will include: approaches to group care, characteristics of effective programs, family involvement; intervention planning; needs based interventions; therapeutic discipline, crisis and opportunity; activities and the role of supervision. This course is equivalent to CVCY 104.

39 Hours Fee: $563

Winter 2014
Distance: Internet
Jan 11-Apr 12
Spring/Summer 2014
Distance: Internet
May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.
CHINESE

These courses offer opportunities to increase your professional qualifications. In order to choose an appropriate course level, you are advised to consult the guidelines on the Department of Languages, Literatures, and Cultures website at www.ryerson.ca/llc. Students who have no knowledge of Chinese at all may enrol directly into CCHN 101. However, all students must take the Chinese Placement Test at www.ryerson.ca/llc/placementtest/index.html or attend one of our interview/placement assessment sessions. The following are language courses designed for non-native speakers. For more information, visit www.ryerson.ca/ce/chinese.

♣ Introductory Chinese I  CCHN 101
Antirequisite(s): MDN 101

This course is designed to help students with no prior background in Mandarin to develop functional communication abilities in all four language skills. Using the standard Hanyu Pinyin phonetic system, a variety of authentic materials, vocabulary and sentence patterns, students will learn to make statements, ask questions, respond to questions and create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write 250 characters. An online placement test is required. (LL)

39 Hours  Fee: $610

Fall 2013
Monday 18:00-21:00  Sep 9-Dec 9
Winter 2014
Monday 18:00-21:00  Jan 13-Apr 14
Spring/Summer 2014
Monday & Wednesday 9:30-12:30  May 5-Jun 18
Monday & Wednesday 18:00-21:00  May 5-Jun 18

♣ Introductory Chinese II  CCHN 201
Antirequisite(s): MDN 201

This course is designed for students with some background in Mandarin to develop functional communication abilities in all four language skills. Using the standard Hanyu Pinyin phonetic system, a variety of authentic materials, vocabulary and sentence patterns, students will learn to make statements, ask questions, respond to questions and create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write 350 characters. An online placement test is required. (LL)

39 Hours  Fee: $610

Fall 2013
Tuesday 18:00-21:00  Sep 10-Dec 10
Winter 2014
Tuesday 18:00-21:00  Jan 14-Apr 15
Spring/Summer 2014
Tuesday & Thursday 18:00-21:00  May 6-Jun 17
Monday & Wednesday 9:30-12:30  Jun 23-Aug 11
Monday & Wednesday 18:00-21:00  Jun 23-Aug 11

♣ Intermediate Chinese I  CCHN 301
Antirequisite(s): MDN 301

This course is designed for students with some background in Mandarin to improve their functional communication abilities in all four language skills. Using the standard Hanyu Pinyin phonetic system, a variety of authentic materials, vocabulary and sentence patterns, students will learn to make statements, ask questions, respond to questions and create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write 800 Chinese characters. (LL) (UL)

39 Hours  Fee: $610

Fall 2013
Wednesday 18:00-21:00  Sep 11-Dec 11
Winter 2014
Wednesday 18:00-21:00  Jan 15-Apr 16
Spring/Summer 2014
Monday & Wednesday 18:00-21:00  May 5-Jun 18
Tuesday & Thursday 18:00-21:00  Jun 24-Aug 7

♣ Intermediate Chinese II  CCHN 401

This course is for students with some background in Mandarin who wish to improve their communication abilities in all four language skills. Using the standard Hanyu Pinyin phonetic system and a variety of authentic materials, students will learn to make statements, ask questions, respond to questions and create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write over 1000 Chinese characters. (LL) (UL)

39 Hours  Fee: $610

Winter 2014
Thursday 18:00-21:00  Jan 16-Apr 17
Spring/Summer 2014
Monday & Wednesday 18:00-21:00  Jun 23-Aug 11
COMMUNICATION

These courses can help you develop a high level of skill in written and oral communications and are especially relevant to business and government environments. They focus on building and integrating writing, analytical, and research skills so that your business presentations make your point and achieve your purpose.

Communication

Related certificate(s): Architecture, Advanced (pg. 32), Business Communication (pg. 33), Business Decision Analysis (pg. 34), Community Engagement, Leadership, and Development (pg. 38), Design for Arts and Entertainment (pg. 45), Design Management (pg. 46), Entrepreneurship and Multiculturalism (pg. 55), Facility Management (pg. 62), Financial Management in Canada (pg. 67), Health Services Management (pg. 81), Health Studies (pg. 83), Occupational Health and Safety (pg. 111), Project Management (pg. 119)

★ Short Management Reports

This writing-intensive workshop course helps students gain the proficiency needed to meet the communication demands of contemporary management tasks. Participants learn to focus their purpose, analyze their audiences, and compose a variety of informative and persuasive documents, such as instructional and motivational memoranda, policy change reports, and new venture proposals. A module on planning, outlining and delivering professionally-related oral presentations to peers, management and industry partners completes this workshop designed to refine key written and oral skills for success in today's workplace.

39 Hours  Fee: $575

Fall 2013
Distance: Internet  Sep 7-Dec 7
Tuesday  18:30-21:30
Wednesday  18:30-21:30

Winter 2014
Distance: Internet  Jan 11-Apr 11
Thursday  18:30-21:30

Spring/Summer 2014
Distance: Internet  May 3-Jul 26
Monday & Wednesday  18:30-21:30

For information on distance education, visit www.ryerson.ca/ce/de.

★ Communication in BTM

This course emphasizes analysis, organization, tone, style and strategy in the development of effective written and oral communications. Data collection and report documentation are included. This course is specifically designed for students in the Information Technology Management program.

39 Hours  Fee: $581

Winter 2014
Tuesday  18:30-21:30
Spring/Summer 2014
Monday & Wednesday  18:30-21:30

★ Retail Management Communication

This workshop course introduces students to the theory and strategies of successful written and oral communications in retail management. Students apply communication theory in a variety of activities based on specific professional situations, and practice selecting and organizing pertinent information. They learn to express ideas clearly, develop sensitivity to audience and tone, and produce oral and written messages that are well received and acted upon in the manner intended by the author.

39 Hours  Fee: $581

Fall 2013
Distance: Internet  Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

★ Introduction to Professional Communication

This case-based, interactive course introduces students to contemporary strategies of successful communication in professional contexts. Students learn how to analyze audience, situation, and medium to create messages that respond to practical challenges and build productive relationships. Students develop sensitivity to language and tone, learn to organize and convey ideas and information, and select the best means to accomplish their intended purposes.

39 Hours  Fee: $570

Fall 2013
Distance: Internet  Sep 7-Dec 7
Tuesday  18:30-21:30
Wednesday  18:30-21:30
Thursday  18:30-21:30
Friday  18:30-21:30

Winter 2014
Distance: Internet  Jan 11-Apr 11
Friday  18:15-21:30

Spring/Summer 2014
Distance: Internet  May 3-Jul 26
Monday & Wednesday  18:30-21:30

For information on distance education, visit www.ryerson.ca/ce/de.

★ Career Advancement Communication

This course aims to develop the communication skills and strategies necessary to meet the challenges of the current workplace. With particular focus on the job search and career development, course content covers such topics as research and interviewing, persuasive writing and speaking, developing a professional image and making effective communication decisions.

39 Hours  Fee: $563

Fall 2013
Thursday  18:30-21:30

Winter 2014
Classroom/Internet: Internet  Jan 4-Apr 5
and Thursday  18:30-21:30
and Thursday  18:30-21:30
and Thursday  18:30-21:30
and Thursday  18:30-21:30
and Thursday  18:30-21:30

Spring/Summer 2014
Tuesday & Thursday  18:30-21:30

For information on distance education, visit www.ryerson.ca/ce/de.

★ Organizational Problem Solving and Report Writing

Organizational Problem Solving and Report Writing focuses on the selection, treatment and solution of a complex problem in an organization, through the development and preparation of a formal, analytical report. Students learn how to identify a problem, define its purpose, customize a message for multiple audiences, create a work plan, apply primary and secondary research methods, and structure an argument logically and persuasively. Students will strengthen their critical thinking skills as they evaluate findings and formulate conclusions and recommendations.

39 Hours  Fee: $563

Winter 2014
Distance: Internet  Jan 11-Apr 12
Tuesday  18:30-21:30
and Thursday  18:30-21:30

Spring/Summer 2014
Distance: Internet  May 3-Jul 26
Monday & Wednesday  18:30-21:30

For information on distance education, visit www.ryerson.ca/ce/de.
Successful professionals achieve their objectives by consistently delivering meaningful presentations to diverse, demanding audiences. High expectations and extensive technology often complicate rather than improve the presenter’s ability to communicate effectively. In this essential course, students learn to structure content coherently, develop poise and confidence, and employ technology in a sophisticated way to connect with their listeners.

**Professional Presentations**  
CCMN 314

| Fall 2013   | 18:30-21:30 | Sep 10-Dec 10       |
| Winter 2014 | 18:30-21:30 | Jan 14-Apr 15       |
| Spring/Summer 2014 | 18:30-21:30 | May 5-Jun 18       |

**Issues in Communication and the Contemporary Workplace**  
CCMN 315

Effective communication has always been an essential component of business. It is particularly important today, when business people communicate in increasingly complex and diverse workplaces. They must deal with ethical dilemmas, intensifying organizational change, global and multicultural partners, increased specialization, and constant technological developments. Using practical examples and case studies, this course both explores communication challenges that business professionals face today and helps them develop strategies and practices designed for the contemporary workplace.

| Winter 2014 | 18:30-21:30 | Jan 14-Apr 15       |
| Spring/Summer 2014 | 18:30-21:30 | May 5-Jun 18       |

**Fashion Communication: Professional Approaches**  
CCMN 373

In this course for the Fashion Communication and Design options, students learn fundamental concepts which are applied to correspondence, reports, oral presentations, media relations, and the job search. The emphasis is on analyzing audience and purpose; controlling language, style, and tone; and choosing communication strategies appropriate to a variety of professional situations.

| Winter 2014 | 18:30-21:30 | Jan 14-Apr 15       |

**Corporate Communications**  
CCMN 413

How does a company communicate its reputation and image and manage these intangible features when damaged? Through examining high-level communication strategies and products, students develop sensitivity to the language, formats, and images organizations use to manage their concerns. Students also practice skills corporate communication professionals employ to communicate with a variety of audiences.

| Fall 2013    | 18:30-21:30 | Sep 9-Dec 9       |
| Winter 2014 | 18:30-21:30 | Jan 14-Apr 15       |

**Interpersonal Communication in Management**  
CCMN 414

In this workshop course, students participate in a variety of group and individual exercises designed to develop the interpersonal skills necessary for effective management. Emphasis is placed on understanding how varied backgrounds, personalities, and cultural perspectives affect group processes such as problem solving, decision making, resolving conflict, and negotiating. Some sessions may be videotaped.

| Fall 2013    | 18:30-21:30 | Sep 12-Dec 12       |
| Winter 2014 | 18:30-21:30 | Jan 16-Apr 17       |

**Communication in the Engineering Professions**  
CCMN 432

Communication lies at the heart of what engineers do. This course introduces students to the unique and varied communication challenges of their profession. Through a combination of lectures, readings, and workshops, students are exposed to the types of communication they will engage in as professionals and given the opportunity to refine their analytical, writing, presentation, and problem-solving skills.

*Note: CLER, CLEC, CLEG degree program students must take CVL 743 as a corequisite to this course.*

**Contemporary Intercultural Communication**  
CCMN 443

In today's global environment, success or failure of almost any venture requires a clear understanding of intercultural issues. In this course, various communication strategies and theoretical frameworks are analyzed in cultural context.

| Fall 2013    | 13:00-15:00 | Sep 8-Dec 11       |
| Winter 2014 | 18:00-20:00 | Jan 14-Apr 15       |
| Spring/Summer 2014 | 18:00-22:00 | May 5-Aug 25       |

**Communication and Law**  
CCMN 447

Communication practitioners must understand how law matters in every day communication and be cognizant of the principles, institutions, and practices that regulate communication in a range of media and contexts. In this case and theory-based course, students explore the intersections of communication and law through study of legal discourse and semiotics; the social and technological contexts of communication that provoke and challenge legal regulation; freedom of expression; and the legal frameworks for the protection of consumers, individual privacy, and intellectual property in the digital age.

| Fall 2013    | 18:30-21:30 | Sep 11-Dec 11               |
| Winter 2014 | 18:30-21:30 | Jan 15-Apr 16               |

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
This challenging course introduces students to the study of Visual Communication. Students explore how visual images persuade us to act and think in certain ways. They learn a vocabulary of visual meaning-making (i.e., a visual language). Building upon the vocabulary, they learn how images can be rhetorical and persuasive within a professional context. Further, they learn how visual images manipulate and become manipulated by a surrounding visual culture. It is recommended that students should be in their third or fourth year of study.

Disaster and Emergency Incident Communications  CDCM 125
This course introduces the practical skills, strategies, and basic tools required to prepare and manage effective internal and external communications before, during, and after a crisis. The course examines real problems requiring real solutions and builds competencies in writing messages for multiple emergency scenarios, preparing alerts and announcements, staging press conferences, media relations building information hotlines and websites, crisis psychology using ethically sound communications strategies, audience control, and collaborating with other emergency teams.

39 Hours  Fee: $755

Fall 2013
Monday 18:30-21:30  Sep 9-Dec 9
Winter 2014
Monday 18:30-21:30  Jan 13-Apr 14
Spring/Summer 2014
Monday & Wednesday 18:30-21:30  May 5-Jun 18

Communicating in Virtual Environments  CDCM 300
Prerequisite(s): CCMN 279

This course introduces students to the unique opportunities and challenges of communicating in virtual environments. Experiential exercises and individual and group assignments will help students develop effective interpersonal skills for tele-, audio-, and video-conferencing and computer-mediated teamwork. Topics covered include effective remote leadership, building trust, global project communication, concision, and persuasion and disclosure in emails and instant messaging. The delivery of this course will allow students to practice both virtual teamwork and face-to-face collaboration.

39 Hours  Fee: $586

Winter 2014
Monday 18:30-21:30  Jan 13-Apr 14
Spring/Summer 2014
Monday & Wednesday 18:30-22:00  May 5-Jun 18

Promotional Communications  CDMC 415
The art of promotion is fundamental to the selling of products, services, and ideas. In this innovative course, students use a range of media and communication strategies to put the theory and ethics of promotion into practice. Students learn how to meet the challenges of bringing a new product or service to market from beginning to end and how to communicate with internal stakeholders and target audiences to promote the new initiative successfully. This course enables students to experience firsthand the dynamics of conceiving, developing, and executing a promotional campaign, as well as equips them with the skills needed to engage effectively in the marketing communications process. (Formerly CCMN 415)

39 Hours  Fee: $586

Fall 2013
Monday 18:30-21:30  Sep 9-Dec 9
Winter 2014
Monday 18:30-21:30  Jan 13-Apr 14

The following courses can develop your computer expertise in two key areas. Some courses focus on language programming and operating systems; these are particularly recommended if your interests lie in technical or system support. Other courses focus on using computers to solve engineering or technical problems. In these, the emphasis is on learning how to translate problems into an appropriate mathematical form.

Note: Written approval is required before undergraduate degree program students can register in these courses. For more information, see Engineering Students on the Chang School website at www.ryerson.ca/ce.

Computer Science

Related certificate(s): Computer Programming Applications (pg. 40), Financial Mathematics Modeling (pg. 69)

Computer Science I  CCPS 109
An introductory programming course designed to introduce fundamental Computer Science concepts such as abstraction, modelling and algorithm design. Emphasis is placed on producing correct software. This course uses Java as its programming language.

65 Hours  Fee: $1206

Fall 2013
Wednesday and Friday 18:30-21:30  Sep 11-Dec 11
and Friday 18:30-20:30  Sep 13-Dec 13
Winter 2014
Monday and Friday 18:30-21:30  Jan 13-Apr 14
and Friday 18:30-20:30  Jan 10-Apr 18
Spring/Summer 2014
Monday, Wednesday and Friday 18:00-22:00  May 5-Jun 18
and Friday 18:30-20:30  May 9-Jun 13

Computer Science II  CCPS 209
Prerequisite(s): CCPS 109

A continuation of CPS 109. Emphasis is placed on code optimization, algorithm and program correctness. Fundamental Computer Science Algorithms will be introduced.

52 Hours  Fee: $1035

Fall 2013
Monday 18:00-21:00  Sep 9-Dec 9
Winter 2014
Tuesday 18:00-22:00  Jan 14-Apr 15
Spring/Summer 2014
Tuesday & Thursday 18:00-22:00  May 6-Jun 17

Data Structures  CCPS 305
Prerequisite(s): CCPS 209 and CCPS 393

Introduction to data structures and algorithms. Topics may include ADTs, restricted lists (stacks and queries), generalized lists, trees, searching, sorting, hashing, graphs, algorithm design, complexity analysis, recursion.

52 Hours  Fee: $742

Fall 2013
Thursday 18:00-21:00  Sep 12-Dec 12
Winter 2014
Thursday 18:00-22:00  Jan 16-Apr 17
Spring/Summer 2014
Monday & Wednesday 18:00-22:00  Jun 23-Aug 11
This course further explores the Object-Oriented paradigm emphasizing the Object Model and relationships between the various artifacts. The pure Smalltalk language is introduced to reinforce the OO paradigm. The Unified Modeling Language to capture the objects, classes, and their relationships is studied in considerable depth with a major analysis and initial design project done in teams. A reasonably complete coverage of C++ is presented. Time permitting, OO features of other languages will be discussed.

39 Hours Fee: $608

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9
Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Monday & Wednesday 18:30-21:30 May 5-Jun 18

Introduction to C and UNIX

The course covers various aspects of the C language such as: Arrays, strings, pointers, structures, etc. The second part of the course introduces UNIX operating systems. Topics include: I/O, redirection, processes, shell scripts, etc.

52 Hours Fee: $640

Fall 2013
Monday 18:00-22:00 Sep 9-Dec 9
Winter 2014
Wednesday 18:00-22:00 Jan 15-Apr 16
Spring/Summer 2014
Monday & Wednesday 18:00-22:00 May 5-Jun 18

It is recommended students take CCPS 109 before CCPS 393.

Introduction to Software Engineering

This course introduces the study of Object-Oriented software engineering. Topics include software project management, requirements gathering, requirements analysis, modeling, design, implementation and testing. UML diagrams and design patterns are also discussed. A major portion of the course is a team project, taking a system from the initial requirements to the final implementation. (2 hr Lab every other week).

52 Hours Fee: $773

Fall 2013
Monday 18:00-22:00 Sep 9-Dec 9
Spring/Summer 2014
Monday & Wednesday* 18:00-22:00 Jun 23-Aug 11
*Includes three lecture hours and one lab hour.

Database Systems I

Advanced file management techniques involving fundamentals of database organization, design and management. Emphasis is given to Relational Database Management Systems including relational algebra, normal forms, physical database structures and their implementation, and relational database languages. Other types of database managers are also discussed such as hierarchical, network and inverted files.

52 Hours Fee: $742

Fall 2013
Wednesday 18:00-21:00 Sep 11-Dec 11
Spring/Summer 2014
Tuesday & Thursday 18:00-22:00 May 6-Jun 17

Introduction to Operating Systems

Introduction to O/S (system calls, interrupts, synchronous and asynchronous traps, O/S structure), using processes (process communication and synchronization), primitive communications (signals and signal management calls), pipes, messages, semaphores, shared memory, memory management, file systems, and (time permitting) remote procedure calls.

52 Hours Fee: $812

Spring/Summer 2014
Monday & Wednesday 18:00-22:00 May 5-Jun 18

Database Systems II

52 Hours Fee: $742

Fall 2013
Tuesday 18:00-21:00 Sep 10-Dec 10
Winter 2014
Tuesday 18:00-22:00 Jan 14-Apr 15
Spring/Summer 2014
Monday & Wednesday 18:00-21:00 May 5-Jun 18

Human-Computer Interaction

This course introduces the concepts of human-computer interaction and usability testing. Topics include: human information processing, usability principles, models of interaction, user interface paradigms, design of user interfaces. Students will also learn how to develop Graphical User Interfaces using a specific User Interface Management system. (2 hr. Lab every other week).

52 Hours Fee: $742

Winter 2014
Monday 18:00-22:00 Jan 13-Apr 14

Computer Networks I

39 Hours Fee: $541

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Monday & Wednesday 18:30-21:30 Jun 23-Aug 11

For the most current information, see our website at www.ryerson.ca/ce.
Introduction to Computer Applications

This course is a general introduction to Computer systems. Topics include the software development process and lifecycle, application testing, hardware, software, databases and the Internet. Students are also exposed to directory structure, compression, secure storage of files, encryption, and security and safety issues.

39 Hours  Fee: $755

Spring/Summer 2014
Monday & Wednesday 18:30-21:30  May 23-Aug 11

Mathematical Modeling: Introduction to MATLAB

The goal of this course is to provide a simple overview and introduction to MATLAB. The course is broken up into some of the basic topics. The first includes a few examples of how MATLAB makes it easy to create and manipulate vectors. The course moves from simple topics to more advanced topics.

39 Hours  Fee: $755

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30  May 6-Jun 17

Mathematical Modeling: Statistical Analysis Utilizing SPSS

The goal of this course is to provide a simple overview and introduction to SPSS. The course will cover the basic topics such as entering and manipulating data, analysing data and describing relationships, and creating charts and outputs.

39 Hours  Fee: $755

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30  May 6-Jun 17

Object Oriented Applications Programming

This course continues the study of C++ and object-oriented programming. The course provides an in-depth look at the C++ programming language including expressions, statements, declarations, declarations, classes, derived classes, member access control, special member functions, overloading, templates, exception handling, and pre-processing directives. The standard C++ library, including strings, localization, containers, integrators, algorithms, numerics, and input/output, will also be examined.

39 Hours  Fee: $755

Object Oriented Project Development [CKCS 613]

This course applies object-oriented concepts to the design and development of a real-world application. The complete OO software development life cycle is realized through a series of lectures and hands-on workshops. Course topics include CRC modeling, use-case scenarios, OO project management, and OO user interface development. A term project using Java is an important component of the course.

- 39 Hours
- HST included
- Fee: $755

Introduction to C++ [CKCS 900]

This is a fast-paced introductory course to the C++ programming language. It is intended for those with little programming background, though prior programming experience will make it easier, and those with previous experience will still learn constructs and concepts specific to C++. Every student will bring a laptop with WiFi to each class.

- 19.5 Hours
- Fee: $755

Digital Speech Processing [CKCS 902]

This course covers the basic principles of digital speech processing, including: the fundamentals of speech production and perception; basic techniques for digital speech processing; speech estimation methods; and applications of speech signal processing. A MATLAB-based term project concludes the course. Every student will bring a laptop with WiFi to each class.

- 19.5 Hours
- Fee: $755

Fundamentals of Speech Recognition [CKCS 903]

This course covers the basic principles of digital speech processing, including: automatic speech recognition; speech production and perception; pattern recognition; linear and non-linear classifiers; signal processing approaches and methods; pattern recognition applied to ASR; time alignment and normalization; dynamic time warping; Hidden Markov Model (HMM) fundamentals; speech system design; connected word models; dynamic programming; large vocabulary speech recognition; and flexible speech understanding. Every student will bring a laptop with WiFi to each class.

- 19.5 Hours
- Fee: $755

Introduction to Eye Tracking [CKCS 904]

This is a general introduction to eye movements, eye tracking, eye trackers, eye tracking equipment, and eye tracker software applications. This course also covers how to operate eye tracking software. Students will obtain hands-on experience using eye tracking comprehensive analysis software. Every student will bring a laptop with WiFi to each class.

- 19.5 Hours
- Fee: $755

Computer Security and Digital Forensics

For more information, visit www.ryerson.ca/ce/compsec. Related certificate(s): Computer Security and Digital Forensics (pg. 42).

Computer Network Security [CKDF 110]

This course introduces fundamental concepts and notions of computer security, focusing on security threats, vulnerabilities, and available defense mechanisms. Students are exposed to ethical hacking, use of hacking methods for computer network vulnerability assessment and penetration testing. Various protection methods will be presented including auditing systems, monitoring techniques, and various Intrusion Detection Processes and technologies used for discovery of hackers and advanced notice of cyber threats. Students will apply what they learn in scenario-based projects.

Note: Knowledge of TCP/IP is recommended.

Students must have a Windows or Linux computer operating system; the Apple (MAC) operating system is not supported by this course.

- 39 Hours
- Fee: $755

Fall 2013
- Distance: Internet
- Sep 7-Dec 7

Winter 2014
- Distance: Internet
- Jan 11-Apr 15

Spring/Summer 2014
- Distance: Internet
- May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/dce.

**This course will run during the Winter break.

Computer Cryptography and Digital Steganography [CKDF 120]

This course introduces the fundamentals of modern cryptography as related to computer security and digital forensics, including the techniques of steganography, watermarking, digital signatures, and public key cryptography. Students will learn both the theory of cryptographic protection and the practicalities of properly implementing crypto-protection in the field, as well as how forensics experts deal with encrypted information. Students will apply what they learn in scenario-based exercises and projects.

Note: Knowledge of TCP/IP is recommended.

Students must have a Windows or Linux computer operating system; the Apple (MAC) operating system is not supported by this course.

- 19.5 Hours
- Fee: $378
Digital Forensics Systems

This course introduces digital forensics notions and techniques. Students will gain a basic understanding of computer security and forensics, techniques used in the evidentiary process, various methodologies intrinsic to computer forensics with emphasis on computer incident response, and IT systems protection. The importance of ethics, understanding rules of evidence, effective communications, key elements of research and seizure relative to privacy legislation will also be discussed. Students will apply what they learn in scenario-based projects.

Note: Knowledge of TCP/IP is recommended.

Students must have a Windows or Linux computer operating system; the Apple (MAC) operating system is not supported by this course.

39 Hours  Fee: $755

Security Architecture and Design

This course addresses security architecture and design by considering case studies. In addition, the course will survey computer security frameworks, controls and objectives, and standards and pronouncements. Methods of threat risk assessment (TRA) will be reviewed, with particular emphasis on social and human factor engineering, hacker profiling, and risk management. Security policies and procedures, enforcement, and monitoring will also be covered. Students will apply what they learn in scenario-based exercises and projects.

Note: Knowledge of TCP/IP is recommended.

Students must have a Windows or Linux computer operating system; the Apple (MAC) operating system is not supported by this course.

Mainframe Computing

Mainframes are large, complex computer systems used by large corporations and government institutions for mission critical applications, intensive data processing such as management information systems, financial transaction processing, manufacturing control systems, and censuses and statistics. The following courses provide a thorough overview of the mainframe environment, including hardware systems, workflows, control systems, and censuses and statistics. The following courses provide a thorough overview of the mainframe environment, including hardware systems, workflows, control systems, and censuses and statistics.

This capstone course provides a hands-on opportunity for students to utilize what has been learned throughout the program: identifying vulnerable system resources; devising security controls, policies, and procedures within the context of a security architecture and design; selecting and deploying appropriate hardware/software controls and countermeasures to reduce exposure; and implementing a cohesive security environment which includes monitoring, feedback, and metrics. Participants will complete a practical project related to computer security and/or digital forensics.

Note: Knowledge of TCP/IP is recommended.

Students must have a Windows or Linux computer operating system; the Apple (MAC) operating system is not supported by this course.

Created for future application and systems Assembler language programmers, this course introduces learners to the Assembler programming language on the z/OS platform and provides a thorough overview of the architecture to programming at the Assembler level. The architecture of IBM System z is examined, including storage addressing, the use of registers, and instruction formats. Topics include Assembler Language and Machine Language instructions formatting, the operation of the Assembler program (which translates the Assembler language to machine instructions), decimal and binary arithmetical operations, hexadecimal number conversion, basic Assembler Macro instructions, and standard programming techniques.

42 Hours  Fee: $1050

This course introduces learners to the most widely used mainframe application programming language, COBOL. Topics include basic COBOL elements, structured programming and design, debugging, data validation, Boolean logic operations, table processing, and sequential file maintenance. Students learn the history of this powerful programming language and its evolution in the area of commercial data processing. A segment of the course focuses on the future of this language and its interoperability with the Internet and Object-Oriented technologies.

42 Hours  Fee: $1050

This course introduces learners to Job Control Language (JCL). Students learn to code JCL statements using proper syntax and coding rules, including JCL statements for creating new datasets, referring to existing datasets, testing condition codes, using conditional phrases, coding in-stream and catalogued procedures, using symbolic parameters in procedures, using utility programs, and recognizing and resolving common problems. Students learn about the role of JCL in the mainframe environment and its relationship with application programs.

42 Hours  Fee: $1050

This course focuses on the application development and implementation process for online mainframe systems. In-depth coverage of the Customer Information Control System (CICS) and the methods for employing it to perform Online Transaction Processing (OLTP) tasks in a mainframe environment is provided. A review of the overall structure and purpose of CICS is discussed and command levels for CICS in the following areas are introduced: management of data (VSAM files), data communication, application development, and system management. Learners examine the COBOL programming techniques used to create basic and complex systems, and learn how to debug CICS application programs.

42 Hours  Fee: $1050

Fall 2013
Saturday*  9:00-16:00  Jul 6-Aug 24
*Includes one-hour break, from 12:00 p.m. - 1:00 p.m.
*There will be no class on August 3.
.NET Application Developer

Learners gain hands-on experience developing a wide range of applications by using tools and components within the .NET Framework and Visual Studio. These courses are appropriate for learners with a programming background.

Candidates who complete all required courses for the .NET Application Developer course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award recognition from Ryerson University. (See page 147 for further information.)

Programming With C# and the .NET Framework

This course provides learners with a detailed overview of the C# language, its syntax, and its implementation of object-oriented concepts. Also introduced is the .NET Framework, which is Microsoft’s platform for building a wide range of applications from high-performance websites to rich Windows clients. Learners use .NET to build simple Windows applications, read and write files, interact with relational databases, parse and update XML files, and filter data using LINQ.

Note: It is strongly recommended that students have previous experience with an object-oriented programming language, such as C++, Java, or Visual Basic prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

WCF in the .NET Framework

This Windows Communication Foundation (WCF) course, learners develop distributed applications in the .NET Framework. Topics include service contract implementation, transport, message, and user level security, hosting and exposing services, consuming services through proxies and agents, and management of the service life cycle, including instances, sessions, transactions, and concurrency.

Note: It is strongly recommended that students complete CXEC 300 AND CXEC 309, or have equivalent Microsoft .NET programming experience (C#.NET or VB .NET) AND ASP.NET prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Accessing Data with MS.NET

This course provides learners with the skills required to develop database solutions using Visual Studio as a development tool. Topics include mapping entities and relationships using LINQ to SQL, connecting a POCO model to the Entity Framework, and managing Connections and Context. Configuring ADO.NET data services, querying data using ADO.NET data services, managing transactions, and deploying ADO.NET components are also examined.

Note: It is strongly recommended that students be familiar with database normalization and programming concepts, have completed CXCP 216 or CXEC 300, or have equivalent database and/or MS.NET experience prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Developing Web Applications with ASP.NET

This course provides learners with a complete overview of ASP.NET to professional developers who are familiar with a .NET language such as C# or VB, using Visual Studio as a design tool. In addition to ASP.NET fundamentals, learners build secure sites, apply MVC (Model View Controller) architecture using ASP.NET MVC, and connect to relational database products such as SQL. Microsoft’s AJAX library and controls are examined in depth.

Note: It is strongly recommended that students complete CXEC 300 or have equivalent programming experience in C# or VB.NET prior to taking this course.

Students taking this course should familiarize themselves with HTML/CSS/JavaScript before the course begins.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Cisco Certified Network Associate (CCNA) Routing and Switching

These courses provide learners with the fundamental skills and knowledge of Cisco technologies. This course series may assist learners with their preparation for the Cisco Certified Network Associate (CCNA) Routing and Switching, the foundation step in Cisco Career Certification. These courses are appropriate for learners with a network administration background.

Candidates who complete all required courses for the Cisco Certified Network Associate Routing and Switching course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from Ryerson University. (See www.ryerson.ca/ce/its or page 147 for further information.)

- **Networking Basics for Cisco**  CXNA 101
  This course provides learners with a review of networking in today’s client/server environment. Concepts including network design types, network architectures, standards, protocols, and network support are explored.
  Learners review the seven layers of the Open Systems Interconnection (OSI) reference model, networking technologies for local area networks (LANs), wide area networks (WANs), and the Internet, including the TCP/IP protocol stack. The major components of the system network, types and use of network cabling, and topologies are examined, and common routed and routing protocols are identified and described. In conjunction with CXNA 102 (Interconnecting Cisco Networking Devices), this course may assist learners with their preparation for the latest Cisco Certified Network Associate (CCNA) Routing and Switching exam.

  Note: It is strongly recommended that students complete CXIT 401 AND CXIT 421 or have two years equivalent networking experience prior to taking this course.

  Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

- **Interconnecting Cisco Network Devices (ICND)**  CXNA 102
  This course provides learners with the skills required to select appropriate device(s) to meet system requirements, and to install, configure, and operate LANs, routed WANs, and switched networks. Learners explore Cisco IOS, Virtual LANs (VLANs), Access Control Lists, Bandwidth on Demand (BOD), and Dial-on-Demand Routing (DDR), Point-to-Point (PPP), Frame Relay, and Fiber Distributed-Data Interface (FDDI). In conjunction with CXNA 101 (Networking Basics for Cisco), this course may assist learners with their preparation for the latest Cisco Certified Network Associate (CCNA) Routing and Switching exam.

  Note: It is strongly recommended that students complete CXNA 101 or have equivalent Cisco networking experience prior to taking this course.

Computer and Network Support

Networking-oriented courses are designed to provide learners with the material needed to be proficient with concepts and practices related to today's networking technologies. The courses in this series provide learners with hands-on experience with networking hardware and software, Microsoft and Linux network administration, and system security practices.

Candidates who complete all required courses for the Computer and Network Support program and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from Ryerson University. (See www.ryerson.ca/ce/its or page 148 for further information.)

- **Certified Information Security Professional (CISP)**  CXCC 104
  The International Information Systems Security Certifications Consortium, Inc. ([ISC]2) is a global organization offering a certificate recognizing an international standard for information security and a Common Body of Knowledge (CBK). Offering a unique Canadian perspective, this course examines the ten information security (IS) domains, helping learners prepare for the CISSP certification exam. CBK topics include: Software Development, Telecommunications, Operations, Network, and Environmental Security, Access Control, Continuity and Disaster Recovery Planning, and Cryptography.

  Note: Students should have five years of practical experience in networking, systems administration, or information security (IS) prior to taking this course.

  Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

- **A+**  CXIT 401
  This course provides learners with an understanding of PC, laptop, and printer hardware components. Students install, update, and upgrade operating systems in a small network. Learners explore each component and obtain hands-on experience assembling and troubleshooting PCs and laptops, installing and configuring Windows operating systems, updating drivers, installing protocols, and configuring a secure basic network. This course may assist learners in their preparation for writing the CompTIA A+ certification exam.

  Note: It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.

  Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

For the most current information, see our website at www.ryerson.ca/ce/its.
Network Administration for Microsoft (CXIT 421)
This course provides learners with an understanding of the skills required to manage administration tasks including controlling user accounts, assigning permissions, auditing access, administering file and printer resources, managing data storage, using back-up and restore utilities, administering and managing server resources, and configuring performance monitoring software. Learners administer Active Directory and Group Policies, and examine the basic functionality of DNS and DHCP.

Note: It is strongly recommended that students complete CXIT 401 or have equivalent experience prior to taking this course.
Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Windows Active Directory Planning (CXIT 620)
Building on the networking skills acquired in CXIT 421 (Network Administration for Microsoft), this Windows 2008 Infrastructure and Active Directory Planning course provides students with the knowledge and skills to develop, implement, and troubleshoot an Active Directory infrastructure. Topics include TCP/IP, DHCP, DNS, and WINS functioning within single and multi domain environments and structures. Learners manage AD replications and operations masters, and maintain AD availability.

Note: It is strongly recommended that students complete CXIT 401 AND CXIT 421 or have equivalent network administration experience prior to taking this course.
Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Advanced SQL (CXCP 216)
This course introduces learners to SQL (Structured Query Language), a standard data-oriented language used to generate, manipulate, and retrieve information from relational databases. Learners explore the relational database model and obtain hands-on experience writing complex SQL statements including summary queries and subqueries, and use built-in functions.

Note: It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.
Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Advanced SQL (CXEC 327)
Building on the material taught in CXCP 216 (Introduction to SQL), this course provides learners with the skills required to develop advanced database applications using SQL Server. Topics include the implementation of scripts, cursors, T-SQL and CLR user-defined functions, stored procedures, and triggers. Learners explore transactions, concurrency, error handling, dynamic SQL in addition to BLOBs and XML data types.

Note: It is strongly recommended that students complete CXCP 216 or have equivalent SQL experience prior to taking this course.
Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

**SQL Server Reporting Services**  
CXEC 330  
In this course for data analysts, developers, database administrators, and those who develop and deploy reports using MS SQL Server Reporting Services, learners create data-rich reports using Microsoft’s server-based reporting solution. Topics include data access and report design, model building using the Report Designer, working with spatial data types, managing report execution and subscriptions, and implementing custom report items. In addition, learners examine advanced report management, extending data access and customizing security.

*Note: It is strongly recommended that students complete CXCP 216 or have equivalent SQL experience prior to taking this course.*

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Wednesday** | 18:30-21:30 | Jan 15-Apr 16 |

*This course will run during the Winter break.

**Enterprise Content Management**

Enterprise Content Management (ECM) is a term used to describe a structured means of organizing and storing an organization's shared documents and other content related to that organization’s processes and procedures, such as their methods, tools, and strategies. One of the most popular ECM tools used today is Microsoft’s SharePoint. Please note that the following Microsoft SharePoint courses do not comprise a course series. For further information, please visit [www.ryerson.ca/ce/its](http://www.ryerson.ca/ce/its).

✈ Microsoft SharePoint Foundation  
CXCP 264  
In this course, the Microsoft SharePoint 2010 features that allow users to manage projects and documents effectively are examined. My Site and blogs are used to share knowledge and to connect with people. Students manage web content, explore SharePoint pages, create wiki pages, configure a document library, work with lists, and discuss the importance of records management and compliance.

*Note: It is strongly recommended that students complete CXCP 663 or have equivalent HTML, CSS web site development experience prior to taking this course.*

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Saturday* | 13:00-16:15 | Jan 18-Apr 12 |

*This course will run during the Fall and Winter breaks.

✈ Microsoft SharePoint Web Development  
CXEC 340  
In this course for web developers, learners develop integrated SharePoint solutions, exploring custom authentication, SharePoint permissions, in-browser customization, and design basics. SharePoint’s strong API, with its highly extensible nature and foundation on the underlying .NET Framework, is examined. Learners are exposed to an all-encompassing approach to programming concepts, including the extensibility interfaces and SharePoint’s internal features, and approach SharePoint as an open toolkit as opposed to a closed, intranet-only model.

*Note: It is strongly recommended that students complete CXEC 300 AND CXEC 309 or have equivalent .NET language and ASP .NET experience prior to taking this course.*

*This course will run during the Fall and Winter breaks.*

✈ Developing Java EE Compliant Applications (Enterprise JavaBeans)  
CXEC 312  
This course provides learners with the hands-on skills to build and deploy Java EE applications. Topics include stateless and stateful Session Beans, Message Driven Beans, and managed and unmanaged Entities. Learners examine the proper use of transactions and security while building an enterprise application. Implementing applications by reusing components, using Entity callback, and using Listeners and Interceptors are examined.

*Note: It is strongly recommended that students complete CXEC 320 or have equivalent Java EE programming and development experience, or be an Oracle (Sun) Certified Professional Java Programmer prior to taking this course.*

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

✈ Web Component Development with Java Technology (Servlets and JSP)  
CXEC 313  
This course provides learners with the knowledge and skills required to develop web tier components from JavaServer Pages (JSP) and servlet technology. Learners explore the technical details of JSP and servlet technology, and the best practices for analyzing, designing, developing, testing, and deploying web applications on the Java platform.

*Note: It is strongly recommended that students complete CXEC 320 or have equivalent Java EE programming and development experience, or be an Oracle (Sun) Certified Professional Java Programmer prior to taking this course.*

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
Hibernate Query Language (HQL) are explored in detail. IOC integration, transaction management, automatic versioning, and the persistence and session management. Spring JDBC development, Spring mapping, component and inheritance mapping, object lifecycle, and dependency injection/inversion of control, association and collection data-driven Spring applications using Hibernate. Topics include This course provides learners with the skills required to develop effective v

Developing Advanced Web Applications Using Java

This course provides learners with the skills required to create Java applications using object-oriented programming principles and applying OO design methodologies. Topics include using SWING components, the Java Graphics API, applets, exception handling, file IO, data structures, the Java Collection framework, and JDBC. Learners create stand-alone and multi-threaded applications, as well as client/server applications using TCP/IP sockets.

Note: It is strongly recommended that students complete CXEC 211 or have equivalent Java programming experience prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Spring and Hibernate Java Apps

This course provides learners with the skills required to develop effective data-driven Spring applications using Hibernate. Topics include dependency injection/inversion of control, association and collection mapping, component and inheritance mapping, object lifecycle, and persistence and session management. Spring JDBC development, Spring IOC integration, transaction management, automatic versioning, and the Hibernate Query Language (HQL) are explored in detail.

Note: It is strongly recommended that students complete CXEC 211 or have equivalent Java programming and development experience prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

Mobile Application Developer

These courses provide learners with hands-on experience developing applications for Android and the iPhone, the two most popular and prominent mobile development platforms. Students will learn the skills and knowledge required to develop their own mobile applications for each device. The courses are appropriate for learners with a programming background in Java and object-oriented programming (OOP). Candidates who complete all required courses for the Mobile Application Developer course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from Ryerson University. (See www.ryerson.ca/ce/its or page 149 for further information.)

Android Application Development

This course introduces Java programmers to the latest version of the Android SDK, a software stack for mobile devices that includes an operating system, middleware, and key applications. Learners build and debug Android applications using APIs for networking, mapping, and location-based services, multimedia, telephony, and social media such as Twitter. Learners manage resources, develop effective user interfaces and layouts, and create animation. Learners are not required to own an Android device for this course.

Note: It is strongly recommended that students complete CXEC 320 or have equivalent advanced Java object-oriented programming experience prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

iPhone Application Development

This course, students gain hands-on experience developing applications for the iOS mobile device, the iPhone. The features of the latest iOS SDK are explored, as well as Objective-C language essentials. Topics include code optimization, data persistence, Twitter integration, and view controllers. Students learn how to design interfaces, build controls, connect to networks and services, and how to deploy apps to devices, testers, and the App Store.

Note: It is strongly recommended that students complete CXEC 300 or CXEC 313 or have three years of equivalent Java programming and development experience prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.
<table>

| **180** captures lectures for on-demand viewing. Registered students will have access to Ryecast, a web streaming tool that supports learning. Note: It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.

**Programming Basics**
Object-oriented programming, known as OOP, is used extensively by today’s developers. Whatever your programming language of choice, Programming Basics will get you started.

**Java Introduction** CXCP 211
This course provides learners with the fundamentals of object-oriented programming concepts based on the Java language. Learners examine classes and objects, attributes and methods, and use control statements, strings, arrays, and class libraries. Object-oriented principles, including encapsulation, inheritance, and polymorphism, are explored in detail.

Note: No previous programming experience is required, but it is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

**Website Design and Development**
These courses provide learners with the foundation to design and develop creative websites by providing the skills required to control the way a website is displayed and incorporate dynamic functionality. Candidates who complete all required courses for the Website Design and Development course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from Ryerson University. (See www.ryerson.ca/ce/its or page 143 for further information.)

**NEW!**
**Adobe Photoshop** CXCP 184
This course introduces learners to the popular image editing program Photoshop. Introductory topics include creating original artwork, retouching and enhancing scanned images, and applying filters and special effects to images. Intermediate topics include pen tool techniques, vector paths and shapes, advanced layer use, and preparation for the web, including rollovers and animations.

Note: It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.

Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

CRIMINAL JUSTICE AND CRIMINOLOGY

Students will become familiar with the structural, administrative, political, and professional context of the criminal justice system and its related agencies, while also gaining an appreciation for the complex causes and consequences of crime in Canadian society.

Criminal Justice and Criminology

Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Criminal Justice and Criminology (pg. 43), Ethics (pg. 59), Social Sciences and Humanities Foundations (pg. 137)

★ Introduction to Canadian Criminal Justice  CCRM 100

This course introduces students to the administrative and institutional components of the Canadian criminal justice system and the principles that govern it. The course will be organized around the police, courts, correctional systems, and will take a critical approach to both the formal principles of justice as they apply to this system, as well as how they are woven into the process at various stages. (Formerly JUS 300.)

Understanding Crime in Canadian Society  CCRM 101

This course is designed to give students the background and knowledge to think critically about information on crime and the social response to it in Canada. Students will learn about how we come to know about crime and criminality, and will conclude with a detailed analysis of one or more specific crimes (e.g., homicide, prostitution or illicit drug use) in order to apply the concepts and materials presented throughout the term. (Formerly JUS 101.) CCRM 101 is not available for credit to students who choose CRM 100 or CRM 102. (LL)

★ Introduction to Criminology  CCRM 102

This course provides a foundation for the theoretical, conceptual and policy considerations related to crime and justice in Canada. Students will be introduced to the main theoretical approaches to understanding crime (classical, positivist and critical theories), and the various ways in which each has shaped criminal justice policy in Canada. These issues will be brought together through an in-depth analysis of one or two current topics.

★ Criminal Law  CCRM 200

Prerequisite(s): CCRM 100 or (LAW 534 and in Law and Business program)
Antirequisite(s): LAW 400

Students are introduced to the basic concepts and substance of the criminal law in Canada. The historical and theoretical foundations of criminal law, elements of an offence, and criminal defenses are considered. The role of criminal law in society, and its interaction with other forms of social regulation are highlighted. This course is not a technical legal course in criminal procedure; rather, it provides students with basic knowledge of criminal law in Canada.

★ Victims and the Criminal Process  CCRM 202

This course has two emphases: theory and research on the nature of criminal victimization in Canada, and the role and experiences of victims of crime in the Canadian criminal justice system. The intersection of victimization with gender, race, class and other forms of social inequality will provide the context for an analysis of the extent to which the current criminal justice system does, or can, meet the broad range of victim needs. (Formerly JUS 601.)

★ Policing in Canada  CCRM 300

Prerequisite(s): CCRM 100 and CCRM 102

Students are introduced to the concept of “policing” and the institutional and non-institutional forms it may take. The intersection of the uniformed, public police with other policing bodies, police discretion, culture and issues of accountability and governance are central to this course. The role of communities and developments in the global context provide the context for analysis of the future of democratic policing.

★ Youth Justice in Canada  CCRM 304

Prerequisite(s): CCRM 100 and CCRM 102

This course considers the theoretical and policy issues which relate specifically to young people in conflict with the law and their intersection with legal systems in Canada. The focus of the course will be on an analysis of the historical development of a separate legal system for dealing with youthful offenders and the changes in discourses around youth crime that have been reflected in reforms to that system.

★ Corrections in Canada  CCRM 306

Prerequisite(s): CCRM 100 and CCRM 102

Students are introduced to the philosophical trends and approaches within the correctional system in Canada. The focus will be on understanding the historical and political context of correctional practices and their impact on specific populations, such as women, Aboriginal people, and racialized communities. We end with an analysis of correctional practices in other jurisdictions, including capital punishment and the development of alternative approaches.
This course introduces students to the ethical foundations of justice, and their implications and applications at various junctures in the criminal justice system. Ethics in public and private policing, the legal profession (defence, prosecution, judiciary), and punishment are given in-depth consideration. Emphasis will be placed on a case study approach, and student-led analyses.

39 Hours  Fee: $547

Winter 2014
Monday 18:30-21:30  Jan 13-Apr 14

★ Criminal Justice and Social Inequality
Prerequisite(s): CCRM 100 and CCRM 102

This course examines various forms of social inequality as they intersect with the criminal justice system in Canada. The course will challenge the notion of an objective, value-neutral criminal justice system, and will consider the impact of operational and policy decisions on race, class, gender and other forms of social inequality. Topics will include systemic racism, gender discrimination, the over-representation of people who live in poverty and other relevant issues.

39 Hours  Fee: $547

Winter 2014
Thursday 18:00-21:00  Jan 16-Apr 17

COURSES

★ Criminal Courts in Canada
Prerequisite(s): CCRM 100 and CCRM 102

The focus of this course is on the structure and function of the criminal courts in Canada, with particular emphasis on the points of tension at various stages. Rather than being a course on the technical aspects of criminal prosecution, points of tension in the process will be considered through an analysis of a variety of topics, including pre-trial detention, sentencing, plea discussions and the wrongfully convicted.

39 Hours  Fee: $547

Winter 2014
Wednesday 18:30-21:30  Jan 15-Apr 16

★ Ethics in Criminal Justice
Prerequisite(s): CCRM 100 and CCRM 102

This course focuses on the guiding disciplines that form the structure on which works of art and design are built. Students will be introduced to the basic elements of drafting and its practical application to describing scenographic space, including: theatre, film, television, new media and site-specific installations, staged photography, and virtual scenery. Special attention will be given to the similarities and differences of staging between the media, with consideration given to sightlines and POVs, safety and ergonomics, and special scenic effects. Plans, direct elevations, elevations, sections, isometric drawings, and storyboards will be explained and practiced. This course will enable students to describe their design interpretations in CDMP 122 and CDMP 123. (Equivalent to one Professional elective from Table I, see Undergraduate Program Calendar.)

39 Hours  Fee: $575

Fall 2013
Tuesday 18:30-21:30  Sep 10-Dec 10

★ Drafting for Entertainment
CDID 170

★ History of Arts and Scenography
CDMP 130

This course will study scenography as a parallel progression in a cross-cultural survey of the arts. Organized around major world belief systems, students will familiarize themselves with visual and aural culture as it is expressed in art, music, architecture, fashion, and decorative arts. From sacred space to 21st Century media, students will examine how the elements of early spiritual dance evolved with emerging technologies and changes in religious, societal, and political systems. Students will learn to recognize cultural and scenographic trends as they conduct primary and secondary source research. The scenographic tradition will be addressed in terms of ceremony, interpreting text, for constructed or virtual worlds, relationship-building in communities, and collaborative work structures. The lexicon of scenographic technologies and styles will also be examined as a reflection of world culture. Weekly lectures and visual and aural research will enable students to create a personal textbook of sources to use for designing productions. (Equivalent to one Professionally Related elective from Table II, see Image Arts in the Undergraduate Program Calendar.)

39 Hours  Fee: $575

Winter 2014
Thursday 18:30-21:30  Jan 16-Apr 17

★ Violence in Society
CCRM 601

This course is designed to provide students with the skills to think critically about various forms of interpersonal violence and the social response to it. The course will conclude with a detailed analysis of the major policies which have emerged to deal with violence, such as zero tolerance policies, traditional approaches to crime prevention, increasing criminal sanctions and, finally, the implementation of alternatives to the criminal process. (UL)

Note: This course is no longer available for credit towards the graduation requirements for the Criminal Justice and Criminology certificate program.

39 Hours  Fee: $541

Winter 2014
Tuesday 18:30-21:30  Jan 14-Apr 15

Spring/Summer 2014
Monday & Wednesday 18:30-21:30  Jun 23-Aug 11
**DESIGN MANAGEMENT**

With an appreciation of design and business fundamentals, design managers create and maintain collaborative relationships among designers, clients, and administrators. Their contribution is an essential factor in the success of their organizations.

**Design Management**

It is preferable to start the Certificate in Design Management with CDDM 101 or CDDM 102. Related certificate(s): Design Management (pg. 46)

**Introduction to Design Management**  
*CDDM 101*

This course is an introduction to the business of design. It explores the link between design and the managing of design business activities. It outlines the function of the design manager as the orchestrator of other professionals including designers, technologists, administrators, and marketers. Topics include leadership and team building; multidisciplinary alliances; client relationships; client/contractor contracts; the studio environment; corporate culture and organizational frameworks.  
(Equivalent to IDE 302.)

39 Hours  Fee: $585

- **Fall 2013**  
  - Thursday 18:30-21:30  Sep 12-Dec 12

- **Spring/Summer 2014**  
  - Tuesday & Thursday 18:30-21:30  May 6-Jun 17

**Design Management II**  
*CDDM 102*

This course continues the study of the design manager’s function. Students will be presented with design as a project-based service industry. Topics include: study of regulatory and legal issues; professional affiliations; standards information; technology in design; opportunities and implications of a competitive global environment; effective project management; labour regulations; ongoing training and research; and developing career tracks.  
(Equivalent to one Professional elective from Table I, see Interior Design program in Undergraduate Program Calendar.)

39 Hours  Fee: $585

- **Winter 2014**  
  - Thursday 18:30-21:30  Jan 16-Apr 17

- **Spring/Summer 2014**  
  - Tuesday & Thursday 18:30-21:30  Jun 24-Aug 7

**Design Management Project**  
*CDDM 103*

Prerequisite(s): Department consent

An independent or team-study program to pursue a specific case study about an important design-related decision at a specific firm. The project will be under the supervision of a faculty member on topics selected by the student(s) and approved by the instructor. Topics to embrace concepts related to design management. Topics might include design features; socially responsible design; environmentally compatible design; design and ethics; innovation in the organizational context, etc.

39 Hours  Fee: $604

- **Winter 2014**  
  - Wednesday 18:30-21:30  Jan 15-Apr 16

**Design Awareness I**  
*CDDM 104*

This course is an introduction to the fundamental aspects of design. It explores the various definitions and meanings of the word “design.” As design is a tool for examining our culture and our environment, this course may include topics such as: why we design as a response to meet needs; what affects design and what design affects; government, political, and corporate influences on design; universal design; ecologically responsible design; sustainability issues in design; and design in a global context.

39 Hours  Fee: $604

**Design Research**  
*CDDM 106*

This course provides an opportunity for students to investigate a problem of critical interest to design management in any field of design specialization. It stresses individual study, self motivation, the skills required to research information, oral and written presentation. To prepare for the research, the course may include an introduction to design research: planning the research process, defining research objectives, data collection, analyzing data, sources of information, using databases, and presenting the findings. Students will define and investigate a problem with either a Ryerson faculty member, an independent consultant, or an industry supplier/manufacturer.

39 Hours  Fee: $604

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
DIGITAL ENTREPRENEURSHIP INNOVATION

Digital Skills and Innovation for the Global Economy CEID 100
This course will introduce students to the use of computers, the Internet, and an extensive set of digital tools in order to develop a working knowledge of digital technologies, and learn techniques for assessing various forms of knowledge media intended for a wide variety of disciplines. Students will be expected to explore and understand the appropriate use of digital technologies, critically review the role of technology and media in career development and the broader society, and to demonstrate understanding of how digital media can be integrated into their own projects and processes or those of the industry sector.

Note: For more information, please see www.digitalspecialization.ryerson.ca.

39 Hours Fee: $811

Fall 2013
Distance: Internet
Sep 7-Dec 7

Spring/Summer 2014
Distance: Internet
May 3-Jul 26

DISABILITY STUDIES

Disability Studies focuses on society’s definition of and response to disability. Students explore the social context and experiences of persons with disabilities. For information on the Certificate in Advancing the AODA: Principles and Practices of Accessibility, visit www.ryerson.ca/ce/aodacertificate (page 24).

Disability Studies

Related certificate(s): Advancing the AODA: Principles and Practices of Accessiblility (pg.24), Community Engagement, Leadership, and Development (pg. 38)

A History of Madness CDST 500
Where do diverse concepts of “madness” come from? How have these ideas changed over time? How have “mad people” interpreted their own experiences? This course will be in the tradition of social history from “below”. It will survey the social medical, political, economic, cultural and religious factors that have influenced interpretations of what it means to be “mad” from ancient time to the present. (UL)

39 Hours Fee: $563

Rethinking Disability CDST 501
This foundation course introduces the core ideas students will explore throughout their studies. It immerses students in a highly participatory and provocative encounter with history, social theory, politics, policy, art and culture seen through a disability lens. Course content is designed to reflect the experience of people with disabilities, highlighting the social roots and impact of discrimination, exclusion and marginalization as well as responses of resistance.

39 Hours Fee: $565

Disability and the State CDST 502
Prerequisite(s): CDST 501 or CINT 902 or CSWP 921
This course begins with students’ day-to-day experience of “policy”, moving towards deeper examination of the underlying values, interests and institutions that shape social and disability policy. Students are guided to make comparisons and connections, looking at historical responses to disability and at contemporary programs and services. Readings and online presentations explore what policy means, why it matters, and what processes and strategies are activated by people with disabilities to influence, shape and reform social policy.

39 Hours Fee: $565

Fall 2013
Distance: Internet
Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

Mad People’s History CDST 504
This course will provide an overview of the history of madness from the point of view of people who were, and are, deemed “mad”. The purpose of this course is to place the diverse perspectives of people diagnosed as mad, insane or mentally ill as being of central importance in the history of psychiatry, and to address the question: how madness has been viewed by mad people over the centuries.

39 Hours Fee: $565

Fall 2013
Distance: Internet
Sep 7-Dec 7

Winter 2014
Distance: Internet
Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.
★ Making Ontario Accessible  
CDST 506  
The Accessibility for Ontarians with Disabilities Act (AODA) mandates development of enforceable accessibility standards for businesses and organizations to identify, remove and prevent barriers to accessibility. This course is for those seeking specialized knowledge of the AODA, accessibility issues and implementation. It covers understandings of disability, issues giving rise to the Act, disability activism and a critical analysis of the new accessibility standards for customer service, built environments, employment, information and communications and transportation.

★ Rethinking Images of Difference  
CDST 525  
**Prerequisite(s):** CDST 501 and (CINT 902 or CSWP 921)  
This course critically examines representations of embodied difference in mainstream and other media. With particular attention to disability, it queries images from the news, on television, film and the web as they are embedded in the systems of ableist power, privilege and marginalization. To study these images is to reveal their ideological underpinnings, and their intrinsic connection to other categories of identity including class, race, gender, and sexual orientation.

★ Disability and The Law  
CDST 603  
**Prerequisite(s):** CDST 501 or CINT 902  
This course is constructed around 'fact' situations, illustrative of real-life dilemmas faced by disabled people, their families, advocates and service providers. How to find and use the law will be explored as will the often competing issues of independence, dignity, personal and economic security. Students will analyze when the law may help or hinder, and how it may be changed.

★ Strategies for Community Building  
CDST 613  
**Prerequisite(s):** CDST 501 or CINT 902  
This course addresses the importance of community building given the realities of social exclusion and the challenges represented by diversity in the current social, political and economic context in Canada. The starting point is the particular view of reality held by people with disabilities. Students are encouraged to analyze power, inequality and influence before building strategies for action, and to develop a personal ethical stance in which to ground community development practice.
CDST 727
Prerequisite(s): CDST 501
Antirequisite(s): CDST 726

This course looks at leadership theory and the challenges of leading in neo-liberal times. It touches on political discourse, public policy and the legislative process. It examines the problem of working across differences and complicates empowerment. Students will meet and talk with leaders from social movements. By the time students complete their assignments, they should be able to imagine themselves as leaders and be better able to assist disabled people in becoming leaders.

39 Hours
Fee: $563

Talking Back to Psychiatry
Prerequisite(s): Department consent

This workshop investigates the history of the consumer/survivor/ex-patient movement. Workshop participants will follow the development of the movement from the late 60s to the present.

Note: See Presenting the consumer/survivor/ex-patient movement (www.youtube.com/user/ChangSchool#p/u/3/guT5EBPzAK), a video in which workshop instructor David Reville (School of Disability Studies) uses a six-part metaphor to frame the origins, activities, and politics of the movement.

9 Hours
HST included
Fee: $113

CDST 728

AODA Capstone Synthesis
Prerequisite(s): Department consent

This course is individually tailored to students’ learning objectives and brings together and deepens the skills and knowledge garnered in the preceding AODA: Principles and Practices of Accessibility certificate courses. It provides opportunities for students to engage in focussed, scholarly, and project work from a disability studies perspective.

Note: This course is taken after all other requirements within the Certificate in Advancing the AODA: Principles and Practices of Accessibility.

Students are encouraged to contact the academic coordinator, Cameron Crawford, at ccrawfo@ryerson.ca to plan their capstone enrollment.

39 Hours
Fee: $581

CDST 729

Project Management in Disaster Recovery
Prerequisite(s): CDST 501

This course introduces students to the theory and practice of project management and its applicability to disaster recovery and disaster reconstruction. It takes a problem-solving approach to planning, budgeting, implementing, and completing small and large-scale projects. Numerous disaster recovery case studies will be used to ensure ease in applying course knowledge to real-life situations.

39 Hours
Fee: $575

Law of Disaster and Emergency Management
Prerequisite(s): CDST 727

This course sets out the legal framework for emergency management in Canada. Students involved in emergency management will understand their own legal duties and powers as well as those of others. The primary legislation requiring the preparation of emergency management systems for government and private sector entities will be examined in depth.
**NEW!**

**INTL POLICIES AND DISASTER COORDINATION**

This course analyzes different international and local agency participants' disaster responses, existing systems, and institutions. National and international policies, laws, and best practices are applied to approaches to international disaster response coordination are interpreted through case studies from different countries and jurisdictions. It builds competencies for disaster coordination of operations on an international level and applies the learnings to case studies and simulations of cross-border disaster coordination projects across governmental, international, and nonprofit organizations.

Early Childhood Studies

These courses introduce you to the challenging field of early childhood education. Whether working with children who have special needs or those from different ethno-racial backgrounds, diversity is key. Those who flourish in the field know that teaching, assessing, and guiding children begins with an understanding of the Canadian cultural mosaic. Early childhood educators’ contribution to society is immeasurable. For more information, visit www.ryerson.ca/ce/ecs.

**Field Education II**

**Prerequisite(s):** CLD 161 and CLD 212

Corequisite(s): CLD 231

In their second off-campus placement, students continue to increase their knowledge and skills in a range of settings including Ontario early years and family resource centres, hospitals and other community organizations. Students focus on planning and implementing early learning activities, developing supportive relationships with families and the community, and working with colleagues. The on-campus seminar component of the course supports the students’ placement experience.

**Note:** Placements are available in fall, winter, and spring/summer terms. For scheduling information, visit www.ryerson.ca/ecs. Students must attend a mandatory information session and obtain permission of the School of Early Childhood Studies. The School will enroll students directly. For ECS direct entry students, this placement is only for students whose admission date was prior to 2005.

**Cognitive Development**

**Prerequisite(s):** (CLD 103 and CPSY 102) or Direct Entry

This course provides students with an in-depth investigation of theoretical, empirical and practical perspectives in how children think from birth to middle childhood. Theories will be examined critically and evaluated for their contributions and limitations to today’s early childhood classroom. Critical analysis will include a consideration of how theories are tested in current research and how they are applied in education. Topics will include perception and the importance of movement in the development of thinking, symbolic representation, problem-solving and social cognition.

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
In their third on-campus or off-campus placement, students continue to apply their knowledge and skills working with children who may have identified special needs. These placements are primarily inclusive settings such as the Ryerson Early Learning Centre and Gerrard Resource Centre, early childhood care and education settings and primary classrooms. Students may also be placed in specialized programs devoted to children with specific exceptionalities. Students assess and focus on planning and implementing learning activities that are developmentally appropriate and adapted specifically to address the child’s extra support needs, special needs and learning styles and developing supportive relationships with families and the community, and working with colleagues. The on-campus seminar component of the course supports the students’ placement experience.

Note: Placements are available in fall, winter, and spring/summer terms. For scheduling information, visit www.ryerson.ca/ecs. Students must attend a mandatory information session and obtain permission of the School of Early Childhood Studies. The School will enroll students directly.

39 Hours Fee: $563

Fall 2013
Monday–Friday
Sep 30–Nov 1

Winter 2014
Monday–Friday
Jan 20–Feb 28

Spring/Summer 2014
Monday–Friday
May 5–May 30

This course employs a project-based approach to the exploration of how young children develop skills and concepts in science. Students learn about scientific thinking, how to encourage science exploration, and how to support children’s scientific inquiry from various perspectives, including Aboriginal, constructivist, reconceptualist, and the Reggio Emilia approach. Students will learn about design and creation of learning environments, projects and assessment tools that advance children’s knowledge and skills development.

39 Hours Fee: $563

Fall 2013
Monday
18:30–21:30
Sep 9–Dec 9

This course will entails an exploration of various knowledge media in early childhood education. Students will examine the use of computers in teaching and learning, develop a basic working knowledge of computers and online technologies, and learn techniques for assessing various forms of knowledge media intended for ECE educators and children from infancy to age 8. The goal is to engage in the process of rethinking technology in relation to teaching and learning with young children.

Note: Enrollment in this course is restricted to undergraduate students of the Ryerson School of Early Childhood Studies and those with instructor permission. If required, email jnolan@ryerson.ca for approval.

39 Hours Fee: $563

Spring/Summer 2014
Distance: Internet
May 3–Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

This course examines the changing paradigms of service delivery in early intervention and special education for young children with special needs and their families. Inclusive models of service delivery are explored including collaborative and consultative models currently in use in infant development programs, group child care centres, family day care homes and early primary classrooms. Students consider educational change processes, consultation skills, public policy, interdisciplinary team collaborations, and teaching strategies in inclusive classrooms.

39 Hours Fee: $563

Fall 2013
Distance: Internet
Sep 7–Dec 7

Spring/Summer 2014
Monday & Wednesday
18:30–21:30
May 5–Jun 18

For information on distance education, visit www.ryerson.ca/ce/de.

This course examines the impacts of chronic illness on the development of young children. Theoretical frameworks and current research from developmental pediatrics are explored and critically evaluated. Specifically, young children’s adaptation to illness and hospitalization will be analyzed through case study examples and problem solving exercises. The role of the child life specialist and evidence-based practice is addressed with particular emphasis on interventions aimed at ameliorating the impact of illness.

39 Hours Fee: $592

Winter 2014
Thursday
18:30–21:30
Jan 16–Apr 17

This course examines international perspectives on theories of childhood and community development. Topics in the course include international funding of early childhood programs, global migration, Indigenous education, international organizations working in development and advocacy, and other topics identified by the instructor. The course examines social policy, curriculum, health and education for social development in both early childhood and school settings.

39 Hours Fee: $592

Winter 2014
Distance: Internet
Jan 11–Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.
This course relies on critical thinking and communication skills in the development of one’s individual position on contemporary issues based on a critical examination of policy, discussion papers, research, and journal and media articles that are relevant to current issues in the ECE and allied professions. Classroom discussions and debate expose students to alternative perspectives and provide practice in analyzing and communicating the values underlying points of view, recognizing inherent biases, and forming judgments based on evidence. (Formerly ECE 901).

39 Hours  Fee: $563

Spring/Summer 2014
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

The aim of this course is to acquaint the student with the major economic events in our history. The course will have two prominent themes. The first of these is the importance of staple production to the national economy. Since, for the most part the choice of which staple to produce at a given time was dictated by international market forces, the development of each staple product, i.e. cod, fur, lumber, is analyzed within an international framework. The second theme of the course is the development of modern industrial sectors since 1850. Restriction: Criminal Justice, Politics and Governance, Psychology, Sociology, Undeclared Arts. ECN 105 is not available for credit to students who choose ECN 509. (LL)

39 Hours  Fee: $565

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30  Jun 24-Aug 7
The Economics of Markets

**Antirequisite(s):** CECN 104

The course deals with the emergence, concepts, and applications of market economics. It first discusses developments that gave rise to the market system, followed by an analysis of the basic concepts that are essential for understanding markets. These include the concepts of opportunity cost, demand and supply, market structure and market failure. Various market applications to Canadian economic and social issues will be examined, ranging from the economics of big business to the economics of sports, crime, education, and health. ECN 110 is not available for credit to students who choose ECN 104. (LL)

**Statistics for Economics I**

**Prerequisite(s):** CECN 189 or MTH 189 or ECN 89A/B

This course is an introduction to descriptive and inferential statistics. Descriptive statistics consists of characterizing data sets by both frequency distributions and measures of central tendency and dispersion. Inferential statistics consists of techniques to make predictions or probabilistic statements about a whole population by studying the properties of a sample drawn from the population. Because inferential statistics depends on the probability theory, some probability laws will be studied, including the Binomial, Normal and t-distributions.

**Note:** Students enrolled in one of the following Chang School certificates may substitute CMTH 140 for the CMTH 189 prerequisite: Economics, Industrial Organization and Policy, Introductory International Economics, Macroeconomic Theory and Policy, Microeconomic Theory and Policy, or Quantitative Economics.

**NEW!**

**Introduction to Mathematics for Economics**

ECN 189 is an introduction to fundamental mathematical techniques which are frequently used in Economics. The first part of the course covers some basic concepts such as sets of numbers, relations and functions (in particular, quadratic, exponential and logarithmic functions), and linear and nonlinear equations. The second part of the course deals with differential calculus: limits, continuity, single-variable differentiation, and optimization.

**Introductory Macroeconomics**

**Antirequisite(s):** CECN 210 and FMG 905

This course centres around an explanation of levels of national income, employment and prices, the business cycle, factors affecting economic growth and international trade. It also includes a critical analysis of monetary and fiscal policies designed to achieve the established goals.

**Note:** During the daily sessions, there is a one-hour lunch break.

**ECONOMICS COURSES**

**European Economic History**

**Antirequisite(s):** CECN 609

This is a survey course of European economic history from the fall of the Roman Empire to World War II. The course is divided into two parts. The first focuses on the economic decline of the Roman Empire and how it set the stage for the manorial economy of the Middle Ages. Also, this section covers the economic revival after the Medieval period up to the middle of the eighteenth century. The second part of the course looks at the Industrial Revolution in England, and its diffusion throughout continental Europe. ECN 205 is not available for credit to students who choose ECON 609. (LL)

**Inflation and Unemployment in Canada**

**Antirequisite(s):** CECN 204

The course focuses on various economic theories that emerged after the Great Depression which emphasize economic performance and government policy. It examines how the Canadian economy works, and how the major problems of unemployment and inflation can be dealt with. The course also analyzes a range of economic issues such as poverty and income distribution, deficits and debts, free trade and trading blocks, capital mobility and exchange rate movements-and the role of government. ECN 210 is not available for credit to students who choose ECN 204. (LL)

★ Evolution of the Global Economy  
CECN 220  
This course is a survey of the economic development of the global economy since 1914, covering such factors as trade, migration, investment and monetary arrangements, and the role played by international institutions. The course will include an analysis of the impact on the international economy of twentieth century developments, such as the Great Depression, the two world wars and the globalization of financial markets. Particular emphasis will be placed on the operation of post-war institutions, such as the I.M.F., G.A.T.T. and the W.T.O., and how they affect the global economy.

39 Hours  
Fee: $545  

★ Mathematics for Economics  
CECN 230  
Prerequisite(s): CECN 189 or MTH 189 or ECN 89A/B  
This course introduces the students to mathematical topics beyond the high school calculus. It reviews differential calculus, then introduces topics such as basic matrix algebra, constrained optimization, comparative statistics for general function modes, and their application in economics.

39 Hours  
Fee: $556  

★ Intermediate Macroeconomics I  
CECN 301  
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry  
This course gives a theoretical and applied treatment of the determination of employment, inflation and GDP. The focus of the course is the Canadian economy in an international setting. The course will make extensive use of the internet, particularly CANSIM in analyzing current Canadian data. While the course concentrates on economic fluctuations in the medium and short term, there will be an extensive discussion of the determinants of long term economic growth.

39 Hours  
Fee: $547  
Fall 2013  
Monday 18:30-21:30 Sep 9-Dec 9

Winter 2014  
Monday 18:30-21:30 Jan 13-Apr 14

Spring/Summer 2014  
Monday & Wednesday 18:30-21:30 May 5-Jun 18

★ Introduction to Financial Economics  
CECN 320  
This course is designed to give students an understanding of financial concepts, including the time value of money, discounted cash flows, and risk and returns. It is also designed to give the students an introductory understanding of financial markets and how they are influenced by economic trends.

39 Hours  
Fee: $547  

★ Introduction to Law and Economics  
CECN 321  
Prerequisite(s): CECN 104 or Direct Entry  
Economic aspects of social and legal issues and policies in regional, national and international contexts: property, contracts, torts, environmental law, and the economics of crime and punishment.

39 Hours  
Fee: $547  
Fall 2013  
Distance: Internet Sep 7-Dec 7

Winter 2014  
Tuesday 18:30-21:30 Jan 14-Apr 15

For information on distance education, visit www.ryerson.ca/ce/de.

★ Statistics for Economics II  
CECN 329  
Prerequisite(s): CECN 129  
Corequisite(s): CECN 230  
This course is a continuation of the topics covered in ECN 129, Statistics for Economics I. It includes such topics as goodness of fit tests, Type I and Type II errors, analysis of variance, the assumptions underlying the classical linear regression model, simple regression and multiple regression.

39 Hours  
Fee: $547  

★ Economic Systems in the New World Economy  
CECN 330  
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry  
Economic activity can be organized in a variety of ways. Even amongst predominantly market economies, there exists a wide spectrum, ranging from those economies that operate with a minimum of government intervention to those with strong guidance from the government. The course investigates most of the various economic systems now in existence and the changes occurring in them. The roles of governance and market failures are explored in both local and global markets.

39 Hours  
Fee: $543  

★ Booms, Busts, Panics and Manias  
CECN 440  
This course addresses a historical tendency for the financial and stock markets to exhibit periodic unstable cycles or speculative booms, followed by market downturns, instability or in the extreme, total collapse. These patterns of cyclical behaviour are illuminated by focusing on crises, beginning with the Tulip Mania. The South Seas Bubble, the 1929 Crash, the Bre-X fraud and dot.com collapse are included. Students will be required to play a stock market speculation game for part of their course mark. (LL)

39 Hours  
Fee: $607  
Fall 2013  
Thursday 18:30-21:30 Sep 12-Dec 12

Winter 2014  
Tuesday 18:30-21:30 Jan 14-Apr 15

★ Industrial Organization  
CECN 501  
Prerequisite(s): CECN 504  
The first half of this course examines how industries are organized; how the conduct of firms is influenced by their internal organization and by the structure of the industry of which they are a part; and how an industry’s performance is determined by the conduct of its firms and by the industry’s structure. The second half of this course deals with public policies towards industry: competition policy, economic regulation, public enterprise.

39 Hours  
Fee: $547  
Winter 2014  
Tuesday 18:30-21:30 Jan 14-Apr 15

Spring/Summer 2014  
Monday & Wednesday 18:30-21:30 May 5-Jun 18

★ Economics of Natural Resources  
CECN 502  
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry  
This course deals with the application of basic economic concepts to the problems of natural resources and with Canadian public policy issues in natural resources management. Topics covered in the course include: the resource sector and its impact on the Canadian economy, models of renewable and non-renewable resource use, the scarcity controversy, economic rents and taxation as applied to natural resources, and current issues in Canadian resource management.

39 Hours  
Fee: $547  
Winter 2014  
Saturday 9:00-12:00 Jan 11-Apr 12

For the most current information, see our website at www.ryerson.ca/ce.
* Economic Development

Prerequisite(s): CECN 104 or CECN 110 or CECN 204 or CECN 210 or Direct Entry

This course describes the special challenges faced by developing economies. The process of development is explored and explained using both macro and micro economic foundations. After establishing patterns of development, the course investigates why some countries lag behind others in key economic indicators such as growth rates and income inequality. Questions regarding human resources, such as health, population and education are also explored in the context of developing countries. Poverty alleviation mechanism are also discussed. (UL)

Environmental Economics

Prerequisite(s): CECN 104 or Direct Entry
Antirequisite(s): CECN 511

This course applies economic analysis to the problems of pollution and the use of natural resources. It examines market processes when externalities in production and consumption are present. The relationship between the environment and the economic system, sources of pollution and methods of pollution abatement are studied. Application of cost-benefit analysis to the problems of environmental goods is evaluated. Examination of the economics of renewable and nonrenewable resources follows. Topics include: resource classification, the theory of optimal usage, resource conservation, and the limits to growth debate.

39 Hours

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12

$547

Intermediate Microeconomics I

Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry

A more detailed study of price theory, this course looks at the production decisions of firms and the consumption decisions of households. It gives an introduction to risk and uncertainty. It examines how the decisions of all the independent economic agents are co-ordinated by the price-system in purely competitive markets. The course also gives a variety of applications of micro-economic theory.

39 Hours

Fall 2013

$547

Money and Banking

Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry

The role of money in the economic system is emphasized along with current monetary theories. Also examined are the purpose, structure and regulations of the chartered banks and other financial institutions. By monitoring developments in the money market, especially changes in key interest rates, students may assess monetary initiatives of the Bank of Canada.

39 Hours

Spring/Summer 2014
Monday & Wednesday 18:30-21:30 May 5-Jun 18

$547

Intermediate Macroeconomics II

Prerequisite(s): CECN 301

An advanced study of the determinants of aggregate demand and the structure of Keynesian and new classical models. Policy issues covered include effectiveness of stabilization policies in an open economy, crowding out, choice of monetary policy instruments, and monetary policy and the exchange rate.

39 Hours

Spring/Summer 2014
Monday & Wednesday 18:30-21:30 Jun 18-Aug 11
This course deals with the analysis of economic and social issues which confront Canadian citizens and policy makers. The course focuses on how economics can illuminate some of the social and economic issues that Canadians believe are important. The course involves standard economic techniques (micro and macro), to examine selected issues. This is an upper level course and microeconomic theory will be used extensively. Economic concepts will be reviewed as required. (UL)

39 Hours  Fee: $547

Spring/Summer 2014  39 Hours  Fee: $547
Tuesday & Thursday  9:00-12:00  May 6-Jun 17
Monday & Wednesday  9:00-12:00  Jun 18-Aug 11

★ Labour Economics
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry
Antirequisite(s): CECN 505

This course aims to introduce students to basic labour economics, with particular reference to the Canadian case. This course draws on contemporary methods to model and analyse key aspects such as labour supply and demand behaviour. These aspects are combined to explore the determination of wages and major policy questions such as minimum wage legislation and unionization. The acquired tools are applied to special topics such as human capital investment, immigration, gender discrimination and unemployment.

39 Hours  Fee: $547

Winter 2014  39 Hours  Fee: $547
Tuesday  18:30-21:30  Jan 14-Apr 15
Spring/Summer 2014  39 Hours  Fee: $547
Tuesday & Thursday  18:30-21:30  Jun 24-Aug 7

★ International Monetary Economics
Prerequisite(s): CECN 301
Antirequisite(s): CECN 607

The world monetary order is examined. Topics include foreign exchange rates, international balance of payments and concepts of imbalance, fixed versus flexible exchange rate regimes along with some historical perspective. Strong emphasis is put on the operation of the International Monetary Fund and the problems of providing adequate finance for developing countries and a satisfactory adjustment system for members of the I.M.F.

39 Hours  Fee: $547

Fall 2013  39 Hours  Fee: $547
Distance: Internet  Sep 7-Dec 7
Winter 2014  Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014  Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ Issues in the International Economy
Antirequisite(s): CECN 606

This course deals with international financial markets and the ways in which they affect national economies. By studying the operations of these markets it will be shown how significantly they constrain domestic policy-making, not only in a small open economy like Canada’s but increasingly in all other economies as well. Attention is given to issues of current political concern, such as the Third World debt problem, the American trade deficit, the rise of Japan as a major international creditor, and the disintegration of the Communist system in Eastern Europe. ECN 607 is not available for credit to students who choose ECN 606. (UL)

39 Hours  Fee: $547

Spring/Summer 2014  39 Hours  Fee: $547
Tuesday & Thursday  18:30-21:30  May 6-Jun 17

★ Topics in Economic History
Prerequisite(s): CECN 301 and CECN 504;
Antirequisite(s): CECN 105 and CECN 205

The central focus of this course is institutions and organization and how these impacted technological change and economic growth in different periods. Among the topics we investigate are: cross-country differences in long-term economic growth and competing explanations for the divergent outcomes; migration and its impact on economic development and growth; the role of property rights, such as patent laws, and their effect on innovations and economic growth; the development of financial institutions and economic growth; and international trade and economic development. (UL)

39 Hours  Fee: $547

★ An Introduction to Game Theory
Prerequisite(s): CECN 700

Game theory studies the interactions and conflicts between decision-making agents. This course focuses on its application to economic issues such as market structure, auctions and bargaining. It begins by introducing the concepts of action, strategies, cooperation and non-cooperation, and equilibrium. The assumption of complete information is then relaxed and the application of game theory to situations of incomplete and imperfect information is explored. The course draws on real world examples to illustrate core concepts, such as the Prisoner’s Dilemma and buying votes. These examples borrow from micro, macro and experimental economics.

39 Hours  Fee: $547

Winter 2014  39 Hours  Fee: $547
Monday  18:30-21:30  Jan 13-Apr 14

★ Econometrics I
Prerequisite(s): CECN 329 or CQMS 442 or CQMS 703

This course examines what happens when economic data do not satisfy the assumptions of the Classical Linear Regression Model. It explains why ordinary least squares methods are not appropriate in the presence of, for example, autocorrelation or heteroscedasticity, and how estimation techniques have to be modified to take these problems into account. Extensive use will be made of software packages like T.S.P.

39 Hours  Fee: $547

Spring/Summer 2014  39 Hours  Fee: $541
Tuesday & Thursday  18:30-21:30  May 6-Jun 17

★ The Economics of Immigration
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry

This course applies economic principles to immigration. Students will examine issues such as discrimination, humanitarian concerns, the impact on the wages and employment prospects of native-born persons, social assistance programs, and contributions to the financing of such programs. The course will develop an understanding of the role of economics in providing theoretical predictions and empirical evidence that is relevant to the issues. Students will be equipped to discuss emerging new issues in this area.

39 Hours  Fee: $547

Winter 2014  39 Hours  Fee: $547
Thursday  18:30-21:30  Jan 16-Apr 17

For the most current information, see our website at www.ryerson.ca/ce.
This course extends price theory to the market structures of monopoly and oligopoly, and to the markets for economic resources. It gives an introduction to general equilibrium analysis and to the economics of information. Applications include, for example, the economics of coupons and rebates, and the market for “lemons”.

39 Hours
Fee: $547

**Intermediate Microeconomics II**
Prerequisite(s): CECN 504

[ECONOMICS COURSES](www.ryerson.ca/ce/de)

This course deals with the theories of consumption and of production at a more advanced level. It discusses decision making by consumers and firms, in situations of certainty as well as uncertainty and risk. The course introduces the students to welfare economics, and applies microeconomic theory and welfare economics to specific problems and policy issues.

39 Hours
Fee: $547

**Advanced Microeconomics**
Prerequisite(s): CECN 700

**International Financial Markets**
Prerequisite(s): CECN 301

This course develops a solid understanding of the international financial system and examines managerial decisions made in an international setting. First, current theories of financial price determination and their testable implications are studied in the context of foreign exchange, offshore, derivative securities and international asset portfolio markets. Second, managerial decisions regarding capital financing, investing and risk management are analyzed from the point of view of private individuals, firms and governments.

39 Hours
Fee: $547

**Public Finance I**
Prerequisite(s): CECN 504

The public sector’s large role in the economy shows the importance of understanding the principles of public finance. How do we explain the growth of the public sector’s share in the economy during most of the twentieth century? What criteria are relevant in determining the optimal level and scope of government activities? Topics examined include public goods and externalities, natural monopolies, pricing of publicly produced goods, and benefit-cost analysis.

39 Hours
Fee: $547

**Economics of International Trade**
Prerequisite(s): CECN 504
Antirequisite(s): CGMS 601, IBS 601

The purpose of this course is to introduce the student to the theory and practice of international economics. The factor proportions theory of trade is explained, and the evidence supporting it examined. Major emphasis is placed on the “new international economics” and its implications for Canadian trade policy. The issues surrounding free trade with the United States are examined, as well as the perceived need for interventionist industrial policies.

39 Hours
Fee: $547

**Principles of Engineering Economics**
Prerequisite(s): CECN 104 or Direct Entry

Principles of economic decision analysis applied to private and public sector capital projects. Discounted cash flow methods are studied. Tax impacts of depreciation and interest charges are incorporated into decision rules. Other topics covered include: lease analysis, replacement decisions, sensitivity and break even analysis, inflation impacts and public sector project analysis.

39 Hours
Fee: $555

**The Economies of East Asia**
Prerequisite(s): (CECN 104 or CECN 110) and (CECN 204 or CECN 210) or Direct Entry

The economies of East Asia are among the most dynamic in the world. Japan has long been one of the world’s leading industrial powers, the economies of the newly industrialized countries of Asia (NICs) are rapidly growing in importance, and economic modernization in China is likely to be an important factor in shaping the future world economy. In this course the Asian economies will be analysed in an international context. (UL)

39 Hours
Fee: $547

For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

**Transportation Economics**
Prerequisite(s): CECN 104 or IND 302 or Direct Entry
Antirequisite(s): MST 803

Addresses current and historical economic issues in both passenger and freight transport for all modes, as well as for urban transportation. The course examines the economics of significant transportation issues from, between and within the developed world. Demand-side issues, such as changing income levels and locational decisions; supply-side issues, such as the need for adequate funding for urban carriers; and constraints, such as regulation and uncertainty arising from political situations are synthesized.

39 Hours
Fee: $547

**Certificate and degree credit**

**Certificate credit**
ENERGY MANAGEMENT

In the energy management sector, for every two people retiring from the workforce, there is only one who is qualified in joining. The next leaders in the energy management sector require the knowledge and emerging skill sets vital to dealing with the technical and non-technical demand and response issues, fiscal oversight, project management, regulatory policy, and risk assessment that impacts energy generation, transport, distribution, and consumption.

Energy Management

Transforming to a green economy has emerged as one of the many management challenges facing society today. Managing the conversion to renewable energy, the reduction of dependence on fossil fuels, and the development of smart grids is seen as the cornerstone of success in achieving economic, environmental, and industrial sustainability. Managing the risks and the opportunities for energy innovation is high on the public agenda in Canada and countries around the world. Related certificate(s): Energy Management and Innovation (pg. 50), Sustainability Management (pg. 140)

Energy Innovation and Entrepreneurship

This course focuses on the drivers for innovation in Ontario’s energy sector, the opportunities for new business, and the challenges of moving from the idea stage to the marketplace. Barriers to innovation and commercialization - technological, financial, and regulatory - will be explored through case studies, including lessons learned from guest lectures by business leaders in the Ontario energy sector.

Energy Conservation: Emerging Trends

This course is designed to allow students to explore the technical and policy dimensions of energy conservation, energy efficiency, and demand response, with particular focus on potential contributions to sustainability of urban energy systems in a Canadian and, more particularly, an Ontario-based context. A key element of this course will be guest speakers from the energy industry, many of whom are potential employers.

Energy and the Public Policy Debate in Canada

This course introduces students to the wide range of factors that influence the development and implementation of energy policy in Canada. Using both lectures and special guest presentations, the course will review the social, political, geographic, and other pressures that make the energy debate so highly charged in our very regionalized country. Students will appreciate how many non-technical issues impinge upon energy policy and why certain policy outcomes seem to be decided by these social and political considerations.

Financial Basics

Work on your budgeting skills, learn how to track your spending, understand how credit products are marketed, manage your debt, compare different saving and investing options, choose a financial adviser, and avoid common financial frauds. Participants will learn the need for financial literacy as an essential life skill, the importance of asking questions when dealing with financial products and financial advisers, and the ways to save money when they think they’re stretched to the limit.

COURSES
An Introduction to Smart Grid  
CKEI 130
This course will examine the challenges of modernizing and digitizing the electrical grid in Ontario. It will explore the engineering and technological challenges of the smart grid; the issues of privacy and security; third party access to smart grid data; technologies which allow customers to manage their consumption of electricity; and the innovation and economic opportunities of the smart grid.

Current Topics in Energy Management and Innovation  
CKEI 140
This capstone course will allow participants to synthesize and apply what they have learned to complex energy management issues and energy solution implementations. Participants will analyze selected case scenarios and possible solutions using the energy management frameworks and models mastered in earlier courses to provide substantiation, precedents, and supporting evidence for proposed recommendations. As this is the capstone course in the Energy Management and Innovation certificate, participants will be required to undertake a final project paper to integrate and apply energy sustainability’s social, economic, and/or environmental components to one or more issues, solutions, or innovations. The final paper allows participants to demonstrate a broad mastery of learning across the curriculum and to hone their ability to propose specific strategies and solutions that incorporate best sustainability practices and meet regulatory requirements. The paper may be used by participants for career portfolio purposes.

ENGINEERING

These courses and workshops are ideally suited to technicians, technologists, or others working in engineering-related fields who wish to broaden their knowledge of current practices in engineering, upgrade their professional qualifications, or develop new skills that can be usefully applied in their work.

Note: Written approval is required before undergraduate degree program students can register in these courses. For more information, see Engineering Students on the Chang School website at www.ryerson.ca/ce.

Mechanical Engineering

Machine Shop Practice  
CKME 103
This course is set out so that at its conclusion the student will have a practical basic training in the understanding and safe operation of machine shop tools and machinery. This will include the use of hand tools, measuring tools, (precision and standard) cutting tools, and machine shop processes associated with manufacturing. This course will be suitable for students in the Mechanical and Industrial disciplines or those who have a vested interest in knowing the practical aspect of machine shop practices. Also this course will be of great benefit to students who are embarking on projects involving the manufacturing of test components and equipment which require machine shop tools to manufacture.

We offer courses in English Literature and English Writing Development.

English Literature

Students enrolled in Ryerson degree programs are responsible for ensuring that any course selected from those listed below meets the specific requirements of their program. For more detailed information regarding specific program restrictions, check the Undergraduate Calendar. Related certificate(s): Design for Arts and Entertainment (pg. 45), English Literature and Popular Culture (pg. 53), Ethics (pg. 59), Social Sciences and Humanities Foundations (pg. 137).

- **Laughter and Tears: Comedy and Tragedy**  CENG 101
  Laughter and tears are not always straightforward. A tale of pride going before a fall can be reassuring to us as well as sad, and a Hollywood romantic comedy can encode a scathing social critique. Offering insight into our ongoing fascination with the extremes of human emotion, this course traces how the twin poles of the comic and tragic have developed through literary history, and how they vary across diverse cultural traditions. This course is not available to BAENGLISH students for credit. (LL)
  39 Hours  Fee: $565
  Fall 2013  Tuesday 18:30-21:30  Sep 7-Dec 7
  Spring/Summer 2014  Monday & Wednesday 18:30-21:30  May 5-Jun 18

- **The Short Story**  CENG 104
  As a relatively new genre that burst on the literary scene with the emergence of magazine culture, the short story is a truly modern form. Its excitement has to do with the concision of its form and the startling turns its narratives can offer. This course explores the history and conventions of the genre, examining stories from a variety of cultural contexts representing a range of styles, themes, and social issues. (LL)
  39 Hours  Fee: $565
  Fall 2013  Wednesday 18:30-21:30  Sep 7-Dec 7
  Spring/Summer 2014  Tuesday & Thursday 18:30-21:30  May 6-Jun 17

- **Introduction to Fiction**  CENG 108
  Life without stories? Inconceivable. The moment we ask, “Who am I?” or “Where did I come from?” narrative steps in, giving shape to our identity and experience. This foundational course introduces students to fictional forms across a variety of historical periods and media in order to examine the underlying mechanisms of storytelling: narrative’s goals, inner structures, strategies, and rhetorical effects. Texts may include stories, novels, poetry, and drama as well as cinematic and digital texts.
  39 Hours  Fee: $560
  Fall 2013  Distance: Internet  Monday 18:30-21:30  Sep 7-Dec 7
  Winter 2014  Distance: Internet  Thursday 18:30-21:30  Jan 11-Apr 17

For information on distance education, visit www.ryerson.ca/ce/de.

- **Zap, Pow, Bang: Pop Lit**  CENG 112
  Horror stories, pop songs, love poetry, comics—this course introduces students to various types of writing that were popular at different times and in different cultures. Students will learn central concepts and terminology in the study of popular writing and culture, and they will analyze the impact that cultural and political issues have had not only on what works became popular but also on the very notion of “the popular” itself. This course is not available to BAENGLISH students for credit. (LL)
  39 Hours  Fee: $565
  Fall 2013  Distance: Internet  Tuesday 18:30-21:30  Sep 7-Dec 7
  Winter 2014  Distance: Internet  Tuesday 18:30-21:30  Jan 11-Apr 15

  Thursday 18:30-21:30  May 8-Jul 31
  Tuesday & Thursday 18:00-21:30  Jun 24-Aug 7

For information on distance education, visit www.ryerson.ca/ce/de.

- **Writing as a Cultural Act**  CENG 200
  We live our lives through networks of texts, both printed and digital. This course takes a rhetorical perspective to explore how written texts provide more than just information: they perform important cultural actions in contemporary civic life. Students examine the relationship of writing to knowledge, belief, and social organization in contexts such as popular and social media, politics and activism, literature and art, and professional, technical, and academic cultures.
  39 Hours  Fee: $555
  Spring/Summer 2014  Monday & Wednesday 18:30-21:30  May 5-Jun 18

- **Myth and Literature**  CENG 201
  From classical poetry to video games, stories follow recognizable patterns that tell us much about our values, fears, and desires. Offering a fertile source for plots and themes, myth systems present a set of limits to be investigated, challenged, and rewritten. This course examines myth systems that plays, poems, novels, and/or other texts engage with myth. Topics may include such diverse ideas as masculinity, initiation, fellowship, betrayal, rebirth, exile and homecoming. This course is not available to BAENGLISH students for credit. (LL)
  39 Hours  Fee: $565
  Fall 2013  Wednesday 18:30-21:30  Sep 11-Dec 11
  Winter 2014  Tuesday 18:30-21:30  Jan 14-Apr 15
  Spring/Summer 2014  Monday & Wednesday 18:30-21:30  Jun 18-Aug 11

- **The Literature of Native Peoples**  CENG 203
  How has colonization impacted indigenous cultures, and how have indigenous people used texts to pose challenges to colonialism and to preserve and retell traditional stories? Reading contemporary literature by Aboriginal Australian, Maori, First Nations and other indigenous writers, students address these and other important socio-political questions, examine wider literary and theoretical issues, and consider questions regarding cultural identity raised in the writings of Native peoples. (LL)
  39 Hours  Fee: $565
  Fall 2013  Wednesday 18:30-21:30  Sep 11-Dec 11

For the most current information, see our website at www.ryerson.ca/ce.
CENG 108
(CENG 108 and CACS 103) or CENG 208

ENG 580

Carroll, Milne, and Beatrix Potter. Authors include the Grimm Brothers, Andersen, Wilde, their evolution from oral stories for adults to literary versions for children. Following them through fantasies and animal tales, this course explores important questions and concerns cultures have faced and continue to the complex nature of modern experience and draw attention to the orientation, ability, mobility, and ongoing negotiations of identity within cultures. From the perspectives of gender, race, ethnicity, sexual orientation, imperialism, and criminality. This course is not available to BA ENGLISH students for credit. (LL)

Introduction to Non-Fiction
Prerequisite(s): CENG 108

Storytelling forms the narrative backbone of texts even in non-fictional modes of discourse like scientific essays, historical testimony, political speeches, documentaries, travel writing, and legal discourse. Focusing on non-fictional texts in a variety of genres, media and time periods, this course examines the role culture plays in the production and reception of meaning in even the most putatively factual and objective texts.

CENG 204

Children's Literature

This course examines children’s literature as a cultural category that shapes and is shaped by changing notions of “the child” and childhood. Students explore the ways in which texts directed at children’s instruction and entertainment relate to their time, place, and generic form. Topics may include fiction; picture books; comics; film; and poetry.

Tuesday & Thursday 18:00-21:30 Jun 24-Aug 7

Colonial and Postcolonial Literatures
Prerequisite(s): (CENG 108 and CACS 103) or CENG 208

This course introduces students to one of the key areas of critical interest and debate in English studies, postcolonialism, and invites them to reflect upon and discuss the ways in which Empire - in its historical and present day manifestations - shapes “third world” or the “developing” world’s relationship with the West. It also familiarizes students with some of the most exciting and politicized theoretical debates in the discipline.

39 Hours
Fee: $547

Not offered in fall/winter/spring 2013-2014.

Science Fiction

CENG 503

The mythology of our civilization is the story of things to come. The prophetic visions of writers such as Asimov, Brunner, Clarke, Gibson, Heinlein, Herbert, Hogan, LeGuin, Lenn and Niven offer endless playgrounds for the imagination. Their second gift is a widening vista or real alternatives: our future may be what they let us choose to make it. If you want to play an informed part in that choice, this course will provide the menu. This course is not available to BA ENGLISH students for credit. (UL)

39 Hours
Fee: $547

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12

Monday & Wednesday 18:00-21:00 May 5-Jun 18

The Modern in Literature 1900-1945

CENG 504

The era between 1900 and 1945 experienced such a radical sense of its own difference from the past that it is still referred to as the Modern Age. It was an age of new thought, new fashion, and a new sense of the self. In literature, it was an age of experimentation. This course explores the literature and the cultural influences of the period. Such writers as Virginia Woolf and James Joyce will be studied. This course is not available to BA ENGLISH students for credit. (UL)

39 Hours
Fee: $541

Not offered in fall/winter/spring 2013-2014.

Gothic Horror

CENG 510

Antirequisite(s): ENG 580

Invented over 200 years ago, the gothic has become one of the most popular genres in literature and film. This course will explore the gothic presence in popular culture during this time. Students will analyze ways in which the genre challenges not only other cultural conventions, but also claims in the realms of art, science, and medicine. Topics to be addressed include the relation of the gothic to gender, sexuality, class, orientalism, imperialism, and criminality. This course is not available to BA ENGLISH students for credit. (UL)

39 Hours
Fee: $541

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014

Certificate and degree credit  Degree credit  Certificate credit  Course series
The Art of Writing Life

Antirequisite(s): ENG 570

CENG 511

This course examines a variety of life-writing genres including the diary, letter, autobiography, memoir, and biography. By sampling a range of texts (both print and electronic) throughout history, students will explore diverse ways in which writers express their private and public stories about life and self. Students will gain an understanding of life-writing theory which can be used to rethink the relationships between gender and genre; fact and fiction; and art and artlessness. This course is not available to BA English Students for credit. (UL)

39 Hours  Fee: $547

Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10
Spring/Summer 2014
Tuesday & Thursday 18:00-21:00  May 6-Jun 17

The Language of Persuasion

Prerequisite(s): (CENG 108 and CACS 103) or CENG 208

CENG 520

What makes a political speech ‘good’? Why are some advertisements more effective than others? This course focuses on the crucial role of rhetoric in cultural communication: the means through which language is mobilized to persuasive ends. Students learn a critical vocabulary drawn from a variety of perspectives and explore persuasion in contemporary discourse, including print and online media, television, film, public events, and art, in order to understand how language achieves its most powerful effects.

39 Hours  Fee: $554

Spring/Summer 2014
Monday & Wednesday  18:00-21:30  May 5-Jun 18

Poetry and Poetics

Prerequisite(s): (CENG 108 and CACS 103) or CENG 208

CENG 560

Ancient bards, sonneteers, rappers; nursery rhymes, love lyrics, inauguration odes: poetry has always been part of lived experience. This course considers the poetics, politics, and social practices that produce new forms of creative responses in poetry. Examining a range of poetic strategies and genres selected from different historical periods, cultural locations, and literary movements, students investigate how artistic tensions, traditions, and formal challenges are posed by writers who continually attempt to enhance the art’s potential.

39 Hours  Fee: $582

Winter 2014
Thursday  18:30-21:30  Jan 16-Apr 17

Women’s Writing

Antirequisite(s): CENG 621

CENG 602

What does it mean to “write as a woman”? Is there such a thing as “women’s writing” and if so, what are its characteristics? This course explores the ways in which women have contributed to literary traditions both by working within and by challenging mainstream movements. In examining women’s use of literary forms as aesthetic, personal and political sites, we will consider how issues of identity and historical context inflect and inform their writing strategies. This course is not available to BA English students for credit. (UL)

39 Hours  Fee: $555

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

The Language of Love, Sex and Gender

Antirequisite(s): ENG 941

CENG 610

Love, sex, and gender are fluid and complex. Looking at stories, novels, films, and other types of texts, students will analyse the impact of literature, popular culture, and aesthetics on the formation of new notions of gender, sexuality, and desire. Emphasis will be placed on a consideration of the cultural and sociopolitical influences that contributed to these changes and on the possibility of affections, sexualities, and genders that may not yet have names. This course is not available to BA English Students for credit. (UL)

39 Hours  Fee: $550

Winter 2014
Wednesday  18:30-21:30  Jan 15-Apr 16
Spring/Summer 2014
Tuesday & Thursday 18:00-21:30  Jun 24-Aug 7

Women’s Texts, Global Contexts

Antirequisite(s): CENG 602

CENG 621

This course introduces students to literary and cultural works by women writers across the globe. Students will read and discuss narratives by writers from a range of backgrounds, paying particular attention to the ways in which “women” and “gender” as political and cultural categories are constructed through the vectors of race, culture, politics, and sexuality.

39 Hours  Fee: $547

Fall 2013
Thursday  18:30-21:30  Sep 12-Dec 12

Reading Visual Cultures

Antirequisite(s): (CENG 108 and CACS 103) or CENG 208

CENG 705

By exploring the ways images in photography, painting and film, as well as in literary and non-literary writing, are scripted and can be read as text, this course seeks to show how visuality organizes and shapes Western culture. Topics can include how such things as the invention of perspective and the visual technologies of photography and film have influenced philosophy and literature, and how the culture industries have used the visual as a tool to influence and entertain.

39 Hours  Fee: $547

Shakespeare and Performance

Antirequisite(s): (CENG 108 and CACS 103) or CENG 208

CENG 706

Shakespearean drama was an important medium for entertainment and for reflecting contemporary socio-political realities on stage. A mark of Shakespeare’s continued relevance and popularity is the constant remaking of his plays in a variety of media. This course analyses the textual, thematic, historical, and theoretical readings of Shakespearean drama. Students explore a variety of adaptations, including folk performance, early-modern theatre, television, and film.

39 Hours  Fee: $547

Spring/Summer 2014
Monday & Wednesday  18:00-21:30  May 5-Jun 18

Rhetorical Theory and Criticism

Antirequisite(s): (CENG 108 and CACS 103) or CENG 208

CENG 720

Aristotle defined rhetoric over 2000 years ago as the art of discovering, in any given case, the available means of persuasion. Since then, definitions of rhetoric have shifted in tenor and scope but all emphasize rhetoric’s role in shaping public life. Offering a survey from ancient Greek and Roman texts through to contemporary rhetorical criticism and related fields, this course examines how we use rhetoric to negotiate knowledge, belief, and action in various contexts.

ENGLISH AS A SECOND/ADDITIONAL LANGUAGE

For more information, visit www.ryerson.ca/ce/english.

English as a Second/Additional Language

If English is not your first language, and you need to develop greater fluency to advance your career, these courses are ideally suited to you. Ranging from general to specialized, from intermediate to advanced, they give you the opportunity to develop your reading, writing, listening, and speaking skills in English.

For placement assessment, complete the online placement test at www.ryerson.ca/french/englishltest.html. For more information, applicants can attend an Open House session or contact Marju Toomsalu, ESL/EAL Academic Coordinator, at 416.979.5000, ext. 4196, or mtoomsal@ryerson.ca.

For further information, visit www.ryerson.ca/ce/esl. Related certificate(s): English as a Second/Additional Language (pg. 51)

★ Language and Identity

This course for English as a Second Language students covers material focusing on how our use of language reflects our social identities. The course will also help students improve their English and express themselves in a university setting. Students will analyze, discuss, and write essays on the material. The online ESL/EAL Placement test is required. (Formerly LNG 100) (LL)

39 Hours Fee: $610

Winter 2014
Classroom/Internet: Internet and Wednesday 18:00-21:00 Jan 11-Apr 12
Spring/Summer 2014
Distance: Internet May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

★ Language: Spoken and Written

This course is an intermediate-level course designed to prepare students for Critical Reading and Effective Writing (COEN 295). This course takes a practical approach to improving students’ reading and writing skills, with a focus on developing strategies for planning, revision, responding to readers’ needs, and proofreading. In addition, students work on sentence structure, grammatical errors, organization, vocabulary, and dictionary use. Reading material is chosen to develop active, critical reading and comprehension skills. Students participate in discussions and peer feedback.

Note: All students must take an online placement test before enrolling in this course.

35 Hours Fee: $578

Intermediate Grammar

COEN 204

This course is meant for lower intermediate students of English who need to review and refresh their knowledge of grammar. The course will focus on the use of appropriate forms of language in specific contexts, thus allowing students to focus on the meaning of a grammatical form. The topics discussed in this course will help students improve both their oral and written expression. In writing the students will be working on improvement at the sentence level. The topics will be: verb tense and voice, subject-verb agreement, the conditional, modal verbs, adjectives and adverbs, and the article.

Note: All students must take an online placement test before enrolling in this course.

35 Hours Fee: $578

Reading/Listening Test Prep I

COEN 210

Prerequisite(s): Department consent

This course prepares students for academic reading and listening tasks in post-secondary settings, and also for reading and listening sections of English proficiency tests at the level generally required for math and science based undergraduate programs. Students will work on planning, outlining, paragraph and essay writing skills, as well as the basics of English grammar. Speaking will be practised via typical test tasks. Students will practise these skills in bi-weekly practice tests.

39 Hours Fee: $480

Winter 2014
Monday & Wednesday 18:00-21:00 Jan 20-Mar 10
Spring/Summer 2014
Monday–Thursday 9:00-12:00 Apr 28-May 20

Writing/Speaking Test Prep I

COEN 220

Prerequisite(s): Department consent

This course prepares students for academic writing and speaking tasks in post-secondary settings, and also for writing and speaking sections of English proficiency tests at the level generally required for math and science based undergraduate programs. Students will work on planning, outlining, paragraph and essay writing skills, as well as the basics of English grammar. Speaking will be practised via typical test tasks. Students will practise these skills in bi-weekly practice tests.

Fall 2013
Wednesday 18:00-21:00 Sep 11-Dec 11

For the most current information, see our website at www.ryerson.ca/ce.
This is an upper-intermediate-level course designed to build on Writing Accurately and Clearly (COEN 294). This course takes a practical approach to improving students’ reading and writing skills, with a focus on developing strategies for planning, anticipating readers’ needs, revision, and proofreading. In addition, students continue to work on sentence structure, grammatical errors, organization, vocabulary, style, and dictionary use. Students write longer texts, both in class and for homework (please note that this is not a course in academic writing). Reading material is chosen to develop active, critical reading and comprehension skills. Students participate in discussions and peer feedback.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Winter 2014  
Wednesday  18:00-21:00  Jan 22-Apr 16

Writing for Professionals  
COEN 296

This 12-module course develops effective industry-specific professional writing and editing skills. The course examines the principles of good writing and editing, and has writers apply these principles of good writing and editing in assignments that are customized to individual professional goals and industry backgrounds. Writers learn and apply strategies to frontload information and to frame, organize, and present ideas for maximum impact. The course explores writing within a range of business writing genres including online mediums such as e-mail to exploit the advantages of various communication modes. Throughout the course, writers develop and refine individualized editing strategies to self-assess and improve their written communications skills to make their writing a powerful tool in business communication.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Fall 2013  
Classroom/Internet: Internet  
and Tuesdays  18:00-21:00  Sep 10-Dec 3

Scientific and Technical Writing  
COEN 298

This course has been designed to help non-native speakers of English who are pursuing studies or are employed in the fields of science and engineering, develop writing skills to cope with English speaking academia and/or workplace. Students should have a fairly good command of English grammar and be able to write clear sentences in English to benefit from this course. The course will focus on improving students’ knowledge of grammar and writing in the context of genres of technical communication: technical instruction, manuals, short memos, e-mail messages, reports, and presentations. Heavy focus will be on the principles of organization in writing: classification, definition, description, and comparison.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Spring/Summer 2014  
Monday & Wednesday  18:00-21:00  May 5-Jun 16

Effective Conversation Strategies  
COEN 299

This course gives students the opportunity to practise speaking English with a variety of purposes and contexts. Classes include work on initiating and maintaining conversation, cultural differences in communication, engaging in group and one-to-one communication, informal and formal presentations, and improving voice and non-verbal language. The course is supplemented by audiovisual aids. Students participate in a variety of individual and group activities.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Pronunciation  
COEN 301

This course concentrates on the English sound system, helping students to identify and reduce their specific pronunciation problems and to improve their general pronunciation and accent when speaking English. By a combination of lectures and practice sessions, students learn articulation of vowel and consonant sounds; sound reductions; glides, and stress, rhythm and intonation patterns; and overall accent in English. In addition, students will understand the links between correct pronunciation and listening and spelling.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Fall 2013  
Saturday  9:00-12:00  Sep 7-Dec 7

Winter 2014  
Saturday  9:00-12:00  Jan 18-Feb 22

Advanced Grammar  
COEN 304

This course is designed for upper-intermediate and advanced students of English as a Second/Additional Language who want to improve the accuracy of their speech and writing. It is particularly useful for those who feel they are being held back in their career or their studies because their writing contains an unacceptable number of grammatical errors. A central feature of the course is a point-by-point review of particular grammatical troublesome. Students will be encouraged to submit samples of their writing.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Winter 2014  
Monday  18:00-21:00  Jan 13-Apr 7

ESL/EAL: Oral Communication for Professionals  
COEN 306

This course is for advanced English as a Second/Additional Language students who wish to improve their oral communication and confidence in professional contexts. Students will learn to recognize, compare, and negotiate differences in North American academic and workplace practices; to effectively present, promote, and express themselves; to develop sensitivity to audience, tone, voice, non-verbal communication, and appropriate language; and to develop troubleshooting strategies for handling difficult communicative situations. Students will participate in a variety of individual and group activities.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Winter 2014  
Tuesday  18:00-21:00  Jan 14-Apr 8

Integrated Skills I  
COEN 311

This course is for students of English as a Second Language who want to improve their skills in reading, writing, listening and speaking. The course covers all the essential skills and so helps students to pinpoint problem areas for further study. Students will read short texts on a variety of interesting topics, thereby increasing their vocabulary and adding to their knowledge about Canadian society and culture. Topics will also be presented via audio or video, allowing students to develop their listening skills. Students will learn to summarize the issues discussed and to present their own views on course topics verbally, and in writing. Writing will be at the sentence and paragraph level. There will be an overview of common grammar problems, and the instructor will give individual feedback on writing assignments, paying attention to both content and grammar. All students will have the opportunity during class discussions to practise and improve their oral skills.

Note: All students must take an online placement test before enrolling in this course.

35 Hours  Fee: $578

Spring/Summer 2014  
Tuesday & Thursday  18:00-21:00  May 6-Jun 12
This course is for students of English as a Second Language who want to further improve their skills of reading, writing, listening and speaking. In this course, students will read short and longer texts on a variety of interesting topics to increase vocabulary and learn about the conventions of writing in English. Texts will also be presented to the class via audio or video, allowing the students to develop their listening skills. Students will practise the art of summarizing and analyzing ideas and arguments. Writing assignments will generally be in the form of paragraphs which summarize and respond to topics presented in class. The instructor will give individual feedback on student assignments, paying attention to both content and grammar. All students will have the opportunity to practise and improve their oral skills through discussions and short presentations in class on topics pertaining to the course content.

Note: All students must take an online placement test before enrolling in this course.

Prerequisite(s): Department consent

Reading/Listening Test Prep II  COEN 410

This course helps students to improve their performance in academic and professional reading and listening tasks typical in post-secondary education and in a professional workplace. It also helps students to achieve higher scores in reading and listening comprehension sections of English proficiency tests at the level generally required for humanities and communications-based undergraduate and graduate programs. Advanced academic vocabulary, text and lecture analysis, reading, and note taking techniques will be the focus of the course. Students will practise these skills in bi-weekly practice tests.

39 Hours  Fee: $480

Fall 2013
Thursday 18:00-21:00  Sep 12-Dec 12

Spring/Summer 2014
Wednesday 18:00-21:30  Mar 5-Apr 16
and Saturdays  9:00-13:30  Mar 8-Apr 12
Monday–Thursday 13:00-16:00  Apr 21-May 12

Writing/Speaking Test Prep II  COEN 420

This course helps students improve their performance in academic and professional writing and speaking tasks in post-secondary educational and professional settings. It also helps students to achieve higher scores and succeed in writing and speaking sections of English proficiency tests at the level generally required for humanities and communications-based undergraduate and graduate programs. Students will work on perfectioning their academic writing skills and grammar, as well as speaking and presentation skills in formal settings. Students will practise the skills in bi-weekly practice tests.

39 Hours  Fee: $480

Fall 2013
Saturday  9:30-12:30  Sep 14-Dec 14

Spring/Summer 2014
Monday–Thursday  9:00-12:00  Apr 21-May 12
Thursday  18:00-21:30  Mar 6-Apr 10
and Saturdays  9:00-12:30  Mar 8-Apr 5

Environmental Engineering Science

The environment is the natural, social, and built condition in which we live, and it is shaped by the interaction of the elements that surround us. Human impact on the environment requires effective management practices to protect the environment. Environmental sciences and management offer an increasing number of career opportunities in fields as varied as ecology, occupational health and safety, physical science, bioremediation, engineering, law, and management.

Environmental Engineering Science

This multidisciplinary program provides graduates with the broad knowledge base and wide range of skills they require as professionals. Students receive a grounding in air, water, and soil processes and contamination, biotechnology, instrumentation, and experiment design. Admission into the Environmental Engineering Science Certificate Program is necessary prior to the first registration in one of the following courses. After admission to the program, no further interviews are necessary. Related certificate(s): Energy Management and Innovation (pg. 50), Environmental Engineering Science (pg. 57), Sustainability Management (pg. 140)

Hydrogeology Soil and Ground Water Science  CKES 102

This course will present an overview of the subsurface environment with particular emphasis on the physical/chemical characteristics of soil and groundwater. Topics will include the origin, structure, and chemistry of soils. The concepts of hydrogeology and the flow of water in subsurface media are explored. Methods of measurement, monitoring, and analysis of hydraulic systems are developed.

39 Hours  Fee: $755

Fall 2013
Tuesday 18:30-21:30  Sep 10-Dec 10

Environmental Biotechnology Waste Treatment and Remediation  CKES 110

This course will cover the emerging biologically based technologies in environmental control. Subject areas include control of biodeterioration, applications of microbial technology to air, soil, waste, and water treatment and management, and bioenergy and the environment. The potential positive and negative impacts of biotechnology on the environment will be discussed.

39 Hours  Fee: $755

Fall 2013
Thursday 18:30-21:30  Sep 12-Dec 12

Environmental and Atmospheric Processes  CKES 120

This course will cover chemical and biogeochemical processes in the pristine and stressed environment. The course will deal with the mechanisms which pertain to the dispersion and fate of both naturally occurring and xenobiotic compounds in the environment. Atmospheric pollution is assessed in terms of sources, transport mechanisms, chemical reactivity, loss mechanisms, and effects on the physical and biological environment. Global climate change is analyzed. Current regulatory and control strategies are also presented.

39 Hours  Fee: $755

Fall 2013
Monday 18:30-21:30  Sep 9-Dec 9

Toxicology and Risk Assessment  CKES 121

This course will introduce students to the principles of toxicology applied to the assessment and control of biologically active compounds in the environment. In addition to the biological mechanisms of toxicity, the use of biomarkers and toxicity tests will be discussed as it pertains to the evaluation of risk and in establishing regulations.
This course will introduce Phase I and II of Environmental Site Assessment (ESA). Phase I-ESA is a nonintrusive investigation identifying liabilities linked to contaminants through site inspection and historical review. Phase II-ESA is an onsite investigation of a property’s surface and subsurface, through samples and analysis. This data is necessary for a record of site condition and risk assessment. The students will learn about the specific Canadian Standards and about site assessment in Ontario.

39 Hours  Fee: $755

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10

Winter 2014
Wednesday 18:30-21:30 Jan 13-Apr 16

Site Assessment

This course will introduce Phase I and II of Environmental Site Assessments (ESA). Phase I-ESA is a nonintrusive investigation identifying liabilities linked to contaminants through site inspection and historical review. Phase II-ESA is an onsite investigation of a property’s surface and subsurface, through samples and analysis. This data is necessary for a record of site condition and risk assessment. The students will learn about the specific Canadian Standards and about site assessment in Ontario.

Tuesday 18:30-21:30 Sep 10-Dec 10

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

*This course will run during the Fall break.

Waste Management

This course will cover waste characterization, collection, and disposal. Land application of biosolids is discussed. Practical aspects of management will be covered including legislation and authority as well as advanced technology, with emphasis on environmental, industrial, and resource constraints. Specific treatment technologies applied to a range of specific hazardous and industrial wastes will also be examined, including new innovative approaches to remediating hazardous sites and groundwater.

39 Hours  Fee: $755

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16

Water Treatment

This course will explain the sources and characterization of wastewater. Drinking water requires different treatment than either domestic or industrial wastewater. The course will review the conventional processes in the treatment of domestic wastewater and some cases of treatment of industrial contractors, fluidized-bed reactors, membrane reactors, and ion exchange processes will be discussed.

39 Hours  Fee: $755

*This course will run during the Fall break.

Renewable Energy and Green Technology

This course provides an in-depth introduction to sustainability theory and green technology, renewable energy in a sustainable future, and why renewable energy is necessary for the future. Students will be introduced to different types of renewable energy technology such as: wind energy, solar, hydro-electric, geothermal energy, ocean thermal, fuel cells, heat pump systems, and high voltage DC energy transport. The implementation of these technologies is also studied to understand how they can work either in conjunction with, or a replacement for, conventional technologies.

39 Hours  Fee: $755

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12

Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

Applied Environmental Analysis

This course provides an applied framework for the designing of environmental analysis, planning of experiments, sampling strategies, and data analysis pertaining to environmental analysis and problems. An overview of analytical methods used to identify contaminants and follow their fate in the environment is also introduced. Topics include data acquisition, data interpretation using probability, analysis of variance, residual analysis, and nonparametric models. Emphasis will be placed both the execution and application of the analysis in a variety for a variety of environmental situations.

39 Hours  Fee: $755

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

Environmental Law and Practice

This course is a review of the legal context for environmental management. It examines in detail the legislation that governs present environmental practice, as well as the laws governing the transportation and disposal of wastes, environmental liability, and the protection of valued ecosystem components. The course identifies the differences between federal and provincial environmental laws and policies. In addition, it outlines the institutional, legal, and practical options for making environmental decisions.

39 Hours  Fee: $755

Spring/Summer 2014
Monday & Wednesday 18:30-21:30 May 5-Jun 18
ENVIRONMENTAL PUBLIC HEALTH LEADERSHIP

For more information, visit www.ryerson.ca/ce/ephl.

Environmental Public Health Leadership

- **Public Health Administration**  CVPH 401
  Understanding the historical framework and the future direction of any public health system is essential to effective administration. An administrator must know an organization’s mission and priorities and be able to operationalize these. They must develop strategic plans, set budgets with clear priorities, understand cost-benefit analysis and identify issues that affect delivery of essential public health services. Developing and managing performance standards will have a positive impact on the public health organization.
  
  39 Hours  Fee: $593

- **Public Health Practice**  CVPH 402
  Governments and community partners work collaboratively in the delivery of public health services to improve community quality of life. Population characteristics must be known and appropriate methods for interacting with diverse populations must be adhered to in the effective delivery of public health services. Knowledge of data collection processes and the application of information technology are required skills to prepare for and contribute to the management of incidents, outbreaks and emergencies in the community.
  
  39 Hours  Fee: $593

- **Social Marketing**  CVPH 403
  Social marketing principles may be utilized to advocate for public health programs and resources. Clear and concise communication including listening to others in an unbiased manner and promoting the expression of diverse opinions and perspectives is important. The ability to disseminate health status, demographic, statistical, programmatic, and scientific information to professional and lay audiences is critical. Understanding consumer behaviour and using the media, technologies, and community networks to communicate information supports social marketing.
  
  39 Hours  Fee: $593

- **Public Health Policy**  CVPH 404
  Health policies and programs are best developed using current techniques in decision analysis and health planning. Policy statements must be clear and state the feasibility and expected outcomes of each policy option. Appropriate courses of action must be determined and the implementation of interventions must be evaluated. Understanding the limitations and uses of public health regulatory systems is critical. Policies and program delivery must respond to the diversity in population characteristics.
  
  39 Hours  Fee: $593

- **Public Health Leadership**  CVPH 405
  Critical thinking and the utilization of leadership skills is essential to build community partnerships and to maintain linkages with community leaders and key stakeholders. Facilitating dialogue about strategies to attain healthier communities using best practices is fundamental. Ethical management and the creation of key values that follow a shared vision will contribute to team and organizational learning. The importance of improvements in the workplace environment is also key.
  
  39 Hours  Fee: $593

- **Current Topics in Public Health**  CVPH 406
  This course will be offered in an intensive format over five days and it will explore current issues and concerns relevant to environmental public health management. Public health experts from local, provincial, federal and international agencies will present information that will help public health practitioners deal with emerging and novel public health issues. The structure of the course will vary each year and will be dependent on the current issues at that time.
  
  39 Hours  Fee: $593

**FACILITY MANAGEMENT**

The facility manager is responsible for the integration of the workplace with the people and work of the organization. This program will provide knowledge and analytical skills for those pursuing careers in this newly defined profession. It will be of interest to those who are being prepared by an organization to assume a role in facility management, those who are newly appointed to a facility management department, and those who wish to upgrade their credentials within the facility management department or to implement a career change.

**Facility Management**

Related certificate(s): Facility Management (pg. 62)

- **Facility Management Theory**
  - CDFM 102
  - Students will learn about the development of facility management as a profession, the challenges and opportunities arising from the multifaceted role the facility manager must play in an organization, and how to manage those responsibilities. Students will learn about the core competencies and explore functions such as building operations and maintenance, space management and office layout, project management, leasing, security, IT contracting, and interfaces with other departments. (Equivalent to IDE 311.)
  - 39 Hours  Fee: $647

Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10

- **Professional Practice I**
  - CDFM 103
  - The role of the facility manager includes planning, design, and management of space and building projects. This course outlines the function of the facility manager as the initiator of projects and then the orchestrator of other related professionals, including the architect, engineer, and design consultant. Students will learn about project feasibility studies, budgeting, various stages of project planning, design, and execution. Issues include regulator and legal issues, corporate culture, contracting, performance, and accountability.
  - 39 Hours  Fee: $667

Winter 2014
Monday  18:30-21:30  Jan 13-Apr 14

- **Professional Practice II**
  - CDFM 104
  - Facility managers become involved in physical building issues whether their company owns their own building or they are a tenant interfacing with a landlord. This course outlines the relevance of understanding building systems and the elements needed to interface with other related professionals, including problem solving. Students will learn the building systems and impacts to their role and related topics such as architecture, design, building codes, occupational health, risk and security, service contract management, sustainability, commissioning, and facility planning.
  - 39 Hours  Fee: $667

Fall 2013
Wednesday  18:30-21:30  Sep 11-Dec 11

- **Office Facilities Space Management**
  - CDFM 105
  - Students will learn current techniques applied to the planning and management of office space. Concepts using in office accommodation space requirement survey and reporting, and the various planning principles for both systems and conventional office planning are explained in detail. Space standardization programs for all levels of personnel and the importance of good planning and its relationship to modern communications techniques are reviewed in application to both new and existing facilities.
  - 39 Hours  Fee: $667

Spring/Summer 2014
Tuesday & Thursday  18:30-21:30  May 6-Jun 17

- **Real Estate Planning and Development**
  - CDFM 203
  - Commercial real estate is the foundation of the facility manager’s role, whether dealing with an acquisition, new construction, or leasing of premises. This course outlines the primary elements of each one, preparing the student to deal with all potential scenarios. Students will learn about site selection, market analysis, the changing real estate market, procurement of design/construction, real estate programming and requirement of analysis, lease negotiation techniques, asset monitoring and control, and real estate and the law.

FAMILY STUDIES

Families and Health  
CFNF 100
This course is a critical examination of recent important changes in Canadian family life and considers the implications of these changes for food and nutrition professionals. Theories for understanding the family are examined in order to provide the student with insight into the social, political and economic aspects of family structure and functioning. Students will also gain an understanding of the social determinants of health, and the pathways by which social forces and conditions affect individual, family and community life.

39 Hours  
Fee: $563

Equivalent course available in the degree program. Contact Reg Noble at food@ryerson.ca for more information.

The Social Context of Human Sexuality  
CFNF 400
This course examines the social basis of attitudes and behaviour related to human sexuality. By applying knowledge gained from the study of current research and theory, students will increase their understanding of the roots of societal norms and values related to sexuality and in the process they will have an opportunity to expand their own awareness of the range of sexual values and behaviour. Some of the areas to be considered are: premarital, marital and non-marital sexuality; sexuality and liberation; sexuality and interpersonal relations; sex codes and personal codes; sex and gender role socialization, etc.

FAMILY SUPPORTS

Individuals seeking admission to the certificate program are strongly encouraged to contact the academic coordinator, Catherine Moher, by email at cmoher@ryerson.ca. For general information on the program, phone 416.979.5035 or attend an Open House session (page 6). For more information, visit www.ryerson.ca/ce/familysupports.

Family Supports
Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Family Supports (pg. 63)

Leadership for Transformation  
CVFS 101
Prerequisite(s): Department consent
Leading and mentoring educators, early interventionists, healthcare professionals, family support professionals, and parents through the process of change can be a challenge to policy makers, administrators, and front-line personnel. This module critically explores theories of leadership, including feminist, adaptive, and transformative perspectives. The learner will apply these models to effectively build a team that can manage change and work productively in an environment that is in a constant state of flux.

16 Hours  
HST included  
Fee: $195

Fall 2013
TBA

Vision Building  
CVFS 102
Prerequisite(s): Department consent
This module will support participants in building a vision for multi-system transformation applicable to their organizational and community contexts. How do we promote resiliency in organizations so that they have the capacity to re-envision their work with families and children without losing their core principles and effective practices? Case studies based on the current early childhood systems integration and renewal initiative will provide learners with strategies for vision building, strategic planning, and goal setting.

16 Hours  
HST included  
Fee: $195

Fall 2013
TBA

Group Dynamics and Interpersonal Communication  
CVFS 400
This experiential and interactive course will focus on enhancing the students’ awareness of themselves and others as well as their own communication effectiveness. A wide range of topics will be addressed including listening and responding skills, giving and receiving feedback, enhancing self concept, developing trust, etc. Students will increase their understanding and skills in group processes, leadership and co-facilitation through observing and analyzing the group processes, readings, and assignments. Equivalent to CLD 251.

39 Hours  
Fee: $563

Spring/Summer 2014
Monday–Saturday  
9:00-17:00  
May 26-May 31

Contemporary Family Issues  
CVFS 401
This interdisciplinary course provides an in-depth study of key issues and life experiences affecting contemporary families and community life and their relationship to the broader sociopolitical context. Topics include the cultural variations in family interaction, the trends in family composition, and the issues that impact on family resilience and capacity such as poverty, mental health, addiction, violence, and abuse. A variety of theoretical frameworks for understanding families and community life will be explored. Equivalent to CLD 231.
39 Hours  Fee: $563

Fall 2013
Distance: Internet  Sep 7-Dec 7
Spring/Summer 2014
Tuesday & Thursday 18:30-21:30  May 6-Jun 17

For information on distance education, visit www.ryerson.ca/ce/de.

★ Families Power and Social Change  CVFS 402
Using a social change perspective, students will identify and analyze family, interpersonal and intergenerational issues within a broader social, political and community context. Students examine how community programming and public policy address family issues and explore strategies for change with individuals and groups within a family context and at a larger systems level. Through self-reflection, students incorporate new perspectives into their personal, professional, and programming practices by re-examining their current approaches to family life issues. Equivalent to SOC 605.
39 Hours  Fee: $563

Winter 2014
Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014
Monday & Wednesday 18:30-21:30  May 5-Jun 18

For information on distance education, visit www.ryerson.ca/ce/de.

★ Family Supports Theory and Practice  CVFS 403
This course examines the principles and practice approaches in the field of family support. Such approaches contribute to the evolving framework of family support programs and include theories of social support, empowerment, adult education, and community building. Students explore ways to integrate theoretical approaches with professional practice by exploring family support practice in community based public and non-profit programs. (Formerly ECE913/CVFS 403.) Equivalent to CLD 435.
39 Hours  Fee: $563

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

★ Guiding Children’s Development  CVFS 406
This course examines the major theories of children’s development, focusing on all the developmental domains: physical, cognitive, language, social, and emotional and includes consideration of the importance of the socio-cultural context. Such development will be considered in relation to diverse settings in community-based programs. In particular, the role of parents, practitioners, and staff in building relationships, guiding behaviour, and meeting the developmental needs of children from birth through age 12 will be discussed. Equivalent to CLD 103.
39 Hours  Fee: $563

Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

★ Community Development  CVFS 407
The course focuses on the theory of community development and its application in family support programs. Drawing on successful models of community development and social enterprise, students will acquire the practical skills to undertake community engagement, build community capacity, and develop partnerships with diverse communities. Students will examine the values, principles, and strategies required to collaborate with communities to design needs-based program responses that promote community health and well-being. Equivalent to INT 917.
39 Hours  Fee: $563

★ Practicum/Project  CVFS 408
Prerequisite(s): CVFS 401, CVFS 403, and CVFS 404
In this course students will develop a project in relation to Family Support Programs with the goal of integrating the knowledge gained in previous courses. The project will be selected by the students themselves, in consultation with the instructor. The student evaluation will be based on ongoing consultation between the instructor and the student. Wherever possible, students will be given an opportunity to select a project that relates to their own personal or professional interests. Equivalent to FNP 400.

Note: Students are encouraged to contact the Academic Coordinator, Catherine Moher, at cmoher@ryerson.ca to plan their practicum enrollment.
39 Hours  Fee: $563

Fashion

The following fashion courses offer you an eclectic mix of choices. Ranging from sewing and retail and merchandising issues to pattern drafting and fashion drawing, they are suited to both your professional and personal learning interests. For more information, visit www.ryerson.ca/ce/fashion.

Fashion Drawing I

This is an introductory level fashion illustration course. You will draw from models, learning anatomy and proportion as well as basic drawing principles. It explores traditional methods of rendering and provides a sound foundation in drawing. It is designed for a novice individual who wishes to learn basic drawing skills as well as for the amateur who wishes to brush up on their skills. Course material will be delivered through lectures and drawing from models. There will also be time for critical on-one-on-one input as well as group critique.

39 Hours

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
Spring/Summer 2014
Tuesday & Thursday 18:00-21:30 May 6-Jun 17

Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students during the first class.

Fashion Drawing II

This course builds on the foundations learned in CDFA 104. It explores both traditional and non-traditional methods of rendering for fashion illustration. Drawing skills will be developed through conceptually based projects and exploration of techniques. Course material will be delivered through lectures and drawing from models. Time will be set aside for critical one-on-one input as well as group critique and portfolio presentation for the industry.

39 Hours

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15

Fashion Summer Quick Start

Primarily intended for students enrolling in the School of Fashion in September, this intensive one-week foundation course is designed to enhance drawing skills and sewing/garment construction skills. Students in high school who want to strengthen their portfolio may also attend.

35 Hours

Fall 2013
Monday–Friday 9:00-17:00 Aug 19-Aug 23

Visual Merchandising and Display

This course will review the role of visual merchandising and display in the retail sector. The course will include an analysis of the approaches used in department stores, chain stores and independent boutiques. Topics will include the development and execution of creative strategies as well as corporate communication of these plans to the stores in the field.

39 Hours

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

Fashion Coordination and Styling

These courses are designed to prepare students for a career as fashion coordination and styling consultants. Related certificate(s): Design for Arts and Entertainment (pg. 45), Fashion Coordination and Styling (pg. 64)

Fashion Coordination

This course is an introduction to adapting a fashion appearance to create an image working with clientele. It will acquaint students with the principles and practices of an image consulting industry. It may include concepts of demographics, customer awareness, personal colouring, figure considerations, wardrobe planning and selection. Basic techniques needed for the visual presentation of fashion through show production and promotion may be explored.

39 Hours

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
This course is an introduction to methods and techniques for creating a mood, feeling or “look” through the use of clothing and related props. Students may study the role of hair styling, make-up techniques, fabric manipulation or modification, garment alteration and accessorizing for interpretation or invention in wardrobe artistry. The application of colour to enhance, line for detail, fabric for function, design elements to flatter, fashion selection and/or the role of trends will be explored.

Fashion Styling
CDFC 102

Creating the Image
CDFC 104

This course will acquaint students with aspects of event production from concept for the visual presentation of merchandise through to methods of coordinating the implementation of promotions and shows. Topics may include design of the event, theme, audience, floor plan, schedule, vendor relations, budget planning, talent and contract negotiation, models, fittings, choreography, technical services, advertising and promotion, press kits, program and poster production, and any related special services.

Fashion Shows and Special Events
CDFC 105

This course is a survey of clothing traditions from prehistoric time to the present. It focuses on the origin and function of clothing and how various cultural patterns have affected choices. Study of aesthetic, economic, environmental, political, and social influences on fashion will be explored. Clothing practices will be examined within the framework of the supporting social and cultural infrastructure. Students will examine the importance of clothing as an expression of individual and group identity.

Fashion, Culture, and Society
CDFC 106

Study of product sourcing, location shooting, organizing resources, vendor relations, budget planning, talent and contract negotiation, models, may investigate how shape, line, texture, and colour harmonies are applied to body types to create an image, a style and/or an optical illusion. Emphasis is on the human body, practical problems, trends, association and terminology.

Design Fundamentals in Fashion
CDFC 103

Fashion Buying
CDFC 107

This course is an introduction to buying fashion or softgoods as a career. Students will be acquainted with the principles and practices of buying designer and brand lines as well as the process of developing private label merchandise. Course content will include the role of the buyer, planning a fashion calendar, the buying cycle, predicting trends, building an assortment, fabric and garment sourcing, demographics, pricing and retail mathematic principals to profitability, developing private label merchandise, and merchandising to sell through and analysis of a season.

Start Your Own Fashion Business
CDFC 109

Do you have what it takes to be a fashion entrepreneur? This workshop will help you answer the question. Whether you want to start your own label or offer your services on a freelance basis to the fashion business, we will introduce you to the tools needed and help you plan and start your own design or fashion business in Canada. Topics include the business of getting started, industry timing, costing, trademarks, licensing, marketing your collection, low-cost promotion strategies, and getting export-ready.

Handwear and Glove Making
CDFC 110

This is a workshop for the manufacturer of handwear. Students will make two pairs of gloves, one leather and the other in a material of their choice. Students will learn pattern manipulation for the hand.

Note: Basic sewing is a plus, however simple hand sewing is sufficient.

**Film Studies**

The Film Studies program provides a good basic grounding in the principles, contemporary theories, and techniques of the motion picture medium. Courses range from an introduction to basic filmmaking to specialized courses such as screen writing; cinematography and lighting workshops; directing screen performance; production design; and sound design. It is an excellent starting point for people who want to pursue a career in the film industry or satisfy their curiosity about film and film production. For more information, visit www.ryerson.ca/ce/summerfilm.

Equipment/Facilities Use: Please note that equipment and facilities use outside of class time will not be provided.

**Business of Film**

Related certificate(s): Film Studies (pg.65)

- **Business of Film - Producing**
  - CDMP 109
  - The role of the producer and many of those aspects of the film business which the producer has to deal with will be discussed. Some of the topics to be examined are: the recent history of the film business scene, copyrighting, option and purchase agreements, budgets, script breakdown and scheduling, the filmmaking production process, etc. The student will be required to do class presentations and to complete several other assignments. On occasion, guests from the film industry will be invited to lecture. This course or one of CDMP 209 or CDMP 210 is equivalent to MPF 301.
  - Fee: $575
  - Winter 2014 Thursday 18:30-21:30 Jan 16-Apr 17

- **Business of Film - Development**
  - CDMP 209
  - This course will deal further with those areas of pre-production and post-production begun in CDMP 109, in which the producer must be involved. Areas to be covered are all forms of contracts, financing the project, Canadian distribution and exhibition, foreign sales, the advertising campaign, etc. On occasion guests from the industry will be invited to speak. This course or one of CDMP 109, CDMP 309, or CDMP 409 is a credit for MPF 301.
  - Fee: $575
  - Fall 2013 Wednesday 18:30-21:30 Sep 11-Dec 11

- **Movie Marketing and Distribution**
  - CDMP 215
  - This course provides an introduction to the basics of motion picture marketing and distribution. The marketing topics include publicity, promotion, and advertising for feature films. Film distribution aspects consider the means of acquisition, advertising campaigns, and current methods of distribution that include new media alternatives to traditional channels. This course is designed for the independent producer and filmmaker, and provides a comprehensive understanding of significant business aspects of the film industry. This course or one of CDMP 109 or CDMP 209 is a credit for MPF 301.
  - Fee: $575
  - Fall 2013 Tuesday 18:30-21:30 Sep 10-Dec 10
  - Winter 2014 Wednesday 18:30-21:30 Jan 15-Apr 16

**Film Studies**

These courses introduce you to the techniques of motion picture film production with a focus on practical filmmaking. Their combination of lecture and lab familiarizes you with cinematographic technology and methods, and gives you opportunities to apply your knowledge in exercises and project work. Because of limited space, registration in motion picture production courses is offered to registered Film Studies certificate program students first. Related certificate(s): Design for Arts and Entertainment (pg. 45), Film Studies (pg.65), Image Arts (Film Studies, New Media, or Photography Studies) (pg. 87), Media Writing Fundamentals (pg. 101)
Post-Production Sound CDMP 114
This workshop introduces students to the methods, systems, and techniques employed in the creating and organization of events which follow the fine-cut picture and dialogue phase of production. It deals with studio recording, sound editing, and mixing and addresses the merger of film and video in post-production. Electronic sound creating and manipulating devices used in post-production will be examined. Equivalent to FPN 313.
39 Hours  Fee: $610

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15
Spring/Summer 2014
Tuesday & Thursday 18:00-21:30 May 6-Jun 17

Material Fee: A material fee of $35 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
Supplies to be purchased by the student: Cost approximately $50.

Film Technology I CDMP 117
This lecture course deals with the basic technology of the motion picture medium to enable students to understand elementary cinematographic principles. (Equivalent to MPF 107.)
39 Hours  Fee: $575

Fall 2013
Monday 18:30-20:30 Sep 9-Dec 9
Winter 2014
Monday 18:30-20:30 Jan 13-Apr 14
Spring/Summer 2014
Summer Film School

Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 217)).

Film and Sound Editing I CDMP 118
This computer lab course will give students hands-on experience in the art of film and sound editing in the digital age. Working with supplied picture and sound footage, students will discover the many creative alternatives that are possible in shaping a story for the screen. Sync-ups and laying of narration, music and sound effects tracks will be emphasized. (Equivalent to MPF 207.)
39 Hours  Fee: $761

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
Thursday 18:30-21:30 Sep 12-Dec 12
Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15
Spring/Summer 2014
Saturday 9:00-16:00 May 10-May 17
and Monday 9:00-16:00 May 5-May 12

Material Fee: A material fee of $35 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
Supplies to be purchased by the student: Approximately $350 for the purchase of a portable hard drive (This hard drive is also needed for CDMP 229 and CDMP 329).
Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 217)).

Digital Film Production I CDMP 119
This is an introductory course in the techniques and language of digital motion picture production. Instruction is given in basic camera handling and story development. Various cinematographic and directorial techniques are demonstrated. Short exercises designed around the lectures are shot and edited.
39 Hours  Fee: $726

Students must have access to a camcorder and editing facilities.

Film History CDMP 120
This course examines cinema from its origins to the present. Topics include silent and sound film, the studio system in the U.S.A., contributions of western European film and notable filmmakers and films in the evolution of film art and practice. Alternative film styles and techniques will be examined against the background of the monolithic development of the narrative film and both will be considered within the context of the political, cultural and economic issues which animated their times. CDMP 120 is equivalent to MPF 427.
39 Hours  Fee: $579

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9

Film Theory CDMP 121
This segment will survey major theoretical approaches to cinema from formalist and realist traditions to contemporary developments in the discipline. Students will read classic texts, view significant films, and be introduced to current critical theory. They will gain knowledge of the rhetoric, grammar, structure, aesthetics, and ideology of cinema, and will acquire a frame of reference for questioning the inherent belief systems within certain works of cinematic art. CDMP 121 is equivalent to MPF 427.
39 Hours  Fee: $579

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Production Design for Film and Theatre CDMP 122
This course offers an in-depth exploration of scenography (design for arts and entertainment), emphasizing original concept design. Students may choose to develop production proposals for film, television, theatrical photography, or new media installations. Students will learn to analyze dramatic text and narrative frameworks, followed by the use of visual research techniques to support scenographic concepts. Students will apply their learning by developing a three-dimensional model and costume renderings as well as storyboards for a paper production of choice, whether a film, video, installation, book of theatrical photographs, or website. CDMP 122 is equivalent to FPN 501.
39 Hours  Fee: $575

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11

Art Direction for Film and Special Events CDMP 123
This course addresses the technical skills needed to work in a film or television art department. Working with half-hour scripts, students will create art department breakdowns, and conduct a location survey leading to entertainment specific drafting, including a title block, ground plan, elevation, and isometric details. The students will incorporate a graphic prop to the retrofitted location. Students will also have the opportunity to assemble an art direction binder to maintain crucial administrative records such as budgets, calendars, directories, and design notes. People with an interest in motion picture, television, and film/video production will find this course particularly useful. It is also relevant for architects, interior designers, stage designers, photographers, and new media artists who want to expand their professional knowledge and activities. CDMP 123 is equivalent to FPN 601.
39 Hours  Fee: $575

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
**Fiction Screenwriting**  
CDMP 125  
This course introduces students to basic writing and research techniques as they relate to fiction filmmaking and the film business. It acquaints the student with the basics of writing for production. The concentration is on visual writing at the outline stage for fiction films. Methodologies for interviewing as well as story and subject research will be dealt with in depth. The course will also deal with the basic forms of documents in commercial production such as proposals, treatments, submissions, and budgets. CDMP 125 is equivalent to MPF 324.

**Film Technology II**  
CDMP 223  
Prerequisite(s): (CDMP 12 or CDMP 12B or CDMP 129) or CDMP 117 and CDMP 118  
This course introduces students to theoretical and practical aspects of complex systems and equipment employed in production in both studio and location situations. It will include an examination of the entire sequence of production and post-production processes and the equipment and systems employed therein, including synchronous and non-synchronous systems in both shooting and post-production. (Equivalent to MPF 323.)

Spring/Summer 2014
TBA (Off-campus Location TBA)

The course fee covers tuition, accommodation, all transit, professional guide, and classroom facilities. Students are required to make their own transportation arrangements to and from the location. For more information, please contact James McCrorie at 416.979.5000, ext. 6847, or mccrorie@ryerson.ca.

Students must bring a video camera and laptop loaded with Adobe AfterEffects.

★ Documentary Filmmaking in Cuba
CDMP 232
This course offers students a four-week residency at the International School of Film and Television in San Antonio de los Baños, in Havana Province, Cuba.

Working with mentors from the ranks of Cuban film professionals such as cinematographers, sound recordists, and editors, students will be guided through the documentary production process. Translation from Spanish to English will be provided at all times. (Equivalent to one Professional elective from Table I; see the Image Arts program in the Undergraduate Program Calendar.)

Note: Please visit www.ryerson.ca/ce/cuba for further details. A $500 deposit is required.

Enrollment for this course requires permission of the instructor/department. Please contact Alex Anderson at 416.979.5000, ext. 6855, or alex.anderson@ryerson.ca.

Enrollment for this course is only available by fax. Please print and fill out a Mail-In Enrollment Form and fax the form, including your credit card number and expiry date, to Anne Grady, The G. Raymond Chang School of Continuing Education, Ryerson University, at fax number 416.979.5277.

39 Hours Fee: $3737
Spring/Summer 2014
TBA

This course will be held in San Antonio de los Baños, in Havana Province, Cuba. The course fee covers tuition and residency (accommodation and meals). Students are required to make their own transportation arrangements to and from Cuba. For more information, please contact Alex Anderson at 416.979.5000, ext. 6855, or alex.anderson@ryerson.ca.

Students must bring a mini DW camera and laptop loaded with current editing software.

★ Advanced Screenwriting
CDMP 700
Prerequisite(s): CDMP 125 or CDMP 126

This advanced workshop course is designed for those students with a special interest in writing for film or television. The course deals with the stages of screenwriting in the dramatic form from the development of the outline to the script treatment. CDMP 700 is equivalent to FPN 503.

Note: Please visit www.ryerson.ca/ce/summerfilm for further details.

★ Directing Screen Performance - Basic Principles
CFPN 502
This workshop-style course is based on the premise that the only way to learn how to direct actors is to learn about acting. Students participate in acting exercises, improvisations and discussions on the acting process as it relates to the rehearsal and shooting of dramatic films, from the point of view of actors and directors. (Formerly first half of FPN32AB)

39 Hours Fee: $621
Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12
Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 217)).

★ Cinematography and Lighting Design I
CFPN 531
This workshop is an exploration of cinematography, with a special focus on the stylistics of lighting as an essential aspect of cinematography. It centres on using lighting design not merely to establish a mood or time of day, but to support and further the theme or premise of the work.

39 Hours Fee: $580
Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9
Spring/Summer 2014
Monday & Wednesday 18:30-21:30 May 5-Jun 18

Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 217)).

★ Cinematography and Lighting Design II
CFPN 631
Prerequisite(s): CFPN 531

This course is a continuation of Cinematography and Lighting Design I. It will include exercises in studio lighting as well as an exploration of cinematographic and lighting design problems for location shooting, including colour balancing. The specific cinematographic and lighting aspects of TV commercials, documentaries and feature films will be explored.

39 Hours Fee: $621
Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14

★ Summer Film School
CDMP 999

Students now have the opportunity to obtain the Certificate in Film Studies over 12 intensive, six-day weeks. This unique fast-track program covers all required motion picture production, technology, and digital editing courses, plus three electives. Enrollment is limited to 25 students. For course information, contact James Warrack at 416.979.5000, ext. 2237, or jwarrack@ryerson.ca.

Note: Please visit www.ryerson.ca/ce/summerfilm for further details.

390 Hours Fee: $6596
Spring/Summer 2014
Monday–Saturday May 12-Aug 2
FINANCE AND FINANCIAL PLANNING

Whether you want to learn the fundamentals of finance, progress to a more advanced level, earn a professional designation, or develop expertise in specialized business applications, the following course offerings, along with the courses listed under Accounting, will meet your needs.

Finance

All CFIN course fees include a $10 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Accounting – Finance (pg. 22), Economics and Finance (pg. 49), Financial Management in Canada (pg. 67), Financial Mathematics Modeling (pg. 69), Financial Planning (pg. 70), Global Management Studies (pg. 77).

★ Managerial Finance I  
Prerequisite(s): CACC 100 or CACC 110 or Direct Entry

CFIN 300

Students are introduced to the major concepts in finance and investments which are the time value of money, discounted cash flows, and risk and return. Students are given a thorough introduction to the mathematics of asset valuation. In addition, students learn how individual investors assess and reduce the risk associated with their investment decisions. The course examines how firms make investment decisions. The investment decision allocates scarce resources to projects in the firm, and involves financial forecasting, asset valuation, capital budgeting, risk management, working capital management and performance assessment.

For information on distance education, visit www.ryerson.ca/ce/de.

★ Investment Analysis  
Corequisite(s): CFIN 401

CFIN 501

This course is designed to give students an overview of both security analysis and portfolio management. The course covers the valuation of common stock, Treasury bills and bonds, the tradeoff between risk and return, the efficient market hypothesis, modern portfolio theory, equilibrium pricing relationships, and the evaluation of portfolio performance. Playing an investment challenge game is a requirement of the course.

39 Hours  Fee: $561

Distance: Internet  May 3-Jul 26
Monday & Wednesday  18:30-21:30  May 5-Jun 18

For information on distance education, visit www.ryerson.ca/ce/de.

★ Small Business Finance  
Prerequisite(s): CFIN 401

CFIN 510

In Canada, the majority of new jobs are created by small, entrepreneurial firms. The financial issues confronting entrepreneurial firms are very different from those that face large established companies. The focus of this course will be on analyzing the unique financial issues which face entrepreneurial firms.
Risk Management and Insurance CFIN 512
Prerequisite(s): CFIN 300 or HTA 602

This course looks at risk exposures and how these risks are addressed. Risk management is a life-long process that involves five steps: identification, evaluation, control, financing and monitoring. Risks can be managed with control techniques or can be financed using insurance. The course covers different types of insurance, both life, health and disability, and property, home and automobile insurance. Included are methods to calculate insurance needs.

Personal Finance CFIN 562
Antirequisite(s): CFIN 502

This course teaches personal financial planning to students who may not have a strong math ability and/or interest so they will be better able to manage and plan their own finances and provide informed support to middle and lower-income clients. Topics include: steps in the financial planning process, budgeting, formulating financial goals, using tax rules to your advantage, debt and credit management, home-buying, insurance, investing fundamentals, planning for retirement and basic issues in estate planning.

Derivatives CFIN 601
Prerequisite(s): CFIN 501

This course is entirely dedicated to studying derivative securities-forward and futures contracts and how they modify the risk characteristics of a portfolio, how the exchange, clearing house and marketing to market systems work, arbitrage pricing, relationships, interest rate and currency swaps and the use of various types of options contracts and their use for hedging risk.

Retirement and Estate Planning CFIN 612
Prerequisite(s): CFIN 300
Corequisite(s): CFIN 502

This course covers the issues that affect financial needs at retirement-inflation and taxation. Various vehicles for savings for retirement are examined including both private and employer-sponsored. The course also examines ways to withdraw savings at retirement. Estate planning looks at ways to ensure that assets are distributed both in accordance with one’s wishes and for the maximum benefit of one’s heirs.
FOOD SECURITY

These courses address issues of hunger, malnutrition, distribution of food, and environmental sustainability. For more information, visit www.ryerson.ca/ce/foodsecurity.

Food Security

Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Food Security (pg. 71), Sustainability Management (pg. 140)

★ Selected Topics in Food Security  CFNY 400
Prerequisite(s): CFNY 403

Course theme will vary. Topics will include sustainable food production, income security and food security, and case studies in food security.

Note: Theme: Indigenous Food Systems in Canada.
This is an independent study course and students planning to enroll require permission of the Academic Coordinator. Please contact Reg Noble at rnoble@ryerson.ca.

39 Hours  Fee: $559

Spring/Summer 2014
Classroom/Internet: Internet and Field Trip
Material Fee: Additional costs for the field trip are not included in the course fee. For further information, contact Cecilia Rocha at crocha@ryerson.ca.

★ Food Security Concepts and Principles  CFNY 403

The continuing reality of hunger and the unsustainable nature of current social, economic and food systems, both locally and globally, make food security an essential concern. This course introduces students to the concepts, programs and policies of food security, in Canada and internationally, with emphasis on the contribution of income, employment, social assistance, urban planning, and food production and distribution systems to finding solutions to food insecurity.

39 Hours  Fee: $559

Fall 2013
Distance: Internet
Sep 7-Dec 7
Winter 2014
Distance: Internet
Jan 11-Apr 12
Spring/Summer 2014
Distance: Internet
May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ Food Policy and Programs for Food Security  CFNY 404
Prerequisite(s): CFNY 403

Few jurisdictions in the world have put in place a full suite of policies and programs to create food security. Moreover, few countries have a national food policy. This course explores why development of program and policy initiatives for food security has occurred at such a slow pace and the impacts of this phenomenon. Frameworks for determining effective food security policies and programs are discussed, and proposals for policy and program change analyzed.

39 Hours  Fee: $559

Fall 2013
Distance: Internet
Sep 7-Dec 7
Spring/Summer 2014
Distance: Internet
May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ Applied Research Methods and Evaluation  CFNY 405
Prerequisite(s): CFNY 403

This course offers information on conducting and evaluating research for food security. The course will examine different attempts to conceptualize and operationalize food security and insecurity at the individual, household, community and national levels; will introduce some methodological insights from social sciences useful for conducting research on food security; and will present tools for planning and managing project and program evaluation.

39 Hours  Fee: $559

Fall 2013
Distance: Internet
Sep 7-Dec 7
Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

★ Economics of Food Security  CFNY 406
Prerequisite(s): CFNY 403

The course examines economic issues related to food security. It looks at the idea of “efficient” markets, and how much of food insecurity can be represented as “market failure”. Global as well as local issues in food production and distribution are explored. Economic concepts and principles are used to examine the relationships between food security and agricultural trade, corporate concentration, family farms and subsistence agriculture, the environmental impact of food production, and biotechnology.

39 Hours  Fee: $559

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

★ Community Development and Food Security  CFNY 407
Prerequisite(s): CFNY 403

This course looks at the importance of sustainable community development for food security, and how community-based food and nutrition projects can promote economic development. While income-generating projects can have an immediate impact on individual and household food security, food security projects contribute to community development through their impacts on the formation of human and social capital. Cases from around the world will be used as examples.

39 Hours  Fee: $559

Spring/Summer 2014
Distance: Internet
May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ Urban Food Security  CFNY 408
Prerequisite(s): CFNY 403

The question of food security is a particular concern for urban populations as almost half of the world’s population now resides in cities. Ensuring safe and affordable food for urban populations is a real challenge even for advanced industrial economies, and even worse for developing countries where resources are limited and poverty rates exceed 50 percent. This course will examine the unique challenges of creating food security in urban areas.

39 Hours  Fee: $563

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

For the most current information, see our website at www.ryerson.ca/ce.
Gender and Food Security  

CFNY 409

The course explores the links between gender and food security. A discussion of the concept of gender and a critical historical review of the Women’s Movement are followed by theoretical views of labour market discrimination and issues in Gender and Development. Topics for discussion include the role of women in agriculture and food production, HIV/AIDS and food security, and proposals for public policies and social action.

39 Hours  Fee: $575

Fall 2013
Distance: Internet  Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

Urban Agriculture Types  

CVFN 412

Urban Agriculture (UA) is a dynamic concept that involves input supply, production, agro-processing and marketing. This course will discuss and illustrate different UA types and activities in terms of their resource-use, location, policy and institutional frameworks, functions, technical aspects, development challenges and potential innovations. It will also look into processes of decision making and location of UA and discuss a methodology for farmer-centred learning, research and extension for UA.

Note: This course has been developed in partnership with ETC-Urban Agriculture (ETC-UA) and the Resource Centre on Urban Agriculture and Food Security (RUAF), with technical support provided by The Chang School.

This course is part of a portfolio of four distance education courses on urban agriculture, including the following: CVFN 410, CVFN 411, CVFN 412, and CVFN 413. These courses comprise a course series; students who complete all four courses will receive a Professional Development Award. For more information, visit Course Series in Urban Agriculture (page 152).

39 Hours  Fee: $593

Spring/Summer 2014
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

Dimensions of Urban Agriculture  

CVFN 411

This course describes the dimensions (functions, roles, benefits, potential risks) of urban agriculture and how these complement, supplement, compete with, substitute for, or undermine those provided by other land uses, sectoral activities and actors. The main dimensions covered are: health and food security, socio-cultural dimensions, economic dimensions, and environmental dimensions. Two well-documented case studies will be used throughout the course to highlight each dimension separately, before bringing them all together.

Note: This course has been developed in partnership with ETC-Urban Agriculture (ETC-UA) and the Resource Centre on Urban Agriculture and Food Security (RUAF), with technical support provided by The Chang School.

This course is part of a portfolio of four distance education courses on urban agriculture, including the following: CVFN 410, CVFN 411, CVFN 412, and CVFN 413. These courses comprise a course series; students who complete all four courses will receive a Professional Development Award. For more information, visit Course Series in Urban Agriculture (page 152).

39 Hours  Fee: $593

Fall 2013
Distance: Internet  Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

Urban Agriculture Policy-Making  

CVFN 413

This course discusses participatory policy formulation processes leading to sustainable development and institutionalisation of urban agriculture. It starts discussing tools and methodologies for analysing stakeholders, farming systems, land uses, and regulatory frameworks. Next steps involve strategic planning, followed by the formulation of action projects and policies and their implementation (considering contrasting disciplinary perspectives), and finally, monitoring and evaluation. The course highlights lessons from a wide array of cities around the world.

Note: This course has been developed in partnership with ETC-Urban Agriculture (ETC-UA) and the Resource Centre on Urban Agriculture and Food Security (RUAF), with technical support provided by The Chang School.

This course is part of a portfolio of four distance education courses on urban agriculture, including the following: CVFN 410, CVFN 411, CVFN 412, and CVFN 413. These courses comprise a course series; students who complete all four courses will receive a professional achievement award. For more information, visit Course Series in Urban Agriculture (page 152).

39 Hours  Fee: $593

Spring/Summer 2014
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

Foods  

For information, contact Reg Noble, Academic Coordinator, Food Security, at food@ryerson.ca. Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Food Security (pg. 71), Sustainability Management (pg. 140).

Social and Cultural Dimensions of Food  

CFND 401

Prerequisite(s): FND 100 and FNN 100
Corequisite(s): FNN 201

Students will critically examine the socially constructed meanings of cuisine, culture, multiculturalism, race, and ethnicity. The cultural impact of Canadian immigration trends provides the backdrop for a major project that enables students to explore diversity through cuisine.

78 Hours  Fee: $563

Professional Practice

For information, contact Reg Noble, Academic Coordinator, Food Security, at food@ryerson.ca. Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Food Security (pg. 71), Sustainability Management (pg. 140)

★ Reflective Practice

Prerequisite(s): Department consent

This course is designed to provide experiential learning opportunities in health service, business, community and educational settings. Students will be expected to reflect on (i) their own professional and leadership potential, and (ii) the evolution of their profession and its future contribution to society.

39 Hours Fee: $563

Research Methods

For information, contact Reg Noble, Academic Coordinator, Food Security, at food@ryerson.ca. Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Food Security (pg. 71), Sustainability Management (pg. 140)

★ Independent Study

Prerequisite(s): FNR 310 or FNR 320

This course is designed for students who wish to pursue an independent project with a faculty advisor beyond the FNR 301 level. Students must have at least an A- average in the relevant discipline and the approval of the supervising faculty member.

39 Hours Fee: $559

FRENCH

These courses offer opportunities to increase your professional qualifications and to prepare for travel. In order to choose the appropriate course level, you are advised to consult the guidelines on the Department of Languages, Literatures, and Cultures website at www.ryerson.ca/llc. Also, students who have no knowledge of French may enroll directly into CFRE 101. However, all students must take the French Placement Test at www.ryerson.ca/llc/placementtest/index.html or attend one of our interview/placement assessment sessions. For more information, visit www.ryerson.ca/ce/french.

French

Related certificate(s): Business Communication (pg. 33), Business French and Translation (pg. 35), Proficiency in French (pg. 116)

★ Introductory French I

CFRE 101

Classes use a communicative approach and the emphasis is on oral proficiency, although reading and writing skills are also developed. Through extensive practice in class, students acquire the basic vocabulary and constructions of French. Classwork is supplemented by handouts, audio recordings and cultural readings. Attendance is mandatory and a substantial percentage of the mark depends on class participation. Not open to students who have completed Grade 12 or OAC French. (LL)

Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course.

39 Hours Fee: $503

★ Introductory French II

CFRE 201

This course uses a communicative approach and although the emphasis is on oral proficiency, reading and writing skills are also further developed. Through extensive practice in class, students develop their knowledge of the basic vocabulary and constructions of French. Classwork is supplemented by handouts, audio recordings and cultural readings. Attendance is mandatory and a substantial percentage of the mark depends on class participation. Not open to students who have completed Grade 12 or OAC French. (LL)

Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course.

39 Hours Fee: $494

Fall 2013
Monday 18:00-21:00 Sep 9-Dec 9

Tuesday & Thursday 18:00-21:00 Jun 24-Aug 7
CFRE 515 or Placement Test

CFRE 601 or Placement Test

Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course.

This course emphasises the four essential skills of understanding, speaking, reading and writing French. Students will develop their knowledge of French through analysis of excerpts from contemporary media as well as cultural readings, including short fictional texts. Presentations, debates and discussions are used to enhance the students' skills in spoken French. (LL) (UL)

Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course.

CFRE 301, CFRE 401, or CFRE 501. Otherwise, the student must take an interview/placement assessment before enrolling in this course.

CFRE 501 and CFRE 507 can be taken in the same term.

This course introduces students to elements of cultural studies, literary and linguistic analysis while developing an appreciation of French language and culture. Students will examine texts from various sources, including some complete works of representative French authors and journalistic writing, advertising, scholarly articles. Basic essay skills and organization form an integral part of the course. Special attention is given to complex grammatical structures, various language registers both written and oral and sociolinguistic issues in French. (LL) (UL)

Note: All students must take an interview/placement assessment before enrolling in this course.

CFRE 502, CFRE 507 and CFRE 508 can be taken in the same term.

Students with a good background in the language will find this course helpful in improving their ability to use French in business transactions and communications. There is an emphasis on developing business vocabulary, particularly correspondence formulae and terminology. Differences between English and French writing protocol is stressed.

Note: All students must take an interview/placement assessment before enrolling in this course.

CFRE 502 and CFRE 507 can be taken in the same term.

This course will examine the major literary currents in French literature from the Belle Époque to World War II, as well as the historical and cultural events connected with them. After an introduction to the popular bourgeois farces, the roman fleuve, and detective fiction, this course will focus on the emergence of new literary movements, such as naturalism, symbolism, dadaism, surrealism, and existentialism. Students will analyze these movements through the study of prose, poetry, theatre and theoretical texts. (LL) (UL)

Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course.

CFRE 508

Not offered in fall/winter/spring 2013-2014.

<tbody>
<tr>
<td>Franco-Canadian Literature I</td>
<td>CFRE 509</td>
<td>CFRE 507, CFRE 602, CFRE 607, and CFRE 707 can be taken in the same term.</td>
<td>This course presents Quebec and French-Canadian literature from the beginning of the twentieth century until the end of the Quiet Revolution. Students will consider the aesthetic originality, the critical reception and socio-historical context of representative works by authors such as Emile Nelligan, Gabrielle Roy, Anne Hebert, Antonine Maillet, and Michel Tremblay. Topics will include the roman de la terre, surrealism, automatism, the literary use of joual and the Parti pris movement. (LL) (UL) Note: All students must take an interview/placement assessment before enrolling in this course.</td>
<td>Winter 2014, 18:00-21:00, Jan 13-Apr 14</td>
<td>$482</td>
</tr>
<tr>
<td>Effective Writing I</td>
<td>CFRE 510</td>
<td>CFRE 601 or Placement Test</td>
<td>This course is for students with sound knowledge of French who wish to review major grammatical structures, develop vocabulary, and improve their writing. Through writing exercises, the course emphasizes clear explanation of French grammar, differences/parallels between written and oral French, use of precise terminology, and development of variety in writing style. Writing assignments are based on excerpts from essays, literary works, press articles, etc., chosen to illustrate styles and levels of contemporary written French. (LL) (UL) Note: All students must take an interview/placement assessment before enrolling in this course.</td>
<td>Fall 2013, Monday, 18:00-21:00, Sep 9-Dec 9</td>
<td>$489</td>
</tr>
<tr>
<td>Introduction to Business French</td>
<td>CFRE 515</td>
<td>CFRE 601 or Placement Test</td>
<td>This PR/PE course introduces students to business French while continuing to develop their general competence in French. Students learn to master vocabulary specific to business, banking and administration, while becoming aware of formal and informal styles of written and spoken French suitable to the workplace. Materials include newspaper and journal articles as well as videoclips from business news. The language of instruction is French. This course is not open to native French speakers. Note: All students must take an interview/placement assessment before enrolling in this course.</td>
<td>Winter 2014, Thursday, 18:00-21:00, Jan 16-Apr 17</td>
<td>$482</td>
</tr>
<tr>
<td>English-French Translation II</td>
<td>CFRE 607</td>
<td>CFRE 507 or CFRE 610</td>
<td>Students at this level are well-acquainted with all of the rules of French grammar. This course concentrates on making use of this knowledge through the development of a sound English-to-French translation methodology. Through exercises, students learn to express the same concepts naturally in the target language, without undue interference from the source language, using a variety of non-literary texts. (LL) (UL) Note: All students must take an interview/placement assessment before enrolling in this course.</td>
<td>Winter 2014, Wednesday, 18:00-21:00, Jan 15-Apr 16</td>
<td>$482</td>
</tr>
<tr>
<td>Intro to 20th C French Literature II</td>
<td>CFRE 608</td>
<td>CFRE 602, CFRE 607, and CFRE 707 can be taken in the same term.</td>
<td>French literature is characterized by various types of experimentation with form, content and generic boundaries. Students will be invited to discover texts ranging from avant-garde Parisian theatre to the Nouveau roman and contemporary autofiction. This course will examine issues such as colonization and decolonization, feminism, immigration and alienation, identity, marginalization and otherness. (LL) (UL) Note: All students must take an interview/placement assessment before enrolling in this course.</td>
<td>Winter 2014, Monday, 18:00-21:00, Jan 13-Apr 14</td>
<td>$496</td>

| **Effective Writing II** | CFRE 610 |
| This course complements FRE510 and is for students with a sound knowledge of French wishing to develop vocabulary and improve their writing. Through writing exercises, the course emphasizes clear explanation of French grammar, differences/parallels between written and oral French, use of precise terminology, and development of variety in writing style. Assignments are based on excerpts from essays, literary works, press articles, etc., chosen to illustrate styles and levels of contemporary written French. (LL) (UL) |
| Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course. |
| 39 Hours | Fee: $482 |

| Winter 2014 |
| Thursday | 18:00-21:00 |
| Jan 16-Apr 17 |

| **French in the Media I** | CFRE 701 |
| An advanced language course designed to improve significantly students’ speaking, comprehension and writing skills through the analysis of contemporary issues and their representation in the francophone news media with an emphasis on journalistic and magazine writing. Topics broaden students’ vocabulary, sensitize them to complex language structures and language registers. Oral presentations and debates focus on current events; students write short essays and work on a media-related project. (LL) (UL) |
| Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course. |
| 39 Hours | Fee: $489 |

| Fall 2013 |
| Thursday | 18:00-21:00 |
| Sep 12-Dec 12 |

| **Intro to Franco-Canadian Culture I** | CFRE 704 |
| This course introduces students to twentieth century and contemporary Quebec culture. Students will examine forms of cultural expression such as cinema, television, visual arts, literature, music and popular culture. Topics include politics and popular song, language and language laws, hockey and its heroes, Quebec media, the role of religious institutions, immigration, feminism, relations with First Nations peoples, and the challenges of multiculturalism. (LL) (UL) |
| Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course. |
| 39 Hours | Fee: $482 |

| **The Life and Times of the French Language** | CFRE 706 |
| This course is for students who wish to gain a better understanding of the breadth and wealth of contemporary French culture through a study of the evolution of the French language. Focusing on the contemporary evolution of the French language, including word origin and meaning, this course highlights the main cultural, political, and historical factors that influenced, and continue to influence, the development of the French language. (LL) (UL) |
| Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course. |
| 39 Hours | Fee: $487 |

| **Introduction to French-English Translation** | CFRE 707 |
| This course, taught in French, is designed to improve significantly students’ appreciation of the general difficulties of translation from French to English, through a study of the characteristics of expression in each language and of the way they pertain to the difficulties of translation. Through numerous translation exercises, students learn to express the same concepts naturally in the target language, without undue interference from the source language. (LL) (UL) |
| Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course. |
| 39 Hours | Fee: $496 |

| Winter 2014 |
| Tuesday | 18:00-21:00 |
| Jan 14-Apr 15 |
| CFRE 707, CFRE 602, and CFRE 607 can be taken in the same term. |

| **French in the Media II** | CFRE 801 |
| This advanced language course designed to improve significantly students’ speaking, comprehension and writing skills through the analysis of contemporary issues in the francophone using multimedia. Topics broaden students’ vocabulary, sensitize them to complex language structures and language registers. Oral presentations and debates focus on the representation of current events in a variety of media including websites, social media, advertising, videoclips; students write short essays and work on a multimedia-related project. (LL) (UL) |
| Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course. |
| 39 Hours | Fee: $494 |

| Winter 2014 |
| Thursday | 18:00-21:00 |
| Jan 16-Apr 17 |

| **French Theatre: 20th C and Contemporary** | CFRE 803 |
| In this course, students will examine how theatrical conventions are challenged by authors who question the meaning of existence, and explore the limits of language and human relationships in our contemporary society. Possible readings include plays from the Theatre of the Absurd with Beckett and Ionesco as well as works by politically engaged playwrights who address topics such as exile and immigration, slavery and colonialism, race and gender. (LL) (UL) |
| Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course. |
| 39 Hours | Fee: $487 |
This course introduces students to Franco-Canadian cultures outside Quebec. Cultural contrasts and continuity between Quebec, Acadian, Franco-Ontarian and Western French-Canadian communities will be emphasized. Students will examine forms of cultural expression such as cinema, television, visual arts, literature, music and popular culture. Topics include the French-Canadian diaspora, the Acadians and the Cajuns, bilingualism and language legislation as well as the cultural contributions of recent immigrants and the Métis. (L) (U)

Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course.

39 Hours  Fee: $487

The Francophone Short Story

This course will focus on the Francophone short story and short story collections. Through study of this literary genre, students will develop skills in literary analysis. This course will also teach students about the diversity of francophone literature and culture. Authors studied may include Michel Tournier (France), Annie Saumont (France), Biogra Diop (Senegal), Calixthe Beyala (Cameroon), Assia Djebar (Algeria), Maryse Conde; (Guadeloupe), Rene Depestre (Haiti), Anne Dandurand (Canada) and Bernard Assiniwi (Canada). (L) (U)

Note: Students without the prerequisite must take an interview/placement assessment before enrolling in this course.

39 Hours  Fee: $575

FUNDRAISING MANAGEMENT

These courses provide a sound understanding of the role that fundraising can play in the charitable and voluntary sector. Interested students are encouraged to email the Community Services Program Assistant at m1johnso@ryerson.ca. For more information, visit www.ryerson.ca/ce/fundraising.

Fundraising Management

Related certificate(s): Fundraising Management (pg. 73)

Operations of Fundraising

Students will systematically examine the thinking and preparation needed to develop the infrastructure in support of effective fundraising. Topics all relate to the fund development process and include sound financial management practices, including accounting, budgeting, reporting, and accountability; policies; development and evaluation of a strategic fundraising plan; and the critical elements of a well-configured database. Drawing on case studies, readings, and research, students will apply the knowledge acquired to real life situations.

39 Hours  Fee: $653

Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

Donor Centered Fundraising

Students will explore critical and emerging issues in the charitable sector: donor-centered fundraising trends and techniques; donor stewardship and recognition; developing a culture of philanthropy; ethics and professionalism; and diversity, social media, and new trends in donor engagement. Drawing on research, readings, and case studies, students will analyze issues that will inform current and future fund development practices.

39 Hours  Fee: $653

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10

Entrepreneurial Fundraising

Approaches to corporate and foundation support will be examined from both the charitable sector and corporate/foundation perspective. The infrastructure necessary to support effective programs will be discussed: proposal and grant writing, donor identification, stewardship, and accountability. Research and practical application related to emerging trends and current practice will be reviewed: corporate social responsibility, sponsorship, cause marketing, and employee engagement. Entrepreneurial activities in fundraising will be explored, both by reviewing research and examining real-life examples.

39 Hours  Fee: $653

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Annual Giving Programs

The role of annual giving will be explored, including its interconnectedness to other fundraising programs and how it cuts horizontally across the organization. Students will review fundamentals of direct mail, online, and other models of giving. Special events and their role in engaging and stewarding donors will be explored in addition to event conception, planning, and execution. Gaming as part of a philanthropy program will be explored, including a review of the regulatory framework.

39 Hours  Fee: $653

Fall 2013
Distance: Internet  Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

GATEWAY FOR INTERNATIONAL PROFESSIONALS

International professionals often come to Canada with a breadth and depth of experience and credentials that simply aren’t recognized here. The Chang School’s Gateway for International Professionals offers programming in several areas that accurately assesses your skills and provides you with the education and experience needed to succeed in the Canadian workplace at levels that correspond with your qualifications. For more information, visit www.ryerson.ca/ce/gateway (page 144).

Canadian Social Work Practice (IESW)

These courses are only open to internationally educated professionals with social service experience approved through the Internationally Educated Social Work Professionals (IESW) program admission process.

Please visit www.ryerson.ca/ce/socialwork or see page 144 for information on the IESW program. Related certificate(s): Canadian Social Work Practice (pg. 37)

* Social Work Practice Seminar  CVSW 31A/B
Prerequisite(s): CSWP 335 and SWP 341 and CSWP 402 and SWP 435 or Direct Entry
Corequisite(s): SWP 36A

Based on School’s Mission, this first practice seminar provides students with social work knowledge and skills for practice. Building on various theoretical perspectives, with an emphasis on anti-oppression practice, this course explores the process of social work assessment and various change processes. This course builds on knowledge from pervious social work courses and the current practicum experience. It provides opportunities for students to reflect on and apply theory to practice for skill development.

Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Bridging Program.

78 Hours  Fee: $1285

Winter 2014
Thursday  9:30-12:30 Jan 9-Apr 10
and Thursday  09:30-16:30 Apr 17-May 22
and Thursday  09:30-12:30 May 29

*This course continues from the Winter term into the Spring term. During the daily sessions, there is a one-hour lunch break.

• Field Practicum  CVSW 35A/B
Corequisite(s): SWP 31A

This first field practicum provides opportunities for students to have direct contact with service users. Each placement offers the student beginning level experience with an emphasis on understanding social work skills, values and ethics within the community, organizational and policy of context of practice. Most students attend placement two days a week for two semesters; alternate methods of completing this credit may be available to students with extensive prior experience or those undertaking an international placement.

Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Bridging Program.

364 Hours  Fee: $1309

Winter 2014
Thursday  Jan 9-Jun 26

• Field Practicum for Internationally Educated Social Workers  CVSW 36A/B
Prerequisite(s): Department consent

This field practicum provides opportunities for participants to have direct contact with ‘client-consumers-people’ in need. Each placement offers the participant beginning level interventions with individuals, couples, or families, and/or groups. In addition, the field placement will be completed with a community project or an outreach or community development activity. Students are in a field placement two days a week for two semesters. As well, a paid placement known as a work study option may be available.
Special Topics I
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry
This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.
Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Bridging Program.
39 Hours
Fall 2013
Monday
9:30-12:30
Sep 9-Dec 9
TBA

Special Topics II
Prerequisite(s): Department consent
This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.

Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Bridging Program.

Dietetics (IDPP)
Dietetics plays an important role in health care, industry, government, and education. It influences the development and promotion of consumer products, nutrition information, quality food service in health institutions, and various public policy-making choices.
For information about the Internationally Educated Dietitians Pre-registration Program (IDPP), visit www.ryerson.ca/ce/idpp or see page 144. Related certificate(s): Canadian Social Work Practice (pg. 37)

Orientation to Dietetics in Canada
Prerequisite(s): Department consent
In this module, learning will begin to examine professional standards and frameworks in dietetics, be exposed to the various roles of dietitians in the health and health care systems in Canada, and will reflect on individual bridging needs. This course is a mandatory requirement for other courses in the Internationally Educated Dietitians Pre-registration Program.
19.5 Hours
Fall 2013
TBA
Not offered in fall/winter/spring 2013-2014.

Evidence-informed Practice
Prerequisite(s): Department consent
In this module, candidates will explore how evidence is used within dietetics practice in Canada, and will have opportunities to further develop skills in selecting, analyzing, summarizing, and presenting professional texts related to current issues in dietetics. This course is a mandatory requirement for other courses in the Internationally Educated Dietitians Pre-registration Program.

and Thursday 9:30-16:00 Feb 20
and Wednesday 9:30-12:30 Mar 12
and Wednesday 9:30-12:30 Mar 26
and Wednesday 9:30-12:30 Apr 9
and Thursday 9:30-16:00 Apr 17

This course consists of online modules in addition to those on campus.

Full-day classes include a one-hour lunch break from 12:30 p.m. to 1:30 p.m.

Dietetics Practicum II - Administration CVID 505
Prerequisite(s): Department consent

The practicum will provide candidates with an opportunity to demonstrate competencies required for entry into dietetics practice in Canada. Candidates will complete a self-directed project with an administrative focus. The scope of each project will be developed individually by the candidate, and is supported and facilitated by a Registered Dietitian.

75 Hours Fee: $762

Spring/Summer 2014
TBA

Dietetics Practice in Canada I CVID 511
Prerequisite(s): Department consent

Using an interdisciplinary and multi-level framework, this course will examine key aspects of dietetics practice in Canada. Dietetics practice will be positioned within an evolving health and health care context. Candidates will become familiar with Canada’s health system’s main structures and practice models, discuss and analyze health and its multiple determinants, and explore population health and health promotion frameworks, models, and strategies. Program planning and evaluation will also be explored.

42 Hours Fee: $604

and Tuesday 9:30-12:30 Mar 4
and Tuesday 9:30-12:30 Mar 18
and Tuesday 9:30-12:30 Apr 1

This course will run during the Winter break.

This course consists of online modules in addition to those on campus.

Course series

Certificate and degree credit  Degree credit  Certificate credit  Course series
Dietetics Practice in Canada II
Prerequisite(s): Department consent

Using an interdisciplinary and multilevel framework, candidates will be exposed to current models/dietetic practices related to the nutritional management of acute and chronic conditions in Canada. Dietetic practices will be positioned within an evolving health care context. Opportunities to consolidate, integrate, and apply understandings of current dietetics practice within the Canadian health system will be offered through perspective-building case studies, simulations, and other practice-based learning experiences. This course emphasizes critical analysis and skill development/demonstration.

Note: Time spent in the field may vary based on the structure of projects for which the proposal is being developed. At minimum, this time may include meetings with representatives of the organization(s) for whom the proposal is being developed, as well as a half- to full-day visit to the organization.

96 Hours  Fee: $1287

Winter 2014
Wednesday 13:30-16:30  Nov 6
and Wednesday 9:30-16:30  Nov 20
and Wednesday 9:30-16:30  Dec 4
and Wednesday 9:30-16:30  Dec 18
and Wednesday 9:30-16:30  Jan 8
and Wednesday 13:30-16:30  Jan 15
and Wednesday 9:30-16:30  Jan 22
and Wednesday 13:30-16:30  Jan 29
and Wednesday 9:30-16:30  Feb 5
and Wednesday 9:30-16:30  Feb 12
and Wednesday 9:30-16:30  Feb 19
and Wednesday 9:30-16:30  Feb 26
and Wednesday 9:30-16:30  Mar 5
and Wednesday 13:30-16:30  Mar 12
and Wednesday 9:30-16:30  Mar 19
and Wednesday 13:30-16:30  Mar 26
and Wednesday 9:30-16:30  Apr 2
and Wednesday 13:30-16:30  Apr 9
and Wednesday 9:30-16:30  Apr 16

Full-day classes include a one-hour lunch break from 12:30 p.m. to 1:30 p.m.
This course will run during the Winter break.

Enteral Nutrition Assessment
Prerequisite(s): Department consent

Using case-based scenarios, this module provides an opportunity to practice and demonstrate assessment, planning, implementation, monitoring, and evaluation skills in enteral nutrition as part of nutrition care.

22 Hours  Fee: $311

Spring/Summer 2014  TBA

Parenteral Nutrition Assessment
Prerequisite(s): Department consent

Using case-based scenarios, this module provides an opportunity to practice and demonstrate assessment, planning, implementation, monitoring, and evaluation skills in parenteral nutrition as part of nutrition care.

22 Hours  Fee: $311

Spring/Summer 2014  TBA

Project Proposal Development
Prerequisite(s): Department consent

This course will support candidates in the planning and development of a proposal for a self-directed project, with an administrative focus, in the field of dietetics.

Note: Time spent in the field may vary based on the structure of projects for which the proposal is being developed. At minimum, this time may include meetings with representatives of the organization(s) for whom the proposal is being developed, as well as a half- to full-day visit to the organization.

International Accounting Professionals (IAFP)

Stream 1 - Bridge to Accounting Credentials in the IAFP program is intended for professionals whose immediate or long-term goal is certification and licensing with one of the accounting licensing bodies. Please visit www.ryerson.ca/ce/iafp or see page 144 for information on the IAFP program. Related certificate(s): Canadian Social Work Practice (pg. 37)

Advanced Business Law Workshop
Prerequisite(s): Department consent

This workshop is designed to enhance the student’s practical knowledge and problem solving skills with respect to selected business law topics that are commonly encountered in real life business situations. It focuses on several carefully designed case studies which incorporate commonly encountered business law issues in Canada. Ideally students will have taken or will be concurrently taking an advanced business law course. The workshop builds upon this knowledge in a group discussion setting that addresses the case studies. It addresses several key Canadian legal topics including agency and risk management, corporations, partnerships, franchising, director duties and liabilities, shareholder remedies, corporate financing, loans and security interests, the potential impact of bankruptcy law, as well as a brief look at negotiable instruments such as promissory notes.

225 Hours  Fee: $762

Fall 2013  TBA
Winter 2014  TBA
Spring/Summer 2014  TBA

For the most current information, see our website at www.ryerson.ca/ce.
**International Finance Professionals (IAFP)**

Stream 2 - Bridge to Employment in Financial Services in the IAFP program is intended for professionals whose immediate goal is to obtain employment in their areas of direct or related expertise or experience. Please visit [www.ryerson.ca/ce/iafp](http://www.ryerson.ca/ce/iafp) or see page 144 for information on the IAFP program. Related certificate(s): Canadian Social Work Practice (pg. 37)

- **Orientation Workshop: Employment in Financial Services**  
  **CZAF 100**
  This workshop outlines how IAFP courses and services will help participants in their professional development with access to employment in the financial services sector. It provides participants with a perspective on the financial services sector in the Canadian context. The main occupations in insurance, investment, and financial services will be covered. An overview of career prospects, the role of regulatory and professional bodies in Ontario, and the designations in financial services will be provided.

- **Canadian Business Taxation I Workshop**  
  **CZAC 740**
  This workshop focuses in depth on the practical application of Canada’s income tax laws through an examination of supplemental problems and selected examples. Emphasis is placed on the more challenging concepts encountered in each chapter. Smaller classes provide greater instructor and student interaction. Students will be able to apply knowledge of taxation principles in the Canadian context and improve their presentation and communication skills through case analysis.

  12 Hours  
  Fee: $172

- **Canadian Business Taxation II Workshop**  
  **CZAC 840**
  This workshop will help students gain perspectives on the basic rules for taxation of corporations in Canadian context through an indepth examination of supplemental problems and selected examples. The workshop will provide tutorial support towards preparation for professional certification examinations. Students will improve their presentation and communication skills through case analysis. Smaller classes provide greater instructor and student interaction.

  12 Hours  
  Fee: $172

- **Assessment for Business IPs**  
  **CDCE 110**
  This course is designed for international professionals (IPs) from business and finance professions. Participants are assessed and provided with a report on their strengths and gaps in culture-based, workplace-related communication skills through simulated workplace activities. This is followed by a workshop where participants plan their professional development path.

  Note: The scheduling below reflects the assessment component only. In addition, participants will be offered a four-hour planning workshop (date to be announced by the instructor).

  12 Hours  
  Fee: $250

- **Middle-level Managers (MLM)**  
  Please visit [www.ryerson.ca/ce/mlm](http://www.ryerson.ca/ce/mlm) or see page 144 for information on the Middle-level Managers (MLM) with Technical Background Bridging Program.

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
This course is designed to help international professionals explore and practise customer-focused behaviors common to the Canadian workplace in a safe environment fully supported by professional coaching. Through practical simulations and case studies, participants will practice strategies of dealing with common customer-related situations and issues related to client-driven environments, while applying relevant evidence-based practice methods.

Note: The scheduling below includes a mandatory weekly Internet component.

39 Hours  Fee: $625

Winter 2014
Classroom/Internet: Internet
and Saturday 10:00-17:00  Nov 2-Dec 14
and Saturday 10:00-17:00  Nov 16
and Saturday 10:00-17:00  Nov 30
and Saturday 10:00-17:00  Dec 14

This course is designed to provide international professionals with practical persuasion, negotiation, and presentation skills essential to professional success in the Canadian workplace. Participants will explore cultural influences on business negotiations and develop a solid understanding about the role and value of effective public speaking in the workplace. By the end of the course, the participants will have acquired and practiced skills for designing and delivering persuasive and impactful presentations. In addition to persuasive writing and negotiating skills, successful participants will also learn and demonstrate effective networking and self-advocating skills through interactive, workplace-related activities.

Note: The scheduling below includes a mandatory weekly Internet component.

39 Hours  Fee: $625

Winter 2014
Classroom/Internet: Internet
and Saturday 10:00-17:00  Jan 11-Feb 22
and Saturday 10:00-17:00  Jan 25
and Saturday 10:00-17:00  Feb 8
and Saturday 10:00-17:00  Feb 22

This course is designed to help international professionals enhance professional success through practicing effective behaviors in the Canadian workplace environment. Through simulations and case studies, learners will practice dealing with culturally and ethically challenging situations in the workplace, personal career planning, networking, strategic planning, and effective team and group work. Learning will be conducted in a safe environment fully supported by professional coaching.

Note: The scheduling below includes a mandatory weekly Internet component.

39 Hours  Fee: $625

This course is designed for international professionals to assess, identify, and most importantly, develop innovative, entrepreneurial skills for the Canadian workplace. Through online self-assessments, assignments, and a wide range of interactive activities in a simulated workplace environment, participants will master strategies to promote skills and generate innovative outcomes.

Note: The scheduling below includes a mandatory weekly Internet component.

39 Hours  Fee: $625

**Team Building**

**Prerequisite(s):** CDCE 420 or CDCE 430

This course is designed to help international professionals to explore and practise team building and leadership skills. Participants will learn to create a culture of teamwork, facilitate collaboration, manage and facilitate effective and productive teamwork and practise shared leadership.

39 Hours  Fee: $TBA

**Effective Oral Communication**

**CDCE 910**

This course is designed for international professionals who require improvement of their oral communication in the workplace. The course will offer bi-weekly classes of highly experiential activities using real life Canadian workplace activities. Participants will improve their fluency, clarity, and overall oral communication skills in a supportive and creative learning environment.

39 Hours  Fee: $562

**Fall 2013**

and Tuesday 18:00-21:00  

**Canadian Workplace Etiquette**

**CDCE 920**

Culture-sensitive manners and communication skills are critical to the success of international professionals in the Canadian workplace. This highly interactive course teaches participants how to use etiquette to their advantage through body language, modern chivalry, telephone and conversation etiquette. Successful participants will also learn to deal with the opposite sex appropriately and professionally, and be mindful of cultural differences in dining.

19.5 Hours  Fee: $TBA

---

**GEOGRAPHY**

The Department of Geography offers a range of career-oriented and liberal studies opportunities. Courses in Demographic Analysis using statistical and GIS software, along with a wide range of related courses from several different disciplines, will be offered within the new Certificate in Demographic Analysis. Courses in Digital Geography provide both basic and advanced knowledge and skills in Geographic Information Systems (GIS) and their various applications. Courses in Geography present professionally related electives to complement various undergraduate programs and liberal studies options to give a broad perspective on human/environment interactions in different contexts. For more information, visit [www.ryerson.ca/ce/gis](http://www.ryerson.ca/ce/gis).

### Demographic Analysis

Related certificate(s): Demographic Analysis (pg. 44), Global Diasporas, Transnationalism, and Migration Cities (pg. 76)

**Principles of Demographic Analysis**

**CODA 100**

Students will undertake data exploration to support theoretical explanations of the impact of core demographic variables (fertility, mortality, and migration) on population counts, growth, composition, and structure. Students will investigate human populations in relation to their sociological determinants and consequence. The course concludes with an examination of the direction of population change and the impacts on Canadian society.

39 Hours  Fee: $712

**Winter 2014**

Distance: Internet  
Jan 11-Apr 12

**Spring/Summer 2014**

Monday–Saturday 9:00-16:30  
Apr 28-May 3

For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

**GIS Applications in Demography**

**CODA 110**

This course introduces geotechnology applications to demographic analysis, specifically the use of GIS for spatial analysis of demographics. Students will have the opportunity to synthesize their learning about demographic issues with hands-on use of GIS applications built on census data analysis through discussions and the presentation of case studies related to a variety of issues including the implications of demographic change for health care, social services, education, the economy, etc. Lectures will include illustrative case studies applied to demographic and settlement patterns at provincial, municipality, and neighbourhood scales within Canada, with emphasis placed on Canada’s urban centres.

39 Hours  Fee: $712

**Spring/Summer 2014**

Distance: Internet  
May 3-Jul 26

For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

**Advanced Demographic Applications**

**CODA 120**

**Prerequisite(s):** Department consent

This capstone course brings together the skills, knowledge, and tools acquired in the courses which have preceded it, and it requires their application to ‘real-world’ demographic applications. The best, affordable, current demographic software will be used in lectures and workshops to create life tables and population projections, including migration, for both small- and large-scale analysis. Examples of demographic analysis will be drawn from applications commonly used by school boards to project future school populations and adjust school boundaries, by energy suppliers, and by urban planning departments to project energy needs and the demand for building permits, etc. In addition to the use of statistical software such as SPSS, Haley demographic software will be introduced if it is available.

**Note:** This is a project-based, independent study course.

39 Hours  Fee: $712

**Winter 2014**

Monday 18:30-21:30  
Jan 13-Apr 14

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
### Digital Geography

Related certificate(s): Applied Digital Geography and GIS (pg. 26), Applied Digital Geography and GIS, Advanced (pg. 27), Computer Programming Applications (pg. 40), Ethics (pg. 59)

<table>

<td><strong>Antirequisite(s):</strong> CODG100 and CGT100</td>
<td></td>
</tr>
</tbody>
</table>

This course introduces the fundamental concepts of digital spatial databases and cartography to students enrolled or contemplating enrolment in the Certificate in Applied Digital Geography and GIS. Spatial data, that is, data that are geographically referenced, are at the core of a geographic information system (GIS). The ways in which spatial data are structured in a database have enormous implications for their use and the ways in which the data are mapped have important consequences for their interpretation. This course will explore the processes of spatial data collection, input and display, and the basic geographic and cartographic principles underlying those processes. Thus it will focus specifically on the nature of spatial data, database structures, and the visualisation of digital spatial data. Both ArcGIS and MapInfo Professional GIS software will be used.

This course introduces students to the geographic principles underlying the analytical capabilities of geographic information systems (GIS) and provides the ‘hands-on’ opportunity for students to utilize GIS for spatial analysis. Specifically, students will have experience with thematic mapping, attribute querying and spatial selection, geocoding, buffering, manipulating layers, basic topologic transformations, as well as implementation issues in the workplace. At the end of this course, students should have fundamental knowledge and skills in utilizing GIS to perform a variety of analytical applications.

### Digital Geography Applications in Business Decision-Making

CODG 124

| **Prerequisite(s):** (CODG 100 or CODG 101) and (CODG 110 or CODG 102) |                |

This course is directed at students wishing to apply digital geography and GIS solutions to business location problems. The course outlines the role of GIS in business decision-making. Topics include market area analysis, geodemographics, database acquisition and management, data mining, data quality, statistical analysis, software/hardware platforms, and georeferencing established business data.

<table>
<thead>
<tr>

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).

### Digital Geography Applications for the Municipal Professional

CODG 125

| **Prerequisite(s):** (CODG 100 or CODG 101) and (CODG 110 or CODG 102) |                |

The course is directed at students wishing to apply digital geography and GIS in municipal settings. The course considers GIS as mission-critical business tools for municipalities as it develops students’ technical skills with GIS software. Topics include enterprise GIS, publishing and access to information, mobile GIS, data standards, governance, best practices, data dissemination issues, and municipal business solutions.

### Digital Geography Applications in Environmental Management

CODG 126

| **Prerequisite(s):** (CODG 100 or CODG 101) and (CODG 110 or CODG 102) |                |

This course is directed at students wishing to apply GIS solutions in managing the diverse data representing the natural and human environment. This course uses both theoretical concepts and hands-on GIS experience in order to provide students with the knowledge and skills necessary for effective use of GIS in environmental management.

| COURSES | GEOGRAPHY | 
|----------------------|----------------------|----------------------|----------------------|----------------------|
| **Digital Geography Applications in Community and Social Services** CODG 127  
**Prerequisite(s):** CODG 100 and CODG 101 or (CODG 110 and CODG 102)  
This course explores the variety of ways in which geographic information systems (GIS) are utilized in the development and management of community and social services. Educational administrators, health professionals, police and social agencies have come to depend on GIS for strategic planning and day-to-day operations. This course focuses on the analytical capabilities of GIS and their potential uses for the improvement of social infrastructure. For example, network analysis can be employed by social service providers to determine a new location based on public transit access and also by school boards to determine optimal school bus routes; cluster analysis can be employed by crime analysts to determine hot spots of criminal activity to increase patrols; and also by epidemiologists to identify areas of disease. Special attention is given to data issues and students will be able to enhance their knowledge and skills of Microsoft Excel and Access as well as ArcGIS and MapInfo Professional.  
39 Hours  
Fee: $737 |  
| **Legal and Ethical Issues in GIS and Digital Data** CODG 130  
**Prerequisite(s):** (CODG100 or CODG 101) and (CODG110 or CODG 102)  
The advent of digital data and the transmission and manipulation of that data, especially in an Internet environment, have raised some particular legal, ethical, and practical issues. This course explores those issues concerning the use of digital data and software, including the liability of misinformation and the responsibility for errors, contractual provisions and exclusionary clauses, copyright, trademark law and ownership of data and software, privacy and the ability to access information and data, as well as the issues related to the introduction of digital data and information as evidence in court proceedings.  
39 Hours  
Fee: $739 |  
| **Issues and Innovations** CODG 131  
**Prerequisite(s):** (CODG100 or CODG 101) and (CODG110 or CODG 102)  
This course is designed to provide the student with up-to-date information on new trends and products in geographic information systems. Topic areas are designed to change as technology and issues change.  
39 Hours  
Fee: $739 |  
| **Map Algebra: Topology and Overlay** CODG 133  
**Prerequisite(s):** (CODG100 or CODG 101) and (CODG110 or CODG 102)  
How is information extracted from digital maps, air photographs, or satellite images? This course examines the logic and steps involved in fulfilling information needs via the manipulation of available layers from such products, using such operations as searching, selecting, sorting, regression, overlay, reclassification, cross tabulation, and other methods.  
39 Hours  
Fee: $737 |  
| **Digital Image Processing and Applications** CODG 135  
**Prerequisite(s):** (CODG100 or CODG 101) and (CODG110 or CODG 102)  
This course investigates the principles of remotely sensed digital data, the techniques used to process digital images, and the applications to spatial decision making. The formats of digital image data and the procedures used in image rectification and registration, image enhancement, and image classification are examined. There will be an emphasis on utilizing digital image data within a GIS. A number of specific applications within resource management, environmental impact assessment, and urban and regional planning will be undertaken to demonstrate the value of such integration in solving geographic problems. Equivalent to GEO 542.  
39 Hours  
Fee: $661 |  
| **Web Mapping** CODG 136  
**Prerequisite(s):** (CODG100 and CODG 101) or (CODG110 and CODG 102)  
This course will examine Web 2.0 technologies including Google Maps, Virtual Earth, the concept of ‘Mash ups’, crowd sourcing, cloud computing, resource oriented architectures, all in the context of digital web mapping and online GIS analysis with respect to the neogeography movement (non-expert users). Online mapping technology will be combined with online information sources to create new ways of effectively delivering geospatial analysis. Attention will be given to developing cartographically appealing and appropriate high impact websites while optimizing usability and performance.  
39 Hours  
Fee: $737 |  
| **Digital Geography Applications** CODG 150  
By means of two experts’ presentations and class discussion, this computer lab-based demonstration workshop offers opportunities to the lay public to gain an appreciation of the variety of ways in which geographic information systems (GIS) are utilized by educational administrators, health professionals, police, criminal analysts, social work professionals and epidemiologists in the development and management of community, social, and health services. Topics explored include how GIS and cluster analysis are deployed to decide school locations based on public transit availability; to determine hot spots of criminal activity to increase patrols; and to identify areas of disease for disease control efforts.  
Note: Prior to the workshop, you may enroll online or in person. On the day of the workshop, you may enroll in person at the workshop location (VIC105, Victoria Building, 285 Victoria Street).  
For the most current information, see our website at www.ryerson.ca/ce. |
GIS professionals often need to work with very large datasets, both within and outside of a GIS. This course examines the management of those data, from modelling geographic space in different ways appropriate for user needs, to utilizing query languages specific to spatial data, and being able to integrate data in different formats. In addressing those topics, special focus will be put on the current object-relational database model and ESRI’s ArcSDE. The importance of data warehousing to spatial decision-making will also be addressed.

39 Hours  Fee: $737

Winter 2014
Friday  17:30-19:30  Jan 24
Friday  17:30-19:30  Jan 31

Spatial Database Management Systems
CODG 210

Prerequisite(s): CODG 122

This course is designed to provide students with the opportunity to work in a team and to consolidate their technical and conceptual knowledge by using a Geographic Information System to solve a real-world problem. It is important that students define their project so that it can be undertaken in one semester using data that are currently available. It is expected that students will use the skills developed in their specialty courses to define and carry out their analysis.

39 Hours  Fee: $737

Winter 2014
Thursday  18:30-21:30  Jan 16-Apr 17
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

GIS Implementation
CODG 220

Prerequisite(s): Department consent

This course is designed to provide a critical overview of the step-by-step procedures used in managing a GIS project from its inception through its development as a strategic plan to the management of its implementation. Opportunities will be provided for those working in the field to critically examine the project management approaches used within their organizations. Those who are not currently working in the GIS field will be given an opportunity to develop and carry forward a project through every step of the process as if they were acting as outside consultants in a field of their choosing.

Note: This is an independent study course.

39 Hours  Fee: $737

Winter 2014
Thursday  18:30-21:30  Jan 16-Apr 17
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

GIS Project
CODG 221

Prerequisite(s): Department consent

This course gives students the opportunity to work in a team and to consolidate their technical and conceptual knowledge by using a Geographic Information System to solve a real-world problem. It is important that students define their project so that it can be undertaken in one semester using data that are currently available. It is expected that students will use the skills developed in their specialty courses to define and carry out their analysis.

39 Hours  Fee: $737

Winter 2014
Wednesday  18:30-21:30  Jan 15-Apr 16
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Environment and Urban Sustainability

Related certificate(s): Social Sciences and Humanities Foundations (pg. 137)

Environment and Sustainability
CEUS 102

This course provides an introduction to the social, economic and environmental dimensions of sustainability in cities, particularly establishing the theoretical bases and understanding of the broad range of environmental problems that result when consumptive economies exploit their physical resources.

39 Hours  Fee: $620

Fall 2013
Wednesday  18:30-21:30  Sep 11-Dec  11

Sustaining the City’s Environments
CEUS 202

This course provides insights into the promotion of geographically-balanced settlement structures, sustainable waste and water management systems, the efficient management of urban pollution, and effective and environmentally-sound transportation systems. These have been identified as being essential to sustaining the city’s environment. Students will develop an environmental report card as their major project and will have the opportunity to see firsthand working urban systems of sustainability.

39 Hours  Fee: $620

Geography

Related certificate(s): Demographic Analysis (pg. 44), Global Diasporas, Transnationalism, and Migration Cities (pg. 76), Social Sciences and Humanities Foundations (pg. 137)

Geographies of Everyday Life
CGEO 106
This course examines environmental and spatial aspects of human life, primarily at the scale of the individual, the neighbourhood and the community. Specific topics to be considered include sense of place, mental maps, territoriality, community dynamics, and human impacts on the landscape. (LL)

39 Hours  Fee: $565
Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10
Spring/Summer 2014
Thursday  9:00-16:00  May  8-Jun 12

Geography of the Global Village
CGEO 108
This course explores the ecological and demographic basis of globalization. Starting from a discussion of the impacts of the industrial revolution on current global socio-economic and environmental issues, this course examines population dynamics and quality of life indicators, the world food system and environmental deterioration. (LL)

39 Hours  Fee: $565
Fall 2013
Wednesday  18:30-21:30  Sep 11-Dec 11
Spring/Summer 2014
Tuesday & Thursday  9:00-16:00  Apr 29-May 20

The Physical Environment
CGEO 110
In this course, the physical environment is investigated from the perspective of appreciating the natural limits that earth systems impose. Themes in climatology, hydrology and geomorphology are examined in order to develop an understanding of how natural balances originate, and afford opportunities and constraints for a modern lifestyle. Specific topics include weather systems, water budgets, erosion by streams and waves, and the enhancement of stability in natural systems. (LL)

39 Hours  Fee: $547
Spring/Summer 2014
Monday  9:00-16:00  Apr 28-Jun 16

Energy, Earth, and Ecosystems
CGEO 131
This course takes a systems-based approach to understanding the dynamics of Planet Earth and how humans interact with it. The principles, concepts, and applications of physical and environmental geography are introduced through learning about the energy that drives our ecosystems, the resources on which we depend, and the environmental challenges facing Canadian society in a global context. One component of the course is field-based.

39 Hours  Fee: $623

Location, Location, Location
CGEO 151
This course provides an understanding of locational processes, especially those related to business (industry, retail, office) and residential land uses by concentrating on three themes. Social diversity examines how changing demographics create changes in neighbourhood characteristics. Economic restructuring considers how economic changes impact location and make-up of economic activities. Smart growth investigates managing city growth, while still maintaining healthy environments.

39 Hours  Fee: $623
Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10

Regions, Nations and the Global Community
CGEO 206
This course examines spatial and environmental aspects of human life, primarily at the scale of the region, the nation and the global community. Specific topics to be considered include migration, regionalism, spatial equity and global interdependence. (LL)

39 Hours  Fee: $565
Winter 2014
Tuesday  18:30-21:30  Jan 14-Apr 15

Marketing Geography
CGEO 301
Antirequisite(s): GEO 302
This course addresses the spatial aspects of business decision making. Emphasis is placed on measuring the factors and assessing the methods associated with site evaluation and market area analysis.

39 Hours  Fee: $547
Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10

Retailing, GIS and Geodemographics
CGEO 419
This course surveys practical, conceptual and methodological issues associated with the application of geographical techniques to retail marketing. A variety of GIS applications are introduced to delineate and analyse retail trade areas. The use of socioeconomic and demographic data at various spatial scales is emphasized. Methods include: geocoding, mapping, creation of market area profiles, population projections, clustering and interpretation of market segmentation data.

39 Hours  Fee: $541
Winter 2014
Saturday  9:00-16:00  Jan 11-Feb 22

Regional Analysis of Canada
CGEO 505
The regional structure of Canada provides the focus for this course. Attention is given to the internal characteristics and problems of various regions, and to the interrelations which bind the regions together in a national framework. Emphasis is placed upon regional disparity, regional development concepts, and social and environmental variables. (UL)

39 Hours  Fee: $547
Fall 2013
Friday  18:30-21:30  Sep 13-Dec 13

GIS, Geographic Data and Mapping
CGEO 581
Students will learn about geographic data, and explore the power of visualization that comes from mapping them with Geographic Information Systems (GIS). GIS can transform data that are located on the earth’s surface into information that can be utilized in social, economic, political and environment decision-making. Through lectures and labs, students will examine the use of GIS and maps in their own academic area of interest.

39 Hours  Fee: $578

cyberspace@geography.ca
CGEO 609
This course will examine the historical development of world communications systems, with emphasis on the growth of contemporary geo-communication networks such as the Internet and the WWW, and their relationship to socio-economic and environmental geography. From world city systems to rural and marginalized places around the globe, the examination and analysis of cyberspace should prove useful in understanding a new geography characterized by many as the “death of distance." (UL)

39 Hours  Fee: $547
Winter 2014
Monday  18:30-21:30  Jan 13-Apr 14

For the most current information, see our website at www.ryerson.ca/ce.
Canadian Immigration: Patterns and Place CGEO 691
Offering a geographic perspective on Canadian immigration patterns and policies, this course examines the ‘why, who and where’ of Canadian immigrant experiences. There is a particular emphasis on the changes in Canada’s spatial, social and economic landscapes as a result of Canadian immigration policies over time within the context of contemporary global economics and communication technologies and the inherent complexities of pluralistic societies. 39 Hours Fee: $547

Spring/Summer 2014
Monday 9:00-16:00 May 5-Jun 23

Technology and the Contemporary Environment CGEO 702
Antirequisite(s): CGEO 703
The contemporary world is influenced to a very considerable extent by technology. However, relationships between this technology and our environment continue to be the subject of considerable public debate. The geographic dimensions of these environmental controversies provide a convenient and meaningful framework for their analysis. In this course, both recurring and contemporary environmental issues are examined in terms of implications for North American society. GEO 702 is not available for credit to students who choose GEO 703. (UL) 39 Hours Fee: $547

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11
Spring/Summer 2014
Monday & Wednesday 9:00-16:00 Apr 27-May 21
Tuesday 9:00-16:00 Apr 29-Jun 10

Perspectives on Environmental Management CGEO 703
Antirequisite(s): CGEO 702
The deterioration of ecosystems and growing societal intolerance for environmental damages have raised concerns over the management of the earth’s resource base. First, this course examines how public attitudes towards the environment have evolved and the corresponding growth of public participation in environmental decision making. Secondly, emphasis is placed on the ecological basis for environmental planning and analysis. Finally, the growing body of laws, regulations and guidelines which are designed to control environmental behaviours are considered. 39 Hours Fee: $541

Not offered in fall/winter/spring 2013-2014.

The Inner Landscape of Culture CGEO 720
What does it mean to live as a member of a particular culture? This course addresses the concept of culture as both a reflection and a determinant of human experience. Examples from Canadian and global settings support an exploration of the elements and processes of culture. (UL) 39 Hours Fee: $620

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15
Spring/Summer 2014
Tuesday 18:30-21:30 May 6-Aug 5

The Geography of Recreation and Leisure CGEO 802
Antirequisite(s): CGEO 803
This course explores recreation and leisure from a number of perspectives. It examines the relationship between recreational choice and demographic and life-style correlates, technology, and faddism. It evaluates symbolic recreational environments and the role of natural areas. It explores many of the social and environmental costs associated with recreational development. GEO 802 is not available for credit to students who choose GEO 803. (UL) 39 Hours Fee: $547

Spring/Summer 2014
Wednesday 9:00-16:00 Apr 30-Jun 11

Recreation and Tourism Analysis CGEO 803
Antirequisite(s): CGEO 802
The growing importance of the recreation and tourism system in today’s society has generated the potential for environmental impacts and development opportunities. This professionally related course examines the system and its role in the economy. Particular emphasis will be placed on planning, managing and developing recreation and tourism resources, and on identifying, measuring and evaluating impacts. 39 Hours Fee: $547

Spring/Summer 2014
Thursday 18:30-21:30 Jan 16-Apr 17

The Outer Landscape of Culture CGEO 820
This course examines the ways in which cultures express themselves through natural, built, and symbolic landscapes. The nature and significance of cultural change are considered at both regional and global scales. (UL) 39 Hours Fee: $620

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Wednesday 18:30-21:30 May 7-Jul 30

GIS and Fire Services Management CGEO 911
Accessing information regarding sites is recognized as critical to the goals of preventing and suppressing fires. With Geographic Information Systems (GIS), location is the primary key for retrieving data, so site information can be very conveniently accessible. This course provides an overview of GIS for urban and rural Fire Services by introducing application opportunities, system components, and implementation issues. The format is a combination of lectures, and practical hands-on workshops. 39 Hours Fee: $556

Spring/Summer 2014
Monday 18:30-21:30 May 5-Aug 18

Diaspora and Transnationalism CODS 101
The principle focus of this course will be on contemporary diasporas in the context of ever-accelerating globalization. Students will be introduced to the phenomenon of transnationalism, the multiple ties and interactions linking peoples and institutions across the borders of nation states. This course will demonstrate the ways in which contemporary transnational practices of global migrants are transforming cultural, social, political, and economic structures both within migrants’ homelands and within their places of settlement. 39 Hours Fee: $580

Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14
Spring/Summer 2014
Monday 18:30-21:30 May 5-Aug 18

Research in Diaspora and Globalized Cities CODS 200
Prerequisite(s): CODS 101 and CGEO 691
This course will provide students with an opportunity to synthesize the skills, knowledge, and techniques acquired in the courses that form the Certificate in Global Diasporas, Transnationalism, and Migration Cities. Students will create an in-depth application to a real-world paradigm, scenario, or issue related to global diasporas, transnationalism, and migration cities. They will be required to present an academic paper. This capstone course provides an opportunity to develop advanced research, presentation, and writing skills in a specialized area of study. 39 Hours Fee: $580

Spring/Summer 2014
Thursday 18:30-21:30 May 8-Jul 31
GERONTOLOGY

These interdisciplinary courses cover topics concerned with aging and the promotion of quality of life for older adults. For more information, visit www.ryerson.ca/ce/gerontology.

Gerontology

Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg. 24), Gerontology (pg. 75), Health Studies (pg. 83)

★ Ability, Disability and Aging  CGER 298
Psychosocial, biophysical, and behavioural changes occur as a result of the aging process and this course provides students with the knowledge to assess these changes. Assessment rating scales will be analyzed and students will be provided with the opportunity to observe a range of assessment interviews.

39 Hours  Fee: $583

Fall 2013  18:30-21:30  Sep 9-Dec 9
Winter 2014  Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

★ Aging and the Individual  CVGE 140
This course will explore the individual aging process focusing on normal and exceptional age related changes through biological, psychological, and socio-cultural frameworks. The dynamic interaction between the older person and the social and physical environments and the impact of these on the quality of life will be the unifying theme for this course. Teaching modes will include readings, lectures, a written assignment, discussion, and an experiential learning component. Equivalent to the Social Work 900 series elective course.

39 Hours  Fee: $583

Fall 2013  Distance: Internet  Sep 7-Dec 7
Winter 2014  Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014  Distance: Internet  May 3-Jun 14

For information on distance education, visit www.ryerson.ca/ce/de.

★ Aging and Society  CVGE 141
This course explores the societal factors that influence both the process and outcomes associated with aging including social role transition, sexuality, the role of the family and social supports, education, ethnicity, social policy, finance and economics, transportation, housing, and health care. Learning will be facilitated through a variety of teaching modes, which include readings, lectures, written assignment, discussion, and an experiential learning component. Equivalent to Social Work 900 series elective course.

39 Hours  Fee: $583

Fall 2013  Distance: Internet  Sep 7-Sep 19
Winter 2014  Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014  Distance: Internet  Jun 21-Aug 9

For information on distance education, visit www.ryerson.ca/ce/de.

★ Understanding Research  CVGE 205
This course provides students an understanding of the fundamentals of social science research applied to gerontology. Students learn how qualitative and quantitative research approaches are used to design studies, collect and analyze data, and interpret and evaluate research. Students will practice their planning and evaluation skills through the development of an evaluation proposal. Teaching modes will include readings, lectures, written assignments, an evaluation proposal, class discussion, and an experiential learning component. Equivalent to HSM 417.

39 Hours  Fee: $589

Winter 2014  18:30-21:30  Jan 13-Apr 14
Spring/Summer 2014  Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

★ Consent, Capacity and Decision Making  CVGE 271
This course gives an intensive analysis of the Substitute Decisions Act, the Health Care Consent Act, relevant portions of the Mental Health Act and other related Ontario law that informs older adults, their substitute decision makers, family members and care providers of the substitute decision making framework in Ontario.

The outcomes of this course are that students will be knowledgeable and conversant with consent, capacity and substitute decision making law in Ontario; that they will be able to correctly identify legal issues in substitute decision making fact situations; and they will be able to apply their knowledge of Ontario law in problem solving exercises.

39 Hours  Fee: $602

Winter 2014  Thursday 18:30-21:30  Jan 16-Apr 17

★ Aging and Interpersonal Skills  CVGE 297
The aim of this course is to facilitate growth and awareness of self and one’s interpersonal communication style. Emphasis is placed on communication with the elderly, and on attitudes related to aging and the aged. Equivalent to FNP 200.

39 Hours  Fee: $583

Spring/Summer 2014  Monday–Friday  8:30-18:00  May 12-May 16

For the most current information, see our website at www.ryerson.ca/ce.
GLOBAL CHALLENGES

Global Challenges

These workshops aim to foster real-world perspectives on the crucial challenges of our time, linking technical content to essential human values. Topics include explorations of social movements, environmental issues, responses to disasters and refugees, and leadership in the private, public, and nonprofit sectors. Workshops offer opportunities for professionals and world citizens to discuss social issues, emerging trends, and opportunities for change. For information about the workshops, visit www.ryerson.ca/ce/global.

NEW!

Disasters and Refugees CKGC 153
This workshop will explore different kinds of natural and human-made disasters: examining their causes, scale, frequency, and impact. Instructors with expertise in disaster response will guide participants in discussing systems for disaster preparedness, as well as relief, recovery, and reconstruction in practice. Issues to be examined include persisting populations of encamped refugees; disaster relief versus development assistance; and opportunities to foster peace, stability, and resilience in recovering from and preventing war.

4 Hours
Fall 2013
17:30-21:30

17:30-21:30
Nov 26

NEW!

Environmental Challenges CKGC 155
The environmental movement is perhaps the most widely supported and globally represented of all contemporary movements. Yet, despite its obvious influence and progress, ecological damage continues to accumulate on a global scale, publics have yet to fully grasp the importance of ecological degradation, and few governments or major corporations have responded with sufficient resolve at sufficient scale. This workshop will clarify global environmental issues, examine barriers to action, and articulate forward directions.

GRAPHIC COMMUNICATIONS

Graphic Communications

Graphic Communications is one of the most vigorous and exciting industries in Canada today. The preparation of layouts, designs, files, proofs, and finished jobs in the printing industry require the use of advanced hardware, software, and technology. Knowledgeable and skilled professionals in the field are rewarded with challenging opportunities. Students may enroll directly into entry-level courses. No interview or portfolio is required. For more information, visit www.ryerson.ca/ce/graphiccomm.

Related certificate(s): Design Management (pg. 46), Graphic Communications (pg. 78)

Graphic Communications Processes CDGA 651
An introduction to graphic communications manufacturing processes with emphasis on the variety of methods available, and quality and cost considerations. Subject matter includes design, copy preparation, digital prepress, proofing, plating, ink and paper, various printing processes, and binding and finishing techniques. Suitable for people new to the industry.

39 Hours
Fall 2013

Nov 23

Layout and Typography I CGRA 102
Introduces principles of page layout, typography and design. Familiarizes students with the terminology and concepts commonly used by designers. Develops a theoretical and practical understanding of page layout software and font management with a focus on quality conscious design for print.

39 Hours
Winter 2014
Distance: Internet
Jan 11-Apr 12

Introduction to Electronic Premedia I CGRA 103
This course explores the fundamental concepts of premedia, from initial image capture to preparing documents for press via an industry standard premedia workflow system. Students will capture digital images intended for a print environment DSLR cameras and manipulate those images using Adobe Photoshop. Students will learn to construct technically accurate documents using desktop publishing software. Students will explore the steps involved in processing press-ready PDFs, and how to prepare and evaluate different types of proofs prior to plate output. In addition, the basics of file inspection and evaluation will be discussed.

39 Hours
Winter 2014
18:00-21:00
Jan 16-Apr 17

Printing Processes I CGRA 104
This course introduces students to the basic principles of the major conventional and digital non-impact printing processes. The courses focuses on sheetfed offset lithography with emphasis on the printing process and principal press systems. Printing’s history and its importance to society are introduced. Material testing is introduced relative to printability, runability and end use performance. Safety is discussed. Students participate in a two-colour press run.

18:30-21:30
Jan 14-Apr 15

GLOBAL CHALLENGES
Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Estimating in the Graphic Arts CGRA 118

Prerequisite(s): GRA 420 and GRA 422 and CGRA 423 and GRA 424 and CACC 100

Introduction to price list and cost estimating using manual and computerized methods. This course relies heavily on fundamental knowledge learned from courses in premedia, imposition planning, printing, and bindery and finishing. A hands-on approach is used for applying budgeted hourly rates (BHR), standards, materials costs, formulas, markups in producing accurate estimates. Emphasis is placed on the use of accurate specifications, the best imposition and production plan, with consideration to quality, turnaround time and cost efficient use of labour, equipment, manufacturing processes, paper and other materials. Manual, spreadsheet and database (MIS) estimating procedures will be taught.

39 Hours  Fee: $585

Fall 2013  Distance: Internet  Sep 7-Dec 7

Winter 2014  Distance: Internet  Jan 11-Apr 12

Spring/Summer 2014  Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

★ Layout and Typography II CGRA 202

Prerequisite(s): CGRA 102

Continues to develop the student’s understanding of illustration design with an understanding of design terminology, design problems, and other theory. Examines design elements and principles, with a focus on single-page design for printing and packaging. Specific issues of vector based design are addressed.

39 Hours  Fee: $536

Spring/Summer 2014  Tuesday & Thursday 18:00-21:00  May 6-Jun 17

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Introduction to Electronic Premedia II CGRA 203

Prerequisite(s): CGRA 103

This course builds upon the foundation set in GRA 103. In this course, critical output requirements for offset lithography are stressed. Students will learn the principles of plate imposition and maximizing press sheets. This course explores the reproduction requirements of various printing methods as they pertain to premedia, and an introduction to premedia specifically related to flexography and packaging will be explored. In addition, students will expand upon the image manipulation skills learned in GRA 103 to explore the strengths and limitations of image editing programs. Core concepts of complex job planning are taught in both lecture and labs.

39 Hours  Fee: $536

Spring/Summer 2014  Monday & Wednesday 18:00-21:00  May 5-Jun 18

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Printing Processes II CGRA 204

Prerequisite(s): CGRA 104

The emphasis of this course is the manufacture and properties, including sustainability, of paper and ink used in printing processes. Material testing is conducted to evaluate substrates and ink for printability, runability and end use performance. The importance of the make-ready phase relative to production costs is introduced. Students participate in a four-colour offset press run. Problem-solving is emphasized through the use of simulators. The flexographic printing process is introduced, and students participate in a flexo press demonstration.

39 Hours  Fee: $536

Spring/Summer 2014  Tuesday & Thursday 18:00-21:00  Jun 24-Aug 7

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Selling in the Graphic Arts CGRA 230

This course explores the role of the sales representative in the graphic arts industries; including customer relationships, formulating a selective selling strategy, the nature and sources of product, customer and competitive knowledge, and using the consultative selling process. It extends the focus of the sales practice into self-presentation and selling oneself to further student skills in professional communication and presentation.

26 Hours  Fee: $406

Winter 2014  Distance: Internet  Jan 11-Apr 12

Spring/Summer 2014  Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

★ Binding and Finishing I CGRA 320

This study of basic binding and finishing technology places emphasis on the technical and managerial aspects of binding and finishing topics. These include: the history of bookbinding, an overview of binding equipment, bindery service workflows, the structural design of books, quality control, job planning, and productivity issues. Students will also learn the set-up procedures of the primary types of binding equipment by way of lab demonstrations and hands-on assignments, including, guillotine cutting, hand bookbinding, and use of small and table top machines, drilling, padding, embossing and foilstamping, round cornering, film laminating, and shrinkwrapping operations.

39 Hours  Fee: $562

Winter 2014  Monday 18:00-21:00  Jan 13-Apr 14

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
Health Services Management is a unique part-time program, the first of its kind in Canada. It is designed to meet the needs of present and aspiring managers in health service organizations. In keeping with Ryerson's tradition of professionally relevant education, the program has been designed in close consultation with leading practitioners, employers, and professional associations. It provides education in management theory and practice which builds on previous professional education and experience. Individual courses in the Health Services Management part-time degree completion program are available to all Chang School students who wish to upgrade their knowledge and skills in the health services management area. Courses examine the Canadian health system and the manager's role in the health services organization. For full details on the Health Services Management degree completion program, please call Dr. Winston Isaac, Director, at 416.979.5000, ext. 6643.

Health Information Management

Related certificate(s): Health Informatics (pg. 79), Nursing Leadership and Management, Advanced (pg. 108)

☆ Managing Health Information Services
Prerequisite(s): CHSM 301 or HSM 315

This course will explore the manager’s role as it relates to planning, organizing, HRM, budgeting, supervising, evaluation, service delivery, and marketing. Further exploration will center around areas such as organizational development and culture; evolution of organizations; response to change; individual motivation; group dynamics; leadership styles; inter-departmental relations, decision-making; communication; team building; conflict resolution; managing change.

39 Hours
Fee: $575

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

☆ Healthcare Information Analysis
Prerequisite(s): CHSM 301

Emphasis will be placed on analysis methodologies and the concomitant use of current data analysis software, such as query and reporting tools, on-line analytical processing (OLAP), executive information systems and data mining tools. The key concept will be methods of transforming data into meaningful information for end-users. Analysis techniques include: trending through the use of historical data, impact analysis, variance analysis, and data modeling to allow for scenario testing. The identification of data sources such as Management Information Systems (MIS), the Canadian Institute for Health Information (CIHI), as well as other financial, clinical and demographic data repositories, will also be covered.

39 Hours
Fee: $575

Fall 2013
Thursday 18:00-21:30 Sep 12-Dec 12
Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

☆ Health Information Systems Management
Prerequisite(s): CHIM 301

This course takes a systems perspective in terms of database management, quality management and utilization management. Database management covers the full spectrum of definitions, data standards in terms of integrity, reliability and consistency, data transforming and cleaning prior to storage, and record linkage. Quality assurance and utilization management topics cover issues such as integrated/managed care with a focus on both process and outcome within an interactive cycle, identification of sentinel events and the development of indicators for measurement. Finally, product analysis and selection, including the RFP (request for proposal) process, will also be addressed.

39 Hours
Fee: $575

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

☆ Managerial Accounting and Finance
Prerequisite(s): CACC 100 and CHIM 301

This course focuses on the unique financial management features, reporting policies and analytic tools in health services organizations. It examines different types of budgets including capital and operating budgets, fixed and variable budgets, financial activity budgets and also operating plans. It describes budgetary processes and tools and discusses capital expenditure plans, cash flow forecasts and variance analysis. Financial measurements, reporting and evaluations strategies are discussed.

39 Hours
Fee: $563

Winter 2014
Distance: Internet
Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

☆ Health Economics
Prerequisite(s): CECN 104 and CECN 204

This course will take students beyond using the fundamental tools necessary to apply basic economic principles to the health care field. Exposure will be provided on a balance of population-based health economics and consumer driven, managed health care economics. Consideration will be given to linking performance indicators to social goals. Emphasis will be placed on quality of life measures both from the local and international scenes.

39 Hours
Fee: $563

Fall 2013
Distance: Internet
Sep 7-Dec 7
For information on distance education, visit www.ryerson.ca/ce/de.

☆ Issues in Health Information Management
Prerequisite(s): CHIM 404

This course is designed to facilitate in-depth analysis of key trends and issues in health information management and to explore their implications for management practice. The course will examine current health information management delivery systems, their legislative, political, economic and social complexities, and their ability to influence and be influenced by health care professionals. Issues addressed will vary in response to developments in the field. Students will be asked to critically analyze these trends and issues in terms of their impact on the management of health information as a whole, the provider-client relationship, etc.

39 Hours
Fee: $563

Spring/Summer 2014
Distance: Internet
May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

☆ Practicum Seminar
Prerequisite(s): Department consent

This course is offered in conjunction with HIM 407. Students and faculty supervisors establish learning contracts detailing the terms and conditions of fieldwork placements. Mid and final seminars provide an opportunity for students to apply theory and collectively share their experiences. This is a graded course.
Practicum
Prerequisite(s): Department consent

Practicum project/exercise to be directly related to health information management. The practicum is the capstone course of the Health Information Management program, and provides the opportunity to apply management theory and concepts in a working environment which is specific to health information services delivery. Students evaluate and analyze on-site management issues within the context of their understanding of organizational systems. A pre-arranged number of hours, per week, will be spent over a negotiated time period in a setting other than their own work setting, although it may be in the same organization. Supervision will be provided by on-site preceptors.

Health Services Management

Modular Format:
The modular course offering format of the Health Services Management program is designed on an extended weekend schedule which concentrates class time into all day Friday and Saturday over three weekends during a term. This format has been developed in specific response to Health Services Management students who are currently employed and/or those who wish to accelerate their progress through the program. An integral part and expectation of the modular course format is that course assignments and class preparation are completed prior to the class meetings. For more details, contact Health Services Management at 416.979.5000, ext. 6643, or visit www.ryerson.ca/hsm/hsm.html. Related certificate(s): Environmental Public Health Leadership (pg. 58), Gerontology (pg. 75), Health Informatics (pg. 79), Health Services Management (pg. 81), Health Studies (pg. 83), Nursing Leadership and Management, Advanced (pg. 109), Project Management (pg. 119)

★ The Healthcare Systems
CHSM 301
The course introduces participants to the organization and operation of the health systems of Canada. The initial section focuses on the client as the consumer of health services. Discussion is focused on the historical concepts of the provider-client relationships; integrated client-centered care. Also examined are major institutional and community components and the interrelationships; role of governments and the health professions in shaping the current system; funding; planning for healthcare; the impact of access to services with the shift from the institutionally-based illness model with curative technology to a wellness model stressing client rights, community development and health promotion in a climate of the illness model with curative technology to a wellness model stressing client rights, community development and health promotion in a climate of the learning organization with quality improvement initiatives.

39 Hours  Fee: $575
Fall 2013
Distance: Internet  9:00-16:30  Sep 7-Dec 7
Wednesday  1:30-21:30  Sep 11-Dec 11
Winter 2014
Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014
Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ The Management Cycle
CHSM 305
Prerequisite(s): CHSM 301 or HSM 315
The evolving role for the health services manager in the management cycle is the focus of this course. The course uses a case study approach to identify and discuss the manager’s role and responsibilities in key operational areas within the health services organization; planning, organizing, human resources management, budgeting, supervising, evaluating and marketing. Challenges for managers in each of these areas are examined to assist in the development of skills and models for effective management. Methodology: Lecture, case studies, discussion, guest experts.

39 Hours  Fee: $575
Fall 2013
Distance: Internet  9:00-16:30  Sep 7-Dec 7
Friday & Saturday  9:00-16:30  Sep 20-Sep 21
and Friday & Saturday  9:00-16:30  Oct 11-Oct 12
and Friday & Saturday  9:00-16:30  Nov 15-Nov 16
For information on distance education, visit www.ryerson.ca/ce/de.

★ Management Leadership and Decision-Making
CHSM 306
Prerequisite(s): CHSM 305 and (CHSM 301 or HSM 315)
In this course students examine theories of organizational development and culture, review how organizations evolve and respond to change. Students will apply theories of individual motivation, group dynamics and styles of leadership within the context of the departmental structure and inter-departmental relations. Case studies and role-playing are used to develop skills in decision-making, communication, team building, conflict resolution and managing change in multi-disciplinary, multi-cultural work settings. Methodology: Lecture, discussion, case studies, role playing.

39 Hours  Fee: $575
Winter 2014
Distance: Internet  Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

★ Principles of Long Term Care Service Del.
CHSM 307
Successful completion of this course will enable the student to understand and critically analyze the current system and the impact of expected changes on the delivery of service in the long-term care sector. The course will deal with the policies, values, concepts, and complexities of the health care system in the municipal, provincial, national and international contexts. It will also provide an understanding of the political processes and legislation that have shaped and will continue to shape the delivery of long-term care. Discussion will include the administrative issues and trends in the provision of services to culturally diverse clients of all ages and conditions in both community and institutional environments.

39 Hours  Fee: $572

CHSM 417
CHSM 301 or HSM 315

Descriptive epidemiology; quantitative measures and terminology.

Some of the topics covered will be study designs and information will be presented in a manner that meets the needs of healthcare managers. This course will illustrate how the manager can use epidemiological concepts and tools to improve management decisions - from setting rates to predicting staffing needs to marketing the services of the organization. Managers need to know the methods and ideas of epidemiology. This information will be presented in a manner that meets the needs of the healthcare manager. Some of the topics covered will be study designs and descriptive epidemiology: quantitative measures and terminology.
Practicum Seminar

**CHSM 418**

Prerequisite(s): Department consent

Offered in conjunction with HSM 419. The first pre-fieldwork seminar orients students to the process of experimental learning. Students and faculty supervisors establish learning contracts detailing the terms and conditions of fieldwork placements. Mid and final seminars provide an opportunity for students to apply theory and collectively share their experiences. Learning outcomes include an applied understanding of the management cycle, the challenges for managers and enhanced research and evaluation skills. This is a graded course.

HINDI

Are you interested in learning a phonetic language? Do you want to learn about Indian culture? Are you travelling to India, Pakistan, or Nepal? Do you have Indian friends, relatives, or business contacts? If you want to learn Hindi for any of these purposes, our new non-credit courses are for you. Students who have no or very little knowledge of Hindi may enroll directly into COHI 101. For more information, visit [www.ryerson.ca/ce/languages](http://www.ryerson.ca/ce/languages).

**Introductory Hindi**

**COHI 101**

This is a non-credit course which focuses on how to make your own Hindi sentences to express your thoughts in present, past, and future tenses. Emphasis is on understanding how to communicate original thought at the sentence level. The course begins with recognition of the Hindi alphabet in roman letters, leading to pronunciation of Hindi words and sentences. You come away understanding and speaking Hindi in simple, straightforward, everyday situations.

The Department of History offers a wide selection of courses, ranging from general surveys in European, African, Canadian, and American history to courses that examine themes in subjects such as modern international relations and the history of science and technology. Students enrolled in degree programs are responsible for ensuring that any course selected from those listed meets the specific requirements of their program.

History

Related certificate(s): Ethics (pg. 59), Social Sciences and Humanities Foundations (pg. 137)

★ Ten Days That Shook The World CHIS 104
This course explores transformative moments in history in order to understand their underlying causes and their social, cultural, political, and economic impacts on human beings and their societies. Each topic introduces students to the diverse ways historians practise their craft and seek understanding of the past and historical change so that they develop a deeper appreciation of what history “is” and “does” by considering multiple means of exploring and making sense of the past. (Formerly HST 114).

39 Hours  Fee: $610

Winter 2014 Thursday 18:30-21:30 Jan 16-Apr 17

★ Inventing Popular Culture CHIS 105
This course examines the history of popular culture, starting in the 19th century, seeking to define popular culture and understand its relationship to the formation of modern society. It considers such topics as the ideological use of popular culture, debates surrounding culture, notions of nation and community, and the growing dominance of commercial culture during a period when technology, human migration, and other factors increasingly blurred the boundaries of earlier cultural and social understanding. (Formerly HST 115).

39 Hours  Fee: $610

Winter 2014 Tuesday 18:30-21:30 Jan 14-Apr 15

★ Technology, Warfare, and Social Change CHIS 106
This course introduces students to the technological and social implications of warfare from the ancient to the modern age. However, rather than dwell on the minutiae of military technologies and battle strategies, it explores the technological connections between war and society through asking such questions as how conflict fostered technology exchanges and medical advances; how improved naval technology furthered exploration; how military technologies found civilian use; and how new technologies changed the ethics of war. (Formerly HST 116).

39 Hours  Fee: $610

Spring/Summer 2014 Tuesday & Thursday 18:30-21:30 May 23-Aug 11

★ Colonization, Colonialism, and Independence CHIS 107
This course provides a comparative history of colonialism, drawing attention to the motives behind territorial acquisition, the methods employed to establish colonial control, and the responses to the practice among subject populations, including the forms of resistance leading to independence. It traces the many legacies of colonialism, including the impact of cross-cultural encounters on both rulers and subjects, as well as the ways in which colonialism continues to influence the globe. (Formerly HST 117).

39 Hours  Fee: $610

Spring/Summer 2014 Monday & Wednesday 18:30-21:30 Jun 23-Aug 11

NEW!

★ Ancient Greece and Rome CHIS 275
This course explores the emergence of both Greek and Roman societies (c.700 to c.100 BCE). It considers the rise of Greek city states, Athenian imperialism and its clash with the Spartans, plus the spread of Hellenism throughout the Mediterranean World. The course also examines the spread of Roman society from Rome, throughout Italy, to the conquest of the former Hellenistic Mediterranean as a means to highlight both the clashes and merging of cultures.

39 Hours  Fee: $610

Spring/Summer 2014 Monday & Wednesday 18:30-21:30 May 5-Jun 18

NEW!

★ Ancient Egypt CHIS 559
Popular histories of ancient Egypt often only explore New Kingdom pharaohs, such as Tutankhamen and Ramses II. This course provides a much broader history, beginning with the roots of Egyptian civilization prior to c.3500 BCE and ending with the Late Period (c.323 BCE to 330 CE). It considers change over time in the political, social, religious, and everyday life of Egypt, as well as its economic and other ties with the wider world.

39 Hours  Fee: $610

Spring/Summer 2014 Tuesday & Thursday 18:30-21:30 May 6-Jun 17

NEW!

★ Rome: Republic and Empire CHIS 575
This course explores the Roman world from the Republican period (c.100-27 BCE) to the imperial era that followed. It examines struggles of leadership caused by the conquest of increasingly vast territories, the fall of the republic, the rule of the emperors, and defence of the outer boundaries of empire at its zenith. The course also considers Roman society and culture, and discusses the ramifications of Christianity, concluding with Constantine’s conversion in 312 CE.

39 Hours  Fee: $610

Spring/Summer 2014 Monday & Wednesday 18:30-21:30 Jun 23-Aug 11

NEW!

★ Modern International Relations CHIS 590

Antirequisite(s): HIS 490 and CHST 604

To understand the complexities of the modern world, we must have a firm grasp of international relations. What forces - political, social, or economic - have changed our world since 1945? What was the Cold War and what does its ending mean? This course uses history to illuminate relations and developments in specific areas, such as Europe, the Middle East, and Asia. It also trains students in how to formulate questions and find information effectively. (Formerly HST 500).

39 Hours  Fee: $610

Spring/Summer 2014 Tuesday & Thursday 13:00-16:00 May 6-Jun 17

NEW!

★ The British Empire and the World CHIS 886
For nearly four centuries, Britain ruled over the largest colonial empire in the world. This empire was the product of a long history of naval and commercial opportunities shrewdly exploited by various British leaders. This course examines the key role played by the empire in assuring Britain’s prosperity, from the first settlements until the 1930s, along with the British colonial “model” and the decolonization that followed the end of the Second World War. (Formerly HST 722).

39 Hours  Fee: $610

This course surveys the creation and development of the “Thirteen Colonies” and the American republic, from the 17th century through the period after the Civil War. Topics include: the settlement and growth of the colonies, European-Native relations, the American Revolution, the Constitution, westward expansion, Jacksonian America, the market revolution and rise of the factory system, slavery and abolitionism, women and reform, the Civil War, and Reconstruction. (LI)

Tuesday & Thursday  18:30-21:30  Jun 24-Aug 7

**Major Themes in International Relations**

**Antirequisite(s):** HIS 390 and HIS 490

This course examines key aspects of international relations from the creation of the Westphalian system (1648) to the present. Topics include the methods and structures established to mediate relations between states, the bureaucratization of diplomacy, the rise of international institutions and law, the emerging notion of human rights, and the challenges to the Westphalian system engendered by globalization, international terrorism, and the rise of intrastate conflicts. (LI)

39 Hours  Fee: $604

Spring/Summer 2014  
Tuesday & Thursday  13:00-16:00  Jun 24-Aug 7

**The American Civil War**

**CHST 501**

This course surveys the history of the Civil War, from its origins in 19th-century tensions through to the end of Reconstruction in 1877. Topics include: slavery, the growth of sectionalism, birth of the Republican Party, breakdown of the political system, justifications for and against secession, the founding of the Confederacy, the military conflict, life on the home front, Union victory, sectional reconciliation, and postwar conditions for freed Blacks. (UL)

39 Hours  Fee: $547

Spring/Summer 2014  
Monday & Wednesday  18:30-21:30  May 5-Jun 18

**Crime and Punishment in Modern Canada**

**CHST 503**

This course is a historical inquiry into crime and punishment in 20th-century Canada. The major focus of the course is an examination of the social history of crime, which includes historical attitudes toward crime, definitions of what actions constitute criminal behaviour and how they change over time, and finally, the evolution of the relationship between the criminal justice system and social change. (UL)

**War to War: World Conflict 1900-45**

**CHST 504**

The two world wars between 1914 and 1945 have transformed our planet. In 1900 Europe dominated international relations; since then we have seen the rise of the superpowers of the United States and the Soviet Union, and a shift in power to the non-European world of Asia, Africa, and Latin America. This course examines the causes and significance of these changes. Topics include political, economic, and military factors, war-making, and peace-keeping. (UL)

39 Hours  Fee: $582

Fall 2013  
Thursday  18:30-21:30  Sep 12-Dec 12
○ Toronto: Wilderness to Metropolis

In less than 200 years Toronto has grown from a small town into a major metropolis. This course looks at elements in that development, such as: immigration and its effects, 19th-century social classes and ethnic rivalries, the growth and movement of industry, pollution problems, the struggle over municipal services, urban calamities, the absorption of other communities, problems of the poor, the growth of suburbs, and the emergence of a multicultural city. (UL)

○ Espionage: A 20th-Century History

Hidden codes, special devices, fiendish villains, and top secrets all have a special place in popular culture, but as alluring as the mythology may be, it does not answer important questions about the role espionage plays in international relations. This course covers the evolution of spying and spy services from the late 19th century to the present, focusing on the effects of major events such as the two world wars, the Cold War, and 9-11. (UL)

○ Problems in 20th-Century Western Europe

This course avoids the survey approach by enabling students to concentrate on certain specific aspects of 20th-century Western European history. Each semester explores a different set of topics, which will be examined in some depth, taking into account social, political, economic, and geographical ramifications. Examples of subjects that might be examined include: “France in the 20th Century” or “Britain: Grandeur and Decline.” (UL)

39 Hours

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10

○ Natives and Newcomers to 1783

How did the First Nations of the Canadian and American Great Lakes region develop through the millennia? What happened at their first encounters with Europeans? How did they face the challenges posed by missionaries and traders? What happened during the tragic epidemics of the 1600s? How did war and conflict re-shape the aboriginal world? Explore these and other important questions in indigenous history in this course. (UL)

○ Mediaeval Europe: 400-1400

This course traces the main developments in Europe from the fall of Rome to 1400. Within a broadly chronological context, we examine the political, religious, and social changes that occurred during that time. Topics include: the barbarian kingdoms, early Western Christianity, the Byzantine Empire, the rise of Islam, Charlemagne, the Moors and the Vikings, the development of the new kingship, the Crusades, and life, art, learning, and culture in the High Middle Ages. (UL)

39 Hours

Fall 2013
Tuesday 18:30-21:30 Sep 7-Oct 7

○ The History of Modern Propaganda

This course examines the role of propaganda, starting with its use by religious reformers in the 16th century, French revolutionaries of the 18th, and nationalists in the 19th. The main focus, however, is the period after 1900. We explore propaganda during the two world wars, its use by totalitarian powers, and its impact on the Cold War. We place emphasis on studying the raw materials of propaganda: pamphlets, posters, radio broadcasts, and films. (UL)

39 Hours

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9

○ The Third Reich

This course introduces students to the history of Germany’s Third Reich and its international impact from its origins in the 1920s to the aftermath of its defeat in 1945. Topics include: the birth of Nazism in Weimar Germany; Adolph Hitler’s rise to power; Nazi government, economy, and society; the Holocaust; territorial expansion; the conduct of the Second World War; the collapse of the Third Reich; and ongoing deliberations about its legacies. (UL)

Themes in 20th-Century African History

CHST 633

Antirequisites: HIS 556 and HIS 656

What historical dynamics have produced the Africa we know today? How far are today's problems rooted in the colonial experience? This course examines the history of the continent from the beginning of the colonial period to the present. Some of the themes covered include: resistance to colonial rule, the development of nationalism, class formation, changing gender roles, Africa in the world economy, and democratization movements. This course is best taken with HST 555. (UL)

Spring/Summer 2014
Monday & Wednesday 18:30-21:30  Jun 23-Aug 11

People’s Republic of China, 1949-Present

CHST 655

This course covers the diverse years of the People’s Republic of China. For the Mao Zedong period, we explore socialist reifications, the Anti-rightist Movement, the Great Leap Forward, the Cultural Revolution, and the making of Communist citizens within a new hierarchy. For the post-Mao years, we examine how ongoing reforms and open door policies de-communized the country as part of our investigation into China’s painful and twisted journey to modernity in a global context. (UL)

39 Hours  Fee: $541

Scientific Technology and Modern Society

CHST 701

This course examines how scientific technology both reflects and transforms our society, and how it created key fundamental industries in our high-tech, energy-dependent society. It covers the invention of modern electrical and transportation systems, modern warfare, problems of biotechnology, the ethics of industrial chemistry, nuclear energy and the atomic bomb, and the computer revolution. (UL)

39 Hours  Fee: $547

The First World War

CHST 702

This course examines the causes, conduct, and outcomes of the world’s first total war. Key themes include pivotal military events, soldiers’ experiences, and, especially, the interactions between the home front and the front lines that distinguished the Great War from earlier conflicts and that shaped its outcome and long-term consequences. Accordingly, the connections between the political, military, social, economic, and cultural dimensions of the war are central topics of study in this course. (UL)

Medicine from Antiquity to 1500 CE

CHST 777

The dread of disease, physical pain, and mental suffering always has loomed large in human experience. How did people in the past react to sickness? What kinds of diseases affected people’s lives, and what approaches did they take to hold diseases at bay? This course covers disease and medical practice from antiquity to 1500 CE within the contexts of the ancient Near East, Greek and Roman society, the Islamic world, and mediaeval Europe. (UL)

39 Hours  Fee: $582
If you are already active in the hospitality and tourism industry, the courses listed offer an ideal opportunity to upgrade your skills. If you are planning to pursue a career in hotel, resort, or restaurant management, they provide an excellent base for your professional development.

**Hospitality and Tourism**

Related certificate(s): Business Decision Analysis (pg. 34)

**Service and Professionalism**

*Service and Professionalism*  
CHTH 102  
Antirequisite(s): CRMG 303  
This course will introduce the students to quality service. General systems theory is used to investigate the concept of service excellence as a philosophical framework of developing a service management strategy to insure service quality. Current issues include regarding quality service and the organizational and managerial implications.

**Destination Management Systems**

*Destination Management Systems*  
CHTI 746  
Prerequisite(s): CITM 102 or Direct Entry  
Hospitality and Tourism destinations promote themselves by developing dynamic inviting websites. Destination management strategies must embrace ICT (Information Communication Technologies). By critically examining different Destination Management Systems, students will learn what makes a successful site now that the Internet is a major distribution tool. Students will be guided to use the Internet to compare different Destination websites and they will learn how Search Engine Optimization can increase the traffic to their website.

**Sustainable Tourism Development**

*Sustainable Tourism Development*  
CHTT 510  
Prerequisite(s): CHTT 303  
This course critically examines sustainable and responsible tourism development practices at both the micro and macro levels of the industry. Case study analysis is an integral component of the course. A major focus will be on benefits and impacts associated with tourism development, as well as the strategies for maximizing benefits and minimizing adverse effects.

HUMAN RESOURCES

These courses give you the opportunity to develop your knowledge and skills in human resources management. With their intensive focus on contemporary issues and management techniques, they can help you upgrade your professional qualifications or prepare you to pursue accreditation in this challenging and rewarding field.

Human Resources

All CMHR course fees include a $10 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg.24), Business Management (pg. 36), Design Management (pg. 46), Ethics (pg. 59), Facility Management (pg. 62), Financial Management in Canada (pg. 67), Health Informatics (pg. 79), Human Resources Management (pg. 85), Nursing Leadership and Management, Advanced (pg. 109), Occupational Health and Safety (pg. 111), Organizational Leadership (pg. 112), Project Management (pg. 119), Retail Management (pg. 134), and Saturday

Organizational Behaviour II

CMHR 505

Prerequisite(s): CMHR 405 or HTH 601

This course completes the introduction to organizational behaviour started in MHR 405 and emphasizes applied activities to enhance students’ skills in applying organizational behaviour theory to the practice of management. Topics include: organizational culture, creativity, stress, negotiations, conflict, perception, attitudes, personality, power, influence and leadership.

Human Resources Management

CMHR 523

This course exposes students to the dynamic and diverse field of Human Resources Management and provides a foundation in theory and practice for areas such as human resources planning, recruitment, and selection of staff, training and development, and compensation. Current events, human resources strategy, relevant legislation, and future trends are also explored. The course provides students with the fundamentals necessary to effectively administer the human resources function of an organization, and also develops their abilities to perform effectively in teams. ★ Diversity and Inclusion in the Workplace
CMHR 600
Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry
The Canadian workforce has become more diverse in recent decades and is projected to be more so in the coming years. For example, women now account for almost half of the Canadian labour force. The aging of the Canadian population and the abolition of mandatory retirement means that a number of generations will be working side by side with each other. With globalization and the greater mobility of workers around the world, racial/ethnic minorities will soon account for one in three working Canadians in the not-too-distant future. A number of organizations have already realized the importance of all Canadians irrespective of gender, age, race/ethnicity, sexual orientation, religion and other dimensions of diversity in order to remain competitive on the global stage. This course will explore the opportunities and challenges of working in and managing diverse and inclusive workplaces.

39 Hours  Fee: $561

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12
Winter 2014
Distance: Internet Jan 11-Apr 12
Spring/Summer 2014
Distance: Internet May 3-Jul 26

For information on distance education, visit www ryerson ca/ce de.

★ Recruitment and Selection (Staffing)
CMHR 623
Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry
This course builds on the knowledge gained in MHR 523. It is designed to develop the student’s knowledge, skills, and abilities in three significant integrated Human Resource areas: job analysis, recruitment, and selection. Students will interview an HR professional; write a job description and job specifications; investigate recruitment strategies and develop a job advertisement; examine various selection tools; and practice interviewing simulated job applicants. The course uses an experiential learning design, and students have opportunities to practice skills that are central to effective hiring decisions.

39 Hours  Fee: $561

Monday 18:00-21:00 May 5-Jun 18

For information on distance education, visit www ryerson ca/ce de.

★ Special Topics in Org Behav and HR Mgmt
CMHR 670
Prerequisite(s): CMHR 405 and CMHR 523
This course provides students with the opportunity to pursue advanced studies on issues and themes of immediate and current significance in the fields of Organizational Behaviour and Human Resources Management. It allows students to access leading-edge research and to explore new and emerging models of practice. The particular theme, topic, and structure of the course will vary in response to changes and trends in the field, availability of specialists, and student interest.

39 Hours  Fee: $561

★ Leadership
CMHR 640
Prerequisite(s): CMHR 405 or HTH 601
This course combines theory and practice by providing both a detailed overview of theories of leadership and an introduction to practical leadership techniques and group-level interpersonal skills for managers and supervisors. The course extends knowledge of leadership by building on the foundation of the leadership material provided in other organizational behaviour courses.

39 Hours  Fee: $627

Fall 2013
Distance: Internet Sep 7-Dec 7
Monday 18:30-21:30 Sep 9-Dec 9

★ Management of Change
CMHR 650
Prerequisite(s): CMHR 405 or HTH 601
This course will build on an understanding of organizational behaviour, and will focus on an understanding of change agents within organizations. By applying basic organizational behaviour and organizational theory concepts to change management, the course will explore forces for change, resistance to change, management of change, new theories and methods of change, and innovation and leadership in organizations. The course includes some emphasis on the implementation of information technology, and combines theory with practice.

39 Hours  Fee: $561

Fall 2013
Distance: Internet Sep 7-Dec 7
Winter 2014

★ Human Resources Information Systems
CMHR 671
Prerequisite(s): CMHR 523 or Direct Entry and (CITM 100 or CITM 102)
Human resources (HR) professionals are responsible for managing the organization’s key assets - human capital. Business information technology is pervasive in today’s organizations, and HR professionals are relying on human resources information systems (HRIS) to help them support strategic HR management and deliver effective HR services. Today’s HR managers must understand not only HRIS applications such as e-cruiting and compensation, but also the strengths and limitations of the technology infrastructure as they work with technology professionals in establishing and using HRIS. (Not available to students with credit for MHR 670 in F2009 and F2010).

39 Hours  Fee: $561

For the most current information, see our website at www ryerson ca/ce.

*Classroom/Internet class, in-class sessions are a mandatory component.
Prerequisite(s): CMHR 405 or HTH 601

This course addresses the opportunities and dilemmas that managers face when working in multicultural and global environments. The course is designed to increase managers’ effectiveness in identifying, understanding, and managing the cultural components of management, recognizing cultural differences in managerial style, communicating across cultures, creating cultural synergy, managing globally competent people, entry/re-entry, managing ethically across cultures, and understanding, managing, and valuing diversity. Teaching methods include lectures, experiential exercises, group discussions, and audio/video presentations and cases.

Prerequisite(s): CMHR 523 or Direct Entry

CMHR 700

This course is designed to provide students with an introduction to the growing and changing field of Occupational Health and Safety Management. The multiple dimensions of the subject - technical, legislative, political, personal, and moral - will be covered. Topics will include: legislation, accident prevention, sickness, lateness and absenteeism, establishing corporate physical and mental health policies, practices and programs, monitoring of the workplace environment, and establishing industrial hygiene standards and corporate health and safety policies.

Prerequisite(s): CMHR 523 or Direct Entry

CMHR 711

CMHR 721

The primary objective of this course will be to explore the major concepts and theories of the psychology of negotiation and conflict resolution. A second objective is to enable students to apply these concepts and theories, through role-plays, class discussion and self-assessment, to analyze and adjust their negotiation and conflict styles to achieve better outcomes for themselves and others.

Prerequisite(s): CMHR 405 or HTH 601

CMHR 733

This course examines the theory and practice of the training and development function of human resources management in work organizations. Students will learn how to assess needs, set learning objectives, design learning activities, and evaluate program effectiveness through hands-on experience. Related topics include: learning theory, budgeting, alternatives to training, staffing and societal issues, and training.

Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry

CMHR 734

The development of interpersonal skills is a lifelong process which involves understanding oneself and other people. A manager’s success is highly dependent upon his or her self-awareness and ability to interact effectively with subordinates, superiors, peers. The course combines conceptual and experiential learning and strongly emphasizes skill practice and feedback. It moves from a focus on the management of self to a focus on the management of others, individually and in groups. Topics include: increasing self-awareness, supportive communication, understanding others, using power and influence successfully, dealing with conflict, and managing group dynamics. This course is intended for students who already possess a conceptual foundation in organizational behavior, who are seeking to learn more about themselves, and who want to enhance their interpersonal skills. (formerly MGT 741)

Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry

CMHR 749

This course provides theoretical and practical understanding in the development and administration of compensation systems. It examines the concepts and processes of rewarding employees, and focuses on major items of the compensation program, such as Job Evaluation, Compensation Surveys, Benefits and Services, Work Incentives, and Performance Appraisals. The course will also discuss some of the topical issues of Compensation Management such as Compensation for Managerial, Professional, and Exempt Employees, Government Guidelines and Regulations, and Compensation Information Systems. (formerly MGT 749).

Prerequisite(s): CMHR 405 or HTH 601

CMHR 841

At some stage along one’s career path the entrepreneur or manager will have to confront issues such as the changing global environment, mergers and acquisitions, technological advances and innovations, organizational politics, and conflict resolution. Organizations must change to accommodate these new internal and external contingencies. This course aims to provide students with an in-depth understanding of organizational structure and design in relationship to these issues. Topics include: organization environment, organic and mechanistic structures, the open system concept, impact of technology, global organization structures and contemporary approaches, management of innovation and change, organizational culture and ethical values, and organizational politics. (formerly MGT 841).
This course addresses the strategic human resource management activity of planning for future human resource requirements. The importance of aligning human resources planning with corporate and business strategies is emphasized, as well as preliminary needs for human resources information systems, job analysis, and environmental scanning. The course is centred around analysis and forecasting of the organization’s future demand for human resources, and future supply of human resources. Related topics include: succession planning, career management, outsourcing, downsizing, and mergers and acquisitions.

Prerequisite(s): (CMHR 523 or HTH 503 or Direct Entry) and three of (CMHR 405, CMHR 522, CMHR 600, CMHR 623, CMHR 711, CMHR 733, CMHR 749)

Organization Development (OD) is the system-wide application of behavioural science knowledge to the planned change of strategies, structures and processes in ways that engage organization members and lead to improvement of the human condition and organizational effectiveness. This is an upper level course that requires students to possess strong foundations in both organizational behaviour and change management. The course is highly experiential and includes a consulting project in which students, in small teams, conduct a comprehensive organizational diagnosis and make recommendations to improve the effectiveness of a local organization. The course also develops the student’s knowledge and competencies in intervention techniques such as OD contracting, process facilitation, team building and inter-group conflict resolution.

Prerequisite(s): CMHR 650

Health Informatics

Related certificate(s): Enterprise Architecture and Infrastructure Management (pg. 54), Health Informatics (pg. 79), Health Studies (pg. 83), Information Systems Management (pg. 89)

Introduction to Healthcare Human Computer Interface

Prerequisite(s): CMHR 849

This course will introduce the fundamental concepts of Human Computer Interface (HCI) design, usability issues, and integration within the healthcare delivery processes. Fundamentals of human interaction with computers including mental models, multimedia user interface, network-based interactions and visual design principles will be introduced. HCI in computerized physician order-entry systems, speech interfaces, computer-based tutoring systems for training health professionals, patient monitoring systems, information-retrieval systems and clinical decision-support systems will be analyzed.

Prerequisite(s): CMHR 849

For the most current information, see our website at www.ryerson.ca/ce/itm or www.ryerson.ca/ce/bsa.
Information Technology Management

A material fee of $10.50 is included in the total fee indicated for all CITM courses. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Please visit www.ryerson.ca/itm/cos.html for ITM course outlines. Related certificate(s): Accounting – Finance (pg. 22), Business Decision Analysis (pg. 34), Business Management (pg 36), Design Management (pg 46), Enterprise Architecture and Infrastructure Management (pg 54), Ethics (pg 59), Financial Management in Canada (pg 67), Health Informatics (pg 79), Information Systems Management (pg 89), Project Management (pg 119), Strategic Marketing (pg 138).

★ Computer-Enabled Problem Solving
CITM 207

The course covers the basic data representation and processing constructs necessary to problem solving using computers. This includes the development of algorithmic solutions to data processing problems through the use of workflow concepts such as sequence, selection, and iteration. In addition, the course address select fundamental problem solving strategies such as the decomposition of data processing problems into multiple tasks whose functions are coordinated within a specified workflow. Computer simulation and/or implementation tools will be used to provide hands on application of covered concepts using business problem solving examples.

Information Technology Management

Information systems are an integral part of all business activities and careers. This course is designed to introduce students to contemporary information systems and demonstrate how these systems are used throughout global organizations. The focus of this course will be on the key components of information systems - people, software, hardware, data, and communication technologies, and how these components can be integrated and managed to create competitive advantage. Through the knowledge of how IS provides a competitive advantage students will gain an understanding of how information is used in organizations and how IT enables improvement in quality, speed, and agility. This course also provides an introduction to systems and development concepts, technology acquisition, and various types of application software that have become prevalent or are emerging in modern organizations and society.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

★ Foundations of Programming
CITM 100

Antirequisite(s): ITM 277

Fundamentals of Programming
CITM 200

This course covers the fundamental principles of object-oriented, event-driven program design and implementation in a business environment. Emphasis will be placed on logic development, program design, modularity, structured programming standards, maintainability, testing and debugging. Specifically the course will include the following programming features: memory variables; object methods and properties; the logic constructs - sequence, branch, case and loops; simple arrays; basic file structures; validation and error handling. The course will be taught in a lecture and lab design where a GUI programming language will be used to reinforce the theoretical concepts taught in class.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

★ Business Information Systems I
CITM 102

Antirequisite(s): ITM 101 and ITM 277

This course introduces students to the role of information systems and technology strategy in the modern enterprise with a focus on helping users apply technology to achieve and maintain competitive advantage. Basic concepts include the use of systems to support business decision-making, computer hardware and software systems, networks, telecommunications, and e-business basics. Emphasis is on the development of critical thinking and analytical skills through the exploration of real-life business system applications, case studies, and a research project. During the lab component, this course also provides students with a hands-on introduction to basic Microsoft Office computer applications including MS-Access and Excel. Upon completion of this course, students should have the generic computer skills they will need for academic, personal and business success.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

★ Managerial Decision Making
CITM 107

The course emphasizes how to apply various mathematical techniques in the support of managerial decisions in the various functional areas of business. Topics covered include: Review of basic algebra (including linear, quadratic and other special functions), matrices, inequalities and linear programming, exponential and logarithmic functions, mathematics of finance, functions, limits and derivative, derivatives and applications. Students will be required to use an appropriate computer software (e.g. EXCEL) and/or a calculator to analyze and solve business quantitative problems.

This course provides an introduction to computer hardware/software and communication networks. It gives the students the knowledge and skills that they need for communicating effectively with professionals whose special focus is on hardware and systems software technology and for designing organizational processes and software solutions that require in-depth understanding of the IT infrastructure capabilities and limitations. It also prepares the students for organizational roles that require interaction with external vendors of IT infrastructure components and solutions.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

| **CITM 305** |
| Systems Analysis and Design |
| **Prerequisite(s):** CITM 100 and CITM 207 |

The course covers the key concepts, techniques, and methodologies relevant to the process of developing information systems (IS). The course focuses on the development of requirements, analysis, and design models of the system to be. The specifications of these models are done using the Unified Modeling Language (UML). In addition, the course provides a contextual coverage of the system development life cycle and select concepts of IS construction, deployment and project management respectively.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

| **CITM 315** |
| Network Administration |
| **Prerequisite(s):** CITM 301 or ITM 310 or Direct Entry |

Servers and networks provide the foundation for information handling in businesses and organizations throughout the world. Effective network management plays a vital role in ensuring that this foundation is sound. In this course, students will learn concepts and practice hands-on skills related to network administration by exploring a popular server operating system.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

This course deals with enterprise wide integrated systems, and process thinking as a key element in business restructuring. Many key business applications are now implemented using comprehensive and complex enterprise software. The concepts, structure, benefits and problems of enterprise solutions are examined from a business perspective as well as from a technical Information Technology perspective.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

This course introduces the student to the business aspects of the Internet and the specific applications of eBusiness. It covers the technical, social and business changes that are taking place to make eBusiness fundamental to today’s business activities. Through an examination of these changes it will identify the emerging opportunities and review how to develop business strategies and architectures to capture these opportunities. It will also examine the nature of products and services on the Internet, as well as payment systems and electronic funds transfer.

| **CITM 360** |
| Establishing an eBusiness Operation |
| **Prerequisite(s):** CITM 350 |

This course will take students through the various steps needed to set up an electronic commerce operation. Focusing on electronic businesses, the course teaches strategic thinking and essential business skills that apply to all types of businesses. Students will develop a business plan and strategy for an electronic business, and will learn how to design, source and implement the necessary systems and computer facilities to put the business plan into operation. It will examine the links between back office and front office operations as well as the services available to help the set up of virtual businesses.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

- **Course Outline**

This course introduces the principles of business process design for performance improvement. A systematic approach is used to teach students how to develop the design requirements for new business process architectures. Emphasis is placed on how to evaluate business process problems, analyze and design business processes to ensure organizational efficiency and effectiveness when new technologies are implemented. Opportunities for process improvement are based on the business strategy, the value proposition, improvement objectives of the organization, and the implementation of off-the-shelf software systems (e.g., ERP, CRM, SRM). This course is intended to develop students' understanding of, and competence in the use of appropriate methods, tools and techniques of process analysis and design for organizational improvement. To ensure the development of the necessary competencies, students will work on a case study and use state-of-the-art business process frameworks, analysis and design methodologies and appropriate software tools to analyze, simulate and design the business process solutions.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

- **Course Outline**

This course builds on ITM 305 and is intended to provide students with skills and competencies necessary for technical design, implementation and testing of business applications in O-O technologies. This course is based on the Object Oriented Model Driven Architecture method of system development. The UML Modelling Language will be used along with O-O software tools such as Enterprise Architecture and MDG Link to ensure platform independent designs. This course includes a design and development project in which students will implement and test a business application in O-O technologies.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

- **Course Outline**

This course provides an overview of decision analysis topics important to developing solutions to business problems. This course will take a problem-driven approach to developing students' skills in applying decision trees, expected value analysis, single- and multiple-attribute decisions, sensitivity analysis, and linear programming applied to real-world problems. Students will be required to do problem formulation, develop applications and implement problem solutions using industry-standard software tools.
This course is intended to provide students with an understanding of the critical importance of Information and Communication Technology (ICT) in today’s business environment, and the strategic, tactical, and operational management processes associated with it; current industry issues and trends; tools and techniques needed to manage ICT, including an introduction to governance, and security and privacy issues; and an understanding of the human and organizational issues of ICT management. Teaching/learning methods include lectures, case analyses, and in-class presentations by students with feed-back on content and style.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

Tuesday 18:30-21:30 May 6-Aug 5

Advanced Infrastructure Deployment and Management
Prerequisite(s): CITM 600

This course builds upon the network design concepts that were introduced in ITM 600. This course focuses on understanding industry best practices in the design and deployment of TCP/IP based networks. Specific topics such as: subnetting, route aggregation, IPv6, interior and exterior routing protocols (RIP, OSPF, EIGRP, MPLS, and BGP), and the selection of IP routing protocols will be presented. Other issues such as the deployment of VPN’s (Virtual Private Networks) reliability and scalability issues may also be covered depending on the students’ interests and the time available.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours  Fee: $683

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15

Auditing of Information Systems
Prerequisite(s): CITM 521 and CITM 596 or CITM 505 or Direct Entry

This course is designed to enhance the student’s understanding of audit risks and control risks relevant to audits in computerized environments. The course addresses the implementation and evaluation of security and controls in these environments; the techniques necessary to perform external EDP audits; auditing using CAATs; basic considerations in auditing EDI systems; and, audit and control issues associated with e-commerce, networks, VPNs and continuous auditing. The course will focus on auditing of Information Systems, which produce internal and external reports. Students will be introduced to audit approaches, computer risks, concerns related to internal controls and techniques for evaluating systems and business processes. Students will also be able to assess the integrity of data used in various management reports.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours  Fee: $683

Data Communications Network Design
Prerequisite(s): CITM 301 or Direct Entry

This course will provide students with an understanding of how telecommunications networks are designed and deployed to support e-commerce, multimedia and web-centric business applications. Network planning concepts, network analysis, network design tools and techniques are introduced. The objective of this course is to understand the design and analysis of data communications networks through the introduction of case studies and practical network design methodologies. Also an understanding of the application, deployment and benefits of industry standard architectures including: TCP/IP, VoIP, SONET, Gigabit Ethernet, 3G and other emerging standards will be provided.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours  Fee: $735

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Monday 18:30-21:30 May 5-Aug 18

Advanced Business Process Methods
Prerequisite(s): CITM 410 and CITM 501

This course builds on the basic principles of business process analysis and design of ITM410. The focus of this course is on applying the Theory of Constraints to the analysis of business process performance. Students learn how to apply advance techniques from ITM501 for business process analysis and improvement of performance. Emphasis is placed on how to evaluate business process problems, analyze and design business processes to ensure organizational efficiency and effectiveness when new technologies are implemented. Opportunities for process improvement are based on the business strategy, the value proposition, and improvement objectives of the organization. This course is intended to further develop students’ understanding and competence in the use of appropriate methods, tools and techniques for analysis design and business process performance improvement. To ensure the development of the necessary competencies, students will work on case studies and use state-of-the-art process analysis techniques and appropriate software tools to analyze, simulate and design solutions to a range of business process problems.

39 Hours  Fee: $683

Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14
Spring/Summer 2014
Thursday 18:30-21:30 May 8-Jul 31

Client Server Applications
Prerequisite(s): CITM 500

This course covers the concepts and applications of the client/server architectural model for web-enabled data centric information systems, including E-Commerce enterprise systems. The course emphasizes the principles and techniques necessary for the appropriate integration of the web-enabled front-end layer of the system with its business logic counterpart and its backend database. The course may include the use of the .NET development framework along with the VB.NET language and the MS SQL database server.

Note: This is the last offering of this course.

39 Hours  Fee: $683

Fall 2013
Friday 18:30-21:30 Sep 13-Dec 13
This course covers the Database Administration (DBA) role for large-scale relational databases. It specifically will deal with the following: the approach to the installation and upgrading of software and utilities; techniques for the allocation of the database to physical devices and directories; the creation of user authorities and controlling access to data and resources; management of data storage; analyzing database performance and implementing procedures for optimizing performance; procedures for the backup and recovery operations.

Note: This is the last offering of this course.

Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours Fee: $683

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15

Knowledge Management/Learning Technologies

Prerequisite(s): CITM 500
Antirequisite(s): ITM 703

Knowledge is a powerful asset in an organization and a prime contributor to an organization’s success. This course will examine how to identify, leverage and nurture the knowledge assets in an organization to contribute to the business strategy and enable its success. It will cover the basic concepts and practices of knowledge management from an organizational learning, content management and cultural perspective and investigate some of the enabling technologies to support knowledge acquisition, sharing and utilization. Topics will include: understanding today’s knowledge economy and knowledge workers; developing a knowledge management strategy; differentiating knowledge from information; measuring value; selecting and implementing knowledge management systems. Case studies will be a critical part of this course. Students will gain hands-on experience in the use of one or more knowledge management tools.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours Fee: $683

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10

Information Services Architecture

Prerequisite(s): CITM 410

This is an advanced foundational course on information architecture of organizations. This course takes a services oriented approach to organizational analysis and information architecture definition from business strategy to infrastructure. A major case study will be required in which students will analyze a business service strategy and develop the process and infrastructure components for the delivery of that service. Students are expected to have an in-depth understanding of business strategy and business process analysis and modeling.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours Fee: $683

Not offered in fall/winter/spring 2013-2014.

Physical Database Design and Implementation

Prerequisite(s): CITM 500 or Direct Entry

This course covers aspects of the physical design, implementation and database performance analysis for business applications. Students will learn to develop physical database requirements from Logical Designs, and to analyze query processing performance of the physical implementations. In addition to weekly labs the course will include a design project which will help students to develop competence with standard database definition (DDL/SQL) and procedural languages (PL/SQL) for defining physical schemas and developing stored procedures, triggers and user functions. The course will utilize state of the art database design tools and relational database software.  

39 Hours Fee: $760

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Accounting Information Systems

Prerequisite(s): CITM 102 or Direct Entry

Most people are affected by computer-based systems. The students will be involved in the management of computing resources and information such that business problems can be dealt with effectively. This course will focus on the use of information and computing resources in the business community. This will enable students to create their own business information systems or participate with others in the analysis and design of solutions for corporate business problems.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours Fee: $683

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11

Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16

Monday & Wednesday 18:30-21:30 Jun 23-Aug 11

Wireless and Mobile Communications

Prerequisite(s): CITM 600
Antirequisite(s): ITM 805

This course explores the concepts and applications of wireless technologies and systems, and how mobile and wireless communications hardware, software and network technologies are applied within a business environment. This course provides an understanding of complex wireless and mobile systems by exploring the individual components that are used to build these systems. These include network management, integration of wireless and wireline networks, system support for mobility, computing system architectures for wireless nodes, user interfaces appropriate for small handheld portable devices, and new applications that can exploit mobility and location information.

Note: Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at www.ryerson.ca/itm/current/cos.html.

39 Hours Fee: $683

Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14
### COURSES

#### INFORMATION TECHNOLOGY MANAGEMENT FOR BUSINESS

**Consulting Skills for IT Professionals**

**Prerequisite(s):** CITM 505 and CITM 750

Whether an internal or external consultant to an organization, IT professionals need well developed consulting skills. This course will examine the consulting industry, consulting firms and consulting process models as they apply to various types of IT consulting engagements. Students will study real life consulting projects with practitioners in order to explore consulting skills, roles, skills and services and how they apply to IT projects. Students will also carry out self-assessment and career planning activities to determine their fit to a consulting career and how to explore careers in the industry. Much of the course is taught through classroom exercises and simulations, requiring pre-class preparation and active participation. This course will be relevant to students who anticipate being external or internal consultants.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

#### Switching and Routing Laboratory

**Prerequisite(s):** CITM 513 and CITM 600

This course will provide students with comprehensive but practical knowledge needed to configure routers and switches for both local and wide area networks. Students will learn the principles needed to utilize bandwidth more effectively and to enhance security and privacy. Students will be introduced to the tools and methodologies needed to design, debug and troubleshoot networks. Labs will include configuring routers using link protocols and learning how to link ISPs. Students will be able to plan and implement IP addressing schemes; and configure and verify routing protocols.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

#### IT Project Management

**Prerequisite(s):** CITM 305 or Direct Entry

This course provides students with a more in-depth understanding of the tools and techniques of project management as it applies to IT-enabled process improvement projects. The ability to plan and execute projects successfully is consistently ranked among the most important skills among information technology professionals. The course is based on the industry-standard Project Management Body of Knowledge (PMBOK) and provides cutting-edge techniques for project planning, scheduling, budgeting, human resources, quality, procurement, communication, and risk management.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

### Applied Feasibility Analysis

**Prerequisite(s):** CITM 700

This course examines the methodologies and tools necessary for successful planning, evaluation and implementation of information technology. Emphasis will be placed on further developing the skills learned in ITM 700 to identify opportunities to increase the effectiveness and/or efficiency of a business unit’s operations, to increase its competitive edge, or to enhance the deployment of human and/or information resources in a corporation. Building on the industry and company analysis project from ITM 700, student teams will conduct a feasibility study within a real client organization to develop or redesign a business process or information system. The study will identify organizational issues related to introducing new technologies, design required process changes, establish business case justification and provide an implementation plan for the recommended solution.

**Note:** Standard course outlines for Information Technology Management (CITM) courses are available on the ITM website at [www.ryerson.ca/itm/current/cos.html](http://www.ryerson.ca/itm/current/cos.html).

Infrastructure asset management is a field in high demand, as much of our infrastructure is in need of renewal. Good infrastructure asset managers are required to achieve sustainable outcomes by applying holistic, systematic, and risk-based analyses and processes to decisions concerning an organization’s or government’s physical assets, including fixed plant and mobile equipment along with infrastructure.

**Infrastructure Asset Management**

Infrastructure asset management is geared toward the strategic knowledge and hands-on skills required for analyzing problems and providing long-range solutions associated with evaluation, preservation, rehabilitation and renewal of existing structures, together with repair materials, strategies, and risk, fiscal and asset management oversight. Infrastructures needing management during their repair, renewal, and maintenance cycles include roads, airports, railroads, transit systems, tunnels, water systems, levees, canals, dikes, solid waste, broadband, and public spaces. Related certificate(s): Infrastructure Asset Management and Renewal (pg. 91)

**Infrastructure Asset Management Fundamentals**

This course presents the basic principles and procedures involved in the introduction of an infrastructure asset management system and the implementation considerations of infrastructure asset management. It will provide participants with a broad understanding of how their organizations can benefit from optimal infrastructure asset management systems. It discusses the establishment of a framework; assessment of resources required; preparation, implementation, and monitoring of plans; and links with other elements of the organization. It focuses on the basic infrastructure asset management plan template, preparation steps, continuous improvement, and implementation. It also covers issues such as levels of service, condition assessment, and risk management.

**Infrastructure Asset Financial Management and Practices**

This course examines the ideologies of financial planning and reporting, as well as the tools and techniques used in infrastructure asset management. It covers the processes for lifecycle costing, valuation, financial forecasting, and reporting. It also provides an overview of issues and methodologies associated with asset assessment and financial forecasting standards, guidelines, and legislation. Related theories are explained and useful case studies presenting the application of solution-driven decision-making to practical infrastructure asset management problems are examined.

**Engineering Risk Management**

This course provides an overview of engineering risk management techniques in infrastructure asset management and renewal. It develops the participant’s capability to identify, assess, improve, and limit risk in the management and practice of engineering through the application of concepts and tools of risk engineering. Several concepts will be introduced, including the semantics of risk and hazard; risk as a social construct; principles of risk management; risk engineering; integrating risk controls within the engineering process; risk perception, communication, and acceptability; legal principles relating to engineering risks; risk identification and assessment; hierarchy of risk control; risk benefit analysis; positive risk; and quantitative and qualitative risk assessment methods. Systematic and structured hazard identification techniques and examples in infrastructure renewal are introduced.

**Infrastructure Asset Evaluation and Rehabilitation**

This course examines the rehabilitation of civil infrastructure systems, including aspects of deterioration science, non-destructive assessment, maintenance, renovation, rehabilitation and preservation; mechanisms of mechanical, chemical, and biological infrastructure degradation; corrosion of steel condition surveys, evaluation of buildings and bridges repair, and preservation materials, techniques, and strategies; renewal engineering, construction planning, management, public policy, codes, and guidelines; and case studies. Defects and problems relating to safety and damage caused by external factors are described, as well as maintenance challenges, management issues, and resolving emerged problems. Participants engage in hands-on activities that build systems-independent process knowledge and skills.
Infrastructure Project Evaluation

This capstone course provides students with fundamental knowledge about project evaluation, particularly investment decisions and financial considerations within infrastructure organizations. It provides understanding of how a cost benefit analysis of a capital project is scoped, including cases to be analyzed, relationships between those cases, and the degree of analytical effort required in a cost benefit analysis. The determining of discount rates for the purpose of project evaluation and the sensitivity of project evaluation outcome to changes in the discount rate are also covered, as well as calculation of benefits and costs. Examination of the decision-making process includes economic project selection, how cost benefit analysis can be complemented by other forms of analysis, and how regional and national impacts are considered in project evaluation. Models and processes for carrying out cost benefit analyses are analyzed, and pavement lifecycle costing and maintenance evaluation and optimization are discussed.

39 Hours  Fee: $755

INTERDISCIPLINARY STUDIES

In the professional world of community services, no discipline or profession operates in isolation. The following courses, many of which are available by distance education, will develop your understanding of issues faced in the field from an interdisciplinary perspective. They will provide the knowledge and skills you need to work effectively across professional and disciplinary boundaries. For more information, visit www.ryerson.ca/ce/interdisciplinary.

Interdisciplinary Studies

Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg. 24), Community Engagement, Leadership, and Development (pg. 38), Demographic Analysis (pg. 44), Ethics (pg. 59), Family Supports (pg. 63), Food Security (pg. 71), Fundraising Management (pg. 73), Gerontology (pg. 75), Health Studies (pg. 83), Nursing Leadership and Management, Advanced (pg. 109), Project Management (pg. 119)

★ Program Planning and Evaluation Strategies

This course will examine methods of program planning and evaluation that are applicable to health promotion practice. Students will study frameworks for planning human service programs and how evaluation is used for assessment of program effectiveness, for improvement of programs and for guiding resource allocation and policy development. (Formerly IST 900.)

39 Hours  Fee: $563

Fall 2013
Distance: Internet  18:30-21:30  Sep 7-Dec 7
Wednesday  Sep 11-Dec 11

Winter 2014
Distance: Internet  18:30-21:30  Jan 11-Apr 12
Wednesday  Jan 15-Apr 16

For information on distance education, visit www.ryerson.ca/ce/de.

★ Gerontology: Critical Issues and Future Trends

This course will assess the influence of Canadian and world demographic trends on the community services for the elderly; assess the influence of recent Canadian research in the field of aging on the community services of the future; examine innovative and traditional programs administered both by government and private agencies in the Western industrial countries and evaluate their relevance for Canada. (Formerly IST 901.)

39 Hours  Fee: $563

Fall 2013
Distance: Internet  Sep 7-Dec 7

Winter 2014
Distance: Internet  Jan 11-Apr 12

Spring/Summer 2014
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

★ Disability Issues

This course examines disability issues within a socio-political context. Such a perspective contends that it is not the specific type of disability condition which is the major source of disadvantage to the individual but the response that this condition evokes from the larger society. This course will challenge some of the traditional (and damaging) assumptions made about the needs of people labelled as being disabled and will present a framework for policy and practice designed to promote empowerment and inclusion. (Formerly IST 902.)

39 Hours  Fee: $559

Fall 2013
Distance: Internet  Sep 7-Dec 7

Winter 2014
Distance: Internet  Jan 11-Apr 12

Spring/Summer 2014
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.
★ Health Promotion and Community Development  

Students will be introduced to the history and development of health promotion and will examine health determinants from environmental, cross-cultural, psychosocial and biological perspectives. The focus will be on the exploration of health promotion strategies which incorporate community development, popular education and social marketing models. (Formerly IST 904.)

★ Conflict Resolution in Community Services  

Antirequisite(s): CINP 914, CSWP 924

Professionals in a wide range of disciplines are likely to encounter situations which are fraught with conflict, whether the issue is dealing with community opposition to the development of a new facility, developing environmental standards, allocating limited resources to meet emerging societal needs or dealing with the conflicting demands and expectations of different stakeholders. This course is designed to enable students to develop consensus-building strategies that produce agreements that everyone can live with. The course utilizes case materials and examples drawn from different disciplines. (Formerly IST 905.)

★ Sexuality; Power and Pleasure  

This survey course examines the societal basis of attitudes and behaviours related to human sexuality. Students will be introduced to research and theoretical concepts in the literature that contributes to our understanding of sexuality. Sexuality is recognized as a complex and multi-dimensional component of human identity and experience, mediated and influenced by social constructs of gender, race, ethnicity, disability, sexual orientation, age and socio-economic opportunities. The course promotes critical self and social consciousness through challenging sex-negative religious traditions, institutional regulation/control of sexuality, and gender socialization including patriarchal family structure. Some of the topics to be considered are sexuality across the life course; sexuality and liberation; intimacy, love and relationships; sex and gender role socialization; sex, violence and the law, sex as a commodity and AIDS and sexual behaviour. (Formerly IST 906.)

★ First Nations Issues  

Ogitchita Luwathiilhunyuni (First Nations translation: strong helper’s hands). This course offers students an interdisciplinary approach to understanding the origins of issues confronting contemporary Aboriginal peoples. To appreciate the process of Aboriginal self-determination, a holistic approach guides the examination of community services and infrastructure responsive to the needs of First Nations’ communities. (Formerly IST 910.)

Course series
**International Community Development**  
This course will introduce the student to the challenges of sustainable community development in the developing world. The course begins with a broad exploration of the meaning of development and under-development and its relevance to Asia, Latin America, Africa and the Middle East today. This course will also explore various approaches which have been used in local, bottom-up developments as well as some tools which are now available to assist the community development facilitator. (Formerly IST 911.)

39 Hours  Fee: $563

**Spring/Summer 2014**  
Tuesday–Saturday** 8:30-8:00  Feb 18-Feb 22

**Note:** This course will run during the Winter break.

**International Community Development**  
This course will examine the settlement processes experienced by new immigrants and refugees. The course discusses the different forms of resettlement, reception, repatriation, social capital and human capital. It will also discuss the theoretical approaches to citizenship, nationalism and multiculturalism. The course introduces the intersection of race, gender, class and citizenship. It reviews current debates regarding settlement policies and services provided to different classes of immigrants.

39 Hours  Fee: $563

**Winter 2014**  
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

**Community Development: International Field Experience**  
This course provides an opportunity for students to deepen their understanding of development issues, and to experience part of their learning in an interdisciplinary, international, and intercultural setting. Following a brief in-class orientation at Ryerson, the field experience part of the course is held overseas. Canadian students will work with students from the host country on specific projects relevant to community development in that country. The country and projects selected may vary from year to year.

Note: Students seeking admission to this course are required to submit an application form.

39 Hours  Fee: $575

**Spring/Summer 2014**  
TBA

**Issues of Migration**  
This course examines the main concepts and issues in contemporary migration studies by employing historical and international perspectives. The course will examine the Canadian response and the evolution of a post-war system implemented to deal with refugees and immigrants. Case studies of immigrants to Canada and to other parts of the world are used to illustrate theoretical concepts and to promote an understanding of the contextual nature of contemporary migration processes. Comparisons with other societies such as Australia, the United States and to the European Union will be discussed. The course will use a critical social sciences approach to address the implications of the North-South, and South-South relationships in the creation of refugees and immigrant populations.

39 Hours  Fee: $563

Fall 2013  
Distance: Internet  Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

**Settlement Experiences**  
This course examines the settlement processes experienced by new immigrants and refugees. The course discusses the different forms of resettlement, reception, repatriation, social capital and human capital. It will also discuss the theoretical approaches to citizenship, nationalism and multiculturalism. The course introduces the intersection of race, gender, class and citizenship. It reviews current debates regarding settlement policies and services provided to different classes of immigrants.

39 Hours  Fee: $563

Winter 2014  
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

**Responses to Migration**  
The focus of the course will be on the determinants of responses to migrants and migration through an examination of topics including racism, the media, legal status, services available to newcomers, education and credential recognition, and issues of housing discrimination. The goals of this course are to familiarize students with factors known to contribute to negative or positive responses to migrants and migration. In addition students will learn to apply these factors to important practical issues in a critical and reflective manner such as understanding trends over time in migration attitudes and looking at present strategies that may be utilized to improve responses to migrants and migration.

39 Hours  Fee: $563

**Spring/Summer 2014**  
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

**Introduction to Fundraising**  
This course provides a view of the Canadian voluntary sector and its organizations, as well as an introduction to concepts and issues related to the practice of fund development. This comprehensive overview also acts as a knowledge base for subsequent, in-depth study of the various aspects of fund development. The concept of philanthropy and various fund development approaches will be explored.

39 Hours  Fee: $563

**Urban Community Development**  
Urban Community Development is a course designed to offer participants an opportunity to engage in interdisciplinary teams involved in community projects. Working under the supervision of a Ryerson faculty member and a professional community developer, students assist a community group or agency to gather information, analyze data and attempt to generate solutions. As part of their project work, students present their findings to the community centre as well as to the appropriate citizen groups or public at large. Field work occurs during the month of May.

Note: Seven mandatory evening sessions (18:00-20:00) take place between October and March. Nights are chosen based on student availability where possible. These classes are followed by 12 days in the community during May.

39 Hours  Fee: $563

**Spring/Summer 2014**  
TBA

For information on distance education, visit www.ryerson.ca/ce/de.

**Community Collaborations**  
This interdisciplinary course will assist students and practitioners to develop the knowledge and skills required to participate effectively in multi-sectoral community collaborations. The course will provide an overview of collaboration and will review common challenges and factors influencing success. Collaborative processes will be examined including community engagement and mobilization, outcomes-based strategic planning, implementation of strategies and sustaining momentum, governance, leadership, communications, and evaluation. Examples will be provided of community collaborations focused on improving outcomes for children, youth and families.

39 Hours  Fee: $563

**Fall 2013**  
Distance: Internet  Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

Writing for Disability Activism CINT 921
This is an applied writing course: you will write and think critically about writing. This is also an interdisciplinary course which means you will work with other learners across a range of disciplines and learn from and about a range of disciplines. Starting with writing from within the disability movement, we will introduce you to writing as a form of expression, inquiry, resistance, solidarity, and survival. We will draw on readings and examples from different disciplines and explore how writing changes depending on the disciplinary context. We welcome experienced and novice writers. Students should be interested in writing and social change.

INTERIOR DESIGN
Professional interior designers make the most of the places where we live, work, and play. Using colour, space allocation, acoustics, illumination, patterns, and textures, they create beauty and functionality. Their services are needed in every imaginable interior setting – from corporate offices and shopping centres to restaurants, hotels, hospitals, and residences. If you would like to learn more about this fascinating field, then these courses may be for you.

Interior Design
Related certificate(s): Design for Arts and Entertainment (pg. 45), Design Management (pg. 46), Interior Design, Fundamentals of (pg. 92)

Design Theory CDID 150
This is an introductory course that focuses on the multiple disciplines and concepts that impact the foundation of design at both a micro and macro level. Students will be introduced to the basic elements and principles that demonstrate visual organization and provide the tools for analyzing and synthesizing the application of design. This course will provide the theoretical underpinnings that allow students to creatively apply knowledge to both two- and three-dimensional design assignments and projects. In addition, the course may include field trips, collaborative and individual assignments, and in-class studio/lab work.

39 Hours Fee: $667

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11
Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16
Spring/Summer 2014
Monday & Wednesday 18:00-21:00 May 5-Jun 18

Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students after the first class. Cost approximately $120. Required text: Art Fundamentals Theory and Practice, cost approximately $95.

Interior Design I: Drafting CDID 151
Prerequisite(s): CDID 150
The first of a series of courses providing an introduction to four primary performance objectives which relate to drafting, planning and research, professional ethics, and the sensory environment. The focus of this course is visual communication to provide the student with a foundation in manual drafting practices through a series of drawing exercises relating to small scale residential interior spaces. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRN 100 and IRN 200.

Note: Students with a suitable portfolio may be admitted to this course upon approval of the program department; see Open House (page 6).

39 Hours Fee: $575

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15
Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

Supplies and materials to be purchased by the student: A list of materials and equipment required will be given to students after the first class. Cost approximately $200-$225.

Interior Design I: Space Planning CDID 152
Prerequisite(s): CDID 151
This course introduces the analytic and problem-solving skills relating to space planning of small-scale residential interior spaces and sequences that function effectively for people using them. Visual communication using manual drafting practices learned in CDID 151 is applied to interior design studio exercises. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRN 100 and IRN 200.

Note: Students with a suitable portfolio may be admitted to this course upon approval of the program department; see Open House (page 6).

“Interior Finishing” introduces the principles, regulations, standards,

systems, materials, and details of standard residential and commercial floor, wall and ceiling surface treatments, millwork and textiles, and the finishes applied to them. Fire rating, VOC (volatile organic compound) emissions and sustainable design are introduced.

39 Hours  Fee: $593

Fall 2013

Monday 18:30-21:30  Sep 9-Dec 9

★ Design Dynamics I: Portfolio 1

Prerequisite(s): CDID 150

Two-dimensional design problems introduce the student to the concept of spatial illusion; how line shape, texture value, and colour can be manipulated to create the illusion of space. Building on skills developed in the first project, students will explore colour and typography as a source of visual inspiration, and through a series of transformations will explore the projection of 2-D images into 3-D reality. CDID 155, combined with CDID 156, CDID 255, and CDID 256, is equivalent to IRD 100 and IRD 200.

39 Hours  Fee: $575

Fall 2013

Tuesday 18:30-21:30  Sep 10-Dec 10

Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students after the first class. Cost approximately $180.

★ Kitchen and Bathroom Design

Prerequisite(s): CDID 151

Kitchens and baths are essential to everyday living; they need to be designed so that they function as well as they look. Students will explore the specific requirements associated with kitchen and bath design. With an emphasis on the design process, this course covers the design of efficient and aesthetic kitchens and baths, including space considerations, equipment, current trends in materials, as well as human factors.

39 Hours  Fee: $584

Spring/Summer 2014

Tuesday & Thursday 18:30-21:30  Jun 24-Aug 7

★ Interior Design I: Orientation (Sensory)

Prerequisite(s): CDID 151 and CDID 152

Part 1 - This course segment, through a series of lectures and site visits, introduces the student to the interior design practitioner's workplace and the ethics and standards of behaviour which prevail in the Association of Registered Interior Designers of Ontario (ARIDO).

Part 2 - The foundation in architectural drawing conventions and standards, and space planning introduced in CDID 151 and CDID 152 is applied to studio exercises which explore the interior sensory environment in terms of lighting and acoustics. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRN 100 and IRN 200.

39 Hours  Fee: $575

Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $150.

★ Interior Design I: Research Methods

Prerequisite(s): CDID 151, CDID 152, and CDID 251

This course teaches the student to use systematic research methods to identify critical issues, gather information and data, analyze, synthesize, and draw reasoned defensible conclusions as a basis for design decisions. The course brings together the knowledge gained in the series of previous courses and requires the student to creatively design a residential environment for a specific client in plan and presentation forms. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRN 100 and IRN 200.

39 Hours  Fee: $575

Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $150.

★ Interior Design I: Portfolio 3

Prerequisite(s): CDID 155 and CDID 156

Three-dimensional projects introduce students to the interior design workshop, and to problem-solving in the third dimension. Projects will include the construction of jigs, woodworking and joining to create linear planar structures, as well as additive and subtractive sculptural techniques in the development of low relief sculptural forms. CDID 155, combined with CDID 156, CDID 255, and CDID 256, is equivalent to IRD 100 and IRD 200.

39 Hours  Fee: $575

Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $120.

★ Design Dynamics I: Capstone

Prerequisite(s): CDID 155, CDID 156, and CDID 255

Students undertake a major design project that will be a synthesis of all the skills and knowledge acquired in all the courses. The project work will require students to ideate, conceptualize, and construct a space that involves human scale and interaction. The major project will culminate in an oral presentation of the student’s solution from initial concept, development, three-dimensional projection, applied two-dimensional design, thematic colour development, and the practical utilization of space. CDID 155, combined with CDID 176, CDID 255, and CDID 256 is equivalent to IRD 100 and IRD 200.

39 Hours  Fee: $575

Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $150.

★ Communications I

Prerequisite(s): CDID 152

This course develops skills in design communication and knowledge of basic computer applications used in the Interior Design program and profession. (Formerly IRC 102).

52 Hours  Fee: $581

Winter 2014

Wednesday 18:00-22:00  Jan 15-Apr 16

★ Communications II

Prerequisite(s): CDID 152

This course is a first in a series in design communication for interior designers that develops freehand drawing skills, including perspectives and rendering methods using various media. (Formerly IRC 103).
© History of Design I  
Prerequisite(s): RH 202 or RH 115  
CIRH 101  
Antiquity to the Eighteenth Century. This course examines the history of design in pre-Modern culture. It investigates the relationship between the fine and applied arts in aesthetic, practical, theoretical, social and global contexts.

39 Hours  
Fee: $575

© History of Design II  
Prerequisite(s): CIRH 101  
This course explores the meanings of Modernism. Emphasis is placed on the influence of industrialization and consequent changes in materials and technique, in the search for design paradigms appropriate to the social structure and ideals of the modern world.

39 Hours  
Fee: $575

© Intro to World Art I: Pictorial Arts  
CIRL 100  
This is an introduction to the study of art history from a cross-cultural perspective. The function of the pictorial arts (principally painting and sculpture) within religious, social and economic systems will be the primary focus of study. Students will be introduced to the diversity of artistic expression from across the globe and throughout history while they learn the fundamental principles and aims of pictorial expression and formal analysis. (UL)

39 Hours  
Fee: $581

© Contemp Art and Art of the Recent Past  
CIRL 500  
Students learn about the art of the past one hundred years, and the ways in which academic institutions, museums, public and private galleries define artistic practice. Contemporary art will be examined within the context of constructions of identity and place. Photography, video and artists’ use of the Internet will be studied, as well as works in traditional media. (UL)

39 Hours  
Fee: $565

Workshops in Design

Related certificate(s): Design for Arts and Entertainment (pg. 45), Design Management (pg. 46), Interior Design, Fundamentals of (pg. 92)

© Summer Quick Start  
CDID 100  
Primarily intended for students enrolling in the Interior Design program in September, this intensive one-week foundation course is designed to enhance drawing and communication skills. Students in their final year of high school who want to strengthen their portfolio may also attend with the written approval of their high school guidance counsellor or principal.

35 Hours  
HST included  
Fee: $719

Fall 2013  
Monday–Friday  
9:00-17:00  
Aug 19-Aug 23

© Techniques in Watercolour  
CDID 801  
A universal interest course. This course is designed to expose participants to the diversity of visual effects in watercolour and to begin building mastery over those effects. Learn watercolour’s fluid and transparent properties. Use watercolour as a wash, a tint, and in full saturation. Experiment with watercolour in combination with pencil, ink, and a variety of drawing media. Exercises will offer direction for studying texture, surface and illusion. Course content is applicable to both fine art and commercial art purposes.

19.5 Hours  
HST included  
Fee: $384

Spring/Summer 2014  
Tuesday  
18:30-21:30  
May 6-Jun 17  
Participants are responsible for purchase of materials (cost approximately $70). Do not buy any new materials before the opening class; however, do bring any watercolour supplies already owned. A list will be provided at the first class.

© Drawing With Mixed Media  
CDID 802  
A universal interest course. This course deals with a variety of media in the rendering of a broad range of three-dimensional subjects. In particular, the course covers ways of applying effects to the rendering of interiors, objects, and material surfaces. Among the surfaces to be covered are stone, wood, fabrics, metal, and glass. Exercises will offer direction for the specific study of texture, pattern, contrast, and the play of light. As well as lending drama and excitement to illustrations, emphasis is placed upon developing a personal style.

19.5 Hours  
HST included  
Fee: $384

Spring/Summer 2014  
Tuesday  
18:30-21:30  
Jun 23-Aug 11  
Participants are responsible for purchase of materials (cost approximately $70). Do not buy any new materials before the opening class; however, do bring any pertinent supplies already owned. A list will be provided at the first class.

© Drawing Fundamentals  
CDID 803  
Come test the theory: Everyone can draw! Everyone has the instinct toward language - verbal and visual. This course teaches the visual "language" that is natural to us all. It begins at the most rudimentary level and progresses through each of the developmental stages that lead to image-making skill. A series of exercises taken in sequence will build the powers of observation needed to transform a three-dimensional subject into a two-dimensional symbol. Learn the fundamentals of gesture, line, light and shade, and space. Commitment to weekly practice will determine the level of progress. The course objective is to make drawing a part of everyday life.

Note: Course content is applicable to both fine art and commercial art fields.

36 Hours  
HST included  
Fee: $531

Fall 2013  
Thursday  
18:30-21:30  
Sep 12-Nov 28  
Participants are responsible for purchase of materials (cost approximately $70). No supplies are necessary at the first class.

Winter 2014  
Thursday  
18:30-21:30  
Jan 16-Apr 3  
Participants are responsible for purchase of materials (cost approximately $70). No supplies are necessary at the first class.
We offer courses in Journalism, Magazine and Web Publishing, and Publishing to meet the needs of today’s students and professionals. Whether you are taking courses for personal interest or professional development, we are sure to have something for you. For more information, visit www.ryerson.ca/ce/journalism.

For course offerings in Magazine and Web Publishing, see page 280.

For course offerings in Publishing, see page 343.

Journalism

Related certificate(s): News Studies (pg. 107)

- Copy Editing CDJN 450
  The skilled copy editor is a writer’s best friend - even when he or she is the writer - and the reader’s champion. This course provides editors and writers with the tools to improve copy while preserving the text’s good features and the writer’s style. Topics include analyzing and editing copy for clarity and consistency, understanding style and conforming to it, editing copy to fit an allotted space, and writing headlines and cutlines.

This course prepares students for many of the ethical problems they will encounter as professionals and introduces them to the legal framework in which journalism is practised. Legal themes include defamation, contempt of court, search and seizure, and the Youth Criminal Justice Act. Ethical themes include fairness, conflict of interest, plagiarism and fabrication, protection of sources. Other considerations will include respect for privacy and freedom of expression. Best practices and guidelines for conduct are introduced, but students are also introduced to philosophical concepts and tools that can aid everyday decision-making. Practising journalists and media lawyers will help students gain command of these various and intersecting issues.

39 Hours  Fee: $618

This course studies the evolution of journalism from 1600 to the present. It examines the various forms that news took at different periods and in different places; how news influenced culture and was influenced by it, as well as by changing technology, business organization, and markets; how different audiences used and responded to news; and how the producers of news understood their work in relation to their society, their audiences, their employers and their peers.

39 Hours  Fee: $618

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9

Students examine the work of outstanding journalists in broadcast, newspapers, magazines and online through readings, lectures, videos, tapes and discussions. Students examine why certain pieces stand out in the context of their time and place.

39 Hours  Fee: $618

Students screen long-form documentaries ranging from classics from the last 50 years to contemporary productions. Students come to understand how the conventions of documentary storytelling have changed over the decades. They explore issues of voice, stylistic and narrative conventions, shooting and editing styles, and other aspects of documentary.

39 Hours  Fee: $618

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15

Copy editors edit above all to communicate to readers. But editors who love their readers also cherish their writers - and can become their best friends. There is a creative job that improves the quality of copy. This workshop is for people who care about language and want to help writers, including themselves, tell readers what they mean in a clear, concise, correct, and interesting way. It deals with the basics - spelling, punctuation, and grammar - as well as knowing what to look for, conforming to style, editing for space, and making quick, logical, and defensible decisions.

12 Hours  Fee: $498

Spring/Summer 2014
Saturday & Sunday 9:30-17:00 May 10-May 11
Lunch break from 12:30 to 2:00 p.m.

Writing for the Internet: The Word Online  CDJN 464

The Internet is a communications medium filled with possibilities and limitations. Its hyperlinked, two-way, multimedia and interactive nature means that new skills and techniques - and some traditional ones - need to be carefully applied in order for content to communicate, compel, and build community. This two-day workshop will provide an introduction to skills necessary for effective online writing. That means new ways of conveying information in short, concise and innovative formats that will attract the eyes of internet users.

12 Hours  Fee: $537

Spring/Summer 2014
Saturday & Sunday 9:30-17:00 May 24-May 25
Lunch break from 12:30 to 2:00 p.m.

Spin: Journalism PR and the Search for Truth  CDJN 469

We live in an age of “spin.” We are bombarded by prepackaged messages from politicians, lobbyists, business leaders and official “spokespeople” of all kinds. We are getting a lot of strategic communication but not much real communication. Sometimes it’s hard to know where to turn to find the “truth.” Historically, we’ve looked to the media for that, but all too often these days, the press seems to be seduced by spin as well, just another branch of the “spindustry.” This course examines the complex relationship between the PR industry and the mass media, the pervasiveness of spin in contemporary society, and the impact it has on us.

Note: Instructor: Ira Basen is a veteran CBC producer and former executive producer of CBC Radio’s Sunday Morning. He is completing a book on spin.

12 Hours  Fee: $498

Introduction to News Studies  CNNS 101

Students are introduced to core values of journalism, the community of practice in which journalists operate, the essence of a basic news story, and the fundamental tools that reporters, editors and producers use. The course also examines the context of journalism practice: the role of journalism in society, changing technologies that affect journalism and changing public perceptions of the news media. In addition to learning about these things in theory, students will complete a small number of basic news writing assignments.

39 Hours  Fee: $618

Laboratory and Research Ethics (CKLP 140)
This course will identify and analyze key issues related to the ethics of conducting research in the laboratory sciences. With a Canadian focus, ethical issues will be explored using relevant and highly current case studies that will best illustrate ethical dilemmas, concerns, and issues. Students will be exposed both broad, foundational concepts and principles in research ethics as well as more specific content related to the particular issues that arise in laboratory-based research.

Sample Management (CKLP 150)
This course aims to inform learners about the various aspects of sample management such as sample collection, handling, tracking, shipping, and their storage according to special applications of Workplace Hazardous Materials Information System (WHMIS). Techniques involved in preparing various biological materials will be introduced. Personnel safety and risk assessment to meet the requirements of the Occupational Health and Safety Act of Ontario for the purposes of the operation of the laboratory will also be discussed.

Independent Study I (CKLP 220)
Under the supervision of an industry expert or faculty member, students will either explore the scholarship surrounding a particular issue arising from laboratory practice or spend time in a laboratory organization, exploring the practical application of laboratory practice. Students will be encouraged to study issues relevant to their own workplace and career interests.

Note: It is recommended that students complete the required courses before enrolling in the independent study courses.

Students will be assessed on the basis of a research paper or case study.

Fundamentals of Clinical Research
CKLP 240
This course will introduce the learner to the role of clinical trials and research in the health care sector and in industry. The phases and elements of clinical trials will be considered and roles and responsibilities for each personnel will be discussed.

19.5 Hours  Fee: $352

Fall 2013
Distance: Internet  Sep 7-Oct 19
For information on distance education, visit www.ryerson.ca/ce/de.

Current Topics in Lab Science
CKLP 250
This course will identify and analyze contemporary issues that are faced by laboratories. The course will explore the issues from a number of different perspectives to help students understand the emerging regulation, public policy, ethics, innovation, and technology as relevant to laboratory practice and safety. The course will explore the impact of the issues and inform students about evolving professional practice.

19.5 Hours  Fee: $352

LANDSCAPE DESIGN

Landscape Design

Landscape Design combines the fields of art, science, and humanities. The certificate program offers an excellent education in the fundamental components that comprise the field of landscape design. Through course offerings, you will learn how to analyze, plan, design, manage, and sustain the built and natural environment. For more information, visit www.ryerson.ca/ce/landscape.

Landscape Design

Related certificate(s): Architectural Preservation and Conservation (pg. 28), Architecture (pg. 30), Architecture, Advanced (pg. 32), Computer Programming Applications (pg. 40), Landscape Design (pg. 276), Sustainability Management (pg. 140)

Landscape Design Communications and Theory
CKLA 300
The course begins by exploring the use of the line drawing including the landscape plan, sections, and elevations. It moves into the introduction of basic methods of designing landscape spaces and composing site content. Organizing systems include the grid and form composition.

Note: This course is delivered in a lecture/studio format.

39 Hours  Fee: $755

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Wednesday 18:30-21:30  Jan 15-Apr 16
Spring/Summer 2014
Thursday 18:00-21:00  May 8-Jul 31
For information on distance education, visit www.ryerson.ca/ce/de.

Landscape Construction, Materials and Methods
CKLA 310
The purpose of this course is to understand and investigate the origins, characteristics, and design applications and methodologies used in landscape construction. The process of designing, selecting, pricing, sourcing, constructing, and maintaining hard and soft landscape materials are discussed. Life cycle and sustainability of material selection is woven into the course content.

Note: *** Includes two Saturday or Sunday field sessions of three hours to visit landscape sites. Dates and times to be announced by the instructors.

39 Hours  Fee: $755

Fall 2013
Distance: Internet*  Sep 7-Oct 19
Spring/Summer 2014
Distance: Internet  Mar 1-Apr 12
Tuesday & Thursday*** 18:30-21:30  May 6-Jun 17
Monday–Friday*** 18:00-22:00  May 26-May 30
and Saturday 8:30-18:30  May 31
and Sunday 9:30-18:30  Jun 1
For information on distance education, visit www.ryerson.ca/ce/de.

*This course will run during the Fall break.

Plant Materials
CKLA 320
This course presents and evaluates deciduous and evergreen woody plant materials as basic structural design elements of the landscape. It covers introduced species as well as those native to Canada. Students will become familiar with the range of landscape applications for the species covered, as well as the relationship between their autecology and site selection.

Note: *** Includes two Saturday or Sunday field sessions of three hours to visit landscape sites. Dates and times to be announced by the instructors.
This course introduces the fundamentals, principles, and practices of horticulture. Topics include flowering bulbs, annuals, perennials, lawns, ground covers, woody plants, and cultural requirements. Plant propagation and greenhouse structure, plating techniques and grafting, and pest and disease identification and control are discussed and demonstrated in the greenhouse and testing lab.

39 Hours  Fee: $755

Fall 2013  
Monday 18:30-21:30  Sep 9-Dec 9
Winter 2014

For information on distance education, visit www.ryerson.ca/ce/de.

This course will run during the Fall break.

This class investigates the use of digital tools in the design process. Lectures and studio exercises explore the use of powerful, user-friendly computer-aided design (CAD) applications for preparing creative landscape solutions for a medium scale urban site. Software applications and basic principles of landscape design are applied in the development of landscapes based on site analysis and program criteria. This course focuses on plant identification, planting combinations, and design compositions using native and exotic materials available in Southern Ontario.

39 Hours  Fee: $755

Fall 2013

Legal Aspects of International Business
CLAW 724

Prerequisite(s): CLAW 122

This course will acquaint the businessperson with the legal aspects of doing business in a global environment. It will include legal considerations relevant to entrepreneurs engaged in import or export and to companies seeking greater presence in foreign countries as well as legal principles applicable to multinational corporations. Topics covered will include: bilateral and multilateral trade agreements including the GATT, the EC and the Canada-U.S. Free Trade Agreement; legal aspects of the international sale of goods; legal aspects of financing international sales of goods; forms of business organization abroad; licensing and franchising; international protection of intellectual property; comparative anti-trust legislation; conflict of laws and international settlement of disputes. Students choosing LAW 724 should be in their graduating year. (Formerly IBS 800)

39 Hours

Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14

Fee: $561

For the most current information, see our website at www.ryerson.ca/ce.

Business Law
CLAW 122

This is an introductory course, prerequisite to further studies in law. The course begins with a discussion of the nature and sources of law and an examination of the court system in Canada, the Charter of Rights and Freedoms, and a survey of the more important aspects of the law of torts. The course then concentrates on the legal requirements for the formation of a valid contract. Other major contract law topics include interpretation, privity, discharge, breach, and special types of contracts. Selected cases will be examined.

39 Hours

An examination of the law concerning the marketplace in Canada. Common law precedents and federal and provincial statutes which govern business practices and define legal rights and remedies in the commercial environment are analyzed. Major topics include product liability, consumer warranties, misleading advertising, regulation of competition, hazardous products, packaging and labelling, consumer credit transactions, and privacy and freedom of information legislation. Relevant statutes and selected cases are examined.

The legal environment in which computer security and digital forensics practitioners operate is complex and rapidly evolving. Criminal law, commercial law, privacy and human rights, intellectual property law, the rules of evidence, and rules of civil procedure are all involved. This course will introduce students to these other laws and legal frameworks (Canadian and international) as they affect the work of security and forensics professionals. Particular emphasis will be placed on the legality of ethical hacking, collection and preservation of digital evidence, privacy, rights of the accused, and the role and responsibility of the expert witness in court. Students will be taught basic legal concepts, how to read and understand relevant statutes and rules of evidence, and how to prepare an expert report for lawyer/client, law enforcement, or the court.

Prerequisite(s): CLAW 122

This course begins with an examination of the law governing business relationships and forms of business organizations, including the legal requirements for the formation of the corporation and partnership. Special contractual relationships affecting business are studied followed by an examination of the law pertaining to secured transactions and bankruptcy procedures. The course also surveys the law of real property, including the examination of the law pertaining to secured transactions and bankruptcy contractual relationships affecting business are studied followed by an examination of the requirements for the formation of the corporation and partnership. Special relationships and forms of business organizations, including the legal environment in which computer security and digital forensics practitioners operate.

Prerequisite(s): CLAW 122

This course focuses on emerging legal problems associated with the growth of information technology in Canada and internationally. It focuses on the legal protection of electronic information and technology through patents, copyright, trademarks and trade secrets, and upon contractual issues (electronic signatures, problems of verification, contracts which must be in writing, and security of information) in the procurement of products and services, especially through the Internet and other e-commerce conduits. A range of other topics, such as data protection and privacy, the regulation of the Internet, the harmonization of law globally, computer crime, and remedies will be discussed. Students should be in their graduating year.

Prerequisite(s): CLAW 122

This course will provide an introduction to the history, theories, and key concepts relevant for the appropriate administration of access and privacy legislation. It will examine access and privacy concepts and principles through the examination of provincial Freedom of Information and Protection of Privacy Acts, with an Ontario emphasis.

Prerequisite(s): CLAW 122

This course will provide an introduction to the history, theories, and key concepts relevant for the appropriate administration of access and privacy legislation. It will examine access and privacy concepts and principles through the examination of provincial Freedom of Information and Protection of Privacy Acts, with an Ontario emphasis.

Prerequisite(s): CLAW 122
LEARNING AND TEACHING

Learn and Teach in Higher Educ I

Prerequisite(s): Department consent

This seminar will introduce registrants to teaching and learning methods in higher education. Through critical analysis of research on higher education, as well as reflection upon one’s own teaching experience, participants will engage in their own professional development. This seminar is designed for individuals with all levels of teaching experience who wish to further develop their teaching skills. Topics covered include active learning, inclusivity, information literacy, statements of teaching philosophy, and presentation skills.

18 Hours  HST included  Fee: $TBA

Fall 2013
Tuesday  9:00-12:00  Oct 15-Nov 26

There will be no class on November 5.

Learn and Teach in Higher Educ II

Prerequisite(s): Department consent

This seminar is designed to help prepare participants for an academic career in teaching. Participants are expected to have some experience in teaching at a third-level institution. The overarching goal of this seminar is to allow participants to develop their practical teaching skills. This is achieved through engagement in pedagogical issues pertaining to higher education and the application of practical skills. The framework of this seminar is in the development of a teaching dossier.

18 Hours  HST included  Fee: $TBA

Fall 2013
Friday  9:00-12:00  Oct 18-Nov 29

There will be no class on November 19.

LIGHTING DESIGN

These multidisciplinary courses are designed to provide you with the broad knowledge base and wide range of skills required as professionals in the lighting industry.

Lighting Design

Related certificate(s): Design for Arts and Entertainment (pg. 45), Facility Management (pg. 62), Lighting Design (pg. 97)

★ Lighting Fundamentals

CDID 501

This course gives an overview of illuminating engineering and design. Concepts, nomenclature, and equipment are defined. Topics include basic electricity and energy, colour and colorimetry, photometry, sources of light and daylight, units of lighting measurement and calculations. Students gain a foundation of technical information sufficient to understand rudiments of lighting design. This course is recognized for CEU credit by IESNA (Illuminating Engineering Society of North America). Equivalent to a one-term professional elective in the Architectural Science Program. (Equivalent to one Professional elective from Table I, see Undergraduate Program Calendar.)

39 Hours  Fee: $780

Spring/Summer 2014
Tuesday & Thursday  18:30-21:30  May 6-Jun 17

★ Human Factors in Lighting

Prerequisite(s): CDID 501

39 Hours  Fee: $780

Fall 2013
Monday  18:30-21:30  Sep 9-Dec 9

★ Introduction to Lighting Design

Prerequisite(s): CDID 501

This course emphasizes the use of the design process for developing lighting systems design as applied to a number of practical problems. Students will present their proposed lighting systems design solutions in a formal setting for evaluation. Lighting system performance metrics (visibility, glare, psychological effects), various computational methods and light sources are studied and solutions applied to practical problems of lighting interiors. Equivalent to a one-term professional elective in the Architectural Science Program. (Equivalent to one Professional elective from Table I, see Undergraduate Program Calendar.)

39 Hours  Fee: $780

Winter 2014
Monday  18:30-21:30  Jan 13-Apr 14

★ Lighting Energy Management

Prerequisite(s): CDID 501

This course studies various integrated building systems and the interrelationship between these systems and lighting of various types. Using case studies and assignments, students will evaluate the methods of, and the results from, applying energy-efficient lighting design. Attention is given to codes and energy regulations currently being enforced within the building industry internationally, nationally, and locally. Equivalent to a one-term professional elective in the Architectural Science Program.
INTRODUCTION TO DAYLIGHTING DESIGN
CDID 550
Prerequisite(s): CDID 501, CDID 502, CDID 503, and CDID 504
This course emphasizes the science and practice of using daylight as a source of interior light. The course material covers daylight availability, delivery systems, computations, integration with other building systems and application of prediction models. Analysis and methods include the effect of daylighting in enclosed architectural spaces on illumination levels, visual performance, thermal loads and energy. Classroom exercises include physical sky models, sunshading exercises, application of predictive models and performance evaluations of daylighting in case studies or site visits. Equivalent to one-term professional elective in the Architectural Science Program. (Equivalent to one Professional elective from Table I, see Undergraduate Program Calendar.)

39 Hours Fee: $780
Spring/Summer 2014
Monday & Wednesday 18:00-22:00 May 5-Jun 18

ADVANCED LIGHTING DESIGN
CDID 551
Prerequisite(s): CDID 501, CDID 502, CDID 503, and CDID 504
This studio course is the culmination of the skills learned in the prerequisite courses, applied to specific, complex lighting design problems. Emphasis is on comprehensive, practical solutions to design, budget, energy and systems issues. Students will be guided by a working professional, and will study the application of elements of lighting which are more difficult to quantify, such as colour, form, space, plane, rhythm, balance, and texture. Students will also study examples of the use of light in other media such as film, theatre, and public events. Equivalent to a one-term professional elective in the Architectural Science Program.

39 Hours Fee: $780
Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15

ENTERTAINMENT LIGHTING DESIGN
CDID 552
This studio course is an introduction to the techniques of theatre lighting design. The focus of the course is lighting design issues and methods in theatre lighting. The emphasis is on hands-on practice and experience. Students will complete one major theatre lighting design assignment.

39 Hours Fee: $821
Spring/Summer 2014
Monday & Wednesday 18:30-21:30 Jun 23-Aug 11

LIGHTING DESIGN PRACTICUM
CDID 553
Prerequisite(s): CDID 501, CDID 502, CDID 503, CDID 504, CDID 550, and CDID 551
This course is an advanced-level course which stresses individual study, self-motivation, the skills required to research information, oral and written presentation, and client communication skills. Students work with the guidance of a recognized Canadian or international lighting designer on a significant project or projects.

39 Hours Fee: $821
Spring/Summer 2014
Monday 18:30-21:30 May 5-Aug 18
MAGAZINE AND WEB PUBLISHING

Magazine and Web Publishing courses are designed for individuals who are planning a career in web publishing or the magazine industry, working at a magazine or website and looking to sharpen the skills they use in the job and/or broaden their knowledge of the other disciplines within their company, or thinking of starting up their own magazine or website. For information on the Certificate in Magazine and Web Publishing, see page 99. For more information, including instructor biographies, visit www.ryerson.ca/ce/magazine.

For course offerings in Journalism, see page 270.
For course offerings in Publishing, see page 343.

Magazine and Web Publishing

Related certificate(s): Magazine and Web Publishing (pg. 99)

❖ So You Want to Start a Magazine  CDJN 101
It’s exciting, starting a new magazine, but a lot more complicated than it looks. To help you do it right, this two-day course, taught by one of Canada’s top magazine consultants, covers all of the practical aspects of launching a magazine today. Topics include: understanding your audience; translating your idea into a viable business; developing editorial that wows readers; getting and analyzing printing quotes; how to get the best prices for ads and subscriptions; how to promote a new magazine; tips about circulation, fulfillment, production and newsstand sales; how to write your own launch timeline and business plan; and much more.

Note: For more information, please see www.ryerson.ca/ce/StartaMagazine.

14 Hours  Fee: $748

Fall 2013  HST included  Fee: $748
Friday & Saturday  9:00-17:00  Oct 18-Oct 19
Winter 2014  Friday & Saturday  9:00-17:00  Jan 24-Jan 25
Spring/Summer 2014  Friday & Saturday  9:00-17:00  Apr 18-Apr 19

❖ Magazine and Website Publishing  CDJN 112
This course provides an overview of the business challenges and opportunities confronting magazine publishers today. All aspects of managing magazines, print or web-based, are touched upon: editorial, marketing, management, integration of web and print, advertising, production, and distribution; plus the challenges in starting a new publication. Guest speakers from the industry provide insights and the chance to ask questions and discuss issues. This course complements all other courses in the certificate program.

39 Hours  Fee: $653

Fall 2013  18:30-21:30  Sep 9-Dec 9
Winter 2014  18:30-21:30  Jan 13-Apr 14

❖ Magazine and Website Editing  CDJN 113
This course is a practical, step-by-step introduction to print and online magazine editing. The emphasis is on learning job skills in a workshop environment. Topics include: planning and coordinating print and web content, developing strong story ideas, working with contributors, handling manuscripts, writing display copy, budgets, the ethics of editing, and libel law. Class members get a chance to use their skills when they produce their own prototype magazines, working in small groups.

39 Hours  Fee: $653

Fall 2013  Monday  18:30-21:30  Sep 9-Dec 9
Winter 2014  Monday  18:30-21:30  Jan 13-Apr 14

❖ Introduction to Magazine Design  CDJN 116
In this course, we analyze how and why magazines look the way they do and develop professional visual awareness. We explore visual communication with specific readerships and compare traditional print publications with new online applications, with a focus on typography, grids, and formats; the anatomy and overall design direction of a magazine; assigning; developing design concepts; the cover; working out a book map; the aesthetics of magazine design; and technical considerations.

39 Hours  Fee: $653

Winter 2014  18:30-21:30  Jan 14-Apr 15

❖ Writing for Magazines and the Web  CDJN 117
Intended for those with a serious interest in writing and selling non-fiction articles to print or online magazines or other communication venues, this is an introduction to the basics of conceiving, focusing, pitching, researching, structuring, writing and revising both short and longer feature articles. The course includes lecture/instruction, classroom exercises, and writing workshops with feedback from peers and the instructor. In addition to the recommended reading and weekly handouts, students are expected to read a wide variety of Canadian and American periodicals, and to complete (for grading) four shorter writing assignments, and one (1,000-word) feature story on a topic of their choice, targeted to an online or print publication.

CDJN 117 combined with CDJN 118 is equivalent to JRN 803.

39 Hours  Fee: $644

Fall 2013  Wednesday  18:30-21:30  Sep 11-Dec 11
Winter 2014  Wednesday  18:30-21:30  Jan 15-Apr 16

❖ Advanced Feature Writing  CDJN 118
Prerequisite(s): CDJN 117
This project-intensive advanced course is designed for serious students of magazine feature writing to further develop their reporting and narrative skills. Students must have a familiarity with the basics of conceiving and focusing story ideas for specific markets as well as the fundamentals of researching, reporting, interviewing and writing, as covered in CDJN 117. The course emphasizes what is called literary journalism, which combines journalism’s concern for solid reporting and factual accuracy with many of the dramatic techniques of fiction. At its best, this kind of feature writing holds readers’ interest, entertaining them while simultaneously providing the depth and context necessary to understand complex issues and events or capture the essence of a profile subject. There will be short writing assignments as well as one longer feature, which must contain some or all of the elements of the course: evidence of on-the-scene reporting, a narrative arc consisting of a well-crafted beginning-middle-end, character development, the use of dialogue instead of (or in addition to) traditional quotation, the use of symbol to support theme, etc. Students are expected to come to the first class prepared to discuss story ideas and move on quickly to writing a query letter. CDJN 117 combined with CDJN 118 is equivalent to JRN 803.

Note: Candidates seeking admission by experience must produce a portfolio of feature work published in magazines and/or substantial magazine-style features from newspapers. For more information, contact the instructor at 416.466.5167.

39 Hours  Fee: $644

Fall 2013  Thursday  18:30-21:30  Sep 12-Dec 12
Winter 2014  Thursday  18:30-21:30  Jan 16-Apr 17

For the most current information, see our website at www.ryerson.ca/ce.
CDJN 119 Magazine Copy Editing
This course is an introduction to the skills and knowledge required to ensure a high degree of clarity, consistency, and accuracy, as well as precise and appropriate use of language, in magazine editorial copy - print or web-based. After a magazine article has been edited, the copy editor attends to the finer details - checking grammar, punctuation, spelling, consistency of style, logic, and usage - and shepherds the article through the proofreading and production process. These “polishing” skills will be covered in this course, along with commonly used reference works, Canadian spelling, proofreader’s marks, copy editing on computers, copy fitting, line editing, bias-free language, working with designed pages, and writing display copy. One lesson will be devoted to fact-checking. While students from many backgrounds may benefit from this course, successful copy editors need an above-average command of the language they’re working in, and a wide-ranging general knowledge.

39 Hours  Fee: $653

Fall 2013
Thursday  18:30-21:30  Sep 12-Dec 12
Spring/Summer 2014
Monday & Wednesday  18:30-21:30  May 5-Jun 18

CDJN 120 Magazine Fact-Checking and Research
Independent fact-checking happens mainly at magazines, but the skills taught in this course can be used in any medium. In the magazine business, fact-checking is a key entry-level job, a way for aspiring writers or editors to learn how a magazine works and how professional writers put together a story, and to develop relationships with editors that can lead to assignments or jobs. For writers, the more they know about what happens to an article in fact-checking, the better prepared they’ll be to provide what editors want - and to protect their copy. This course looks at why magazines employ fact-checkers; how fact-checking fits into the editorial process; how to document fact-checking according to industry standards; what to check and what not to check; finding research sources and judging their authority; the fact-checking telephone interview; working with writers and editors; and legal and ethical considerations.

19.5 Hours  Fee: $360

Winter 2014
Tuesday**  18:30-21:30  Jan 14-Feb 25
**This course will run during the Winter break.

CDJN 121 Magazine Packaging
This course focuses on packaging print and digital service journalism in ways that will delight readers and help them easily access the information they need, in print or online. The course looks at planning and assigning a story package for print, web, and tablet; editing stories destined for packages; and working with art directors and digital producers to create packages. A variety of types of stories will be discussed and provided by both the instructor and the students, from long features to visual stories to instructional pieces to words-and-pictures infographics. Students are encouraged to think of magazines as both print and digital products.

Note: Classroom Delivery uses in-class workshops, round-tables, story meetings, quick editing exercises, and hands-on group activities. Traditional lecture format is kept to a minimum and time is made available for one-on-one discussions with the instructor as well as peer feedback; Distance Delivery teaches the same skills and techniques, but makes use of online discussion forums, video and audio interviews, and self-assessment quizzes to augment the learning experience.

19.5 Hours  Fee: $360

Fall 2013
Tuesday  18:30-21:30  Sep 10-Oct 22
Spring/Summer 2014
Distance: Internet  18:30-21:30  May 3-Jun 14
For information on distance education, visit www.ryerson.ca/ce/de.
*This course will run during the Fall break.

CDJN 122 Advanced Magazine Editing
This hands-on course focuses on effective editing of individual magazine articles - sometimes known as substantive editing - to help writers grab readers’ attention at the start and keep them reading to the end. Areas covered include assigning or acquiring manuscripts; tailoring content for specific readerships; coaching writers according to their individual strengths and weaknesses; editing for completeness and clarity; effective cutting and silken transitions; and use of imagery, anecdote, and a variety of voices and rhythms to make an article sing. A must for anyone planning to edit longer manuscripts - and a very useful course for anyone planning to write them. (Formerly Substantive Editing for Magazines)

19.5 Hours  Fee: $360

Fall 2013
Thursday*  18:30-21:30  Sep 12-Oct 24
Winter 2014
Thursday**  18:30-21:30  Jan 16-Feb 27
Spring/Summer 2014
Thursday  18:30-21:30  May 8-Jun 19
*This course will run during the Fall break.
**This course will run during the Winter break.

CDJN 201 Magazine Advertising Sales and Marketing
On average, Canadian magazine advertising sales representatives earn more than magazine editors and find it easier to step into the role of publisher. (All magazine publishers must have a thorough understanding of advertising sales.) This course provides students with the knowledge and skills required to sell magazine advertising in today’s highly competitive marketplace. Fundamentals taught include: using standard research tools to develop sales presentations, sales call preparation, working with advertising agencies and closing sales. Guest speakers from the advertising field add to the learning experience.

19.5 Hours  Fee: $360

Fall 2013
Monday  18:30-21:30  Oct 28-Dec 9
To find out more about your instructor, visit www.ryerson.ca/ce/magazine.

CDJN 202 Magazine Marketing and Circulation
Never before has marketing meant as much to a magazine’s success as it does today. Circulation (the selling of magazines themselves, rather than their advertising pages) currently offers more potential for revenue growth - and more career opportunities - than any other area of magazine publishing. This course focuses on marketing magazines to readers, covering all systems and methods that successful circulation marketing employs. Topics include: the magazine market in Canada, identifying markets for specific titles, key variables determining marketing success, subscription acquisition and renewals, bulk sales, controlled circulation uses and strategies, pricing, newstand sales, database marketing, branding and ancillary revenue from readers, and the roles of magazine fulfillment, audits and modelling.

19.5 Hours  Fee: $360

Spring/Summer 2014
Wednesday  18:30-21:30  May 7-Jun 18

CDJN 204 Magazine and Web Publishing
Adobe InDesign is the design and page layout software program used throughout the magazine industry. Knowledge of the program allows editors at small publications to be responsible for layout design, typesetting, and prepress functions. But editors at magazines of all sizes are expected to have some knowledge of InDesign to edit and coordinate text and layout with art departments, to organize editorial production and copy flow, and to edit and format text. This course will provide you with the basics of the InDesign program. Instruction is fast-paced and includes creating page layouts, formatting text, placing artwork, and working with style sheets, and master pages. This program is taught in a Macintosh computer lab.

Note: This course will be taught in a Macintosh computer lab.

### Magazine Production (CDJN 205)

In addition to the fundamentals of print production, this course includes the basics of multi-purposing text and pictures for the Web, as well as creating digitally-formatted documents that will display on e-readers, tablets, and mobile devices. This course helps today’s magazine production professional, acquire the skills to publish on multiple platforms, provides an overview of current magazine production practices, including how magazines are printed and bound, and how to schedule and budget magazine production. Students will learn about magazine formats, advertising delivery through ad portals, pre-media, printing process, and quality control across all platforms.

*Note: This course will include a guided printing plant tour.*

### Creating Website Editorial (CDJN 206)

From chats and blogs to streaming video, the editorial elements available for websites differ radically from those for ink-and-paper magazines. For magazine editors with website responsibilities, the trick is to use those things creatively to attract and hold readers while still maintaining the magazine’s identity and mission. This course provides students with a valuable understanding of web tools and opportunities to workshop appropriate content for them. It also addresses the most common strategic, logistical, and business-related challenges that come with producing great magazine websites.

### The Online Publishing Toolkit (CDJN 207)

Print remains important, but online publishing is gaining ground, seeing some titles moving (or launching) wholly online. Today’s publisher or editor needs to manage “print plus”: a modern multi-platform, multi-media magazine. Find out how to deliver content to readers whenever, wherever, and however they wish. Learn about such vital tools as content management systems, mobile apps, “the cloud,” digital versions and mobile editions, social media, micro sites, analytics, ad portals, and more.

### Ad Sales on the Web (CDJN 208)

Ad sales in the digital age requires traditional persuasive skills, but operating in a whole new world of design, accountability, and instant measurement. Digital delivery is a big part of the future of magazine publishing. Become familiar with the ways online advertising is priced, pitched, measured, designed, and packaged. Learn about rich text, standard ad formats and pricing, positioning your publication against such heavy-hitting competitors as Google, and exercising your creativity to meet online advertisers’ needs. Understand the metrics that matter most to advertisers and agencies and how to package and deliver them.

★ Multicultural Opportunities
CENT 500

This course examines the process of multicultural opportunity identification for both start-up and existing business environments. It is designed to cultivate the mindset and skills required for students to engage in opportunity identification activities and make them part of their daily regiment in their personal and professional lives. The entrepreneurial process begins with the pursuit of a perceived opportunity; as such, the ability to identify a valid opportunity is paramount to the field of entrepreneurship.

39 Hours Fee: $561

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9

NEW!

★ Multicultural Venture Startup
CENT 526 and CMKT 310

This course will focus on the distinct challenges facing those individuals who are new to Canada as well as entrepreneurs who would like to target a particular multicultural niche market. The process of business planning will be featured. Students will be required to develop a business plan for a new venture targeting selected multicultural cohorts.

39 Hours Fee: $561

Global Management

CENT course fees include a $10 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Business Decision Analysis (pg. 34), Business Management (pg. 36), Entrepreneurship and Multiculturalism (pg. 55), Ethics (pg. 59), Facility Management (pg. 62), Financial Management in Canada (pg. 67), Global Management Studies (pg. 77), Retail Management (pg. 134), Strategic Marketing (pg. 138)

★ Introduction to Global Management
CENT 526

This course introduces the concepts and complexities of the contemporary business environment with an emphasis on competitiveness, quality, and the main functional areas of management: Planning, Organizing, Controlling, and Leadership. The course recognizes the global context within which managerial decisions are made. Topics include: origins of management, forms of business ownership, entrepreneurship and intrapreneurship, organizational structure, strategy, operations management, international business, social and ethical issues. Instruction will be provided for effective presentations and library research skills. A globally oriented management simulation may be used. (Formerly MGT 200)

★ Introduction to Managerial Economics
Prerequisite(s): ([CGMS 200 or MGT 200 or MGT 121] and (CGMS 102 or QMS 204) and CGMS 202) or Direct Entry
A primary emphasis of managerial economics is the application of economic theory and methodology to the practice of business management and decision making. Students will learn how economic tools can be applied to achieve business goals and to address managerial challenges. Topics include: optimization, risk analysis, demand theory and estimation, production and cost theory, market structure and pricing practices. (Formerly MGT 402)

★ Quality Management
Prerequisite(s): ([CMS 102 or QMS 204] and CMS 202) or Direct Entry
Quality has become a critical component of many successful businesses. The quest for quality has led to the emergence of a set of analytic tools that help identify, study and improve business processes. The course examines the development of these management tools and the role that they play in continuous improvement activities. In particular, the student will become familiar with problem solving strategies that begin with a structured qualitative analysis of business situations, incorporate quantitative management methods and lead to well-reasoned decisions. Appropriate software support will be used. (Formerly QMS 402).

★ Project Management
Prerequisite(s): CGMS 401 or MGT 401 or MGT 100 or Direct Entry
This course focuses on how projects contribute to the strategic goals of the organization. The linkages for integration include the process of selecting projects that best support organizational strategy and all the technical and managerial processes to complete those projects. The goals for prospective project managers are to clearly understand the role of the project in their organizations and to master project management tools/techniques and interpersonal skills necessary to orchestrate projects to completion. (Formerly MGT 806)

★ Business-to-Business e-Commerce
Prerequisite(s): CGMS 401 or MGT 401 or MGT 100 or Direct Entry
Some of the most significant changes caused by electronic commerce are in the way that businesses trade with one another. This course will cover the key elements needed to operate in the virtual business marketplace, with special emphasis on the impacts on the supply chain. Topics covered will include issues in procurement, logistics and manufacturing, as well as an examination of the trading communities that are emerging as players in this new marketplace. (Formerly MGT 550)

For the most current information, see our website at www.ryerson.ca/ce.
This is a one semester course introducing students to the theory of international economics and its applications to business. The course examines why nations trade and why at the same time many companies try to limit trade by introducing trade barriers. It looks at the role of the WTO and Canadian trade policy. The course also introduces the theory of exchange rates and looks at issues surrounding international policy coordination. (Formerly IBS 601)

39 Hours  Fee: $614

Winter 2014
Wednesday 18:30-21:30  Jan 15-Apr 16

★ The North American Business Environment

gmS 690

This course provides an overview of the North American business environment. It examines the cultural, political and economic environments in Canada, the US and Mexico. Trade and economic integration issues are discussed including an assessment of the North American Free Trade Agreement (NAFTA) and the potential impact on these three countries of the proposed Free Trade Area of the Americas (FTAA). The course will also introduce students to the key institutions that impact trade and business activities in North America and will examine the strategies used by foreign multinational corporations in penetrating North American markets. Current and controversial issues such as trade in bulk water and a continental energy plan will also be covered. The long run international competitive position of North American firms is also examined in this course. GMS 690 is designed to provide a suitable comparative framework for understanding other regional markets and will be particularly useful for international and exchange students.

39 Hours  Fee: $614

★ The Asian Business Environment

gmS 691

This course examines cultural, demographic, political and economic issues that shape the Asian business environment. The region as a whole is profiled but particular attention is paid to China and India as emerging super powers. The importance of foreign direct investment to the development of this region is underscored as well as the emergence of Asian multinationals and their approach to outward direct investment. The challenges encountered by Western firms in penetrating Asian markets are discussed in detail. Consideration is given to the role of government in business transactions in this part of the world and the need for innovative strategies when dealing with Asian business partners. Special topics will include globalization versus sustainable development and the role of Asian countries in global outsourcing.

39 Hours  Fee: $614

Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

★ The European Business Environment

gmS 692

This course focuses on European economic integration and the implications for business. The nature of the European business environment is examined including a discussion of the economic and political institutions, culture and demographic trends. Market size, growth, trade and investment prospects for the Euro zone countries and the UK are examined. The foreign market entry strategies of multinational corporations active in this region will also be discussed. The course will also consider the prospects for Eastern Europe and the challenges these countries face in implementing free enterprise market reforms. Implications for EU enlargement are discussed.

39 Hours  Fee: $614

Winter 2014
Wednesday 18:30-21:30  Jan 15-Apr 16

★ The Middle Eastern Business Environment

gmS 695

This course examines the business environment and the complex cultures of this highly misunderstood region. The course focuses on the impact of religion, politics, culture and history on the prospects for conducting business in the Middle East. The impact of Sharia banking on business is a particular focus of this course. Specific countries in the Middle East are profiled to underscore intra-regional differences in the importance of religious, political and regulatory factors. Foreign market entry strategies appropriate to Islamic countries are also presented using Western firms as case studies.

39 Hours  Fee: $614

★ International Trade

gmS 723

An analysis of the important business function of international trade. After a review of the importance of exports for Canada’s income and employment needs, students focus attention from an export manager’s perspective, on such topics as export organization, research, and pricing, export documentation and correspondence; export marketing strategies; government and private export assistance; export finance; marine insurance and export shipping. This course also includes an examination of international databases and involves direct company field research. Students who have taken MKT 522 or IBS 522 should have a stronger foundation for applying this course. This course is intended as a fourth year course. (Formerly IBS 724 and MGT 724)

39 Hours  Fee: $561

Fall 2013
Thursday 18:30-21:30  Sep 12-Dec 12

★ Management of International Enterprise

gmS 724

An analysis of the management policies of the multinational business corporation in Canada and the world. Topics covered: the evolution of the multinational corporation, its organization, structure, planning and goals. Also covered are business strategies including marketing, production, logistics, technology, personnel and labour relations, finance, acquisition, and ownership, concerns of host countries including Canada, and policies for host governments. Lectures, discussion, and case problems. (Formerly IBS 724 and MGT 724)

39 Hours  Fee: $561

Winter 2014
Wednesday 18:30-21:30  Jan 15-Apr 16

★ Ethics and Regulation of Intr’l Bus

gmS 802

This course examines the vital role that ethics plays at all leadership levels within a company. Students will discover the importance of instilling ethical values as a key to long term success. Exposure to thought-provoking cases and literature will heighten student awareness of the need to develop strong ethical leadership in dealing with customers, the community, and employees. Students will also be exposed to the critical role of governments in regulating international business behaviour. (Formerly MGT 802)

39 Hours  Fee: $561

Winter 2014
Wednesday 18:30-21:30  Jan 15-Apr 16

Certification and degree credit  Degree credit  Certificate credit  Course series 285
**MARKETING**

There is scarcely any field of professional activity that does not require the expertise of a skilled and knowledgeable marketing specialist. The following courses can help you develop broad-based or industry-specific marketing skills, either to upgrade your present qualifications or as preparation for a new career. For more information, visit www.ryerson.ca/courses/marketing.

**Marketing**

All CMKT course fees include a $10 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Business Decision Analysis (pg. 34), Business Management (pg. 36), Design Management (pg. 46), Entrepreneurship and Multiculturalism (pg. 55), Facility Management (pg. 62), Fashion Coordination and Styling (pg. 64), Financial Management in Canada (pg. 67), Global Management Studies (pg. 77), Retail Management (pg. 134), Strategic Marketing (pg. 138)

**Principles of Marketing**

Prerequisite(s): CINP 912

This course introduces students to the fundamental building blocks of marketing: the theories, principles and concepts of market behavior; marketing metrics and financial marketing; and the skills to leverage this knowledge with IT tools to execute marketing strategies. Students begin to develop the quantitative and qualitative skills and knowledge to make effective and ethical decisions in both the consumer and business markets. Topics include financial marketing, the marketing mix, environmental scanning, segmenting, targeting and positioning. Students planning to enter the Marketing Management Major must obtain a 2.67 GPA (B-) in this course.

**Marketing Metrics and Analysis**

Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry

This course provides students with state-of-the-art contemporary demand and supply marketing metrics and analytic tools, such as marketing research, share of mind, margins and profits, product, sales force, and channel management, advertising media and web metrics to integrate marketing performance with the firm’s strategic thrusts and corporate finances. Students are introduced to the case method as a model for critically analyzing situations and developing evidence-based, ethical decision-making skills using marketing theory and marketing metrics. (No transfer credit ruling).
Marketing Plans

CMKT 310

Prerequisite(s): BSM 200; Antirequisite(s): CMKT 100

Marketing is about creating, communicating and delivering value to customers. This course focuses on developing plans for identifying and attracting desirable customers for a business. Topics include strategic market planning, the 4 Ps of marketing, segmentation, targeting, positioning, and basic marketing metrics. Students learn how to develop an effective marketing plan for a new product or service in common vertical markets such as hospitality, retail, consulting, and professional services. This course is not available to programs within the Ted Rogers School of Management.

39 Hours  Fee: $561

Winter 2014

Monday 18:30-21:30  Jan 13-Apr 14

Understanding Consumers and the New Media

CMKT 400

Prerequisite(s): CMKT 300  Antirequisite(s): MKT 502, CRMG 302

The online world is becoming more social and therefore more like the offline world. This shift has changed the nature of marketing from one-way mass communication to a conversation. This course uses social science theories to understand consumers and design effective marketing strategies with an emphasis on digital media applications. This theoretical course is fundamental to analyzing, interpreting, and understanding the personal, psychological, social, and economic aspects of the marketing environment. (No transfer credit ruling).

39 Hours  Fee: $561

Fall 2013

Distance: Internet  Sep 7-Dec 7
Tuesday 18:30-21:30  Sep 10-Dec 10

Winter 2014

Distance: Internet  Jan 11-Apr 12
Tuesday 18:30-21:30  Jan 14-Apr 15
Wednesday 18:30-21:30  Jan 15-Apr 16

Spring/Summer 2014

Distance: Internet  May 3-Jul 26
Wednesday 14:00-17:00  May 7-Jul 30
Wednesday 18:00-21:00  May 7-Jul 30

For information on distance education, visit www.ryerson.ca/ce/de.

Marketing Research

CMKT 500

Prerequisite(s): CMKT 300

This course examines the role of marketing research in making strategic marketing decisions through the application and use of the scientific method and traditional quantitative and qualitative marketing research tools. Students hone their quantitative skills by developing a deeper understanding of the importance of large datasets, Web analytics and secondary analysis, and the role of financial and other marketing metric data in evidence-based and ethical decision-making. Group project work develops communication and teamwork skills. (No transfer credit ruling).

39 Hours  Fee: $561

Fall 2013

Distance: Internet  Sep 7-Dec 7
Tuesday 18:30-21:30  Sep 10-Dec 10

Winter 2014

Distance: Internet  Jan 11-Apr 12
Tuesday 18:30-21:30  Jan 14-Apr 15

Spring/Summer 2014

Distance: Internet  May 3-Jul 26
Tuesday 18:30-21:30  May 7-Jul 30

For information on distance education, visit www.ryerson.ca/ce/de.

Effective Persuasion

CMKT 504

This course covers the fundamentals of the sales process and personal persuasion in the business world. Students work individually and in groups to discuss the theories and practice of effective techniques for selling themselves, their ideas and/or their products to prospective employers and/or customers. Students participate in discussions and role playing to develop an ethical understanding of customer interface, and high level communication and interpersonal skills, which are the cornerstones for successful selling. (No transfer credit ruling).

39 Hours  Fee: $561

Fall 2013

Wednesday 18:30-21:30  Sep 12-Dec 12

Winter 2014

Wednesday 18:30-21:30  Jan 15-Apr 16

Spring/Summer 2014

Thursday 14:00-17:00  May 8-Jul 31
Thursday 18:00-21:00  May 8-Jul 31

Innovations in Marketing

CMKT 510

This course focuses on understanding current issues, trends and challenges facing marketers from the perspective of marketing theory, marketing metrics, and IT tools and capabilities. Issues include brand equity, the social web, advertising and communication, business to business marketing, “green” marketing, marketing and public policy and product/service innovation.

39 Hours  Fee: $561

Fall 2013

Wednesday 18:30-21:30  Sep 12-Dec 12

Spring/Summer 2014

Tuesday 18:30-21:30  May 6-Aug 5

Integrated Case Analysis

CMKT 600

This course provides an opportunity for students to integrate skills and knowledge already learned about marketing theory and principles, marketing metrics, and the strategic opportunities afforded by technology. Using comprehensive cases that reflect a variety of marketing issues, situations and challenges, students enhance their written and oral communication skills through case analysis and presentations conducted in teams. The course focuses on enhancing analytic, synthesis, integration and research skills to arrive at an evidence-based recommendation. (No transfer credit ruling).

39 Hours  Fee: $561

Fall 2013

Wednesday 18:30-21:30  Sep 11-Dec 11

Spring/Summer 2014

Wednesday 18:30-21:30  May 7-Jul 30

| **CMKT 700** | Business Intelligence/Decision Modeling  
Prerequisite(s): CMKT 300 and CMKT 500 |
| **CMKT 723** | Marketing in the Service Industry  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry |
| **CMKT 730** | Assessing/Managing Market Opportunities  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry |
| **CMKT 731** | Competitive Intelligence  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry |
| **CMKT 732** | International Sport Marketing  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry  
Antirequisite(s): MKT 827 |
| **CMKT 733** | Applied Research Project  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry |

This quantitative course advances and enhances skill with marketing metrics through experience with relational databases, data preparation, data analysis, predictive modeling, and common software suites. Using case studies and spreadsheets, students gain insight into when and how to apply data modeling techniques, such as linear regression, logistic regression, decision trees, neural analysis and customer clustering, and their role in strategic decision-making and market plan development. (No transfer credit ruling).

39 Hours  Fee: $561

**Fall 2013**  
Tuesday 18:30-21:30 Sep 10-Dec 10

**Winter 2014**  
Tuesday 18:30-21:30 Jan 14-Apr 15

**Spring/Summer 2014**  
Thursday 18:00-21:00 May 8-Jul 31

**CMKT 702** | Advanced Marketing Management  
Prerequisite(s): CMKT 300 and CMKT 600 |

This advanced course provides students with a deep understanding of the integration of all marketing functions, practices and theories in order to address strategic problems and challenges. Case studies, class discussions and small group projects with external clients allow students to apply their theoretical knowledge, and employ their IT and quantitative skills, while experiencing real business situations and the challenges of developing effective marketing strategies in a dynamic business environment. (No transfer credit ruling).

39 Hours  Fee: $574

**CMKT 722** | Marketing in the Service Industry  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry |

This course focuses on the unique challenges faced by Canadian-based service industry companies, such as banks, restaurants, airlines, hotels and insurance. It explores marketing strategies utilized by these firms to improve customer retention, increase customer value and outperform competitors. Students work in groups to complete a marketing plan for a new or existing service, either B2B, B2C, government or not-for-profit by integrating and applying their knowledge of marketing functions and by employing both quantitative and qualitative analytical tools. (No transfer credit ruling).

39 Hours  Fee: $561

**Fall 2013**  
Distance: Internet Sep 7-Dec 7

**Winter 2014**  
Distance: Internet Jan 11-Apr 12

**Spring/Summer 2014**  
Distance: Internet May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce.de.

**CMKT 731** | Competitive Intelligence  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry |

This course presents a comprehensive framework for analyzing competition and developing successful marketing strategies. Students develop advanced skills in quantitative and qualitative tools and techniques in order to analyze, predict and understand a company’s relative position, the general market situation, the future of the industry, and the opportunities, threats and environmental forces that may impact the future success of an industry, a company, a product or a service. (No transfer credit ruling).

39 Hours  Fee: $561

**CMKT 722** | International Sport Marketing  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry  
Antirequisite(s): MKT 827 |

This course exposes students to the concepts and theories related to marketing in international sports organizations. The course adopts an applied approach and emphasizes university/college, technology, sport sponsorship, focusing on the practical application of theory. Topics include the Canadian sport industry, sport brands, media and distribution, promotion and events.

39 Hours  Fee: $561

**Winter 2014**  
Distance: Internet Jan 11-Apr 12

**Spring/Summer 2014**  
Distance: Internet May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce.de.

**CMKT 733** | Applied Research Project  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry |

Students work in groups to complete a research project for an organization, association or company. The project includes primary and secondary research that addresses the client’s problems and issues and identifies future opportunities through a set of actionable recommendations. There is a strong emphasis on interpersonal skills as students manage their project deliverables and their relationship with the client.

39 Hours  Fee: $561

For the most current information, see our website at www.ryerson.ca/ce.
The mathematics courses outlined here will introduce you to new concepts and problem-solving skills that are relevant to a variety of personal and professional interests.

**Mathematics**

Related certificate(s): Financial Mathematics Modeling (pg. 69)

**Transcendental Functions**

**CMTH 101**

Students will investigate the properties of polynomial, rational, radical, logarithmic, exponential, and trigonometric functions with the applications in the rate of change and graphing.

52 Hours  Fee: $725

**Fall 2013**

Tuesday  18:00-22:00  Sep 10-Dec 10

**Winter 2014**

Tuesday  18:00-22:00  Jan 14-Apr 15

**Spring/Summer 2014**

Monday & Wednesday  18:00-22:00  May 5-Jun 18

An Academic Bridging Course, see the Chang School website at www.ryerson.ca/ce. Meets the Grade 12 MCV4U (Calculus and Vectors) requirement for admission to a Ryerson program. This course can be taken concurrently with CMTH 102.

**Advanced Calculus and Vectors**

**CMTH 102**

Students will solve problems involving geometric and algebraic representation vectors in three-dimensional spaces and will explore the equation and graph of lines and planes related to vectors. Students will also study the derivatives of various types of functions and its applications in optimizations and graphs.

52 Hours  Fee: $725

**Fall 2013**

Wednesday  18:00-22:00  Sep 11-Dec 11

**Winter 2014**

Wednesday  18:00-22:00  Jan 15-Apr 16

**Spring/Summer 2014**

Tuesday & Thursday  18:00-22:00  Jun 24-Aug 7

An Academic Bridging Course, see the Chang School website at www.ryerson.ca/ce. Meets the Grade 12 MCV4U (Calculus and Vectors) requirement for admission to a Ryerson program. This course can be taken concurrently with CMTH 101.

**Advanced Data Management**

**CMTH 103**

This course broadens students’ understanding of mathematics as it relates to managing data. Students will apply methods for organizing large amounts of information; solve problems involving probability and statistics; and carry out a culminating project that integrates statistical concepts and skills. Students will also refine their use of the mathematical processes necessary for success in senior mathematics.

52 Hours  Fee: $725

**Spring/Summer 2014**

Tuesday & Thursday  18:00-22:00  May 6-Jun 17

An Academic Bridging Course, see the Chang School website at www.ryerson.ca/ce.

**Computational Methods in Mathematics and Statistics**

**CMTH 800**

**Prerequisite(s):** CMTH 501

**Antirequisite(s):** CMTH 510

Through this course, students will learn statistical simulation of random variables and stochastic differential equations. Numerical solutions for partial differential equations, finite differences, and finite element methods will be examined. Optimization methods such as linear and nonlinear programming and the simplex method will be explored. Matlab software will be used in assignments as a numeric and symbolic tool.

52 Hours  Fee: $725

**Winter 2014**

Tuesday  18:00-22:00  Jan 14-Apr 15

**Spring/Summer 2014**

Tuesday & Thursday  18:00-22:00  May 6-Jun 17

**Linear Algebra**

**CMTH 108**

Systems of linear equations, determinants, vectors, geometry, linear transformations, matrices and graphs, number fields, applications.

52 Hours  Fee: $959

**Fall 2013**

Monday  18:00-22:00  Sep 9-Dec 9

**Spring/Summer 2014**

Monday & Wednesday  18:00-22:00  May 5-Jun 18

**Discrete Mathematics I**

**CMTH 110**

This course covers the fundamentals of discrete mathematics with a focus on proof methods. Topics include: propositional and predicate logic, notation for modern algebra, naive set theory, relations, functions and proof techniques.

52 Hours  Fee: $1035

**Fall 2013**

Monday  18:00-22:00  Sep 9-Dec 9

**Winter 2014**

Tuesday  18:00-22:00  Jan 14-Apr 15

**Spring/Summer 2014**

Monday & Wednesday  18:00-22:00  May 5-Jun 18

**Mathematics for Professional Programs**

**CMTH 125**

Basic Algebra, finite series, coordinate geometry, trigonometric functions, radicals and exponents, exponential and logarithmic functions, and a basic introduction to statistics.

52 Hours  Fee: $1035

**Fall 2013**

Wednesday  18:00-22:00  Sep 11-Dec 11

**Spring/Summer 2014**

Monday & Wednesday  18:00-22:00  May 5-Jun 18

**Calculus and Computational Methods I**

**CMTH 207**

Calculus of functions of one variable and related numerical topics. Derivatives of algebraic, trigonometric and exponential functions. Differentiation techniques and applications of derivatives. Techniques of integration, numerical integration.

Note: It is recommended that students take OAC or Grade 12 U Calculus prior to taking this course.

52 Hours  Fee: $891

**Fall 2013**

Tuesday  18:00-22:00  Sep 10-Dec 10

**Winter 2014**

Tuesday  18:00-22:00  Jan 14-Apr 15

**Spring/Summer 2014**

Monday–Wednesday  18:00-22:00  May 5-Jun 18

**Probability and Statistics I**

**CMTH 304**

**Prerequisite(s):** CMTH 310 or MTH 240 or MTH 231

Topics include: Brief Introduction to Statistics. Description of Numerical Data. Elements of Probability Theory. Discrete Probability Distribution. (Hyper-geometric, Binomial, Poisson). Normal Distribution and its applications. Sampling Distributions. The t-distribution and the X2 distribution. Confidence Interval and Hypothesis Testing concerning the mean, variance and proportion of a single population. Confidence Interval and Hypothesis Testing concerning the mean and proportion of two populations, the F-distribution. SAS will be used in this course.
For the most current information, see our website at www.ryerson.ca/ce.

**MATHEMATICS**

52 Hours  Fee: $840

**Fall 2013**
Tuesday  18:00-22:00  Sep 10-Dec 10
**Winter 2014**
Tuesday  18:00-22:00  Jan 14-Apr 15
**Spring/Summer 2014**
Monday & Wednesday  18:00-22:00  May 5-Jun 18

**Calculus and Computational Methods II**  CMTH 310

Prerequisite(s): CMTH 207

Integration techniques, improper integrals, sequences, infinite series, power series, partial derivatives, maxima and minima.

52 Hours  Fee: $841

**Winter 2014**
Monday  18:00-22:00  Jan 13-Apr 14
**Spring/Summer 2014**
Monday & Wednesday  18:00-22:00  Jun 23-Aug 11

**Probability and Statistics II**  CMTH 404

Prerequisite(s): CMTH 304 or MTH 380
Antirequisite(s): MTH 480

Topics include: Multivariate Distributions. ANOVA one- and two-way. Simple linear regression models; multiple regression analysis including variable selection techniques; regression diagnostics, goodness of fit test. Non-linear regression. A statistics computer package may be used in this course.

39 Hours  Fee: $563

**Winter 2014**
Tuesday  18:30-21:30  Jan 14-Apr 15
**Spring/Summer 2014**
Tuesday & Thursday  18:30-21:30  May 6-Jun 17

**Introduction to Stochastic Processes**  CMTH 500

Prerequisite(s): CMTH 404 or MTH 480

39 Hours  Fee: $576

**Winter 2014**
Monday  18:30-21:30  Jan 13-Apr 14
**Spring/Summer 2014**
Tuesday & Thursday  18:30-21:30  Jun 24-Aug 7

**Numerical Analysis I**  CMTH 501

Prerequisite(s): MTH 231 or (CMTH 108 and CMTH 310)
Antirequisite(s): MTH 510

52 Hours  Fee: $840

**Winter 2014**
Tuesday  18:00-22:00  Jan 14-Apr 15
**Spring/Summer 2014**
Tuesday & Thursday  18:00-22:00  May 6-Jun 17

**NEW!**

**Financial Mathematics I**  CMTH 700

Prerequisite(s): Prerequisite: CMTH 500

Topics include: Introduction to the fundamental topics in financial mathematics including fixed income instruments and derivative pricing. Stochastic calculus, martingales and Itô’s formula are the main modeling tools used in the course. Pricing and hedging for a wide range of option contracts and future derivatives are developed for several models and by means of analytical and numerical techniques.

52 Hours  Fee: $840

**Fall 2013**
Tuesday  18:30-21:30  Sep 10-Dec 10
**Winter 2014**
Monday  18:30-21:30  Jan 13-Apr 14

**NEW!**

**Financial Mathematics II**  CMTH 800

Prerequisite(s): CMTH 700

This course covers fixed income derivatives and the quantitative aspects of risk and portfolio management in modern finance. It introduces single factor interest rate models and pricing and covers analysis of risk measures and their properties, market, credit risk and an overview of other types of risks. The course also develops portfolio optimization techniques. Case studies and preparation for financial certification programs (FRM and PRM) are also included.

52 Hours  Fee: $TBA

**Fall 2013**
Monday  18:30-21:30  Sep 9-Dec 9
**Winter 2014**
Tuesday  18:30-21:30  Jan 14-Apr 15
MINING MANAGEMENT

Mining is an incredibly diverse sector, with more than 120 occupations ranging from skilled trades to high-tech professionals, including managers, financial analysts, environmental coordinators, and community developers. There is an urgent need in the mining industry for employees who have practical as well as theoretical skills such as project management, and who understand and have been exposed to real-world cases and simulations. This program will prepare students to work in a global environment and use cross-disciplinary skills to span the disconnects between science and business and community development and business. For more information, visit www.ryerson.ca/ce/mining.

Mining Management

Related certificate(s): Mining Management (pg. 104)

- CSR, Sustainability, and Mining CZMM 403
  This course addresses the triumverate of the sustainability model - economy, society, and environment - in the context of corporate social responsibility in the mining sector. Students will be introduced to the challenges facing mining firms in balancing the economic sustainability of the firm with the need for long-term economic, social, and environmental benefits for the community in which they operate.

  39 Hours  Fee: $763
  Fall 2013  TBA

- Exploration and Development Operations CZMM 411
  Prerequisite(s): CZMM 403 and CZMM 420
  The principle emphasis of exploration and development operations is the application of operations management theory (productivity, quality management, project management) to the mining sector. Topics include exploration methods, drilling engineering, reserves estimation and appraisal, production operations, safety and the environment, the role and importance of sustainable development in extractive sector operations, abandonment operations, and site rehabilitation. This course is intended for students who wish to be more familiar with the operations of extractive sector firms and will highlight operations from mining, oil and gas, and renewable energy projects.

  39 Hours  Fee: $763
  Winter 2014  TBA

- Resource Valuation, Financing, and Investor Relations CZMM 420
  This course integrates skills in financial statement analysis, economic analysis, quantitative analysis, taxation, and the valuation of equity and fixed income securities within the context of the mining sector. Topics include interrelation of economic and market conditions, security valuation techniques, specific requirements of individual and institutional investors, development of suitable investment policies, ethical investing, construction of multi-asset portfolios, implementation of the plan, monitoring the profile, responding to changes, and measurement and evaluation of performance.

  39 Hours  Fee: $763
  Winter 2014  Wednesday 18:30-21:30  Jan 15-Apr 16

- Risk Management and the Mining Sector CZMM 421
  Prerequisite(s): CZMM 403 and CZMM 420
  This course addresses the design and operation of a risk management system within the context of the mining sector. Management, investment, and hedging strategies are discussed, with specific consideration given to the measure of market risk, including commodity, credit, operational, environmental, and liquidity risks. The functional role of risk management professionals within an extractive sector firm is also reviewed, with emphasis on their function as designers and implementers of risk management policies, procedures, and practices.

  39 Hours  Fee: $763
  Winter 2014  TBA

- Mining Management Accounting CZMM 422
  Prerequisite(s): CZMM 403 and CZMM 420
  Designed for mining sector majors who wish to have a greater foundation in accounting, this course introduces basic management accounting concepts to students in the context of the mining sector. Topics covered provide a good balance between the concepts and procedures used in accumulation and use of data by management accountants to facilitate planning and decision-making. Mining sector cost behaviours and their implications for planning, reporting to management, ethical accounting practices, and control are stressed.

  39 Hours  Fee: $763
  Winter 2014  TBA

- Mining in the Global Environment CZMM 430
  Prerequisite(s): CZMM 403 and CZMM 420
  Intended for students who wish to expand their knowledge of mining management in an international setting, this course provides an overview of the global mining business environment. The political, economic, social, technological, environmental, and legal characteristics of the remote environment in which mining companies operate are addressed. There will be particular emphasis on the principles of sustainable development in international operations.

  39 Hours  Fee: $763
  Winter 2014  TBA

- Corporate Strategy in the Mining Sector CZMM 500
  Prerequisite(s): Department consent
  This capstone course addresses the practice and concepts of strategic management in the extractive sector using appropriate theoretical models and frameworks. Students examine the concept of strategy creation within the sector and the manner by which external and internal drivers influence strategic choice and implementation. Interwoven throughout the course are the concepts of stakeholder engagement, ethics, and corporate responsibility.

  39 Hours  Fee: $763
  Spring/Summer 2014  TBA
The interprofessional Certificate in Advanced Neuroscience-Stroke Care offers health care providers the opportunity to develop an advanced understanding of evidence-based practices and research across the continuum of neuroscience and stroke client-centred care.

Neuroscience

Please visit www.ryerson.ca/ce/neuroscience-stroke for information on the Interprofessional Certificate in Advanced Neuroscience-Stroke Care.

- **Critical Appraisal of Evidence**
  - Prerequisite(s): Department consent
  - CVNS 600
  - This course will provide interprofessional health care providers with an interest in a neuroscience-stroke specialty with the knowledge and skills required to critically appraise evidence to inform and apply findings to practice. Course content will be taught in the context of the interprofessional team and will be directly applicable to the delivery of patient-centered care. This course is designed to engage students in interactive, application-focused learning.
  - Note: Ontario Telemedicine Network (OTN) Videoconference/Internet: Delivery of courses takes place via two-way videoconferencing systems at various site locations (dates and times - TBA) plus a mandatory weekly Internet component. 39 Hours  Fee: $724
  - See www.ryerson.ca/ce/neuroscience-stroke for further information.

- **Health Promotion Paradigms**
  - Prerequisite(s): Department consent
  - CVNS 620
  - This course is designed for health care professionals, health educators, as well as those with functional management responsibilities from all health disciplines interested in advancing health promotion, risk factor management and chronic illness prevention within the Ontario Stroke System. The purpose of this course is to develop core competencies in health promotion and prevention of transient ischemic attack and stroke in an interprofessional context across the continuum of stroke care.
  - Note: Ontario Telemedicine Network (OTN) Videoconference/Internet: Delivery of courses takes place via two-way videoconferencing systems at various site locations (dates and times - TBA) plus a mandatory weekly Internet component. 39 Hours  Fee: $724
  - See www.ryerson.ca/ce/neuroscience-stroke for further information.

- **Brain Structures and Cognition**
  - Prerequisite(s): Department consent
  - CVNS 630
  - This course provides an advanced knowledge of brain structure, function, consequences of brain injury, and related clinical applications for interprofessional neuroscience-stroke settings. The main focus of this course is on the organization of the human brain and the role of the brain in motor control, attention, language, memory, executive function, and emotion. The course is designed to engage learners in interactive, application-focused learning. Equivalent to PSY 434.
  - Note: This course is only available to students registered in the Certificate in Advanced Neuroscience-Stroke Care.
  - Ontario Telemedicine Network (OTN) Videoconference/Internet: Delivery of courses takes place via two-way videoconferencing systems at various site locations (dates and times - TBA) plus a mandatory weekly Internet component. 39 Hours  Fee: $708
  - See www.ryerson.ca/ce/neuroscience-stroke for further information.

- **Neuro-Stroke Assessment**
  - Prerequisite(s): CVNS 640
  - CVNS 640
  - This course will provide information for the development of clinical core competencies and knowledge important in neuroscience-stroke assessment for complex stroke clients and their families. This course will promote the utilization of emerging best practice and evidence and will examine domains of neuroanatomy, neurophysiology, and assessment to support client, goal setting, care interventions, and complex stroke recovery decision making by inter-professionals practicing in the neuroscience stroke care continuum.
  - Note: Ontario Telemedicine Network (OTN) Videoconference/Internet: Delivery of courses takes place via two-way videoconferencing systems at various site locations (dates and times - TBA) plus a mandatory weekly Internet component. 39 Hours  Fee: $724
  - See www.ryerson.ca/ce/neuroscience-stroke for further information.

- **Client Stroke Rehabilitation Recovery**
  - Prerequisite(s): CVNS 640
  - CVNS 650
  - This course provides information for the development of clinical core competencies and knowledge in rehabilitative care, recovery and life re-engagement planning for complex stroke clients and their families. By promoting the use of emerging best practice and evidence in neuroscience-stroke care, this course will examine areas essential to the philosophy of stroke recovery, assessments for goal setting, current treatments, and care interventions for use by inter-professionals practicing in the neuroscience stroke care continuum.
  - Note: Ontario Telemedicine Network (OTN) Videoconference/Internet: Delivery of courses takes place via two-way videoconferencing systems at various site locations (dates and times - TBA) plus a mandatory weekly Internet component. 39 Hours  Fee: $724
  - See www.ryerson.ca/ce/neuroscience-stroke for further information.

- **Leadership in Stroke Care**
  - Prerequisite(s): Department consent
  - CVNS 660
  - This course establishes foundational knowledge of the theory research and practice of transformational and situational leadership important in inter-professional collaboration. Grounded in the realities within neuroscience-stroke care settings, students will examine the topics of power and influence, communication, diversity, conflict management, decision making and problem solving, team effectiveness, altering behaviour, and change management.
  - Note: Ontario Telemedicine Network (OTN) Videoconference/Internet: Delivery of courses takes place via two-way videoconferencing systems at various site locations (dates and times - TBA) plus a mandatory weekly Internet component. 39 Hours  Fee: $724
  - See www.ryerson.ca/ce/neuroscience-stroke for further information.
NEW MEDIA

The following series of courses provides instruction that is relevant to new media production in business, in the communications industry, in architecture and interior design, and in education and the arts. Courses explore production concepts and the creative possibilities of composition, computer imaging, and many other aspects of new media.

Equipment/Facilities Use: Please note that equipment and facilities use outside of class time will not be provided.

New Media

These courses may be taken as individual courses for professional or personal development. Related certificate(s): Design for Arts and Entertainment (pg. 45), Film Studies (pg.65), Image Arts (Film Studies, New Media, or Photography Studies) (pg. 67)

★ Introduction to Web Presentation
CDNM 109
Students develop a public presentation strategy that includes designing and constructing a web page featuring their student work or business profile. Students produce a printed poster using text, graphics, and manipulated images. By conducting creative, technological, and academic research, students gain an introduction to Adobe Photoshop, Dreamweaver, and Flash animation, as well as basic HTML5 and CSS3. Design and usability concerns will be discussed and students will learn to apply these concepts to their work. Equivalent to MPM 107.

39 Hours  Fee: $616

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12
Spring/Summer 2014
Thursday 18:30-21:30 May 8-Jul 11

★ Introduction to Interaction Design
CDNM 121
Students will learn core programming skills using Processing (an open source platform) to generate dynamic images with the goal of creating interactive experiences. This course introduces students to data-based and code-based practice. Students will examine behavioural media and how to design for it and develop their own artistic and thematic concerns through projects. Emphasis will be placed on finding and creating structure and meaning in new media experiences. Equivalent to MPM 207.

39 Hours  Fee: $616

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
Spring/Summer 2014
Wednesday 18:30-21:30 May 7-Jun 7

★ Flash for New Media
CDNM 209
Students will use Flash and Action Script to create an algorithmic design, animation, and a dynamic interface. This studio class introduces students to fundamental concepts, techniques, and strategies of computer programming as an art form by teaching how to code interactive programs. The course investigates the interplay between creative expression and technological capability. Equivalent to MPM 206.

39 Hours  Fee: $616

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

★ Video and Audio for New Media
CDNM 221
This studio class introduces students to fundamental concepts, techniques, and strategies for video production. Project development and production, media literacy, reflective thinking, and public presentation strategies are aimed at creating a strong foundation in media. Video and audio production formats for the web will be examined. Equivalent to MPM 106.

39 Hours  Fee: $616

Winter 2014
Saturday 10:00-16:35 Jan 11-Mar 1

Supplies to be purchased by the student: $50–$100; details will be provided at the first class.
There will be no class on February 15.

★ Introduction to Physical Computing
CDNM 322
This course introduces students to the conceptual and technical concerns associated with making physical and hybrid experiences. Students will use open source software (Processing) and hardware (Arduino) to develop works that span the gap between virtual and physical worlds. (Equivalent to MPM 308.)

Note: Knowledge of scripting or coding is an asset.

39 Hours  Fee: $593

Spring/Summer 2014
Tuesday 18:30-21:30 May 6-Aug 5

Supplies to be purchased by the student: $50.

★ Visual Studies I
CMPC 101
This course will deal with the fundamentals of expression and interpretation in the visual arts. Students will undertake applied exercises related to the elements and principles of composition and design. Completed projects will be critiqued with reference to traditional and contemporary design issues. The course’s main setting is the studio, where a variety of materials and approaches are explored.

39 Hours  Fee: $621

Fall 2013
Saturday 10:00-16:35 Sep 14-Nov 2
Spring/Summer 2014
Wednesday 18:30-21:30 May 7-Jun 4
and Saturday 10:00-17:00 May 10-Jun 7

Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students after the first class. Cost approximately $70.

★ Art and the Classical Tradition
CMPC 103
This course examines the evolution of Western Art from its origins in pre-historic times to the early 19th century. Issues and context considered include: aesthetics and antiquity; classical revivals of the Renaissance; Neo-Classicism; art in the service of religion in Medieval and Baroque Europe; and the birth of individualism during the Enlightenment and the Romantic periods. (Formerly first half of MPC13AB).

39 Hours  Fee: $621

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9
Spring/Summer 2014
Monday & Wednesday 18:30-21:30 May 5-Jun 18

★ Concepts and Theories
CMPC 201
This lecture course introduces the concepts and theories which animate visual work in all media and forms, and provides a foundation for students embarking upon their studies in the Film, Photography and New Media options. It offers theoretical, historical and cross-disciplinary perspectives, and is designed to establish a framework of knowledge that will enhance understanding of the cultural and technical power and inherent characteristics of each of these media.

39 Hours  Fee: $621

Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11
Winter 2014
Wednesday 18:30-21:30 Jan 15-Apr 16

Distance: Internet Jan 11-Apr 12
Tuesday 18:30-21:30 Jan 14-Apr 15
For information on distance education, visit www.ryerson.ca/ce/de.

★ Developing Effective Organizations CINP 901
The emphasis in this course, is on developing approaches that both employees and volunteers in nonprofit organizations can use to deal effectively with the issues facing their organizations. The course explores principles and practices of management and administration as they are adapted to board-staff relations, board governance, recruiting and motivating volunteers, human resource management, accountability, organizing for and managing growth and change, analysis of an organization’s market and organizational strategic planning.

39 Hours Fee: $563
Fall 2013
Distance: Internet Sep 7-Dec 7
Tuesday 18:30-21:30 Sep 10-Dec 10
For information on distance education, visit www.ryerson.ca/ce/de.

★ Program Evaluation CINP 902
In the current climate of increased demands for public accountability, nonprofit organizations need to develop sound program planning and evaluation skills. Both funding and public demands for internal and external accountability at the program and organizational levels will be explored. This course will focus on the development of knowledge and skills to plan and evaluate programs and services in a variety of human service organizations. Topics include models of evaluation and strategies for assessing accountability.

and Saturday 9:00-17:00
and Saturday 9:00-17:00
Spring/Summer 2014
Distance: Internet
For information on distance education, visit www.ryerson.ca/ce/de. Saturday sessions are classroom-based and are a mandatory course component.

Issues of Diversity
The challenges facing organizations today require management, staff, and volunteers to work together collaboratively. Developing effective problem-solving skills and understanding group dynamics is key to addressing issues of diversity, change, and conflict. This course will explore diversity as it relates to patterns of communication, dynamics of team function, volunteer and staff recruitment and development, and various approaches to team building. Teaching practical skills will be a key component in this course.

Financial Management
It is essential for those working in the nonprofit sector to understand the competitive funding environment in which they operate. Students will gain understanding of the fiscal environment, including discussions of different funding sources and mechanisms, financial information systems, and budgetary priorities and processes. This course also provides students with the financial analysis tools required to use the budgetary and financial information relevant to public and para-public organizations, as well as developing reporting and evaluation skills.

NGOs and World Governance
This course investigates the expanding role of Non Governmental Organizations (NGOs) in the creation and implementation of public policy at a global level. It addresses the evolution of international NGOs (INGOs) as significant actors on the policy stage. The course analyses these organizations, with particular emphasis on the diversity of organizations, the types of activity in which they are engaged, and how their structures and activities have combined to increase their role in global governance.

For information on distance education, visit www.ryerson.ca/ce/de. Saturday sessions are classroom-based and are a mandatory course component.

Certificate and degree credit Degree credit Certificate credit Course series
Critical Issues in the Third Sector

**Prerequisite(s):** CINP 900 and CINP 901 and CINP 902

Critical Issues in the Nonprofit and Vol. Sector. Changing its focus each year, this course offers students opportunities to identify and explore current issues relevant to their own organizations and areas of interest. It presents students with a chance to examine critical issues in far greater depth than would normally be the case. Students will conduct guided research, applying theory to practice, in an area of their choosing.

**NURSING**

The G. Raymond Chang School of Continuing Education, in cooperation with the Daphne Cockwell School of Nursing, has been highly responsive to the needs identified by nurses for high-quality, accessible, degree-level educational opportunities. Credit courses are offered in three categories:

(a) degree-credit professional courses selected from the BScN program,

(b) prerequisite and professionally related elective arts courses, and

(c) specialized credit electives in the Certificate in Advanced Nursing Leadership and Management.

More information and resources are available online at www.ryerson.ca/ce/nursing, including room numbers, regional access centre locations, course outlines, information on the 19- and 30-month part-time degree in Nursing, and the Nursing Academic Planner.

Please note that all nursing courses involve computer use. Students require access to a computer with Microsoft Windows (Windows 2003 minimum) and Internet Explorer.

**Nursing**

Related certificate(s): Health Services Management (pg. 81), Nursing Leadership and Management, Advanced (pg. 109)

Flashlight: Nursing Practice I

**Prerequisite(s):** CNUC 832, CNUR 600, CNUR 805, CPHL 302 and [(CNUR 850 and CNUR 860) or NUR 80B]

**Corequisite(s):** CNUR 810 and CNUR 833

This is the first of two clinical courses in which the students will use nursing and other theorists to guide their practice. Students will apply teaching-learning, communication, health promotion and community health principles when working with individuals, groups and families in community-based settings. Students will practice culturally sensitive, creative and flexible nursing. Emphasis will be placed on critical thinking, self reflection, utilization of research findings and the application of concepts from leadership and change.

**Note:** In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling reflects the classroom-based instruction. In addition, students are required to participate in a mandatory weekly Internet component.

Flashlight: Nursing Practice II

**Prerequisite(s):** CNCL 700

**Corequisite(s):** CNUR 820 or CNUR 823 or CNUR 824 or CNUR 825 or CNUR 826 or CNUR 827 or NUR 828

This clinical course will provide students with the opportunity to consolidate program and course learnings. Using theoretical approaches that are relevant to the practice setting, students will assume responsibility for more complex assignments expected of a beginning level baccalaureate graduate. Critical thinking and reflective practice will be key components of this course. Emphasis will be placed on the multiplicity of nursing roles in hospital and community settings. Students may apply theory from their nursing elective in the final practice setting. Clinical group meetings will be scheduled throughout the term.
Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling reflects the practice-based instruction. In addition, students are required to participate in a mandatory weekly Internet component.

The Evolution of Theoretical Knowledge  CNUR 805

In this course, the student will explore the philosophical evolution of nursing knowledge as an art and a science. Using a transformation theory base, the student will analyze a variety of nursing theories, concepts, and models, and the roots of her/his own perspective of nursing practice. Major emphasis will be placed on the use of a theoretical framework to direct the processes of assessment, clinical judgment, care planning and evaluation. The interrelationship of systems theory and nursing theories, and their application to practice is examined.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling reflects the classroom-based instruction. In addition, students are required to participate in a mandatory weekly Internet component.

CNUR 833

Organizational Context of Practice

Prerequisite(s): CNUR 831

This course expands students’ knowledge of the macro, meso and micro-level factors in the health care system impacting service delivery and professional practice. Students critically analyze forces in the internal and external operating environments influencing strategic management decisions and organizational behaviours. This analysis fosters an enhanced understanding of the broad contextual factors shaping nursing roles and influencing how nurses enact their roles within different health service organizations and settings.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling reflects the classroom-based instruction. In addition, students are required to participate in a mandatory weekly Internet component.

Current Issues and Future Perspectives

This course will examine the legal, political, economic and social complexities of current health care delivery systems. Current issues and future perspectives in health care will be critically analyzed in relation to their implication for and their influence on the organized profession, individual nurses and nursing practice. Students will be expected to take personal and professional action in addressing some of these issues through their use of the political process and in the application of research finding. At a beginning level, students will participate in the development of health and social policy.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling reflects the classroom-based instruction. In addition, students are required to participate in a mandatory weekly Internet component.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.

39 Hours  Fee: $575

Prerequisite(s): CNUR 830

This course will focus on the nurse’s role in providing leadership and facilitating change in both personal and professional contexts. Content will include analysis of theory and concepts related to leadership, followership, change and effective communication within a diverse workforce. The impact of Informatics on the delivery of nursing and health care will be explored. The use of research findings and their application to practice will be emphasized. Students will be expected to identify and apply leadership strategies for personal development and professional practice.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling reflects the classroom-based instruction. In addition, students are required to participate in a mandatory weekly Internet component.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times that may vary or extend past the scheduled course end date. Details will be provided at the start of each course.
In this course students will examine the contribution of research to the development of nursing science. They will explore the relationships between research and knowledge; and theory and practice. The focus will be on understanding the components of the research process, in the positivist and naturalist paradigms, as well as mixed methods designs. Students will use computer technology to search the nursing and health-related literature. The ethical conduct of research will be addressed. Students will learn to interpret and critically appraise nursing research studies, applying research findings to practice, and identifying areas for further nursing research.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

24 Hours  HST included  Fee: $420

Fall 2013
Classroom/Internet: Internet and Saturday 9:00-17:00 Aug 9-Sep 13
and Saturday 9:00-17:00 Aug 9

Winter 2014
Classroom/Internet: Internet and Saturday 9:00-17:00 Dec 7-Jan 11
and Saturday 9:00-17:00 Dec 7

Spring/Summer 2014
Classroom/Internet: Internet and Saturday 9:00-17:00 Apr 12-May 10
and Saturday 9:00-17:00 Apr 12

CRNE Preparation Workshop I CVNU 111
Prerequisite(s): Department consent

This is Part 1 of the CRNE Preparation Workshop and is designed to assist nurses to prepare for the Canadian Registered Nursing Examination (CRNE). The session provides nurses with an overview of the CRNE exam design and identifies strategies for creating an effective eight-week study plan. Participants will also have an opportunity to write a one-hour mock exam and review their results.

8 Hours  HST included  Fee: $52

Fall 2013
Friday 9:00-17:00 Aug 9

Winter 2014
Saturday 9:00-17:00 Dec 7

Spring/Summer 2014
Saturday 9:00-17:00 Apr 12

CRNE Preparation Workshop II CVNU 112
Prerequisite(s): CVNU 111

This workshop is designed to augment the strategies introduced in CVNU 111 to assist nurses preparing to write the CRNE exam. This workshop includes in-class workshops designed to promote problem-solving and critical-thinking skills through multiple-choice exam examples and simulated clinical activities. The simulated activities will be derived from different practice areas, including maternal health, paediatrics, mental health, palliative, and medical-surgical care. Learning is further supplemented by online learning modules.

16 Hours  HST included  Fee: $167

Fall 2013
Classroom/Internet: Internet and Saturday 9:00-17:00 Aug 23-Sep 13
and Saturday 9:00-17:00 Aug 23

Winter 2014
Classroom/Internet: Internet and Saturday 9:00-17:00 Dec 14-Jan 11
and Saturday 9:00-17:00 Dec 14

Spring/Summer 2014
Classroom/Internet: Internet and Saturday 9:00-17:00 Apr 26-May 10
and Saturday 9:00-17:00 Apr 26

Paediatric Health Assessment CVNU 280
Prerequisite(s): CNUR 816 or NSE 13B and Department Consent

This course provides students with the knowledge and skills necessary for the health assessment of infants, children, and adolescents. Physical assessment techniques will be addressed across all paediatric developmental stages. Assessment of pain, nutritional status, mental health, and psychosocial needs will also be incorporated. Implications of cultural diversity and the determinants of health for the assessment of child and family will be considered.

Note: It is strongly recommended that students have previous experience in a paediatric environment.

51 Hours  Fee: $723

Fall 2013
Distance: Internet and Thursday (The Hospital for Sick Children (SickKids)) 9:00-17:00 Sep 7-Dec 6
and Friday (The Hospital for Sick Children (SickKids)) 9:00-17:00 Dec 5

Winter 2014
Distance: Internet and TBA (The Hospital for Sick Children (SickKids)) 9:00-17:00 Jan 11-Apr 16
and TBA (The Hospital for Sick Children (SickKids)) 9:00-17:00 Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

Health and Social Policy CVNU 317
This course explores the definition of policy, and its contexts, development, and effects at the community, professional, corporate and government levels. It introduces concepts related to policy content, process, outcome, and analysis and it investigates the nurse’s role in policy development. The relationship between health and social policy to people, their environments, their health, and nursing is addressed through critical analysis, discussion, small group process, expert guest presentation, and independent study. Case studies relating to current health and social policies will also be reviewed in the classroom setting. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling reflects the classroom-based instruction. In addition, students are required to participate in a mandatory weekly Internet component. In addition, students are required to participate in a mandatory weekly Internet component.

Students enrolled in Internet or videoconferencing sections of this course are required to write the course test and/or exams online at preassigned dates and times that may vary or extend past the scheduled course end date. Details will be provided at the start of each course.

39 Hours  Fee: $563

Fall 2013
Distance: Internet and Thursday (The Hospital for Sick Children (SickKids)) 9:00-17:00 Sep 7-Dec 7
and Friday (The Hospital for Sick Children (SickKids)) 9:00-17:00 Dec 5

Winter 2014
Distance: Internet and TBA (The Hospital for Sick Children (SickKids)) 9:00-17:00 Jan 11-Apr 12
and TBA (The Hospital for Sick Children (SickKids)) 9:00-17:00 Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

See the Nursing website, www.ryerson.ca/ce/nursing, for further information.

Health Law CVNU 320
The objective of this course is to give students an understanding of the components of negligence actions, labour arbitrations, discipline proceedings, and inquests. The relationship between standards of practice, ethics, and different legal proceedings will be reviewed. Particular emphasis will be given to the impact of the intervention by nurse managers on the development and outcome of the case. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling of this course reflects the classroom or videoconferencing-based instruction. In addition, students are required to participate in a weekly Internet component.

★ Financial Management CVNU 321
This course will examine the financial strategies and processes used by health care institutions and agencies to manage their human and material resources. The specific mechanisms used by hospitals to develop and monitor their budgets as well as trends in reimbursement and management information systems will be reviewed. Basic accounting principles will be included to facilitate examination and use of financial statements and balance sheets. Considerable time will be devoted to reviewing the concepts related to staffing, budgeting, and monitoring to assist the student to develop a budget for a prototype nursing unit. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

★ Computer and Information Management in Nursing CVNU 322
In today’s health care environment, decisions must be based on sound information to provide quality care in a cost-effective way. Well-informed decisions require accurate, complete, and timely information obtained from well-managed data processes. Health care professionals must be fluent and competent to work with the necessary tools to manage information. Computers and the applications which drive these machines are important to understanding the potential of information management. This course will explore various theories and concepts of information management and will allow the students to further their knowledge of computer concepts and applications. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

See the Nursing website, www.ryerson.ca/ce/nursing, for further information.

This is an advanced-level course. It is recommended that the student have a beginning knowledge of computer functions and have working knowledge of word processing software in order to complete assignments.

★ Advanced Leadership and Management CVNU 360
Prerequisite(s): Department consent
This course will build on core components of nursing leadership and management, with a specific focus on first-line management roles, using the LEADS in a Caring Environment Framework. Students will examine theories and concepts related to leadership capabilities, as well as develop management knowledge and skills. Applied learning methodologies will be used to develop students’ self-reflective, analytical leadership, and management skills.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Applicants must complete an application for pre-approval prior to registering in this course.

★ Change and Innovation CVNU 370
Prerequisite(s): CVNU 360 and Department Consent
This capstone course is an integrative course that provides the opportunity for students to apply the LEADS framework and related theories and concepts in a health services setting. Students will plan a change and/or innovation project based on a selected nursing leadership/management issue. A project report will be completed to provide evidence of the application, synthesis, and integration of the dimensions of the LEADS framework, as well as the individual student’s focus of study for the certificate.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Applicants must complete an application for pre-approval prior to registering in this course.

**NUTRITION**

These courses enhance knowledge of nutrition in related fields of study.

**Nutrition**

Related certificate(s): Food Security (pg. 71)

- **Nutrition for Nursing Practice**
  - CFNN 111
  - This course introduces nutrition as one of the interrelated determinants of health and examines both the role of environments and the importance of individual self-determination and self-knowledge in health promotion. The topics covered will include the basics of healthy eating, macro- and micronutrients, nutrition assessment, and nutrition principles through the lifespan. Student participation will entail group learning, self-assessment and self-reflection.
  - 39 Hours  Fee: $581
  - Spring/Summer 2014
  - Distance: Internet  May 3-Jul 26
  - For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

**OCCUPATIONAL HEALTH AND SAFETY**

These courses may be completed by distance education as well as in the classroom. For more information, visit [www.ryerson.ca/ce/ohs](http://www.ryerson.ca/ce/ohs).

**Occupational Health**

Related certificate(s): Advanced Safety Management (pg. 23), Advancing the AODA: Principles and Practices of Accessibility (pg.24), Facility Management (pg. 62), Occupational Health and Safety (pg. 111)

- **Foundations of Aetiology**
  - CENH 222
  - This is a foundation course to the study of epidemiology, which itself is the core science of occupational and public health. The course will provide the framework required for upper level courses in communicable disease control, infection control and food hygiene. Lectures will cover the concepts underlying food and water quality control and the development and control of communicable and occupational diseases in human populations. Laboratory exercises will enable students to understand the methods used by public health and occupational health laboratories to evaluate food, water, environmental and clinical specimens, and to interpret laboratory reports.
  - 65 Hours  Fee: $897
  - Spring/Summer 2014
  - TBA

- **Occupational Health and Safety Law**
  - COHS 208
  - Antirequisite(s): CMHR 711
  - This course begins with an examination of the Workplace Safety and Insurance Act and how the compensation system operates. An emphasis is placed on a detailed examination of the Occupational Health and Safety Act and the Canada Labour Code Part 2. A thorough analysis of the elements of the Internal Responsibility System is provided (duties, committees, work refusals). Secondary federal and provincial legislation is also covered. The course concludes with issues related to enforcement, prosecutions and due diligence.
  - Note: COHS cannot be replaced by CMHR 711 as a course credit towards the Certificate in Occupational Health and Safety.
  - 39 Hours  Fee: $579
  - Fall 2013
  - Tuesday 18:30-21:30  Sep 10-Dec 10
  - Winter 2014
  - Distance: Internet  Jan 11-Apr 12
  - Monday 18:30-21:30  Jan 13-Apr 14
  - Spring/Summer 2014
  - Distance: Internet  May 3-Jul 26
  - Monday–Friday 8:30-4:00  May 5-May 9
  - Monday–Friday 8:30-4:00  Jun 2-Jun 5
  - For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

- **Accident Theory and Analysis**
  - COHS 323
  - Prerequisite(s): CPCS 106 or in OC006
  - This course examines accident causation theories and methods used to model accidents, the investigation process, accident reporting and coding, and noteworthy accidents in history.
  - Note: Prerequisites apply to undergraduate students only. Chang School students without the course prerequisites must enroll by fax. Please print and fill out a Mail-In Enrollment Form and fax the form, including your credit card number and expiry date, to: Client Support, The G. Raymond Chang School of Continuing Education, Ryerson University, Fax Number: 416.979.5196.
  - 39 Hours  Fee: $568
  - Fall 2013
  - Distance: Internet  Sep 7-Dec 7
  - For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).
★ Integrated Disability Management  COHS 477
This course explores the key concepts of Integrated Disability Management. A multi-disciplinary approach to managing all forms of disability will be put forward based on sound best practice disability management techniques. Government legislation and regulations will be reviewed as well as the influence of non-governmental organizations. Multiple models of disability management will be presented. The assessment and evaluation of various return to work processes will be undertaken development and implementation. This course replaces OHS (COHS) 777.

39 Hours  Fee: $568

Fall 2013  Distance: Internet  Sep 7-Dec 7
Winter 2014  Tuesday  18:30-21:30  Jan 14-Apr 15
Spring/Summer 2014  Distance: Internet  May 3-Jul 26
Monday–Friday  8:30-18:00  May 12-May 16
For information on distance education, visit www.ryerson.ca/ce/de.

★ Occupational Health  COHS 508
This course is designed to introduce the student to the scientific basis of occupational health, specifically the relevant principles and concepts of toxicology, biophysics and ergonomics. The nature of common occupational health hazards and their effect upon the human body are examined. Examples of common protective measures and controls are also reviewed. This course is not available to students in OC001, OC003, or OC005.

39 Hours  Fee: $572

Fall 2013  Distance: Internet  Sep 7-Dec 7
Wednesday  18:30-21:30  Sep 11-Dec 11
Winter 2014  Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014  Distance: Internet  May 3-Jul 26
Monday–Friday  8:30-18:00  Apr 28-May 2
Tuesday & Thursday  18:30-21:30  May 6-Jun 17
Monday–Friday  8:30-18:00  Jun 9-Jun 13
For information on distance education, visit www.ryerson.ca/ce/de.

★ Ergonomics  COHS 516
Prerequisite(s): (ENH 220 and CPCS 106) or in OC006
This course is designed to provide a comprehensive overview of ergonomics emphasizing applications to product design and prevention of musculoskeletal injuries. The focus includes anthropometry, workplace design, and biomechanical and other human factors. It also covers physical and cognitive principles relevant to human performance and well-being that are reflected in workspace, interface and task design including controls and displays and manual materials handling. Ergonomic assessment methodologies will be used to assess design features and possible musculoskeletal problems.

Note: Prerequisites apply to undergraduate students only. Chang School students without the course prerequisites must enroll by fax. Please print and fill out a Mail-In Enrollment Form and fax the form, including your credit card number and expiry date, to: Client Support, The G. Raymond Chang School of Continuing Education, Ryerson University, Fax Number: 416.979.3196.

39 Hours  Fee: $559

Spring/Summer 2014  Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ Safety Evaluation Techniques  COHS 523
Prerequisite(s): CMTH 125 and CPCS 106
This course introduces principles of evaluation and surveys a range of methods used to evaluate safety, including the use of injury data, task analysis methods, goal structuring notation and safety cases, and introduces various qualitative and quantitative methods for evaluating safety including inspections, FMEA, fault tree analysis, HAZOP, human error identification methods, and related evaluation techniques.

Note: Prerequisites apply to undergraduate students only. Chang School students without the course prerequisites must enroll by fax. Please print and fill out a Mail-In Enrollment Form and fax the form, including your credit card number and expiry date, to: Client Support, The G. Raymond Chang School of Continuing Education, Ryerson University, Fax Number: 416.979.3196.

39 Hours  Fee: $559

Winter 2014  Distance: Internet  Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

★ Hazard Recognition and Control  COHS 608
This course introduces the techniques of hazard recognition and control and examines specific hazards—primarily of a physical and safety nature. Hazard recognition and hazard control are shown to be interrelated since inadequacies of control measures in themselves may constitute hazards. Not available to students in OC003 or OC006.

Note: This course is not open to ENVO, ENVIS, or ENVC students.

39 Hours  Fee: $579

Fall 2013  Distance: Internet  Sep 7-Dec 7
Winter 2014  Distance: Internet  Jan 11-Apr 12
Thursday  18:30-21:30  Jan 16-Apr 17
Spring/Summer 2014  Monday–Wednesday  18:30-21:30  May 5-May 9
Monday & Wednesday  8:30-18:00  Jun 23-Aug 11
For information on distance education, visit www.ryerson.ca/ce/de.

★ Safety Control Methods  COHS 623
Building upon earlier courses emphasizing hazard recognition and evaluation, this course examines the major categories of control methods, respiratory protective devices and measures essential to eliminate or reduce workplace hazards. The course emphasizes plant design, ventilation design, preventive maintenance, housekeeping, respiratory personal protective equipment and hygiene.

52 Hours  Fee: $736

Winter 2014  Distance: Internet  Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

★ Systems Management I  COHS 718
Basic concepts of management, decision-making and engineering design that affect the OHS specialist. Introduces individual elements of the contemporary OHS management system. Each element is considered from an evidence-based perspective, as a background for implementing codified management systems standards and best practices guidelines. Students will set health and safety priorities, develop management system plans, and negotiate health and safety requirements in the manufacturing, distribution, use, and/or disposal phases of a product or process life-cycle.
39 Hours  Fee: $563

Fall 2013  Distance: Internet  Sep 7-Dec 7
Monday  18:30-21:30
Winter 2014  Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014  Monday & Wednesday  18:30-21:30  May 5-Jun 18
Monday–Friday  8:30-18:00  Jun 9-Jun 13

For information on distance education, visit www.ryerson.ca/ce/de.

★ Sectoral Applications I  COHS 723
This course is concerned with two of the primary sectors of the economy: industrial and construction. The safety hazards and protective measures associated with machinery, equipment and tools, confined spaces, hoists, trenching, industrial trucks and electrical sources are examined. Relevant legislation is presented.
52 Hours  Fee: $742

Fall 2013  Distance: Internet  Sep 7-Dec 7
For information on distance education, visit www.ryerson.ca/ce/de.

★ Systems Management II  COHS 818
Prerequisite(s): COHS 718
This course continues the theme of OHS 718, offering exposure to further programs and components of a mature, comprehensive OHS system in the workplace. Programs covered include those concerning: health and safety management systems, workers' compensation, re-employment of injured workers, workplace violence, vehicles/transportation, off-the-job health and safety, "wellness," substance abuse, labour relations, and regulatory compliance.
39 Hours  Fee: $575

Spring/Summer 2014  Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ Sectoral Applications II  COHS 823
Prerequisite(s): COHS 723
This course continues the survey undertaken in OHS 723 Sectoral Applications I. Following an analysis of the particular hazards and control measures found in the forestry, mining and transportation industries, the course focuses on narrower sectors of the economy such as health care facilities, retail outlets, offices and utilities.
52 Hours  Fee: $742

Winter 2014  Distance: Internet  Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

★ Fire Safety Management  COHS 833
This course begins with an overview of fire chemistry followed by an analysis of fire prevention and fire protection methodologies. Hazard recognition and evaluation techniques are presented. Important aspects of Fire, Building, and Electrical Codes are reviewed. Emphasis is placed on emergency response planning and a review of the application of codes and regulations to specific fire events.
39 Hours  Fee: $563

Spring/Summer 2014  Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

★ Measurement and Analysis  CVOH 217
This course is designed to introduce the terminology, concepts, equipment, and techniques of occupational health and safety measurement and analysis. Topics covered include occupational hygiene, air sampling, data evaluation, biological sampling, and the assessment of heat stress, noise, vibration, radiation, illumination, and ventilation systems. Equivalent to OHS 421.
39 Hours  Fee: $575

Fall 2013  Distance: Internet  Sep 7-Dec 7
Winter 2014  Distance: Internet  Jan 11-Apr 12
Tuesday 18:30-21:30  Jan 14-Apr 15
Spring/Summer 2014  Monday–Friday  8:30-18:00  Jun 2-Jun 5
Tuesday & Thursday  18:30-21:30  Jun 24-Aug 7

For information on distance education, visit www.ryerson.ca/ce/de.

★ Topics in Occupational Health and Safety  CVOH 221
This course is an advanced seminar course that explores different means of inquiry into occupational health and safety. The course gives students an opportunity to learn the skills required to source out, research, examine, and synthesize topics in OHS in some depth. In the workplace, OHS professionals need to investigate issues they may not have expertise in. The students obtain an in-depth exposure to topics by researching and analyzing information, figuring out the implications for the workplace, summarizing the issues, and offering recommendations.

PHILOSOPHY AND MUSIC

In Music, we offer a range of courses in the traditions, development, variety, and cultural implications of various kinds of music.

In Philosophy, we cover both the ‘Big Questions,’ such as “What can we know?” or “How should we live?” or “Does God exist?,” as well as subject-oriented areas, such as philosophy of religion or ethics and health care. Sometimes, we deal with questions that have been discussed for thousands of years. Each generation has to answer them again, either expressly or by the implications of the choices they make and the beliefs they adopt. At other times, we deal with questions arising from the social arrangements and technologies we face right now - situations which may never have existed before. What unites these inquiries is the ‘philosophical turn,’ we learn how to uncover, evaluate, and use the most basic principles appropriate to the questions we tackle.

Humanities

Students enrolled in Ryerson degree programs are responsible for ensuring that any course selected from those listed meets the specific requirements of their program. For more detailed information regarding specific program restrictions, check the Undergraduate Calendar.

Exam and Assignment Readiness

This workshop is for Grade 10 and 11 high school students and their parents. In this active, “learn by doing” workshop, participants will begin to learn organizational skills, while their parents learn to help put their young adult students in control of their own homework assignments and exam studying; time-management skills, while parents learn to help empower their young adult students to complete work effectively, without undue pressure and leaving free time; and content-based and experiential learning skills through participation in simulated assignment preparation and study for tests.

Preparation for University Entry

This very active, “learn by doing” workshop for grade 12 students, complete with simulation games, is devoted to practicing to obtain the academic performance on assignments, tests, and papers required for entrance to four-year undergraduate university programs across Canada. The following skill sets are introduced and practiced: planning ahead and studying for all your assignments, tests, and papers; knowing the expectations for any work you produce: planning, preparing, writing, and revising your papers; and understanding the rules for correct attribution and citation.

Ethics Capstone Course

This final course in the Certificate in Ethics brings together the knowledge and skills acquired in preceding courses and requires their application to a ‘real-world’ ethical problem. Participants will produce a 30 to 40-page case study research paper on an ethical issue not covered elsewhere in the certificate but which fits into one of the six certificate streams. Participants have access to supervision and/or instruction but their efforts are largely self-directed.

Note: This course may be taken as individualized study/directed reading; please contact the Academic Coordinator, James Dianda, at jdianda@ryerson.ca prior to enrolling.

| 39 Hours | Fee: $673 |

For the most current information, see our website at www.ryerson.ca/ce.
This course surveys vocal repertoire from around the globe, and may include African drumming songs, ‘mingge’ from China, Mexican ‘corridos’, Indian ‘lok geet’, Canadian folk songs, South-Asian ‘qawwals’, and Eastern Europe folk song, among others. Students will explore the unique social histories and aesthetics of selected vocal genres with an eye to the breadth of stylistic approaches and forms of transmission in various cultural traditions. ★ The Architecture of Music

From the Pythagorean monochord that ancient Greeks used to align with the Music of the Spheres to the Chinese bamboo pipes that sounded the first Chinese pentatonic scale, each culture has created its own coherent structure. This course introduces students to the historical development and foundational theories of both ancient and contemporary musical form through the exploration of musical genres around the world. Lectures will situate musical theories in their socio-historical and cultural contexts. (LL)

★ Music and Film

The use of music with film has evolved from early stereotyped borrowing of nineteenth century classical European repertoire to newly created scores that enhance and support the dramatic themes of the film. This course explores the relationship between music and film, the functions and effects of music and how the music supports or plays against the visual images. Analysis of selected film genres will demonstrate how music can strengthen the film’s dramatic themes. (LL)

★ Music Cultures of the City

Large urban centres such as Toronto offer a tremendous variety of events, from superstars in the Rogers Centre to amateur folk musicians in local coffee houses. What are the ways we might better understand the relationship between music culture and the culture of the city? This course considers genres from a number of areas including popular music, world music, jazz and classical music. It examines issues of production, distribution and performance, as well as reception, venues and audiences.

★ Global Guitar

CMUS 303

The guitar, or plucked lute, is the de facto instrument of the masses in the western world. Through lecture, audio-visual screenings, discussion and experiential learning, this course explores the ways in which the guitar and its global variants have given voice to individuals and groups around the world, from ancient Persia and India to Africa and the Americas, and in so doing examines the impact of class, gender, race, politics and commercialization on creative self-expression.

★ Music, Religion and Spirituality

CMUS 401

This course explores the dynamic interrelationship of music, religion and spirituality in a multicultural context. Topics will include the role, style, and conception of music in the Islamic, Christian, Hindu, Jewish, Buddhist, Tibetan, and Taoist faiths, amongst others. The processes and traditions of spiritual practice through and with sound will be explored. The course will also analyze the musical forms through which these devotional practices are undertaken.

★ Latin American Music

CMUS 403

Latin America’s music spans indigenous Andean panpipe music, African-derived carnival music, Haitian voodoo ritual, Brazilian samba, and hip-hop music in Latin American urban centres, among others, and reflects the dynamic cultural fusions of past and present. Through lecture, audio-visual analysis and experiential musical exercises, this course explores the socio-cultural, historical and political impact of Latin American musical genres, and investigates music as a tool for healing, identity negotiation, political fomentation, and group expression.

**CPHL 302**  
**Ethics and Health Care**

**Antirequisite(s):** CPHL 509

This course examines ethical issues arising in the delivery of health care at both the level of the practitioner/client relationship (confidentiality, informed consent, euthanasia, abortion) and at a broader social level (justice and resource allocation, new technologies, professionalisation and power). The course will draw on: a) general philosophical analysis of central concepts (good, right, justice, personhood, autonomy, authority, integrity, health); b) general theoretical perspectives (feminism, “the Biomedical model”, Utilitarianism, deontology); and c) student professional education and clinical experience in nursing.
In light of our moral concepts and theories, this course critically examines current controversies concerning individual freedom and responsibility, social equality, and the limits of governmental authority. Topics are drawn from issues like the following: censorship of hate literature, pornography, and advertising; prohibition of drugs, gambling, and prostitution; group-differentiated rights concerning aboriginal peoples, cultural sovereignty, affirmative action, and pay equity. (LL)

39 Hours  Fee: $555

Spring/Summer 2014
Tuesday & Thursday  9:00-12:00  May 6-Jun 17

★ Business Ethics
CPHL 307

Antirequisite(s):
CITM 407, ITM 734

This course examines ethical issues and controversies concerning contemporary business practices and situates them within the broad intellectual framework of a free market society. Discussion will draw from such topics as: the concept of a market society, consumer sovereignty, utilitarian and contract models of business ethics, profit making and social responsibility, self interest and altruism, the concept of business as a practice, mechanistic and organic conceptions of business, advertising, human rights, and conflicts of interest.

★ Philosophy of Human Nature
CPHL 333

This course examines philosophical writings about human nature. Topics may include: 1) What meanings are there for the word ‘nature’? 2) How do we differentiate human nature from the nature of other sorts of beings? 3) What makes a response to a problem a human response? The course presumes that there are no unquestioned first principles, such as the existence of God, the inherent goodness of humans, or the objectivity of truth claims and values. (LL)

39 Hours  Fee: $547

Fall 2013
Monday  18:30-21:30  Sep 9-Dec 9

Winter 2014
Thursday  18:30-21:30  Jan 16-Apr 17

★ Ethics in Professional Life
CPHL 334

Prerequisite(s): ACS 105 or CSSH 105 or any PHL course

This course examines the many ways that organizations and professions institutionalize values, influence beliefs and attitudes, and guide conduct through prescriptions for professional practices and missions and mandates for organizations. The course focuses on prominent issues such as codes of ethics, conflict of interest, dirty hands, and whistle-blowing. Readings emphasize the complexities of virtue and moral agency for professionals and organizations, while comparing and contrasting selected established and emerging professions.

Note: This course may be taken as individualized study/directed reading; please contact the Academic Coordinator, James Dianda, at jdianda@ryerson.ca prior to enrolling.

39 Hours  Fee: $547

Spring/Summer 2014
Monday--Wednesday  9:00-16:30  Jun 9-Jun 18

★ Existentialism and Art Culture
CPHL 366

Through literature, visual art, film, and theory, this course explores existentialist lines of thought and their implications for modern day life. Existentialism is a philosophical and cultural movement critical of social illusions and self-deceptions that thwart genuine freedom. Exploring experiences of anxiety, futility, and isolation, analyzing the nature of the individual’s relation to society, morality and religion, and arguing for the irrational nature of reality, existentialist theorists and artists seek to promote freedom, creativity, authenticity. (LL)

39 Hours  Fee: $547

Winter 2014
Wednesday  18:30-21:30  Jan 15-Apr 16

Spring/Summer 2014
Monday & Wednesday  13:00-16:00  May 5-Jun 18

★ Human Rights and Justice
CPHL 400

This course aims to provide the philosophical background and conceptual tools which would enable students to recognize and handle complex contemporary issues and conflicts involving human rights. Topics include: classic and contemporary theories of rights and justice; equity and affirmative action; children’s rights; gender, sexual orientation and equality rights; aboriginal, language and cultural rights: human rights and cultural relativism. The course will combine lectures and discussion of selected philosophical readings and case studies.

39 Hours  Fee: $547

Spring/Summer 2014
Monday & Wednesday  18:30-21:30  Jun 23-Aug 11

★ Philosophy and Mass Culture
CPHL 401

This course will explore the phenomenon of popular culture from various philosophical perspectives. Philosophers are divided in their assessment of the aesthetic and moral worth of mass culture. While some thinkers, like Walter Benjamin and, more recently, Noel Carroll, tend toward an optimistic appraisal, others, like Theodor Adorno, adopt a much more critical attitude. Popular culture as a whole will be examined, but special attention will be given to film, photography, and television.

39 Hours  Fee: $547

★ Issues of Life, Death, and Poverty
CPHL 406

In light of our moral concepts and theories, this course critically examines current controversies concerning the sanctity of life, the constraints on ending life, and our obligations to provide the conditions for an acceptable life. Topics are drawn from issues like the following: abortion, euthanasia, capital punishment, genetic manipulation, war, torture, global poverty, famine relief, and basic welfare rights. (LL)

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
This course examines the rights, freedoms, and obligations of the media and practising journalists. Issues may vary somewhat from year to year, but the following are typical: the grounds and limits of freedom of expression; moral responsibilities respecting truth, balance, and objectivity; media ethics and business pressures; obligations to the public, to the audience, to source, to colleagues, to the employer, and to oneself. The course includes case studies as well as regular discussion of ongoing media activity.

39 Hours  Fee: $547

Knowledge, Truth, and Belief

Do we know anything? If so, what do we know, and how do we know it? What is the difference between knowledge and mere belief or opinion? How can we tell if our beliefs are justified? What makes some beliefs true, and others false? Epistemology - the study of knowledge - is the branch of philosophy concerned with such questions. This course explores these issues by examining some important contributions to the field, both historical and contemporary. (UL)

39 Hours  Fee: $547

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014

Spring/Summer 2014
Tuesday & Thursday 9:00-12:00  May 6-Jun 17

For information on distance education, visit www.ryerson.ca/ce/de.

Metaphysics

This course is an introduction to philosophical accounts of the fundamental structure and organization of reality. Questions to be considered may include: Why does the universe exist? What are space and time? Is the past as real as the present? Are future events fated to happen? How is change possible? Are there other universes besides the one we live in? Criticisms of philosophical attempts to answer these questions will also be discussed. (UL)

39 Hours  Fee: $547

Spring/Summer 2014
Monday & Wednesday 13:00-16:00  Jun 23-Aug 11

Health Care and Distributive Justice

This course examines ethical issues relating to the allocation of resources in health care contexts. The course will begin with an introduction to various philosophical accounts of distributive justice. Some of the questions examined include: What distinguishes health care from other goods distributed by society? Should market forces determine the allocation of health care? How should we balance the rights of care providers with the claims that clients make to receive health care?

39 Hours  Fee: $575

Modern and Contemporary Ethics

This course explores modern and recent answers to ethical questions such as: What makes an action right? What makes a person good? Are there moral demands that bind everyone? If so, can we know what they are? Does morality have its foundations in reason? Emotion? Social practices? Contributions from such thinkers as Hegel and Bradley, Moore, Ross, Foot, Williams, Gilligan, and MacIntyre will be studied. (UL)

39 Hours  Fee: $547

Fall 2013
Thursday 18:30-21:30  Sep 12-Dec 12
Spring/Summer 2014
Tuesday & Thursday 13:00-16:00  May 6-Jun 17

Existentialism

For existentialists, freedom is not a given, but something to achieve. Reading authors like Kierkegaard, Nietzsche, Sartre, Beauvoir and Heidegger, we’ll ask what aspects of the human condition tend to thwart true freedom: Self-deception? Social norms or religious codes? Anxiety in confronting death? Longing for absolute justification for life’s meaning? Alienation arising from an overestimation of reason or technology? We’ll also consider what is required for authenticity, responsibility, freedom, and, possibly, the meaning of faith. (UL)

39 Hours  Fee: $547

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30  May 6-Jun 17
Tuesday & Thursday 18:30-21:30  Jun 24-Aug 7

Philosophy of Love and Sex

This course examines historical and contemporary philosophical perspectives on love and sex. Questions considered may include: What is romantic love? What are the relations between love, monogamy and marriage? Is adultery always morally wrong? What are the relations between love/sex and personal identity, gender and biology? What are sexual perversions? What is the moral status of prostitution and the commodification of sex? How should we define the concept of sexual harassment? (UL)

Note: A Spring/Summer section will be offered in Europe. For more information, contact Dr. R. Murray, Faculty of Arts, at 416.979.5000, ext. 6160.

39 Hours  Fee: $547

Monday & Wednesday 18:00-21:30  Jun 23-Aug 11

For information on distance education, visit www.ryerson.ca/ce/de.

Philosophy of Law

What is law? What makes something a legal norm? Should citizens always obey the law? What is the relationship between law and morality? This course will explore competing theories of law, such as natural law and positivism, and touch on crucial debates over civil disobedience, purposes of punishment, and interpretation of legal texts. It will deal with contemporary controversies over the legal regulation of human behaviour, for instance in matters of sexual morality. (UL)

39 Hours  Fee: $547

Fall 2013

Philosophy of Human Rights

Are human rights universal? Are they absolute? Have civil and political rights been privileged in relation to social and economic rights? Should some human rights be understood as collective or group rights to address issues of cultural identity? This course critically examines the works of contemporary philosophers articulating diverse accounts of human rights, alongside objections which have been raised by Feminists, Cultural Relativists, and advocates of The Full Belly Thesis, and other perspectives. (UL)

PHOTOGRAPHY

As photography continues to hold its own as a leading medium of communication, opportunities for skilled photographers have never been greater; at the same time, more and more people are discovering the creative rewards that photography offers to the hobbyist. Whatever your level of interest, you’ll find many exciting and novel opportunities to cultivate your artistry and technical skills in the following courses and workshops. For more information, including instructor biographies, visit www.ryerson.ca/ce/photography.

Equipment/Facilities Use: Please note that use of equipment and facilities outside of class time will not be provided. Extra time may be purchased.

Photography

Related certificate(s): Design for Arts and Entertainment (pg. 45), Image Arts (Film Studies, New Media, or Photography Studies) (pg. 87), Photography Studies (pg. 113)

★ Analog Photography

CDFP 320

For photographers who want to improve their photographic skills, and for beginners, this course offers an intensive investigation of the basics of black and white photography. Substantial time is given to learning the basic technical aspects of photography: precise exposure, processing of film, darkroom procedures, and printing skills receive particular emphasis. As well, the major approaches to black and white photography are explored through lecture and assignment projects. (Formerly Techniques of Photography I)

Note: To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15
Spring/Summer 2014
Tuesday & Wednesday 18:30-21:30 May 5-Jun 17
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

★ Intellectual Property and Technology

CDFP 921

This course examines the multifaceted aspects of developments in intellectual property policy. Students will explore the diverse ethical norms, social practices, and legal doctrines which are used to both justify and to critique existing policies. The course will introduce students to the basic types of intellectual property rights - copyright, patents, trademarks, and trade secrets. It will survey various ethical theories or perspectives which are brought to bear on the topic.

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10
Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15
Spring/Summer 2014
Tuesday & Wednesday 18:00-21:30 Jun 24-Aug 7
Photography Production I

This course introduces students to the fundamentals of photographic and lens-based imaging. It includes operation of the hand camera and digital photographic practices, image processing and print production, and exploration of meaning through images in relationship. Short, topic-orientated production assignments with critiques will be given. (Equivalent to MPS 106.)

39 Hours  Fee: $618

Fall 2013
Monday  18:30-21:30  Sep 9-Dec 9
Wednesday 18:30-21:30  Sep 11-Dec 11

Winter 2014

Wednesday 18:30-21:30  Jan 15-Apr 16

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30  May 6-May 29
and Saturday 9:00-17:30  May 10
and Saturday 9:00-17:30  May 24

Photography Production II

Prerequisite(s): CDFP 328 or CDFP 383

This course advances the development of core photographic concepts and skills learned in production. It includes an overview of camera systems, image production, and an understanding of fundamental studio lighting for portraits and still life. Through a series of assignments, students explore the nature and meaning of photographic images and discipline for self-directed work. (Equivalent to MPS 206.)

Note: To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $618

Fall 2013
Thursday 18:30-21:30  Sep 12-Dec 12
Friday 18:30-21:30  Sep 13-Dec 13

Winter 2014
Friday 18:30-21:30  Jan 10-Apr 11

and Saturday 9:00-17:30  Jun 21

Digital Printing

Prerequisite(s): CDFP 329 or CDFP 333 or CDFP 384

This workshop format course is for the serious digital photographer wanting to learn how to make exhibition quality prints. Students will work with Adobe image manipulation applications learning advanced techniques in Photoshop, Camera Raw, and Lightroom to reveal a professional workflow. Information on calibrating your computer with the printing facility will be covered. There will be input from galleries and professional printing facilities to enable the student to experience firsthand what standards are required to produce ideal prints. Work will be reviewed frequently to solve specific printing problems from students’ own printers or the professional labs they use. Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar).

Note: To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $675

Fall 2013
Monday 18:30-21:30  Sep 9-Dec 9
Winter 2014
Monday 18:30-21:30  Jan 13-Apr 14

Photography and Digital Imaging

An introduction to photographic technologies and concepts related to digital printing. Students will acquire skills related to a range of creative ideas about images, while gaining a basic understanding of the concepts of lens-based image-making. Emphasis will be placed on learning the core principles of photographic technology as well as fundamental visual skills for photographers. By the end of the course, students will have acquired a working knowledge of basic tools, capture, printing, and workflow. (Equivalent to MPS 207.)

39 Hours  Fee: $633

Fall 2013
Wednesday 18:30-21:30  Sep 11-Dec 11

Winter 2014
Wednesday 18:30-21:30  Jan 15-Apr 16

Spring/Summer 2014
Monday & Wednesday 18:30-21:30  May 5-Jun 18

Photography and the Web

An entry-level workshop course in which students will begin to acquire the basic skills related to the hardware and software required for web image production. Tools, applications, and creative methods in making photographic images in a screen-based environment using digital applications are covered. Emphasis is on cross-disciplinary instruction in an inter-media working environment. Students will initially explore the context of time-based and moving-image systems, digital imaging, electronic sound, image formation, recording, and sequencing. (Equivalent to MPS 207.)

39 Hours  Fee: $633

Fall 2013
Tuesday 18:30-21:30  Sep 10-Dec 10

Winter 2014
Tuesday 18:30-21:30  Jan 14-Apr 15

Spring/Summer 2014
Monday & Wednesday 18:00-21:30  Jun 23-Jul 30

Photoshop for Photographers

A workshop course designed for the serious photographer who has experience with Adobe Photoshop. Topics covered include techniques for skin retouching; adding sparkle to the eyes; careful use of the Liquify Tool for slimming; balancing faces using selection and masking techniques; skin retouching; adding sparkle to the eyes; careful use of the Liquefy Tool to enable the student to experience firsthand what standards are required to produce ideal prints. Work will be reviewed frequently to solve specific printing problems from students’ own printers or the professional labs they use. Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar).

Note: Instructor: Rob Davidson

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $633

Fall 2013
Saturday 9:30-12:30  Sep 7-Dec 7

Winter 2014
Saturday 9:30-12:30  Jan 11-Apr 12

Students must have a working knowledge of Photoshop CS3 or later versions.

20th Century Photography

Prerequisite(s): CDFP 320 or CDFP 328

This workshop format course is for advanced students who wish to gain more knowledge in the studio and darkroom facilities using traditional silver-based materials. Students will learn how to handle the 4 x 5 view camera using sheet film to make incredibly sharp large negatives and prints. Students will learn to process black and white film and hand print using archival methods. Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar).
Note: A prerequisite may be waived if the student has specific academic or professional experience. Individuals who do not have the prerequisites and who wish to take this course must contact the academic coordinator, Dennis Miles, at dmiles@ryerson.ca for more information.

39 Hours  Fee: $633

Winter 2014  Saturday  9:00-12:00  Jan 11-Apr 12

★ Advanced Fashion Photography  CDFP 381
Prerequisite(s): CDFP 329

This workshop format course is for the serious fashion photographer. Students must have advanced camera, lighting, and Photoshop knowledge. They will be introduced to fashion styles and trends through both lighting and shooting. Industry standards and sources for selling and exhibiting fashion photographs will also be addressed. Under the instructor’s guidance, students will work with models and make-up artists. Students work will be discussed in group critique sessions. Equivalent to one Professional elective from Table 1 (see Undergraduate Program Calendar).

Note: Students must have a DSLR camera with lenses ranging from 35mm to 105mm, a light meter, and a radio slave unit or flash sync cord. They should also bring their laptops to class.

A prerequisite may be waived if the student has specific academic or professional experience. Individuals who do not have the prerequisites and who wish to take this course must contact the instructor, Struan, at struan@struanphoto.com (www.struanphoto.com) or Dennis Miles, Academic Coordinator, at dmiles@ryerson.ca for more information.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $761

Fall 2013  Tuesday  18:30-21:30  Sep 10-Nov 12
and Saturday  9:00-16:00  Oct 19
and Saturday  9:00-16:00  Nov  9

Winter 2014  Tuesday  18:30-21:30  Jan 14-Mar 18
and Saturday  9:00-16:00  Feb 8
and Saturday  9:00-16:00  Mar 1

Spring/Summer 2014  Tuesday & Thursday  18:30-21:30  May 8-Jun 5
and Saturday  9:00-16:00  May 24
and Saturday  9:00-16:00  May 31

★ Advanced Portrait Photography  CDFP 382
Prerequisite(s): CDFP 329 or CDFP 384

This workshop format course is for the serious amateur or aspiring professional portrait photographer. It is an advanced course concerned with an in-depth look at portrait photography. Emphasis will be on experimenting with lighting and for creating a variety of lighting conditions. Projects will examine critical and aesthetic issues in portrait photography from singles to large groups, under studio and location settings. Both traditional and digital photography will be covered. Equivalent to one Professionally Related elective in Image Arts from Table 1 (see Undergraduate Program Calendar).

Note: Students must have a DSLR camera with lenses ranging from 35mm to 105mm, a light meter (if using film), and a radio slave unit or flash sync cord. Those shooting digitally should also bring their laptops to class.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $654

Fall 2013  Thursday  18:00-21:00  Sep 12-Dec 12
Winter 2014  Thursday  18:00-21:00  Jan 16-Apr 17

★ Commercial Photography I  CDFP 389
Prerequisite(s): CDFP 329 or CDFP 384

This course offers an intensive investigation into all aspects of commercial photography. The course consists of a series of lectures, critiques, and extensive studio sessions learning the basic techniques. Particular attention is paid to controlled lighting, precise exposure, and the techniques of electronic flash as they apply to studio photography. Emphasis is placed on learning to balance compositional elements within the frame to produce an articulate photograph. Other topics include filters, special effects, and an introduction to the business of commercial photography. Equivalent to one Professionally Related elective in Image Arts from Table 1 (see Undergraduate Program Calendar). (Formerly Commercial Product Photography I)

Note: Students must own or have access to a digital single lens reflex camera with at least 10 megapixels and lenses ranging from 50mm to 150mm. Students should also own or have access to a digital flash meter.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $566

Fall 2013  Wednesday  18:30-21:30  Sep 11-Dec 11

★ Commercial Photography II  CDFP 390
Prerequisite(s): CDFP 389

This course continues the investigation of the techniques and approaches to commercial photography begun in CDFP 389 (see the calendar description). Equivalent to one Professionally Related elective in Image Arts from Table 1 (see Undergraduate Program Calendar). (Formerly Commercial Product Photography II)

Note: Students must own or have access to a digital single lens reflex camera with at least 10 megapixels and lenses ranging from 50mm to 150mm. Students should also own or have access to a digital flash meter.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $577

Winter 2014  Wednesday  18:30-21:30  Jan 15-Apr 16

★ History of Photography I  CDFP 391

This course will examine the evolution of photography, from the early experiments with light sensitivity of silver salts to the establishment of portable photographic technologies. A historical overview of the medium’s development from both technical and stylistic viewpoints will be examined. The course traces the development and positioning of the photographic medium within the context of modernist expression, from early attempts to contextualize photography as art, to the development of small format, handheld cameras. Cultural writings about photography will also be investigated, in relation to broader historical, theoretical, and political considerations. (Equivalent to MPS 301.)

Note: To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $563

Fall 2013  Wednesday  18:30-21:30  Sep 11-Dec 11
Spring/Summer 2014  Monday & Wednesday  18:30-21:30  May 5-Jun 18

For the most current information, see our website at www.ryerson.ca/ce.
★ Documentary Photography  
CDFP 392
This workshop course is designed to introduce students to ideas and methods of producing documentary photographs and portfolios. The course includes instruction in practical techniques (effective metering, flash, etc.), as well as an exploration of the history and vocabulary of documentary photography. The goal is the production of a documentary portfolio (prints, books, or digital slide show ready for a professional venue). Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar). (Formerly Approaches to Documentary Photography)

Note: Supplies to be purchased by the student: Suitable camera (any format), or access to one, and printing supplies.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $641

May 6-Jun 17

★ History of Photography II  
Prerequisite(s): CDFP 391  
CDFP 398
This course continues the investigation started in CDFP 391 and examines the development of photographic practice throughout the course of the twentieth century. Different genres of photography will be explored, from approaches to documentary and landscape photography, to the development of conceptual and theoretical ideas at play in contemporary photographic expression. Discussion of the major figures and influences in photography will be supplemented by an examination of the development of traditional photographic processes and digital technology. (Equivalent to MPS 401.)

Note: To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

39 Hours  Fee: $563

18:30-21:30  
Jan 15-Apr 16

◊ Creative Wedding Photography  
Prerequisite(s): CDFP 329 or CDFP 384  
CDFP 403
This course introduces essential photographic and business skills required by a wedding photographer. Through lectures, practice shoots, and assignments, students will learn how to enter the freelance photography field, choose the right equipment, deal with clients, be prepared to handle various lighting situations, and develop a wedding portfolio.

Note: Instructor: Margaret Diotallevi (Fall & Winter).

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

◊ Magazine Photography  
Prerequisite(s): CDFP 329 or CDFP 384  
CDFP 404
The successful assignment requires research, execution, the appropriate lenses and accessories, objective editing, and a compelling choice of media output. Today's sophisticated viewers expectations are higher than ever before. Images must be more communicative, articulate, and artistic in both content and presentation. This results-oriented course will concentrate on preparing, executing, and presenting the successful photo essay, utilizing contemporary output and display formats. (Formerly Photography Assignments)

Note: Students must have an interchangeable lens digital camera.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

◊ Photography Workshop in France  
Prerequisite(s): Department consent  
CDFP 559
In the spring, Ryerson University’s G. Raymond Chang School of Continuing Education will offer a full-credit photography course in Paris, France, designed in cooperation with photography curators and directors of photographic institutions in that city. Combining practical, historical, and theoretical components, this unique program will take full advantage of the tremendous range of cultural resources available in Paris. The two weeks of the course will include lectures and organized visits to the city’s great museums, photography collections, and archives not available to the general public. These activities will be combined with supplementary lectures and readings, as well as independent study. Students will be responsible for production of a written journal which documents work seen and lectures given. Equivalent to NPF 559 or PPB 205.

Note: Faculty: Marta Braun, MA, teaches art history, photo history, and film theory in the School of Image Arts and the Ryerson/Eastman House MA Program. She is the author of Picturing Time: The Work of Etienne-Jules Marey, published by the University of Chicago Press. She has lived and worked in France and is thoroughly familiar with French language and culture. Her long-standing association with French artists and curators will provide students with a unique behind-the-scenes experience.

Course Coordinator: Peter Higdon, a photographer represented by Toronto’s Stephen Bulger Gallery, is Curator of Curator at the Ryerson Image Centre, the University’s internationally recognized research centre and gallery. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs. He has lectured and taught in both day and continuing education programs.

Enrollment is limited to 14 students.

39 Hours  Fee: $3335

Spring/Summer 2014  
TBA

The course is open via application to those enrolled in the joint Ryerson/George Eastman House MA Program in Photographic Preservation and Collections Management as well as undergraduates and continuing education students. Contact Peter Higdon at phigdon@ryerson.ca or 416.979.3000 ext. 6843, for information on how to enroll in this course.

Enrollment is limited to 14 students.

◊ Certificate and degree credit  ◊ Degree credit  ◊ Certificate credit  ◊ Course series
This is a course in studio lighting for photographers. Through practical studio projects within a workshop environment, students will be exposed to more sophisticated ideas about light and lighting in relation to a variety of subjects and techniques. The course is designed to help students expand and deepen their technical, conceptual and aesthetic insight while working with light through creative projects.

Note: A prerequisite may be waived if the student has specific academic/professional experience. Individuals without the prerequisites wishing to take this course must contact the instructor, Rob Davidson, at rob@rdaphoto.com or Dennis Miles, Academic Coordinator, at dmiles@ryerson.ca for more information.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

Historical Processes Workshops CFPN 543

This is a production course dealing with the use, design and construction of composite images using various media. Students will be encouraged to explore the use of captured, hand-rendered, and machine-fabricated images, in both static and temporal combinations. Various methods of image construction ranging from photographic to digital will be used. Selected traditional processes as well as experimental techniques will be discussed. The acceptance and use of these will depend on the sophistication and willingness of individuals to explore and take chances in imagery.

Note: It is recommended that CDFP 329, CDFP 384, or MPS 206 be completed before enrolling in this course.

To find out more about your instructor, see the Photography instructor biographies at www.ryerson.ca/ce/photography.

PHYSICAL ACTIVITY

These courses will impart the critical physical activity knowledge and hands-on skills required to promote, assess, and develop physical activity approaches for individuals, families, and communities. For more information, visit www.ryerson.ca/ce/PracticeinMotion.

Physical Activity

Related certificate(s): Physical Activity: Assessment and Promotion (pg. 115)

★ Health and Physical Activity CFNA 100
This course will discuss the determinants of health and physical activity, focusing on the specific physical activity-health connection. The course will examine the epidemiologic trends of physical activity and fitness, with special emphasis on the active living movement, health risk analysis and evaluation in North American populations.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the academic coordinator at dcandiot@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $563
Fall 2013
Thursday 18:00-21:00 Sep 12-Dec 12

★ Lifestyle and Fitness Assessment CFNA 201
Prerequisite(s): CFNA 100 and CPLN 303 and FNP 300
Corequisite(s): FNN 400
This course will discuss theoretical and practical health-related fitness evaluation. Methods of physical activity participation and lifestyle habit evaluation will be reviewed. The topic of body composition will be emphasized, describing assessment by a variety of methods and discussing the contexts of the different measurements. Musculoskeletal fitness assessment will be discussed and practiced.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the academic coordinator at dcandiot@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $563
Fall 2013
Wednesday 18:30-21:30 Sep 11-Dec 11

★ Physical Activity and the Environment CFNA 202
Prerequisite(s): CFNA 100
The emerging research regarding the built environment’s impact on health will be critically examined within a small group format. Specifically urban ecology and design, and adaptive planning and policy will be explored as it related to physical engagement and the current body weight discourse. Both social and environmental circumstances will inform the framework of this course.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the academic coordinator at dcandiot@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $563
Fall 2013
Tuesday 18:00-21:00 Sep 10-Dec 10

★ Nutrition and Physical Activity CFNA 300
The course will discuss the special nutritional needs and practices of active individuals. The course will focus on various levels of activity, discussing the metabolic needs and adaptations to the different levels of stress and types of activity. A variety of sports will be examined through the perspective of nutritional requirements and adjustments. It is recommended that students complete FNN 201 and PLN 203 prior to enrolling in this course.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the academic coordinator at dcandiot@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $563
Winter 2014
Distance: Internet Jan 11-Apr 12
For information on distance education, visit www.ryerson.ca/ce/de.

★ Exercise Intervention CFNA 301
Prerequisite(s): CFNA 201
This course will discuss the significance and describe the incremental value of exercise intervention with a focus on health related fitness outcomes. Students will receive theoretical and practical instruction on physical activity and exercise prescription, training techniques, and methods, as well as program modification.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the academic coordinator at dcandiot@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $563
Spring/Summer 2014
Tuesday & Thursday 18:00-21:00 May 6-Jun 17

★ Exercise Science and Physiology CPLN 303
Prerequisite(s): PLN 203
The course will discuss the various mechanisms and principles of the body's acute responses to different levels of physical activity. The course will focus on the essentials of movement and the functionality of the musculoskeletal system, on the impact of exercise on basic energy systems, and on the cardiorespiratory function and performance.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the academic coordinator at dcandiot@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $563
Fall 2013
Wednesday 18:00-21:00 Sep 11-Dec 11
These introductory courses in physics have applications across a wide variety of professional fields. A basic understanding of the principles of physics is an important step in your understanding of science.

Physics I  CKPS 115
Meets the Grade 12 U Physics requirement for admission to a Ryerson program. Introductory physics. Kinematics in one and two dimensions, dynamics, gravitation. Work, power, and energy. Heat quantities. This course is laboratory and problems oriented. Equivalent to the first half of PCS 15A/B.

52 Hours  Fee: $725

Fall 2013
Monday 18:00-22:00 Sep 9-Dec 9
Spring/Summer 2014
Monday & Wednesday 18:00-22:00 May 5-Jun 18

An Academic Bridging Course, see the Chang School website at www.ryerson.ca/ce. Both CKPS 115 and CKPS 215 are required to meet the Grade 12 U Physics requirement for Ryerson admission purposes. Please note that Mature Student applicants will be considered on an individual basis and may be required to present only one of these courses to meet Mature Student Physics admission requirements. Please contact Undergraduate Admissions and Recruitment for details.

Physics II  CKPS 215
This course is a continuation of CKPS 115. Fluids, basic electricity. Waves and optics. Atomic and nuclear physics. This course is laboratory and problems oriented. Equivalent to the second half of PCS 15A/B.

52 Hours  Fee: $725

Spring/Summer 2014
Tuesday & Thursday 18:00-22:00 Jun 24-Aug 7

An Academic Bridging Course, see the Chang School website at www.ryerson.ca/ce. Both CKPS 115 and CKPS 215 are required to meet the Grade 12 U Physics requirement for Ryerson admission purposes. Please note that Mature Student applicants will be considered on an individual basis and may be required to present only one of these courses to meet Mature Student Physics admission requirements. Please contact Undergraduate Admissions and Recruitment for details.

Physics for the Health Sciences  CPCS 106
An introduction to the physical ideas related to the fields of environmental and occupational health; mechanics, work/energy, fluids, sound, thermodynamics, basic electricity, the electromagnetic spectrum and nuclear quantities.

52 Hours  Fee: $930

Spring/Summer 2014
Tuesday & Thursday 18:00-21:00 Jun 24-Aug 7
and Thursday (lab/tutorial) 21:00-22:00 Jun 26-Jul 31

Physics  CPCS 110
Units and vectors. Motion: linear, projectile, circular and oscillatory motion, Newton's laws: Force, mass and acceleration; work, energy and power; linear and angular momentum. Electrostatics: Electric force and field; potential and potential energy; capacitance. Electric current and DC circuits. Magnetic field and force: magnetic force on currents and charges; Hall effect; torque on current loops; Waves: classification of waves; energy transfer; light and electromagnetic waves; diffraction and interference. MAPLE used for simulation/visualization of physical phenomena and problem solving.

52 Hours  Fee: $766

Spring/Summer 2014
Tuesday 18:00-21:00 May 6-Aug 5
and Thursdays (lab)* 18:00-20:00 May 8-Jul 24

*Lab meets alternate weeks.

Physics I  CPCS 120
Antirequisite(s): PCS 125 and PCS 211
A calculus based course covering fundamental physics concepts: units, vectors, linear motion, circular motion, force and motion, work and energy, collisions, gravitation, electrostatics, capacitance, and simple DC circuits.

65 Hours  Fee: $934

Winter 2014
Tuesday 20:00-21:00 Jan 14-Apr 15
and Tuesday (tutorial)* 18:00-20:15 Jan 14-Apr 15
and Thursday 18:00-21:00 Jan 16-Apr 17

*Tutorials are on alternate Tuesdays, beginning the first week of classes.

Physics II  CPCS 130
Prerequisite(s): CPCS 120
Antirequisite(s): PCS 125 and PCS 211 and (PCS 102 or SCI 104)
A continuation of Physics I, calculus-based course. An introduction to oscillations, mechanical waves, magnetism, electromagnetism, optics and nuclear physics. The laboratory is an essential and autonomous part of the course.

78 Hours  Fee: $1197

Spring/Summer 2014
Tuesday & Thursday 18:00-21:00 May 6-Aug 5

*Labs/tutorials are on alternate Tuesdays, beginning the first week of classes.

Introduction to Astronomy  CPCS 181
This course will examine astronomical ideas both in relation to their times and in the light of current scientific theory and technical data. Application of the scientific method will be emphasized in evaluating these data and theories. Method of collection and analysis of data will be presented to help the nontechnical student in asking fundamental questions about scientific theories. Topics covered include cosmology, origin of the stars and galaxies, evolution of stars, the solar system, exobiology, death of stars, stellar remnants and the age of the universe. (LL)

39 Hours  Fee: $581

Fall 2013
Tuesday 18:00-21:00 Sep 10-Dec 10

Winter 2014
Monday 18:00-21:00 Jan 13-Apr 14

Spring/Summer 2014
Monday & Wednesday 18:00-21:00 May 5-Jun 18

For the most current information, see our website at www.ryerson.ca/ce.
The Department of Politics and Public Administration offers a full-time undergraduate program in Politics and Governance and a part-time undergraduate program in Public Administration and Governance, the latter of which consists of a certificate, advanced certificate, and a degree. This program is specifically designed for people working in the public and para-public sectors, nongovernmental organizations and advocacy groups. These courses may also be of interest to those aspiring to careers in the broader public service, private-sector employees in regular contact with the government, and those interested in gaining knowledge about public administration and public policy in Canada.

Politics and Public Administration

Related certificate(s): Ethics (pg. 59), Nursing Leadership and Management, Advanced (pg. 108), Occupational Health and Safety (pg. 111), Public Administration and Governance - Level 1 (PADP) (pg. 126), Public Administration and Governance - Level 2 (PADP) (pg. 128), Public Administration and Leadership (pg. 129), Social Sciences and Humanities Foundations (pg. 137)

Public Administration in Canada COPA 103
Students with no academic background or professional experience in public administration, but who already have a degree from a recognized university, are required to successfully complete this one-semester, specially designed immersion course in public administration as a requirement of admission to the post-baccalaureate Certificate in Public Administration and Leadership. This course offers a concentrated introduction to concepts of public administration; the role of law; the machinery of government; the relationship between the state and the citizen; political and administrative accountability; the structure and process of policy formulation, implementation and evaluation; intergovernmental relations; the budgetary process; issues in personnel management; and E-government.

For information on distance education, visit www.ryerson.ca/ce/de.

People, Power, and Politics CPOG 100
This course provides a critical introduction to the main themes in the study of politics, including state-building, nationalism, ideology, democracy, participation, development, security and globalization. We focus on the interrelated struggle for power and justice that lies at the heart of politics, raising questions crucial to informed, engaged citizenship: How do we define the "common good?" Who should wield power and why? How should power be shared? How should we resist the misuse of power?

39 Hours Fee: $613

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10

Power and Influence in Canadian Politics CPOG 110
Antirequisite(s): POC 180 and POL 102 and CPPA 120

Against a backdrop of political culture, ideology, regionalism, French-English relations and socio-economic differences this course will examine citizen participation in Canadian democracy through parliamentary and extra parliamentary mechanisms. In particular, the course introduces the central components of the contemporary Canadian political system most visible to citizens: political parties, elections, the media and pressure/interest groups. (Canadian)

39 Hours Fee: $560

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Human Rights and Global Politics CPOG 424
Prerequisite(s): POG 225 or POG 315 or CPOL 208 or CPOL 540 or CPPA 125

Should universal human rights be considered a global norm? Or should concerns of national sovereignty and cultural pluralism take precedence? Discourses of human rights are powerful and ubiquitous and are used in many varied and complex ways in the contemporary world. This course will examine the historical emergence of human rights discourses in the West, their institutionalization, and their deployment in the contexts of the Cold War and the war on terror. A range of theories, critiques, and contemporary debates about human rights will be explored. (Global)

39 Hours Fee: $547

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

Politics, Media, and Technology CPOG 444
Prerequisite(s): POG 240

The mass media has transformed how societies communicate about, and perceive, political ideas. This course examines the interplay of media, technology and politics, discussing such topics as the relationship between print and the rise of modern democracy; the impacts of television on contemporary politics, especially election campaigns; and the emerging political influences of the Internet and social media. The course will also analyze the structure of ownership of global media systems and its impact on international communications. (Comparative)

39 Hours Fee: $547

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17

The Politics of Human Needs CPOL 106
The central consideration of politics in general is the attainment of the ‘good society’. Examining how fundamental human values shape the political institutions that we create, this course adopts a ‘human needs approach’ to politics. Identifying the basic needs of humans, the course investigates how well or poorly countries are able to provide for those human needs. It compares and contrasts the varying approaches to wealth creation and wealth distribution currently populating the world system. (LL)

39 Hours Fee: $565

Winter 2014
Thursday 18:30-21:30 Jan 16-Apr 17

Politics and Film CPOL 128
Films often mirror society in both intentional and unintentional ways. Some are overtly political, some reflect changing values and some are made purely for entertainment. This course will reflect on the various political perspectives which enable students to critically assess films. It will assess the role films play in reinforcing or debunking stereotypes. These themes will be examined in the context of the film industry in Canada and internationally. (LL)

39 Hours Fee: $565

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9

Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14

Wednesday (Centennial College) 9:30-12:30 Jan 15-Apr 16

Spring/Summer 2014
Monday & Wednesday 9:30-12:30 May 5-Jun 18
Globalization and World Politics

This course examines political conflict and instability in world politics. What are the political consequences of globalization? Why is nationalism and ethnic intolerance on the rise? What explains the eruption of political unrest and war? These issues are explored through current examples of political upheaval around the world. (POL 208 is not available for credit to students who choose POG 225.) (UL)

39 Hours Fee: $565

Fall 2013
Wednesday 18:30-21:30 Sep 17-Dec 11
Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 Jun 24-Aug 7

Antirequisite(s): POG 225

Canadian Politics and Social Policy

This course examines the development and role of social policy in Canada. A major theme is the values, ideas and beliefs which shaped income support, health care and educational policy and the impact of the welfare state on individual well being and opportunity. The course will focus on the politics of social policy and the factors which have led to the erosion of the welfare state in Canada.

39 Hours Fee: $556

Fall 2013
Tuesday 18:30-21:30 Sep 17-Dec 11
Winter 2014
Distance: Internet
Jan 12-Apr 12
Tuesday 18:30-21:30 Jan 14-Apr 15

For information on distance education, visit www.ryerson.ca/ce/de.

Women, Power, and Politics

This course will examine social movements that effect political change, their historical roots, their international dimensions, and the ways in which they fit within the social movement literature. Students will be introduced to the major approaches and debates in the academic study of social movements. Emphasis will be placed on understanding social movements historically and in context, especially in view of developments in political economy, expansions/contractions in popular democracy, and the impact of information technologies. (UL)

39 Hours Fee: $557

Fall 2013
Thursday–Saturday 8:00-18:30 Oct 17-Oct 19
and Thursday–Saturday 8:00-18:30 Nov 14-Nov 16

Politics of Technology and Globalization

This course examines the role of technology within a global context. What will it mean to be part of a global audience, work in a global factory, shop in a global supermarket, be governed by a world government? Can technology help to solve problems of environmental depletion and pollution? What role does technology play in escalating militarism around the world? Can technology reduce the gap between the rich and the poor within nations and between nations? (UL)

39 Hours Fee: $547

Winter 2014

Spring/Summer 2014
Tuesday & Thursday 9:30-12:30 Jun 24-Aug 7

Cdn Public Administration I: Institutions

This course looks at contemporary public administration in democratic society. It is examined in light of alternative methods of organization, including that of the private sector, as well as our fundamental requisites for democracy, such as the rule of law. It also examines the role of the machinery of government in maintaining the public system of administration as it undergoes contemporary attempts to restructure the role of the state under the ongoing demands of its leaders and citizens. (Formerly PPA 322.)

Issues in Third World Politics

This course examines the 'Third World' and the structures of domination from colonization to the contemporary neoliberal order. The focus is on issues of global inequality, gender, ethnic, racial and religious inequality, human security, development and democracy, and the interventions of global and regional institutions. The course will also examine whether social and political movements in the Middle East, Asia, Latin America and Africa offer hopes to advance struggles for democracy and global justice. (UL)

39 Hours Fee: $541

Fall 2013
Thursday 18:30-21:30 Sep 17-Dec 12
Winter 2014
Monday 18:30-21:30 Jan 13-Apr 14
Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 May 6-Jun 17
This course introduces the process of leading and managing the public sector in Canada with an emphasis on the problems of political and administrative accountability. Students are introduced to the structure and process of policy formulation, implementation and evaluation; as well as to topics in intergovernmental relations; and the impact of public-private partnerships. The prime foci are the budgetary process, issues in personnel management and the drive for economies and efficiencies; government regulation, and e-government. (Formerly PPA 422.)

39 Hours  Fee: $582

For information on distance education, visit www.ryerson.ca/ce/de.

This course examines the social, political, legal, and historical context of Indigenous peoples in Canada and their political mobilization. Through an exploration of key challenges, flash points, and current issues, the course will foster a better understanding of Indigenous efforts around self-government, nation-building, recognition/implementation of Aboriginal and treaty rights, land claims, and the socio-economic gap that disadvantages Indigenous peoples in Canada.  

39 Hours  Fee: $582

Fall 2013  Tuesday 18:30-21:30  Sep 10-Dec 10

This course provides a critical examination of how the State manages the issue of human rights. It explores the development of human rights through the Charter of Rights and Freedoms; the Canada Human Rights Act; provincial codes; landmark judicial rulings; and the impact of United Nations conventions, covenants and declarations on Canadian state practices. Students are encouraged to situate an understanding of human rights issues within a broader social, political, economic and public administration framework.

39 Hours  Fee: $582

        Monday–Friday 8:30-17:30  Jun 2-Jun 5

For information on distance education, visit www.ryerson.ca/ce/de.

This course offers both a thematic and a practical introduction to the Canadian public policy-making process, beginning with the context in which ideas, institutions and interests inform public policy. With the use of a variety of contemporary social, economic and environment policy cases, the course examines the process by which public policy is formulated, implemented and evaluated - including its success rate. Lastly, the changing nature of, and contemporary challenges to, policy making are explored. (Formerly PPA 623.)

39 Hours  Fee: $582

Fall 2013  Thursday 18:30-21:30  Sep 12-Dec 12
Winter 2014  Thursday 18:30-21:30  Jan 15-Apr 16
★ Theories of the State

CPPA 235

This course examines major theoretical perspectives on modern industrial states, including pluralism, neoliberalism, Marxism and feminism. An effort is made to relate each perspective to relevant political issues of the day. In the final section of the course a number of thematic issues are considered from the perspective of state theory such as the role of social movements in shaping state policies and the impact of globalization on democracy and the viability of the nation-state. (Formerly PPA 523).

39 Hours  Fee: $582

Fall 2013
Thursday 18:30-21:30  Sep 12-Dec 12

★ Administrative Law

CPPA 301

Antirequisite(s): CPPA 702

This course examines the statutory and regulatory basis of Canadian public administration. The course explores existing techniques of control of delegated power and their role in influencing conduct. It analyses the regulatory function of administration, as well as the institutional and procedural characteristics and practices of administrative tribunals and judicial review. (Formerly PPA 629).

39 Hours  Fee: $582

Fall 2013
Distance: Internet 18:30-21:30  Sep 7-Dec 7  Sep 9-Dec 9
Winter 2014
Distance: Internet 18:30-21:30  Jan 11-Apr 12  Jan 13-Apr 14
Spring/Summer 2014
Distance: Internet 18:30-21:30  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.

★ Financial Management

CPPA 303

Prerequisite(s): CPPA 102 or PPA 422

This course will provide students with an overview of public sector planning and budgetary processes, the financial management systems within governmental organizations, and mechanisms for ensuring accountability. Changing structures of accountability and the merging of private and public sector budgeting, planning and management principles will be critically evaluated. Students will also be given hands on training in accessing the financial and budgetary information relevant to public and parapublic organizations. (Formerly PPA 600).

39 Hours  Fee: $582

Winter 2014
Tuesday 18:30-21:30  Jan 14-Apr 15

★ Politics of Work and Labour

CPPA 319

This course examines how labour, employers and government interact to regulate how Canadians work. Students will acquire an enriched understanding of the employment environment in their career field. An historical context is first established to explain the evolution of work, unions and government labour policy in Canada. The course then examines the legislative framework before exploring such controversial employment issues as union organising, public sector collective bargaining, strikes, minimum wage, overtime, and health and safety issues. (Formerly POG 319).

39 Hours  Fee: $582

Winter 2014
Monday–Friday(Fire College) 9:00-17:00  Nov 4-Nov 8
Winter 2014
Monday 18:30-21:30  Jan 13-Apr 14

★ Research Methods in Public Administration

CPPA 333

Antirequisite(s): CACS 401, POG 230

This is a one-semester course utilizing both lecture and lab experience. No familiarity with the fundamental elements of research or statistics is assumed. The course gives students of public administration the practical methods needed to statistically describe and analyze phenomena and to present those results. Emphasis throughout the course is on practical uses and application of these techniques, rather than on their mathematical derivations. (Formerly PPA 524).

39 Hours  Fee: $582

Fall 2013
Tuesday 18:30-21:30  Sep 10-Dec 10

★ Theories of Bureaucracy

CPPA 335

Prerequisite(s): CPPA 102 or PPA 422

This course surveys different approaches to organization and bureaucracy in advanced industrial societies. The major focus is on the exercise of power and control in organizations and the implications of this for different organizational groups. The course also examines a number of areas about which traditional approaches have been relatively silent, especially those dealing with race, gender and class. Another major theme of the course involves analysis of the changing nature of work, focusing on how new information technologies have affected the distribution of power and control in the workplace. (Formerly PPA 624).

39 Hours  Fee: $582

Fall 2013
Wednesday 8:30-20:30  Sep 18  and Friday 8:30-20:30  Nov 15-Nov 16
Winter 2014
Thursday 18:30-21:30  Jan 16-Apr 17

★ Collaborative Governance

CPPA 401

Prerequisite(s): CPPA 102 or PPA 422 or POG 210

Antirequisite(s): CPPA 701

This course examines the expanding use of “partnerships” between government and other agents, both public and private, in the delivery of “public goods”. Challenged by fiscal pressures and demands for more involvement in policy-making and delivery of services, governments have experimented with new mechanisms ranging from integrated procurement to networked regulation. This course will consider the ideological drivers, management practices and consequences of these new administrative arrangements on governance, public administration and democracy. (Formerly PPA 601).

39 Hours  Fee: $582

Fall 2013
Monday 18:30-21:30  Sep 9-Dec 9

★ Program Planning and Evaluation

CPPA 402

Prerequisite(s): CPPA 102 or PPA 422

When governments choose to intervene in a policy area, they create programs. This course examines the process by which planning and evaluation of government programs takes place and explores the various methods that are used to determine whether programs are achieving their objectives. Programs in a broad range of areas will be examined, including health, criminal justice, education, welfare, environment, housing, poverty, and development. (Formerly PPA 602).

39 Hours  Fee: $582

Organizational Strategy Through Projects

Prerequisite(s): CKPP 110 or CKPP 120

Ultimately, the success of any organization can be measured by its ability to achieve its strategic plan. Projects are the means through which organizations get things done, while portfolios are the link between projects and strategy. This course will review the basic elements of strategic planning, how they are developed and maintained, and how organizations can use programs and projects to deliver strategic objectives.

**This course will run during the Winter break.

For the most current information, see our website at www.ryerson.ca/ce.
Financial Measurements for Success  
**Prerequisite(s):** CKPP 110 and CKPP 120

Project success is typically measured as ‘on time’, ‘on budget’, and ‘on scope’. However, the success of programs and portfolios is measured in terms of contribution to the organization, i.e., the achievement of strategic objectives or the advancement of their organization’s strategic plan, including whether the program returned its investment, increased market share, improved customer satisfaction, or increased productivity. This course explores various metrics for calculating success, and how they can be used to effectively communicate the success of programs and portfolios to stakeholders.

*Not offered in fall/winter/spring 2013–2014.*

Managing Programs and Projects Virtually  
**Prerequisite(s):** CKPP 110 and CKPP 120

Virtual teams are now common, but present challenges to most organizations. Traditional models of team building offer only anachronistic means for dealing with the increased complexity of managing global teams. This course looks at tools and techniques that will assist in project governance, team building, task coordination, scheduling, cost management, and other project-related areas for virtual teams.

| Fall 2013 | 19.5 Hours | Fee: $443 |
| Distance: Internet | Sep 7-Oct 19 |
| For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

Enterprise Risk Management  
**Prerequisite(s):** CKPP 110 and CKPP 120

This course is designed to fulfill the demand from organizations for advanced expertise in the critical area of enterprise risk management. Because programs and portfolios are becoming increasingly larger, more complex, and more globally diverse, risk management is a key factor in their success or failure. In this course, students will explore the identification, assessment, and appropriate response to enterprise risks including looking at brand, legal, and organizational risks.

| Fall 2013 | 19.5 Hours | Fee: $420 |
| Distance: Internet | Sep 7-Oct 19 |
| For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

Advanced Leadership Skills  
**Prerequisite(s):** CKPP 110 and CKPP 120

This course supports current and aspiring program and portfolio managers by cultivating communication, negotiation, group facilitation, conflict resolution, and stress management skills. Participants will identify their personal areas of strength and opportunities for growth through a series of tools and exercises, including an individual plan for development based on their needs and interests. This course allows participants to continually refresh and improve their interpersonal skills in a supportive environment, with constructive feedback and involvement from fellow professionals.

| Winter 2014 | 19.5 Hours | Fee: $443 |
| Distance: Internet | Jan 11-Feb 22 |
| For information on distance education, visit [www.ryerson.ca/ce/de](http://www.ryerson.ca/ce/de).

Leading Organizational Change  
**Prerequisite(s):** CKPP 110 or CKPP 120

Change is the only certainty in business. The globalization of business has accelerated organizational change over the last twenty years and will likely continue to do so well into the 21st Century. Projects and programs are used by organizations to implement change. This course is designed to understand what organizational change can mean to individual stakeholders within and outside of the organization. The course will provide tools and techniques to lead your team and organization through change.

Creating Balanced Portfolios  
**Prerequisite(s):** CKPP 110 and CKPP 120

For portfolios to be successful, they must ensure that the organization’s strategic objectives are achieved. The most critical element of a portfolio is to select the best group of projects and programs to be executed in the portfolio at a given time. This involves the careful balancing of numerous factors, including human and non-human resources, budget risk, timing, and priorities. This course will examine the techniques that can be used to select and prioritize project and programs for a portfolio, and to ensure that the portfolio is balanced across multiple dimensions.

Crisis Management and Program Recovery  
**Prerequisite(s):** CKPP 110 or CKPP 120

This course examines the factors which contribute to project failure, and the ways in which project management processes can reduce their likelihood. Students will be equipped with tools and strategies for effective project management in public and private sectors, in addition to learning how projects can be used to advance an organization’s strategic plan.

Program and Portfolio Management Research  
**Prerequisite(s):** CKPP 110 or CKPP 120

Under the supervision of an industry expert, students will explore the scholarship surrounding a particular issue arising from program or portfolio management. Students will be encouraged to study issues relevant to their own workplace and career interests. Merits of this course include the unique learning benefits of in-depth study, self-selected and personally-relevant subject matter, as well as maximal scheduling flexibility. Students will be graded on the basis of either a literature review or a research paper, which they must have pre-approved by their course supervisor.

Jan 11-Apr 12
Programs for 50+ at The Chang School offers a broad range of special programs to provide you with personal enrichment, self-actualization, and a continuing connection to society in a community of like-minded people. In addition, from time to time, special workshops, lecture series, and courses designed to enhance these learning opportunities are offered.

The 50+ Festival is our annual celebration of later life learning that showcases our theatre program along with a wide range of stimulating lectures, speakers, and talented older adults. To learn more, visit the website at [www.fiftyplusfestival.ca](http://www.fiftyplusfestival.ca).

The Caring Clown program is for older adults who want to make a difference in the community. A specific training program allows Caring Clowns the opportunity to bring joy and laughter to isolated seniors in long-term care homes. Find out how you can make a difference at [www.ryerson.ca/ce/caringclown](http://www.ryerson.ca/ce/caringclown).

The Estelle Craig ACT II STUDIO is a theatre school and creative drama centre providing training and performance opportunities for adults 50+. It has grown to become a prominent leader in the area of older adult theatre education and creativity. For a more detailed description of this program, visit the website at [www.ryerson.ca/ce/act2](http://www.ryerson.ca/ce/act2).

The LIFE Institute is the largest program partner in Programs for 50+ and offers a wide variety of study groups and lecture courses in the Arts, Humanities, Sciences, and Technology and Contemporary Issues, along with social activities to keep you connected. For more information about their current offerings, visit their website at [www.thelifeinstitute.ca](http://www.thelifeinstitute.ca).

**ACT II STUDIO: Acting Skill Development**

- **Acting Without Text**
  
  **Prerequisite(s):** CSAC 102 or CSAC 106
  
  In-depth work with the most basic and simplest kind of acting using concepts of Zone of Silence, Intention, Action, Activity, and Environment. This important course will help you to be more playful, more truthful, and more present in dramatic situations.

  **Note:** Instructor: Richard Beaune

- **Applied Zone of Silence I**
  
  **Prerequisite(s):** CSAC 240
  
  Take your acting up a notch with this transformative workshop. You’ll apply to script work the concepts of ‘zone of silence’ introduced in Acting Without Text. Get out from under the text into the living, breathing world of your character. Come with a prepared monologue or scene to work with (scene partners must also be registered). Being off book will enhance your experience.

  **Note:** Instructor: Richard Beaune

  4 Hours  HST included  Fee: $73

Sanford Meisner was the last of the great triumvirate (Stella Adler and Lee Strasberg are the other two) who pioneered Stanislavsky’s system in America. His unique approach helps actors, “Live truthfully under imaginary circumstances”. This course on the art of listening, focuses on the foundation of the technique and will increase concentration, promote relaxation in the actor and relieve self consciousness.

Note: Instructor: Cindy Christensen

12 Hours  HST included  Fee: $191

Fall 2013
Monday 15:30-17:30  Sep 16-Oct 28

There will be no class on October 14.

Meisner maintained that the actor should never do or say anything until something makes the action or words necessary. In part two of Meisner’s technique, the Art of Connection, we will focus on the actor building their trust with working from an instinctual place with the other actor and the ability to connect through the actor’s behaviour.

Note: Instructor: Cindy Christensen

14 Hours  HST included  Fee: $225

Winter 2014
Monday 15:30-17:30  Jan 13-Mar 3

There will be no class on February 17.

ACT II STUDIO: Clown and Comedy

Introduction to Clown

The clown touches on your most authentic self and is the basis of all acting. Discover your personal clown through games, improvisation and intuitive exercises meant to evoke a sense of fun and pleasure. Learn to become keenly aware of your environment and develop an honest response to your impulses. Learn to interact with your audience with joyful openness.

Note: Instructor: Lynda Del Grande.

The instructor will have some noses for sale or bring your own.

This course is a prerequisite for the Caring Clown program.

12 Hours  HST included  Fee: $191

Winter 2014
Thursday 10:00-13:00  Nov 21-Dec 12

Clown Cabaret

Prerequisite(s): CSAC 109

This class will give you playing opportunities to explore and hone your unique clown character. From this we’ll craft a short clown “turn” which expresses your clown’s special relationship to the world. The class will culminate in a Clown Cabaret performance. Class limit: 9 students.

Note: Instructor: Vrenia Ivonofski

12 Hours  HST included  Fee: $191

Spring/Summer 2014
Thursday 10:00-13:00  Apr 24-May 15

ACT II STUDIO: Creating Theatre

Awakening The Creative Spirit

Unleash creativity and spontaneity through visualization, storytelling, movement, writing, and creative problem-solving techniques.

Note: Instructor: Tracey Erin Smith

10 Hours  HST included  Fee: $167

Spring/Summer 2014
Friday 10:00-12:00  Mar 14-Apr 11

An additional $10 will be collected for supplies at the first class.

ACT II STUDIO: Directing

Directing: An Introduction

Everything about directing from concepts to opening night. Also a valuable course for actors who want to know about the view from the other side.

Note: Instructor: Vrenia Ivonofski

16 Hours  HST included  Fee: $237

Directing Practicum I

Prerequisite(s): CSAC 127

Take a scene/short play from auditions to opening night! You’ll get guidance and feedback as you put your skills into practice in rehearsals and production meetings. Pieces will be presented at the Shaw and Stratford lectures. (Those who have previously completed CSAC 129 may join this class for nominal fee).

Note: Instructor: Vrenia Ivonofski

21 Hours  HST included  Fee: $265

Winter 2014
Tuesday 10:00-13:00  Jan 21
and Tuesday 10:00-13:00  Feb 4
and Tuesday 10:00-13:00  Mar 11-Mar 25
and Tuesday 13:00-16:00  Apr 29-May 6

Directing Seminar I: Directing as a Shared Vision

The great balancing act: How to read an actor’s instincts and help them to achieve their own objectives within the overall shape of the play and director’s vision. You’ll have a chance to discover this dynamic at work while you direct guest actors in one of two scenes.

Note: Instructor: Richard Beaune

Please read A Streetcar Named Desire for the first class.

5 Hours  HST included  Fee: $85

Spring/Summer 2014
Friday 12:30-14:00  Mar 7
and Friday 12:30-16:00  Mar 14

Directing Lab I: Continuous Monologue

Prerequisite(s): CSAC 129

Using a well-known text, this exercise allows the director and acting company to hear all the dialogue spoken by each individual character in one continuous stream. The information gathered collectively from listening provides different doorways into on-your-feet exploration for both director and cast.

Note: Instructor: Aaron Willis

3 Hours  HST included  Fee: $57

Fall 2013
TBA
NEW!

Directing Lab II: Operative Words
Prerequisite(s): CSAC 129

This exercise breaks a play text down into small pieces and encourages performers to choose evocative words directly from the text as a way of keying in to the fundamental ideas and emotions of the play. The goal is to help both director and cast react to a given text on an instinctive level, distilling the play down to its essential ideas.

Note: Instructor: Aaron Willis

CSAC 528

Fall 2013
TBA

ACT II STUDIO: Improvisation

Introduction to Improvisation
Prerequisite(s): CSAC 182

Activate your imagination and learn to think on your feet. Limited to 16 students.

Note: Instructor: Katherine Ashby

Students who have completed CSAC 182 or CSAC 282 may take CSAC 382, CSAC 482, or CSAC 582 in any order.

CSAC 182

Fall 2013
Thursday 17:00-19:00 Sep 12-Oct 3

Improvisation I: Fun and Games
Prerequisite(s): CSAC 182

Finding the fun is the most important skill an improviser can have. We’ll focus on finding the fun and releasing ourselves to play while brushing up on some old improv games and learning new ones. Limited to 16 students.

Note: Instructor: Katherine Ashby

CSAC 282

Fall 2013
Thursday 17:00-19:00 Oct 10-Nov 21

Improvisation II: Group Mind
Prerequisite(s): CSAC 182 or CSAC 282

This magical workshop will use games, scene work, and music to lead you to work as a group with one mind - Group Mind. You will discover how to take the focus and pressure off of yourself and become part of a creative whole. Limited to 16 students.

Note: Instructor: Katherine Ashby

CSAC 382

Winter 2014
Friday 10:00-12:00 Nov 8-Dec 13

Character Improv: Come as You Aren’t
Prerequisite(s): CSAC 385

Expand your repertoire of characters by exploring who you think you are not. A lively workshop of improvisations and character “hot seats”. We’ll work from the outside in, using costumes and props to bring your characters to life.

Note: Instructor: Tracey Erin Smith

CSAC 385

Spring/Summer 2014
Friday* 10:00-12:00 Apr 25-May 23

*There will be no class on May 16.

NEW!

Improvisation III: Character
Prerequisite(s): CSAC 182 or CSAC 282

In this important class, we will focus on building characters emotionally, physically, and intellectually. You will find what works best for you and discover how this helps your improvisation work to become more exciting and creatively rich. Limited to 14 students.

Note: Instructor: Katherine Ashby

CSAC 482

Spring/Summer 2014
Thursday 17:00-19:00 Mar 6-Apr 17

Improvisation IV: Making a Scene
Prerequisite(s): CSAC 182 or CSAC 282

We will work on Long Form scenes, learning what to focus on in order to build a scene without the pressure to be funny. Limited to 14 students.

Note: Instructor: Katherine Ashby

CSAC 582

Winter 2014
Friday* 10:00-12:00 Jan 10-Feb 14

*There will be no class on February 20.

NEW!

Longform I
Prerequisite(s): CSAC 382

This course will focus on the basic structure of open scenes: setting, characters/relationships, action, and conclusion/resolution. You’ll work on following your impulses to create grounded longform montages without preplanning and editing yourself. We will explore finding the game of a scene, how to hit and heighten the game, and finally how to recognize when a scene or beat has come to an end.

Note: Instructor: Nicole Wilson

CSAC 583

Winter 2014
Friday 10:00-12:00 Nov 8-Dec 13

NEW!

Longform II
Prerequisite(s): CSAC 583

This course will introduce students to longform formats beyond the standard montage. We’ll look at painting environments and characters, monologue inspired formats, ghosting, narrative and editing techniques, ensemble work and group mind, and the Harold format. Student groups will develop their own longform format organically to create a truly original piece.

Note: Instructor: Nicole Wilson

CSAC 685

Winter 2014
Friday 10:00-12:00 Jan 10-Feb 14

ACT II STUDIO: Introductory Acting

Introduction to Acting I
Prerequisite(s): CSAC 101

Discover the joy of acting in a playful, relaxed, and supportive environment. You’ll stimulate your imagination, awaken your senses, develop your listening skills, and learn about stagecraft.

Note: Instructor: Vrenia Ivonoffski

CSAC 101

Spring/Summer 2014
Tuesday 10:00-12:00 Apr 29-May 20

NEW!

Staging Beckett
Prerequisite(s): CSAC 506

How do we look at a Beckett play? This lecture/discussion course will demystify Beckett’s plays by examining his alternative methods of communication and help you access the humanity and humour in his work. We’ll study the historical context and look at his use of choreography, sound, humour and its anarchic function, and non-sequiturs. Required reading: ‘Waiting for Godot’.

12 Hours HST included Fee: $190

Spring/Summer 2014
Monday 10:00-12:00 Mar 10-Apr 14

NEW!

Costume Styles Through the Ages
Prerequisite(s): CSAC 602

This course follows the evolution of style from Adam and Eve onward. We’ll examine why changes have taken place in men and women’s clothing through various historical periods and how these changes have emerged as something called “style”. This course is especially useful for actors and directors to understand how costume influences stage movement and mannerisms.

Note: Instructor: Bill Andrianos

8 Hours HST included Fee: $73

Spring/Summer 2014
Friday 13:00-15:00 Mar 21-Apr 11

ACT II STUDIO: Monologue and Scene Study

Monologues: The Basics
Prerequisite(s): CSAC 106

Learn the building blocks for a solid emotionally connected monologue. Class limit: 10 students.

Note: Instructor: Les Porter

12 Hours HST included Fee: $170

Fall 2013
Monday* 17:30-19:30 Sep 16-Oct 28
*There will be no class on October 14.

Scene Exploration I
Prerequisite(s): CSAC 115

Learn how to analyze and activate a short text and make strong choices using objective/obstacle/action. Develop and strengthen your creative impulses through scene work and improvisation. Class work will be presented at a matinee or in class. Class limit: 12 students.

Note: Instructor: Les Porter

18 Hours HST included Fee: $274

Winter 2014
Monday 17:30-20:30 Nov 4-Dec 9
Spring/Summer 2014

Scenes From Canadian and Other Plays
Prerequisite(s): CSAC 115

An intermediate level course in scene study. Develop a process that works for you through in-depth studies with a partner. Rehearsal with your scene partner between classes is expected. Class work will be presented at a matinee. Class limit: 12 students.

Note: Instructor: Les Porter

18 Hours HST included Fee: $274

Spring/Summer 2014
Monday* 17:00-20:00 Mar 3-Apr 14
*There will be no class on March 24.
NEW!

* Comedy Monologues CSAC 306
  Prerequisite(s): CSAC 106

Discover the challenges of comedy - structure, timing, and characterization. Each participant will prepare, for performance at one of the Matinees, one monologue selected from a range of genres from the comedy of manners of Oscar Wilde to the corrosive satire of George F. Walker. Class limit: 12 students.

12 Hours HST included Fee: $191

Winter 2014
Monday 17:30-19:30 Jan 13-Feb 24
*There will be no class on February 17.

* NEW!

* Readers' Theatre Techniques CSAC 313

Develop special skills needed for staged readings: act while holding the script, create a defined character, make strong choices, and work off other actors.

Note: This course is a prerequisite for those wishing to act in Readers’ Theatre performances.

Instructor: Vrenia Ivonoffski

4 Hours HST included Fee: $73

Fall 2013
Wednesday 10:00-15:00 Sep 18
*There will be a lunch break from 12:00 p.m. To 1:00 p.m.

* NEW!

* Advanced Scene Study: Beckett CSAC 516
  Prerequisite(s): CSAC 315, CSAC 316, CSAC 415, CSAC 416, or CSAC 586

Through lectures, discussion, and scene study, we’ll explore Samuel Beckett’s unique style of “humour through adversity”, and experience how he captures the spirit of everyday life. Texts include ‘Waiting for Godot’ (read at least once before first class), ‘Endgame,’ ‘Happy Days,’ and the radio play ‘All That Fall’. Scenes will be performed with costumes and props at a matinee. Class limit: 10 students.

Note: Instructor: Geoffrey Baines

21 Hours HST included Fee: $313

ACT II STUDIO: Period Study

NEW!

* Advanced Scene Study: Modern World Drama CSAC 617
  Prerequisite(s): CSAC 215

This course for developing actors will focus on breaking down contemporary scenes into events, objectives, tactics, and actions in order to explore their different dramatic possibilities. Scenes will be selected from the works of Stephen Adly Guirgis, Lucy Prebble, Jez Butterworth, Andrew Bovell, Simon Stephens, Sarah Ruhl, Noah Haidle, and David Greig.

Note: Instructor: Mitchell Cushman

21 Hours HST included Fee: $313

Winter 2014
Monday 10:00-13:00 Jan 13-Mar 3
*There will be no class on February 17.

ACT II STUDIO: On-Camera Acting

* Acting on Camera A to Z CSAC 169

Note: Instructor: Graham Orwin

15 Hours HST included Fee: $224

Spring/Summer 2014
Tuesday 13:00-16:00 Apr 1-Apr 29

* NEW!

* Audition on Camera With Improv CSAC 269
  Prerequisite(s): CSAC 169

Skills and themes to be covered include auditioning and performing in MOS scripts (without dialogue) for commercials and films; concentration and listening; real thinking; using the language of advertising (descriptive words as a source of useful acting ideas); emotional states and stereotypical relationships; physical actions, behaviour and response; inner monologue and major transitions; and internal/external story telling.

Note: Instructor: Graham Orwin

8 Hours HST included Fee: $137

Fall 2013
Monday 10:00-12:00 Sep 30-Oct 28
*There will be no class on October 14.

ACT II STUDIO: Period Study

NEW!

* Introduction to Melodrama CSAC 484
  Prerequisite(s): CSAC 115

Melodrama, characterized by high emotionalism and archetypes of villain, victim, and hero, had roots in the late 1700’s, enjoyed a resurgence in the 1930’s and has influenced modern film and soap opera. With exercises and scenes, we’ll trace melodrama’s broad acting styles to open the actor to deeper emotional and physical playing. Playwriting students will find exploration of structure useful for their work with form, building tension, conflict, and characterization.

Note: Instructor: Vrenia Ivonoffski

12 Hours HST included Fee: $775

Fall 2013
Wednesday 13:00-16:00 Sep 18-Oct 3

* NEW!

* Melodrama Scenes CSAC 584
  Prerequisite(s): CSAC 484
  Corequisite(s): CSAC 585

This course includes background work, period study, and in-depth development of a traditional and modern short play for eventual performance in February.

Note: Instructor: Vrenia Ivonoffski

21 Hours HST included Fee: $384

Winter 2014
Tuesday & Thursday 13:00-16:30 Nov 26-Dec 12

* NEW!

* Melodrama Performance CSAC 585
  Corequisite(s): CSAC 584

This course will prepare actors for public performance of melodrama works with full production values. There will also be some movement coaching.

Note: Instructor: Vrenia Ivonoffski

Additional intensive rehearsals will take place on January 9, 10, 14, and 16, and February 14. Production and performances will take place February 17–22.

Enrollment for this course is only available in person or by mail. To enroll by mail, print and complete a Mail-In Enrollment Form and mail to: ACT II STUDIO, Ryerson University, 257 Victoria Street, Toronto, ON M5B 1W1. To enroll online, use the shopping cart feature.
In each class, we’ll do a series of writing exercises that will lay the foundation for you to craft and polish two types of monologues. We will explore what makes a monologue work for the stage, both on its own and in the context of a larger play. Together we’ll read and examine a variety of existing monologues in a variety of styles from a diverse selection of plays. In each class, we’ll do a series of writing exercises that will lay the foundation for you to craft and polish two types of monologues.

NEW!

ACT II STUDIO: Playwriting

- **Playwriting Basics** CSAC 151
  What makes a play tick? Why use the stage rather than a novel or film to tell a story? We will clarify the essential components that make up an effective stage play: plot, conflict, character, shape, and dramatic tension. In-class writing exercises will help illustrate some of these points, but you will not be required to write a play for this class. Required reading: Albee’s ‘The Zoo Story’ and Molnar’s ‘The Play’s the Thing’.
  
  **Note:** Instructor: Mitchell Cashman

  6 Hours  HST included  Fee: $89

  Winter 2014
  Monday 10:00-12:00  Nov 4-Nov 18

- **Playwriting I** CSAC 156
  Write a short play. Using the imaginative tools from an actor’s tool box, explore playwriting from a character point of view. Compelling characters make compelling theatre - bring yours to life. We’ll tackle dramatic structure, learn what makes dialogue snap, define overall shape and express your playwright’s vision as we get inside what makes theatre tick. Class limit: 12 students.
  
  **Note:** Instructor: Ray Storey

  18 Hours  HST included  Fee: $265

  Winter 2014
  Monday 10:00-12:00  Nov 4-Nov 18

- **Playwriting Lab I: Creating Conflict** CSAC 352
  Develop skills in creating conflict with careful use of language, strong character motivation, a steady growth toward the climax, and step-by-step structuring.
  
  **Note:** Instructor: Hannah Moscovitch

  2 Hours  HST included  Fee: $36

  Fall 2013
  Wednesday 15:00-17:00  Sep 11

- **Playwriting Lab III: Spontaneous Writing** CSAC 354
  The impact of surprise and spontaneity lends immediacy to a play. We’ll do exercises drawn from the unconscious part of our brain to let the writing flow and go where the action and characters are leading us.
  
  **Note:** Instructor: Julie Teperman

  2 Hours  HST included  Fee: $36

  Fall 2013
  Friday 13:00-15:00  Sep 20

- **Playwriting Lab IV: Building Suspense** CSAC 355
  How do you grip an audience and hold them on the edge of their seats? We keep them in suspense. Learn about moving the action, things said and unsaid, pregnant pauses, secrets, mysteries, and pay-offs.
  
  **Note:** Instructor: TBA

  2 Hours  HST included  Fee: $36

NEW!

- **Writing the Monologue** CSAC 454
  We will explore what makes a monologue work for the stage, both on its own and in the context of a larger play. Together we’ll read and examine a variety of existing monologues in a variety of styles from a diverse selection of plays. In each class, we’ll do a series of writing exercises that will lay the foundation for you to craft and polish two types of monologues.

  **Note:** Instructor: Julie Teperman

  13 Hours  HST included  Fee: $212

  Fall 2013
  Friday 10:00-12:30  Sep 20-Oct 18
  and Friday 10:00-13:00  Oct 25

  There will be no class on October 11.

NEW!

- **Reading Plays: World Drama II** CSAC 557
  We will examine contemporary plays from theatre capitals around the world to answer the question - what is the state of dramatic writing today? With more competition from other forms of media, theatre is in danger of increased marginalization. We’ll look at what different contemporary playwrights - Stephen Adly Guirgis, Lucy Prebble, Jez Butterworth, Andrew Bovell, Simon Stephens, and Sara Ruhl - are doing to assert the worth and wonder of theatre today.
  
  **Note:** Instructor: Mitchell Cashman

  12 Hours  HST included  Fee: $157

  Winter 2014
  Monday 12:30-14:30  Nov 4-Dec 9

ACT II STUDIO: Shakespeare Study

- **Shakespeare: Yes You Can!** CSAC 105
  Hate Shakespeare? Love Shakespeare? Get to know the Bard better! Embark on a journey through the textual codes that guide the actor. A fascinating course for actors and non-actors alike, guaranteed to change forever how you approach the printed word. Texts provided.
  
  **Note:** Instructor: Vrenia Ivonoffski

  14 Hours  HST included  Fee: $225

- **Shakespeare Monologue** CSAC 206
  **Prerequisite(s):** CSAC 105
  Apply what you learned in CSAC 105 to a short monologue which you’ll forever how you approach the printed word. Texts provided.
  
  **Note:** Instructor: Vrenia Ivonoffski

  10 Hours  HST included  Fee: $167

  Spring/Summer 2014
  Thursday 14:00-16:30  Apr 24-May 15

- **Shakespeare Performance Preparation** CSAC 304
  **Prerequisite(s):** CSAC 105
  In-depth text analysis and study of scenes for the annual Shakespeare production in February.
  
  **Note:** Instructor: Vrenia Ivonoffski

  21 Hours  HST included  Fee: $180

- **Shakespeare Performance** CSAC 305
  **Prerequisite(s):** CSAC 304
  In-depth study, rehearsal, movement and voice coaching, and public performance of scenes with full production values. Cast need not attend each session but are welcome to do so.
  
  **Note:** Instructors: Vrenia Ivonoffski and Liz Rappeport

  27 Hours  HST included  Fee: $184

ACT II STUDIO: Voice and Movement

For all Voice and Movement courses, please wear comfortable, non-binding clothing you can move in and shoes that you can slip on and off, if possible. Bring a mat or large towel, a notebook, and water. Also, have a short (1 minute max) memorized piece of text to work with.

❖ Voice Work Basics

Discover how your voice works and develop a clearer and more open, expressive voice. Class limit: 14 students.

Note: Instructor: Kennedy C. MacKinnon

8 Hours  HST included  Fee: $115

❖ Movement Lab I: Grounding and Taking Space

Develop physical presence on and off stage. We’ll do movement which will help you feel more connected to your intention and character and help you develop more ease and stability in movement and performance. Class limit: 12 students.

Note: Instructor: Liz Rappeport

3 Hours  HST included  Fee: $36

Fall 2013

Friday  10:00-13:00  Sep 13

❖ Movement Lab II: Fluidity and Expressiveness

Increase your comfort, depth, and range of expressiveness. We’ll work with simple and gentle movements which will engage your whole body to help you release energy blocks and feel more free to move.

Note: Instructor: Liz Rappeport

3 Hours  HST included  Fee: $36

Fall 2013

Friday  10:00-13:00  Nov 1

❖ Transformative Movement Intensive

This workshop will transform you by changing the way you think about your body, by uniting body and mind in movement and by opening you to the kind of presence that actors need to commit to an intention, take space, find ease, and feel energized. We’ll work with deep relaxation, alignment, self-discovery through movement, authentic movement, dance, sound, and Neutral Mask. The class will be held in an airy studio location at Ryerson.

Note: Instructors: Liz Rappeport and Vrenia Ivonoffski

13 Hours  HST included  Fee: $188

Fall 2013

Friday  16:00-19:00  Sep 27

and Saturday  10:00-16:00  Sep 28

and Sunday  10:00-16:00  Sep 29

❖ Transformative Movement II

Prerequisite(s): CSAC 424

This is a more in-depth exploration building on the work introduced in “Transformative Movement Intensive”.

Note: Instructors: Liz Rappeport and Vrenia Ivonoffski

5 Hours  HST included  Fee: $76

Fall 2013

Saturday  10:00-16:00  Oct 26

Caring Clown

Through several courses, students are trained in clowning techniques and achieve an understanding of aging and the dementia process. For information about the Caring Clown program, visit the website at www.ryerson.ca/ce/caringclown.

❖ Strengthen Your Clown Character

The workshop will focus on strengthening and deepening your clown character. Discover both the innocence and experience of your clown by expanding your clown’s physicality and different emotional states. When you commit more deeply to the world of your clown, you inspire a greater degree of trust in others, and yourself.

Note: Limited to 12 students.

4 Hours  HST included  Fee: $35

❖ Caring Clown Basics

Prerequisite(s): CSAC 109

This course focuses on the understanding and practice of clowning techniques used in therapeutic facilities, with emphasis on long term care homes. Included are the history, ethics, and principles of Caring Clown and therapeutic humour; information related to aging, dementia, and other chronic illnesses and the care facility environment; and creating a unique character. Includes development of a character clown and role playing practice for individual and small group clowning. Limited enrollment, by interview. (Formerly CSAC 910)

21 Hours  HST included  Fee: $235

Winter 2014

Thursday  10:00-13:00  Jan 9-Feb 20

❖ Caring Clown Practicum

Prerequisite(s): CSAC 910

This practicum continues the work begun in CSCC 910, by giving students opportunities to gain practical experience as caring clowns in various long term care homes. Students will clown with individual and small groups of residents in designated units. Students will be expected to spend time in rehearsal outside of regular class hours and submit a written journal outlining their experiences and learning. Upon successful completion, students will have opportunities to volunteer in long term care homes. (Formerly CSAC 911)

17 Hours  HST included  Fee: $83

Winter 2014

Thursday  10:00-12:00  Feb 27-Apr 24

Marketing Workshops for Entrepreneurs

These content-rich, results-oriented workshops provide practical tools and strategies to motivate entrepreneurs to achieve their marketing goals. You will leave the workshops with actionable ideas, a new understanding of marketing, and the confidence to create, execute, and evaluate your marketing and communications plan.

Building Media Relationships

CSPI 800

Want to get the word out about your company - without spending a lot of money? Learn how to get free editorial exposure for your programs and services, just like the pros do. In short, you’ll learn everything you need to know in order to get great publicity, even on a shoestring budget! This practical, fast-paced workshop will show you how to create supportive, lasting media relationships for your company.

Note: This workshop is a part of the Marketing for Women Entrepreneurs series.

3 Hours  Fee: $52

Fall 2013

Saturday  9:00-12:00  Sep 28

Riding the Social Media Wave

CSPI 801

Social media has fundamentally changed the way businesses communicate, opening up huge opportunities for your business. Businesses see the potential for expanding their exposure, building their brand, and increasing their search results through social media. In this workshop, you will learn the social media marketing skills you need to gain new clients, sustain current clients, and beat the competition. Use these proven ways to ride this recession-proof wave of opportunity.

Note: This workshop is a part of the Marketing for Women Entrepreneurs series.
Building a Dynamic Marketing Strategy
CSPI 802
Learn how to maximize your promotional and advertising dollars by integrating key tools from your marketing toolkit into a dynamic campaign: visual image, promotional materials/Internet sites, special events, sponsorships and partnerships, speaking and writing, and media campaigns. Discover practical, cost-effective ways to communicate more effectively with all of your key markets, including current and potential clients, employees, partners, sponsors, and the media.
Note: This workshop is a part of the Marketing for Women Entrepreneurs series.

Media Arts
Learn the latest in media arts in a supportive environment. Study films and cinema history, attend writing workshops, make your own films, and direct your own movie, with like-minded, creative peers.

Sunday Film Club
CSMA 110
This course introduces students to a unique opportunity to participate in a film club. Each Sunday afternoon, you will watch a film and discuss the film’s approach and theme.

Entrepreneurs, Present Yourself with Confidence
CSPI 804
Entrepreneurs learn what they need to succeed in their businesses - regulations, licenses, taxes, bookkeeping - but neglect to upgrade their communication skills. These skills are used to address customer inquiries and complaints, pricing, negotiation, sales, and interactions with service providers and customers. If you want to exhibit confidence and generate interest when talking to your clients, attend this workshop and learn how to express yourself in a fresh and imaginative manner and always be in control of yourself in any situation.
Note: This workshop is a part of the Marketing for Women Entrepreneurs series.

Media Communication Skills for Success
CSPI 805
Learn how to deliver the information the news media need, in the format they require. This workshop explores ways to develop and control your message; create sound bites and powerful key messages; improve your body language; identify and handle loaded questions; rehearse and reduce nervousness; and dress appropriately for media interviews. Project the image you want with print and electronic media.
Note: This workshop is a part of the Marketing for Women Entrepreneurs series.
## PROJECT MANAGEMENT

These courses in project management provide you with an opportunity to acquire a level of knowledge and expertise that will permit you to contribute effectively to the management and the control of costs within any project environment. For more information, visit [www.ryerson.ca/ce/pm](http://www.ryerson.ca/ce/pm).

### Project Management

Related certificate(s): Architectural Preservation and Conservation (pg. 28), Architecture (pg. 30), Architecture, Advanced (pg. 32), Community Engagement, Leadership, and Development (pg. 38), Computer Programming Applications (pg. 40), Design Management (pg. 46), Energy Management and Innovation (pg. 50), Facility Management (pg. 62), Nursing Leadership and Management, Advanced (pg. 109), Project Management (pg. 119), Project Management Bridging Certificate for Internationally Educated Professionals (pg. 122), Sustainability Management (pg. 140)

### Fundamentals of Project Management

**CKPM 202**

This course will familiarize the student with the concepts and basic functions of the project management body of knowledge, including scope, quality, time, cost, risk, procurement, human resource, and communication management. The integration of these functions into a project management system, and the role of the project manager and project support staff, will be examined. This course will provide students with a basic knowledge of project management as preparation for other courses in the program. (39 PDUs)

**Note:** For further information about Professional Development Units (PDUs), see Project Management Institute at [www.ryerson.ca/ce/pm](http://www.ryerson.ca/ce/pm).

### Project Management Systems

**CKPM 207**

**Prerequisite(s):** CKPM 202 or CITM 750

This course will provide the candidate with the concepts, knowledge, and skills to enable creation of a basic project development and management system. Candidates will identify required components; design a basic project development and management system; set up, plan, and create project plans; schedule the activities; cost the project; communicate the information to others; manage changes as they occur; and evaluate the results. A study of this area requires the candidates to understand the needs of clients, the needs of parent organizations, the limitation of system applications, and an understanding of the hardware and the software interface windows, menus, templates, and other features. (39 PDUs)

**Note:** For further information about Professional Development Units (PDUs), see Project Management Institute at [www.ryerson.ca/ce/pm](http://www.ryerson.ca/ce/pm).

### Planning and Scheduling

**CKPM 203**

**Prerequisite(s):** CKPM 202 or CITM 750

The course deals with the application of the Critical Path Method (CPM)/Pert Networks for time control of a project. Topics covered include: the total project as a system, criteria for assessing the suitability of network presentations, project analysis, and decision-making, and the use of computers for network analysis and report production. The practical aspects of installing and operating a planning and scheduling system are emphasized throughout the course. (39 PDUs)

**Note:** For further information about Professional Development Units (PDUs), see Project Management Institute at [www.ryerson.ca/ce/pm](http://www.ryerson.ca/ce/pm).
The Project Management Institute (PMI) recognizes Risk and Quality Management as two of the key knowledge areas of project management. This course covers the fundamental aspects, analytical tools, and methods of both areas. In particular, the course covers the basic processes of risk planning, identification, qualitative analysis, quantification, risk response development, and risk control. The course also deals with concepts of quality and their integration into project planning, execution, and control. It addresses the customer and the organizational perspectives on quality, the cost of quality and the use of statistical tools to manage quality improvements in projects. (39 PDUs)

Note: For further information about Professional Development Units (PDUs), see Project Management Institute at www.ryerson.ca/ce.

For information on distance education, visit www.ryerson.ca/ce/de.

*Includes a one-hour lunch break from 12:00-1:00 p.m.

Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999 (page 336)).

A successful project manager not only understands the technical project management skills (scope, schedule, cost, quality, and risk), but also has solid leadership and other soft skills. This course is designed to introduce students to leadership concepts and skills as they apply to projects. In addition, the course will discuss other soft skills required by a project manager, including team building, managing conflict, communication, and other tools and techniques. (39 PDUs)

Note: For further information about Professional Development Units (PDUs), see Project Management Institute at www.ryerson.ca/ce.

Management of Projects in the AEC

**Prerequisite(s):** CKPM 202

Market assessment, bidding strategies and advanced procurement methods are examined in the context of organizational structures required for the various delivery methods. An in-depth examination of techniques of time and cost control required to support these techniques are carried out. This course places emphasis on the application of theory to practice through cases studies. (39 PDUs)

*Note: For further information about Professional Development Units (PDUs), see Project Management Institute at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).*

Project Development and Control

**Prerequisite(s):** CKPM 202

This course examines the context of the business environment in which AEC projects are planned and developed and executed. It investigates the contractual relationships of key stakeholders in order to identify mutual influences and their impact on key project constraints. It reviews advanced techniques of time and cost trade-off, resource allocation and implications of project cash flow analysis and assessment. (39 PDUs)

*Note: For further information about Professional Development Units (PDUs), see Project Management Institute at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).*

Emerging Trends in Project Management

**Prerequisite(s):** (CKPM 202 or CITM 750) and CKPM 203, CKPM 209, CKPM 211, CKPM 212

Building on the core courses, this course will explore four to six key topics in project management. The topics in the course will change depending on current issues and availability of subject matter experts. The course will allow students to understand the background to the issue, discuss the impact on project management, and present ideas. (39 PDUs)

*Note: For further information about Professional Development Units (PDUs), see Project Management Institute at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).*

Project Management Internship

**Prerequisite(s):** Prerequisite: (CKPM 202 or CITM 750) and CKPM 203, CKPM 209, CKPM 211, CKPM 212

Students choose from two options: a field placement or a research/development project. All options emphasize student’s development as an emerging professional. For field placement, students must arrange for an opportunity to volunteer as a project manager and submit a report. The research/development project offers students the opportunity to explore an area of specialization in more detail. (39 PDUs)

**Project Management Bootcamp**

Project Management Bootcamp allows participants to complete six of the courses required to earn the Certificate in Project Management through an intensive program. Lectures and coursework are scheduled four days a week and the fifth day is allotted to a self-study/group work with access to instructor support. Students will have PMP exam prep simulations with sample question and answer review led by the instructor.

*Note: For more information, visit [www.ryerson.ca/ce/pm](http://www.ryerson.ca/ce/pm).*

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
Psychology courses address questions about the nature of human behaviour: how and why we act, think, feel, and reason, and how these questions are investigated through research.

Psychology

Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Criminal Justice and Criminology (pg. 43), Demographic Analysis (pg. 44), Ethics (pg. 59), Gerontology (pg. 75), Health Studies (pg. 83), Mental Health and Addictions (pg. 102), Psychology (pg. 123), Social Sciences and Humanities Foundations (pg. 137)

CPSY 601, and Department Consent

In this course students produce a comprehensive paper in a selected area. Each student is assigned a faculty member from the Department of Psychology to guide the development of the project.

Note: This course is the final course of the certificate. To enroll, candidates must have successfully completed the above prerequisites, plus an additional three electives from either the Certificate in Mental Health and Addictions or the Certificate in Psychology.

Students planning to enroll in this course should contact the continuing education academic coordinator, Department of Psychology (416.979.5000, ext. 6195), in the first week of September or January, in order to be assigned a departmental faculty advisor.

Prerequisite(s): (CPSY 102, CPSY 105, CPSY 11A/B, or CPSY 11), CPSY 601, and Department Consent

In this course students will be introduced to basic statistical concepts and procedures, learn to analyze data with the aid of a calculator, and gain experience in using computer software to analyze larger data sets. There will be an emphasis on research design as related to the appropriateness of various statistical procedures.

Note: Formerly PSY 601.

Prerequisite(s): PSY 11, CPSY 105

This course introduces students to psychology, the scientific study of behaviour and cognition, by examining the basic principles of psychology and their applications to everyday experience. The course surveys some core areas of psychology including research methods, biological bases of behaviour, sensation and perception, memory, and cognition.

Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course introduces students to psychology by exploring several viewpoints within the discipline, such as the biological, behaviourist/learning, cognitive, and psychodynamic perspectives. The emphasis is on examining the ways in which these perspectives have influenced our understanding of how people act, think, and feel, and the contributions that each has made to psychology as a discipline. PSY 105 is not available for credit to students who choose PSY 102. (LL)

Note: Students may not enroll in CPSY 105 if they are also taking or have already passed PSY 11B or PSY 11.

Prerequisite(s): CPSY 102 or CPSY 105 or PSY 11

This course examines the influence of social factors on the behaviour of the individual. Topics include affiliation, aggression, prejudice, social cognition, the development and measurement of attitudes, persuasion, socialization, conformity and group behaviour. These topics are explored from a North American and cross-cultural perspective.

Prerequisite(s): CPSY 504, PSY 24

This course continues the introduction to psychology from PSY 102, with a focus on applying psychological principles in different contexts. The course surveys some core areas of psychology, including personality, development over the life span, behaviour in a social context, and psychological disorders.

Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course examines a variety of issues surrounding the use, mechanisms, and actions of psychoactive or mind-altering drugs. The course focuses on two main contextual topic areas: drug addiction, and drug treatment of mental illness. Each of these areas is explored in depth, including the role of genes, biochemistry, cognition, and personality factors.
★ Psychology of Addictions  
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course introduces students to basic principles and issues in the area of addiction, the factors that influence its development, and the methods used to treat it. The similarities and differences between addictive disorders and other forms of psychopathology are discussed. The course studies both experimental and clinical approaches to addiction. The course covers various instruments and methods used by addiction researchers and clinicians and discusses their strengths and weaknesses.

★ Psychology and Law  
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

Psychology's empirical perspective sometimes complements the legal system's rule-based nature, and sometimes the two disciplines are at odds. This course focuses on the application of psychological theory, methods, and data to various procedures and issues in the legal system, including eyewitness evidence, the detection of deception, jury selection and jury decision-making, and sentencing.

★ Child Development  
Prerequisite(s): PSY 11 or CPSY 102 or CPSY 105

This course introduces students to the methods, theories, findings and practical applications of research in the area of child development. The focus is on describing the significant changes in physical, cognitive, social and emotional development and on explaining why these changes occur. This course also discusses the immediate contextual influences of families, peer groups, and schools as well as on the broader contextual influences of subculture, culture, and historical era.

★ Psychology of Gender  
Prerequisite(s): PSY 11 or CPSY 102 or CPSY 105  
Antirequisite(s): PSY 535

This course involves an examination and critique of psychological theory and research related to gender. Broad topics to be addressed include: gender development, stereotyping and gender roles, sexism, and the impact of gender on intimate relationships, achievement, and psychological and physical health. A key goal of the course is to foster an appreciation for how gender may be relevant to students’ working and personal lives. PSY 304 is not available for credit to students who choose PSY 535. (LL)

★ Psychology of Thinking  
Antirequisite(s): PSY 108

This course discusses human information-processing abilities and limitations in critical-thinking contexts such as solving problems, making decisions, testing hypotheses, and understanding probabilities. Individual and social factors that affect the efficiency of these processes will be examined, and the consequences of poor thinking processes for the individual and for society will be considered. PSY 308 is not available for credit to students who choose PSY 108. (LL)

★ Biological Psychology  
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course is concerned with integrating the understanding of human behaviour and the understanding of physiological mechanisms relating to behaviour, particularly those of the nervous system and brain. Students are introduced to neurons and neurophysiology, neuroanatomy, neurochemistry, and the methods used in physiological research. These core areas allow students to understand how nervous system mechanisms contribute to sensorimotor function, ingestion, sexual behavior, memory, thought, language and consciousness, addictions and psychological disorders.

★ Psychological Disorders  
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102  
Antirequisite(s): CPSY 606

This course examines conceptions of abnormality, how psychological disorders are classified, and how they are treated. The DSM classification system and alternative systems will be critically considered, and the causes of psychological disorders will be discussed from a variety of perspectives (e.g., behaviourist, humanist, sociocultural). Specific disorders to be discussed include mood disorders, schizophrenia, substance-related disorders, somatoform and dissociative disorders, personality disorders, eating disorders, and anxiety disorders. In addition, the course includes consideration of cross-cultural factors, and legal and ethical issues. (Formerly the first half of PSY 040.)

★ Clinical Psychology  
Prerequisite(s): CPSY 325

Clinical psychology concerns the assessment, diagnosis, and treatment of individuals who experience social, emotional, behavioural, and mental health problems. Topics covered include the history of clinical psychology, professional and ethical issues, assessment and diagnosis of mental health problems, modalities of treatment (e.g., individual, group, family), therapeutic orientations and their methods and techniques, and current issues. This course combines a study of theory, research, and practice. (Formerly the second half of PSY 040.)

All of us hold beliefs about what it means to be an adult and what it means to grow old. In this course, students examine their beliefs in light of scientific evidence on adult development and aging. Theories and empirical findings related to changes in physical, cognitive, personality, and social processes are examined. Contextual influences of family, culture, and historical era are emphasized. A recurrent theme is the tremendous diversity and individual variability in aging.

Environmental psychology examines the interaction between people and their physical, natural, and human environments both large scale such as cities, and small scale such as residences. The course studies how we perceive and think about our environments, how our thoughts, emotions, and actions are influenced by our environments, and how we in turn affect the environments we inhabit and use.

Social Psychology is an extremely diverse field that generally deals with the social behaviour of people in social situations. Core topics include social behaviour such as aggression, obedience, conformity, intimate relationships, and how groups function. They also include attitudes, social cognition, social perception, prejudice and feelings of guilt, all of which are assumed to affect social function. They also include attitudes, social cognition, social perception, prejudice and feelings of guilt, all of which are assumed to affect 

This course will explore the anatomical and functional organization of the human brain and spinal cord, including how the neuronal system is designed to operate the motor, sensory and cognitive systems; neural networks of the cortical and subcortical pathways; brain connectivity; and the chemo- and cyto-architecture of the brain. Lectures will include learning to identify gross brain morphology on photographic and magnetic resonance image based atlases.

This course will offer insight into the psychological influences on health, with an emphasis on the application of psychological principles to health care delivery and disease prevention. Among the topics discussed are general health promotion, patient-practitioner interaction, stress, pain, and psychological issues in chronic and life-threatening illness.

Environmental psychology examines the interaction between people and their physical, natural, and human environments both large scale such as cities, and small scale such as residences. The course studies how we perceive and think about our environments, how our thoughts, emotions, and actions are influenced by our environments, and how we in turn affect the environments we inhabit and use.

Copy Editing for Books, Journals, and Reports

Prerequisite(s): CDPB 100 or CDPB 200

This course outlines the basics of copy editing: consistency, correctness, and clarity. It is useful for people interested or working in any area of publishing and document preparation, including books, journals, reports, and newsletters. The emphasis is on ways to communicate the author’s message clearly and effectively to the reader. Specific topics include the editing process; the author-editor relationship; house style and style sheets; editing on hard copy and on-screen; useful reference works; common problems in spelling, grammar, punctuation, and word usage; common issues in stylistic editing, such as reducing wordiness, editing to length, adjusting language level, and improving sentence variety; avoiding bias; editing titles and headings; editing captions, figures, tables, and maps; preparing preliminary pages and end matter, including notes, bibliographies, and appendices; conventions of different kinds of publishing: design considerations; an introduction to proofreading; editing indexes; and the job market.

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

PUBLISHING

Learn how to turn a manuscript into a book, a report, or other document. Editing, design, production, sales and marketing, new electronic workflows – master all the skills involved in this complicated process through our Publishing courses and certificate program. For more information, visit www.ryerson.ca/ce/publishing.

For course offerings in Magazine and Web Publishing, see page 280.

Related certificate(s): Publishing (pg. 130)

Publishing Overview: Trade

This course provides an overview of all aspects of general or trade publishing, including children’s and mass market books. Specific topics include the structure and economics of the publishing industry in Canada; publisher-author relations; subsidiary rights and co-publishing; administration, editorial, design, production, and marketing. Over the 13 sessions, students will take a book from conceptualization to marketing.

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 347)).

The Business of Book Publishing

Prerequisite(s): CDPB 100 or CDPB 200

This course is designed for non-financial people who are interested in the financial and management aspects of publishing. Specific topics include strategic planning and business management; understanding financial statements, budgeting, and forecasting; the decision to publish; sales, promotion, and distribution; contracts, copyright, subsidiary rights, and legal concerns; program planning, co-publishing, and packaging; and human resources considerations.

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

Copy Editing for Books, Journals, and Reports

This course outlines the basics of copy editing: consistency, correctness, and clarity. It is useful for people interested or working in any area of publishing and document preparation, including books, journals, reports, and newsletters. The emphasis is on ways to communicate the author’s message clearly and effectively to the reader. Specific topics include the editing process; the author-editor relationship; house style and style sheets; editing on hard copy and on-screen; useful reference works; common problems in spelling, grammar, punctuation, and word usage; common issues in stylistic editing, such as reducing wordiness, editing to length, adjusting language level, and improving sentence variety; avoiding bias; editing titles and headings; editing captions, figures, tables, and maps; preparing preliminary pages and end matter, including notes, bibliographies, and appendices; conventions of different kinds of publishing: design considerations; an introduction to proofreading; editing indexes; and the job market.

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Distance: Internet  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.
Note: To enter CDPB 102, ideally you will score 80 or higher on this Diagnostic Grammar Test. This is a self-administered test to help you determine whether you should take Practical Grammar and Punctuation (CDPB 312) first.

This is a closed-book test. Give yourself 30-45 minutes to complete it. Once you have completed the test, please see the Diagnostic Grammar Test Marking Sheet for solutions.

If you score between 70 and 80 and decide to proceed directly into Copy Editing, please review grammar basics (see Practical Grammar by Maxine Ruvinsky).

Under 70: we highly recommend that you take Practical Grammar and Punctuation (CDPB 312) before tackling Copy Editing.

Note: Students with experience in design or publishing may be admitted by permission of the coordinators.

**Publicity for Book Publishers**
CDPB 110
Generating publicity for a book and author plays a key role in a publisher’s overall marketing plan. The quality of publicity can determine whether a book succeeds or not. In today’s publishing world, creative publicity counts; the competition for people’s attention is fierce. This course looks at the many types of book publicity practised today. These include author media appearances, special events, tours, and a growing number of online initiatives. We will discuss campaigns, trade shows, and the need to position clearly the book and author. Students will look at case studies, undertake research, and create media kit materials. The course will also introduce the related field of public relations, which includes developing a publisher profile, improving brand awareness, involvement in the community, and occasionally a little crisis control.

**Fall 2013**
Wednesday 18:30-21:30  Sep 11-Dec 11

Distance: Internet  Sep 7-Dec 7

**Winter 2014**
Distance: Internet
Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 347)).

**Publishing Overview: Education**
CDPB 200
This course presents an overview of publishing in the following areas: elementary and high schools; colleges and universities; scholarly, legal, professional, business, and reference publishing. Students are expected to gain an understanding of the structure of these areas of the industry, who the publishers are, what they produce (from books to CD-ROMs to material delivered via the Internet), how they produce their products, who constitutes the market in the various areas, and how the publishers reach those markets.

For the most current information, see our website at www.ryerson.ca/ce.

| Prerequisite(s): CDPB 100 or CDPB 200 |
| CDPB 201 |

This course provides an in-depth look at the exploitation of book subsidiary copyrights from the perspective of a rights manager or literary agent. Topics include serial and book club, foreign and translation, and film, television and ebook rights; working with scouts and co-agents; strategies used in relationship building, such as attending book fairs; and techniques used in the selling and negotiation of these copyrights. Students will gain a better understanding of copyright issues today.

Note: Students with equivalent experience may be admitted by the permission of the coordinators.

39 Hours  Fee: $695

| Winter 2014 |
| Wednesday 18:30-21:30 Jan 15-Apr 16 |

| Prerequisite(s): CDPB 102 |
| CDPB 202 |

This course is for people interested in substantive editing, or the restructuring and improvement of book-length manuscripts for publication. Emphasis will be on gaining experience in the techniques of editing non-fiction and novels, but a full range of editorial topics will be covered, including how to assess manuscripts and acquire books; techniques for stylistic or line editing; editor-author relationships; scheduling; agents; research and permissions; and the editor’s role in most aspects of the publishing process.

Note: Students with experience in editing may be admitted by permission of the coordinators.

Visual literacy is the ability to interpret elements of design and understand how they are used in specific contexts, but visual skills must be honed if we are to become visually literate. This course addresses the integral role of visual communication in all aspects of publishing. Topics include the history of photography; image research and editing; permissions; editing and design of tables, graphs, diagrams, and maps; editorial-design and marketing-design interaction; technology and typography fundamentals; and effective print and web design.

39 Hours  Fee: $695

| Winter 2014 |
| Distance: Internet 18:30-21:30  Jan 11-Apr 12 |

| Prerequisite(s): CDPB 102 |
| CDPB 301 |

This course provides a detailed examination of the publishing process for scholarly and reference books. Discussion focuses on the stages of publishing, including acquisition (proposal evaluation and developmental editing), editing (substantive and copy editing), production, and marketing of scholarly books. The central concerns of the editorial and marketing departments are explored at each stage, with attention to the ways in which the scholarly publishing industry differs from the trade and educational publishing industries. Other topics covered include the peer review process; budgeting for and funding of scholarly books; scholarly journals; CD-ROMs and reference books; and electronic publishing. Homework and assignments involve specific editorial skills related to scholarly and reference publishing (treatment of illustrations, tables and figures, notes, bibliographies, indexes).

Note: Students with experience in editing may be admitted by permission of the coordinators.

19.5 Hours  Fee: $588

| Spring/Summer 2014 |

CDPB 100 or CDPB 102 or CDPB 200 or CDPB 301

This course examines the publishing of fiction. Specific topics examined are working with creative writers; particular problems of novels, short stories, or collections; genre editing; and formula fiction. The course provides hands-on experience in how to evaluate problems in fiction manuscripts and the various types of editing (structural, stylistic, copy) they require. It focuses on problems that are specific to fiction, such as dialogue, setting, and character development.

19.5 Hours  Fee: $388

Fall 2013
Tuesday  18:30-21:30 Sep 10-Oct 22

Winter 2014
Distance: Internet**  Jan 11-Feb 22

**This course will run during the Winter break.

CDPB 309

Prerequisite(s): CDPB 100 or CDPB 102 or CDPB 200 or CDPB 301

Editing Books for Children and Teens

This course is for those interested in editing books for young readers, from toddlers to teenagers. Topics include acquisitions of children’s and YA (young adults’) books; substantive editing and stylistic editing for picture books, novels, and non-fiction; author-editor relationships; and the particular considerations of editing books for developing readers.

Note: Students with experience in editing and/or within the children's book industry may be admitted by permission of the coordinators.

19.5 Hours  Fee: $388

Fall 2013
Distance: Internet**  Oct 26-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

CDPB 310

Prerequisite(s): CDPB 102

Proofreading for Books, Journals, and Reports

This course will present the knowledge and skills needed for the proofreading of typeset material, with additional attention to proofreading electronically published texts. It will be of interest to those involved in the editorial process, layout, and management of the production process. Subjects will include principles and vocabulary of typography and layout; tools and reference materials; copy-to-copy and ‘cold’ proofreading methods; editorial responsibilities; evaluation of typesetting practice, including word breaks, spacing, and balance; proofreading of illustrations, figures, tables, and maps; preliminary pages, headers and footers, folios, and documentation; colour checking; second and subsequent proofs; printers’ proofs; and on-screen proofreading methods.

Note: Students with experience in copy editing may be admitted by permission of the coordinators.

19.5 Hours  Fee: $388

Fall 2013
Tuesday  18:30-21:30 Sep 11-Oct 10

Winter 2014
Distance: Internet**  Jan 11-Feb 22

Spring/Summer 2014
Wednesday  18:30-21:30 May 7-Jun 18

*This course will run during the Winter break.

CDPB 311

Prerequisite(s): CDPB 102

Indexing for Books, Journals, and Reports

This course is for anyone going into publishing of non-fiction books, journals, or reports, or those already working in publishing who wish to add to their skill set. The focus will be on back-of-the-book indexing with additional application to journals, reports, and websites. Specific topics include general principles of indexing; kinds of indexes and their parts; the mechanics of indexing and indexing software; alphabetizing; punctuation; names and titles of publications in an index; editing an index; and the business of freelance indexing. Although the emphasis is placed on the practical craft of indexing, the art of an elegant index will also be addressed.

Note: Students with experience in editing may be admitted by permission of the coordinators.

19.5 Hours  Fee: $388

Fall 2013
Distance: Internet**  Sep 7-Oct 19

For information on distance education, visit www.ryerson.ca/ce/de.

Material Fee: Students may be required to purchase student versions of indexing software.

*This course will run during the Fall break.

CDPB 312

Practical Grammar and Punctuation

This course demystifies subjects that many people today find daunting. It is aimed at native English speakers who feel they write competently but who wish to improve their understanding of grammar and punctuation, either for their own writing or in preparation to study editing. It will focus on building a useful vocabulary of language terms; identifying types of words (parts of speech) and their function in a sentence; studying groups of words (phrases and clauses), how they interrelate, and how punctuation illuminates these relationships; reviewing the roles of punctuation marks; applying punctuation principles to create clear, grammatical sentences; and understanding the evolving nature of “correct” English. If English is your first language and you would like to feel more confident in your writing skills, this course will interest you.

39 Hours  Fee: $695

Fall 2013
Tuesday  18:30-21:30 Sep 10-Dec 10

Winter 2014
Distance: Internet**  Jan 11-Apr 12

Spring/Summer 2014
Distance: Internet**  May 3-Jun 26

CDPB 803

Digital Publishing and Production

Digital publishing and production is an ever-changing and integral area of the publishing industry. This course addresses the relevant technologies, workflows, and formats encompassing digital publishing. Topics include ebook formats, digital workflow, markup languages and associated technologies, digital publishing tools and processes, digital asset management, specifications, and metadata.

Note: To succeed in this course, you must know the fundamentals of computer use in either the Mac or Windows environment: creation and use of file folders; copying and deleting files; cutting and pasting; downloading files from Blackboard, email, or a website; and browser use. If you do not have these computer skills, it is strongly recommended that you take Production for Books, Journals, and Reports (CDPB 103) and/or Visual Skills for Publishing (CDPB 212) before tackling this course.

39 Hours  Fee: $695

Winter 2014
Thursday  18:30-21:30 Jan 16-Apr 17

Spring/Summer 2014
Tuesday  18:30-21:30 May 6-Aug 5

For the most current information, see our website at www.ryerson.ca/ce.
Publishing Intensive

The Publishing Intensive allows participants to complete six of the eight courses required to earn the Certificate in Publishing through an intensive three-month (12-week) program. This unique fast-track program covers both print and digital publishing, including overviews of industry sectors, both trade and educational, as well as skills-based training in copy editing, production, sales and marketing, and design skills for publishing.

Note: Enrollment is limited to 25 students.

For more information, visit www.ryerson.ca/ce/publishing or contact the Academic Coordinators, Brad Horning and Meg Taylor, at publish@ryerson.ca.

234 Hours Fee: $3974

Spring/Summer 2014
Monday–Friday 9:00-16:00 May 5–Jul 25

RADIO, TELEVISION, AUDIO/VIDEO PRODUCTION

The School of Radio and Television Arts is housed in the Rogers Communications Centre, a multimillion-dollar facility dedicated to the study of communications and electronic media. If you’re driven to be part of the multifaceted communication industry, this is the place to get started. For more information, visit www.ryerson.ca/ce/RTA.

Broadcasting and Media Production

Additional supplies may be required ($30-50). Related certificate(s): Media Writing Fundamentals (pg. 101)

★ Media Writing I - Audio and Digital Media CBDC 102
This laboratory course introduces students to the various formats, styles and approaches used in broadcast writing, with a focus on writing for radio and interactive media. Students will learn about research, interviewing, and composing scripts, with a focus on building an introductory portfolio of written material in both the fields of audio and digital media (including news reports, commentaries, commercials, and public service announcements).

26 Hours Fee: $538

Fall 2013
Thursday 18:00-20:00 Sep 12-Dec 12

Spring/Summer 2014
Tuesday & Thursday 18:00-20:00 May 6-Jun 17

★ Media Writing II - TV Studio and EFP CBDC 202
Students taking this course will be introduced to the various styles and script formats currently used in writing for television. Students will learn about research, interviewing, and composing scripts, with a focus on building an introductory portfolio of written material for television (including news reports, commentaries, commercials, and public service announcements).

26 Hours Fee: $538

Winter 2014
Tuesday 18:00-20:00 Jan 14-Apr 15

Spring/Summer 2014
Tuesday & Thursday 18:00-20:00 Jun 24-Aug 7

★ Dramatic Writing CBDC 941
Prerequisite(s): CBDC 102 and CBDC 202
This course will provide an advanced study of dramatic theory and the opportunity to further develop students’ abilities as story tellers. A series of advanced lectures, readings and workshops will build on the theoretical foundations and course work completed by students in BDC 940. Students will develop an original concept for either a half-hour or one-hour television series, and create a Writer’s Bible and sample script for their projects.

39 Hours Fee: $541

★ Commercial Writing CBDC 942
Prerequisite(s): CBDC 102 and CBDC 202
The primary objective of this course is to hone the student’s writing ability in developing advertising strategies. Apart from learning the main components of the advertising strategy, students will: 1) understand and master the use of secondary data to define target markets and develop advertising strategies; 2) develop skills to evaluate consumers and their indigenous needs and then apply them to create effective and persuasive strategies.

39 Hours Fee: $541

RESIDENTIAL CARE FOR CHILDREN AND YOUTH

The following courses will allow you to build on your understanding of the principles, values, and philosophies underlying residential care for children and youth, along with the practical knowledge that you can apply on the job. For more information, visit www.ryerson.ca/ce/crcy.

Residential Care for Children and Youth

For related courses, see Child and Youth Care (page 165).

★ Communications in Residential Care  
**CVCY 101**
This course will introduce the student to the importance of communications and its central role in helping the client. The student will focus on the use of self interaction, interpreting, collecting, analyzing, and presenting verbal and written information with children, youth, co-workers, and allied professionals. (Equivalent to CYC 301.)

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $575</th>
</tr>
</thead>
</table>

★ Human Growth and Development  
**CVCY 102**
This introductory course will build on studying, identifying, and describing the stages of human development along the continuum of the human life span. The growth of the child will be followed from birth to adulthood to old age, including physical, emotional, and intellectual development.  

**Note:** This course is not currently available for credit in the Child and Youth Care Degree Program.

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $593</th>
</tr>
</thead>
</table>

★ Principles of Group Care  
**CVCY 103**
This course examines group dynamics and process. A developmental framework will be used to explore the uniqueness of group work with children and youth. Roles of group members, the stages of group, and the role of groups in maintaining a therapeutic milieu will be reviewed and applied in community settings. (Equivalent to CYC 402.)

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $575</th>
</tr>
</thead>
</table>

★ Residential Care Techniques  
**CVCY 104**
This course, founded in contemporary, competency-based Child and Youth Care practice, explores approaches, strategies, and techniques in residential care. Areas covered will include: approaches to group care, characteristics of effective programs, family involvement; intervention planning; needs based interventions; therapeutic discipline, crisis and opportunity; activities; and the role of supervision. (Equivalent to CYC 808.)

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $575</th>
</tr>
</thead>
</table>

★ Health, Ethics and Professionalism  
**CVCY 105**
This course is designed to demonstrate knowledge of the major pieces of federal, provincial, and municipal legislation currently governing the profession. Areas to be covered will include: advocating, personal, professional and ethical behaviours, health and safety, pharmaceutical and food guides. (Equivalent to CYC 347.)

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $575</th>
</tr>
</thead>
</table>

★ Reflective Practice Seminar  
**CVCY 200**
This course is designed to enable the student to integrate theoretical knowledge and practice skills under the field instruction of a qualified practitioner in the community. The student must submit a portfolio to document achievement of competency goals. (Equivalent to CYC 806.)

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $563</th>
</tr>
</thead>
</table>

★ Sound Synthesis  
**CBDC 975**
This course will cover practices and principles of analog and digital sound synthesis and their historic origins; related audio equipment and applications; theories of sound samplers; algorithmic composition; synthesizers and sequencers; computer music; digital signal processing; computer synchronization; and MIDI applications in sound synthesis and recording production. Advanced sound synthesis techniques are studied and supplemented with sound synthesis studio laboratory work.

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $812</th>
</tr>
</thead>
</table>

★ Interactive Writing  
**CBDC 946**
This course provides a general overview of the burgeoning field of writing for new media and the interactive devices that are finding their way onto market. Whether their goal is to write for interactive television, CD/DVD-ROM, or the Web, this introductory workshop will provide students with the essential skills and techniques necessary to make their ideas both interactive and compelling.

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $541</th>
</tr>
</thead>
</table>

★ Writing for Factual and Reality Programs  
**CBDC 945**
In this course students will learn writing styles related to news, current affairs, science, business and other fact based programming. Through lectures, guest speakers, in class workshops and extensive writing and re-writing practice, students will develop an understanding of the structures and formats specific to fact based writing. Students will work both alone and with a writing partner to research, develop and write a number of current, fact based scripts.

<table>
<thead>
<tr>
<th>39 Hours</th>
<th>Fee: $541</th>
</tr>
</thead>
</table>

★ Writing for Animation  
**CBDC 944**
This course is designed to cover the fundamentals of animation television series. Students will learn the language and process of writing for animation, and also meet with guests from the animation industry who will share their experiences and answer any questions students may have. Finally, students will be required either work in pairs, or alone, to create a fully realized animated script by the end of the semester.

| 39 Hours | Fee: $541 |

★ Comedic Writing  
**CBDC 943**

**Prerequisite(s):** CBDC 102 and CBDC 202

This course is designed to cover the fundamentals of all comedy writing with special reference to the techniques of writing comedy for television, particularly episodic sitcoms and Saturday Night Live-type sketches. Students learn the language and process of TV comedy and are required to write a number of sketches and a fully realized script for an on-air sitcom.

| 39 Hours | Fee: $541 |

Spring/Summer 2014
Monday 18:30-21:30 Apr 28-Jun 16

For the most current information, see our website at www.ryerson.ca/ce.
Far-reaching trends in everything from technology to philosophy have transformed the retail industry. Today you must keep a watchful eye on global advancements while you master electronic communications and devise strategies to keep one step ahead of the competition. Ryerson, the only university in Ontario to offer a Bachelor of Commerce degree in Retail Management, can prepare you. Our Retail Management program was designed with the input of industry leaders and blends the most modern aspects of retail with the traditional components. For more information, visit www.ryerson.ca/ce/retail.

Retail Management

All CRMG course fees include a $10 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. For information on the Course Series in Retail and Services Management, visit www.ryerson.ca/ce/retail. Related certificate(s): Entrepreneurship and Multiculturalism (pg. 55), Retail Management (pg. 134)

★ Intro to Retail and Services Management

CRMG 200

Retailing is one of the most fascinating, challenging and multi-faceted environments, business students will be exposed to. The objective of the course is to provide both an understanding of the key retail strategy components as well as change the student focus from a consumer to a business manager. This will be accomplished through examining the many key functional areas within a retail business including location and market strategy, store design and layout, merchandise planning, human resources, financial strategy and customer relationships. The understanding of these functional areas will illustrate how retailers can adapt to the competitive and continually changing environment by formulating strategies, which result in profitable performance. An introduction to retail profit drivers will be a key element of the course.

39 Hours

Fall 2013  
Distance: Internet  
Sep 7-Dec 7  
Winter 2014  
Distance: Internet  
Jan 11-Apr 12  
Spring/Summer 2014  
Distance: Internet  
May 3-Jul 26  
For information on distance education, visit www.ryerson.ca/ce/de.

★ Retail Operations Management

CRMG 301

Prerequisite(s): CRMG 200 and COMS 102

This course will focus on how retail companies compete by designing and operating effective value chains. Operations strategy guides retailers as they buy merchandise and move it to the marketplace via efficient processes. Internal and external value chains are linked so that costs are reduced and inventory levels are optimized. The processes, that are the building blocks of successful retail organizations, include planning, inventory management, location selection and resource scheduling.

Note: This course is part of the Retail Operations Course Series.

39 Hours

Students with three years’ work experience in the field may apply to the Academic Coordinator, Sean Sadleczky (ssadleczk@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

★ Retail Consumer Insight

CRMG 302

Prerequisite(s): CRMG 200

Antirequisite(s): CMKT 400 and MKT 502

The course introduces the key theoretical concepts to the understanding of consumer behaviour. Building on this foundation the retail/consumer relationship will be examined through the case study method. Topics such as the retail brand, consumer research and value equations will be introduced and examined.

39 Hours

Spring/Summer 2014  
Distance: Internet  
May 3-Jul 26  
For information on distance education, visit www.ryerson.ca/ce/de.

★ Service Quality Management

CRMG 303

Prerequisite(s): CRMG 200

Antirequisite(s): CMTH 102

The quality of service that customers experience in retail settings is affected by many factors. As a result, the challenge for retailers is to provide an environment that instills a focus on customers and delivers the service required to satisfy those customers. This course will introduce students to service quality management frameworks and principles. It will examine how they are reflected in key organizational and management strategies, particularly those related to the management of the retail workforce.

Note: This course is part of the Retail Operations Course Series.

39 Hours

Spring/Summer 2014  
Distance: Internet  
May 3-Jul 26  
For information on distance education, visit www.ryerson.ca/ce/de.

★ Buying Process I

CRMG 400

Prerequisite(s): CRMG 200

This course examines the role of the buyer and his/her place in the marketing function of retail organizations. Course content focuses primarily on the procurement process, and intended outcomes include a thorough understanding of the buyer’s contribution to assortment and resource development, relationships with other functions within the organization and interpretation of target customer needs. (Formerly FSN 451.)

Note: This course is part of the Retail Buying Course Series.

39 Hours

Winter 2014  
Distance: Internet  
Jan 11-Apr 12  
For information on distance education, visit www.ryerson.ca/ce/de.

Students with three years’ work experience in the field may apply to the Academic Coordinator, Sean Sadleczky (ssadleczk@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

★ Intro to Logistics and Supply Chain Mgmt

CRMG 434

Prerequisite(s): CRMG 200

This course serves as an introduction to the fundamentals of logistics and supply chain management. The course is primarily focused on logistics management in the rapidly globalizing retail sector and covers the following topics: facility location, design of distribution networks, demand forecasting, inventory management, aggregate planning, transportation decision-making, Information Technology applications, sourcing and procurement, and pricing. The course emphasizes the use of analytical methods and incorporates risk management in business logistics.

39 Hours

Winter 2014  
Distance: Internet  
Jan 11-Apr 12  
For information on distance education, visit www.ryerson.ca/ce/de.

★ Visual Merchandising and Space Planning

CRMG 452

Prerequisite(s): CRMG 200

Students will study the theories and practices related to visual merchandising and space planning. An examination of leading edge visual merchandising practices will be explored with respect to in-store design and layout. Space planning software will be used to plan in-store displays, window and fixture design and configuration. (Formerly FSN 452.)

Note: This course is part of the Retail Buying Course Series.
This course examines how ethical marketing and operational strategies can be utilized by retailers to improve performance in a highly competitive and rapidly changing multicultural environment. The strategic planning process will be explored from the perspectives of both small and large retailers. Environmental analysis, strategy development, implementation, and control issues will provide a framework for the course. A variety of teaching and learning methods will be used to examine issues and foster reflective thinking among students.

<td>Description</td>
<td>“Multi-channel retailing provides the student with a comprehensive view of the dominant theme for retailers in the 21st Century. The course focuses on the importance of operating and integrating multiple channels of merchandising. By providing an integrated solution to the consumer the retailer reinforces its brand, responds to the consumer’s buying patterns, increasing sales and customer loyalty. An integrated multi-channel strategy must be seamlessly linked and present the same marketing face to the customer. The course helps the student to develop the skills to analyze a firm’s current multi-channel strategy and recommend an integrated strategy to help meet customer needs: optimize sales effectively and efficiently for the retailer. The student will have the opportunity to reinforce her learning through a consulting assignment to a firm in the industry.”</td>

<tr>
<td>Description</td>
<td>This course will explore how organizations leverage channels of distribution for value creation and competitive advantage. It delves into strategies that companies use to bring products and services from their point of origin to their point of consumption. Product proliferation, media fragmentation, retailer power and the internet have required excellence in channel design and management. The course will cover key concepts and strategies related to channel management, in light of traditional and new channels of distribution.</td>

This course focuses on the application of forecasting tools in retail management and business operations. The course introduces students to the fundamentals of time series forecasting methods, such as exponential smoothing and moving average as well as advanced econometric tools such as ARIMA and ARCH/GARCH models. The course also introduces students to forecast consumer behaviour using discrete choice models. This is a hands-on course that requires students to work with real life data sets to forecast consumer demand/behaviour.

39 Hours  Fee: $627

Spring/Summer 2014
Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

Note: This course is part of the Retail Operations Course Series.

Leading in Retail Service Organizations
CRMG 925

The success of any retail strategy is intrinsically linked to its service strategy and how well it translates to the satisfaction of its customers. This course will focus on the processes involved in the alignment and implementation of service management strategies. Its emphasis will be on the optimization of operational capacity and capability, including the facets of customer satisfaction, the engagement of the retail workforce and the use of problem solving techniques.

Note: This course is part of the Retail Operations Course Series.

39 Hours  Fee: $627

Fall 2013
Distance: Internet  Sep 7-Dec 7
For information on distance education, visit www.ryerson.ca/ce/de.

Industry Project
CRMG 919

This course will serve as an optional “capstone” project for individual students with an interest in completing a major independent study or for a company-sponsored cohort to provide an experiential learn project that is integrated with corporate training initiatives and current retail problems.

Note: This course is part of the Retail Operations Course Series.

39 Hours  Fee: $627

Fall 2013
Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

Robotics and Embedded Systems

These components – mobile, miniature, or standard – are utilized in different types of applications, including telecommunications, power distribution, electrical and electronic products, transport, and factory, medical, or commercial automation systems. Embedded systems are present in a wide range of manufactured products and system components. The infusion of this technology is expected to grow at a phenomenal pace and has increased the demand for professionals who are technologists with simultaneous expertise in both software and hardware. For more information, visit www.ryerson.ca/ce/robotics.

Robotics and Embedded Systems

Related certificate(s): Robotics and Embedded Systems (pg. 136)

Embedded Systems Programming
CKRE 100

This course provides students with knowledge on the differences between embedded design and traditional electronic device design. Students engage in hands-on experiences of embedded systems applications and design procedures through the planning and execution of design phases. Hands-on robotics and embedded systems device development is facilitated with an embedded system development kit. This course also provides project management process flow-throughs on planning and executing complete robotics and embedded systems designs, including the document system requirements for new designs as well as those for improving existing systems.

Note: C programming experience is recommended.

39 Hours  Fee: $755

Fall 2013
Distance: Internet  Sep 7-Dec 7
Winter 2014
Distance: Internet  Jan 11-Apr 12
Spring/Summer 2014
Distance: Internet  May 3-Jul 26
For information on distance education, visit www.ryerson.ca/ce/de.

Digital Logic and Hardware Architecture
CKRE 110

This course provides the core knowledge and competencies of logic design, Boolean algebra, and essential Verilog and VHDL statements describing behavioural functions such as counters and other finite state machines. Participants master the ASIC design flow from examples of logic and circuit design analysis, computer abstractions, and performance metrics.

39 Hours  Fee: $755

Programming Robotics Systems
CKRE 120

Embedded software is found in today’s electronic and robotic devices. This hands-on course introduces and then augments participants’ knowledge of C programming, including the embedded language features required for robotics and embedded systems programming. The course expands participants’ competencies in embedded systems programming, including practical, hands-on, in-class programming activities. Participants are to bring a laptop with a WIFI connection to every class.

Note: C programming experience is recommended.
Embedded Systems Hardware Architecture and Implementation  
CKRE 130
This course provides a broad overview of robotics and embedded systems architecture. Students will gain a working and practical knowledge of embedded hardware, firmware, and applications. The course covers concepts pertaining to current embedded technology as it exists in the industry today, including many diagrams and applicable computer code.

Real-Time Embedded Systems Programming  
CKRE 140
This course will introduce and explore the programming language and operating systems facilities essential to the implementation of real-time, reactive, embedded, robotic, and/or networked systems. It will provide the knowledge of practical system issues raised from design and programming. Differentiated issues arising from design, concurrent, reactive, safety-critical and embedded systems will be explored in depth. Simple hands-on development is facilitated with an embedded system development kit.

Emerging Issues in Robotics and Embedded Systems  
CKRE 150
This capstone course will allow participants to synthesize and apply what they have learned to robotic or embedded device design, device building, and implementation. Participants will analyze selected case scenarios and best practices when building their embedded device product. The final work project allows participants to demonstrate a broad mastery of learning across the curriculum and to hone their ability to employ specific strategies that incorporate best practices and meet regulatory requirements. The work project and resulting embedded device product may be used by the participant for career portfolio purposes.

Learning and Development Strategies  
CSSH 102
Assuming that the 21st century will be led by those who learn best, the objective of this course is to equip students to realize their full potential and maximize their learning in the program, as well as prepare them for life long learning. The course will include opportunities for self-assessment, team work, application and skill development. (Formerly ACS 102)

Critical Thinking I  
CSSH 105
Antirequisite(s): CPHL 214
Rational discourse has long been viewed as a principal force for social change. In this course, we will examine the structures and principles that undergird all forms of rational discourse, and we will learn how to assess the logical strength and persuasiveness of particular discourses. These skills will be applied to arguments found in everyday life, and to the formulation of one’s own positions. (Formerly ACS 105)

Academic Writing and Research  
CSSH 205
From an interdisciplinary perspective, this course introduces the fundamentals of research, interpretive skills, and argument-based essay writing. Writing-intensive, the course explores some of the social and cultural implications of written communication. By examining a variety of texts, many of which address the interface of culture and technology, this course asks how we write and why.
Research Design and Qualitative Methods

This course will focus on the student gaining an understanding of the uses of qualitative research designs and techniques. Topics include sampling methods, questionnaire design and implementation, interviews, focus groups, participant observation, and action research. Methodological assumptions, concepts and procedures will be presented. Students will develop their ability to review existing literature and to construct their own research. (Formerly ACS 301)

39 Hours  Fee: $547

Spring/Summer 2014  18:30-21:30  May 6-Jun 17

Social Work

Your awareness of human diversity gives you insight – it’s what motivates you in your fight to help solve social problems. If you want to work for social change in an urban environment, these courses are for you.

Social Work

Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Nursing Leadership and Management, Advanced (pg. 109)

Social Policy: Welfare and Programs  CSWP 302

Prerequisite(s): SWP 132 and SWP 331

This course examines major concepts, roots, and social, cultural, political and economic trends shaping social policy and social welfare in Canada. It explores the increased needs for social protection and the desires for recognition by diverse groups and focuses on the impacts of the re-structuring of social systems and globalization on exclusion and structural inequalities. The discussions address social welfare programs, practices and current challenges for service users, social work and social change. (SWP 302 and SWP 402 replace former equivalent course SWP 22A/B).

39 Hours  Fee: $563

Power, Resistance and Change  CSWP 335

Prerequisite(s): SWP 132 and SWP 331

Theories of power and oppression, understandings of intersectionality, forms of resistance, and processes of social change will be examined in the course. Identified social issues and problems will be related to social work theory and practice. The course emphasizes skills of critical thinking, self-reflection, and dialogue and their relationship to social change processes.

39 Hours  Fee: $563

Social Policy and Social Inclusion  CSWP 402

Prerequisite(s): CSWP 302

Building on SWP 302, this course focuses on approaches and tools for social action and social change, moving students from a theoretical knowledge of social policies to a practical, action-oriented focus on making social claims visible and building program capacity. It examines issues of governance, funding structures, voices, exclusionary processes, and experiences with the social welfare system. The course explores strategies of collaboration and citizen engagement for social inclusion and social change. (SWP 302 and SWP 402 replace former equivalent course SWP 22A/B).

39 Hours  Fee: $563

Race and Ethnicity  CSWP 900

Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course examines current debates around the concepts of race and ethnicity in Canada. The historical and contemporary social context of race and ethnicity will be examined with respect to interrelated discourses of gender, class, sexual orientation, nation, and colonialism. Anti-oppression and anti-racism responses will be explored.

39 Hours  Fee: $563

Winter 2014

18:00-21:00  Jan 13-Apr 14
Social Work and the Law: Children and Family
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course will focus on the many areas of the law that social workers need to be familiar with in order to work with children and families (e.g. marriage, co-habitation, separation, divorce, custody, access, child protection and substitute decision-making). Students will be helped to understand their legal obligations as social workers and to become more comfortable with what might be expected of them in working with lawyers and in courts.

Note: For degree program students: All second-year Social Work courses.
39 Hours  Fee: $563

Special Topics I
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.
39 Hours  Fee: $559

Special Topics II
Prerequisite(s): Department consent

This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in SWP 917 or in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.

Note: This course will focus on international social work.
39 Hours  Fee: $563

*The course fee for this section may differ, as this section is restricted to registered Certificate in Canadian Social Work Practice students in the IESW program.

Substance Use and Abuse
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course provides a framework for understanding fundamental concepts in substance use and critically examining addiction as a social construct. It addresses some key domains in the addiction field, including: underlying theories of addiction, stigma and its impact on diverse populations, pharmacology, screening and case management, Canadian drug policy, prevention and harm reduction. Students will gain a critical understanding of the scope of the addiction field and its relevance to direct practice and social policy.
39 Hours  Fee: $564

Winter 2014
Tuesday  18:00-21:00  Jan 14-Apr 15

Disability Issues and Social Work Practice
Prerequisite(s): (CSWP 302 and SWP 331 and CSWP 335 and SWP 341 and SWP 402 and SWP 435) or Direct Entry
Antirequisite(s): CDST 501, CINT 902

This course examines disability issues within a socio-political context. Such a perspective contends that it is not the specific type of disability condition which is the major source of disadvantage to the individual, but the response that this condition evokes from the larger society. The course will challenge some of the traditional (and damaging) assumptions made about the needs of people labelled as being disabled and will present a framework for policy and practice designed to promote empowerment and inclusion.
39 Hours  Fee: $563

Strong Helpers’ Teachings
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry
Antirequisite(s): CINT 910

Ogitchita Luwatihunyinh (Aboriginal Translation) is designed to build upon the content and learning from SWP 435. It provides students with an understanding of an anti-colonial theoretical framework when approaching social work with Aboriginal peoples. Students examine how social policies and research inform social work practice with Aboriginal peoples, with an emphasis on self-determination/sovereignty and Aboriginal research methodologies. They gain an understanding of the strengths of Aboriginal worldviews in helping others and address how to integrate these into their practice.
39 Hours  Fee: $559

Winter 2014
Tuesday  18:00-21:00  Jan 14-Apr 15

Indigenous Health and Well Being
Prerequisite(s): [SWP 331, CSWP 335 SWP 341, SWP 435 and (CSWP 402 or SWP 22A/B/C)] or Direct Entry

Taking a global perspective, Indigenous health and wellness will be explored through the decolonizing theoretical framework of the Anishinaabe Medicine Wheel - a balance of physical, mental, emotional and spiritual well-being. The health status of Indigenous people globally, the Indigenous peoples of North America, and more specifically Aboriginal peoples of Canada will be discussed through social and political determinants of health lens. The course will also focus on promising health promotion practices and programs.
39 Hours  Fee: $563

Fall 2013
Monday  18:00-21:00  Sep 9-Dec 9

Community Engagement Foundations
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course will establish the historical evolution and theoretical underpinnings of community engagement as a process for enacting and supporting active citizen participation in community and civic affairs. The student will learn models, principles, and methods of community engagement. The course will cover a range of analytic frameworks from which action on community engagement and community development can occur.
39 Hours  Fee: $563

Fall 2013
Monday  18:30-21:30  Sep 9-Dec 9
Spring/Summer 2014
Distance: Internet  May 3-Jul 26

For information on distance education, visit www.ryerson.ca/ce/de.
★ Engaging Diverse Communities

This course will focus on building practice skills for working with diverse communities and engaging excluded groups in order to improve the well-being of their neighbourhoods and/or organizations. Students will learn to assess and understand the demographics of an area, the implications of these findings for guiding community outreach and engagement initiatives successfully, and how to develop and support implementation of an engagement plan with diverse communities and groups.

39 Hours Fee: $563

Fall 2013
Tuesday 18:30-21:30 Sep 10-Dec 10

Winter 2014
Distance: Internet Jan 11-Apr 12

Spring/Summer 2014
Tuesday & Thursday 18:00-21:00 May 6-Jun 17

For information on distance education, visit www.ryerson.ca/ce/de.

★ Community Engagement Practices

This course will study best practices for community capacity-building and improving community well-being. It will focus on the knowledge and skills required to effectively support the community engagement process. Case studies and experiential exercises will be used in the course to convey the skill-set that a community practitioner needs for effective community engagement and leadership development.

39 Hours Fee: $563

Winter 2014
Distance: Internet Jan 11-Apr 12

Spring/Summer 2014
Monday & Wednesday 18:00-21:00 May 5-Jun 18

For information on distance education, visit www.ryerson.ca/ce/de.

★ Community Engagement Capstone

Prerequisite(s): Department consent

This capstone course provides an opportunity to integrate and apply the knowledge and skills acquired through previous courses. Individually or in small groups, and with course instructor approval, students select a project that reflects their own personal or professional interests. Examples of possible projects include the development of a presentation based on analysis of a set of real life scenarios or the analysis of a community issue or situation from the student’s own professional milieu.

39 Hours Fee: $563

SOCIOLGY

Courses offered in Sociology are designed to encourage the critical examination of today’s complex society and to broaden individuals’ understanding of the world in which they live.

Note: Students enrolled in Ryerson degree programs are responsible for ensuring that any course selected from those listed below meets the specific requirements of their program.

Sociology

Related certificate(s): Criminal Justice and Criminology (pg. 43), Gerontology (pg. 75), Social Sciences and Humanities Foundations (pg. 137)

★ How Society Works

Antirequisite(s): SOC 11B, CSOC 104, CSOC 105, SOC 111

This course provides an introduction to some of the major issues in sociology. It examines how societies come into existence, how they are organized and maintained, and how they change. The major sociological perspectives are used to understand the relationship between culture, institutions and social behaviour; the process of socialization; globalization and the political-economic structure of Canadian society; and the resulting social inequalities of class, race and gender. SOC 103 is not available for credit to students who choose SOC 11A/B or SOC111 or SOC112, SOC104, or SOC 105, or SOC 107. (LL)

39 Hours Fee: $565

Fall 2013
Monday 18:30-21:30 Sep 9-Dec 9
Wednesday 18:30-21:30 Sep 11-Dec 11

Winter 2014
Distance: Internet Jan 16-Apr 17

Monday 18:30-21:30 Jan 13-Apr 14
Thursday 18:30-21:30 Jan 16-Apr 17

Monday & Wednesday 9:30-12:30 Jun 23-Aug 11

For information on distance education, visit www.ryerson.ca/ce/de.

★ Understanding Society

Antirequisite(s): SOC 11B, CSOC 103, CSOC 105, SOC 111

This course provides an introduction to some of the major issues in the discipline of sociology. Topics include: the major theoretical debates of classical sociology; research methods and problems; culture and socialization; the evolution of human societies; and the structure of Canadian society. Professionally-related examples are used throughout the course.

39 Hours Fee: $565

Fall 2013
Thursday 18:30-21:30 Sep 12-Dec 12

Winter 2014
Tuesday 18:30-21:30 Jan 14-Apr 15

Spring/Summer 2014
Tuesday & Thursday 18:30-21:30 Jun 24-Aug 7

★ Introduction to Sociology

Antirequisite(s): SOC 11B, CSOC 103, CSOC 104, SOC 111

This course presents the major schools of sociology, which include Functionalism, Critical Theory, Feminism, Interactionism, and Postmodernism. These schools are used to examine a number of fundamental social inequalities such as those based on class, race, ethnicity, gender, and sexuality. In addition, through the lenses of the major schools of sociology, this course also examines the impact of contemporary media institutions and communications technologies on the social construction of knowledge and the construction of socially significant identities and ideologies.

★ Certificate and degree credit Degree credit Certificate credit Course series 355
This course examines the distribution of power and wealth in society. As a social reality, inequality leaves no one untouched, whether or not we are conscious of it. This course traces the origins of social inequality and reflects on the various interpretations of social stratification. At the macro level, analysis examines how patterns of inequality are reproduced and altered over time. At the micro level, analysis considers how inequality shapes individual career choices and other experiences. (LL)

39 Hours  Fee: $565

Winter 2014
Thursday  18:30-21:30  Jan 16-Apr 17
Spring/Summer 2014
Wednesday  18:30-21:30  May 5-Jun 18

COURSES
SOCIOLOGY
CSOC 107
Sociology of the Everyday
A sociological perspective allows us to see generality in particularity, and strangeness in the familiar. This course gives the students a sociological perspective useful for investigating ordinary, common everyday activities and interaction that most of us find routinely engaging. Some concentration is provided to the urban experience of everyday life. Through examining seemingly mundane behaviours—eating, chatting, watching TV, etc., students study underlying structures that shape social behaviour and learn about historical and qualitative social research methods.

39 Hours  Fee: $613

Spring/Summer 2014
Monday & Wednesday  18:30-21:30  May 5-Jun 18

CSOC 202
Popular Culture
Antirequisite(s): SYC 185
This course brings sociological insights to popular culture in its complex and multiple dimensions. Focusing on electronic media, popular music, film, fashion, and cyberspace it examines how contemporary sights, sounds and images impact on human beings and their awareness. Special attention is given the cult of the celebrity, popular culture and social control, and the mediated event. (LL)

Tuesday & Thursday  17:30-21:00  Jun 24-Aug 7

For information on distance education, visit www.ryerson.ca/ce/de.

CSOC 203
Social Class and Inequality
Antirequisite(s): SOC 420
This course examines the distribution of power and wealth in society. As a social reality, inequality leaves no one untouched, whether or not we are conscious of it. This course traces the origins of social inequality and reflects on the various interpretations of social stratification. At the macro level, analysis examines how patterns of inequality are reproduced and altered over time. At the micro level, analysis considers how inequality shapes individual career choices and other experiences. (LL)

39 Hours  Fee: $565

Winter 2014
Thursday  18:30-21:30  Jan 16-Apr 17
Spring/Summer 2014
Monday & Wednesday  9:30-12:30  May 5-Jun 18

CSOC 319
Sociological Perspectives on Crime
Prerequisite(s): CSOC 103 or CSOC 104 or CSOC 105 or SOC 111
This course examines the social context of crime in Canadian society. Issues include the social construction of crime, problems of measuring crime, the major sociological explanations of crime, and the social role of the police professional.

39 Hours  Fee: $547

Not offered in fall/winter/spring 2013-2014.

CSOC 402
The City and Social Problems
Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111
The city today exists in crisis and promise. The sociological perspective sheds light on issues and problems that face cities both locally and globally. Issues covered include: homelessness and poverty; immigration and physical mobility; the ecological crisis; economic development vs. decline; housing; segregation; crime; and the meaning of community in an urban context.

39 Hours  Fee: $610

CSOC 472
At Work in a Changing World
Prerequisite(s): CSOC 103 or CSOC 104 or CSOC 105 or CSOC 107
This course offers an overview of different approaches to work settings and complex organizations in urban industrial society. We will discuss classical theories of bureaucracy, the managerial tradition, and critical perspectives drawn from contemporary Sociology, including studies focusing on diversity in the workplace. Also examined are the modern enterprise, state and government, community/volunteer organizations and social movements, and alternatives to dominant organizational forms.

39 Hours  Fee: $563

Not offered in fall/winter/spring 2013-2014.

CSOC 474
Immigration, Minorities and Citizenship
Prerequisite(s): CSOC 103 or CSOC 104 or CSOC 105 or CSOC 107
Most immigrants that come to Canada end up in one of the three largest metropolitan centres: Vancouver, Montreal or Toronto. This course provides an overview of immigration policies and trends, with a specific emphasis on immigration to Toronto. This course looks at who came, when, and why. It also looks at this city’s benefits and drawbacks, obstacles and opportunities for new and not-so-new arrivals.

39 Hours  Fee: $547

Not offered in fall/winter/spring 2013-2014.

CSOC 500
Youth and Society
Prerequisite(s): CSOC 103 or CSOC 104 or CSOC 105 or SOC 111
This course examines youth in contemporary society, their behaviour, roles, hopes, expectations and attitudes. It places young people within a sociological framework that emphasizes contemporary social, economic and political realities. The variables of social class, race and ethnicity, and gender are stressed; and key issues such as youth and media, the law, the family, employment and education are explored in depth.

39 Hours  Fee: $547

Not offered in fall/winter/spring 2013-2014.
This course examines work as a central human activity. At different points in our lives, we all end up participating in work, in its varied forms. Work is a source of identity and meaning in life. The organization of work in current times, however, is problematic. As presently organized, for many, it is alienating, unchallenging, precarious, and devalued. This course questions why and how work is presently organized, and how it can, and has been envisioned differently. (UL)

39 Hours  Fee: $547

Winter 2014
Wednesday  18:30-21:30  Jan 15-Apr 16

Violence and the Family
Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or CSOC 107 or SOC 111 or Direct Entry

This course explores the nature of violence, its manifestations in family life, its root causes, its consequences, and the social reaction to this violence. The family is viewed as a major social institution that is affected by the changes that occur within society. The primary goal is to facilitate students' understanding of violence and its relationship to family life within the socio-cultural context.

39 Hours  Fee: $547

Fall 2013
Wednesday  18:30-21:30  Sep 11-Dec 11

Distance: Internet
Wednesday  18:30-21:30  Jan 11-Apr 12

For information on distance education, visit www.ryerson.ca/ce/de.

Race and Ethnicity in Canadian Society
Antirequisite(s): SOC 300, POG 313

This course provides an introduction to the concepts, theories and research methods most relevant to the study of racism and ethnicity in everyday life. The development of multicultural societies and the historical context of racial and ethnic groups in Canada are examined. The role and impact of governmental and non-governmental policies (on immigration, employment and employment equity for example), will be discussed in the context of a variety of social institutions such as schools and the judicial system. SOC 507 is not available for credit to students who choose SOC 300 or POG 313. (UL)

39 Hours  Fee: $547

Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10
Thursday  18:30-21:30  Sep 12-Dec 12
Winter 2014
Tuesday  18:30-21:30  Jan 14-Apr 15
Spring/Summer 2014
Tuesday & Thursday  9:30-12:30  May 6-Jun 17

Sociology of Gender
Antirequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry

This course examines the historical and cross-cultural expressions of gender inequality, and its consequences for both men and women. Emphasis is also placed on issues related to gender inequality in contemporary Canada, including gendered divisions in the gender labor market and the family, the role of governments in equity issues, and the process of socialization. The course concludes with an examination of prospects for the future. (UL)

39 Hours  Fee: $547

Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10
Winter 2014
Tuesday  18:30-21:30  Jan 14-Apr 15
Spring/Summer 2014
Monday & Wednesday  9:30-12:30  May 5-Jun 18

Families: Difference and Diversity
Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry
Antirequisite(s): SOC 21B

Family life is shaped by social, economic and legal forces. This course is designed to explore how family structures and family dynamics have been reshaped over time. The course looks at topics such as colonization, immigration, cohabitation, heterosexual and same sex marriage, childrearing theories, violence, divorce and remarriage. The course also explores the impact of laws and state policies on family structures.

39 Hours  Fee: $547

Fall 2013
Tuesday  18:30-21:30  Sep 10-Dec 10
Spring/Summer 2014
Tuesday & Wednesday  18:30-21:30  May 5-Jun 18

Women, Power and Change
Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry
Antirequisite(s): SOC 28 A/B

This course examines the development and impact of the Canadian feminist movement, its theories, issues, organizations, and strategies on the lives of females and males in Canada. Globalization and issues of inequality and diversity among girls and women frame the exploration of the Canadian female condition in the paid and unpaid work realms, from the 1800s to the present.

39 Hours  Fee: $555

Spring/Summer 2014
Tuesday & Thursday  18:30-21:30  May 6-Jun 17

Women and Human Rights
Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry
Antirequisite(s): SOC 28 B

This course examines the abrogation of fundamental rights and the social control of girls and women in historical, contemporary and cross-cultural perspectives. The patriarchal policies and practices of the state are examined around issues of law and public policy, marriage, same-sex relationships and custody, sexual violence and pornography, sexuality and reproductive control, education and healthcare. The role of religion and media in legitimizing and maintaining patriarchal structures and in denying rights are also explored.

39 Hours  Fee: $555

COURSES

COURSES

SOCIOLOGY

Sexualities, Identities, and Society  
CSOC 633

Discussions about sexual practice raise questions about what it is, who does it, and how. Sexuality is regulated according to the dominant power relations in society. In this course, students will investigate societal debates about sexuality, examining the ways that race, sexual orientation, aboriginality, and/or disability operate in sexual discourses. Academic and popular cultural written and visual texts will be critically analyzed, with attention to historical, social, and political constructions of sexual identities and citizenship. (UL)

39 Hours  Fee: $547

Fall 2013  
Thursday 18:30-21:30  Sep 12-Dec 12
Winter 2014  
Thursday 18:30-21:30  Jan 16-Apr 17
Spring/Summer 2014  
Tuesday & Thursday 18:30-22:00  May 6-Jun 17

Aging, Culture and Society  
CSOC 704

Aging is a social as well as a biological phenomenon. This course uses social, historical, legal, ethical and literary insights to examine four main themes: the meaning of aging, the personal experience of aging, the societal phenomenon of aging, and the future of an aging society. A humanistic approach provides an understanding of aging and the issues which arise in the face of aging and death. (UL)

39 Hours  Fee: $610

Spring/Summer 2014  
Tuesday & Thursday 18:30-21:30  May 6-Jun 17

Law and Justice  
CSOC 705

In our highly regulated society, law has become an increasingly significant element. The course analyses the nature and functions of law in society, how law influences social behaviours, and how social values and actions shape law. The degree to which justice is served by law is a central question. The course focuses primarily on Canadian law but comparative materials are also used. (UL)

39 Hours  Fee: $547

Food and Foodways  
CSOC 808

This course reviews complex cultural, economic, and political arrangements in the production, distribution, and consumption of food. Examining the diversity in historical and cultural arrangements in “foodways” the course offers insights into broader social and economic structures, class and gender relations, politics and ideologies of access to food and images and discourses of food. Table manners, food taboos, diets, food crazes and fast food are some of the topics to be studied. (UL)

39 Hours  Fee: $547

Information Technology and Society  
CSOC 880  
Antirequisite(s): COCR 941

Information technology is now one of the major influences in modern life. Given the unprecedented rates of change, how do we formulate reasonable expectations? How do we make choices when we don’t know what the future of technology holds? To answer questions such as these, we need to learn more about the interaction between technology and society. This course looks at the use and impact of information technology in areas such as engineering, medicine, manufacturing, education and law. It looks at issues such as privacy, personal dignity, and the kind of life we want to lead. The course provides a historical framework and ideas which may be applied to other areas of technological change. (Upper-level liberal studies elective)

39 Hours  Fee: $547

Fall 2013  
Distance: Internet  Sep 7-Dec 7

For information on distance education, visit www.ryerson.ca/ce/de.

Women and Islam  
CSOC 885

This course will explore the position of women and gender relations in contemporary Muslim societies and North American Muslim communities, introducing a comparative perspective to the issues of Muslim women in their homelands and diaspora. Our discussions will focus on comparing different controversial issues within Islam, such as Muslim women’s identity, veiling, Muslim family life, Muslim women in the war zones, and Muslim women’s activism in their homeland and in the United States and Canada. (UL)

39 Hours  Fee: $547

SPANISH

These courses offer opportunities to increase your professional qualifications. In order to choose the appropriate course level, you are advised to consult the guidelines on the Department of Languages, Literatures, and Cultures website at www.ryerson.ca/llc. Students who have no knowledge of Spanish may enroll directly into CSPN 101. However, all students must take the Spanish Placement Test at www.ryerson.ca/llc/placementtest/index.html or attend one of our interview/placement assessment sessions. CSPN 101 to CSPN 601 are language courses designed for non-native speakers. For more information, visit www.ryerson.ca/ce/spanish.

Spanish

Related certificate(s): Proficiency in Spanish (pg. 117)

Introductory Spanish I CSPN 101
This course for students with no knowledge of Spanish uses a communicative approach, emphasizing oral comprehension and expression without omitting the written aspects of Spanish. Students learn basics of grammar. Historical, social and cultural aspects of the Spanish-speaking world are introduced through the study of short readings. Attendance is mandatory and a substantial percentage of the mark depends on class participation. Not open to native speakers. (LL) (UL)

Thursday 18:00-21:00 Sep 12-Dec 12
Winter 2014
Thursday 18:00-21:00 Jan 16-Apr 17
Spring/Summer 2014
Tuesday & Thursday 18:00-21:00 May 6-Jun 17
Additional supplies and materials are required (cost TBA).

Spanish Conversation and Pronunciation CSPN 402
This PR/PE course is intended to enhance oral proficiency by focusing on vocabulary expansion, knowledge of syntax, auditive comprehension, and correct pronunciation and intonation. Some emphasis will be placed on the significance of linguistic registers and regional varieties of Spanish. Students will improve their Spanish through a range of oral practice activities including the analysis of audiovisual materials, films and plays as well as discussion of written texts from a variety of sources.

39 Hours Fee: $607

Advanced Spanish I CSPN 501
This course is for students who have achieved an intermediate level of fluency in Spanish and who wish to develop their listening comprehension, oral communication, correctness and spontaneity of expression, sensitivity to language registers as well as the written aspects of the language. Newspaper clippings, magazine articles and videos introduce students to various aspects of the Spanish-speaking world. A novel or play is studied, and short essays and commentaries improve writing and analytical skills. (LL) (UL)

39 Hours Fee: $489
Fall 2013
Tuesday 18:00-21:00 Sep 10-Dec 10
Winter 2014
Thursday 18:00-21:00 Jan 16-Apr 17
Additional supplies and materials are required (cost TBA).
This course, offered in Spanish, is intended to introduce students with an intermediate level of fluency to the Spanish-speaking business world, through the study of realistic situations and specialized vocabulary. Students will study business documents such as letters, memos and job applications in order to have a sound knowledge of written business Spanish. They will use oral activities such as role play to develop their understanding of cultural business practices in Spanish speaking countries.

39 Hours  Fee: $487

**Fall 2013**
Monday 18:00-21:00  Sep 9-Dec 9

**Advanced Spanish II**

This course is for students who feel comfortable using Spanish, but who wish to perfect their listening comprehension, oral communication, correctness and spontaneity of expression, sensitivity to language registers as well as the written aspects of the language. Newspaper clippings, magazine articles and videos introduce students to various aspects of the Spanish-speaking world. A novel is studied, and medium-length essays and commentaries improve writing and analytical skills. (LL) (UL)

39 Hours  Fee: $494

**Winter 2014**
Tuesday 18:00-21:00  Jan 14-Apr 15

Additional supplies and materials are required (cost TBA).

**Advanced Business Spanish**

This course is designed to give advanced students a solid foundation in business vocabulary and a concrete background in business and cultural concepts in order to succeed in the Spanish-speaking world. It seeks to develop cross-cultural competence for business purposes in order to apply this knowledge effectively in communicative situations. Students will have already mastered the fundamentals of Spanish grammar and the general vocabulary needed for basic everyday communication. Through the study of realistic situations and specialized vocabulary, students will acquire an in-depth knowledge of the Hispanic business community.

39 Hours  Fee: $494

**Winter 2014**
Monday 18:00-21:00  Jan 13-Apr 14

**Introduction to Latin American Culture I**

This course, offered in Spanish, is intended to introduce students to South American culture. Literary works by authors such as Jorge Luis Borges, Gabriel García Márquez and Luisa Valenzuela will be examined in relation to social and political themes in Latin American society. The study of painting, sculpture, cinema, music and popular culture will lead to an enhanced awareness of cultural diversity in the Spanish speaking world. The language of instruction is Spanish. (LL) (UL)

39 Hours  Fee: $496

**Fall 2013**
Tuesday 18:00-21:00  Sep 10-Dec 10

**Contemporary Spanish Fiction**

This course, offered in Spanish, will explore Spanish fiction from the onset of the Civil War to the present. Through the study of short stories, plays and novels by authors such as Federico García Lorca, Juan Marsé and Esther Tusquets, students will develop skills in literary analysis and gain an understanding of modern Spanish literature. Textual analysis, oral participation and composition form an essential part of the course. (LL) (UL)

39 Hours  Fee: $482

**Spanish of Spain and Latin America**

This course, offered in Spanish, will present an in-depth study of the present-day grammatical structure of the Spanish language as well as introducing students to the history of Spanish from its Latin origins to its current use in Spain, Latin America and elsewhere. Students will analyze the language and the cultural context of a variety of texts from Spain and Latin America. The norms and variations of Modern Spanish will be studied. The course will be given in Spanish using multimedia. (LL) (UL)

39 Hours  Fee: $487

**Introduction to Latin American Culture II**

This course is designed to introduce students to the culture of Mexico, Central America and the Spanish-speaking Caribbean. Literary works by authors such as Laura Esquivel, Carlos Fuentes and Nicolas Guillén will be studied in relation to social and political themes in Latin American society. The study of painting, sculpture, cinema, music and popular culture will lead to an enhanced awareness of cultural diversity in the Spanish speaking world. The language of instruction is Spanish. (LL) (UL)

39 Hours  Fee: $496

**Winter 2014**
Tuesday 18:00-21:00  Jan 14-Apr 15

**Cultural Context of Writing**

Intended for students who need to improve their writing skills in Spanish, this course will study five major modes of writing: description, narration, exposition, argumentation and academic discourse. Students will engage in the in-depth analysis of texts from various sources: Spanish and Latin-American literature, journalistic writing, advertising, scholarly articles, etc. The course is structured in such a way as to help students understand the cultural complexity of the relationship between the writer and the intended reader. The language of instruction is Spanish. (LL) (UL)

39 Hours  Fee: $496

SPANNING THE GAPS

Spanning the Gaps programs are aimed at giving both high school students and adults an accessible pathway to post-secondary education. For more information, visit www.ryerson.ca/ce/access.

Transition to Academic Success  CYSG 108
This course will help first-year students in their transition from high school to university. Through a series of practical skills workshops taught by Ryerson professionals, students will prepare for the academic demands of university with a focus on writing skills. Students will be given the tools to be successful with a university-level essay assignment. They will learn the writing process from brainstorming and drafting to editing and revising. Emphasis is placed on active reading techniques, academic integrity, argumentative skills, and citation styles.

30 Hours  HST included  Fee: $399
Fall 2013  Monday–Friday  9:00-16:00  Aug 19-Aug 23

Academic Skills for Success  CYSG 109
This workshop will give students an overview of the skills necessary for academic success in a post-secondary environment. Students will learn how to write a university level essay, generate ideas using critical thinking skills, utilize time management techniques to meet deadlines, and tailor learning based on learning styles. This small, interactive workshop is presented in an engaging classroom environment and provides students with the skills to be self-directed learners and utilize campus resources effectively.

18 Hours  HST included  Fee: $61
Fall 2013  Thursday  18:30-21:30  Sep 7-Dec 7
Winter 2014  Thursday  18:30-21:30  Jan 11-Apr 12
Spring/Summer 2014  Tuesday  18:30-21:30  May 22-Jun 26
This course will run during the Fall and Winter breaks.

SUSTAINABILITY

Sustainability is regarded as a global issue that will impact society and the world we live in. These courses provide you with an opportunity to acquire cross-disciplinary knowledge of sustainability-related issues. For more information, visit www.ryerson.ca/ce/sustain.

Sustainability
Related certificates: Energy Management and Innovation (pg. 50), Sustainability Management (pg. 140)

Fundamentals in Sustainability I  CKSS 100
This course provides conceptual, theoretical, historical, and practical frameworks for understanding how society addresses sustainability issues. Through an international lens, it facilitates the development of systems-thinking skills based on an integrated, multifaceted, and interdisciplinary approach to ethical, economic, political, social, and legal aspects of societal decision-making concerning sustainability issues. Its purpose is to provide an integrated and holistic understanding of the social-economic-environmental context underlying local and global sustainability decision-making in the public, private, and NGO sectors.

**This course will run during the Winter break.
Capstone Experiential Learning Course  
**Prerequisite(s):** Department consent

This final course in the certificate is centered on independent learning under direction of a project supervisor. Students will be required to undertake a project, in partnership with an external organization (such as a corporation or business, government body, or NGO partner), to integrate and apply sustainability’s 3BL (social, economic, and environmental) dimensions. Competencies acquired through coursework, experiential learning, professional experience, and personal interest are applied to a selected sustainability issue of either the learner’s choosing or through the learner undertaking a sustainability gap-analysis report that follows the Sustainable Development Strategy (SDS) framework as a guide for analysis. The project allows students to propose specific strategies and solutions that incorporate best sustainability practices and better regulatory requirements.

Sustainability Topics and Trends  
**Prerequisite(s):** CKSS 100

Building on CKSS 100 and CKSS 101, the two Fundamental Courses in Sustainability, this course will explore four key topics in sustainability with a focus on social and economic dimension of sustainability. The topics in the course will change depending on current issues faced by society and availability of subject matter experts. The course will allow students to understand the background to the issue and why society is where it is. Students will explore possible solutions using the sustainability frameworks of earlier courses to frame the discussion.

  - **Material Fee:** A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

  - **Supplies needed:** Students will be required to purchase make-up supplies.

Theatre

If you work in the cultural sector, these courses can help you develop entrepreneurial skills to support your creative work.

- **Make-Up and Wiggery**
  
  **Prerequisite(s):** THP 202 or THP 402
  
  An introduction to make-up and wigs for theatre technicians, designers, and make-up artists. Make-up materials, equipment, basic techniques, the structure of hairpieces, modern and period wigs and their maintenance will be studied.
  
  39 Hours  Fee: $620

  - **Spring/Summer 2014**
    - Tuesday & Thursday 18:30-21:30 May 6-Jun 17

  - **NEW!**

- **Fabric Dyeing and Costume Painting**
  
  **Prerequisite(s):** THP 202 or THP 402 or FSN 10B or FSN 220
  
  An introduction to the methods and materials used in theatrical costume painting, dyeing and breakdown. Students may be required to work on costumes for actual productions.
  
  26 Hours  Fee: $395

  - **Spring/Summer 2014**
    - Monday & Wednesday 18:30-21:30 May 5-Jun 18
# URBAN AND REGIONAL PLANNING

Courses in Urban Planning are designed to prepare students with substantive knowledge about cities and regions, and with thinking and problem-solving skills for those who contribute as leaders in the community and the profession of urban and regional planning.

## Planning

### Related certificate(s): Community Engagement, Leadership, and Development (pg. 38), Demographic Analysis (pg. 44)

- **Multicultural Cities and Public Policies**
  - **CPLE 725**
  - Recent immigration patterns have prompted exploration of how local governments provide urban facilities, services and infrastructures. This course will teach students how modern cities of diverse cultures evolve and what policy approaches can sustain them. The course balances a mix of theoretical explanations about the geographic, political and economic bases of multicultural cities and critically reviews current policies and planning practices. It compares cities around the world, yet the Greater Toronto Area remains the pivot.
  - **39 Hours**
  - Fee: $563
  - **Spring/Summer 2014**
  - TBA

- **Selected Topics in Planning**
  - **CPLE 745**
  - Prerequisite(s): PLG 420 or in UP002 or UP003
  - A current topic in the planning profession will constitute the subject of the course. The topic will be selected from issues, regions, or projects in planning in which students require competence.
  - **39 Hours**
  - Fee: $592

- **Selected Topics in Planning**
  - **CPLE 845**
  - Prerequisite(s): PLG 420 or in UP002 or UP003
  - This one semester course will address current topic relevant to the practice and profession of planning.
  - Note: Starting from a base of critical thought, this course examines the theory and popular debate about why our climate is changing, then expands to explore how the change is manifested on a global and local scale. Building on the observed change, this course also discusses forecasted environmental effects and explores how, as a society, we can best adapt to and mitigate the change.
  - This course is open to students in either their third or fourth year of a four-year program.
  - **39 Hours**
  - Fee: $563
  - **Spring/Summer 2014**
  - Monday–Friday 8:30-18:00 Apr 28-May 2

- **Conflict Resolution and Dispute Negotiation**
  - **CPLE 895**
  - Prerequisite(s): PLG 420 or in UP002 or UP003
  - Antirequisite(s): CINT 905
  - Conventional ways of handling public disputes no longer seem to be working. Planners who are involved in building new facilities, dealing with community opposition, developing environmental standards, or allocating limited resources to meet emerging social standards, face stiff opposition no matter where they turn. The result is costly, time-consuming, and erodes public confidence in our basic institutions. This course will use case studies, projects, and participatory techniques to show how public dispute management can lead to consensus building strategies that not only save time and money, but produce broadly acceptable agreements.
  - **39 Hours**
  - Fee: $559
  - **Spring/Summer 2014**
  - Monday–Friday 8:30-18:00 May 12-May 16

- **Foundations of Planning**
  - **CVUP 100**
  - Prerequisite(s): Department consent
  - This course will address the following areas: planning concepts; planning techniques; planning theory; policy in the planning realm; and the institutional context of planning. While the course will address the basis of physical design and related planning concepts and techniques, it will also focus on contextual factors impacting on planning practice and the theoretical underpinnings of planning.
  - **75 Hours**
  - Fee: $995
  - **Fall 2013**
  - Monday–Friday 10:00-16:00 Aug 12-Aug 30

For the most current information, see our website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
**Autobiographical Writing**

**True to Life: Writing Your Own Story**

Adventure, turbulence, joy: we all contain a universe of stories. Is it time for you to get started, or restarted, in putting your personal narratives on paper? This relaxed, supportive workshop will help you find the tales you want to tell and the craft and technique to make them compelling to read, whether as memoir, personal essay, or a beginning exploration. Each week students are given a choice of topics and asked to bring in a short piece of new writing. The instructor provides encouragement, structure, and practical feedback to help students discover and hone their unique voices. Learn how to dig deep and stay on track; how to cut, sharpen and polish; and where to send the work you want to share with the world.

**True to Life: Writing Your Own Story - Level II**

Prerequisite(s): CWWR 336

The path to good writing may be difficult, yet in a supportive workshop setting, the journey is focused and companionable. This course is for writers intent on exploring their life stories for memoir or personal essay. Students will delve deeper into the emotional truth of the stories they need to tell, and into the vital art and craft of editing and rewriting. New work will be read and discussed each week.

**Creative Travel Writing**

“What am I doing here?” was the late travel writer Bruce Chatwin’s guiding question. Creative travel writing, as practised by such noted writers as Bill Bryson, Mary Morris, and Paul Theroux, is more than a catalogue of places visited, buses missed, and cathedrals toured. It is the story of the author’s relationship to place; it is both outer and inner journey. In this workshop you will be taken through exercises designed to trigger memory, sharpen your powers of observation, and create travel stories and articles using techniques borrowed from the craft of fiction: characterization, description, dialogue, etc. Beginning writers are welcome.

COURSES
WRITING WORKSHOPS AND SEMINARS

24 Hours  HST included  Fee: $428

Fall 2013
Saturday 11:00-13:00  Sep 7-Nov 30
Spring/Summer 2014
Saturday 11:00-13:00  May 3-Jul 19

There will be no class on October 5.

Writing Creatively About Grief  CWWR 530
Students will learn techniques, methods, and devices for writing evocative creative non-fiction (e.g., memoir, personal essay) and poetry on loss and grief. Through the reading and writing of non-fiction and poetry, we will work towards making our experiences of grief speak to others. Subject matter is not limited to the death of a loved one, but can include, for example, a divorce/break up or losing a part of a person through injury or illness.

Note: Instructors: Cordelia Strube (Winter term)

25 Hours  HST included  Fee: $428

Winter 2014
Wednesday 18:30-21:00  Jan 15-Mar 19

*This course will run during the Winter break.

Writing
Whether you’re a budding novelist or a seasoned scribe, you'll find a wide range of fascinating and enriching opportunities to hone your skills and expand your repertoire. Study in class or online – either way, you'll be part of a dynamic writing community.

Writers and the New Media  CWWR 369
This hands-on course is for writers who want to create and maintain a website featuring their own work. You will learn weblog software, web authoring software (such as Dreamweaver), design a site made up of several pages, get a domain name and server, and post your site to the web. There will be time during class to work on your webpages. We will examine usability and design issues, web strategy, and web presence. Homework will include bringing in content for your site such as your bio, written material, photos, and links. The goal of this course is to have a website completed and online by the end of the course.

Note: Instructor: Rhonda Abrams

24 Hours  HST included  Fee: $428

Spring/Summer 2014
Tuesday 18:30-21:30  May 13-Jul 1

*Short Fiction Writing - Level I  CWWR 410
Do you want to write a story, but have no idea how to start? Do you need encouragement? A firmer grasp on basic techniques? This is an introductory workshop designed to help you find your voice and your nerve. In an atmosphere of good humour and mutual respect, participants will write and read aloud their own work. The instructor will emphasize point-of-view, plotting, dialogue, and character development, always with an eye to releasing the writer within you.

Note: Instructors: Cordelia Strube (in-class sections), Rabindranath Maharaj (AJAX in-class section at Ajax Public Library-Main Branch, 55 Harwood Avenue South), and Ann Ireland (distance sections).

25 Hours  HST included  Fee: $429

Fall 2013
Distance: Internet  Sep 7-Dec 16
Monday 18:30-21:00  Sep 9-Nov 18
Winter 2014
Distance: Internet  Jan 11-Mar 22
Wednesday 18:30-21:00  Jan 13-Mar 24
Spring/Summer 2014
Distance: Internet  May 3-Jul 5
Monday 18:30-21:00  May 7-Jul 21

For the most current information, see our website at www.ryerson.ca/ce.

Short Fiction Writing - Level II  CWWR 411
In this intermediate workshop, the instructor leads frank but supportive discussions about stories written by class participants and distributed ahead of time. Various elements of effective writing are examined, such as creating character, writing dialogue, using the rhythms of spoken language, managing plot, controlling point of view, and writing technical or historical passages. At least one class is devoted to the business of publishing fiction.

Note: Instructor: Cordelia Strube

25 Hours  HST included  Fee: $428

Fall 2013
Thursday 18:30-21:30  Sep 12-Nov 7
Winter 2014
Thursday 18:30-21:00  Jan 16-Mar 13

*This course will run during the Fall and Winter breaks.

Novel Writing - Level I  CWWR 420
"Don’t tell me the moon is shining; show me the glint of light on broken glass." - Anton Chekhov
The course includes thoughtful discussion of the elements of novel writing: inspiration and the sustaining of ideas, plotting, setting, character, and point of view. Students will receive feedback on their work from both the class and the teacher. Each class will be structured around writing exercises to build practical skills, a discussion of student manuscripts, as well as a lesson on important facets of narrative technique. Students will learn how to build a novel narrative (a novel outline) and how to write scenically (one strong chapter). Beginning writers welcome.

Note: Instructors: Susan Glickman (Fall and Spring terms) and Cordelia Strube (Winter term)

25 Hours  HST included  Fee: $428

Fall 2013
Monday 18:30-21:00  Sep 9-Nov 18
Winter 2014
Monday 18:30-21:00  Jan 13-Mar 24
Spring/Summer 2014
Monday 18:30-21:00  May 5-Jul 21

Novel Writing - Level II  CWWR 421
This is an intermediate-level course for those who are writing regularly and have already begun a novel, and who value giving and getting regular feedback on their work. Participants will have the chance to present up to 50 pages to the group for discussion and should have some of this draft material ready before the course begins. Using students' own work and in-class exercises when appropriate, we will address such topics as plot, pacing, characterization, point-of-view, and getting published. A continuation of Novel Writing - Level I.

Note: Instructor: Susan Glickman

25 Hours  HST included  Fee: $428

Winter 2014
Monday 18:30-21:00  Jan 13-Mar 24

Short Fiction and Novel Writing - Level III  CWWR 425
The focus of this workshop will be rewriting; learning to look at a manuscript critically, with an eye toward developing the story or novel's potential. Participants will present at least three chapters or stories from a work-in-progress for discussion and evaluation. Objectives will include strengthening structure, narrative drive, deepening characterization, trimming exposition, and intensifying scenes. Participants will be encouraged to experiment, to make mistakes, to scratch out, and, if necessary, to start over. Rewriting is often perceived as difficult, but anything can be changed, shaped, and reshaped. This workshop will communicate to its participants that there is no fear in rewriting, only promise.

Note: Instructor: Cordelia Strube
Writing Poetry: Rapping, Reading, Revising  
COURSES 367
Chinese/English
Credit: 25 Hours
HST included  Fee: $428
Spring/Summer 2014
Thursday 18:30-21:00  May 8-Jul 10
This class is for all lovers and practitioners of the most ancient and vibrant form of literature. We’ll discuss great examples of the art, and listen to poets on tape. In-class exercises on such topics as voice, imagery, diction, rhyme, meter, and line-breaks will help you hone your craft, and you will get feedback from the instructor and your fellow students in a supportive workshop environment. A field trip to the lively Toronto performance scene will provide an opportunity for students to read their own poems in public.

Note: Instructor: Susan Glickman

From The Horse’s Mouth - Getting Published  
COURSES 450
A round table discussion with celebrated editors and agents, moderated by teacher and editor Brian Henry. This afternoon workshop draws together senior figures from the publishing industry. Following the presenters’ introductory remarks, discussion will be opened up to the floor to address the concerns and questions of those aspiring writers present, both of fiction and non-fiction, interested in improving their chances of getting published. Questions addressed will include: What are the editors looking for?

Note: This year, for the first time, in addition to a literary agent and a senior editor from a publishing company, one our our panelists will provide expertise in self-publishing.

Moderator: Brian Henry.

Works in Progress: Writing Workshop  
COURSES 514
This workshop is for writers intending to complete a full-length work - novel, short story collection, screenplay, stage play, or memoir - with the emphasis on ‘story.’ Over the term, writers will have the opportunity to submit their work to the class for evaluation. Focusing on structure, narrative drive, characterization, syntax, and editing, the group discussions are intended to spark insight into the work-in-progress. In addition, the writer’s life will be examined to provide practical advice on publishing, agents, and earning a living as a writer.
