COURSES

Whether you’re looking to further develop your skills or broaden your awareness, to advance your career or explore brand new directions, The G. Raymond Chang School of Continuing Education offers over 1,500 courses to enrich both your professional and personal life.

Visit www.ryerson.ca/ce/calendar and refer to course descriptions for the most up-to-date requisites, fee, and scheduling information including distance education, intensive, and condensed options.

Class sizes are limited, so enroll early to avoid disappointment. Visit www.ryerson.ca/ce/enrollment for complete details.

### ACCOUNTING

Whether you want to learn the fundamentals of accounting, progress to a more advanced level, earn a professional designation, or develop expertise in specialized business applications, the following accounting courses, along with the courses listed under Finance and Financial Planning, will meet your needs.

#### Accounting

All CACC course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce). Related certificate(s): Accounting – Finance (pg. 14), Business Management (pg. 26), Entrepreneurship and Multiculturalism (pg. 44), Facility Management (pg. 48), Financial Planning (pg. 53).

<tr>
<td>Accounting for Managers</td>
<td>CACC 507</td>
<td>CACC 414 or Direct Entry</td>
<td>This course is intended for students who intend on pursuing a career as a manager in the public or private sector. Managers make use of accounting information when making most operating and financial decisions. It is important that financial and management reporting issues be studied at an advanced level. 39 Hours Fee: $574.59</td>
</tr>
<tr>
<td>Intermediate Accounting II</td>
<td>CACC 514</td>
<td>CACC 414</td>
<td>This course continues from the ACC 414 coverage of the financial reporting requirements as presented in generally accepted accounting principles. The topics will include liabilities, share capital transactions, earnings per share calculations, adjustments, correction of errors, income taxes, leases, pensions and financial statement analysis. Students should expect to use and expand on the application of generally accepted accounting principles and concepts covered in ACC 414 and introductory financial and management accounting courses. To be successful in the course, students should be prepared to work independently outside the class sessions. 39 Hours Fee: $574.59</td>
</tr>
<tr>
<td>Auditing</td>
<td>CACC 521</td>
<td>CACC 514</td>
<td>An introduction to the auditing standards and procedures developed by the accounting profession. Topics covered include: auditing standards, the audit report, materiality, risk, gathering of evidence and sampling. The course is useful to the student who is interested in the profession of auditing or developing a manager's understanding of auditing. 39 Hours Fee: $574.59</td>
</tr>
<tr>
<td>Taxation for Managers and Financial Planners</td>
<td>CACC 522</td>
<td>CACC 414 or Direct Entry</td>
<td>Since taxation has an important effect on business decision-making in this course students will study the fundamental principles of the Canadian income tax laws and examine their effect on business decisions and financial planning. The tax treatment of various sources of income, as well as the legislation affecting small businesses will be included in the course. The student will develop decision making skills through numerous situational examples and case analysis. 39 Hours Fee: $574.59</td>
</tr>
<tr>
<td>Accounting for Small Business</td>
<td>CACC 607</td>
<td>CACC 414 or Direct Entry</td>
<td>This course is intended to broaden the student's depth of understanding of particular accounting issues required by small business such as payroll accounting, special employer tax and bank reporting requirements. 39 Hours Fee: $574.59</td>
</tr>
<tr>
<td>Internal Auditing</td>
<td>CACC 621</td>
<td>CACC 514</td>
<td>This course examines the role and practice of internal auditing in the Profit and Public Sectors with an emphasis on value for money auditing. 39 Hours Fee: $574.59</td>
</tr>
<tr>
<td>Canadian Business Taxation I</td>
<td>CACC 742</td>
<td>CACC 514 and CACC 522</td>
<td>A detailed examination of the federal income tax law concerning income of individuals from employment, business and property. The implementation of the law and its effects, and issues in tax planning and other practical matters are explored, as well as legal interpretations of the law, through examination of a wide variety of practical problems and cases. Related rules in the Goods and Services Tax Act are also examined. Students should have a knowledge of accounting and business law, and be prepared to spend a minimum of two hours outside of class for every hour in class. (Formerly first half of ACC 042.) 39 Hours Fee: $574.59</td>
</tr>
<tr>
<td>Note: If you are a full-time degree student, please contact the Accounting department at 416.979.5000, ext. 6735 or <a href="mailto:nicole.hillmer@ryerson.ca">nicole.hillmer@ryerson.ca</a> for more information.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Canadian Business Taxation II</td>
<td>CACC 842</td>
<td>CACC 742</td>
<td>A further examination of the federal income tax law, dealing with its implementation and effects on both large and small corporations, their shareholders, and their business and financial decisions. Practical tax planning issues are explored, as well as interpretations of the law, in a wide variety of problems and cases. Taxation of partnerships, trusts, and the Goods and Services Tax are also examined. (Formerly second half of ACC 042.) 39 Hours Fee: $574.59</td>
</tr>
<tr>

</table>
ARABIC

These courses offer opportunities to increase your professional qualifications and prepare you for travel to Arabic-speaking countries. Students who have no knowledge of Modern Standard Arabic may enroll directly into CARB 101. However, all students must take the Arabic Placement Test on the Department of Languages, Literatures, and Cultures website at www.ryerson.ca/llc.

NEW

☆ Introductory Arabic I CARB 101
This course is designed to help students with no knowledge of Arabic to begin developing functional communication abilities in all four language skills in spoken and written Modern Standard Arabic. Using a variety of authentic materials, students will learn to create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write simple sentences and the talk about subjects related to family, studies, and social environment. (LL)
39 Hours Fee: $627.00

NEW

☆ Introductory Arabic II CARB 201
The course, which focuses on the acquisition of complex grammatical structures, expanding vocabulary, and discourse skills, develops functional communication abilities in all four language skills in spoken and written Modern Standard Arabic. Using a variety of authentic materials, students will learn to create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write simple sentences and the talk about subjects related to family, studies, and social environment. (LL)
39 Hours Fee: $627.00

ARCHITECTURE

Creating environments that are beautiful and functional is a complex and exciting process. Whether you are interested in interior or exterior spaces, these courses can introduce you to the principles, practices, and skills that contribute to effective design.

Architectural Preservation and Conservation
This program is designed to provide architects, and those in related design fields, with the opportunity to gain the applied state-of-the-art knowledge and skills necessary to keep pace with developments in the construction industry. Related certificate(s): Architectural Preservation and Conservation (pg. 19), Architecture (pg. 21), Architecture, Advanced (pg. 22), Sustainability Management and Enterprise Process Excellence (pg. 104)

☆ Architecture Preservation and Conservation Workshop CKAR 600
An introductory level lecture/seminar course on architectural preservation and conservation theory, philosophy, history, and concepts. The aesthetic, managerial, and technological aspects of the preservation and conservation sub-sector of the architectural profession will be covered, as well as future trends and issues.
39 Hours Fee: $755.00

☆ Building Science for Architectural Preservation and Conservation CKAR 601
An intermediate level course in building science examining the biological, chemical, and physical properties of the envelope and components of building structures as impacted by the internal and external environments. The proper material selection and methods of assembly of building envelope and components for durability, sustainability, and serviceability will also be investigated.
39 Hours Fee: $755.00

☆ Management and Regulatory Framework CKAR 604
An advanced level course on the project and construction management (sequencing, scheduling, estimating, etc.) of preservation and conservation projects. Governmental regulations (construction safety, heritage by-laws, etc.), non-governmental/cultural policies (ICOMOS, UNESCO, World Heritage Sites, etc.), and professional ethics/practices on architectural preservation and conservation will also be examined in detail.
39 Hours Fee: $755.00
Comprehensive Seminar/Project  CKAR 605
Prerequisite(s): CKAR 600 and (CKAR 601 or CKAR 602 or CKAR 604 or CKAR 610)
A thesis course. Students will be required to propose a preservation and conservation plan for an historical building or selected components of high complexity. The student will be required to assemble a thesis advisory group who will advise and monitor the progress of the student’s work.
39 Hours Fee: $755.00

Architectural Preservation and Conservation Techniques  CKAR 610
Prerequisite(s): CKAR 601
This is an advanced level course on archaic and contemporary materials and methods for preservation and conservation of building structures. Students will be taught the properties, decay mechanisms, and the maintenance and repairs of different building materials. The manufacturing, identification and methods of assembly of these materials will also be examined. Researching, inspecting, recording, and assessing the condition and quality of building structures will be taught. Students will also be taught historical research techniques; destructive and non-destructive building testing, investigation, and inspection techniques; manual, photographic, and computer-aided extant recording techniques; and building repair assessment techniques.
39 Hours Fee: $755.00

Architecture
Related certificate(s): Architectural Preservation and Conservation (pg. 19), Architecture (pg. 21), Architecture, Advanced (pg. 22), Facility Management (pg. 48), Sustainability Management and Enterprise Process Excellence (pg. 104)

Architectural Studio - Fundamental  CKAR 103
Prerequisite(s): CKAR 102 or CKAR 300
An introductory studio workshop in architectural design and space planning. Topics include spatial and functional planning, human-interface and environmental systems, and architectural representation and presentation.
39 Hours Fee: $755.00
Supplies to be purchased by student: T-square, set square, scale, instruments, pencils, paper. Allow $80 for these supplies and texts - do not purchase until after the first session.

Mechanical and Electrical Systems for Buildings  CKAR 201
Prerequisite(s): CKAR 310 or CKAR 105
An intermediate course examining the fire-protection, lighting, plumbing, heating, ventilation, air-conditioning, electrical, and communications systems and services that are required for buildings in Canada. The applicable standards, codes (including Parts 6, 7, and 8 of the Ontario/National Building Codes) and regulations governing the design of these mechanical and electrical systems will also be examined.
39 Hours Fee: $755.00

Architectural Studio - Intermediate  CKAR 202
Prerequisite(s): CKAR 103
An intermediate workshop in architectural design. Topics include architectural design elements and principles, forms and spaces, circulation and procession, social and symbolic systems, and architectural representation and presentation.
39 Hours Fee: $755.00
Supplies to be purchased by student: T-square, set square, scale, instruments, pencils, paper. Allow $80 for these supplies and texts - do not purchase until after first session.

Specifications and Contractual Documents  CKAR 203
Prerequisite(s): (CKAR 300 or CKAR 102) and (CKAR 310 or CKAR 105)
An intermediate course in technical specifications writing, the tendering process, contracts and construction contract forms, Canadian contractual laws, and contract administration. Students will be expected to complete a partial set of specifications.
Note: Prerequisite waived for APC students.
39 Hours Fee: $755.00

Cost Estimating and Control  CKAR 204
Prerequisite(s): (CKAR 300 or CKAR 102) and (CKAR 310 or CKAR 105)
An intermediate course in quantities surveying for cost estimation and control of construction works. Topics include measurement methods, standardized formats and forms, methods of estimations, and cost control and procedures. Students will be expected to complete a cost estimate of a small building.
Note: Prerequisite waived for APC students.
39 Hours Fee: $755.00

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Building Codes and Regulations  CKAR 205
Prerequisite(s): CKAR 310 or CKAR 105
An advanced course on codes and regulations governing planning, design, and construction in Canada. Municipal planning by-laws, the Ontario/National Building Codes, standards, and other regulatory documents will be examined in detail. The application process in obtaining permits and approvals for development will also be examined. Students will be expected to complete a code analysis of a small building.
39 Hours Fee: $755.00

Digital Graphics for Architecture and Design  CKAR 209
An intermediate lecture/laboratory course on computer imaging, graphics and presentation techniques. Utilization of authoring software and hardware for data management, graphics design, and imaging (image capture, manipulation, and outputting).
39 Hours Fee: $755.00

Toronto: An Architectural History  CKAR 210
This course focuses on the architectural history of Toronto from its earliest settlement to the present day. A comprehensive overview of each stylistic period, its social-technical setting, and significant buildings will be presented. Field trips and guest lectures will enhance the students’ understanding of the origins and related artifacts that make up the physical setting of one of the world’s most dynamic cities.
39 Hours Fee: $755.00

Computer-Aided Architectural Drawing  CKAR 215
An introductory/intermediate lecture/laboratory course in architectural drafting and technical drawing utilizing AutoCAD (a computer-aided drafting system). Students will also be given an introduction to basic computer operations (MS Windows), and will be expected to complete a partial set of architectural working drawings.
39 Hours Fee: $755.00

Architectural Drawing  CKAR 300
This is a comprehensive course in architectural drawing and drafting which includes such topics as architectural representation and drawing and drafting styles and techniques. Students will learn perspective, isometric, and orthographic drafting as well as technical drafting. The course will include selected elements of designing process and its graphic components such as conceptual drawings, presentation drawings, design development, and details and technical drawings.
39 Hours Fee: $755.00

Materials and Methods  CKAR 310
This course introduces the methods and materials of building construction with an examination of construction systems and components including: foundations, walls, floors, roofs, doors and windows, and finishes. Materials of construction are introduced and placed into the context of the interconnected systems that make up buildings.
39 Hours Fee: $755.00

Sustainable Buildings  CKAR 500
Prerequisite(s): CKAR 103 and CKAR 310
The built environment has a substantial impact on the environment, specifically on energy and material resources. This overview course examines the sustainable development of buildings by examining how building process, materials, methods, components, and systems affect the environment and how designers such as architects and engineers have alternatives to affect a smaller environmental footprint. The course will include case studies and may include a field trip and/or guest speakers.
39 Hours Fee: $755.00

History of Architecture from Classical to Contemporary  CKAR 744
This comprehensive and critical course focuses on the history of architectural ideas and built forms from classical to contemporary times, including a range of current issues such as globalization, digital technology, and sustainability. It will present the chronological panorama of changing styles and techniques as well as social, political, and intellectual forces affecting the architecture and design of each epoch, based on weekly visual presentations. Students will learn how to recognize and interpret styles, architectural details, and movements, and how to communicate about the history of architecture.
39 Hours Fee: $755.00

Building Info Modelling (REVIT)  CKAR 785
This course is an introductory/intermediate course, training BIM users through the basic procedures of designing an integrated building model. Topics include project creation, navigation and display concepts, designing with components, working with levels, creating and editing walls, adding doors and windows, creating floor and roof objects, working with view properties, object styles, loading and modifying family components, adding dimensions and annotations, adding and modifying drawing sheets, and plotting procedures.
39 Hours Fee: $755.00
Digital Architecture

Related certificate(s): Architectural Preservation and Conservation (pg. 19), Architecture (pg. 21), Architecture, Advanced (pg. 22)

NEW

Digital Architectural Modelling  CKDA 610
A lecture/laboratory course on creation of architectural objects and the different approaches to digital modelling. Students will learn the construction, creation, manipulation, and transformation of rudimentary and complex architectural forms in a tectonically plausible context.

39 Hours  Fee: $755.00

NEW

Digital Architectural Rendering  CKDA 611
An introductory lecture/laboratory course on the applications and rendering of architectural materials and textures. The second part of this course will be a design studio. Students will be required to design and document (modeled and rendered) a building, or an architectural component, of medium complexity entirely within the digital medium. This course is the first of two courses on computer rendering in digital architecture and design, and is focused primarily on architectural-objects creation.

39 Hours  Fee: $755.00

ARTS AND CONTEMPORARY STUDIES

These courses give you the opportunity to develop your learning, research, ethical, and literacy competencies – important ingredients for success in any pursuit. They combine traditional education in the humanities with practical skills and theoretical approaches to deal with relevant societal issues. Arts and Contemporary Studies courses may be credited towards Ryerson University’s full-time degree program, which stresses foundational skills and a broad liberal arts education.

Contemporary Studies
Related certificate(s): Social Sciences and Humanities Foundations (pg. 101)

★ Ideas That Shape the World I  CACS 100
This course studies ideas shaping the contemporary world and arguments that invigorate and challenge our sense of what it means to live as an individual, citizen, and member of the complex, multifaceted, volatile global society. The focus is on these issues as they have arisen in a Canadian context; it studies the contribution of Canadian thinkers to global debates; and it challenges students to articulate their own responses to central issues of the contemporary experience.

39 Hours  Fee: $605.03

★ Introduction to the Humanities  CACS 103
In this course students learn to identify a humanistic perspective, and analyze how this perspective can infuse our understanding of the world around us. Students are also introduced to the various ways in which this perspective is applied in Arts and Contemporary Studies - in particular in the program's subject-based and interdisciplinary options - while gaining some of the academic skills relating to effective research, writing and expression that they will require to excel in a university setting.

39 Hours  Fee: $581.34

★ Ideas That Shape the World II  CACS 200
This course examines the work of some seminal thinkers, writers, religious leaders, and artists of antiquity. Beginning with the ancients, the course traces the development of intellectual traditions up to the Renaissance. These traditions develop and explore ideas about the origins and structure of the physical world, human existence, the relationship of the individual to communities, the concepts of the state and politics, and the sacred.

39 Hours  Fee: $630.78
Introduction to Culture Studies  
CACS 302
This course introduces the concepts and debates about the nature of culture and the development of culture industries. Students will examine a range of perspectives on the ‘invention’ of art and the boundaries between high and low culture. The various meanings of ‘entertainment’ will be explored. The creation of ideas outside the dominant culture will also be addressed.
39 Hours  
Fee: $573.10

Introduction to Research and Statistics  
CACS 401
This is a one-semester course within the Arts and Contemporary Studies program with a format of two one-hour lectures and a one-hour lab per week. No familiarity with the fundamental elements of research or statistics is assumed. The course gives students the practical methods needed to statistically describe and analyze phenomena and to present those results. Emphasis throughout the course is on practical uses and application of these techniques, rather than on their mathematical derivations.
39 Hours  
Fee: $562.80

Senior Group Project  
CACS 800
Prerequisite(s): Department consent
This capstone course brings students together for a collaborative project enabling application of various skills, competencies and knowledge acquired in the program. “Showcase” event(s), such as charrette, simulation, forum or conference, on a critical issue or area of engagement in contemporary society, will be planned, organized, marketed and presented by the students. The “showcase” event, highlighting what students have learned in the program, will be open to the public, including prospective employers.
39 Hours  
Fee: $623.57

Directed Research Course  
CACS 950
Prerequisite(s): Department consent
This course offers students the opportunity for advanced study with a professor in the Faculty of Arts. Topics are determined jointly by the student and professor. Normally, students must have completed at least 25 credits before taking ACS 950 and have a CGPA of no less than 3.0. Students must submit a completed application form to the ACS Program Office at least 20 business days before the start of the relevant semester. Departmental and program consent required.
39 Hours  
Fee: $623.57

BIOLOGY

Biology is the study of living organisms and systems, including tissues, cells, and the structure and function of macromolecules. These courses introduce you to the basic principles of biology, ecological and environmental issues, human biology, and microbiology.

Anatomy and Physiology  
CBLG 10A/B
A systematic approach to the complexity of the human body. Lectures include integumentary system, defense mechanisms, cardiovascular, lymphatic and respiratory systems; exercise; the male and female reproductive systems; pregnancy; skeletal, muscular, nervous, endocrine, digestive and urinary systems; senses.
78 Hours  
Fee: $1169.47
Students must have taken Grade 12U Biology, OAC Biology, CBLG 90A/B, or CKBG 108 and CKBG 109, prior to taking this course.

Biology I  
CBLG 143
This course is an introduction to the cellular and molecular mechanisms in the cell. Topics include macromolecule structure and function, enzymes, cell membrane structure and function, cell cycle control, cell division, metabolism, and photosynthesis. Also included is an introduction to genetics and patterns of inheritance, gene expression and developmental biology. Laboratory exercises complement lectures.
58.5 Hours  
Fee: $876.95
Attendance at labs is mandatory. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.
Students must have taken Grade 12U Biology, OAC Biology, CBLG 90A/B, or CKBG 108 and CKBG 109, prior to taking this course.
Biology II
Prerequisite(s): CBLG 143

This course is an introduction to evolution, diversity, and ecology. Topics include natural selection and the patterns of evolutionary change in allele frequencies and speciation. The course will introduce the diversity of living organisms resulting from evolutionary processes. The course will explore how these organisms interact with each other and their physical environment, and the feedback of these interactions on evolution. Laboratory exercises complement lectures.

58.5 Hours Fee: $876.95

Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.

Microbiology I
Prerequisite(s): CBLG 143 and CBLG 144

This course introduces the student to the principles of microbiology. Topics include the history of microbiology, a survey of the different types of microorganisms, prokaryotic cell structure and function, microbial nutrition and growth, microbial metabolism and its applications, and bacterial genetics and gene expression. An introduction to bacterial gene expression will also be covered. The laboratory exercises complement the lectures and introduce the student to basic microbiological techniques and applications.

78 Hours Fee: $1160.20

Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.

Biology of a Living City
Antirequisite(s): CBLG 143, CBLG 144

This course will examine current selected topics in biology including cloning, today’s epidemics, genetically modified foods and environmental issues. Students will be introduced to many fundamental principles of modern biology as well as the history and ethics pertaining to the topics. This course is open to all arts students and has no secondary school biology requirement. (Formerly SCI 181). BLG 181 is not available for credit to students who choose BLG 143 or BLG 144. (LL)

39 Hours Fee: $622.54

Biology Facts in Pop Media Sci-Fiction

This course is an exploration of the real science and technology behind the science fiction portrayed in popular media (movies, television, internet and print). Topics may include: cloning of cells and organisms; DNA sequencing and genomics; forensics techniques used in real labs; how to analyze and understand statistics in health related news articles; the chemistry and physiology behind health foods and fads; the pros and cons of genetically modified organisms (GMOs); etc. Students will be able to choose and direct their studies of specific movies, episodes and articles. (UL)

39 Hours Fee: $613.23

NEW

Social Factors in Drug Development

Once a drug has been discovered, there are many factors that influence whether it is marketed. This course will explore the societal issues that affect pharmaceutical and biotech companies as they develop new compounds. After an introduction to the Canadian regulatory process, students will discuss topics such as laboratory animal welfare, ethics in clinical research, drug reimbursement and other pressures drug companies face to provide a drug or take it off the market. (UL)

39 Hours Fee: $613.23

Introduction to Biological Principles

This course is a two-term introduction to the basic principles of biology. In the first term, topics discussed include the scientific method, essential chemistry and biomolecules, cell structure and function, cellular respiration and photosynthesis, genetics and inheritance, evolution, and biological diversity. In the second term, topics discussed include phylogeny, animal and plant physiology, ecology, and environmental issues.

Note: Formerly CKBG 108 and CKBG 109.

78 Hours Fee: $755.00

An Academic Bridging Course that may be used to meet the Grade 12 U Biology requirement for Ryerson admission purposes. Please note that mature student applicants will be considered on an individual basis. Please contact Undergraduate Admissions and Recruitment for details.

Human Body Health Tools

This course examines scientific findings, cases, and tools that could help individuals manage future, sudden, serious problems that arise in the human body for themselves or significant others.

8 Hours HST included Fee: $101.97
The Science of Food Foundations  CKBG 110
Based on scientific evidence, this course examines the human body and healthy diets for adults in mid-life including fibre, protein, fat, and carbohydrate requirements.
8 Hours  HST included  Fee: $101.97

The Science of Supplements  CKBG 115
This course focuses on the science behind supplements for selected human body systems. Topics will include the needs of adults in mid-life for healthy hearts and lungs, muscles and bones, gastro-intestinal tract, and kidneys and the nervous system.
8 Hours  HST included  Fee: $101.97

NEW
Introduction to the Human Genome  CBMS 150
This course for non-science majors aims to explore our current understanding of the principles of genetics as applied to the human genome. The human genome has been fully sequenced and individuals are now choosing elective surgery based on knowledge of their genetic make-up. Students will be exposed to current ideas of the connection between our genes, health and illnesses and to the similarities and differences in genomes and gene expression among individuals and populations. (LL)
39 Hours  Fee: $618.00

BIOMEDICAL SCIENCES

Superior and Innovative Programming
Are you interested in making a career change? Pursuing advanced training in your professional field? Taking a course for personal enrichment? The G. Raymond Chang School of Continuing Education provides relevant, quality educational programming geared to adult learners. We offer a variety of programs of study to help you achieve your goals:

- 1,500 courses, seminars, and workshops/over 450 are offered through distance education
- 88 career-related certificate programs/22 are available completely online
- Courses toward 13 part-time degree programs
- Courses towards accreditation by 13 professional institutes and associations

Visit our website at www.ryerson.ca/ce to learn more!
BUSINESS ANALYSIS

These courses will help you develop the expertise to make effective use of the vast amount of data available in business today.

Quantitative Methods

All CQMS course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Accounting – Finance (pg. 14), Business Decision Analysis (pg. 24), Business Management (pg. 26), Financial Planning (pg. 53), Retail Management (pg. 99)

★ Business Statistics I  CQMS 102
Prerequisite(s): QMS 204, QMS 400

This course consists of an introduction to business statistics including methods of describing, summarizing, graphically presenting, measuring and analyzing statistical data, probability distributions, covariance applications, sampling distributions and control charts. The course emphasizes how to apply various statistical techniques in the support of managerial decisions in the various functional areas of business. Students will be required to use appropriate computer software and/or calculator to present and analyse statistical data.

Note: Supplies to be purchased by the student: Software and calculator specifications will be announced at the first session. Students require access to a computer with Microsoft Windows. Calculators are not required for Internet classes.

39 Hours  Fee: $730.12

★ Business Statistics II  CQMS 202
Prerequisite(s): QMS 102 or QMS 204 or Direct Entry;
Antirequisite(s): QMS 230

This course builds on the concepts introduced in QMS 102. Some of the topics to be studied follow: confidence interval estimation, hypothesis testing of means, variances, proportions, independence, and simple/multiple regression with applications to forecasting. The course emphasizes how to apply various inferential statistical techniques in the support of managerial decisions in the various functional areas of business. SPSS and/or programmable calculators are used.

Note: Supplies to be purchased by the student: Software and calculator specifications will be announced at the first session. Students require access to a computer with Microsoft Windows. Calculators are not required for Internet classes.

39 Hours  Fee: $730.12

★ Multiple Regression for Business  CQMS 442
Prerequisite(s): QMS 202 or QMS 230 or Direct Entry

This course makes a comprehensive examination of both multiple regression and analysis of variance, the most commonly used statistics tools used in business, emphasizing model appropriateness for given business problem and followed by a critical analysis of any assumptions and an assessment of the model accuracy. A real-life project is used to demonstrate the practical use of the techniques. The course is supported by appropriate statistical software.

Note: Supplies to be purchased by the student: Software and calculator specifications will be announced at the first session.

39 Hours  Fee: $574.59

★ Business Optimization  CQMS 521
Prerequisite(s): QMS 202 or QMS 230 or Direct Entry

This course is designed to help the prospective manager define the management decision-making process and become familiar with the Operations Research and other linear techniques in practice today. Students will learn to recognize decision situations amenable to O.R. analysis through exposure to the analysis of business problems using model formulation and problem-solving techniques. Analysis will be done using appropriate of software and platforms with an emphasis on output interpretation.

39 Hours  Fee: $574.59

★ Linear Algebra  CQMS 522

This course applies Matrix Algebra to the modelling of Linear Business Systems. Topics include Matrices and Linear Transformations, Determinants and Subspaces. This course should be of interest to students planning graduate studies in Business Administration or Economics.

39 Hours  Fee: $574.59

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
**Calculus for Business**  
*Course Code: CQMS 702*  
*Prerequisite(s): CQMS 202 or QMS 230 or Direct Entry*

This course is an introductory course in calculus. Its purpose is to make the student familiar with the basic concepts and appreciate the various applications. The course will be of value to students who wish to further their understanding of business and economic model building. It will also give the student an insight into one of the most powerful and widely used of mathematical tools. Although little prior knowledge will be assumed, the student should have analytical interest. Many graduate business schools now require at least one undergraduate level calculus course. It is strongly recommended that students select QMS 702, Calculus for Business, as an elective in fourth year if they are considering graduate studies in business.

39 Hours  
Fee: $574.59

**Business Forecasting Techniques**  
*Course Code: CQMS 703*  
*Prerequisite(s): CQMS 202 or QMS 230 or Direct Entry*

This course deals with the application, usefulness and limitations of some of the more important and widely used time series forecasting techniques, including Box-Jenkins. A forecasting project will provide the student with insight into the practical problems of forecasting such as data acquisition, model selection and the analysis and interpretation of results. Analysis will be done using the appropriate software and platforms.

39 Hours  
Fee: $574.59

---

**BUSINESS TECHNOLOGY MANAGEMENT**

The explosion of information technology has transformed the way business is done in today’s world. It has also created a need for a new type of management professional – the information management specialist. The courses offered here will give you the foundation of knowledge and technical tools to manage your information resources effectively. For more information, visit www.ryerson.ca/ce/itm or www.ryerson.ca/ce/bsa.

**Business Systems Analysis**

A course series in Business Systems Analysis is available. Please visit www.ryerson.ca/ce/bsa for further information.

- **Business Systems and Strategy**  
  *Course Code: CZSA 100*  
  *Prerequisite(s): CZSA 100*

  This course provides a foundation of knowledge for business systems analysts in the areas of information systems, business architecture, enterprise analysis and business strategy. Students will learn how information technology is used to rapidly deploy business systems that support or enhance business strategy for competitive advantage. This course will provide students with an understanding of the goals, purpose and value of the business systems analysis project, in the context of the overall business enterprise.

  36 Hours  
  HST included  
  Fee: $1309.55

- **Business Systems Analysis and Design**  
  *Course Code: CZSA 200*  
  *Prerequisite(s): CZSA 100*

  Business system analysts play a critical role in harvesting benefits from IT investments. This course introduces major techniques of business system analysis, with an emphasis on using current methods and tools to investigate information system problems, identify system requirements, evaluate alternatives, and select the best solution. Case studies are utilized where students, as team members, analyze business problems and recommend information system solutions. Effective verbal and written communication skills are important elements of this course.

  36 Hours  
  HST included  
  Fee: $1309.55

---

*Certificate and degree credit  Degree credit  Certificate credit  Course series*
**Business Process Analysis and Design**  
*CZSA 300*

*Prerequisite(s): CZSA 100*

This course introduces the principles of business process analysis and design. Concepts about the role of processes in the delivery of the organization's value proposition, measuring process performance and the steps required to analyze, design and implement process changes will be used to allow students to acquire skills in process mapping, diagnosing process weakness, and identifying opportunities for improvement. Objectives of the course are to explain how process orientation enhances the efficiency and effectiveness of organizations and to teach the methods for analyzing, designing, and implementing processes.

36 Hours  
HST included  
Fee: $1309.55

**Health Informatics**

Related certificate(s): Health Informatics (pg. 61), Health Studies (pg. 63)

**Introduction to Health Informatics**  
*CHIT 100*

This course will lay the foundation of how information technology is applied to healthcare. Various concepts including evidence-based medicine, Electronic Health Record, eHealth, Canada’s Health info-structure, will be introduced. Specific focus will be on the implementation of Electronic Health Record in Canada and a comparison with other such implementations around the world. Students will learn simple application level software (like MS Access, Excel) within the healthcare domain. Introduction to healthcare ethical issues related to information management will also be provided.

39 Hours  
Fee: $676.10

**Healthcare Interoperability**  
*CHIT 201*

*Prerequisite(s): CHIT 100*

This course will provide a good foundation on healthcare data and information and knowledge sharing. Specific focus will be on the importance of interoperability between diverse and distributed systems. New care processes will be analyzed and presented through case studies. Various electronic data interchange standards and healthcare coding terminologies will be introduced. Students will work with standards like SNOMED CT, HL7, and create care information contents in a simulated environment.

39 Hours  
Fee: $676.10

**Introduction to Healthcare Human Computer Interface**  
*CHIT 300*

*Prerequisite(s): CHIT 100*

This course will introduce fundamental concepts of Human Computer Interface (HCI) design, usability issues, and integration within the healthcare delivery processes. Fundamentals of human interaction with computers including mental models, multimedia user interface, network-based interactions and visual design principles will be introduced. HCI in computerized physician order-entry systems, speech interfaces, computer-based tutoring systems for training health professionals, patient monitoring systems, information-retrieval systems and clinical decision-support systems will be analyzed.

39 Hours  
Fee: $676.10

**Information Technology Management**

A material fee of $0.40 is included in the total fee indicated for all CITM courses. For further information, see Material Fees on the Chang School website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce). For standard course outlines for Information Technology Management (CITM) courses, visit [www.ryerson.ca/itm/cos.html](http://www.ryerson.ca/itm/cos.html). Related certificate(s): Accounting – Finance (pg. 14), Business Decision Analysis (pg. 24), Business Management (pg. 26), Design Management (pg. 36), Enterprise Architecture and Infrastructure Management (pg. 43), Ethics (pg. 46), Health Informatics (pg. 61), Information Systems Management (pg. 68), Project Management (pg. 89), Strategic Marketing (pg. 103)

**Foundations of Information Systems**  
*CITM 100*

*Antirequisite(s): ITM 277*

Information systems are an integral part of all business activities and careers. This course is designed to introduce students to contemporary information systems and demonstrate how these systems are used throughout global organizations. The focus of this course will be on the key components of information systems - people, software, hardware, data, and communication technologies, and how these components can be integrated and managed to create competitive advantage. Through the knowledge of how IS provides a competitive advantage students will gain an understanding of how information is used in organizations and how IT enables improvement in quality, speed, and agility. This course also provides an introduction to systems and development concepts, technology acquisition, and various types of application software that have become prevalent or are emerging in modern organizations and society.

52 Hours  
Fee: $1183.88

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
★ Business Information Systems I

CITM 102

Antirequisite(s): ITM 101 and ITM 277

This course introduces students to the role of information systems and technology strategy in the modern enterprise with a focus on helping users apply technology to achieve and maintain competitive advantage. Basic concepts include the use of systems to support business decision-making, computer hardware and software systems, networks, telecommunications, and e-business basics. Emphasis is on the development of critical thinking and analytical skills through the exploration of real-life business system applications, case studies, and a research project. During the lab component, this course also provides students with a hands-on introduction to basic Microsoft Office computer applications including MS-Access and Excel. Upon completion of this course, students should have the generic computer skills they will need for academic, personal and business success.

39 Hours

Fee: $719.35

Please note: The online version of this course uses SAM software that must be installed on a PC: the software is not compatible with MAC computers.

★ Managerial Decision Making

CITM 107

The course emphasizes how to apply various mathematical techniques in the support of managerial decisions in the various functional areas of business. Topics covered include: Review of basic algebra (including linear, quadratic and other special functions), matrices, inequalities and linear programming, exponential and logarithmic functions, mathematics of finance, functions, limits and derivative, derivatives and applications. Students will be required to use an appropriate computer software (eg. EXCEL) and/or a calculator to analyze and solve business quantitative problems.

39 Hours

Fee: $719.35

★ Fundamentals of Programming

CITM 200

This course covers the fundamental principles of object-oriented, event-driven program design and implementation in a business environment. Emphasis will be placed on logic development, program design, modularity, structured programming standards, maintainability, testing and debugging. Specifically the course will include the following programming features: memory variables; object methods and properties; the logic constructs - sequence, branch, case and loops; simple arrays; basic file structures; validation and error handling. The course will be taught in a lecture and lab design where a GUI programming language will be used to reinforce the theoretical concepts taught in class.

39 Hours

Fee: $1183.88

★ Computer-Enabled Problem Solving

CITM 207

The course covers the basic data representation and processing constructs necessary to problem solving using computers. This includes the development of algorithmic solutions to data processing problem through the use of workflow concepts such as sequence, selection, and iteration. In addition, the course address select fundamental problem solving strategies such as the decomposition of data processing problems into multiple tasks whose functions are coordinated within a specified workflow. Computer simulation and/or implementation tools will be used to provide hands on application of covered concepts using business problem solving examples.

39 Hours

Fee: $719.35

★ IT Infrastructure

CITM 301

Prerequisite(s): CITM 100 or in IT015 or IT016

This course provides an introduction to computer hardware/software and communication networks. It gives the students the knowledge and skills that they need for communicating effectively with professionals whose special focus is on hardware and systems software technology and for designing organizational processes and software solutions that require in-depth understanding of the IT infrastructure capabilities and limitations. It also prepares the students for organizational roles that require interaction with external vendors of IT infrastructure components and solutions.

Note: A prerequisite may be waived if the student has specific academic experience. Students registered in the Certificate in Health Informatics who have successfully completed CHIT 100, but do not have the listed prerequisites and wish to take this course, may contact the Academic Coordinator, Priya Nippak, at pnippak@ryerson.ca for more information.

39 Hours

Fee: $782.18

★ Systems Analysis and Design

CITM 305

Prerequisite(s): (CITM 100 and CITM 207) or in Business Technology Management CAAT program.

The course covers the key concepts, techniques, and methodologies relevant to the process of developing information systems (IS). The course focuses on the development of requirements, analysis, and design models of the system to be. The specifications of these models are done using the Unified Modeling Language (UML). In addition, the course provides a contextual coverage of the system development life cycle and select concepts of IS construction, deployment and project management respectively.

Note: A prerequisite may be waived if the student has specific academic experience. Students registered in the Certificate in Health Informatics who have successfully completed CHIT 100, but do not have the listed prerequisites and wish to take this course, may contact the Academic Coordinator, Priya Nippak, at pnippak@ryerson.ca for more information.

39 Hours

Fee: $782.18
★ **Network Administration**  
*Prerequisite(s): CITM 301 or ITM 310 or Direct Entry*

Servers and networks provide the foundation for information handling in businesses and organizations throughout the world. Effective network management plays a vital role in ensuring that this foundation is sound. In this course, students will learn concepts and practice hands-on skills related to network administration by exploring a popular server operating system.

39 Hours  
Fee: $702.87

★ **Supply Chain Process Architecture**  
*Prerequisite(s): CITM 305 or Direct Entry*

This course deals with enterprise wide integrated systems, and process thinking as a key element in business restructuring. Many key business applications are now implemented using comprehensive and complex enterprise software. The concepts, structure, benefits and problems of enterprise solutions are examined from a business perspective as well as from a technical Information Technology perspective.

39 Hours  
Fee: $756.43

★ **Concepts of e-Business**  
*Prerequisite(s): CITM 100 or Direct Entry or in IT015 or IT016*

This course introduces the student to the business aspects of the Internet and the specific applications of eBusiness. It covers the technical, social and business changes that are taking place to make eBusiness fundamental to today’s business activities. Through an examination of these changes it will identify the emerging opportunities and review how to develop business strategies and architectures to capture these opportunities. It will also examine the nature of products and services on the Internet, as well as payment systems and electronic funds transfer.

39 Hours  
Fee: $702.87

★ **Establishing an eBusiness Operation**  
*Prerequisite(s): CITM 350*

This course will take students through the various steps needed to set up an electronic commerce operation. Focusing on electronic businesses, the course teaches strategic thinking and essential business skills that apply to all types of businesses. Students will develop a business plan and strategy for an electronic business, and will learn how to design, source and implement the necessary systems and computer facilities to put the business plan into operation. It will examine the links between back office and front office operations as well as the services available to help the set up of virtual businesses.

39 Hours  
Fee: $702.87

★ **Info Tech, Ethics and Society**  
*Prerequisite(s): ITM 734, CPHL 307*

This course provides an overview of some of the social implications of new information technologies for society and the global community. Topics will include: (1) ICT Global trade, the internet and disintegration of production and global redistribution of labour; (2) Cyber crime and identity theft; (3) Cyber addiction e.g., pornography and gambling (4) Political movements and Cyber terrorism, the internet, democracy, free speech and free access; (5) ICT and global social and economic development.

39 Hours  
Fee: $892.39

★ **Business Process Design**  
*Prerequisite(s): (CITM 100 and CITM 207) or (CITM 305) or (Direct Entry)*

This course introduces the principles of business process design for performance improvement. A systematic approach is used to teach students how to develop the design requirements for new business process architectures. Emphasis is placed on how to evaluate business process problems, analyze and design business processes to ensure organizational efficiency and effectiveness when new technologies are implemented. Opportunities for process improvement are based on the business strategy, the value proposition, improvement objectives of the organization, and the implementation of of-the-shelf software systems (eg. ERP, CRM, SRM). This course is intended to develop students' understanding of, and competence in the use of appropriate methods, tools and techniques of process analysis and design for organizational improvement. To ensure the development of the necessary competencies, students will work on a case study and use state-of-the-art business process frameworks, analysis and design methodologies and appropriate software tools to analyze, simulate and design the business process solutions.

39 Hours  
Fee: $782.18

★ **System Design and Implementation**  
*Prerequisite(s): (CITM 200 and CITM 305) or Direct Entry or in IT015 or IT016.*

This course builds on ITM 305 and is intended to provide students with skills and competencies necessary for technical design, implementation and testing of business applications in O-O technologies. This course is based on the Object Oriented Model Driven Architecture method of system development. The UML Modelling Language will be used along with O-O software tools such as Enterprise Architecture and MDG Link to ensure platform independent designs. This course includes a design and development project in which students will implement and test a business application in O-O technologies.

39 Hours  
Fee: $702.87
★ Multimedia in Business  CITM 445
Prerequisite(s): CITM 200 or Direct Entry

Multimedia is an important industry in Canada as well as a sophisticated business tool. ITM 445 introduces students to the application, production, and implementation of multimedia in business. Topics include fundamentals of multimedia production such as graphics, audio and text, multimedia applications in business, and issues in the management of multimedia such as usability, design and distribution. Emphasis is on hands-on experience with multimedia applications. A multimedia development project is required.

39 Hours  Fee: $702.87

★ Data and Information Management  CITM 500
Prerequisite(s): (CITM 100 and CITM 207) or (CITM 305)

This course provides the students with an introduction to the core concepts in data and information management. It is centered around conceptual data modeling techniques, converting the conceptual data models into relational data models and verifying its structural characteristics with normalization techniques. The course will include coverage of basic database administration tasks and key concepts of data quality and data security. Building on the transactional database understanding, the course provides an introduction to data and information management technologies that provide decision support capabilities under the broad business intelligence umbrella.

39 Hours  Fee: $782.18

★ Decision Analysis  CITM 501
Prerequisite(s): CQMS 102 or QMS 204 or in IT015 or IT016

This course provides an overview of decision analysis topics important to developing solutions to business problems. This course will take a problem-driven approach to developing students' skills in applying decision trees, expected value analysis, single- and multiple-attribute decisions, sensitivity analysis, and linear programming applied to real-world problems. Students will be required to do problem formulation, develop applications and implement problem solutions using industry-standard software tools.

39 Hours  Fee: $702.87

★ Managing Information Systems  CITM 505
Prerequisite(s): CITM 100 or Direct Entry or in IT015 or IT016

This course is intended to provide students with an understanding of the critical importance of Information and Communication Technology (ICT) in today's business environment, and the strategic, tactical, and operational management processes associated with it; current industry issues and trends; tools and techniques needed to manage ICT, including an introduction to governance, and security and privacy issues; and an understanding of the human and organizational issues of ICT management. Teaching/learning methods include lectures, case analyses, and in-class presentations by students with feed-back on content and style.

Note: A prerequisite may be waived if the student has specific academic experience. Students registered in the Certificate in Health Informatics who have successfully completed CHIT 100, but do not have the listed prerequisites and wish to take this course, may contact the Academic Coordinator, Pria Nippak, at pnippak@ryerson.ca for more information.

39 Hours  Fee: $782.18

★ Adv Infrastructure Deployment and Management  CITM 513
Prerequisite(s): CITM 600

This course builds upon the network design concepts that were introduced in ITM 600. This course focuses on understanding industry best practices in the design and deployment of TCP/IP based networks. Specific topics such as: subnetting, route aggregation, IPv6, interior and exterior routing protocols (RIP, OSPF, EIGRP, MPLS, and BGP), and the selection of IP routing protocols will be presented. Other issues such as the deployment of VPN's (Virtual Private Networks) reliability and scalability issues may also be covered depending on the students' interests and the time available.

39 Hours  Fee: $702.87

★ Auditing of Information Systems  CITM 595
Prerequisite(s): (CACC 521 and CITM 696) or CITM 305 or Direct Entry

This course is designed to enhance the student's understanding of audit risks and control risks relevant to audits in computerized environments. The course addresses the implementation and evaluation of security and controls in these environments; the techniques necessary to perform external EDP audits; auditing using CAATs; basic considerations in auditing EDI systems; and, audit and control issues associated with eCommerce, networks, VPNs and continuous auditing. The course will focus on auditing of Information Systems, which produce internal and external reports. Students will be introduced to audit approaches, computer risks, concerns related to internal controls and techniques for evaluating systems and business processes. Students will also be able to assess the integrity of data used in various management reports.

39 Hours  Fee: $702.87
**Data Communications Network Design**  
*CITM 600*  
Prerequisite(s): CITM 301 or Direct Entry

This course will provide students with an understanding of how telecommunications networks are designed and deployed to support e-commerce, multimedia and web-centric business applications. Network planning concepts, network analysis, network design tools and techniques are introduced. The objective of this course is to understand the design and analysis of data communications networks through the introduction of case studies and practical network design methodologies. Also an understanding of the application, deployment and benefits of industry standard architectures including: TCP/IP, VoIP, SONET, Gigabit Ethernet, 3G and other emerging standards will be provided.

39 Hours  
Fee: $756.43

**Advanced Business Process Methods**  
*CITM 601*  
Prerequisite(s): CITM 410 and CITM 501

This course builds on the basic principles of business process analysis and design of ITM410. The focus of this course is on applying the Theory of Constraints to the analysis of business process performance. Students learn how to apply of advance techniques from ITM501 for business process analysis and improvement of performance. Emphasis is placed on how to evaluate business process problems, analyze and design business processes to ensure organizational efficiency and effectiveness when new technologies are implemented. Opportunities for process improvement are based on the business strategy, the value proposition, and improvement objectives of the organization. This course is intended to further develop students’ understanding and competence in the use of appropriate methods, tools and techniques for analysis and design of business process performance improvement. To ensure the development of the necessary competencies, students will work on case studies and use state-of-the-art process analysis techniques and appropriate software tools to analyze, simulate and design solutions to a range of business process problems.

39 Hours  
Fee: $756.43

**Configuring and Implementing ERP Apps**  
*CITM 602*  
Prerequisite(s): CITM 330

This course focuses on configuring and integrating ERP applications into enterprise business processes. Topics include: (1) An overview of enterprise business process architecture (2) Business process requirements specification and business process changes for integrating ERP and (3) Joint requirements determination methods for application configuration. This course will require intensive work on ERP application configuration using industry-standard platforms and software.

39 Hours  
Fee: $702.87

**Client Server Applications**  
*CITM 605*  
Prerequisite(s): CITM 500

This course covers the concepts and applications of the client/server architectural model for web-enabled data centric information systems, including E-Commerce enterprise systems. The course emphasizes the principles and techniques necessary for the appropriate integration of the web-enabled front-end layer of the system with its business logic counterpart and its backend database. The course may include the use of the .NET development framework along with the VB.NET language and the MS SQL database server.

39 Hours  
Fee: $756.43

**Database Administration**  
*CITM 610*  
Prerequisite(s): CITM 500

This course covers the Database Administration (DBA) role for large-scale relational databases. It specifically will deal with the following; the approach to the installation and upgrading of software and utilities; techniques for the allocation of the database to physical devices and directories; the creation of user authorities and controlling access to data and resources; management of data storage; analyzing database performance and implementing procedures for optimizing performance; procedures for the backup and recovery operations.

39 Hours  
Fee: $756.43

**Knowledge Management/Learning Technologies**  
*CITM 612*  
Prerequisite(s): CITM 500  
Antirequisite(s): ITM 703

Knowledge is a powerful asset in an organization and a prime contributor to an organization’s success. This course will examine how to identify, leverage and nurture the knowledge assets in an organization to contribute to the business strategy and enable its success. It will cover the basic concepts and practices of knowledge management from an organizational learning, content management and cultural perspective and investigate some of the enabling technologies to support knowledge acquisition, sharing and utilization. Topics will include: understanding today’s knowledge economy and knowledge workers; developing a knowledge management strategy; differentiating knowledge from information; measuring value; selecting and implementing knowledge management systems. Case studies will be a critical part of this course. Students will gain hands-on experience in the use of one or more knowledge management tools.

39 Hours  
Fee: $756.43

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
★ Physical Dbase Design and Implementation  CITM 617  
Prerequisite(s): CITM 500 or Direct Entry

This course covers aspects of the physical design, implementation and database performance analysis for business applications. Students will learn to develop physical database requirements from Logical Designs, and to analyze query processing performance of the physical implementations. In addition to weekly labs the course will include a design project which will help students to develop competence with standard database definition (DDL/SQL) and procedural languages (PL/SQL) for defining physical schemas and developing stored procedures, triggers and user functions. The course will utilize state of the art data base design tools and relational database software.

39 Hours  Fee: $782.18

★ Accounting Information Systems  CITM 696  
Prerequisite(s): CITM 102 or Direct Entry

Most people are affected by computer-based systems. The students will be involved in the management of computing resources and information such that business problems can be dealt with effectively. This course will focus on the use of information and computing resources in the business community. This will enable students to create their own business information systems or participate with others in the analysis and design of solutions for corporate business problems.

39 Hours  Fee: $702.87

★ Information Technology and Strategic Management  CITM 700  
Prerequisite(s): Department consent

In the information economy, the way in which organizations use and manage information is often key to competitive survival in their industry. This course is a ‘Capstone,’ intended to be taken in the student’s final year, which integrates many of the student’s preceding business and IT courses. It focuses on building an understanding of the strategic role of information systems in supporting organizational objectives. In a case study with a real organization, working in teams, students will also learn how to apply models to analyze industry dynamics, apply the process of competitive analysis to a specific company, and identify strategic IT opportunities. Please note: mandatory prerequisite requirements are as follows: Completion of all required professional and professionally-related courses in the first three years of the program is required for this course. Note: Since some of the required courses are not offered every semester, it is each student’s individual responsibility to manage their course planning to ensure all prerequisites are met.

Note: This class is only open to ITM degree students.

39 Hours  Fee: $702.87

★ Wireless and Mobile Communications  CITM 704  
Prerequisite(s): CITM 600  
Antirequisite(s): ITM 805

This course explores the concepts and applications of wireless technologies and systems, and how mobile and wireless communications hardware, software and network technologies are applied within a business environment. This course provides an understanding of complex wireless and mobile systems by exploring the individual components that are used to build these systems. These include network management, integration of wireless and wireline networks, system support for mobility, computing system architectures for wireless nodes, user interfaces appropriate for small handheld portable devices, and new applications that can exploit mobility and location information.

39 Hours  Fee: $702.87

NEW

★ Enterprise Architecture  CITM 706  
Prerequisite(s): CITM 301 and CITM 305 and CITM 410

This course explores the design, selection, implementation and management of enterprise IT solutions. The focus is on applications and infrastructure and their fit with the business. Students learn frameworks and strategies for infrastructure management, system administration, data/information architecture, content management, distributed computing, middleware, legacy system integration, system consolidation, software selection, total cost of ownership calculation, IT investment analysis, and emerging technologies. These topics are addressed both within and beyond the organization, with attention paid to managing risk and security within audit and compliance standards. Students also hone their ability to communicate technology architecture strategies concisely to a general business audience.

39 Hours  Fee: $702.00

★ Consulting Skills for IT Professionals  CITM 724  
Prerequisite(s): CITM 505 and CITM 750

Whether an internal or external consultant to an organization, IT professionals need well developed consulting skills. This course will examine the consulting industry, consulting firms and consulting process models as they apply to various types of IT consulting engagements. Students will study real life consulting projects with practitioners in order to explore consulting skills, roles, skills and services and how they apply to IT projects. Students will also carry out self-assessment and career planning activities to determine their fit to a consulting career and how to explore careers in the industry. Much of the course is taught through classroom exercises and simulations, requiring pre-class preparation and active participation. This course will be relevant to students who anticipate being external or internal consultants.

39 Hours  Fee: $702.87
Switching and Routing Laboratory  
**CITM 732**

Prerequisite(s): CITM 513 and CITM 600

This course will provide students with comprehensive but practical knowledge needed to configure routers and switches for both local and wide area networks. Students will learn the principles needed to utilize bandwidth more effectively and to enhance security and privacy. Students will be introduced to the tools and methodologies needed to design, debug and troubleshoot networks. Labs will include configuring routers using link protocols and learning how to link ISPs. Students will be able to plan and implement IP addressing schemes; and configure and verify routing protocols.

39 Hours  
Fee: $702.87

IS Project Management  
**CITM 750**

Prerequisite(s): CITM 305 or Direct Entry

This course provides students with a more in-depth understanding of the tools and techniques of project management as it applies to IT-enabled process improvement projects. The ability to plan and execute projects successfully is consistently ranked among the most important skills among information technology professionals. The course is based on the industry-standard Project Management Body of Knowledge (PMBOK) and provides cutting-edge techniques for project planning, scheduling, budgeting, human resources, quality, procurement, communication, and risk management.

39 Hours  
Fee: $702.87

Applied Feasibility Analysis  
**CITM 800**

Prerequisite(s): CITM 700

This course examines the methodologies and tools necessary for successful planning, evaluation and implementation of information technology. Emphasis will be placed on further developing the skills learned in ITM 700 to identify opportunities to increase the effectiveness and/or efficiency of a business unit's operations, to increase its competitive edge, or to enhance the deployment of human and/or information resources in a corporation. Building on the industry and company analysis project from ITM 700, student teams will conduct a feasibility study within a real client organization to develop or redesign a business process or information system. The study will identify organizational issues related to introducing new technologies, design required process changes, establish business case justification and provide an implementation plan for the recommended solution.

39 Hours  
Fee: $702.87

Information Systems Security and Privacy  
**CITM 820**

Prerequisite(s): CITM 600;  
Antirequisite(s): ITM 420, ITM 725

This course considers the technical, operational, and managerial issues of computer and network security in an operational environment. Industry best-practices relating to computer security including schemes for breaking security, and techniques for detecting and preventing security violations are the core focus of this course. This course will also explore the principles of data privacy, threats to privacy, international and national policy, particularly related to privacy-enhancing technologies as they apply to the management of information systems and e-Business.

39 Hours  
Fee: $629.74

Management Consulting  

Prof Consulting Capstone  
**CZMC 200**

Prerequisite(s): CZMC 110 and CZMC 120

Students who complete the Management Consulting Professional Program may choose to apply their knowledge in a consulting practicum that is available only to MCPP graduates interested in gaining the CMC certification. Students in this course will be supervised and their work evaluated by a Ryerson faculty member and a CMC member sponsor will support each student.

39 Hours  
Fee: $1069.56
CARIBBEAN STUDIES

These courses will explore topics of culture, race, ethnicity, religion, and the social, economic, and political developments in the diverse Caribbean region.

Caribbean Studies

Related certificate(s): Caribbean Studies (pg. 28)

★ Introduction to the Caribbean  CCRB 100

Antirequisite(s): SYC 183

This course will focus on the similarities in historical development of the different societies in the Caribbean region and the common institutional structures and challenges that persist, despite the diversity of language and culture, race, ethnicity and religion. The course will examine the relationship between physical resources and social, economic and political developments within the colonial and neocolonial context and the resulting systems of inequality. (LL)

39 Hours  Fee: $581.34

★ Families in the Caribbean  CCRB 500

The Caribbean region is composed of peoples from different geographic and cultural areas of the world. This course will explore the major historical influences which define the present diverse structure and composition of families within the Caribbean region. It will examine how these structures have changed in response to globalization, the declining influence of religion, shifts in migration, changes in economic conditions and state policies, and in gender, race and ethnic relations. (UL)

39 Hours  Fee: $562.80

★ Racism and Caribbean Peoples in Canada  CCRB 501

The immigration of Caribbean peoples to Canada will be analyzed within the context of Canadian immigration laws and practices, labour market demands, and institutional responses to racial and ethno-cultural diversity. The major focus of the course will be on the establishment and growth of the Caribbean population in Canada, including employment, business and settlement patterns, changes to family structure, development of Caribbean organizations and community development activities, and issues of systemic and individual racism. (UL)

39 Hours  Fee: $562.80

★ Cultural Traditions in the Caribbean  CCRB 502

This course analyzes the evolution and social significance of cultural traditions in the Caribbean, leading to an understanding of contemporary popular traditions. The course examines the ethnic, racial and cultural diversity of the area, as a source of distinct cultural traditions; the impact of foreign influences; and the export of Caribbean cultural forms to the international area. (UL)

39 Hours  Fee: $562.80

★ Caribbean Tourism: Impacts and Resistance  CCRB 605

This interdisciplinary course will take a critical look at the political, social, cultural, economic and other impacts of various forms of tourism in the Caribbean. Links between the current dependency on tourism many Caribbean nations have due to globalization, and historical patterns of colonialism and servitude that persist today and are replicated in many tourism practices, will be examined. Students will be exposed to various elements of diversity relative to Caribbean tourism including racial, ethnic, economic, and sexual. Forms of resistance?political and cultural?against mass tourism will be addressed, as well as new developments in sustainable and ethical tourism.

39 Hours  Fee: $562.80
CHEMISTRY

These courses are of interest to professionals in the chemical and biological fields as well as those seeking to upgrade their skills and theoretical background in specific topics.

-General Chemistry I CCHY 103

Atomic structure, stoichiometry, gases, chemical equilibrium, acids and bases, aqueous equilibria, thermochemistry, energy.

39 Hours Fee: $579.28

-Introductory Organic Chemistry CCHY 152

Prerequisite(s): CHY 104

An introductory organic chemistry course which includes the following topics: bonding, nomenclature, main functional groups, properties, reactions and characteristics of organic compounds.

39 Hours Fee: $579.00

-Chemistry Applications to Living Systems CCHY 182

Antirequisite(s): CHY 103, CCHY 103, CHY 104, CHY 113, CHY 123

The emphasis of this course will be on understanding chemistry and the role it plays in everyday life, particularly to those who live in an urban environment. The course will endeavor to have a conceptual and contextual focus rather than a quantitative approach, relating chemistry to urban/environmental issues with particular reference to life in Toronto where possible. Topics could include water/sewage treatment, air pollution, energy sources, soil chemistry, foods, and industrial chemistry (polymer, petroleum, pharmaceutical, etc). The curriculum could also include sections on street drugs, cosmetics, chemistry in the movies, and forensic chemistry. (Formerly SCI 182). (May not be used as a credit towards a science degree). CHY 182 is not available for credit to students who choose CHY 103 or CHY 113. (LL)

39 Hours Fee: $579.28

-Organic Chemistry II CCHY 242

Prerequisite(s): CHY 142

This course includes the mechanistic approach to the study of organic reactions and includes condensation reactions, aromatic chemistry and pericyclic reactions. Also included are spectroscopic methods of structure determination, organic synthesis and the use of organometallic reagents.

39 Hours Fee: $579.28

-Physical Chemistry I CCHY 381

Prerequisite(s): CCHY 103, CHY 113 and MTH 231

The three laws of thermodynamics; free energy and chemical equilibria; thermodynamics of solutions.

39 Hours Fee: $579.28

NEW

-Alternative Energies CCHY 583

The focus of this course is on carbon-free renewable energies. Students will first examine the use of carbon-based fuels, and compare and contrast these fuels to carbon-free alternatives including solar, wind, water, hydrogen, and nuclear energies. The course will emphasize qualitative rather than quantitative concepts, and will include social, economic, and environmental impacts of these alternative energy sources. (UL)

39 Hours Fee: $579.00

Introduction to Chemistry CKCH 90A/B

This course is a two-term introduction to chemistry. In the first term, topics discussed include atomic structures, electronic configurations, bonding, formulae, nomenclature, the mole concept, chemical reactions, and stoichiometry. In the second term, topics discussed include gases, liquids and bases, chemical equilibria, electrochemistry, nuclear chemistry, and organic chemistry.

Note: Formerly CKCH 108 and CKCH 109.

78 Hours Fee: $755.00

An Academic Bridging Course which may be used to meet the Grade 12 U Chemistry requirement for Ryerson admission purposes. Please note that mature student applicants will be considered on an individual basis. Please contact Undergraduate Admissions and Recruitment for details.
**General Chemistry Laboratory**  
*CKCH 107*  
Corequisite(s): CKCH 106 or CCHY 103

Experiments cover the following topics: determination of water hardness, solution preparation, acid-base titration, calorimetry, solubility equilibria, and chemical kinetics. Equivalent to the laboratory portion of CHY 113.

39 Hours  
Fee: $610.18

*Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.*

**Chemistry Quick Start**  
*CKCH 110*

This workshop is designed to give students the essential skills and knowledge expected for students entering first year chemistry courses. The workshop will be delivered in an intensive format and is not for credit, but the students will be given tests and assignments to be able to gauge their progress. The workshop will cover topics such as stoichiometry, limiting reactants, colligative properties, expressions of concentration, chemical equilibria, weak acid/base chemistry, thermochemistry, and thermodynamics.

24 Hours  
HST included  
Fee: $406.86

**General Chemistry II**  
*CKCH 113*  
Prerequisite(s): KCH 106 or CCHY 103

Electrochemistry, atomic theory, bonding, liquids and solids. Solutions, representative elements, transition metals, nuclear chemistry. Equivalent to the lecture portion of CHY 113.

39 Hours  
Fee: $598.85

**Organic Chemistry I**  
*CKCH 142*  
Prerequisite(s): (CCHY 103 or KCH 106) and CKCH 113

This is an introductory course based on the mechanistic approach to the study of organic reactions, and includes functionality, IUPAC nomenclature, structural and stereoisomerism, oxidation and reduction, nucleophilic additions, nucleophilic substitutions, eliminations, electrophilic additions of aliphatic compounds. Lecture portion of CHY 142.

39 Hours  
Fee: $610.18

**Organic Chemistry Laboratory**  
*CKCH 143*  
Prerequisite(s): CKCH 107 or CHY 113; Co-requisite: CKCH 142

This laboratory course will cover the techniques involved in using the primary wet chemical tools: distillation, extraction, recrystallization, filtration, and rotary evaporation. Measurement of refractive index, melting point, and boiling point as well as some simple syntheses; isolation and purification operations will be carried out. Laboratory portion of CHY 142.

39 Hours  
Fee: $622.54

*Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.*

**Analytical Chemistry I**  
*CKCH 216*  
Prerequisite(s): CKCH 106 or CCHY 103

This entry-level course concentrates on noninstrumental analytical methods and includes the following lecture topics: gravimetry; equilibria and titration applications of acid-base, redox complex formation and precipitation reactions. Lecture portion of CHY 213.

39 Hours  
Fee: $610.18

**Analytical Chemistry Laboratory I**  
*CKCH 217*  
Prerequisite(s): CKCH 107 or CHY 113; Co-requisite: CKCH 216

This laboratory course includes experiments based on the topics discussed in Analytical Chemistry I (CKCH 216). Laboratory portion of Analytical Chemistry I (CHY 213).

39 Hours  
Fee: $610.18

**Analytical Chemistry II**  
*CKCH 223*  
Prerequisite(s): CHY 213 or CKCH 216

This course is a continuation of Analytical Chemistry I (CKCH216) but concentrates on instrumental analytical methods. The course introduces the student to the theory, instrumentation and applications of atomic and molecular spectroscopy, potentiometry (including ion-selection), electrodes and chromatography. Lecture portion of Analytical Chemistry II (CHY223).

39 Hours  
Fee: $610.18
CHILD AND YOUTH CARE

Child and youth care is a practice-based discipline, with roots in psychology, sociology, medicine, social work, and education. The following courses will allow you to explore a field focused on research and practice which integrates developmental, preventative, and therapeutic requirements into the life space of children, youth, families, and communities. For more information, visit www.ryerson.ca/ce/cyc.

★ Analytical Chemistry Laboratory II  CKCH 224
Prerequisite(s): CKCH 217;
Corequisite(s): CKCH 223

This laboratory course includes experiments based on the topics discussed in Analytical Chemistry II (CKCH223). Laboratory portion of Analytical Chemistry II (CHY223).

39 Hours  Fee: $675.07

Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.

★ Biochemistry I  CKCH 225
Prerequisite(s): (CKCH 142 or CHY 200 or CHY 142) and CBLG 143 and CBLG 144

This course deals with the structures, functions, chemistry and food applications of proteins, carbohydrates, lipids and nucleic acids. Also included is an introduction to enzymology (coenzymes, nomenclature and classifications of enzymes and enzymatic control of biochemical reactions). Lecture portion of BCH 261.

39 Hours  Fee: $622.54

★ Biochemistry Laboratory I  CKCH 227
Prerequisite(s): (CKCH 142 and CKCH 143) or CHY 142
Corequisite(s): CKCH 225;

The laboratory provides an introduction to the basic biochemical techniques including chromatography, electrophoresis, and spectrophotometry. Laboratory portion of BCH 261.

39 Hours  Fee: $675.07

Attendance at labs is mandatory. Labs begin the first week of classes. You will need to activate your Ryerson email account in order to receive communication from your lab instructor. Come prepared for your lab. You will need a lab coat, safety glasses or goggles, nitrile gloves, and a lab notebook. You should dress appropriately: no shorts, no skirts, no sandals, no open toed or open heeled shoes, and no high heels.

★ Science Mentorship  CKIH 200
Prerequisite(s): Department consent

This course will provide students with practical skills and tools needed to become effective peer mentors and leaders. Students will also develop skills to enhance their individual career, academic, and personal goals. Students will participate in a reflective learning process where their mentoring experiences are shared with other students. They will learn how to transfer these skills (learned through mentoring and course work) to career and academic objectives.

30 Hours  Fee: $TBA

★ Management in Human Service Organizations  CCYC 505

Introduces students to the concepts and vocabulary of organizational behaviour and its application to the practice of management and supervision in organizations that serve children and youth. Topics include organizational theories and structures, job design, work motivation, performance appraisal, staff recruitment, training and retention, and organizational leadership and supervision. Case studies will facilitate applications of course material.

39 Hours  Fee: $575.16

★ Children’s Rights  CCYC 602

The United Nations Convention on the Rights of the Child is examined. The convention is explored within the framework of human rights principles and citizenship. Policy and practice implications will be considered through the lens of child rights approach. Consideration will be given to understanding children’s development as “citizens” and children’s participation in society.

Note: Completion of second year of Child and Youth Work Diploma or permission of the instructor is required to enroll in this course.

39 Hours  Fee: $575.16

★ Ecological Perspectives in CYC  CCYC 702

An ecological approach is used as a conceptual framework for understanding the behaviours of children and adolescents. Structural, biological, psychological, social, cultural and familial factors will be examined. A variety of theoretical viewpoints will be used to examine the multiple systems in which Child and Youth Care practice occurs. Child and Youth Care practice, which is strength-based, holistic and founded upon a set of established ethical principles will be explored from multiple perspectives.

39 Hours  Fee: $575.16
☆ **Intensive In-Home Family Support**  CCYC 800

Focuses on a Child and Youth Care Approach to working with families. Topics covered include: characteristics of a CYC approach and effective workers; history and culture; context of interventions; understanding behaviour in context; meaning-making; a CYC process of intervention; the role of self in family work; and reflection in practice. Special emphasis is placed on working with families in their home and community.

39 Hours  Fee: $579.28

☆ **Psycho-Educational Support**  CCYC 801

Psycho-educational support is an essential component of school success for children and youth who have experienced trauma, are lacking supportive environments outside of school, or are diagnosed with mental health problems. This course will explore the role of the child and youth worker in the school and develop skills for supporting individuals and groups of children; working with teachers; understanding the school environment; and advocating for social-emotional needs of children and youth.

39 Hours  Fee: $579.28

☆ **Incident Response with Children and Youth**  CCYC 802

Prerequisite(s): CYC 401 or CCYC 702

This course builds on previous knowledge of theoretical orientations to therapeutic relationships. Crisis theory is examined within a developmental-ecological perspective. Introduces students to critical incident debriefing protocols and first and second order crisis intervention responses to catastrophic situations. The focus is on interventions with children and youth within their milieu by front line children's service personnel.

39 Hours  Fee: $579.28

☆ **Integrated Case Management**  CCYC 804

Prerequisite(s): CCYC 602 and CYC 605

Child and youth care practitioners are often required to liaise with other professionals and placed in a case management/co-ordination role by virtue of their contact with the child/youth and his/her family in the day to day environment. This course will develop knowledge and skills in inter-disciplinary consultation; understanding and using assessment reports; documentation case planning; accessing resources; service co-ordination and an introduction to multi-disciplinary teamwork.

39 Hours  Fee: $579.28

☆ **Residential Care Techniques**  CCYC 808

This course, founded in contemporary, competency-based Child and Youth Care practice, explores approaches, strategies, and techniques in residential care. Areas covered will include: approaches to group care, characteristics of effective programs, family involvement; intervention planning; needs based interventions; therapeutic discipline, crisis and opportunity; activities; and the role of supervision.

39 Hours  Fee: $579.28

☆ **An Aboriginal Perspective on CYC**  CCYC 905

This course addresses the history of abuse and oppression that continues to impact on the wellbeing of Aboriginal children, youth and families. Students will be presented with approaches to working with Aboriginal young people that are culturally sensitive and draw on Aboriginal ways of being. From this course, it is hoped that students will be able to enrich their practice by gaining an understanding of partnership models for care, intervention and service delivery.

39 Hours  Fee: $579.28
CHINESE

These courses offer opportunities to increase your professional qualifications. In order to choose an appropriate course level, you are advised to consult the guidelines on the Department of Languages, Literatures, and Cultures website at [www.ryerson.ca/llc](http://www.ryerson.ca/llc). Students who have no knowledge of Chinese at all may enroll directly into CCHN 101. However, all students must take the Chinese Placement Test or attend one of our interview/placement assessment sessions. The following are language courses designed for non-native speakers. For more information, visit [www.ryerson.ca/ce/chinese](http://www.ryerson.ca/ce/chinese).

- **Introductory Chinese I**  
  **CCHN 101**  
  Antirequisite(s): MDN 101;  
  This course is designed to help students with no prior background in Mandarin to develop functional communication abilities in all four language skills. Using the standard Hānyǔ Pīnyīn phonetic system, a variety of authentic materials, vocabulary and sentence patterns, students will learn to make statements, ask questions, respond to questions and create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write 250 characters. An online placement test is required. (LL)  
  39 Hours  
  Fee: $627.69

- **Introductory Chinese II**  
  **CCHN 201**  
  Antirequisite(s): MDN 201;  
  This course is designed for students with some background in Mandarin who wish to improve their communication abilities in all four language skills. Using the standard Hānyǔ Pīnyīn phonetic system and a variety of authentic materials, students will learn to make statements, ask questions, respond to questions and create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write over 1000 Chinese characters. (LL) (UL)  
  39 Hours  
  Fee: $627.69

- **Intermediate Chinese I**  
  **CCHN 301**  
  Antirequisite(s): MDN 301;  
  This course is designed for students with some background in Mandarin to improve their functional communication abilities in all four language skills in spoken and written Mandarin. Using the standard Hānyǔ Pīnyīn phonetic system, a variety of authentic materials, vocabulary and sentence patterns, students will learn to make statements, ask questions, respond to questions and conduct conversations. By the end of this course, students will be able to read and write 800 Chinese characters. (LL) (UL)  
  39 Hours  
  Fee: $627.69

- **Intermediate Chinese II**  
  **CCHN 401**  
  This course is for students with some background in Mandarin who wish to improve their communication abilities in all four language skills. By using the standard Hānyǔ Pīnyīn phonetic system and a variety of authentic materials, students will learn to make statements, ask questions, respond to questions and create conversations based upon culturally authentic situations. By the end of this course, students will be able to read and write over 1000 Chinese characters. (LL) (UL)  
  39 Hours  
  Fee: $627.69

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
COMMUNICATION

These courses can help you develop a high level of skill in written and oral communications and are especially relevant to business and government environments. They focus on building and integrating writing, analytical, and research skills so that your business presentations make your point and achieve your purpose.

Communication

For a sample course outlines for classroom delivery, consult the Ryerson University School of Professional Communication website at www.procom.ryerson.ca. Related certificate(s): Architecture, Advanced (pg. 22), Business Communication (pg. 23), Business Decision Analysis (pg. 24), Community Engagement, Leadership, and Development (pg. 29), Design for Arts and Entertainment (pg. 35), Design Management (pg. 36), Disaster and Emergency Management (pg. 37), Entrepreneurship and Multiculturalism (pg. 44), Facility Management (pg. 48), Health Services Management (pg. 62), Health Studies (pg. 63), Occupational Health and Safety (pg. 85), Project Management (pg. 89), Project Management for Technical Professionals (pg. 91)

★ Short Management Reports CCMN 114
This writing-intensive workshop course helps students gain the proficiency needed to meet the communication demands of contemporary management tasks. Participants learn to focus their purpose, analyze their audiences, and compose a variety of informative and persuasive documents, such as instructional and motivational memoranda, policy change reports, and new venture proposals. A module on planning, outlining and delivering professionally-related oral presentations to peers, management and industry partners completes this workshop designed to refine key written and oral skills for success in today’s workplace.
39 Hours Fee: $591.64

★ Communication in BTM CCMN 124
This course emphasizes analysis, organization, tone, style and strategy in the development of effective written and oral communications. Data collection and report documentation are included. This course is specifically designed for students in the Information Technology Management program.
39 Hours Fee: $597.82

★ Retail Management Communication CCMN 201
This workshop course introduces students to the theory and strategies of successful written and oral communications in retail management. Students apply communication theory in a variety of activities based on specific professional situations, and practice selecting and organizing pertinent information. They learn to express ideas clearly, develop sensitivity to audience and tone, and produce oral and written messages that are well received and acted upon in the manner intended by the author.
39 Hours Fee: $597.82

★ Introduction to Professional Communication CCMN 279
This case-based, interactive course introduces students to contemporary strategies of successful communication in professional contexts. Students learn how to analyze audience, situation, and medium to create messages that respond to practical challenges and build productive relationships. Students develop sensitivity to language and tone, learn to organize and convey ideas and information, and select the best means to accomplish their intended purposes.
39 Hours Fee: $586.49

★ Communication in the Computer Industry CCMN 300
In this workshop course, students learn to present technical information to technical and non-technical audiences. The emphasis is on verbal presentation and written documentation of systems from the viewpoint of the user. In addition to short reports, correspondence, business proposals, and employment application documents are discussed.
39 Hours Fee: $579.28

★ Career Advancement Communication CCMN 304
This course aims to develop the communication skills and strategies necessary to meet the challenges of the current workplace. With particular focus on the job search and career development, course content covers such topics as research and interviewing, persuasive writing and speaking, developing a professional image and making effective communication decisions.
39 Hours Fee: $579.28

★ Organizational Problem Solving and Report Writing CCMN 313
Organizational Problem Solving and Report Writing focuses on the selection, treatment and solution of a complex problem in an organization, through the development and preparation of a formal, analytical report. Students learn how to identify a problem, define its purpose, customize a message for multiple audiences, create a work plan, apply primary and secondary research methods, and structure an argument logically and persuasively. Students will strengthen their critical thinking skills as they evaluate findings and formulate conclusions and recommendations.
39 Hours Fee: $579.28
COMMUNICATION

★ Professional Presentations  CCMN 314
Prerequisite(s): CMN 100 or CCMN 114 or CCMN 124 or CCMN 201 or CCMN 207 or CCMN 279 or CCMN 300 or CCMN 373 or Direct Entry

Successful professionals achieve their objectives by consistently delivering meaningful presentations to diverse, demanding audiences. High expectations and extensive technology often complicate rather than improve the presenter’s ability to communicate effectively. In this essential course, students learn to structure content coherently, develop poise and confidence, and employ technology in a sophisticated way to connect with their listeners.

Note: Chang School students without the CCMN course prerequisites may apply to the Academic Coordinator, Sandra Rosenberg (srosenbe@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

39 Hours  Fee: $579.28

★ Corporate Communications  CCMN 413
Prerequisite(s): CMN 100 or CCMN 114 or CCMN 124 or CCMN 201 or CCMN 207 or CCMN 279 or CCMN 300 or CCMN 373 or Direct Entry

How does a company communicate its reputation and image and manage these intangible features when damaged? Through examining high-level communication strategies and products, students develop sensitivity to the language, formats, and images organizations use to manage their concerns. Students also practice skills corporate communication professionals employ to communicate with a variety of audiences.

39 Hours  Fee: $579.28

★ Issues in Communication and the Contemporary Workplace  CCMN 315
Prerequisite(s): CMN 100 or CCMN 114 or CCMN 124 or CCMN 201 or CCMN 207 or CCMN 279 or CCMN 300 or CCMN 373 or Direct Entry

Effective communication has always been an essential component of business. It is particularly important today, when business people communicate in increasingly complex and diverse workplaces. They must deal with ethical dilemmas, intensifying organizational change, global and multicultural partners, increased specialization, and constant technological developments. Using practical examples and case studies, this course both explores communication challenges that business professionals face today and helps them develop strategies and practices designed for the contemporary workplace.

Note: Chang School students without the CCMN course prerequisites may apply to the Academic Coordinator, Sandra Rosenberg (srosenbe@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

39 Hours  Fee: $579.28

★ Interpersonal Communication in Management  CCMN 414
Prerequisite(s): CMN 100 or CCMN 114 or CCMN 124 or CCMN 201 or CCMN 207 or CCMN 279 or CCMN 300 or CCMN 373 or Direct Entry

In this workshop course, students participate in a variety of group and individual exercises designed to develop the interpersonal skills necessary for effective management. Students learn how varied backgrounds, personalities, and cultural perspectives affect group processes such as problem solving, decision making, resolving conflict, and negotiating. Some sessions may be videotaped.

39 Hours  Fee: $579.28

★ Fashion Communication: Professional Approaches  CCMN 373

In this course for the Fashion Communication and Design options, students learn fundamental concepts which are applied to correspondence, reports, oral presentations, media relations, and the job search. The emphasis is on analyzing audience and purpose; controlling language, style, and tone; and choosing communication strategies appropriate to a variety of professional situations.

39 Hours  Fee: $579.28

★ Communication in the Engineering Professions  CCMN 432

Communication lies at the heart of what engineers do. This course introduces students to the unique and varied communication challenges of their profession. Through a combination of lectures, readings, and workshops, students are exposed to the types of communication they will engage in as professionals and given the opportunity to refine their analytical, writing, presentation, and problem-solving skills.

Note: CLER, CLEC, CLEG degree program students must take CVL 743 as a corequisite to this course.

56 Hours  Fee: $579.28

★ Contemporary Intercultural Communication  CCMN 443
Prerequisite(s): CMN 100 or CCMN 114 or CCMN 124 or CCMN 201 or CCMN 207 or CCMN 279 or CCMN 300 or CCMN 373 or Direct Entry

In today’s global environment, success or failure of almost any venture requires a clear understanding of intercultural issues. In this course, various communication strategies and theoretical frameworks are analyzed in cultural context.

39 Hours  Fee: $579.28
Communication and Law CCMN 447
Prerequisite(s): CLAW 122 and (CCMN 279 or CCMN 124 or
CCMN 373 or CMN 207 or CCMN 201 or CCMN 300 or CCMN 114 or
CMN 100)
Communication practitioners must understand how law matters in
every day communication and be cognizant of the principles,
institutions, and practices that regulate communication in a
range of media and contexts. In this case and theory-based
course, students explore the intersections of communication
and law through the study of semiotics and legal discourse;
the social and technological contexts of communication that
provoke and challenge legal regulation; freedom of expression;
and the legal frameworks for the protection of consumers,
individual privacy, and intellectual property in the digital age.
Note: Chang School students without the CCMN course prerequisites
may apply to the Academic Coordinator, Sandra Rosenberg
(srosenbe@ryerson.ca), for consideration to enroll in this course
without the required prerequisites.
39 Hours Fee: $579.28

Introduction to Visual Communication CCMN 448
Prerequisite(s): CMN 100 or CCMN 114 or CCMN 124 or CCMN 201
or CMN 207 or CCMN 279 or CCMN 300 or CCMN 373 or
Direct Entry
This challenging course introduces students to the study of Visual
Communication. Students explore how visual images persuade
us to act and think in certain ways. They learn a vocabulary of
visual meaning-making (i.e., a visual language). Building upon
the vocabulary, they learn how images can be rhetorical and
persuasive within a professional context. Further, they learn
how visual images manipulate and become manipulated by a
surrounding visual culture. It is recommended that students
should be in their third or fourth year of study.
Note: Chang School students without the CCMN course prerequisites
may apply to the Academic Coordinator, Sandra Rosenberg
(srosenbe@ryerson.ca), for consideration to enroll in this course
without the required prerequisites.
39 Hours Fee: $579.28

Disaster and Emergency Incident Communications CDCM 125
This course introduces the practical skills, strategies, and basic
tools required to prepare and manage effective internal and
external communications before, during, and after a crisis.
The course examines real problems requiring real solutions
and builds competencies in writing messages for multiple
emergency scenarios, preparing alerts and announcements,
staging press conferences, media relations building information
hotlines and websites, crisis psychology using ethically sound
communications strategies, audience control, and collaborating
with other emergency teams.
39 Hours Fee: $602.97

Professional Etiquette and Networking Skills for Business and Social Success CDCM 907
Do you want to make a great first impression? Displaying good
manners and social skills makes an enormous difference in how
you are perceived by superiors, peers, friends and family. This
workshop covers: formal dining, shaking hands, exchanging
business cards, making introductions, conversation and toasts,
on-line and telephone etiquette, body language, dressing for
success, international etiquette, and common faux pas. During
a catered sit-down lunch, participants practice their formal
dining, conversation, and toasting skills. Through lectures, role
plays, simulations, discussions, videos, and group interaction,
participants will improve their etiquette and learn how to handle
business and social situations with confidence and grace.
7 Hours HST included Fee: $233.79

Promotional Communications CDCM 415
The art of promotion is fundamental to the selling of products,
services, and ideas. In this innovative course, students use a
range of media and communication strategies to put the theory
and ethics of promotion into practice. Students learn how to
meet the challenges of bringing a new product or service to
market from beginning to end and how to communicate with
internal stakeholders and target audiences to promote the
new initiative successfully. This course enables students to
experience firsthand the dynamics of conceiving, developing,
and executing a promotional campaign, as well as equips them
with the skills needed to engage effectively in the marketing
communications process.
39 Hours Fee: $602.97

Communicating in Virtual Environments CDCM 300
Prerequisite(s): CCMN 279
This course introduces students to the unique opportunities and
challenges of communicating in virtual environments. Experiential exercises and individual and group assignments
will help students develop effective interpersonal skills for
tele-, audio-, and video-conferencing and computer-mediated
teamwork. Topics covered include effective remote leadership,
building trust, global project communication, concision, and
persuasion and disclosure in emails and instant messaging. The
delivery of this course will allow students to practice both virtual
teamwork and face-to-face collaboration.
39 Hours Fee: $602.97

Certificate and degree credit ★ Degree credit ○ Certificate credit ○ Course series 29
COMPUTER SCIENCE

The following courses can develop your computer expertise in two key areas. Some courses focus on language programming and operating systems; these are particularly recommended if your interests lie in technical or system support. Other courses focus on using computers to solve engineering or technical problems. In these, the emphasis is on learning how to translate problems into an appropriate mathematical form.

Note: Written approval is required before undergraduate degree program students can register in these courses. For more information, see Engineering Students on the Chang School website at www.ryerson.ca/ce.

Computer Science

Related certificate(s): Computer Programming Applications (pg. 30), Data Analytics, Big Data, and Predictive Analytics (pg. 33), Financial Mathematics Modeling (pg. 52)

【 Computer Science I CCPS 109
An introductory programming course designed to introduce fundamental Computer Science concepts such as abstraction, modelling and algorithm design. Emphasis is placed on producing correct software. This course uses Java as its programming language.

65 Hours Fee: $1241.57

【 Computer Science II CCPS 209
Prerequisite(s): CCPS 109
A continuation of CPS 109. Emphasis is placed on code structure, algorithm development, and Object Oriented design principles.

52 Hours Fee: $1065.44

【 Computer Organization I CCPS 213
This course introduces the students to the principles and fundamentals of digital system design. Topics covered include: Binary numbers, base conversions, signed numbers, Boolean algebra, logic gates, K-map method, combinational circuits, decoders/encoders, multiplexers, sequential circuits, flip-flops, state diagram, registers, counters and addressing techniques.

52 Hours Fee: $625.63

【 Data Structures and Algorithms CCPS 305
Prerequisite(s): CCPS 209 and CCPS 393
Introduction to data structures and algorithms. Topics may include ADTs, restricted lists (stacks and queries), generalized lists, trees, searching, sorting, hashing, graphs, algorithm design, complexity analysis, recursion.

52 Hours Fee: $763.65

【 Object Oriented Programming and Design CCPS 311
Prerequisite(s): CCPS 209 and CCPS 393
This course further explores the Object-Oriented paradigm emphasizing the Object Model and relationships between the various artifacts. The pure Smalltalk language is introduced to reinforce the OO paradigm. The Unified Modeling Language to capture the objects, classes, and their relationships is studied in considerable depth with a major analysis and initial design project done in teams. A reasonably complete coverage of C++ is presented. Time permitting, OO features of other languages will be discussed.

39 Hours Fee: $625.63

【 Introduction to C and UNIX CCPS 393
The course covers various aspects of the C language such as: Arrays, strings, pointers, structures, etc. The second part of the course introduces UNIX operating systems. Topics include: I/O, redirection, processes, shell scripts, etc.

Note: It is recommended students take CCPS 109 prior to taking this course.

52 Hours Fee: $658.59

【 Introduction to Software Engineering CCPS 406
Prerequisite(s): CCPS 311 or CCPS 209
This course introduces the study of Object-Oriented software engineering. Topics include software project management, requirements gathering, requirements analysis, modeling, design, implementation and testing. UML diagrams and design patterns are also discussed. A major portion of the course is a team project, taking a system from the initial requirements to the final implementation. (2 hr Lab every other week).

52 Hours Fee: $795.58
**Database Systems I**  
CCPS 510  
Prerequisite(s): CCPS 305

Advanced file management techniques involving fundamentals of database organization, design and management. Emphasis is given to Relational Database Management Systems including relational algebra, normal Forms, physical Database Structures and their implementation, and Relational Database Languages. Other types of Database Managers are also discussed such as Hierarchical, Network and Inverted Files.  
52 Hours  
Fee: $763.65

**Component-Based Programming for the Web**  
CCPS 530  
Prerequisite(s): CCPS 209

This course presents the concepts and applications of component-based Web programming. Part 1 of the course covers the creation of Web pages to hold the components (XHTML, CSS). Part 2 covers the concepts and applications of server-side programming (CGI, SSI, Perl). Part 3 covers the development of components in Java (Java Applets, JavaBeans). Part 4 introduces activeX components.  
39 Hours  
Fee: $625.63

**Introduction to Operating Systems**  
CCPS 590  
Prerequisite(s): CCPS 393

Introduction to O/S (system calls, interrupts, synchronous and asynchronous traps, O/S structure), using processes (process communication and synchronization), primitive communications (signals and signal management calls), pipes, messages, semaphores, shared memory, memory management, file systems, and (time permitting) remote procedure calls.  
52 Hours  
Fee: $835.75

**Database Systems II**  
CCPS 610  
Prerequisite(s): CCPS 510

52 Hours  
Fee: $763.65

**Human-Computer Interaction**  
CCPS 613  
Prerequisite(s): CCPS 209 or Direct Entry

This course introduces the concepts of human-computer interaction and usability testing. Topics include: human information processing, usability principles, models of interaction, user interface paradigms, design of user interfaces. Students will also learn how to develop Graphical User Interfaces using a specific User Interface Management system. (2 hr. Lab every other week).  
52 Hours  
Fee: $763.65

**Computer Security**  
CCPS 633  
Prerequisite(s): CCPS 393

52 Hours  
Fee: $763.65

**Computer Networks I**  
CCPS 706  
Prerequisite(s): CCPS 590

39 Hours  
Fee: $556.62

**Software Engineering I**  
CCPS 731  
Prerequisite(s): CCPS 406

Essential methods for the Systematic approach to the development, operation, maintenance, and retirement of Software. Software Life Cycles, process modelling, configuration management, managing Software quality, requirements analysis, specification, verification and validation, Software design, implementation, testing and maintenance. Software Tools, CASE tools and documentation. (2 hr. Lab every other week)  
52 Hours  
Fee: $763.65

It is recommended that students take CCPS 109 prior to taking this course.
Software Engineering II CCPS 831
Prerequisite(s): CCPS 731
This course is a continuation of CPS 731. Topics include: Formal specification, algebraic specification, model oriented Specification, Software reliability, fault-tolerance, Software tools, programming environments, Toolkits, Method based Environments. Software development work benches, Software reliability, Software metrics, software standards, complexity measures, Software quality assurance, automated programming, CASE Tools. (2 hr. Lab every other week).
52 Hours Fee: $763.65

Computer Science Quick Start CKCS 100
At the end of the workshop students will be able to describe fundamental programming concepts and constructs, plan and write simple programs using fundamental programming concepts, and apply basic code maintenance techniques when writing programs.
32 Hours HST included Fee: $407.27

MS Word and Excel Quick Start CKCS 102
This workshop will introduce students to essential skills and tools necessary to create functional and professional documents. By the end of the workshop sessions students will master vital skills in Microsoft Word and Excel. Students will learn and practice skills in Word and Excel through hands-on exercises and mini assignments. Upon completion of the workshop sessions students will produce several sample documents that can be used as reference guides throughout their academic career.
15 Hours HST included Fee: $407.87

Introduction to Programming in Python CKCS 150
This course is designed to provide a gentle introduction to programming in Python. It is composed of interactive lectures with students, using a number of Python example programs developed by the instructor. Python's elegant syntax and dynamic typing, together with its interpreted nature, make it an ideal language for scripting and rapid application development, in many areas and on most platforms. The Python interpreter is easily extended with new functions and data types implemented in C or C++ (or other languages callable from C). Python is also suitable as an extension language for customizable applications.
39 Hours Fee: $755.00

Introduction to Computer Applications CKCS 200
This course is a general introduction to Computer systems. Topics include the software development process and lifecycle, application testing, hardware, software, databases and the Internet. Students are also exposed to directory structure, compression, secure storage of files, encryption, and security and safety issues.
39 Hours Fee: $755.00

Data Access and Management CKCS 110
The course focuses on data querying and reporting techniques as well as data mining and cleaning techniques. Students will receive an overview of Database Management Systems (DBMS), and learn the differences between database architectures, the role of data and database administrators, fundamental concepts, and need for data warehousing.
39 Hours Fee: $755.00

Mathematical Modeling: Statistical Analysis Utilizing SPSS CKCS 220
The goal of this course is to provide a simple overview and introduction to SPSS. The course will cover the basic topics such as entering and manipulating data, analysing data and describing relationships, and creating charts and outputs.
39 Hours Fee: $755.00

Mathematical Modeling: Advanced MATLAB CKCS 310
This course is designed to cover enhanced topics in MATLAB. Its focus will be using MATLAB in solving complex problems and developing augmented user interfaces. Topics will include different methods of programming in MATLAB; compilation, storage, and processing of data from different sources; and the application of graphical object manipulation in relation to the development of programs and their graphical user interfaces.
39 Hours HST included Fee: $755.00

<td>39 Hours</td>
<td>Fee: $755.00</td>
</tr>
<tr>
<td><strong>Object Oriented Project Development</strong></td>
<td>CKCS 613</td>
</tr>
<tr>
<td>Prerequisite(s): CCPS 311</td>
<td></td>
</tr>
<tr>
<td>This course applies object-oriented concepts to the design and development of a real-world application. The complete OO software development life cycle is realized through a series of lectures and hands-on workshops. Course topics include CRC modeling, use-case scenarios, OO project management, and OO user interface development. A term project using Java is an important component of the course.</td>
<td></td>
</tr>
<tr>
<td>39 Hours</td>
<td>HST included</td>
</tr>
<tr>
<td><strong>Introduction to C++</strong></td>
<td>CKCS 900</td>
</tr>
<tr>
<td>This is a fast-paced introductory course to the C++ programming language. It is intended for those with little programming background, though prior programming experience will make it easier, and those with previous experience will still learn constructs and concepts specific to C++. Every student will bring a laptop with WiFi to each class.</td>
<td></td>
</tr>
<tr>
<td>21 Hours</td>
<td>Fee: $777.65</td>
</tr>
<tr>
<td><strong>Introduction to Cloud Computing</strong></td>
<td>CKCS 901</td>
</tr>
<tr>
<td>This course introduces students to the principles and intricacies of cloud computing and provides hands-on experience in cloud development and deployment. This curriculum will be based on the Windows Azure cloud platform, with some comparison to other cloud platforms such as Hadoop and Google App Engine. Every student will bring a laptop with WiFi to each class.</td>

</tbody>
</table>
**Computer Cryptography and Digital Steganography**  CKDF 120

This course introduces the fundamentals of modern cryptography as related to computer security and digital forensics, including the techniques of steganography, watermarking, digital signatures, and public key cryptography. Students will learn both the theory of cryptographic protection and the practicalities of properly implementing crypto-protection in the field, as well as how forensics experts deal with encrypted information. Students will apply what they learn in scenario-based exercises and projects.

*Note: Knowledge of TCP/IP is recommended.*

*Students must have a Windows or Linux computer operating system; the Apple (Mac) operating system is not supported by this course.*

39 Hours  Fee: $755.00

---

**Digital Forensics Systems**  CKDF 130

This course introduces digital forensics notions and techniques. Students will gain a basic understanding and legal awareness of computer security and forensics, techniques used in the evidentiary process, various methodologies intrinsic to computer forensics with emphasis on computer incident response, and IT systems protection. The importance of ethics, understanding rules of evidence, effective communications, key elements of research and seizure relative to privacy legislation will also be discussed. Students will apply what they learn in scenario-based projects.

*Note: Knowledge of TCP/IP is recommended.*

*Students must have a Windows or Linux computer operating system; the Apple (Mac) operating system is not supported by this course.*

39 Hours  Fee: $755.00

---

**Security Architecture and Design**  CKDF 140

This course addresses security architecture and design by considering case studies. In addition, the course will survey computer security frameworks, controls and objectives, and standards and pronouncements. Methods of threat risk assessment (TRA) will be reviewed, with particular emphasis on social and human factor engineering, hacker profiling, and risk management. Security policies and procedures, enforcement, and monitoring will also be covered. Students will apply what they learn in scenario-based exercises and projects.

*Note: Knowledge of TCP/IP is recommended.*

*Students must have a Windows or Linux computer operating system; the Apple (Mac) operating system is not supported by this course.*

39 Hours  Fee: $755.00

---

**Digital Forensics Investigation**  CKDF 150

*Prerequisite(s): CKDF 110, CKDF 120, CKDF 130, CKDF 140, and CZLW 120*

This capstone course provides a hands-on opportunity for students to utilize what has been learned throughout the program: identifying vulnerable system resources; devising security controls, policies, and procedures within the context of a security architecture and design; selecting and deploying appropriate hardware/software controls and countermeasures to reduce exposure; and implementing a cohesive security environment which includes monitoring, feedback, and metrics. Participants will complete a practical project related to computer security and/or digital forensics.

*Note: Knowledge of TCP/IP is recommended.*

*Students must have a Windows or Linux computer operating system; the Apple (Mac) operating system is not supported by this course.*

39 Hours  Fee: $755.00

---

**Mainframe Computing**

Mainframes are large, complex computer systems used by large corporations and government institutions for mission critical applications, intensive data processing such as management information systems, financial transaction processing, manufacturing control systems, and censuses and statistics. The following courses provide a thorough overview of the mainframe environment, including hardware systems, workflows, end-user interfaces, programming, and data management.

---

**Introduction to Mainframe Computing z/OS Environment**  CKCS 191

*Prerequisite(s): Department consent*

This course introduces information technology learners to the mainframe computing environment. Upon completion of this course, students should possess the knowledge and skills necessary to begin using the basic facilities of an IBM mainframe computer. Topics include the use of a terminal emulation program (Vista 3270) to interact with the mainframe environment with special attention paid to the TSO/ISPF and SDSF facilities. Students learn about the history of mainframe computing and its resurgence as a powerful processing tool for large corporations and government institutions. This course is designed to offer a thorough overview of the mainframe environment, including data management, data processing, application program development and maintenance, IBM utilities and end-user interfaces.

42 Hours  Fee: $755.00

---

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
Mainframe Application Programming ASSEMBLER  CKCS 192
Prerequisite(s): CKCS 194

Created for future application and systems Assembler language programmers, this course introduces learners to the Assembler programming language on the z/OS platform and provides a thorough overview of the architecture to programming at the Assembler level. The architecture of IBM System z is examined, including storage addressing, the use of registers, and instruction formats. Topics include Assembler Language and Machine Language instructions formatting, the operation of the Assembler program (which translates the Assembler language to machine instructions), decimal and binary arithmetical operations, hexadecimal number conversion, basic Assembler Macro instructions, and standard programming techniques.

42 Hours  Fee: $755.00

Mainframe Application Programming COBOL  CKCS 193
Prerequisite(s): CKCS 194

This course introduces learners to the most widely used mainframe application programming language, COBOL. Topics include basic COBOL elements, structured programming and design, debugging, data validation, Boolean logic operations, table processing, and sequential file maintenance. Students learn the history of this powerful programming language and its evolution in the area of commercial data processing. A segment of the course focuses on the future of this language and its interoperability with the Internet and Object-Oriented technologies.

42 Hours  Fee: $755.00

Mainframe Batch Programming JCL  CKCS 194
Prerequisite(s): CKCS 191

This course introduces learners to Job Control Language (JCL). Students learn to code JCL statements using proper syntax and coding rules, including JCL statements for creating new datasets, referring to existing datasets, testing condition codes, using conditional phrases, coding in-stream and catalogued procedures, using symbolic parameters in procedures, using utility programs, and recognizing and resolving common problems. Students learn about the role of JCL in the mainframe environment and its relationship with application programs.

42 Hours  Fee: $755.00

Mainframe Online Programming: CICS  CKCS 195
Prerequisite(s): CKCS 193 and CKCS 194

This course focuses on the application development and implementation process for online mainframe systems. In-depth coverage of the Customer Information Control System (CICS) and the methods for employing it to perform Online Transaction Processing (OLTP) tasks in a mainframe environment is provided. A review of the overall structure and purpose of CICS is discussed and command levels for CICS in the following areas are introduced: management of data (VSAM files), data communication, application development, and system management. Learners examine the COBOL programming techniques used to create basic and complex systems, and learn how to debug CICS application programs.

42 Hours  Fee: $755.00

Mainframe Database Management Systems DB2  CKCS 196
Prerequisite(s): CKCS 194

This course provides learners with a comprehensive overview of the widely used IBM mainframe database management system, DB2. This course focuses on how DB2 operates in a mainframe environment. Students learn how to access DB2 objects using SPUFI, QMF and Application Programs. The establishment of the appropriate execution environment for programs that reference DB2 databases is discussed. This is an advanced course; while not required, prior knowledge of the relational data base model and SQL is strongly recommended.

42 Hours  Fee: $755.00

Websphere Application Server on z/OS  CKCS 197
Prerequisite(s): CKCS 191

This course provides a technical overview of Java-based development integrated with batch processing on mainframe and midrange systems. Students work with IBM Websphere Application Server (WAS) and Message Queue (MQ), and explore their relationships to Service Oriented Architectures (SOA) and enterprise applications. In addition, learners examine the relationship between DB2 and enterprise applications delivered on WAS. CICS Transaction Gateway as a strategic interface between Websphere and CICS TS is discussed.

42 Hours  Fee: $755.00

Certificate in Computer Security and Digital Forensics
(See page 31 or www.ryerson.ca/ce/compsec.)

Digital information is everywhere – in our homes and businesses, our financial institutions, and our critical infrastructure. Valuable information is often vulnerable to compromise by malware, viruses, and highly sophisticated emerging threats such as APT and DNS cache poisoning. Cybercrime, and even cyber warfare, are constant threats, and the need for qualified computer security and digital forensics experts has never been greater.
COMPUTER/INFORMATION TECHNOLOGY STUDIES

Information technology is a rapidly changing and growing field, and training in this field must address the needs of learners and the business community. The high-end courses offered through Information Technology Studies have been specifically designed to meet the needs of adult learners. Whether you need to develop leading-edge computer skills to advance your career, or simply have a personal interest in computers, you’ll find suitable courses available in web, programming, and networking technologies.

Please visit the Information Technology Studies website at www.ryerson.ca/ce/its for the most up-to-date information on course offerings, schedules, and fees. Note: Registered students will have access to Ryecast, a web streaming tool that captures lectures for on-demand viewing.

.NET Application Developer

Learners gain hands-on experience developing a wide range of applications by using tools and components within the .NET Framework and Visual Studio. These courses are appropriate for learners with a programming background.

Candidates who complete all required courses for the .NET Application Developer course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award recognition from The G. Raymond Chang School of Continuing Education. (See www.ryerson.ca/ce/its or page 108 for further information.)

Programming With C# and the .NET Framework  CXEC 300

This course provides learners with a detailed overview of the C# language, its syntax, and its implementation of object-oriented concepts. Also introduced is the .NET Framework, which is Microsoft’s platform for building a wide range of applications from high-performance websites to rich Windows clients. Learners use .NET to build simple Windows applications, read and write files, interact with relational databases, parse and update XML files, and filter data using LINQ.

Note: It is strongly recommended that students have previous experience with an object-oriented programming language, such as C++, Java, or Visual Basic prior to taking this course.

42 Hours  HST included  Fee: $1199.23

Developing Web Applications with ASP .NET  CXEC 309

This course provides learners with a complete overview of ASP.NET to professional developers who are familiar with a .NET language such as C# or VB, using Visual Studio as a design tool. In addition to ASP.NET fundamentals, learners build secure sites, apply MVC (Model View Controller) architecture using ASP.NET MVC, and connect to relational database products such as SQL Server. Microsoft’s AJAX library and controls are also examined in depth.

Note: It is strongly recommended that students complete CXEC 300 or have equivalent programming experience in C# or VB.NET prior to taking this course.

Students taking this course should familiarize themselves with HTML/CSS/JavaScript before the course begins.

42 Hours  HST included  Fee: $1243.23

NEW

Developing Adv Web Apps with ASP.NET MVC  CXEC 335

In this course, ASP.NET developers analyze the high-productivity programming model, the ASP.NET MVC Framework. Learners explore its clean code architecture, test-driven development, and powerful extensibility, creating, debugging and deploying a MVC application, incorporating language features, Razor, Ninject, and Moq. Students create, administer, and secure a database, adding navigation controls, a shopping cart, and mobile-specific content. URL routing, controllers, actions, filters, views, helper methods, model binding and validation, bundles, and using the web API are examined.

Note: This course may assist learners with their preparation for exam 70-486. It is strongly recommended that students complete CXEC 309 or have equivalent ASP.NET experience prior to taking this course.

Students taking this course should familiarize themselves with HTML/CSS/JavaScript before the course begins.

42 Hours  HST included  Fee: $999.00

NEW

Developing Windows Azure and Web Services  CXEC 336

In this course, learners focus on the skills and knowledge necessary to create and deploy web apps and services by accessing, querying, and manipulating data using the Entity framework, LINQ to Entity, and ADO.NET. Students design, configure, implement, host, and manage WCF services. Web API-based services and Windows Azure web apps/services are created, consumed, and deployed, and packages are managed using NuGET.

Note: This course may assist learners with their preparation for exam 70-487. It is strongly recommended that students complete CXEC 309 AND CXEC 335 or have equivalent ASP.NET experience prior to taking this course.

42 Hours  HST included  Fee: $999.00

NEW

Computer/Information Technology Studies

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Cisco Certified Network Associate (CCNA) Routing and Switching

These courses provide learners with the fundamental skills and knowledge of Cisco technologies. This course series may assist learners with their preparation for the Cisco Certified Network Associate (CCNA) Routing and Switching, the foundation step in Cisco Career Certification. These courses are appropriate for learners with a network administration background.

Candidates who complete all required courses for the Cisco Certified Network Associate Routing and Switching course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from The G. Raymond Chang School of Continuing Education. (See www.ryerson.ca/ce/its or page 111 for further information.)

Networking Basics for Cisco  CXNA 101

This course provides learners with a review of networking in today’s client/server environment. Concepts including network design types, network architectures, standards, protocols, and network support are explored. Learners review the seven layers of the Open Systems Interconnection (OSI) reference model, networking technologies for local area networks (LANs), wide area networks (WANs), and the Internet, including the TCP/IP protocol stack. The major components of the network system, types and use of network cabling, and topologies are examined, and common routed and routing protocols are identified and described. In conjunction with CXNA 102 (Interconnecting Cisco Networking Devices), this course may assist learners with their preparation for the latest Cisco Certified Network Associate (CCNA) Routing and Switching exam.

Note: It is strongly recommended that students complete CXIT 401 AND CXIT 421 or have two years equivalent networking experience prior to taking this course.

42 Hours  HST included  Fee: $1199.23

Interconnecting Cisco Network Devices (ICND)  CXNA 102

This course provides learners with the skills required to select appropriate device(s) to meet system requirements, and to install, configure, and operate LANs, routed WANs, and switched networks. Learners explore Cisco IOS, Virtual LANs (VLANs), Access Control Lists, Bandwidth on Demand (BOD), and Dial-on-Demand Routing (DDR), Point-to-Point (PPP), Frame Relay, and Fiber Distributed-Data Interface (FDDI). In conjunction with CXNA 101 (Networking Basics for Cisco), this course may assist learners with their preparation for the latest Cisco Certified Network Associate (CCNA) Routing and Switching exam.

Note: It is strongly recommended that students complete CXNA 101 or have equivalent Cisco networking experience prior to taking this course.

42 Hours  HST included  Fee: $1239.23

Computer and Network Support

Networking-oriented courses are designed to provide learners with the material needed to become proficient with concepts and practices related to today’s networking technologies. The courses in this series provide learners with hands-on experience with networking devices and software, Microsoft and Linux network administration, and system security practices.

Candidates who complete all required courses for the Computer and Network Support program and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from The G. Raymond Chang School of Continuing Education. (See www.ryerson.ca/ce/its or page 112 for further information.)

Certified Information Systems Security Professional (CISSP)  CXCC 110

The International Information Systems Security Certifications Consortium, Inc. ([ISC]2) is a global organization offering a certificate recognizing an international standard for information security and a Common Body of Knowledge (CBK). Offering a unique Canadian perspective, this course examines the ten information security (IS) domains, helping learners prepare for the CISSP certification exam. CBK topics include: Software Development, Telecommunications, Operations, Network and Environmental Security, Access Control, Continuity and Disaster Recovery Planning, and Cryptography.

42 Hours  Fee: $927.00

A+  CXIT 401

In this course, learners examine computer hardware and software standards. Learners obtain hands-on experience assembling and troubleshooting PCs, laptops, and printers. They install, configure, update, and upgrade operating systems in a small business network and a SOHO network. Emphasis is placed on custom configuration and network protocols/services, such as the TCP/IP suite of protocols. Network security and best practices are examined.

Note: This course may assist learner in their preparation for writing the CompTIA A+ certification exam.

It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.

42 Hours  HST included  Fee: $779.23
Network Administration for Microsoft  CXIT 421
This course provides learners with an understanding of the skills required to manage administration tasks including controlling user accounts, assigning permissions, auditing access, administering file and printer resources, managing data storage, using back-up and restore utilities, administering and managing server resources, and configuring performance monitoring software. Learners discuss virtualization, administration of Active Directory and Group Policies, and examine the basic functionality of DNS and DHCP (IPv4 and IPv6), the Windows Store and Windows Apps.

Note: It is strongly recommended that students complete CXIT 401 or have equivalent experience (or be A+ certified) prior to taking this course.

42 Hours  HST included  Fee: $779.23

Windows Active Directory Planning  CXIT 620
Building on the networking skills acquired in CXIT 421 (Network Administration for Microsoft), this Windows Server 2012 Infrastructure and Active Directory Planning course provides students with the knowledge and skills to develop, implement, and troubleshoot an Active Directory infrastructure. Topics include TCP/IP, DHCP, and DNS functioning within single and multi-domain environments. Learners manage AD replications, operations masters, maintain AD availability, and learn to switch between the GUI OS and Command Line Interface (CLI) OS.

Note: It is strongly recommended that students complete CXIT 401 AND CXIT 421 or have equivalent Microsoft network administration experience prior to taking this course.

42 Hours  HST included  Fee: $809.23

Network Administration for Linux  CXIT 630
This course provides learners with an understanding of the system administration skills required for the latest version of Ubuntu. Students use the Unity desktop to manage Linux services (users, software installations, shell scripting), as well as the command prompt. Coverage of Linux services include LDAP, Apache HTTP, email, Cups printing, and SQL. Virtualization is examined, installed, and administered in both desktop and server modes. Python/Perl scripting is used to automate daily administration tasks.

Note: It is strongly recommended that students complete CXIT 401 AND CXIT 421 or have equivalent Microsoft network administration experience prior to taking this course.

42 Hours  HST included  Fee: $779.23

Databases
SQL (Structured Query Language), used widely by today’s database programmers, is a standard data-oriented language that generates, manipulates, and retrieves information from relational databases.

Please note: The following Database courses are not part of any course series. For further information, please visit www.ryerson.ca/ce/its.

Introduction to SQL  CXCP 216
This course introduces learners to SQL (Structured Query Language), a standard data-oriented language used to generate, manipulate, and retrieve information from a relational database. Learners explore the relational database model and obtain hands-on experience writing complex SQL statements including summary queries and subqueries, and use built-in functions.

Note: It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.

42 Hours  HST included  Fee: $783.23

Enterprise Content Management
Enterprise Content Management (ECM) is a term used to describe a structured means of organizing and storing an organization’s shared documents and other content related to that organization’s processes and procedures, such as their methods, tools, and strategies. One of the most popular ECM tools used today is Microsoft’s SharePoint.

Please note that the following Microsoft SharePoint courses do not comprise a course series. For further information, please visit www.ryerson.ca/ce/its.

Microsoft SharePoint Foundation  CXCP 264
In this course, the Microsoft SharePoint 2010 features that allow users to manage projects and documents effectively are examined. My Site and blogs are used to share knowledge and to connect with people. Students manage web content, explore SharePoint pages, create wiki pages, configure a document library, work with lists, and discuss the importance of records management and compliance.

Note: It is strongly recommended that students complete CXCP 663 or have equivalent HTML, CSS web site development experience prior to taking this course.

42 Hours  HST included  Fee: $749.23
Microsoft SharePoint Web Development  CXEC 340

In this course for web developers, learners develop integrated SharePoint solutions, exploring custom authentication, SharePoint permissions, in-browser customization, and design basics. SharePoint’s strong API, with its highly extensible nature and foundation on the underlying .NET Framework, is examined. Learners are exposed to an all-encompassing approach to programming concepts, including the extensibility interfaces and SharePoint’s internal features, and approach SharePoint as an open toolkit as opposed to a closed, intranet-only model.

Note: It is strongly recommended that students complete CXEC 300 AND CXEC 309 or have equivalent .NET language and ASP .NET experience prior to taking this course.

Students are required to have the following environments at home to be successful in this course: As a minimum, Visual Studio 2010 Ultimate, on 64-bit Windows Server 2008 R2 with IIS 7.5, or 64-bit Windows 7 Ultimate.

For laptops, a minimum of 4GB memory is required (8GB preferred) with Windows Server 2008 R2 x64 with Hyper-V installed (eSATA is recommended instead of USB for external hard drive disk space).

42 Hours  HST included  Fee: $1199.23

Java EE Solution Developer

Java EE (Enterprise Edition) is the current enterprise level industry standard for object-oriented cross-platform distributed application development. This course series provides learners with hands-on experience with tools for web component solution development within the Java EE development architecture including servlets, JSP, EJB, Struts, Spring Framework, JSF, and Hibernate. These courses may assist learners with their preparation for various Oracle (Sun) certifications. These courses are appropriate for learners with a programming background.

Candidates who complete all required courses for the Java EE Solution Developer course series and earn an average overall of 70% or higher are eligible to earn a Professional Development Award from The G. Raymond Chang School of Continuing Education. (See www.ryerson.ca/ce/lts or page 118 for further information.)

Developing Java EE Compliant Applications (Enterprise JavaBeans)  CXEC 312

This course provides learners with the hands-on skills to build and deploy Java EE applications. Topics include stateless and stateful Session Beans, Message Driven Beans, and managed and unmanaged Entities. Learners examine the proper use of transactions and security while building an enterprise application. Implementing applications by reusing components, using Entity callback, and using Listeners and Interceptors are examined.

Note: It is strongly recommended that students complete CXEC 320 or have equivalent Java EE programming and development experience, or be an Oracle (Sun) Certified Professional Java Programmer prior to taking this course.

42 Hours  HST included  Fee: $1243.23

Web Component Development with Java Technology (Servlets and JSP)  CXEC 313

This course provides learners with the knowledge and skills required to develop web tier components from JavaServer Pages (JSP) and servlet technologies. Learners explore the technical details of JSP and servlet technology, and the best practices for analyzing, designing, developing, testing, and deploying web applications on the Java platform.

Note: It is strongly recommended that students complete CXEC 320 or have equivalent Java EE programming and development experience, or be an Oracle (Sun) Certified Professional Java Programmer prior to taking this course.

42 Hours  HST included  Fee: $1243.23

Java Advanced  CXEC 320

This course provides learners with the skills required to create Java applications using object-oriented programming principles and applying OO design methodologies. Topics include using JavaFX UI controls, exception handling, file I/O, the Java Collection framework, multithreading, networking applications, and JDBC. Learners create stand-alone and multithreaded applications, as well as client/server applications using TCP/IP sockets.

Note: It is strongly recommended that students complete CXCP 211 or have equivalent Java programming experience prior to taking this course.

42 Hours  HST included  Fee: $1119.23

Developing Advanced Web Applications Using Java  CXEC 322

In this course, learners develop advanced Java web applications based on JSF (JavaServerFaces). Topics include examining expressions language, working with properties files, handling GUI events, integrating Ajax support, creating custom components, validating user input, and creating page templates with Facelets. In addition, learners explore PrimeFaces, a popular third-party component library for JSF 2.

Note: It is strongly recommended that students complete CXEC 320 AND CXEC 313, or have at least three years of equivalent Java programming and development experience prior to taking this course.

To succeed in this course, learners should have prior Servlet and JSP development experience.

42 Hours  HST included  Fee: $1243.23

Certificate and degree credit  Degree credit  Certificate credit  Course series  39
**Spring and Hibernate Java Apps**  
CXEC 324

This course provides learners with the skills required to develop effective data-driven Spring applications using Hibernate. Topics include dependency injection/inversion of control, association and collection mapping, component and inheritance mapping, object lifecycle, and persistence and session management. Spring JDBC development, Spring IOC integration, transaction management, automatic versioning, and the Hibernate Query Language (HQL) are explored in detail.

*Note: It is strongly recommended that students complete CXEC 320 AND CXEC 313 or have three years of equivalent Java programming and development experience prior to taking this course.*

42 Hours  
HST included  
Fee: $1243.23

**Mobile Application Developer**

These courses provide learners with hands-on experience developing applications for Android and the iPhone, the two most popular and prominent mobile development platforms. Students will learn the skills and knowledge required to develop their own mobile applications for each device. The courses are appropriate for learners with a programming background in Java and object-oriented programming [OOP].

Candidates who complete all required courses for the Mobile Application Developer course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from The G. Raymond Chang School of Continuing Education. (See [www.ryerson.ca/ce/ITS](http://www.ryerson.ca/ce/ITS) or page 119 for further information.)

**Android Application Development**  
CXEC 328

This course introduces Java programmers to the Android mobile SDK. Using the Eclipse IDE, students build and debug Android applications using APIs for calculating, reading data, creating lists, and mapping. Layouts, widgets, events, themes, styles, menus, preferences, and fragments are examined, and files, adapters, and intents are used to work with data. Custom adapters, content providers, and app widgets are used to manipulate data. Learners explore Google Play, the popular marketplace for publishing Android apps.

*Note: Learners are not required to own an Android device for this course.*

*It is strongly recommended that students complete CXEC 320 or have equivalent advanced Java object-oriented programming experience prior to taking this course.*

42 Hours  
HST included  
Fee: $1220.23

**iPhone Application Development**  
CXEC 329

In this course, students gain hands-on experience developing applications for the iOS platform. This course covers the complete foundation for iOS development, including an introduction to the Objective-C language, Xcode development tools, best-practice user interface development, and best practices for all aspects of app development and deployment. Course topics include storyboards, localization, Core Data, navigation controllers, blocks, and app deployment.

*Note: It is strongly recommended that students complete CXEC 300 OR CXEC 320 OR have equivalent OO programming experience prior to taking this course.*

42 Hours  
HST included  
Fee: $1169.23

**Programming Basics**

Object-oriented programming, known as OOP, is used extensively by today’s developers. Whatever your programming language of choice, Programming Basics will get you started.

**Java Introduction**  
CXCP 211

This course provides learners with the fundamentals of object-oriented programming concepts based on the Java language. Learners examine classes and objects, attributes and methods, and use control statements, strings, arrays, and class libraries. Object-oriented principles, including encapsulation, inheritance, and polymorphism, are explored in detail.

*Note: No previous programming experience is required, but it is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.*

42 Hours  
HST included  
Fee: $783.23

**SQL Server Solution Developer**

Candidates who complete all required courses for the SQL Server Solution Developer course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from The G. Raymond Chang School of Continuing Education. (See [www.ryerson.ca/ce/ITS](http://www.ryerson.ca/ce/ITS) or page 121 for further information.)

**Advanced SQL**  
CXEC 327

Building on the material taught in CXCP 216 (Introduction to SQL), this course provides learners with the skills required to develop advanced database applications using SQL Server. Topics include the implementation of scripts, cursors, T-SQL, and CLR user-defined functions, stored procedures, and triggers. Learners explore transactions, concurrency, error handling, dynamic SQL, as well as BLOBs and XML data types.

*Note: It is strongly recommended that students complete CXCP 216 or have equivalent SQL experience prior to taking this course.*

42 Hours  
HST included  
Fee: $814.23
- **SQL Server Reporting Services** CXEC 330
  In this course for data analysts, developers, database administrators, and those who develop and deploy reports using MS SQL Server Reporting Services, learners create data-rich reports using Microsoft's server-based reporting solution. Topics include data access and report design, model building using the Report Designer, working with spatial data types, managing report execution and subscriptions, and implementing custom report items. In addition, learners examine advanced report management, extending data access and customizing security.
  
  Note: It is strongly recommended that students complete CXCP 216 or have equivalent SQL experience prior to taking this course.
  
  42 Hours HST included Fee: $825.23

NEW

- **SQL Server Integration Services** CXEC 332
  This course provides learners with the skills required to develop data transformation solutions using SQL Server. Topics include SSIS tools, tasks, containers, data flow, expressions and variables, as well as scripting, accessing heterogeneous data sources, tuning the data flow engine, error and event handling, and programming and extending SSIS.
  
  Note: It is strongly recommended that students complete CXEC 327 or have equivalent advanced SQL experience prior to taking this course.
  
  42 Hours HST included Fee: $814.00

NEW

- **Server Analysis Services** CXEC 334
  This course provides learners with the skills required to develop data warehousing solutions using SQL Server. Topics include designing and creating relational data marts and OLAP cubes, cleansing data and populating data marts with SSIS, manipulating and analyzing data using MDX scripts, and examining queries. Using data mining to identify data patterns, correlations, and clustering is explored in detail.
  
  Note: It is strongly recommended that students complete CXEC 330 and CXEC 332 or have equivalent SQL server reporting and integration services experience prior to taking this course.
  
  42 Hours HST included Fee: $814.00

Website Design and Development

These courses provide learners with the foundation to design and develop creative websites by providing the skills required to control the way a website is displayed and incorporate dynamic functionality. Candidates who complete all required courses for the Website Design and Development course series and earn an overall average of 70% or higher are eligible to earn a Professional Development Award from The G. Raymond Chang School of Continuing Education. (See www.ryerson.ca/ce/its or page 123 for further information.)

- **Adobe Photoshop** CXCP 184
  This course introduces learners to the popular image editing program Photoshop. Introductory topics include creating original artwork, retouching and enhancing scanned images, and applying filters and special effects to images. Intermediate topics include incorporating colour; preparing pages for the web; pen tool techniques; examining vector paths, shapes, advanced layer use; as well as rollovers and animations.
  
  Note: It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.
  
  42 Hours HST included Fee: $799.23

- **Advanced HTML5 Development** CXCP 660
  In this course, learners obtain hands-on experience developing web sites by utilizing HTML5 Application Programming Interfaces (API’s), including Canvas, SVG, audio and video, Geolocation, Communication, and Drag-and-Drop. Forms, Web Workers, WebSockets, and Web Storage API’s, as well as development of HTML5’s offline web applications, also are examined in detail.
  
  Note: It is strongly recommended that students complete CXCP 673 or CXCP 675 or have equivalent advanced JavaScript experience prior to taking this course.
  
  42 Hours HST included Fee: $799.23

- **HTML and Cascading Style Sheets** CXCP 663
  This course provides learners with a hands-on introduction to creating their own webpages using HTML and CSS. Students write standards-compliant HTML code and format webpages using CSS. Topics include comparing HTML 4.01 tags to HTML5, formatting text, incorporating images, multimedia, and creating links, tables, and forms. Students explore CSS, apply CSS formatting, and use layout styles.
  
  Note: It is strongly recommended that students be familiar with the Windows environment and have experience using a desktop application comfortably prior to taking this course.
  
  42 Hours HST included Fee: $779.23
**Introduction to JavaScript**  
CXCP 674

JavaScript, an interpretive programming language that can be embedded into HTML, enhances the document by creating an interactive experience between users and web browsers. In the course, learners obtain hands-on exposure to introductory JavaScript concepts including variables, operators, and statements. Incorporation of control structures, and working with arrays and functions also are covered in detail.

*Note: It is strongly recommended that students complete CXCP 663 or have equivalent HTML and CSS experience prior to taking this course.*

42 Hours  
HST included  
Fee: $749.23

---

**Advanced JavaScript**  
CXCP 675

In this course, learners obtain hands-on exposure to advanced JavaScript concepts including mastering objects, regular expressions, exceptions and events handling, and validating data. The scripting Document Object Model (DOM) is examined in detail, and manipulating and using tables and forms, as well as controlling the web browser, also are analyzed in detail.

*Note: It is strongly recommended that students complete courses CXCP 673 or CXCP 674, or have equivalent introductory JavaScript experience prior to taking this course.*

42 Hours  
HST included  
Fee: $783.23

---

**Dreamweaver**  
CXCP 680

Using the latest version of Adobe Dreamweaver, learners prepare and plan a web site while being introduced to Dreamweaver and its environment. Learners obtain hands-on experience managing files, linking webpages, and manipulating text, images, forms, and CSS. Fluid grids and templates are created, and learners incorporate multimedia, and effects into webpages.

*Note: It is strongly recommended that students complete CXCP 663 or have equivalent HTML and Cascading Style Sheets experience prior to taking this course.*

42 Hours  
HST included  
Fee: $799.23

---

**PHP/MySQL Web Design Fundamentals**  
CXCP 685

In this course for web designers, learners write PHP scripts; create, modify, and administer a MySQL database; examine PHP syntax, statements, variables, arrays, and control structures; and publish data on the web by connecting to MySQL with PHP. Learners create and run simple and complex queries; manipulate data; explore relational database design, binary data, structured PHP programming; review a content management system; format content with regular expressions; and analyze cookies, sessions, and access control.

*Note: It is strongly recommended that students complete CXCP 663 AND CXCP 675 (or CXCP 673) OR have equivalent HTML/ CSS and advanced JavaScript experience prior to taking this course. Familiarity with relational databases is recommended.*

42 Hours  
HST included  
Fee: $793.23

---

**eCommerce Design with PHP/MySQL**  
CXCP 695

Building on the PHP/MySQL skills taught in CXCP685, web designers follow best practices to design, structure, and test a scalable, minimal maintenance, e-commerce web site, including a catalogue and shopping cart. Learners consider business goals, SEO, PCI requirements, legal issues, payment processing including PayPal and credit cards. Students explore website, content, server, database, and transaction management and security. Adding inventory, processing shipping and handling, billing, receipts, and order completion are examined in detail.

*Note: It is strongly recommended that students complete CXCP 685 and its prerequisites prior to taking this course or have equivalent experience. The completion of CXCP 216 or equivalent SQL experience is also recommended.*

42 Hours  
HST included  
Fee: $799.23

---

**Ajax with jQuery Introduction**  
CXCP 705

This course introduces web developers proficient in JavaScript to jQuery, the powerful JavaScript framework that simplifies the coding of rich web applications that can be integrated with the leading web development platforms and frameworks. Effects, animations, DOM manipulation methods, form and data validation, plugins, UI themes, widgets, and interactions are explored. Learners use jQuery with Ajax and JSON, the API for Twitter, as well as develop web pages for mobile devices using jQuery Mobile.

*Note: It is strongly recommended that students complete CXCP 663 AND CXCP 675 (or CXCP 673) OR have equivalent HTML and advanced JavaScript experience prior to taking this course.*

42 Hours  
HST included  
Fee: $799.23

---
CRIMINAL JUSTICE AND CRIMINOLOGY

Students will become familiar with the structural, administrative, political, and professional context of the criminal justice system and its related agencies, while also gaining an appreciation for the complex causes and consequences of crime in Canadian society.

Criminal Justice and Criminology

Related certificate(s): Community Engagement, Leadership, and Development (pg. 29), Criminal Justice and Criminology (pg. 32), Ethics (pg. 46), Social Sciences and Humanities Foundations (pg. 101)

★ Introduction to Canadian Criminal Justice  CCRM 100
This course introduces students to the administrative and institutional components of the Canadian criminal justice system and the principles that govern it. The course will be organized around the police, courts, correctional systems, and will take a critical approach to both the formal principles of justice as they apply to this system, as well as how they are woven into the process at various stages. (Formerly JUS 300.)
39 Hours  Fee: $581.34

★ Understanding Crime in Canadian Society  CCRM 101
Prerequisite(s): CCRM 102
This course is designed to give students the background and knowledge to think critically about information on crime and the social response to it in Canada. Students will learn about how we come to know about crime and criminality, and will conclude with a detailed analysis of one or more specific crimes (e.g. homicide, prostitution or illicit drug use) in order to apply the concepts and materials presented throughout the term. (Formerly JUS 101.) CRM 101 is not available for credit to students who choose CRM 100 or CRM 102. (LL)
39 Hours  Fee: $581.34

★ Introduction to Criminology  CCRM 102
Prerequisite(s): CCRM 101
This course provides a foundation for the theoretical, conceptual and policy considerations related to crime and justice in Canada. Students will be introduced to the main theoretical approaches to understanding crime (classical, positivist and critical theories), and the various ways in which each has shaped criminal justice policy in Canada. These issues will be brought together through an in-depth analysis of one or two current topics.
39 Hours  Fee: $581.34

★ Criminal Law  CCRM 200
Prerequisite(s): CCRM 100 or (LAW 534 and in Law and Business program) Antirequisite(s): LAW 400
Students are introduced to the basic concepts and substance of the criminal law in Canada. The historical and theoretical foundations of criminal law, elements of an offence, and criminal defenses are considered. The role of criminal law in society, and its intersection with other forms of social regulation are highlighted. This course is not a technical legal course in criminal procedure; rather, it provides students with basic knowledge of criminal law in Canada.
39 Hours  Fee: $598.85

★ Victims and the Criminal Process  CCRM 202
Prerequisite(s): CCRM 100
This course has two emphases: theory and research on the nature of criminal victimization in Canada, and the role and experiences of victims of crime in the Canadian criminal justice system. The intersection of victimization with gender, race, class and other forms of social inequality will provide the context for an analysis of the extent to which the current criminal justice system does, or can, meet the broad range of victim needs. (Formerly JUS 601.)
39 Hours  Fee: $565.89

★ Policing in Canada  CCRM 300
Prerequisite(s): CCRM 100 and CCRM 102
Students are introduced to the concept of “policing” and the institutional and non-institutional forms it may take. The intersection of the uniformed, public police with other policing bodies, police discretion, culture and issues of accountability and governance are central to this course. The role of communities and developments in the global context provide the context for analysis of the future of democratic policing.
39 Hours  Fee: $562.80

★ Youth Justice in Canada  CCRM 304
Prerequisite(s): CCRM 100 and CCRM 102
This course considers the theoretical and policy issues which relate specifically to young people in conflict with the law and their interaction with legal systems in Canada. The focus of the course will be on an analysis of the historical development of a separate legal system for dealing with youthful offenders and the changes in discourses around youth crime that have been reflected in reforms to that system.
39 Hours  Fee: $562.80
**Corrections in Canada**  
**CCRM 306**  
Prerequisite(s): CCRM 100 and CCRM 102

Students are introduced to the philosophical trends and approaches within the correctional system in Canada. The focus will be on understanding the historical and political context of correctional practices and their impact on specific populations, such as women, Aboriginal people, and racialized communities. We end with an analysis of correctional practices in other jurisdictions, including capital punishment and the development of alternative approaches.

39 Hours  
Fee: $562.80

**Criminal Courts in Canada**  
**CCRM 308**  
Prerequisite(s): CCRM 100 and CCRM 102

The focus of this course is on the structure and function of the criminal courts in Canada, with particular emphasis on the points of tension at various stages. Rather than being a course on the technical aspects of criminal prosecution, points of tension in the process will be considered through an analysis of a variety of topics, including pre-trial detention, sentencing, plea discussions and the wrongfully convicted.

39 Hours  
Fee: $562.80

**Ethics in Criminal Justice**  
**CCRM 322**  
Prerequisite(s): CCRM 100 and CCRM 102

This course introduces students to the ethical foundations of justice, and their implications and applications at various junctures in the criminal justice system. Ethics in public and private policing, the legal profession (defense, prosecution, judiciary), and punishment are given in-depth consideration. Emphasis will be placed on a case study approach, and student-led analyses.

39 Hours  
Fee: $562.80

**Criminal Justice and Social Inequality**  
**CCRM 402**  
Prerequisite(s): CCRM 100 and CCRM 102  
Antirequisite(s): JUS400

This course examines various forms of social inequality as they intersect with the criminal justice system in Canada. The course will challenge the notion of an objective, value-neutral criminal justice system, and will consider the impact of operational and policy decisions on race, class, gender and other forms of social inequality. Topics will include systemic racism, gender discrimination, the over-representation of people who live in poverty and other relevant issues.

39 Hours  
Fee: $562.80

**Violence in Society**  
**CCRM 601**

This course is designed to provide students with the skills to think critically about various forms of interpersonal violence and the social response to it. The course will conclude with a detailed analysis of the major policies which have emerged to deal with violence, such as zero tolerance policies, traditional approaches to crime prevention, increasing criminal sanctions and, finally, the implementation of alternatives to the criminal process. (UL)  

Note: This course is no longer available for credit towards the graduation requirements for the Criminal Justice and Criminology certificate program.

39 Hours  
Fee: $556.62
DESIGN FOR ARTS AND ENTERTAINMENT

These interdisciplinary courses will appeal to students interested in the comparative study of design for the performing arts in a range of media, including live theatre, film, television, animation, new media, and special events. For more information, visit www.ryerson.ca/ce/dae.

Design for Arts and Entertainment

Related certificate(s): Design for Arts and Entertainment (pg. 35). For information regarding other courses featured in the Design for Arts and Entertainment certificate, see Communication (pg. 157), English (pg. 195), Fashion (pg. 207), Film Studies (pg. 210), Interior Design (pg. 258), Lighting Design (pg. 270), New Media (pg. 287), Photography (pg. 308), and Theatre (pg. 362).

★ Drafting for Entertainment CDID 170

This course focuses on the guiding disciplines that form the structure on which works of art and design are built. Students will be introduced to the basic elements of drafting and its practical application to describing scenographic space, including: theatre, film, television, new media and site-specific installations, staged photography, and virtual scenery. Special attention will be given to the similarities and differences of staging between the media, with consideration given to sightlines and POV, safety and ergonomics, and special scenic effects. Plans, direct elevations, sections, isometric drawings, and storyboards will be explained and practiced. This course will enable students to describe their design interpretations in CDMP 122 and CDMP 123. (Equivalent to one Professional elective from Table I, see Undergraduate Program Calendar at www.ryerson.ca.)

39 Hours Fee: $591.64

★ History of Arts and Scenography CDMP 130

This course will study scenography as a parallel progression in a cross-cultural survey of the arts. Organized along major world belief systems, students will familiarize themselves with visual and aural culture as it is expressed in art, music, architecture, fashion, and decorative arts. From sacred space to 21st Century media, students will examine how the elements of early spiritual dance evolved with emerging technologies and changes in religious, societal, and political systems. Students will learn to recognize cultural and scenographic trends as they conduct primary and secondary source research. The scenographic tradition will be addressed in terms of ceremony, interpreting text, for constructed or virtual worlds, relationship-building in communities, and collaborative work structures. The lexicon of scenographic technologies and styles will also be examined as a reflection of world culture. Weekly lectures and visual and aural research will enable students to create a personal textbook of sources to use for designing productions. (Equivalent to one Professionally Related elective from Table II, see Image Arts in the Undergraduate Program Calendar at www.ryerson.ca.)

39 Hours Fee: $591.64
DESIGN MANAGEMENT

With an appreciation of design and business fundamentals, design managers create and maintain collaborative relationships among designers, clients, and administrators. Their contribution is an essential factor in the success of their organizations.

Design Management

Related certificate(s): Design Management (pg. 36). It is preferable to start the Certificate in Design Management with CDDM 101 or CDDM 102.

★ Introduction to Design Management CDDM 101

This course is an introduction to the business of design. It explores the link between design and the managing of design business activities. It outlines the function of the design manager as the orchestrator of other professionals including designers, technologists, administrators, and marketers. Topics include leadership and team building; multidisciplinary alliances; client relationships; client/contractor contracts; the studio environment; corporate culture and organizational frameworks. (Equivalent to IDE 302.)

39 Hours Fee: $601.94

★ Design Management II CDDM 102

This course continues the study of the design manager’s function. Students will be presented with design as a project-based service industry. Topics include: study of regulatory and legal issues; professional affiliations; standards information; technology in design; opportunities and implications of a competitive global environment; effective project management; labour regulations; ongoing training and research; and developing career tracks. (Equivalent to one Professional elective from Table I, see Interior Design program in Undergraduate Program Calendar at www.ryerson.ca.)

39 Hours Fee: $601.94

★ Design Management Project CDDM 103

Prerequisites: Department consent

An independent or team-study program to pursue a specific case study about an important design-related decision at a specific firm. The project will be under the supervision of a faculty member on topics selected by the student(s) and approved by the instructor. Topics to embrace concepts related to design management. Topics might include design features; socially responsible design; environmentally compatible design; design and ethics; innovation in the organizational context, etc.

39 Hours Fee: $621.51

★ Design Awareness I CDDM 104

This course is an introduction to the fundamental aspects of design. It explores the various definitions and meanings of the word “design.” As design is a tool for examining our culture and our environment, this course may include topics such as: why we design as a response to meet needs; what affects design and what design affects; government, political, and corporate influences on design; universal design; ecologically responsible design; sustainability issues in design; and design in a global context.

39 Hours Fee: $621.51

★ Design Research CDDM 106

This course provides an opportunity for students to investigate a problem of critical interest to design management in any field of design specialization. It stresses individual study, self motivation, the skills required to research information, oral and written presentation. To prepare for the research, the course may include an introduction to design research: planning the research process, defining research objectives, data collection, analyzing data, sources of information, using databases, and presenting the findings. Students will define and investigate a problem with either a Ryerson faculty member, an independent consultant, or an industry supplier/manufacturer.

39 Hours Fee: $621.51

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
DIGITAL ENTREPRENEURSHIP INNOVATION

☆ Digital Skills and Innovation for the Global Economy CEID 100
This course will introduce students to the use of computers, the Internet, and an extensive set of digital tools in order to develop a working knowledge of digital technologies, and learn techniques for assessing various forms of knowledge media intended for a wide variety of disciplines. Students will be expected to explore and understand the appropriate use of digital technologies, critically review the role of technology and media in career development and the broader society, and to demonstrate understanding of how digital media can be integrated into their own projects and processes or those of the industry sector.

Note: For more information, please visit www.ryerson.ca/digitalskills.

39 Hours Fee: $834.72

DISABILITY STUDIES

Disability Studies focuses on society's definition of and response to disability. Students explore the social context and experiences of persons with disabilities. For information on the Certificate in Advancing the AODA: Principles and Practices of Accessibility, visit www.ryerson.ca/ce/aodacertificate.

Disability Studies
Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg. 16), Community Engagement, Leadership, and Development (pg. 29)

☆ A History of Madness CDST 500
Where do diverse concepts of “madness” come from? How have these ideas changed over time? How have “mad people” interpreted their own experiences? This course will be in the tradition of social history from “below”. It will survey the social medical, political, economic, cultural and religious factors that have influenced interpretations of what it means to be “mad” from ancient time to the present. (UL)

39 Hours Fee: $579.28

☆ Rethinking Disability CDST 501
This foundation course introduces the core ideas students will explore throughout their studies. It immerses students in a highly participatory and provocative encounter with history, social theory, politics, policy, art and culture seen through a disability lens. Course content is designed to reflect the experience of people with disabilities, highlighting the social roots and impact of discrimination, exclusion and marginalization as well as responses of resistance.

39 Hours Fee: $581.34

☆ Disability and the State CDST 502
Prerequisite(s): CDST 501 or CINT 902 or CSWP 921
This course begins with students' day-to-day experience of “policy”, moving towards deeper examination of the underlying values, interests and institutions that shape social and disability policy. Students are guided to make comparisons and connections, looking at historical responses to disability and at contemporary programs and services. Readings and online presentations explore what policy means, why it matters, and what processes and strategies are activated by people with disabilities to influence, shape and reform social policy.

39 Hours Fee: $581.34
DISABILITY STUDIES

Current Topics in Disability I CDST 503
This course will provide students with an opportunity to engage in an in-depth examination of specialized and scholarly work within the disability studies field. Content will be chosen by the Instructor based on recent research and trends in the field.
39 Hours Fee: $579.28

Mad People’s History CDST 504
This course will provide an overview of the history of madness from the point of view of people who were, and are, deemed “mad”. The purpose of this course is to place the diverse perspectives of people diagnosed as mad, insane or mentally ill as being of central importance in the history of psychiatry, and to address the question: how madness has been viewed by mad people over the centuries.
39 Hours Fee: $579.28

Making Ontario Accessible CDST 506
The Accessibility for Ontarians with Disabilities Act (AODA) mandates development of enforceable accessibility standards for businesses and organizations to identify, remove and prevent barriers to accessibility. This course is for those seeking specialized knowledge of the AODA, accessibility issues and implementation. It covers understandings of disability, issues giving rise to the Act, disability activism and a critical analysis of the new accessibility standards for customer service, built environments, employment, information and communications and transportation.
39 Hours Fee: $579.28

Rethinking Images of Embodied Difference CDST 525
Prerequisite(s): CDST 501 or CINT 902 or CSWP 921
This course critically examines representations of embodied difference in mainstream and other media. With particular attention to disability, it queries images from the news, on television, film and the web as they are embedded in the systems of ableist power, privilege and marginalization. To study these images is to reveal their ideological underpinnings, and their intrinsic connection to other categories of identity including class, race, gender, and sexual orientation.
39 Hours Fee: $579.28

Disability and The Law CDST 603
Prerequisite(s): CDST 501 or CINT 902
This course is constructed around ‘fact’ situations, illustrative of real-life dilemmas faced by disabled people, their families, advocates and service providers. How to find and use the law will be explored as will the often competing issues of independence, dignity, personal and economic security. Students will analyze when the law may help or hinder, and how it may be changed.
39 Hours Fee: $579.28

Current Topics in Disability II CDST 604
Prerequisite(s): CDST 501 or CINT 902
This course will provide students with a further opportunity to engage in an in-depth examination of specialized and scholarly work within the disability studies field. Content will be chosen by the Instructor based on recent research and trends in the field.
39 Hours Fee: $579.28

Strategies for Community Building CDST 613
Prerequisite(s): CDST 501 or CINT 902
This course addresses the importance of community building given the realities of social exclusion and the challenges represented by diversity in the current social, political and economic context in Canada. The starting point is the particular view of reality held by people with disabilities. Students are encouraged to analyze power, inequality and influence before building strategies for action, and to develop a personal ethical stance in which to ground community development practice.
39 Hours Fee: $579.28

Community Access and Technology CDST 614
Prerequisite(s): CDST 501 or CINT 902
Students are introduced to assistive technologies, their impact on people with disabilities, models of use, public policy and legislation (local, federal, international). In addition to online readings and exploratory assignments, students participate in online discussion forums and live weekly e-chats with leaders in the assistive technology field. The final project offers students an opportunity to explore a technology of interest in the context of addressing an unmet need or burning issue in their community.
39 Hours Fee: $579.28

The Politics and Practice of Interventions CDST 725
Prerequisite(s): CDST 501 or CINT 902
In recent years, interventions directed at disabled people have been the subject of debate, controversy and resistance. This course explores these tensions by tracing various approaches to creating change in the lives of disabled people. Students will use sociological analysis, theories of disability/difference, autobiographical knowledge and consultation to critique examples of contemporary interventions and to explore potentially more positive alternatives.
39 Hours Fee: $579.28

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Leadership in Human Services  
**CDST 726**  
*Prerequisite(s): CDST 501 or CINT 902  
Antirequisite(s): CDST 727*

This course illuminates many challenges that leaders and managers of human services face in a changing environment. It incorporates theoretical and practical elements rooted in the perspective that people supported by human services require opportunities to lead dignified lives and the means to exercise personal choice, control and independence. Students will examine the complex issues raised when those receiving services, managers, and activists interact to design, organize and change traditional models of delivering services and supports.

39 Hours  
Fee: $579.28

Leadership for Social Action  
**CDST 727**  
*Prerequisite(s): CDST 501  
Antirequisite(s): CDST 726*

This course looks at leadership theory and the challenges of leading in neo-liberal times. It touches on political discourse, public policy and the legislative process. It examines the problem of working across differences and complicates empowerment. Students will meet and talk with leaders from social movements. By the time students complete their assignments, they should be able to imagine themselves as leaders and be better able to assist disabled people in becoming leaders.

39 Hours  
Fee: $579.28

Talking Back to Psychiatry  
**CVDS 100**  
*Prerequisite(s): Department consent*

This workshop investigates the history of the consumer/survivor/ex-patient movement. Workshop participants will follow the development of the movement from the late 60s to the present.

*Note: See Presenting the consumer/survivor/ex-patient movement (www.youtube.com/user/ChangSchool#p/u/3/9uTbEBPkAAk), a video in which workshop instructor David Reville (School of Disability Studies) uses a six-part metaphor to frame the origins, activities, and politics of the movement.*

9 Hours  
HST included  
Fee: $116.39

AODA Capstone Synthesis  
**CVDS 200**  
*Prerequisite(s): Department consent*

This course is individually tailored to students’ learning objectives and brings together and deepens the skills and knowledge garnered in the preceding AODA: Principles and Practices of Accessibility certificate courses. It provides opportunities for students to engage in focussed, scholarly, and project work from a disability studies perspective.

*Note: This course is taken after all other requirements within the Certificate in Advancing the AODA: Principles and Practices of Accessibility.*

Students are encouraged to contact the academic coordinator, Charles Silverman, at csilverman@ryerson.ca to plan their capstone enrollment.

39 Hours  
Fee: $597.82

Certificate in Advancing the AODA: Principles and Practices of Accessibility  
(See page 16 or www.ryerson.ca/ce/aodacertificate.)

As the former cabinet minister who authored the AODA, I am proud to be part of this university community. In offering this program, The Chang School is furthering a deeper understanding of accessibility issues. This critical knowledge and skill development will foster accessibility initiatives and enhance civic engagement in Ontario.

Dr. Marie Bountrogianni  
Dean, The G. Raymond Chang School of Continuing Education
DISASTER EMERGENCY MANAGEMENT

This program is designed for existing and aspiring disaster management and emergency services professionals and first responders who wish to upgrade their education, pursue career opportunities, or perform volunteer work. Courses provide broad knowledge, case studies, and hands-on application within the local, provincial, federal, and international sectors of disaster and emergency response.

Disaster Emergency Management

Related certificate(s): Disaster and Emergency Management (pg. 37)

Principles and Practices of Emergency Management CKDM 100
This course provides an introduction to the basic concepts of emergency management with core elements common to all provinces and territories across Canada. A series of principles will be introduced with reference to current practice. This course provides an introduction to the legal basis for Emergency Management nationally, regionally, and locally. The course is designed for participants from all levels of government, emergency measures/management coordinators, and/or planners, emergency responders, volunteers, private sector representatives, etc.
39 Hours Fee: $755.00

Project Management in Disaster Recovery CKDM 105
This course introduces students to the theory and practice of project management and its applicability to disaster recovery and disaster reconstruction. It takes a problem-solving approach to planning, budgeting, implementing, and completing small and large-scale projects. Numerous disaster recovery case studies will be used to ensure ease in applying course knowledge to real-life situations.
39 Hours Fee: $755.00

Law of Disaster and Emergency Management CKDM 110
This course sets out the legal framework for emergency management in Canada. Students involved in emergency management will understand their own legal duties and powers as well as those of others. The primary legislation requiring the preparation of emergency management systems for government and private sector entities will be examined in depth.
39 Hours Fee: $755.00

Intl Policies and Disaster Coor CKDM 115
This course analyzes different international and local agency participants’ disaster responses, existing systems, and institutions. National and international policies, laws, and best practices as they apply to approaches to international disaster response coordination are interpreted through case studies from different countries and jurisdictions. It builds competencies for disaster coordination of operations on an international level and applies the learnings to case studies and simulations of cross-border disaster coordination projects across governmental, international, and nonprofit organizations.
39 Hours Fee: $755.00

Emergency Operations and Incident Management CKDM 120
Prerequisite(s): CKDM 100
This course prepares emergency management practitioners to carry out their roles as members of an Emergency Operations Centre (EOC) team. This course presents strategies for effective management and coordination of overall operations within their communities during a multi-service response to an emergency. In addition, participants will be introduced to the Incident Command System that provides responders and supporting agencies with a standardized method of managing any kind of emergency incident.
39 Hours Fee: $755.00

Course Series in Survival in Urban Disasters and Emergencies
(See page 121.)
Critical Analysis of Operations  
**CKDM 130**

In this course students will gain an understanding of Operations in relation to EM practice. The range of potential actions is introduced during the pre-impact and impact phases of an emergency. Current legislation, emergency prevention, communications during emergencies, current pre-impact arrangements, the roles, responsibilities, and authority of the Emergency Services and specifically what actions could be taken during the impact phase of an emergency/disaster will be discussed in relation to several case studies.

39 Hours  Fee: $755.00

Emergency Management Planning  
**CKDM 140**

This course introduces emergency management planning. It examines the planning process, the specification of emergency management needs, resource availability, needs ratification, organizational design, the selection of emergency management strategies, and planning implementation.

39 Hours  Fee: $755.00

Risk Management  
**CKDM 150**

This course presents the principles, structures, and processes of risk management. Methods for applying general risk management theory, best practices and resources to the different phases of emergency management will be discussed. Emphasis is placed on the application of risk management strategies in mitigating and preparing for disasters and major emergencies.

39 Hours  Fee: $755.00

Emerging Issues  
**CKDM 160**

This capstone course is intended as a synthesis of emergency and disaster management concepts and perspectives learned in the previous courses taken in the program and applied to a real-world area of interest. Students will create an original report based on a project they select. Working with a faculty supervisor, participants will define a project topic. Project topics can come from a wide variety of areas but must be executed with an Emergency Management perspective.

Note: This is a project-based, independent study course.

39 Hours  Fee: $755.00

EARLY CHILDHOOD STUDIES

These courses introduce you to the challenging field of early childhood education. Whether working with children who have special needs or those from different ethnic-racial backgrounds, diversity is key. Those who flourish in the field know that teaching, assessing, and guiding children begins with an understanding of the Canadian cultural mosaic. Early childhood educators’ contribution to society is immeasurable. For more information, visit [www.ryerson.ca/ce/ecs](http://www.ryerson.ca/ce/ecs).

Early Childhood Studies

This direct entry program for ECS diploma graduates from the CAATs builds on students’ knowledge of child development and curriculum. For further information on courses, prerequisites, and admission to the ECS degree program, call the School of Early Childhood Studies at 416.979.5306 or visit [www.ryerson.ca/ce/ece](http://www.ryerson.ca/ce/ece). Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg. 16)

Psychomotor Development  
**CCLD 204**

This course focuses on the psychomotor development of children from conception to the middle childhood years. Theories, models and current research of motor behavior and development are investigated. An explanation of the stages of physical growth and changing body images of the young child enables students to think through teaching strategies and to prepare age and level-appropriate motor activities for young children. (Formerly ECE 250).

Note: This course is only available to ECME students; please contact the Academic Coordinator, Jennifer Butterly, at jennifer.butterly@ryerson.ca for more information.

39 Hours  Fee: $591.64

Children’s Social/Emotional Well-Being  
**CCLD 205**

Social and emotional aspects of children’s well-being are explored through critical analysis of theories and research on the topics of attachment, temperament, aggression, gender identity, dimensions of parenting, and self and social cognition. The course takes into account contemporary theories of childhood that acknowledge children’s role in shaping their well-being while confronting a variety of environmental stresses (e.g. bullying, abuse, family conflict). Students learn strategies deemed to support children’s positive well-being and adaptation to life’s challenges.

Note: This course is only available to ECME students; please contact the Academic Coordinator, Jennifer Butterly, at jennifer.butterly@ryerson.ca for more information.

<td>Language Development</td>
<td>CCLD 206</td>
<td>(CLD 103 and CPSY 102) or Direct Entry</td>
<td>The course explores the nature of language development in children. Biological endowment and environmental factors are considered. Language acquisition from fetal sound sensitivity to language behaviors of school-age children is investigated. Acquisition of the subsystems of language along with bilingualism and minority language contexts are explored. Stages in child language are identified and theories and current research on child language are examined. Students are introduced to methodologies, tools and strategies of child language research. Opportunity is provided for the collection and analysis of language data. Note: This course is only available to ECME students; please contact the Academic Coordinator, Jennifer Butterly, at <a href="mailto:jennifer.butterly@ryerson.ca">jennifer.butterly@ryerson.ca</a> for more information.</td>

<tr>
<td>Cognitive Development</td>
<td>CCLD 307</td>
<td>Direct Entry</td>
<td>This course provides students with an in-depth investigation of theoretical, empirical and practical perspectives in how children think from birth to middle childhood. Theories will be examined critically and evaluated for their contributions and limitations to today's early childhood classroom. Critical analysis will include a consideration of how theories are tested in current research and how they are applied in education. Topics will include perception and the importance of movement in the development of thinking, symbolic representation, problem-solving and social cognition.</td>
<td>39</td>
<td>$759.16</td>
</tr>
<tr>
<td>Literacy in the Early Years</td>
<td>CCLD 314</td>
<td>CLD 212 or Direct Entry</td>
<td>This course examines literacy learning for children birth through 8 years in the context of equity, social justice and diversity. Students examine theoretical foundations of early literacy learning including: ways to develop oral and print literacy, family literacy practices, home languages, book genres, approaches to teaching and learning and strategies for critical literacy. Concepts of multimodalities and multiple literacies are explored to broaden the notion of what is literacy in the 21st century.</td>
<td>39</td>
<td>$759.16</td>
</tr>
<tr>
<td>Creative Arts II</td>
<td>CCLD 315</td>
<td>CLD 215 or Direct Entry</td>
<td>Building upon Creative Arts I, this course emphasizes strategies, methods and activities for young children in music, movement and drama. Theories of the development of aesthetic sensibility and creativity in young children are explored and applied to the study of the theoretical bases for music education and global musical traditions. Music, movement, and drama education programs are critically analyzed along a number of dimensions to develop a philosophy and approach to music, movement and drama education.</td>
<td>39</td>
<td>$575.16</td>
</tr>
<tr>
<td>Concept Development in Math</td>
<td>CCLD 317</td>
<td>CLD 212 or Direct Entry</td>
<td>Students examine how young children ages birth to 8 understand and engage in mathematical knowledge, concepts and processes. Students explore and critique different theories of mathematical approaches to learning, such as inquiry-based models. Experiences designing and teaching lessons, creating physical and social environments to promote mathematical thinking, and assessing children's' knowledge and skills encourage positive attitudes toward mathematics in the learning environment.</td>
<td>39</td>
<td>$759.16</td>
</tr>
<tr>
<td>Research I: Methods</td>
<td>CCLD 322</td>
<td>CPSY 102 or Direct Entry</td>
<td>This course provides students with an understanding of scientific research methods as they relate to the field of early childhood education. The course examines a variety of quantitative and qualitative methodologies and covers the various components of research from the formulation of research questions to the analysis and interpretation of data. (Formerly ECE 303).</td>
<td>39</td>
<td>$759.16</td>
</tr>
<tr>
<td>Research II: Applications</td>
<td>CCLD 323</td>
<td>CCLD 322</td>
<td>This course extends and applies the materials covered in Research I. Students formulate, carry out, write up, and present a research project of their own design in the field of early childhood education. Students also have the opportunity to analyze and critique each other's projects and to evaluate a variety of research approaches. (Formerly ECE 306).</td>

</table>
Families in Canadian Context II  
CCLD 332  
Students examine diversity in race, ethnicity and culture within Canadian society and move toward an understanding of how these factors shape family values, family forms, child rearing and parenting practices, and family expectations for their children. They examine the potential for conflicting expectations between families and educators/caregivers from the dominant culture. Concepts of race, racism, and ethnic relations are studied in the context of globalization, migration, refugee and settlement experiences. Policies, practices and legislation on immigration and settlement are also examined. Students engage with a family in the community as part of the course. (Formerly ECE 302).  
39 Hours  
Fee: $575.16

Assessment for Programming  
CCLD 342  
Prerequisite(s): CLD 241 or Direct Entry  
This course examines approaches to assessment and evaluation of children's development with attention to children with disabilities and children-at-risk, from birth to eight years. Students use formal and informal screening and assessment tools to develop individualized programming for young children, to address a range of developmental needs in a variety of early childhood settings. A conceptual framework for assessment and programming skills in designing an individual program plan are concrete outcomes of this course. (Formerly ECE 316).  
39 Hours  
Fee: $575.16

Field Education III  
CCLD 363  
Prerequisite(s): CCLD 241 and CLD 262 or Direct Entry; Corequisite(s): CCLD 342  
In their third on-campus or off-campus placement, students continue to apply their knowledge and skills working with children who may have identified special needs. These placements are primarily inclusive settings such as the Ryerson Early Learning Centre and Gerrard Resource Centre, early childhood care and education settings and primary classrooms. Students may also be placed in specialized programs devoted to children with specific exceptionalities. Students assess and focus on planning and implementing learning activities that are developmentally appropriate and adapted specifically to address the child’s extra support needs, special needs and learning styles and developing supportive relationships with families and the community, and working with colleagues. The on-campus seminar component of the course supports the students’ placement experience.  
Note: Placements are available in fall, winter, and spring/summer terms. For scheduling information, visit www.ryerson.ca/ecs. Students must attend a mandatory information session and obtain permission of the School of Early Childhood Studies. The School will enroll students directly. Students must meet published criteria to be eligible for distance option.  
39 Hours  
Fee: $579.28

Concept Development in Science  
CCLD 415  
Prerequisite(s): CLD 212 or Direct Entry  
This course employs a project-based approach to the exploration of how young children develop skills and concepts in science. Students learn about scientific thinking, how to encourage science exploration, and how to support children's scientific inquiry from various perspectives, including Aboriginal, constructivist, reconceptualist, and the Reggio Emilia approach. Students will learn about design and creation of learning environments, projects and assessment tools that advance children's knowledge and skills development.  
39 Hours  
Fee: $579.28

Children and Technology  
CCLD 419  
Prerequisite(s): CLD 212 or Direct Entry  
Antirequisite(s): ECE 912  
This course will entail an exploration of various knowledge media in early childhood education. Students will examine the use of computers in teaching and learning, develop a basic working knowledge of computers and online technologies, and learn techniques for assessing various forms of knowledge media intended for ECE educators and children from infancy to age 8. The goal is to engage in the process of rethinking technology in relation to teaching and learning with young children.  
Note: Enrollment in this course is restricted to undergraduate students of the Ryerson School of Early Childhood Studies and those with instructor permission. If required, email jnolan@ryerson.ca for approval.  
39 Hours  
Fee: $579.28

Children and Nature  
CCLD 420  
Prerequisite(s): CLD 212 or Direct Entry  
This course explores the significance of the relationship of the child to the natural world and introduces students to a pedagogical approach which involves environmental inquiry. Course content includes historical and cross-cultural overviews of our relationship to nature; the psychological significance of nature; the impact of exposure to the natural environment on children’s values, attitudes, learning, and behaviour; and therapeutic uses of nature. In this course, students will also be involved in designing curriculum materials or environments for children which have a specific emphasis on incorporating the natural world.  
39 Hours  
Fee: $579.00
☆ Infant Mental Health CCLD 442
Prerequisite(s): (CLD 231 and CCLD 342) or (Direct Entry and CCLD 342)
This course builds on previous child development courses for a detailed examination of the development of infants and toddlers. Students explore applications of developmental theory to identify and assess infants and toddlers, including those who may benefit from early intervention. Family empowerment intervention models are studied for all families with infants and toddlers. Cultural and economic contexts are stressed to assure responsiveness to diverse family models. (Formerly ECE 210).
39 Hours Fee: $579.28

☆ Therapies for Young Children CCLD 444
Prerequisite(s): CCLD 342
Students critically examine the theoretical foundations for therapeutic interventions. A range of intervention models and applications of techniques are explored including therapies in play, art, music, drama and language.
39 Hours Fee: $575.16

☆ Inclusion and Consultation CCLD 445
Prerequisite(s): CCLD 342
This course examines the changing paradigms of service delivery in early intervention and special education for young children with special needs and their families. Inclusive models of service delivery are explored including collaborative and consultative models currently in use in infant development programs, group child care centers, family day care homes and early primary classrooms. Students consider educational change processes, consultation skills, public policy, interdisciplinary team collaborations, and teaching strategies in inclusive classrooms.
39 Hours Fee: $579.28

☆ Policy in ECEC CCLD 454
Prerequisite(s): CPOL 220
This course relies on a critical examination of discussion papers, research, and journal and media articles that are relevant to current policy issues and topics in the ECEC. Classroom discussions and debate expose students to alternative perspectives and provide practice in analyzing and communicating the values underlying points of view, recognizing inherent biases, and forming judgments based on evidence.
39 Hours Fee: $579.28

☆ Equity Issues in Ontario ECE CCLD 447
Prerequisite(s): Prequisite: CCLD 332 Antirequisite(s): CCLD 448
This course examines theories of childhood, community development, and educational equity in the context of Canadian society. The course focuses on four distinct communities in the province of Ontario; English, French, migrant and Aboriginal populations. The course examines social policy, curriculum, health and education for social development in both early childhood and school settings.
39 Hours Fee: $609.15

☆ Childhood in a Global Context CCLD 448
Antirequisite(s): CCLD 447
This course examines international perspectives on theories of childhood and community development. Topics in the course include international funding of early childhood programs, global migration, Indigenous education, international organizations working in development and advocacy, and other topics identified by the instructor. The course examines social policy, curriculum, health and education for social development in both early childhood and school settings.
39 Hours Fee: $609.15

☆ Children and Chronic Illness CCLD 446
Prerequisite(s): CCLD 342 or CYC 605
This course examines the impacts of chronic illness on the development of young children. Theoretical frameworks and current research from developmental pediatrics are explored and critically evaluated. Specifically, young children’s adaptation to illness and hospitalization will be analyzed through case study examples and problem solving exercises. The role of the child life specialist and evidence-based practice is addressed with particular emphasis on interventions aimed at ameliorating the impact of illness.
39 Hours Fee: $609.15

☆ Indigenous Early Learning CCLD 450
Students explore issues confronting Indigenous children and their families in Canada. Indigenous perspectives on the origins of these issues and the current environment are examined in the context of Indigenous self-determination. Course work focuses on issues from a national, provincial, and local perspective with discussions about world view, history, families, policy, and jurisdictional issues.
39 Hours Fee: $609.15
**Senior Internship**  
*CCLD 464*

Students choose from three options: a field placement, a research/development project or an international/out-of-province placement. All options emphasize students’ development as an emerging professional. For field placement, students select an area of specialization within the broad scope of their studies. For the international/out-of-province field placement, students select a placement outside of the country/province. The research/development project offers students the opportunity to design and complete an original project.

*Note: Placements are available in fall, winter, and spring/summer terms. For scheduling information, visit www.ryerson.ca/ecs. Students must attend a mandatory information session and obtain permission of the School of Early Childhood Studies. The School will enroll students directly. Students admitted prior to 2005 are required to complete CCLD 262 prior to CCLD 464. Students must meet published criteria to be eligible for distance option.*

39 Hours  
Fee: $579.28

---

**ECONOMICS**

These courses offer you the opportunity to become competent in economic analysis and the application of economics to national and international problems.

**Economics**

Related certificate(s): Business Management (pg. 26), Demographic Analysis (pg. 34), Economics (pg. 38), Economics and Finance (pg. 39), Energy Management and Innovation (pg. 40), Ethics (pg. 46), Financial Planning (pg. 53), Public Administration and Governance, Advanced (pg. 94), Social Sciences and Humanities Foundations (pg. 101), Sustainability Management and Enterprise Process Excellence (pg. 104)

---

**Introductory Microeconomics**  
*CECN 104*

This course is concerned with basic concepts of demand and supply, the theory of the firm, and distribution of income. It includes a study of business behaviour and decision making under various market conditions: pure competition, oligopoly, monopolistic competition, monopoly.

39 Hours  
Fee: $581.34

---

**Canadian Economic History**  
*CECN 105*

The aim of this course is to acquaint the student with the major economic events in our history. The course will have two prominent themes. The first of these is the importance of staple production to the national economy. Since, for the most part the choice of which staple to produce at a given time was dictated by international market forces, the development of each staple product, i.e. cod, fur, lumber, is analyzed within an international framework. The second theme of the course is the development of modern industrial sectors since 1850. Restriction: Criminal Justice, Politics and Governance, Psychology, Sociology, Undeclared Arts. ECN 105 is not available for credit to students who choose ECN 509. (LL)

39 Hours  
Fee: $581.34

---

**The Economics of Markets**  
*CECN 110*

The course deals with the emergence, concepts, and applications of market economics. It first discusses developments that gave rise to the market system, followed by an analysis of the basic concepts that are essential for understanding markets. These include the concepts of opportunity cost, demand and supply, market structure and market failure. Various market applications to Canadian economic and social issues will be examined, ranging from the economics of big business to the economics of sports, crime, education, and health. ECN 110 is not available for credit to students who choose ECN 104. (LL)

39 Hours  
Fee: $581.34

---

**Early Childhood Studies (ECS)**

Build on the knowledge and skills you have gained through previous academic studies and personal and professional experience, while developing a more analytical approach to ECS practice. The part-time direct-entry program in ECS will expand your understanding of your role as an early childhood educator within a broader field of associated professions.

Learn more at www.ryerson.ca/ce/ecs.
Statistics for Economics I  CECN 129  
Prerequisite(s): CECN 189 or MTH 189 or ECN 89A/B

This course is an introduction to basic statistics with economic applications. It is followed by a course on Statistics for Economics II, CECN 329. Statistics is a science of getting information from data. It consists of a set of analytical techniques that can be applied to data to help us make judgments and decisions in problems involving uncertainty. This course deals with the description, analysis and interpretation of data. It covers topics in descriptive statistics, basic probability theory, discrete and continuous distributions, and sampling distributions.

Note: Students enrolled in one of the following Chang School certificates may substitute CMTH 140 for the CMTH 189 prerequisite: Economics, Industrial Organization and Policy, Introductory International Economics, Macroeconomic Theory and Policy, Microeconomic Theory and Policy, or Quantitative Economics.

39 Hours  Fee: $581.34

Introduction to Mathematics for Economics  CECN 189

ECN 189 is an introduction to fundamental mathematical techniques which are frequently used in Economics. The first part of the course covers some basic concepts such as sets of numbers, relations and functions (in particular, quadratic, exponential and logarithmic functions), and linear and nonlinear equations. The second part of the course deals with differential calculus: limits, continuity, single-variable differentiation, and optimization.

65 Hours  Fee: $765.71

Introductory Macroeconomics  CECN 204  
Antirequisite(s): CECN 210 and FMG 305

This course centres around an explanation of levels of national income, employment and prices, the business cycle, factors affecting economic growth and international trade. It also includes a critical analysis of monetary and fiscal policies designed to achieve the established goals.

39 Hours  Fee: $581.34

European Economic History  CECN 205  
Antirequisite(s): CECN 809

This is a survey course of European economic history from the fall of the Roman Empire to World War II. The course is divided into two parts. The first focuses on the economic decline of the Roman Empire and how it set the stage for the manorial economy of the Middle Ages. Also, this section covers the economic revival after the Medieval period up to the middle of the eighteenth century. The second part of the course looks at the Industrial Revolution in England, and its diffusion throughout continental Europe. ECN 205 is not available for credit to students who choose ECN 609. (LL)

39 Hours  Fee: $581.34

Inflation and Unemployment in Canada  CECN 210  
Antirequisite(s): CECN 204

The course focuses on various economic theories that emerged after the Great Depression which emphasize economic performance and government policy. It examines how the Canadian economy works, and how the major problems of unemployment and inflation can be dealt with. The course also analyzes a range of economic issues such as poverty and income distribution, deficits and debts, free trade and trading blocks, capital mobility and exchange rate movements, and the role of government. ECN 210 is not available for credit to students who choose ECN 204. (LL)

39 Hours  Fee: $581.34

Evolution of the Global Economy  CECN 220

This course is a survey of the economic development of the global economy since 1914, covering such factors as trade, migration, investment and monetary arrangements, and the role played by international institutions. The course will include an analysis of the impact on the international economy of twentieth century developments, such as the Great Depression, the two world wars and the globalization of financial markets. Particular emphasis will be placed on the operation of post-war institutions, such as the I.M.F., G.A.T.T. and the W.T.O., and how they affect the global economy.

39 Hours  Fee: $581.34

Mathematics for Economics  CECN 230  
Prerequisite(s): CECN 189 or MTH 189 or ECN 89A/B or CQMS 702

This course introduces the students to mathematical topics beyond the high school calculus. It reviews differential calculus, then introduces topics such as basic matrix algebra, constrained optimization, comparative statistics for general function modes, and their application in economics.

39 Hours  Fee: $572.07

Intermediate Macroeconomics I  CECN 301  
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry

The aim of this course is to provide a comprehensive overview of both traditional and modern macroeconomic theories and their use in analyzing important economic issues, such as unemployment, inflation, interest rates, business cycles and government policies. Theories will be discussed in the context of Canadian macroeconomic data and active government involvement through the implementation of monetary and fiscal policies.

39 Hours  Fee: $562.80
★ Introduction to Financial Economics CECN 320
This course is designed to give students an understanding of financial concepts, including the time value of money, discounted cash flows, and risk and returns. It is also designed to give the students an introductory understanding of financial markets and how they are influenced by economic trends.
39 Hours Fee: $562.80

★ Introduction to Law and Economics CECN 321
Prerequisite(s): CECN 104 or Direct Entry
Economic aspects of social and legal issues and policies in regional, national and international contexts: property, contracts, torts, environmental law, and the economics of crime and punishment.
39 Hours Fee: $562.80

★ Statistics for Economics II CECN 329
Prerequisite(s): CECN 129; Co-requisite: CECN 230
ECN 329 is a continuation of the topics covered in ECN 129, Statistics for Economics I. It includes such topics as estimation, hypothesis testing, inferences, analysis of variance, simple regression and multiple regressions, and model building.
39 Hours Fee: $562.80

★ Economic Systems in the New World Economy CECN 330
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry
Economic activity can be organized in a variety of ways. Even amongst predominantly market economies, there exists a wide spectrum, ranging from those economies that operate with a minimum of government intervention to those with strong guidance from the government. The course investigates most of the various economic systems now in existence and the changes occurring in them. The roles of governance and market failures are explored in both local and global markets.
39 Hours Fee: $558.68

NEW
★ The Economics of Human Behaviour CECN 340
This course investigates human behaviour from an economic perspective. Among the topics we analyze is the economics of religious behaviour and the afterlife, sexual behaviour, marriage and divorce, crime, mass hysteria and panics, suicide and dying, emotions, and the economics of sports. We also consider other ways of looking at human behaviour. You do not require previous training in economics, and the materials are not technical. (LL)
39 Hours Fee: $562.80

★ Booms, Busts, Panics and Manias CECN 440
This course addresses a historical tendency for the financial and stock markets to exhibit periodic unstable cycles or speculative booms, followed by market downturns, instability or in the extreme, total collapse. These patterns of cyclical behaviour are illuminated by focusing on crises, beginning with the Tulip Mania. The South Seas Bubble, the 1929 Crash, the dot.com collapse and the more recent financial crisis are included. Current economic issues, whenever applicable, will be presented and examined in the light of these case studies. (LL)
39 Hours Fee: $624.60

★ Industrial Organization CECN 501
Prerequisite(s): CECN 504
The first half of this course examines how industries are organized; how the conduct of firms is influenced by their internal organization and by the structure of the industry of which they are a part; and how an industry’s performance is determined by the conduct of its firms and by the industry’s structure. The second half of this course deals with public policies towards industry: competition policy, economic regulation, public enterprise.
39 Hours Fee: $562.80

★ Economics of Natural Resources CECN 502
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry
This course deals with the application of basic economic concepts to the problems of natural resources and with Canadian public policy issues in natural resources management. Topics covered in the course include: the resource sector and its impact on the Canadian economy, models of renewable and non-renewable resource use, the scarcity controversy, economic rents and taxation as applied to natural resources, and current issues in Canadian resource management.
39 Hours Fee: $562.80

★ Economic Development CECN 503
Prerequisite(s): CECN 104 or CECN 110 or CECN 204 or CECN 210 or Direct Entry
This course describes the challenges faced by developing economies, with a specific emphasis on persistent world poverty. In this course we will take up questions such as: Is extreme poverty a thing of the past? What is economic life like when living under a dollar per day? Are the poor always hungry? How do we deal with the disease burden? How do we make schools work for poor citizens? We shall also study the role of markets, government and non-governmental organizations in fostering economic development. This course will give the students a good idea of the key questions asked by scholars interested in development and poverty today, and possibly a few answers as well. (UL)
39 Hours Fee: $562.80
- **Intermediate Microeconomics I**  
  CECN 504  
  Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry  
  A more detailed study of price theory, this course looks at the production decisions of firms and the consumption decisions of households. It gives an introduction to risk and uncertainty. It examines how the decisions of all the independent economic agents are co-ordinated by the price-system in purely competitive markets. The course also gives a variety of applications of micro-economic theory.  
  39 Hours  
  Fee: $562.80

- **Issues in Canadian Labour Markets**  
  CECN 505  
  Antirequisite(s): CECN 605  
  This course deals with selected contemporary issues in Canadian labour markets. The first part of the course begins with the standard economics of labour supply and demand, as well as the major critiques and alternatives. The course also looks at wage structures, geographic labour mobility, the presence of labour unions, the increasing participation of women, the question of discrimination in labour markets, and the debate over the effects of free trade on employment patterns. ECN 505 is not available for credit to students who choose ECN 605. (UL)  
  39 Hours  
  Fee: $562.80

- **Money and Banking**  
  CECN 506  
  Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry  
  The role of money in the economic system is emphasized along with current monetary theories. Also examined are the purpose, structure and regulations of the chartered banks and other financial institutions. By monitoring developments in the money market, especially changes in key interest rates, students may assess monetary initiatives of the Bank of Canada.  
  39 Hours  
  Fee: $562.80

- **Economy and Environment**  
  CECN 511  
  Antirequisite(s): CECN 510  
  This course looks at the relationship between the economy and the environment. It discusses how economics can help identify key issues in environmental problems. Economic concepts are used to shed light on solutions to the problem of pollution, the management of common property, and the possibility of sustainable development. (UL)  
  39 Hours  
  Fee: $562.80

- **Intermediate Macroeconomics II**  
  CECN 600  
  Prerequisite(s): CECN 301  
  An advanced study of the determinants of aggregate demand and the structure of Keynesian and new classical models. Policy issues covered include effectiveness of stabilization policies in an open economy, crowding out, choice of monetary policy instruments, and monetary policy and the exchange rate.  
  39 Hours  
  Fee: $562.80

- **The Economics of Information**  
  CECN 601  
  Prerequisite(s): CECN 504  
  In this course we shall analyze different economic situations involving imperfect information. A brief introduction to game theory and market structure will be provided. The topics of the course will include: signaling and screening in the job market, adverse selection and the market for lemons (as applied in the market for used cars), the value of information in a strategic conflict, notions of individual rationality and incentive compatibility, sharecropping, interlinked contracts, and public goods (Groves-Clarke).  
  39 Hours  
  Fee: $562.80

- **Canada and Global Economic Issues**  
  CECN 603  
  Prerequisite(s): CECN 104 or CECN 110 or Direct Entry  
  This course deals with the analysis of economic and social issues which confront Canadian citizens and policy makers. The course focuses on how economics can illuminate some of the social and economic issues that Canadians believe are important. The course involves standard economic techniques (micro and macro), to examine selected issues. This is an upper level course and microeconomic theory will be used extensively. Economic concepts will be reviewed as required. (UL)  
  39 Hours  
  Fee: $562.80
★ Labour Economics CECN 605
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry
Antirequisite(s): CECN 505
This course aims to introduce students to basic labour economics, with particular reference to the Canadian case. This course draws on contemporary methods to model and analyse key aspects such as labour supply and demand behaviour. These aspects are combined to explore the determination of wages and major policy questions such as minimum wage legislation and unionization. The acquired tools are applied to special topics such as human capital investment, immigration, gender discrimination and unemployment.
39 Hours Fee: $562.80
★ International Monetary Economics CECN 606
Prerequisite(s): CECN 301
Antirequisite(s): CECN 607
International monetary economics is devoted to the study of large-scale economic problems in interdependent economies. The focus is on key economic variables such as exchange rates, prices, interest rates, income, wealth, and the current account. Core topics include foreign exchange markets, exchange rates in the short run and the long run, the national and international accounts, the open economy IS-LM model, fixed and floating exchange rate regimes, gains from financial globalization, exchange rate crises and the operation of pegs, and the euro.
39 Hours Fee: $562.80
★ Issues in the International Economy CECN 607
Antirequisite(s): CECN 606
This course deals with international financial markets and the ways in which they affect national economies. By studying the operations of these markets it will be shown how significantly they constrain domestic policy-making, not only in a small open economy like Canada’s but increasingly in all other economies as well. Attention is given to issues of current political concern, such as the Third World debt problem, the American trade deficit, the rise of Japan as a major international creditor, and the disintegration of the Communist system in Eastern Europe. ECN 607 is not available for credit to students who choose ECN 606. (UL)
39 Hours Fee: $562.80
★ Topics in Economic History CECN 609
Prerequisite(s): CECN 301 and CECN 504; Antirequisite(s): CECN 105 and CECN 205
The central focus of this course is institutions and organization and how these impacted technological change and economic growth in different periods. Among the topics we investigate are: cross-country differences in long-term economic growth and competing explanations for the divergent outcomes; migration and its impact on economic development and growth; the role of property rights, such as patent laws, and their effect on innovations and economic growth; the development of financial institutions and economic growth; and international trade and economic development. (UL)
39 Hours Fee: $562.80
★ An Introduction to Game Theory CECN 614
Prerequisite(s): CECN 700
Game theory studies the interactions and conflicts between decision-making agents. This course focuses on its application to economic issues such as market structure, auctions and bargaining. It begins by introducing the concepts of action, strategies, cooperation and non-cooperation, and equilibrium. The assumption of complete information is then relaxed and the application of game theory to situations of incomplete and imperfect information is explored. The course draws on real world examples to illustrate core concepts, such as the Prisoner’s Dilemma and buying votes. These examples borrow from micro, macro and experimental economics.
39 Hours Fee: $562.80
★ Econometrics I CECN 627
Prerequisite(s): CECN 329 or QMMS 442 or QMMS 703 or CMTH 404
This course is an introduction to econometrics. The main topics of the course are the linear regression model, its estimation and inference. Other topics include heteroskedasticity, endogeneity, and instrumental variable estimation.
39 Hours Fee: $556.62
★ The Economics of Immigration CECN 640
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry
This course applies economic principles to immigration. Students will examine issues such as discrimination, humanitarian concerns, the impact on the wages and employment prospects of native-born persons, social assistance programs, and contributions to the financing of such programs. The course will develop an understanding of the role of economics in providing theoretical predictions and empirical evidence that is relevant to the issues. Students will be equipped to discuss emerging new issues in this area.
39 Hours Fee: $562.80

<th>Code</th>
<th>Prerequisites</th>
<th>Description</th>
<th>Hours</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Intermediate Microeconomics II</td>
<td>CECN 700</td>
<td>Prerequisite(s): CECN 504</td>
<td>The purpose of the course is to examine production functions, cost minimization and profit maximization decisions of firms under different types of market structures. Price theory to the market structures of monopoly, oligopoly, and monopolistic competition will be extended. Markets for factors of production will be examined as well. This course will give an introduction to game theory as well.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>39 Hours Fee: $562.80</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Econometrics II</td>
<td>CECN 702</td>
<td>Prerequisite(s): CECN 627</td>
<td>This course is a continuation of ECN 627 and covers some advanced econometric methods. The main topics of the course include economic methods designed for panel data sets, estimation of discrete choice models and time series analysis.</td>
<td>39</td>
<td>$562.80</td>
</tr>
<tr>
<td>Public Sector Economics</td>
<td>CECN 703</td>
<td>Prerequisite(s): CECN 504</td>
<td>The public sector’s large role in the economy shows the importance of understanding the principles of public finance. How do we explain the growth of the public sector’s share in the economy during most of the twentieth century? What criteria are relevant in determining the optimal level and scope of government activities? Topics examined include public goods and externalities, natural monopolies, pricing of publicly produced goods, and benefit-cost analysis.</td>
<td>39</td>
<td>$562.80</td>
</tr>
<tr>
<td>Economics of International Trade</td>
<td>CECN 707</td>
<td>Prerequisite(s): CECN 504 Antirequisite(s): CGMS 601, IBS 601</td>
<td>The purpose of this course is to introduce the student to the theory and practice of international economics. The factor proportions theory of trade is explained, and the evidence supporting it examined. Major emphasis is placed on the “new international economics” and its implications for Canadian trade policy. The issues surrounding free trade with the United States are examined, as well as the perceived need for interventionist industrial policies.</td>
<td>39</td>
<td>$562.80</td>
</tr>
<tr>
<td>Transportation Economics</td>
<td>CECN 710</td>
<td>Prerequisite(s): CECN 104 or IND 302 or Direct Entry Antirequisite(s): MGT 803</td>
<td>Addresses current and historical economic issues in both passenger and freight transport for all modes, as well as for urban transportation. The course examines the economics of significant transportation issues from, between and within the developed world. Demand-side issues, such as changing income levels and locational decisions; supply-side issues, such as the need for adequate funding for urban carriers; and constraints, such as regulation and uncertainty arising from political situations are synthesized.</td>
<td>39</td>
<td>$562.80</td>
</tr>
<tr>
<td>Advanced Microeconomics</td>
<td>CECN 715</td>
<td>Prerequisite(s): CECN 700</td>
<td>This course deals with the theories of consumption and of production at a more advanced level. It discusses decision making by consumers and firms, in situations of certainty as well as uncertainty and risk. The course introduces the students to welfare economics, and applies microeconomic theory and welfare economics to specific problems and policy issues.</td>
<td>39</td>
<td>$562.80</td>
</tr>
<tr>
<td>International Financial Markets</td>
<td>CECN 721</td>
<td>Prerequisite(s): CECN 301 and (CECN 320 or CFIN 300)</td>
<td>This course develops a solid understanding of the international financial system and examines managerial decisions made in an international setting. First, current theories of financial price determination and their testable implications are studied in the context of foreign exchange, offshore, derivative securities and international asset portfolio markets. Second, managerial decisions regarding capital financing, investing and risk management are analyzed from the point of view of private individuals, firms and governments.</td>
<td>39</td>
<td>$562.80</td>
</tr>
<tr>
<td>Principles of Engineering Economics</td>
<td>CECN 801</td>
<td></td>
<td>Engineering economics is concerned with the problem of investment decision making or capital expenditure analysis. An “investment” problem involves making a decision to allocate financial resources to acquire productive assets that will generate cash flows in future time periods. Engineering economics seeks to develop and apply a logically consistent methodology for evaluating investment projects. Discounted cash flow methods are used in analyzing such projects. In this course we will assume certain cash flows and ignore taxation implications. After developing the mathematics of cash flow equivalence, absolute and relative measures of project worth will be developed and applied to individual and multiple projects. The emphasis will be on private project decisions, but similar methods will be applied to public sector projects.</td>
<td>42</td>
<td>$571.04</td>
</tr>

The Economies of East Asia  CECN 802
Prerequisite(s): (CECN 104 or CECN 110) and (CECN 204 or CECN 210) or Direct Entry
This course is a general survey of the economies in East Asia, including Japan, China, South Korea, Taiwan, Hong Kong, Singapore, Malaysia, Thailand, Indonesia and the Philippines. The emphasis is on their patterns of economic development and inter-relationships. Topics to be covered include growth and development, international trade and investment, financial and exchange rate systems, as well as public policies. Current economic issues will also be discussed, particularly those with relevance to Canada. Economic trends and related news items will be presented and examined in the light of their historical background and existing social and political context. (UL)
39 Hours  Fee: $556.62

Canadian Tax Policy  CECN 803
Prerequisite(s): CECN 504
This course focuses on the problems and theoretical issues of financing government. The major forms of taxation-personal and corporate income taxes, sales and commodity taxes and the property tax-are examined critically. In addition, the main features of Canadian fiscal federalism (intergovernmental transfers, equalization grants and revenue-sharing), are reviewed and appraised.
39 Hours  Fee: $556.62

Economic Growth and Technological Change  CECN 808
Prerequisite(s): CECN 301 and CECN 504
This course analyzes a wide range of issues that affect a country’s growth performance. In particular, the course focuses on the effects of technological progress and human and physical capital accumulation on economic growth, as well as the role of government policies (fiscal policy, trade and environmental taxes, industrial subsidies) in determining the efficient use of a countries’ resources.
39 Hours  Fee: $571.04

Advanced Macroeconomics  CECN 815
Prerequisite(s): CECN 600
This course has two objectives. First, it provides a rigorous introduction to a standard set of topics in modern macroeconomic theory, such as economic growth, business cycle theory, consumption theory, monetary policy and fiscal policy. Second, the course develops the analytical tools required to study the above topics within a dynamic optimization framework. This is an advanced course aimed for students with a solid background in macroeconomic and microeconomic theory, linear algebra and calculus. It is particularly recommended for students interested in pursuing a graduate degree in economics.
39 Hours  Fee: $562.80

Country Risk Analysis  CECN 821
Prerequisite(s): ECN 720 or ECN 620
This course introduces the students to the theory and practice of managing cross-border lending and international investment risk. The course gives a comprehensive coverage of the analysis and reporting of sovereign creditworthiness, political risk, current account analysis, statistical credit-scoring methodologies, loan valuation, portfolio management and regulatory supervision. Several case studies will be used, including the Mexican Peso crisis and the collapse of the markets in South East Asia.
39 Hours  Fee: $562.80

The world is getting smaller, so it’s increasingly important to have a global view. That’s why I took ‘International Monetary Economics’ (CECN 606) – to become more informed about how international events affect businesses here in Canada.

Learner, Economics
ENERGY MANAGEMENT

In the energy management sector, for every two people retiring from the workforce, there is only one who is qualified in joining. The next leaders in the energy management sector require the knowledge and emerging skill sets vital to dealing with the technical and non-technical demand and response issues, fiscal oversight, project management, regulatory policy, and risk assessment that impacts energy generation, transport, distribution, and consumption.

Energy Management

Transforming to a green economy has emerged as one of the many management challenges facing society today. Managing the conversion to renewable energy, the reduction of dependence on fossil fuels, and the development of smart grids is seen as the cornerstone of success in achieving economic, environmental, and industrial sustainability. Managing the risks and the opportunities for energy innovation is high on the public agenda in Canada and countries around the world.

Related certificate(s): Energy Management and Innovation (pg. 40), Sustainability Management and Enterprise Process Excellence (pg. 104)

- Energy and the Public Policy Debate in Canada CKEI 120
  This course introduces students to the wide range of factors that influence the development and implementation of energy policy in Canada. Using both lectures and special guest presentations, the course will review the social, political, geographic, and other pressures that make the energy debate so highly charged in our very regionalized country. Students will appreciate how many non-technical issues impinge upon energy policy and why certain policy outcomes seem to be decided by these social and political considerations.
  39 Hours  Fee: $755.00

- An Introduction to Smart Grid CKEI 130
  This course will examine the challenges of modernizing and digitizing the electrical grid in Ontario. It will explore the engineering and technological challenges of the smart grid; the issues of privacy and security; third party access to smart grid data; technologies which allow customers to manage their consumption of electricity; and the innovation and economic opportunities of the smart grid.
  39 Hours  Fee: $755.00

- Energy Innovation and Entrepreneurship CKEI 100
  This course focuses on the drivers for innovation in Ontario's energy sector, the opportunities for new business, and the challenges of moving from the idea stage to the marketplace. Barriers to innovation and commercialization - technological, financial, and regulatory - will be explored through case studies, including lessons learned from guest lectures by business leaders in the Ontario energy sector.
  39 Hours  Fee: $755.00

- Energy Conservation: Emerging Trends CKEI 110
  This course is designed to allow students to explore the technical and policy dimensions of energy conservation, energy efficiency, and demand response, with particular focus on potential contributions to sustainability of urban energy systems in a Canadian and, more particularly, an Ontario-based context. A key element of this course will be guest speakers from the energy industry, many of whom are potential employers.
  39 Hours  Fee: $755.00

- Current Topics in Energy Management and Innovation CKEI 140
  This capstone course will allow participants to synthesize and apply what they have learned to complex energy management issues and energy solution implementations. Participants will analyze selected case scenarios and possible solutions using the energy management frameworks and models mastered in earlier courses to provide substantiation, precedents, and supporting evidence for proposed recommendations. As this is the capstone course in the Energy Management and Innovation certificate, participants will be required to undertake a final project paper to integrate and apply energy sustainability's social, economic, and/or environmental components to one or more issues, solutions, or innovations. The final paper allows participants to demonstrate a broad mastery of learning across the curriculum and to hone their ability to propose specific strategies and solutions that incorporate best sustainability practices and meet regulatory requirements. The paper may be used by participants for career portfolio purposes.
  39 Hours  Fee: $755.00

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
These courses and workshops are ideally suited to technicians, technologists, or others working in engineering-related fields who wish to broaden their knowledge of current practices in engineering, upgrade their professional qualifications, or develop new skills that can be usefully applied in their work.

Note: Written approval is required before undergraduate degree program students can register in these courses. For more information, see Engineering Students on the Chang School website at www.ryerson.ca/ce.

Aerospace

- **CATIA Engineering Design I** CKAE 100
  The student will be exposed to many of the topics currently dominating the study of Engineering Design. Subjects may include Introduction to CATIA, Profile Creation, Part Features, Additional Part Features, Dress-up Features, and more. Students will be expected to navigate in the CATIA menu environment, create part profiles, create solid parts, and modify solid parts and add further detailing.
  19.5 Hours  Fee: $713.83

- **CATIA Engineering Design II** CKAE 101
  This is a continuation course from CKAE 100. Topics include reusing data, finalizing design intent, assembly design, designing in context, and drafting (ANSI & ISO). Students will be expected to make efficient use of digital existing data, finalize design intent, create assemblies of parts, design in context, Create 2D drawings to ANSI and ISO standards.
  19.5 Hours  Fee: $713.83

- **CATIA Engineering Design III** CKAE 102
  This course is designed for those considering a career in engineering design, including private, public, para-public, and not-for-profit organizations. This is a continuation course from CKAE 101. Topics include creating a product structure, add components and position correctly, analyse assemblies and ensure design coherence, design 3D parts using the Boolean approach, work in multi-model environment, and maintain links between models.
  19.5 Hours  Fee: $713.83

Civil Engineering

Civil engineers plan, design, and build the infrastructure which we all use every day. If you’re intrigued by technology and fascinated by building, these courses will introduce you to the major areas – structures, environments, transportation, geotechnical elements, and geomatics, that come together to form the field of civil engineering.

- **Highway Design** CCVL 735
  Prerequisite(s): CVL 323
  The course provides guidance for design choices for highway elements. Emphasis is placed on assessing the safety, operational and environmental implications of design decisions. Design elements include: horizontal and vertical alignment and cross-section design; intersection and interchange design; roadside; and rural and urban highway drainage facilities. Computer applications include interactive highway safety design and roadside safety design analysis.
  65 Hours  Fee: $1000.00

- **Pavement Design and Management** CCVL 900
  Prerequisite(s): CVL 633
  Antirequisite(s): CV8405
  52 Hours  Fee: $855.00

- **Traffic Operations and Management** CCVL 902
  Prerequisite(s): CVL 316
  Antirequisite(s): CV8401
  Introductory topics related to the management of traffic on urban and rural road networks, including bicycle and pedestrian facilities. Topics include: capacity analysis for interrupted and uninterrupted flow facilities; deterministic and stochastic models for traffic flow; traffic simulation principles; freeway traffic management; signal timing for isolated intersections, networks and arterials; adaptive traffic control; safety of traffic management and engineering principles and techniques.
  65 Hours  Fee: $1000.00
Transportation Planning  
**CCVL 910**

Prerequisite(s): CVL 316

Treatment of the process and techniques of transportation planning, with emphasis on urban and regional applications. Topics include: historical development of transportation planning in North America; transportation planning framework; surveys and data collection; transportation-land use interaction; analysis and models of transportation demand; analysis and models of transportation performance; development and evaluation of transportation planning options.

52 Hours

Fee: $855.00

**NEW**

Machine Shop Practice  
**CKME 103**

This course is set out so that at its conclusion the student will have a practical basic training in the understanding and safe operation of machine shop tools and machinery. This will include the use of hand tools, measuring tools, (precision and standard) cutting tools, and machine shop processes associated with manufacturing. This course will be suitable for students in the Mechanical and Industrial disciplines or those who have a vested interest in knowing the practical aspect of machine shop practices. Also this course will be of great benefit to students who are embarking on projects involving the manufacturing of test components and equipment which require machine shop tools to manufacture.

39 Hours HST included

Fee: $755.00

**NEW**

Introduction to Big Data Analytics  
**CKME 130**

This course is designed to give students an overview of big data, state of the practice in analytics, the role of the data scientist, big data analytics in industry verticals, and analytics lifecycle as an end-to-end process. It focuses on key roles for a successful analytic project, main phases of the lifecycle, developing core deliverables for stakeholders, team work skills, and problem solving skills.

39 Hours

Fee: $755.00

**NEW**

Data Analytics: Basic Methods  
**CKME 132**

This course is an introduction to R, analyzing and exploring data with R, and using R with a database. It focuses on statistics for model building and evaluation. Topics cover experimental research, correlation analysis, regression, confidence intervals, and group comparisons, and parametric and non-parametric models.

39 Hours

Fee: $755.00

**NEW**

Big Data Analytics Tools  
**CKME 134**

This course is an introduction to learning big data tools such as Hadoop and advanced SQL techniques. Students will gain a clear understanding of Hadoop concepts and technologies landscape and market trends. They will construct SQL queries of moderate to high complexity to retrieve data from a relational database.

39 Hours

Fee: $755.00

**NEW**

Data Analytics: Capstone Course  
**CKME 136**

Students will engage in hands-on application of analytics in a project setting. The capstone course is intended to bring to fruition an applied synthesis of data analytics methods, techniques and applications and apply the competencies that this synthesis affords to a real-world area of interest. Working with a faculty supervisor, participants will apply what they have learned in respect to their real-world area of interest. Solving social network problems will also be covered.

39 Hours

Fee: $755.00

**NEW**

Contract Mgt and Procurement (Tech Sector)  
**CKME 700**

In this workshop, participants learn from a senior professional in the technical sector how to execute the key contract and procurement processes required to adhere to government rules and licensing requirements, including administering contracts. Participants will gain expertise within the technical sector in drawing and executing contracts, building professional networks, and navigating through legislative frameworks and government regulations.

14 Hours HST included

Fee: $795.00

**NEW**

Finance and Accounting Found (Tech Sector)  
**CKME 701**

From a professional working in the technical sector, participants learn how to accurately analyze financial reports and how to effectively make decisions based on accounting and financial information. They will learn to interpret basic financial statements, demonstrate expertise in finance and accounting “first principles” for decision-making, understand the basics of organizational finance and financial assets, and apply finance and accounting “best practices” for decision-making in technical sector organizations.

14 Hours HST included

Fee: $795.00

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
ENGLISH

We offer courses in English Literature and English Writing Development.

English Literature

Students enrolled in Ryerson degree programs are responsible for ensuring that any course selected from those listed below meets the specific requirements of their program. For more detailed information regarding specific program restrictions, check the Undergraduate Calendar at www.ryerson.ca. Related certificate(s): Aboriginal Knowledges and Experiences (pg. 13), Caribbean Studies (pg. 28), Design for Arts and Entertainment (pg. 35), English Literature and Popular Culture (pg. 42), Ethics (pg. 46), Social Sciences and Humanities Foundations (pg. 101)

★ Laughter and Tears: Comedy and Tragedy CENG 101

Laughter and tears are not always straightforward. A tale of pride going before a fall can be reassuring to us as well as sad, and a Hollywood romantic comedy can encode a scathing social critique. Offering insight into our ongoing fascination with the extremes of human emotion, this course traces how the twin poles of the comic and tragic have developed through literary history, and how they vary across diverse cultural traditions. This course is not available to BAENGLISH students for credit. (LL)
39 Hours Fee: $581.34

★ The Short Story CENG 104

As a relatively new genre that burst on the literary scene with the emergence of magazine culture, the short story is a truly modern form. Its excitement has to do with the concision of its form and the startling turns its narratives can offer. This course explores the history and conventions of the genre, examining stories from a variety of cultural contexts representing a range of styles, themes, and social issues. (LL)
39 Hours Fee: $581.34

★ Introduction to Fiction CENG 108

Stories shape every aspect of our experience. In this course, students read and write about different forms of fiction across historical periods and media. Students examine the underlying mechanisms of storytelling including, narrative's goals, inner structures, strategies and rhetorical effects. Texts may include short stories, novels, poetry, and drama as well as cinematic and digital texts.
39 Hours Fee: $576.19

★ Zap, Pow, Bang Pop Lit CENG 112

Antierequisite(s): ENG 703
Horror stories, pop songs, love poetry, comics-this course introduces students to various types of writing that were popular at different times and in different cultures. Students will learn central concepts and terminology in the study of popular writing and culture, and they will analyze the impact that cultural and political issues have had not only on what works became popular but also on the very notion of “the popular” itself. This course is not available to BAENGLISH students for credit. (LL)
39 Hours Fee: $581.34

★ Writing as a Cultural Act CENG 200

We live our lives through networks of texts, both printed and digital. This course takes a rhetorical perspective to explore how written texts provide more than just information: they perform important cultural actions in contemporary civic life. Students examine the relationship of writing to knowledge, belief, and social organization in contexts such as popular and social media, politics and activism, literature and art, and professional, technical, and academic cultures.
39 Hours Fee: $571.04

★ Myth and Literature CENG 201

From classical poetry to video games, stories follow recognizable patterns that tell us much about our values, fears, and desires. Offering a fertile source for plots and themes, myth systems present a set of limits to be investigated, challenged, and rewritten. This course examines how plays, poems, novels, and/or other texts engage with myth. Topics may include such diverse ideas as masculinity, initiation, fellowship, betrayal, rebirth, exile and homecoming. This course is not available to BAENGLISH students for credit. (LL)
39 Hours Fee: $581.34

★ The Literature of Native Peoples CENG 203

How has colonialism impacted indigenous cultures, and how have indigenous people used texts to pose challenges to colonialism and to preserve and retell traditional stories? Reading contemporary literature by Aboriginal Australian, Maori, First Nations and other indigenous writers, students address these and other important socio-political questions, examine wider literary and theoretical issues, and consider questions regarding cultural identity raised in the writings of Native peoples. (LL)
39 Hours Fee: $581.34

★ Certificate and degree credit ★ Degree credit ◊ Certificate credit ◊ Course series
En **Literatures of Immigration**  CENG 204

Edward Said declared the twentieth century “the age of the refugee, the displaced person, mass immigration.” This course looks at literature and films from around the world that focus on experiences of immigration and exile, and the challenges of living in a new culture and a new language. These narratives often describe the immigrant experience in terms of both loss and opportunity. This course explores the limitations and the possibilities of living between two cultures. (LL)

39 Hours  Fee: $581.34

En **Introduction to Non-Fiction**  CENG 208

Stories come to us in many forms including life writing, travel writing, documentaries, historical testimony, political speeches, journalistic texts and scientific and legal discourse. In this course, students read and write about non-fiction in a variety of forms across diverse historical periods and media.

39 Hours  Fee: $576.19

En **Cultures in Crisis**  CENG 212

Using novels, short stories, films and other media, this course focuses on significant challenges faced by, and changes initiated in, a wide range of cultures. From the perspectives of gender, race, ethnicity, sexual orientation, ability, mobility, and ongoing negotiations of identity within multicultural and im/migrant communities, course materials illuminate the complex nature of modern experience and draw attention to the important questions and concerns cultures have faced and continue to face. This course is not available to BA ENGLISH students for credit. (LL)

39 Hours  Fee: $581.34

En **Fairy Tales and Fantasies**  CENG 222

Starting with the powerful images of folk tale, fairy tale, and legend, and following them through fantasies and animal tales, this course explores their evolution from oral stories for adults to literary versions for children. It will also examine the intellectual and historical influences of the periods. The material to be studied includes modern versions of the tales in print and visual media.

39 Hours  Fee: $574.13

En **Children's Literature**  CENG 224

This course examines children's literature as a cultural category that shapes and is shaped by changing notions of “the child” and childhood. Students explore the ways in which texts directed at children's instruction and entertainment relate to their time, place, and generic form. Topics may include fiction; picture books; comics; film; and poetry.

39 Hours  Fee: $574.13

En **Colonial and Postcolonial Literatures**  CENG 413

Prerequisite(s): CENG 208

This course introduces students to one of the key areas of critical interest and debate in English studies, postcolonialism, and invites them to reflect upon and discuss the ways in which Empire - in its historical and present day manifestations - shapes “third world” or the “developing” world’s relationship with the West. It also familiarizes students with some of the most exciting and politicized theoretical debates in the discipline.

39 Hours  Fee: $562.80

En **Science Fiction**  CENG 503

The mythology of our civilization is the story of things to come. The prophetic visions of writers such as Asimov, Brunner, Clarke, Gibson, Heinlein, Herbert, Hogan, LeGuin, Lem and Niven offer endless playgrounds for the imagination. Their second gift is a widening vista or real alternatives: our future may be what they let us choose to make it. If you want to play an informed part in that choice, this course will provide the menu. This course is not available to BA ENGLISH students for credit. (UL)

39 Hours  Fee: $562.80

En **Gothic Horror**  CENG 510

Antirequisite(s): ENG 580

Invented over 200 years ago, the gothic has become one of the most popular genres in literature and film. This course will explore the gothic presence in popular culture during this time. Students will analyze ways in which the genre challenges not only other cultural conventions, but also claims in the realms of art, science, and medicine. Topics to be addressed include the relation of the gothic to gender, sexuality, class, orientalism, imperialism, and criminality. This course is not available to BA ENGLISH students for credit. (UL)

39 Hours  Fee: $556.62

En **The Art of Writing Life**  CENG 511

Antirequisite(s): ENG 570

This course examines a variety of life-writing genres including the diary, letter, autobiography, memoir, and biography. By sampling a range of texts (both print and electronic) throughout history, students will explore diverse ways in which writers express their private and public stories about life and self. Students will gain an understanding of life-writing theory which can be used to rethink the relationships between gender and genre; fact and fiction; and art and artlessness. This course is not available to BA English Students for credit. (UL)

39 Hours  Fee: $562.80
The Language of Persuasion  
**CENG 520**

Prerequisite(s): CENG 208

What makes a political speech “good”? Why are some advertisements more effective than others? This course focuses on the crucial role of rhetoric in cultural communication: the means through which language is mobilized to persuasive ends. Students learn a critical vocabulary drawn from a variety of perspectives and explore persuasion in contemporary discourse, including print and online media, television, film, public events, and art, in order to understand how language achieves its most powerful effects.

39 Hours  
Fee: $570.01

Poetry and Poetics  
**CENG 560**

Prerequisite(s): CENG 208

Ancient bards, sonneteers, rappers; nursery rhymes, love lyrics, inauguration odes: poetry has always been part of lived experience. This course considers the poetics, politics, and social practices that produce new forms of creative responses in poetry. Examining a range of poetic strategies and genres selected from different historical periods, cultural locations, and literary movements, students investigate how artistic tensions, traditions, and formal challenges are posed by writers who continually attempt to enhance the art’s potential.

39 Hours  
Fee: $598.85

Women’s Writing  
**CENG 602**

Antirequisite(s): CENG 621

What does it mean to “write as a woman”? Is there such a thing as “women’s writing” and if so, what are its characteristics? This course explores the ways in which women have contributed to literary traditions both by working within and by challenging mainstream movements. In examining women’s use of literary forms as aesthetic, personal and political sites, we will consider how issues of identity and historical context inflect and inform their writing strategies. This course is not available to BA English students for credit. (UL)

39 Hours  
Fee: $571.04

The Language of Love, Sex and Gender  
**CENG 610**

Antirequisite(s): ENG 941

Love, sex, and gender are fluid and complex. Looking at stories, novels, films, and other types of texts, students will analyse the impact of literature, popular culture, and aesthetics on the formation of new notions of gender, sexuality, and desire. Emphasis will be placed on a consideration of the cultural and sociopolitical influences that contributed to these changes and on the possibility of affections, sexualities, and genders that may not yet have names. This course is not available to BA English students for credit. (UL)

39 Hours  
Fee: $565.89

English Caribbean Literatures and Cultures  
**CENG 620**

The lives of peoples from the English-speaking Caribbean are extensively explored in dramatic works, films, music, art, novels and stories produced in the region and by Caribbean expatriates in Canada, the US and the UK. By situating examples of such works within their cultural contexts, the course raises a number of questions about Caribbean identities and experience and uses these questions to illuminate the history, struggles, and triumphs of these peoples and to imagine future possibilities. (UL)

39 Hours  
Fee: $562.80

Women’s Texts, Global Contexts  
**CENG 621**

Prerequisite(s): CENG 208

This course introduces students to literary and cultural works by women writers across the globe. Students will read and discuss narratives by writers from a range of backgrounds, paying particular attention to the ways in which “women” and “gender” as political and cultural categories are constructed through the vectors of race, culture, politics, and sexuality.

39 Hours  
Fee: $562.80

Reading Visual Cultures  
**CENG 705**

Prerequisite(s): CENG 208

By exploring the ways images in photography, painting and film, as well as in literary and non-literary writing, are scripted and can be read as text, this course seeks to show how visuality organizes and shapes Western culture. Topics can include how such things as the invention of perspective and the visual technologies of photography and film have influenced philosophy and literature, and how the culture industries have used the visual as a tool to influence and entertain.

39 Hours  
Fee: $562.80

Shakespeare and Performance  
**CENG 706**

Prerequisite(s): (CENG 108 and CACS 103) or CENG 208

Shakespearean drama was an important medium for entertainment and for reflecting contemporary socio-political realities on stage. A mark of Shakespeare’s continued relevance and popularity is the constant remaking of his plays in a variety of media. This course analyses the textual, thematic, historical, and theoretical readings of Shakespearean drama. Students explore a variety of adaptations, including folk performance, early-modern theatre, television, and film.

39 Hours  
Fee: $562.80
★ Principles of Persuasion  CENG 720
Prerequisite(s): CENG 208
Aristotle defined rhetoric over 2000 years ago as the art of discovering, in any given case, the available means of persuasion. Since then, views on persuasion have shifted in tenor and scope but all emphasize its role in shaping public life. Offering a survey from ancient Greek and Roman texts through to contemporary rhetorical criticism and related fields, this course examines how we use rhetoric to negotiate knowledge, belief, and action in various contexts.
39 Hours  Fee: $598.85

★ Televisual Texts and Contexts  CENG 888
Prerequisite(s): CENG 208
Love it or hate it, television stands alone as a medium in its ability to influence the way we live and view the world. What is it about the immediacy of television that invites us to engage with it? Students will draw from literary studies, sociology, and anthropology to explore how the “flow” of television structures our time and our relations to one another, and how the “televisual” evolves as new communications technologies develop.
39 Hours  Fee: $562.80

★ Narrative in a Digital Age  CENG 921
Prerequisite(s): CENG 208
This course explores how contemporary writers and artists have attempted to come to terms with the so-called post-print era - a historical moment characterized by the strategies of fragmentation and recombination that digital hyperspaces make possible. By analysing digital texts and the work of cultural theorists on the nature and impact of this new medium, students will address the implications of the rise of computing and the internet for the future of literary and other cultural practices.
39 Hours  Fee: $562.80

English Writing Development
The ability to write clearly, effectively, and in a voice that is distinctly your own can be learned. These courses are designed to develop your feeling for language, your knowledge of its forms and structures, and your skills in composition. As you master these fundamentals, your writing will begin to reflect a more powerful and purposeful use of language. Related certificate(s): English Literature and Popular Culture (pg. 42)

★ Creative Writing  CENG 505
This upper-level course offers students the opportunity both to study models of good writing and to develop their own creative abilities. Class discussions and workshop groups are designed to enhance the student's understanding of the creative process, to stimulate the imagination, and to develop individual abilities. Areas of discussion include style, prosody, conflict, character, dialogue, and revision. This course is not available to BA ENGLISH students for credit. (UL)
39 Hours  Fee: $572.07

☆ Language and Society  CLNG 121
This writing intensive course explores how language reflects and shapes society. The course also aims to further develop students’ academic reading and writing skills by exploring methods of active reading, and strategies for structuring and supporting written arguments. (LL)
39 Hours  Fee: $627.69

☆ Writing Workshop  COWD 107
Writing Workshop will give students the tools to write more effectively - at work or at school. The course covers the essentials of planning, organizing, and composing, with particular attention to sentence and paragraph building. Punctuation, word choice, grammar, and spelling demos are also included. Writing assignments are tailored to students’ needs, with regular, focused feedback. Writing Workshop is designed for those who want to write with more impact, speed, and confidence.
39 Hours  Fee: $517.48

Literary Types I  COWD 108
This course is an introduction to the study of both literature and composition. It will develop the ability to read literature, with an emphasis on short stories, poetry, and drama, with some understanding of both the author’s originality and debt to literary tradition. The course will also undertake regular review of grammar and composition and teach the principles of sound essay construction in conjunction with selected classroom readings. In the process of achieving these objectives, the course will also serve as a foundation for further study in English.
Note: Formerly COEN 108, CEGA 108.
39 Hours  Fee: $517.48

An Academic Bridging Course. Please note that mature student applicants will be considered on an individual basis. Please contact Undergraduate Admissions and Recruitment for details.
ENGLISH AS A SECOND/ADDITIONAL LANGUAGE

For more information, visit www.ryerson.ca/ce/english.

English as a Second/Additional Language

If English is not your first language, and you need to develop greater fluency to advance your career, these courses are ideally suited to you. Ranging from general to specialized, from intermediate to advanced, they give you the opportunity to develop your reading, writing, listening, and speaking skills in English.

For placement assessment, complete the online placement test at www.ryerson.ca/french/englishtest.html. For more information, applicants can attend an Open House session or contact Marju Toomsalu, ESL/EAL Academic Coordinator, at 416.979.5000, ext. 4196, or mtoomsal@ryerson.ca.

For further information, visit www.ryerson.ca/ce/esl. Related certificate(s): English as a Second/Additional Language (pg. 41)

★ Language and Identity

CLNG 111

Antirequisite(s): LNG 100

This writing-intensive course for English as an Additional Language students explores how language use reflects social identities. Through academic readings, the course helps students improve their knowledge of written and spoken English and express themselves effectively, orally and in writing, at a university level. Students will analyze, discuss, and write essays. Enrollment subject to the online placement, English Proficiency, or Writing Skills Test results. (LL)

39 Hours

Fee: $627.69

★ Language: Spoken and Written

CLNG 112

Prerequisite(s): Department consent

Antirequisite(s): LNG 300

This writing course for bilingual/English as an Additional Language students introduces students to contemporary thinking about oral and written language and the use of language. The topics include the nature of language, first and second language learning, and style of speech. Students analyze and discuss academic readings and write essays. An online placement test is required. Enrollment subject to the online placement, English Proficiency, or Writing Skills Test results. (LL)

39 Hours

Fee: $627.69

★ Language and Public Life

CLNG 113

Antirequisite(s): LNG 200

This writing course for English as an Additional Language students focuses on how language is framed by institutional and cultural perspectives. Students analyze and discuss academic readings and write essays. This is the last and most advanced course in the LNG series for students whose first language is not English. An online placement test is required. Enrollment subject to the online placement, English Proficiency, or Writing Skills Test results. (LL)

39 Hours

Fee: $627.69

★ Professional Communication for the Workplace I

COEN 201

Prerequisite(s): Department consent

This course aims to strengthen and enhance learners' oral communication skills (listening, speaking, and pronunciation) necessary to function effectively in their future work environments. To achieve this, the course will focus on developing learners' critical reading and thinking skills and their ability to express their ideas clearly and effectively. The learners will have opportunities to strengthen their professional language skills through various kinds of in-class and self-directed activities and assignments.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

39 Hours

Fee: $594.73

★ Professional Communication for the Workplace II

COEN 202

Prerequisite(s): Department consent

The course aims to strengthen and enhance learners' written skills necessary to function effectively in their future work environments. To achieve this, the course will focus on developing learners' critical reading and thinking skills and their ability to express their ideas clearly and effectively. The learners will have opportunities to strengthen their professional language skills through various kinds of in-class and self-directed activities and assignments.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

30 Hours

Fee: $594.73

★ Intermediate Grammar

COEN 204

This course is meant for lower intermediate students of English who need to review and refresh their knowledge of grammar. The course will focus on the use of appropriate forms of language in specific contexts, thus allowing students to focus on the meaning of a grammatical form. The topics discussed in this course will help students improve both their oral and written expression. In writing the students will be working on improvement at the sentence level. The topics will be: verb tense and voice, subject-verb agreement, the conditional, modal verbs, adjectives and adverbs, and the article.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours

Fee: $594.73
**Reading/Listening Test Prep I**

**COEN 210**

*Prerequisite(s): Department consent*

This course prepares students for academic reading and listening tasks in post-secondary settings, and also for reading and listening comprehension sections of English proficiency tests at the level generally required for math and science based undergraduate programs. Academic vocabulary, text and lecture analysis, reading, and note-taking techniques will be the focus of this course. Students will practice these skills in bi-weekly practice tests.

39 Hours

Fee: $493.79

**Writing/Speaking Test Prep I**

**COEN 220**

*Prerequisite(s): Department consent*

This course prepares students for academic writing and speaking tasks in post-secondary settings, and also for writing and speaking sections of English proficiency tests at the level generally required for math and science based undergraduate programs. Students will work on planning, outlining, paragraph and essay writing skills, as well as the basics of English grammar. Speaking will be practiced via typical test tasks. Students will practice these skills in bi-weekly practice tests.

39 Hours

Fee: $493.79

**Writing Accurately and Clearly**

**COEN 294**

This is an intermediate-level course designed to prepare students for Critical Reading and Effective Writing (COEN 295). This course takes a practical approach to improving students' reading and writing skills, with a focus on developing strategies for planning, revision, responding to readers' needs, and proofreading. In addition, students work on sentence structure, grammatical errors, organization, vocabulary, and dictionary use. Reading material is chosen to develop active, critical reading and comprehension skills. Students participate in discussions and peer feedback.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours

Fee: $594.73

**Critical Reading and Effective Writing**

**COEN 295**

This is an upper-intermediate-level course designed to build on Writing Accurately and Clearly (COEN 294). This course takes a practical approach to improving students' reading and writing skills, with a focus on developing strategies for planning, anticipating readers' needs, revision, and proofreading. In addition, students continue to work on sentence structure, grammatical errors, organization, vocabulary, style, and dictionary use. Students write longer texts, both in class and for homework (please note that this is not a course in academic writing). Reading material is chosen to develop active, critical reading and comprehension skills. Students participate in discussions and peer feedback.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours

Fee: $594.73

**Writing for Professionals**

**COEN 296**

This 12-module course develops effective industry-specific professional writing and editing skills. The course examines the principles of good writing and editing, and has writers apply these principles of good writing and editing in assignments that are customized to individual professional goals and industry backgrounds. Writers learn and apply strategies to frontload information and to frame, organize, and present ideas for maximum impact. The course explores writing within a range of business writing genres including online mediums such as e-mail to exploit the advantages of various communication modes. Throughout the course, writers develop and refine individualized editing strategies to self-assess and improve their written communications skills to make their writing a powerful tool in business communication.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours

Fee: $594.73

**Scientific and Technical Writing**

**COEN 298**

This course has been designed to help non-native speakers of English who are pursuing studies or are employed in the fields of science and engineering, develop writing skills to cope with English speaking academia and/or workplace. Students should have a fairly good command of English grammar and be able to write clear sentences in English to benefit from this course. The course will focus on improving students' knowledge of grammar and writing in the context of genres of technical communication: technical instruction, manuals, short memos, e-mail messages, reports, and presentations. Heavy focus will be on the principles of organization in writing: classification, definition, description, and comparison.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours

Fee: $594.73

**Effective Conversation Strategies**

**COEN 299**

This course gives students the opportunity to practise speaking English with a variety of purposes and contexts. Classes include work on initiating and maintaining conversation, cultural differences in communication, engaging in group and one-to-one communication, informal and formal presentations, and improving voice and non-verbal language. The course is supplemented by audiovisual aids. Students participate in a variety of individual and group activities.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours

Fee: $594.73

---

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
This course concentrates on the English sound system, helping students to identify and reduce their specific pronunciation problems and to improve their general pronunciation and accent when speaking English. By a combination of lectures and practice sessions, students learn articulation of vowel and consonant sounds; sound reductions; glides, and stress, rhythm and intonation patterns; and overall accent in English. In addition, students will understand the links between correct pronunciation and listening and spelling.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours Fee: $594.73

This course is designed for upper-intermediate and advanced students of English as a Second/Additional Language who want to improve the accuracy of their speech and writing. It is particularly useful for those who feel they are being held back in their career or their studies because their writing contains an unacceptable number of grammatical errors. A central feature of the course is a point-by-point review of particular grammatical troublespots. Students will be encouraged to submit samples of their writing.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours Fee: $594.73

This course is for students of English as a Second Language who want to improve their skills in reading, writing, listening and speaking. The course covers all the essential skills and so helps students to pinpoint problem areas for further study. Students will read short texts on a variety of interesting topics, thereby increasing their vocabulary and adding to their knowledge about Canadian society and culture. Topics will also be presented via audio or video, allowing students to develop their listening skills. Students will learn to summarize the issues discussed and to present their own views on course topics verbally, and in writing. Writing will be at the sentence and paragraph level. There will be an overview of common grammar problems, and the instructor will give individual feedback on writing assignments, paying attention to both content and grammar. All students will have the opportunity during class discussions to practise and improve their oral skills.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours Fee: $594.73

This course is for advanced English as a Second/Additional Language students who wish to improve their oral communication and confidence in professional contexts. Students will learn to recognize, compare, and negotiate differences in North American academic and workplace practices; to effectively present, promote, and express themselves; to develop sensitivity to audience, tone, voice, non-verbal communication, and appropriate language; and to develop troubleshooting strategies for handling difficult communicative situations. Students will participate in a variety of individual and group activities.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

35 Hours Fee: $594.73

This course helps students to improve their performance in academic and professional reading and listening tasks typical in post-secondary education and in a professional workplace. It also helps students to achieve higher scores in reading and listening comprehension sections of English proficiency tests at the level generally required for humanities and communications-based undergraduate and graduate programs. Advanced academic vocabulary, text and lecture analysis, reading, and note taking techniques will be the focus of the course. Students will practise these skills in bi-weekly practice tests.

39 Hours Fee: $493.79
Writing/Speaking Test Prep II  
COEN 420  
Prerequisite(s): Department consent

This course helps students improve their performance in academic and professional writing and speaking tasks in post-secondary educational and professional settings. It also helps students to achieve higher scores and succeed in writing and speaking sections of English proficiency tests at the level generally required for humanities and communications-based undergraduate and graduate programs. Students will work on perfecting their academic writing skills and grammar, as well as speaking and presentation skills in formal settings. Students will practise the skills in bi-weekly practice tests.

39 Hours  Fee: $493.79

Academic and Professional Skills  
COEN 462  
Prerequisite(s): Department consent

This course is designed for bilingual individuals who need to improve their English in the areas of listening, speaking, reading, and writing for academic and professional purposes in order to help them prepare for post-secondary studies and for a successful work life. This course provides you with practice toward improving your grammatical accuracy and expanding your vocabulary in written English. In this course you learn necessary language skills and you practise tasks for university or college academic purposes, tasks which may also be used for professional purposes in the workplace. This 100-hour course is intended for individuals of higher level fluency in English whose goal is to be comfortable performing written coursework and note-taking for academic purposes. Additionally, you may apply what you learn in this course to your professional writing for workplace purposes.

Note: All students must take an online placement test (www.ryerson.ca/french/englishtest.html) before enrolling in this course.

65 Hours  Fee: $594.73

ENVIRONMENTAL ENGINEERING SCIENCE AND ENVIRONMENTAL MANAGEMENT

The environment is the natural, social, and built condition in which we live, and it is shaped by the interaction of the elements that surround us. Human impact on the environment requires effective management practices to protect the environment. Environmental sciences and management offer an increasing number of career opportunities in fields as varied as ecology, occupational health and safety, physical science, bioremediation, engineering, law, and management.

Environmental Engineering Science

This multidisciplinary program provides graduates with the broad knowledge base and wide range of skills they require as professionals. Students receive a grounding in air, water, and soil processes and contamination, biotechnology, instrumentation, and experiment design. Admission into the Environmental Engineering Science Certificate Program is necessary prior to the first registration in one of the following courses. After admission to the program, no further interviews are necessary. Related certificate(s): Energy Management and Innovation (pg. 40), Environmental Engineering Science (pg. 45), Sustainability Management and Enterprise Process Excellence (pg. 104)

Hydrogeology Soil and Ground Water Science  
CKES 102

This course will present an overview of the subsurface environment with particular emphasis on the physical/chemical characteristics of soil and groundwater. Topics will include the origin, structure, and chemistry of soils. The concepts of hydrogeology and the flow of water in subsurface media are explored. Methods of measurement, monitoring, and analysis of hydraulic systems are developed.

39 Hours  Fee: $755.00

Environmental Biotechnology Waste Treatment and Remediation  
CKES 110

This course will cover the emerging biologically based technologies in environmental control. Subject areas include control of biodeterioration, applications of microbial technology to air, soil, waste, and water treatment and management, and bioenergy and the environment. The potential positive and negative impacts of biotechnology on the environment will be discussed.

39 Hours  Fee: $755.00
Environmental and Atmospheric Processes  CKES 120
This course will cover chemical and biogeochemical processes in the pristine and stressed environment. The course will deal with the mechanisms which pertain to the dispersion and fate of both naturally occurring and xenobiotic compounds in the environment. Atmospheric pollution is assessed in terms of sources, transport mechanisms, chemical reactivity, loss mechanisms, and effects on the physical and biological environment. Global climate change is analyzed. Current regulatory and control strategies are also presented.

39 Hours Fee: $755.00

Toxicology and Risk Assessment  CKES 121
This course will introduce students to the principles of toxicology applied to the assessment and control of biologically active compounds in the environment. In addition to the biological mechanisms of toxicity, the use of biomarkers and toxicity tests will be discussed as it pertains to the evaluation of risk and in establishing regulations.

39 Hours Fee: $755.00

Applied Ecology  CKES 130
This course examines the concepts of ecological science and their application to environmental management problems. It reviews the components of ecosystems, biotic and abiotic, and their interrelations in ecosystem structure and function. It examines population dynamics of species related to habitat and species protection, including carrying capacity concepts. Energy and nutrient cycles are reviewed in relation to pollution control and concepts of community and ecosystem are examined at the landscape level applied to natural system protection. The effects of human stresses on ecosystems are discussed in relation to ecological impact assessment. Equivalent to ENH 617.

39 Hours Fee: $701.85

Waste Management  CKES 160
This course will cover waste characterization, collection, and disposal. Land application of biosolids is discussed. Practical aspects of management will be covered including legislation and authority as well as advanced technology, with emphasis on environmental, industrial, and resource constraints. Specific treatment technologies applied to a range of specific hazardous and industrial wastes will also be examined, including new innovative approaches to remediating hazardous sites and groundwater.

39 Hours Fee: $755.00

Water Treatment  CKES 170
This course will explain the sources and characterization of wastewater. Drinking water requires different treatment than either domestic or industrial wastewater. The course will review the conventional processes in the treatment of domestic wastewater and some cases of treatment of industrial contractors, fluidized-bed reactors, membrane reactors, and ion exchange processes will be discussed.

39 Hours Fee: $755.00

Site Assessment  CKES 180
This course will introduce Phase I and II of Environmental Site Assessments (ESA). Phase I-ESA is a nonintrusive investigation identifying liabilities linked to contaminants through site inspection and historical review. Phase II-ESA is an onsite investigation of a property's surface and subsurface, through samples and analysis. This data is necessary for a record of site condition and risk assessment. The students will learn about the specific Canadian Standards and about site assessment in Ontario.

39 Hours Fee: $755.00

Renewable Energy and Green Technology  CKES 190
This course provides an in-depth introduction to sustainability theory and green technology, renewable energy in a sustainable future, and why renewable energy is necessary for the future. Students will be introduced to different types of renewable energy technology such as: wind energy, solar, hydro-electric, geothermal energy, ocean thermal, fuel cells, heat pump systems, and high voltage DC energy transport. The implementation of these technologies is also studied to understand how they can work either in conjunction with, or a replacement for, conventional technologies.

39 Hours Fee: $755.00

Applied Environmental Analysis  CKES 210
This course provides an applied framework for the designing of environmental analysis, planning of experiments, sampling strategies, and data analysis pertaining to environmental analysis and problems. An overview of analytical methods used to identify contaminants and follow their fate in the environment is also introduced. Topics include data acquisition, data interpretation using probability, analysis of variance, residual analysis, and nonparametric models. Emphasis will be placed both the execution and application of the analysis in a variety for a variety of environmental situations.

39 Hours Fee: $755.00
Environmental Law and Practice  CKES 220

This course is a review of the legal context for environmental management. It examines in detail the legislation that governs present environmental practice, as well as the laws governing the transportation and disposal of wastes, environmental liability, and the protection of valued ecosystem components. The course identifies the differences between federal and provincial environmental laws and policies. In addition, it outlines the institutional, legal, and practical options for making environmental decisions.

39 Hours  Fee: $755.00

FACILITY MANAGEMENT

The facility manager is responsible for the integration of the workplace with the people and work of the organization. This program will provide knowledge and analytical skills for those pursuing careers in this newly defined profession. It will be of interest to those who are being prepared by an organization to assume a role in facility management, those who are newly appointed to a facility management department, and those who wish to upgrade their credentials within the facility management department or to implement a career change. For more information, visit www.ryerson.ca/ce/facilitymgmt.

Facility Management

Related certificate(s): Facility Management (pg. 48)

» Facility Management Fundamentals  CDFM 102

Students will learn about the development of facility management as a profession, the challenges and opportunities arising from the multifaceted role the facility manager must play in an organization, and how to manage those responsibilities. Students will learn about the core competencies and explore functions such as building operations and maintenance, space management and office layout, project management, leasing, security, IT contracting, and interfaces with other departments. (Equivalent to IDE 311.)

39 Hours  Fee: $665.80

» Project Planning, Design, and Management  CDFM 103

The role of the facility manager includes planning, design, and management of space and building projects. This course outlines the function of the facility manager as the initiator of projects and then the orchestrator of other related professionals, including the architect, engineer, and design consultant. Students will learn about project feasibility studies, budgeting, various stages of project planning, design, and execution. Issues include regulator and legal issues, corporate culture, contracting, performance, and accountability.

39 Hours  Fee: $686.40

» Building Operations and Maintenance  CDFM 104

Facility managers become involved in physical building issues whether their company owns their own building or they are a tenant interfacing with a landlord. This course outlines the relevance of understanding building systems and the elements needed to interface with other related professionals, including problem solving. Students will learn the building systems and impacts to their role and related topics such as architecture, design, building codes, occupational health, risk and security, service contract management, sustainability, commissioning, and facility planning.

39 Hours  Fee: $686.40

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
**Space Planning and Management**  
**CDFM 105**

Managing the work environment is an important role for facility managers. This course outlines the critical areas to provide an effective work environment for your organization. Students learn current techniques and concepts for planning and management of office space, including systems furniture and conventional office planning. Space standardization programs, modern alternate workplace arrangements, and the importance of good planning are reviewed for both new and existing facilities.

39 Hours  Fee: $686.40

**Computer Applications in Facility Management**  
**CDFM 202**

This course provides a basic understanding of the application of computer-aided facility management (CAFM) techniques to modern facility management operations. Students will learn about applications in space standards monitoring, in furnishings and equipment control, in cost control, and in budget allocation and data management.

39 Hours  Fee: $686.40

**Real Estate Planning and Development**  
**CDFM 203**

Commercial real estate is the foundation of the facility manager’s role, whether dealing with an acquisition, new construction, or leasing of premises. This course outlines the primary elements of each one, preparing the student to deal with all potential scenarios. Students will learn about site selection, market analysis, the changing real estate market, procurement of design/construction, real estate programming and requirement of analysis, lease negotiation techniques, asset monitoring and control, and real estate and the law.

39 Hours  Fee: $686.40

**FAMILY STUDIES**

**Families and Health**  
**CFNF 100**

This course is a critical examination of recent important changes in Canadian family life and considers the implications of these changes for food and nutrition professionals. Theories for understanding the family are examined in order to provide the student with insight into the social, political and economic aspects of family structure and functioning. Students will also gain an understanding of the social determinants of health, and the pathways by which social forces and conditions affect individual, family and community life.

*Note: Equivalent course available in the degree program. Contact Reg Noble at food@ryerson.ca for more information.*

39 Hours  Fee: $579.28

**The Social Context of Human Sexuality**  
**CFNF 400**

This course examines the social basis of attitudes and behaviour related to human sexuality. By applying knowledge gained from the study of current research and theory, students will increase their understanding of the roots of societal norms and values related to sexuality and in the process they will have an opportunity to expand their own awareness of the range of sexual values and behaviour. Some of the areas to be considered are: premarital, marital and non-marital sexuality; sexuality and liberation; sexuality and interpersonal relations; sex codes and personal codes; sex and gender role socialization, etc.

39 Hours  Fee: $579.28
FAMILY SUPPORTS

Individuals seeking admission to the certificate program are strongly encouraged to contact the academic coordinator, Catherine Moher, by email at cmoher@ryerson.ca. For general information on the program, phone 416.979.5035 or attend an Open House session (page 6). For more information, visit www.ryerson.ca/ce/familysupports.

Family Supports

Related certificate(s): Community Engagement, Leadership, and Development (pg. 29), Family Supports (pg. 49), Food Security (pg. 54)

Perspectives on Change CVFS 100
Prerequisite(s): Department consent

Multi-system change is a complex process requiring participants to share knowledge of change processes, as well as the change vision. This interactive module explores theoretical perspectives of systems change. Learners will build upon their experience with early childhood systems integration as they move towards successful implementation. Topics for discussion include change theory, components of the change process, the role of emotion, professional purpose and leadership in individual change, and using communication as a strategy for multi-system transformation.

Note: For more information, please see www.ryerson.ca/ce/ecsmodules.

16 Hours HST included Fee: $200.86

Leadership for Transformation CVFS 101
Prerequisite(s): Department consent

Leading and mentoring educators, early interventionists, healthcare professionals, family support professionals, and parents through the process of change can be a challenge to policy makers, administrators, and front-line personnel. This module critically explores theories of leadership, including feminist, adaptive, and transformative perspectives. The learner will apply these models to effectively build a team that can manage change and work productively in an environment that is in a constant state of flux.

Note: For more information, please see www.ryerson.ca/ce/ecsmodules.

16 Hours HST included Fee: $200.86

Vision Building CVFS 102
Prerequisite(s): Department consent

This module will support participants in building a vision for multi-system transformation applicable to their organizational and community contexts. How do we promote resiliency in organizations so that they have the capacity to re-envision their work with families and children without losing their core principles and effective practices? Case studies based on the current early childhood systems integration and renewal initiative will provide learners with strategies for vision building, strategic planning, and goal setting.

Note: For more information, please see www.ryerson.ca/ce/ecsmodules.

16 Hours HST included Fee: $200.86

★ Group Dynamics and Interpersonal Communication CVFS 400

This experiential and interactive course will focus on enhancing the students’ awareness of themselves and others as well as their own communication effectiveness. A wide range of topics will be addressed including listening and responding skills, giving and receiving feedback, enhancing self concept, developing trust, etc. Students will increase their understanding and skills in group processes, leadership and co-facilitation through observing and analyzing the group processes, readings, and assignments. Equivalent to CLD 251.

39 Hours Fee: $579.28

★ Contemporary Family Issues CVFS 401

This interdisciplinary course provides an in-depth study of key issues and life experiences affecting contemporary families and community life and their relationship to the broader sociopolitical context. Topics include the cultural variations in family interaction, the trends in family composition, and the issues that impact on family resilience and capacity such as poverty, mental health, addiction, violence, and abuse. A variety of theoretical frameworks for understanding families and community life will be explored. Equivalent to CLD 231.

39 Hours Fee: $579.28

★ Families Power and Social Change CVFS 402

Using a social change perspective, students will identify and analyze family, interpersonal and intergenerational issues within a broader social, political and community context. Students examine how community programming and public policy address family issues and explore strategies for change with individuals and groups within a family context and at a larger systems level. Through self-reflection, students incorporate new perspectives into their personal, professional, and programming practices by re-examining their current approaches to family life issues. Equivalent to SOC 605.

39 Hours Fee: $579.28

★ Family Supports Theory and Practice CVFS 403

This course examines the principles and practice approaches in the field of family support. Such approaches contribute to the evolving framework of family support programs and include theories of social support, empowerment, adult education, and community building. Students explore ways to integrate theoretical approaches with professional practice by exploring family support practice in community based public and non-profit programs. (Formerly ECE913/CVFS 403.) Equivalent to CLD 435.

39 Hours Fee: $579.28

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
**Guiding Children’s Development**  CVFS 406

This course examines the major theories of children's development, focusing on all the developmental domains: physical, cognitive, language, social, and emotional and includes consideration of the importance of the socio-cultural context. Such development will be considered in relation to diverse settings in community-based programs. In particular, the role of parents, practitioners, and staff in building relationships, guiding behaviour, and meeting the developmental needs of children from birth through age 12 will be discussed. Equivalent to CLD 103.

39 Hours  Fee: $579.28

**Community Development**  CVFS 407

The course focuses on the theory of community development and its application in family support programs. Drawing on successful models of community development and social enterprise, students will acquire the practical skills to undertake community engagement, build community capacity, and develop partnerships with diverse communities. Students will examine the values, principles, and strategies required to collaborate with communities to design needs-based program responses that promote community health and well-being. Equivalent to INT 917.

39 Hours  Fee: $579.28

**Practicum/Project**  CVFS 408

Prerequisite(s): CVFS 401, CVFS 403, and CVFS 404.

In this course students will develop a project in relation to Family Support Programs with the goal of integrating the knowledge gained in previous courses. The project will be selected by the students themselves, in consultation with the instructor. The student evaluation will be based on ongoing consultation between the instructor and the student. Wherever possible, students will be given an opportunity to select a project that relates to their own personal or professional interests. Equivalent to FNP 400.

Note: Students are encouraged to contact the Academic Coordinator, Catherine Moher, at cmoher@ryerson.ca to plan their practicum enrollment.

39 Hours  Fee: $579.28

---

**FASHION**

The following fashion courses offer you an eclectic mix of choices. Ranging from sewing and retail and merchandising issues to pattern drafting and fashion drawing, they are suited to both your professional and personal learning interests. For more information, visit [www.ryerson.ca/ce/fashion](http://www.ryerson.ca/ce/fashion).

**Fashion**

Related certificate(s): Design for Arts and Entertainment (pg. 35), Fashion Coordination and Styling (pg. 50)

**Fashion Drawing I**  CDFA 104

This is an introductory level fashion illustration course. You will draw from models, learning anatomy and proportion as well as basic drawing principles. It explores traditional methods of rendering and provides a sound foundation in drawing. It is designed for a novice individual who wishes to learn basic drawing skills as well as for the amateur who wishes to brush up on their skills. Course material will be delivered through lectures and drawing from models. There will also be time for critical one-on-one input as well as group critique.

Note: Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students during the first class.

39 Hours  Fee: $579.28

**Fashion Drawing II**  CDFA 110

Prerequisite(s): CDFA 104

This course builds on the foundations learned in CDFA 104. It explores both traditional and non-traditional methods of rendering for fashion illustration. Drawing skills will be developed through conceptually based projects and exploration of techniques. Course material will be delivered through lectures and drawing from models. Time will be set aside for critical one-on-one input as well as group critique and portfolio presentation for the industry.

39 Hours  Fee: $579.28

**Fashion Summer Quick Start**  CDFA 800

Primarily intended for students enrolling in the School of Fashion in September, this intensive one-week foundation course is designed to enhance drawing skills and sewing/garment construction skills. Students in high school who want to strengthen their portfolio may also attend.

35 Hours  HST included  Fee: $712.16
Directions in Fashion Journalism  
CDFA 851

As the publishing industry evolves, blogging and podcasting present new avenues which require different ways of communicating what is au courant when describing lifestyle or garments. This course will examine podcasting and blogging, focusing on writing and reporting specifically targeting the fashion industry. It will address the changing face of journalism with regard to disseminating fashion and will also familiarize the student with language commonly used in fashion and journalism.

39 Hours  HST included  Fee: $579.29

Fashion Head Start  
CDFA 860

This is an overview of the fashion industry from design and communication viewpoints including sketch and creation, fashion shows, media promotion, and wholesale and retail marketing. In-class multimedia presentations will explore these concepts and outside classroom visits including a designer in their studio, the Royal Ontario Museum, and fashion magazine, will bring them to life. This workshop will give an understanding of the fashion industry and what comprises the post-secondary education that will lead to future employment.

35 Hours  HST included  Fee: $712.16

Knitwear Design  
CFFD 503

Prerequisite(s): (FSN 10B or FSN 220) and FSN 101

This course is an introduction to industrial knitwear. Students will research style, colour and fabrication trends to design men’s or women’s knitted apparel for a specific market. Knitwear terminology and mass production techniques will be analyzed as they apply to the design room. Domestic and off-shore production, the use of technology, the purchasing and inventory of raw goods will be covered. On-site lectures at manufacturing facilities will supplement the theory presented in class.

39 Hours  Fee: $575.16

Textile Design I  
CFSN 209

Prerequisite(s): FSN 14B or FSN 221
Antirequisite(s): FFD 201

This course is an introduction to textile design using industry-specific computer aided design (CAD) systems. Students research, design, render floral, conversational, abstract and co-ordinating patterns for woven textiles utilizing a variety of techniques.

Note: Formerly CFFD 201.

39 Hours  Fee: $620.48

History of Costume I  
CFSN 302

Prerequisite(s): FSN 232 or CCMN 201 or CCMN 279 or IRH 202 or THP 115 or THP 202

This course will provide a chronological cross-cultural survey of the history of costume. An analysis of period dress for men and women will be contextualized within the framework of supporting social and cultural infrastructures. Particular emphasis will be placed on European and North American costume addressing the evolution of fashion as a social practice. Concepts of design, as well as the motivations and influences of key historical dressmakers, tailors and designers will also be covered.

39 Hours  Fee: $620.48

Visual Merchandising and Display  
CFSN 703

Prerequisite(s): (FSN 14B and FSN 16B) or (FSN 221 and FSN 222)

This course will review the role of visual merchandising and display in the retail sector. The course will include an analysis of the approaches used in department stores, chain stores and independent boutiques. Topics will include the development and execution of creative strategies as well as corporate communication of these plans to the stores in the field.

39 Hours  Fee: $579.28

Fashion Coordination and Styling

These courses are designed to prepare students for a career as fashion coordination and styling consultants. Related certificate(s): Design for Arts and Entertainment (pg. 35), Fashion Coordination and Styling (pg. 50)

Fashion Coordination  
CDFC 101

This course is an introduction to adapting a fashion appearance to create an image working with clientele. It will acquaint students with the principles and practices of an image consulting industry. It may include concepts of demographics, customer awareness, personal colouring, figure considerations, wardrobe planning and selection. Basic techniques needed for the visual presentation of fashion through show production and promotion may be explored.

39 Hours  Fee: $652.41

Fashion Styling  
CDFC 102

This course is an introduction to methods and techniques for creating a mood, feeling or “look” through the use of clothing and related props. Study of product sourcing, location shooting, organizing resources, manipulation and reworking an image to communicate an idea may be presented. Creative thinking abilities, analytical skills, and cultural context may be explored to meet the demands and responsibilities of this field.

39 Hours  Fee: $652.41
Design Fundamentals in Fashion CDFC 103
An introduction to the fundamental elements and principles of two and three dimensional design as they apply to visual problems in fashion. Through a process of simulation, stylization, and approximation students may investigate how shape, line, texture, and colour harmonies are applied to body types to create an image, a style and/or an optical illusion. Emphasis is on the human body, practical problems, trends, association and terminology.
39 Hours Fee: $652.41

Creating the Image CDFC 104
This course is an introduction to methods for creating a “look.” Students may study the role of hair styling, make-up techniques, fabric manipulation or modification, garment alteration and accessorizing for interpretation or invention in wardrobe artistry. The application of colour to enhance, line for detail, fabric for function, design elements to flatten, fashion selection and/or the role of trends will be explored.
39 Hours Fee: $652.41

Fashion Shows and Special Events CDFC 105
This course will acquaint students with aspects of event production from concept for the visual presentation of merchandise through to methods of coordinating the implementation of promotions and shows. Topics may include design of the event, theme, audience, floor plan, schedule, vendor relations, budget planning, talent and contract negotiation, models, fittings, choreography, technical services, advertising and promotion, press kits, program and poster production, and any related special services.
39 Hours Fee: $652.41

Fashion, Culture, and Society CDFC 106
This course is a survey of clothing traditions from prehistoric time to the present. It focuses on the origin and function of clothing and how various cultural patterns have affected choices. Study of aesthetic, economic, environmental, political, and social influences on fashion will be explored. Clothing practices will be examined within the framework of the supporting social and cultural infrastructure. Students will examine the importance of clothing as an expression of individual and group identity.
39 Hours Fee: $652.41

Fashion Buying CDFC 107
This course is an introduction to buying fashion or softgoods as a career. Students will be acquainted with the principles and practices of buying designer and brand lines as well as the process of developing private label merchandise. Course content will include the role of the buyer, planning a fashion calendar, the buying cycle, predicting trends, building an assortment, fabric and garment sourcing, demographics, pricing and retail mathematic principals to profitability, developing private label merchandise, and merchandising to sell through and analysis of a season.
39 Hours Fee: $645.20

Fashion Photography CDFC 200
This is an introductory course in which the student becomes familiar with the fundamentals of camera use in photography. Assignments will cover lighting, image exposure, composition, and critical evaluation of your images. Some print output will be required. Lectures will cover style and techniques in photography for the fashion media with critical one-on-one input and group critique. A DSLR digital camera with manual settings is required.
39 Hours Fee: $652.41

Summer Fashion Intensive CDFC 999
Students have the opportunity to obtain the Certificate in Fashion Coordination and Styling through this unique fast-track program which covers all four required courses and four preselected elective courses.
Note: To gain access to priority enrollment, students should register in the certificate program in advance of the priority enrollment period. For further information, visit www.ryerson.ca/ce/fashionintensive or contact Academic Coordinator James Fowler at jamesbfowler8@ryerson.ca.
312 Hours Fee: $5181.32
Fashion Workshops

Start Your Own Fashion Business CDFA 840
Do you have what it takes to be a fashion entrepreneur? This workshop will help you answer the question. Whether you want to start your own label or offer your services on a freelance basis to the fashion business, we will introduce you to the tools needed and help you plan and start your own design or fashion business in Canada. Topics include the business of getting started, industry timing, costing, trademarks, licensing, marketing your collection, low-cost promotion strategies, and getting export-ready.

3 Hours HST included Fee: $131.08

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Some knowledge of fashion design, apparel production, and business planning is recommended.

Handwear and Glove Making CDFA 852
This is a workshop for the manufacturer of handwear. Students will make two pairs of gloves, one leather and the other in a material of their choice. Students will learn pattern manipulation for the hand.

Note: Basic sewing is a plus, however simple hand sewing is sufficient.

12 Hours HST included Fee: $468.64

Fashion Portfolio CDFA 853
A successful portfolio needs to show your creativity and follow the rules of a professional submission. This two-part workshop covers the details and requirements of the portfolio in the first session and review of your work in the second session. This allows someone with little or no work the time to create work for review. It is designed for students applying to a Ryerson Fashion program, as well as someone with a portfolio who wants professional critique.

7 Hours HST included Fee: $382.13

FILM STUDIES

The Film Studies program provides a good basic grounding in the principles, contemporary theories, and techniques of the motion picture medium. Courses range from an introduction to basic filmmaking to specialized courses such as screen writing; cinematography and lighting workshops; directing screen performance; production design; and sound design. It is an excellent starting point for people who want to pursue a career in the film industry or satisfy their curiosity about film and film production.

Equipment/Facilities Use: Please note that equipment and facilities use outside of class time will not be provided.

For more information, visit www.ryerson.ca/ce/summerfilm (page 214).

Business of Film

Related certificate(s): Film Studies (pg. 51)

Business of Film - Producing CDMP 109
The role of the producer and many of those aspects of the film business which the producer has to deal with will be discussed. Some of the topics to be examined are: the recent history of the film business scene, copyrighting, option and purchase agreements, budgets, script breakdown and scheduling, the filmmaking production process, etc. The student will be required to do class presentations and to complete several other assignments. On occasion, guests from the film industry will be invited to lecture. This course or one of CDMP 209 or CDMP 210 is equivalent to MPF 301.

39 Hours Fee: $591.64

Negotiating Deals in Hollywood CDMP 150
This course is very unique in that it allows students to role-play jobs in Hollywood such as a talent agent, a studio executive, and a film and TV producer. By structuring film deals and green-lighting movies, students will learn negotiation techniques, how film financing works, and how compensation for above the line talent is administered. We also focus on famous Hollywood deals from the past to learn how they were negotiated to the best possible outcomes.

Note: For further details, visit www.ryerson.ca/ce/hollywood.

Please contact Debbie Wilk, Manager, Program Support, at dwilk@ryerson.ca or 416.979.5000, ext. 6975, with your enrollment queries for this course.

39 Hours HST included Fee: $571.04

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
★ Business of Film - Development  CDMP 209

This course will deal further with those areas of pre-production and post-production begun in CDMP 109, in which the producer must be involved. Areas to be covered are all forms of contracts, financing the project, Canadian distribution and exhibition, foreign sales, the advertising campaign, etc. On occasion guests from the industry will be invited to speak. This course or one of CDMP 109, CDMP 309, or CDMP 409 is a credit for MPF 301.

39 Hours  Fee: $591.64

★ Movie Marketing and Distribution  CDMP 215

This course provides an introduction to the basics of motion picture marketing and distribution. The marketing topics include publicity, promotion, and advertising for feature films. Film distribution aspects consider the means of acquisition, advertising campaigns, and current methods of distribution that include new media alternatives to traditional channels. This course is designed for the independent producer and filmmaker, and provides a comprehensive understanding of significant business aspects of the film industry. This course or one of CDMP 109 or CDMP 209 is a credit for MPF 301.

39 Hours  Fee: $591.64

Film Studies

These courses introduce you to the techniques of motion picture film production with a focus on practical filmmaking. Their combination of lecture and lab familiarizes you with cinematographic technology and methods, and gives you opportunities to apply your knowledge in exercises and project work. Because of limited space, registration in motion picture production courses is offered to registered Film Studies certificate program students first. Related certificate(s): Design for Arts and Entertainment (pg. 35), Film Studies (pg. 51), Image Arts (Film Studies, New Media, or Photography Studies) (pg. 67), Media Writing Fundamentals (pg. 76)

★ Digital Film Production I  CDMP 119

This is an introductory course in the techniques and language of digital motion picture production. Instruction is given in basic camera handling and story development. Various cinematographic and directorial techniques are demonstrated. Short exercises designed around the lectures are shot and edited. Note: Students must have access to a camcorder and editing facilities.

39 Hours  Fee: $747.17

★ Material Fee: A material fee of $35 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Film History  CDMP 120

This course examines cinema from its origins to the present. Topics include silent and sound film, the studio system in the U.S.A., contributions of western European film and notable filmmakers and films in the evolution of film art and practice. Alternative film styles and techniques will be examined against the background of the monolithic development of the narrative film and both will be considered within the context of the political, cultural and economic issues which animated their times. CDMP 120 is equivalent to MPF 327.

39 Hours  Fee: $595.76
★ Film Theory CDMP 121
This segment will survey major theoretical approaches to cinema from formalist and realist traditions to contemporary developments in the discipline. Students will read classic texts, view significant films, and be introduced to current critical theory. They will gain knowledge of the rhetoric, grammar, structure, aesthetics, and ideology of cinema, and will acquire a frame of reference for questioning the inherent belief systems within certain works of cinematic art. CDMP 121 is equivalent to MPF 427.
39 Hours Fee: $595.76

★ Production Design for Film and Theatre CDMP 122
This course offers an in-depth exploration of scenography (design for arts and entertainment), emphasizing original concept design. Students may choose to develop production proposals for film, television, theatrical photography, or new media installations. Students will learn to analyze dramatic text and narrative frameworks, followed by the use of visual research techniques to support scenographic concepts. Students will apply their learning by developing a three-dimensional model and costume renderings as well as storyboards for a paper production of choice, whether a film, video, installation, book of theatrical photographs, or website. CDMP 122 is equivalent to FPN 501.
39 Hours Fee: $591.64

★ Art Direction for Film and Special Events CDMP 123
This course addresses the technical skills needed to work in a film or television art department. Working with half-hour scripts, students will create art department breakdowns, and conduct a location survey leading to entertainment specific drafting, including a title block, ground plan, elevation, and isometric details. The students will incorporate a graphic prop to the retrofitted location. Students will also have the opportunity to assemble an art direction binder to maintain crucial administrative records such as budgets, calendars, directories, and design notes. People with an interest in motion picture, television, and film/video production will find this course particularly useful. It is also relevant for architects, interior designers, stage designers, photographers, and new media artists who want to expand their professional knowledge and activities. CDMP 123 is equivalent to FPN 601.
39 Hours Fee: $591.64

★ Fiction Screenwriting CDMP 125
This course introduces students to basic writing and research techniques as they relate to fiction filmmaking and the film business. It acquaints the student with the basics of writing for production. The concentration is on visual writing at the outline stage for fiction films. Methodologies for interviewing as well as story and subject research will be dealt with in depth. The course will also deal with the basic forms of documents in commercial production such as proposals, treatments, submissions, and budgets. CDMP 125 is equivalent to MPF 324.
39 Hours Fee: $623.57
Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 214)).

★ Non-Fiction Screenwriting CDMP 126
This course introduces students to basic writing and research techniques as they relate to filmmaking and the film business. It acquaints the student with the basics of writing for production. The concentration is on documentary film writing methods and techniques. Methodologies for interviewing as well as subject research will be dealt with in depth. The course will also deal with the basic forms of documents required for production such as proposals, treatments, submissions, and budgets as they pertain to documentary film production. CDMP 126 is equivalent to MPF 424.
39 Hours Fee: $623.57

★ Motion Picture Production I CDMP 129
This is an introductory course in the techniques and language of motion picture film production. Instruction is given in basic camera and editing equipment handling. Various cinematographic, directorial, and editing processes are discussed. Short-film exercises designed around the lectures are undertaken by students. This course will be valuable for people interested in learning practical filmmaking and basic technology and for teachers and other professionals who work in or employ others in the field of audio-visual tools. (Equivalent to MPF 106 and 206.) (Formerly CDMP 12A/B.)
78 Hours Fee: $1411.52
Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 214)).
**Film Technology II**  
**CDMP 223**

Prerequisite(s): (CDMP 12 or CDMP 12B or CDMP 129) or CDMP 117 and CDMP 118

This course introduces students to theoretical and practical aspects of complex systems and equipment employed in production in both studio and location situations. It will include an examination of the entire sequence of production and post-production processes and the equipment and systems employed therein, including synchronous and non-synchronous systems in both shooting and post-production. (Equivalent to MPF 323.)

39 Hours  
Fee: $589.56

Material Fee: A material fee of $35 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at [www.ryerson.ca/ce](http://www.ryerson.ca/ce).

Supplies to be purchased by the student: Approximately $50 for the purchase of materials required for practice on certain pieces of equipment.

Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 214)).

**Motion Picture Production II**  
**CDMP 229**

Prerequisite(s): (CDMP 129 or CDMP 12A/B or CDMP 12), CDMP 117, and CDMP 118

This intermediate-level course is a continuation of CDMP 129. In this lecture/lab teaching mode course, students will produce both a non-fiction and fiction film. The course is divided between fiction and non-fiction in order to further develop production and post-production techniques. (Equivalent to MPF 322 and MPF 422.)

78 Hours  
Fee: $1411.52

Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999 (page 214)).

**Short Filmmaking: On Location**  
**CDMP 231**

Living in our world exposed to constant media sources, the sharing of information forms our reality. In this production class, we are looking at media arts, using inspiration of art and popular culture. Innovative approaches to short film-making will be the focus of the course. Motion will be explored in a digital environment, using principally Adobe After Effects. Combining technical and theoretical components, this unique course will take advantage of the various shooting possibilities and cultural resources available at selected location and its surrounding areas. This course will include lectures, organized visits, technical workshops in Adobe After Effects, and critiques of student work. (Equivalent to one Professionally Related elective from Table I; see Image Arts in the Undergraduate Program Calendar at [www.ryerson.ca](http://www.ryerson.ca).)

Note: Please visit [www.ryerson.ca/ce/onlocation](http://www.ryerson.ca/ce/onlocation) for further details. A $500 deposit is required. The course fee covers tuition, accommodation, all transit, professional guide, and classroom facilities. Students are required to make their own transportation arrangements to and from the location.

Enrollment for this course requires permission of the instructor/department. Please contact James McCrorie at 416.979.5000, ext. 6847, or mccrorie@ryerson.ca.

Fee: $TBA

Students must bring a video camera and laptop loaded with Adobe After Effects.

**Documentary Filmmaking in Cuba**  
**CDMP 232**

This course offers students a four-week residency at the International School of Film and Television in San Antonio de los Baños, in Havana Province, Cuba.

Working with mentors from the ranks of Cuban film professionals such as cinematographers, sound recordists, and editors, students will be guided through the documentary production process. Translation from Spanish to English will be provided at all times. (Equivalent to one Professional elective from Table I; see the Image Arts program in the Undergraduate Program Calendar at [www.ryerson.ca](http://www.ryerson.ca).)

Note: Please visit [www.ryerson.ca/ce/cuba](http://www.ryerson.ca/ce/cuba) for further details. A $500 deposit is required. This course will be held in San Antonio de los Baños, in Havana Province, Cuba. The course fee covers tuition and residency (accommodation and meals).

Enrollment for this course requires permission of the instructor/department. Please contact Alex Anderson at 416.979.5000, ext. 6855, or alex.anderson@ryerson.ca.

39 Hours  
Fee: $TBA

Students must bring a mini DV camera and laptop loaded with current editing software.
**Writing Film Fiction**  
**CDMP 606**  
This course introduces students to basic writing and research techniques that relate to fiction filmmaking and the film business. It acquaints the student with the basics of writing for production. Concentration is on visual writing at the outline stage for fiction films. Methodologies for interviewing as well as story and subject research will be dealt with. The basic forms of documents in commercial production such as proposals, treatments, submissions, and budgets are discussed.  
39 Hours  
Fee: $571.04

**Introduction to Filmmaking**  
**CDMP 609**  
This course will teach you how to be creative in making your own movies. Learn the theory of filmmaking and experiment with hands-on creativity; explore the techniques and language of digital motion picture production. Expand your knowledge through short exercises and group assignments designed around lecture topics. Learners will produce a short film that will be screened in the final class.  
Note: Instructor: Mark Tollefson. After graduating from Ryerson's film school in 1985, Tollefson worked on feature films and TV series as a director, producer, and editor. A film project he produced in 1998, Death Threat, premiered at the Toronto International Film Festival and spawned the hit CBC series Little Mosque on the Prairie. His recent editing credits include documentary series for National Geographic, The Discovery Channel, and the Smithsonian Institute. His work has received distinctions from the National Film Board, Geographic, The Discovery Channel, and the Smithsonian Institute.  
Each student should bring a video camera; a mini DV camera is recommended.  
19.5 Hours  
HST included  
Fee: $436.72

**Writing Film Reviews**  
**CDMP 610**  
This workshop will combine your enjoyment of film with a desire to write critically about it. It will help you sharpen your ability to compose solid critical writing to capture the attention of an online or print audience. Through film screenings, lectures and practice sessions, you will be introduced to writing film criticism. The course will offer an opportunity to compose at least one review which will be shared in class.  
Instructor: Kevin Courrier. Courrier is a freelance writer/broadcaster with CBC Radio and currently a film critic with Critics at Large. He is also the author of a number of books (Dangerous Kitchen: The Subversive World of Zappa, Randy Newman’s American Dreams, and Artificial Paradise: The Dark Side of The Beatles Utopian Dream). He teaches part-time film courses to seniors through the LIFE Institute at Ryerson University in Toronto and other venues. His forthcoming book is Reflections in the Hall of Mirrors: American Movies and the Politics of Idealism.  
25 Hours  
HST included  
Fee: $436.72

**Advanced Screenwriting**  
**CDMP 700**  
Prerequisite(s): CDMP 125 or CDMP 126  
This advanced workshop course is designed for those students with a special interest in writing for film or television. The course deals with the stages of screenwriting in the dramatic form from the development of the outline to the script treatment. CDMP 700 is equivalent to FPN 503.  
39 Hours  
Fee: $635.93

**Summer Film School**  
**CDMP 999**  
Students now have the opportunity to obtain the Certificate in Film Studies over 12 intensive, six-day weeks. This unique fast-track program covers all required motion picture production, technology, and digital editing courses, plus three electives. Enrollment is limited to 25 students. For course information, contact James Warrack at 416.979.3000, ext. 2237, or jwarrack@ryerson.ca.  
Note: To gain access to priority enrollment, students should register in the certificate program in advance of the priority enrollment period. Please visit www.ryerson.ca/ce/summerfilm for further details.  
390 Hours  
Fee: $6791.17

**Directing Screen Performance - Basic Principles**  
**CFPN 502**  
This workshop-style course is based on the premise that the only way to learn how to direct actors is to learn about acting. Students participate in acting exercises, improvisations and discussions on the acting process as it relates to the rehearsal and shooting of dramatic films, from the point of view of actors and directors. (Formerly first half of FPN32AB)  
39 Hours  
Fee: $639.02  
Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999).

**Cinematography and Lighting Design I**  
**CFPN 531**  
This workshop is an exploration of cinematography, with a special focus on the stylistics of lighting as an essential aspect of cinematography. It centres on using lighting design not merely to establish a mood or time of day, but to support and further the theme or premise of the work.  
39 Hours  
Fee: $596.79  
Note: This course is offered in the Spring/Summer term as part of ‘Summer Film School’ (CDMP 999).

**Cinematography and Lighting Design II**  
**CFPN 631**  
Prerequisite(s): CFPN 531  
This course is a continuation of Cinematography and Lighting Design I. It will include exercises in studio lighting as well as an exploration of cinematographic and lighting design problems for location shooting, including colour balancing. The specific cinematographic and lighting aspects of TV commercials, documentaries and feature films will be explored.  
39 Hours  
Fee: $639.02

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
FINANCE AND FINANCIAL PLANNING

Whether you want to learn the fundamentals of finance, progress to a more advanced level, earn a professional designation, or develop expertise in specialized business applications, the following finance courses, along with the courses listed under Accounting, will meet your needs.

Finance

All CFIN course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Accounting – Finance (pg. 14), Economics and Finance (pg. 39), Financial Mathematics Modeling (pg. 52), Financial Planning (pg. 53), Global Management Studies (pg. 59)

★ Managerial Finance I CFIN 300
Prerequisite(s): CACC 100 or CACC 110 or Direct Entry

Students are introduced to the major concepts in finance and investments which are the time value of money, discounted cash flows, and risk and return. Students are given a thorough introduction to the mathematics of asset valuation. In addition, students learn how individual investors assess and reduce the risk associated with their investment decisions. The course examines how firms make investment decisions. The investment decision allocates scarce resources to projects in the firm, and involves financial forecasting, asset valuation, capital budgeting, risk management, working capital management and performance assessment.

39 Hours Fee: $574.59

★ Managerial Finance II CFIN 401
Prerequisite(s): CFIN 300 or CECN 320 or HTA 602

This course builds on the material in Finance 300. Students learn how firms assess risk when making investment decisions. Students also examine how firms decide to finance projects they assess as being worthwhile. This decision involves capital structure, dividend policy, financial instruments, risk-return trade-offs, financial planning and the cost of capital. In addition, students are introduced to derivatives, and their uses in investments, risk-management, and capital structure. Firm management in an international context is integrated into the topics covered in the course.

39 Hours Fee: $574.59

★ Investment Analysis CFIN 501
Corequisite(s): CFIN 401

This course is designed to give students an overview of both security analysis and portfolio management. The course covers the valuation of common stock, Treasury bills and bonds, the tradeoff between risk and return, the efficient market hypothesis, modern portfolio theory, equilibrium pricing relationships, and the evaluation of portfolio performance. Playing an investment challenge game is a requirement of the course.

39 Hours Fee: $574.59

★ Personal Financial Planning CFIN 502
Prerequisite(s): CFIN 300 or HTA 602

This course introduces a framework of basic principles and the financial planning techniques used in professional practice. Topics include setting goals and budgeting, family life cycle, taxation, insurance, managing credit and debt, home ownership and investment principles and types.

39 Hours Fee: $574.59

★ Small Business Finance CFIN 510
Prerequisite(s): CFIN 401

In Canada, the majority of new jobs are created by small, entrepreneurial firms. The financial issues confronting entrepreneurial firms are very different from those that face large established companies. The focus of this course will be on analyzing the unique financial issues which face entrepreneurial firms.

39 Hours Fee: $574.59

★ Risk Management and Insurance CFIN 512
Prerequisite(s): CFIN 300 or HTA 602

This course looks at risk exposures and how these risks are addressed. Risk management is a life-long process that involves five steps: identification, evaluation, control, financing and monitoring. Risks can be managed with control techniques or can be financed using insurance. The course covers different types of insurance, both life, health and disability, and property, home and automobile insurance. Included are methods to calculate insurance needs.

39 Hours Fee: $574.59

★ Personal Finance CFIN 562
Antirequisite(s): CFIN 502

This course teaches personal financial planning to students who may not have a strong math ability and/or interest so they will be better able to manage and plan their own finances and provide informed support to middle and lower-income clients. Topics include: steps in the financial planning process, budgeting, formulating financial goals, using tax rules to your advantage, debt and credit management, home-buying, insurance, investing fundamentals, planning for retirement and basic issues in estate planning.

39 Hours Fee: $574.59
★ Derivatives CFIN 601  
Prerequisite(s): CFIN 501

This course is entirely dedicated to studying derivative securities—forward and futures contracts and how they modify the risk characteristics of a portfolio, how the exchange, clearing house and marketing to market systems work, arbitrage pricing, relationships, interest rate and currency swaps and the use of various types of options contracts and their use for hedging risk.

39 Hours  Fee: $574.59

★ Retirement and Estate Planning CFIN 612  
Prerequisite(s): CFIN 300  
Corequisite(s): CFIN 502

This course covers the issues that affect financial needs at retirement—earnings and taxation. Various vehicles for saving for retirement are examined including both private and employer-sponsored. The course also examines ways to withdraw savings at retirement. Estate planning looks at ways to ensure that assets are distributed both in accordance with one’s wishes and for the maximum benefit of one’s heirs.

39 Hours  Fee: $574.59

★ International Finance CFIN 621  
Prerequisite(s): CFIN 401

This course will extend the corporate finance material of FIN 401 and the investment-related topics of FIN 501 to the international setting. The overriding theme will be the exposure of multinational corporations and investors to the risk of varying exchange rates. Topics include: international financial markets (i.e., euro currency, bond and equity markets), various parity relationships, forecasting exchange rates, managing exposure to changing exchange rates, multinational capital budgeting and multi-national cost of capital. (Formerly IBS 621)

39 Hours  Fee: $574.59

★ Advanced Personal Financial Planning CFIN 812  
Prerequisite(s): CACC 522, CFIN 501, CFIN 512 and CFIN 612

This Capstone Course is designed to help students integrate concepts, knowledge and skills acquired in earlier courses. Students will demonstrate a range of professional competencies and communication skills through case studies and oral and written reports. Working in groups, students will develop critical thinking and problem-solving skills and demonstrate their mastery of the material by developing a complete financial plan. Lectures will focus on the practical application and integration of all personal finance topics.

39 Hours  Fee: $574.59

FOOD SECURITY

These courses address issues of hunger, malnutrition, distribution of food, and environmental sustainability. For more information, visit www.ryerson.ca/ce/foodsecurity.

Food Security  
Related certificate(s): Community Engagement, Leadership, and Development (pg. 29), Food Security (pg. 54), Sustainability Management and Enterprise Process Excellence (pg. 104)

★ Selected Topics in Food Security CFNY 400  
Prerequisite(s): CFNY 403

Course theme will vary. Topics will include sustainable food production, income security and food security, and case studies in food security. 

Note: Theme: Indigenous Food Systems in Canada  
This is an independent study course and students planning to enroll require permission of the Academic Coordinator. Please contact Reg Noble at rmbale@ryerson.ca.

39 Hours  Fee: $575.16

Material Fee: Additional costs for the field trip are not included in the course fee. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Food Security Concepts and Principles CFNY 403

The continuing reality of hunger and the unsustainable nature of current social, economic and food systems, both locally and globally, make food security an essential concern. This course introduces students to the concepts, programs and policies of food security, in Canada and internationally, with emphasis on the contribution of income, employment, social assistance, urban planning, and food production and distribution systems to finding solutions to food insecurity.

39 Hours  Fee: $575.16

★ Food Policy and Programs for Food Security CFNY 404

Few jurisdictions in the world have put in place a full suite of policies and programs to create food security. Moreover, few countries have a national food policy. This course explores why development of program and policy initiatives for food security has occurred at such a slow pace and the impacts of this phenomenon. Frameworks for determining effective food security policies and programs are discussed, and proposals for policy and program change analyzed.

39 Hours  Fee: $575.16

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
The course offers information on conducting and evaluating research for food security. The course will examine different attempts to conceptualize and operationalize food security and insecurity at the individual, household, community and national levels; will introduce some methodological insights from social sciences useful for conducting research on food security; and will present tools for planning and managing project and program evaluation.

39 Hours Fee: $575.16

Food Prices and Food Security CFNY 406

The course examines food prices, markets, recent food prices crises and food security. Global as well as local issues in food production, processing, distribution, and consumption are explored. Topics include an examination of supply and demand; food budgets; food price and food policy analysis; agricultural subsidies; food safety; international trade; biofuels; and speculation. Students will develop an understanding of the overall effect of income, policies, markets and prices in determining food consumption.

39 Hours Fee: $575.16

Community Development and Food Security CFNY 407

This course looks at the importance of sustainable community development for food security, and how community-based food and nutrition projects can promote economic development. While income-generating projects can have an immediate impact on individual and household food security, food security projects contribute to community development through their impacts on the formation of human and social capital. Cases from around the world will be used as examples.

39 Hours Fee: $575.16

Urban Food Security CFNY 408

The question of food security is a particular concern for urban populations as almost half of the world's population now resides in cities. Ensuring safe and affordable food for urban populations is a real challenge even for advanced industrial economies, and even worse for developing countries where resources are limited and poverty rates exceed 50 percent. This course will examine the unique challenges of creating food security in urban areas.

39 Hours Fee: $579.28

Gender and Food Security CFNY 409

The course explores the links between gender and food security, starting with a discussion of the concept of gender and a critical historical review of the Women's Movement. Contemporary issues, such as gender roles, social exclusion, resources, control, and labour, are examined, as well as the use of gender analysis and tools. The importance of agency and the effects of public policies and actions on gender equity are studied through case studies from around the world.

39 Hours Fee: $591.64

Indigenous Food Systems in Canada CFNY 510

The course introduces students to Indigenous Peoples' food, nutrition, and health issues. Using the concept of food security as a framework, food availability, accessibility, adequacy, and acceptability will be discussed in the context of historical and current Indigenous food systems. Through lectures and class discussions, topics covered include: colonization and reconciliation; Indigenous worldviews; oral history and food; traditional foods; the social determinants of health; emerging health trends; food policy, community nutrition, and Indigenous food sovereignty.

39 Hours Fee: $575.00

How Safe Is Our Food? CVFN 233

This course presents a comprehensive overview of food safety issues ranging from well-studied and recognized microbial food-borne diseases, to concerns arising from new technology and processes, to the problem of pathogenic organisms returning in a more virulent form. The course also takes a critical view of inspection and monitoring methods for food safety and examines policy, ethics, and attempts to establish international food standards.

39 Hours Fee: $588.55
Understanding Urban Agriculture  CVFN 410

Millions globally practise urban agriculture, with governments and civil society organizations increasingly promoting it to enhance urban food security, health, community building, sustainable livelihoods, and environmental management. This course expands the understanding of urban agriculture, its main types and dimensions, its potential impacts, the constraints and opportunities facing it, the stakeholders involved in it, the historical contexts shaping it, and the local, regional, and international development trends bearing on it.

Note: This course has been developed in partnership with ETC-Urban Agriculture (ETC-UA) and the Resource Centre on Urban Agriculture and Food Security (RUAF), with technical support provided by The Chang School.

This course is part of a portfolio of four distance education courses on urban agriculture, including the following: CVFN 410, CVFN 411, CVFN 412, and CVFN 413. These courses comprise a course series; students who complete all four courses will receive a Professional Development Award. For more information, visit Course Series in Urban Agriculture (page 122).

39 Hours  Fee: $610.18

Dimensions of Urban Agriculture  CVFN 411

This course describes the dimensions (functions, roles, benefits, potential risks) of urban agriculture and how these complement, supplement, compete with, substitute for, or undermine those provided by other land uses, sectoral activities and actors. The main dimensions covered are: health and food security, socio-cultural dimensions, economic dimensions, and environmental dimensions. Two well-documented case studies will be used throughout the course to highlight each dimension separately, before bringing them all together.

Note: This course has been developed in partnership with ETC-Urban Agriculture (ETC-UA) and the Resource Centre on Urban Agriculture and Food Security (RUAF), with technical support provided by The Chang School.

This course is part of a portfolio of four distance education courses on urban agriculture, including the following: CVFN 410, CVFN 411, CVFN 412, and CVFN 413. These courses comprise a course series; students who complete all four courses will receive a Professional Development Award. For more information, visit Course Series in Urban Agriculture (page 122).

39 Hours  Fee: $610.18

Urban Agriculture Types  CVFN 412

Urban Agriculture (UA) is a dynamic concept that involves input supply, production, agro-processing and marketing. This course will discuss and illustrate different UA types and activities in terms of their resource-use, location, policy and institutional frameworks, functions, technical aspects, development challenges and potential innovations. It will also look into processes of decision making and location of UA and discuss a methodology for farmer-centred learning, research and extension for UA.

Note: This course has been developed in partnership with ETC-Urban Agriculture (ETC-UA) and the Resource Centre on Urban Agriculture and Food Security (RUAF), with technical support provided by The Chang School.

This course is part of a portfolio of four distance education courses on urban agriculture, including the following: CVFN 410, CVFN 411, CVFN 412, and CVFN 413. These courses comprise a course series; students who complete all four courses will receive a Professional Development Award. For more information, visit Course Series in Urban Agriculture (page 122).

39 Hours  Fee: $610.18

Urban Agriculture Policy-Making  CVFN 413

This course discusses participatory policy formulation processes leading to sustainable development and institutionalisation of urban agriculture. It starts discussing tools and methodologies for analysing stakeholders, farming systems, land uses, and regulatory frameworks. Next steps involve strategic planning, followed by the formulation of action projects and policies and their implementation (considering contrasting disciplinary perspectives), and finally, monitoring and evaluation. The course highlights lessons from a wide array of cities around the world.

Note: This course has been developed in partnership with ETC-Urban Agriculture (ETC-UA) and the Resource Centre on Urban Agriculture and Food Security (RUAF), with technical support provided by The Chang School.

This course is part of a portfolio of four distance education courses on urban agriculture, including the following: CVFN 410, CVFN 411, CVFN 412, and CVFN 413. These courses comprise a course series; students who complete all four courses will receive a professional achievement award. For more information, visit Course Series in Urban Agriculture (page 122).

39 Hours  Fee: $610.18
Foods
For information, contact Reg Noble, Academic Coordinator, Food Security, at food@ryerson.ca.

Social and Cultural Dimensions of Food  CFND 401
Prerequisite(s): FND 100 and FNN 100
Corequisite(s): FNN 201
Students will critically examine the socially constructed meanings of cuisine, culture, multiculturalism, race, and ethnicity. The cultural impact of Canadian immigration trends provides the backdrop for a major project that enables students to explore diversity through cuisine.
78 Hours Fee: $579.28

Professional Practice
For information, contact Reg Noble, Academic Coordinator, Food Security, at food@ryerson.ca.

Professional Practice: Placement  CFNP 400
Prerequisite(s): Department consent
This course is designed to provide experiential learning opportunities in health, business, community and educational settings. Students will be expected to reflect on (1) their own professional and leadership potential, and (2) the evolution of their profession with respect to their future contribution to nutrition practice.
39 Hours Fee: $579.28

Research Methods
For information, contact Reg Noble, Academic Coordinator, Food Security, at food@ryerson.ca.

Independent Study  CFNR 400
Prerequisite(s): FNR 310 or FNR 320
This course is designed for students who wish to pursue an independent project with a faculty advisor beyond the FNR 301 level. Students must have at least an A- average in the relevant discipline and the approval of the supervising faculty member.
39 Hours Fee: $575.16

FRENCH
These courses offer opportunities to increase your professional qualifications and to prepare for travel. In order to choose the appropriate course level, you are advised to consult the guidelines on the Department of Languages, Literatures, and Cultures website at www.ryerson.ca/llc. Also, students who have no knowledge of French may enroll directly into CFRE 101. However, all students must take the French Placement Test or attend one of our interview/placement assessment sessions. For more information, visit www.ryerson.ca/ce/french.

French
Related certificate(s): Business Communication (pg. 23), Business French and Translation (pg. 25), French, Proficiency in (pg. 55)

Introductory French I  CFRE 101
Classes use a communicative approach and the emphasis is on oral proficiency, although reading and writing skills are also developed. Through extensive practice in class, students acquire the basic vocabulary and constructions of French. Classwork is supplemented by handouts, audio recordings and cultural readings. Not open to students who have completed Gr. 12 or OAC French. An online placement test is required. (LL)
39 Hours Fee: $517.48

Introductory French II  CFRE 201
This course uses a communicative approach and although the emphasis is on oral proficiency, reading and writing skills are also further developed. Through extensive practice in class, students develop their knowledge of the basic vocabulary and constructions of French. Classwork is supplemented by handouts, audio recordings and cultural readings. Not open to students who have completed Grade 12 or OAC French. A online placement test is required. (LL)
39 Hours Fee: $508.21

Intermediate French I  CFRE 301
This course for students with intermediate high school French skills includes cultural readings and excerpts from the media. The course further develops the student’s ability to understand, speak, read and write French. A online placement test is required. (LL) (UL)
39 Hours Fee: $508.21
★ Intermediate French II CFRE 401
This course emphasises the four essential skills of understanding, speaking, reading and writing French. Students will develop their knowledge of French through analysis of excerpts from contemporary media as well as cultural readings, including short fictional texts. Presentations, debates and discussions are used to enhance the students’ skills in spoken French. (LL) (UL)
39 Hours Fee: $508.21

★ French Conversation and Pronunciation CFRE 402
This PR/PE course is intended to enhance oral proficiency by focusing on vocabulary, syntax, auditive comprehension, pronunciation and intonation. Some emphasis will be placed on the significance of linguistic registers and regional varieties of French. Students will improve their French through a range of activities including the analysis of audiovisual materials, films and plays as well as discussion of written texts from newspapers, advertisements and business news.
Note: If a student has completed, or is currently taking, one of the following courses while enrolled in CFRE 402, an interview/placement assessment is not required: CFRE 301, CFRE 401, or CFRE 501. Otherwise, the student must take the French online placement test before enrolling in this course.
39 Hours Fee: $510.27

★ Speaking and Writing French I CFRE 501
Designed for students with good oral skills in French who wish to review major grammatical structures, develop vocabulary, and improve their writing. Course emphasizes differences/parallels between written and oral French, and development of variety in writing style. Writing assignments based on essays, literary works, press articles, etc., chosen to illustrate styles and levels of contemporary written French. A literary work will form the basis for class discussions and written work. (LL) (UL)
39 Hours Fee: $503.06

★ Advanced Business French I CFRE 502
Prerequisite(s): CFRE 515 or placement test
Students with a good background in the language will find this course helpful in improving their ability to use French in business transactions and communications. There is an emphasis on developing business vocabulary, particularly correspondence formulae and terminology. Differences between English and French writing protocol is stressed.
Note: All students must take an interview/placement assessment before enrolling in this course. (See Interviews and Placement Assessments on the Chang School website at www.ryerson.ca/ce/openhouse).
39 Hours Fee: $495.85
CFRE 502 and CFRE 507 can be taken in the same term.

★ Language and Culture I CFRE 505
This course introduces students to elements of cultural studies, literary and linguistic analysis while developing an appreciation of French language and culture. Students will examine texts from various sources, including some complete works of representative French authors and journalistic writing, advertising, scholarly articles. Basic essay skills and organization form an integral part of the course. Special attention is given to complex grammatical structures, various language registers both written and oral and sociolinguistic issues in French. (LL) (UL)
39 Hours Fee: $501.00

★ English-French Translation I CFRE 507
Students at this level are well-acquainted with most of the rules of French grammar. This course concentrates on furthering this knowledge through the development of English to French translation techniques. Through numerous exercises, students learn to express the same concepts naturally in the target language, without undue interference from the source language. (LL) (UL)
Note: All students must take an interview/placement assessment before enrolling in this course. (See Interviews and Placement Assessments on the Chang School website at www.ryerson.ca/ce/openhouse).
39 Hours Fee: $495.85
CFRE 507 and CFRE 502 can be taken in the same term.

★ Intro to 20th C French Literature I CFRE 508
This course will examine the major literary currents in French literature from the Belle Epoque to World War II, as well as the historical and cultural events connected with them. After an introduction to the popular bourgeois farces, the roman fleuve, and detective fiction, this course will focus on the emergence of new literary movements, such as naturalism, symbolism, dadaism, surrealism, and existentialism. Students will analyze these movements through the study of prose, poetry, theatre and theoretical texts. (LL) (UL)
39 Hours Fee: $495.85

★ Franco-Canadian Literature I CFRE 509
This course presents Quebec and French-Canadian literature from the beginning of the twentieth century until the end of the Quiet Revolution. Students will consider the aesthetic originality, the critical reception and socio-historical context of representative works by authors such as Emile Nelligan, Gabrielle Roy, Anne Hébert, Antonine Maillet, and Michel Tremblay. Topics will include the roman de la terre, surrealism, automatism, and existentialism. The literary use of joual and the Parti pris movement. (LL) (UL)
39 Hours Fee: $501.00

CFRE 502 and CFRE 507 can be taken in the same term.
**Effective Writing I** CFRE 510
This course is for students with sound knowledge of French who wish to review major grammatical structures, develop vocabulary, and improve their writing. Through writing exercises, the course emphasizes clear explanation of French grammar, differences/parallels between written and oral French, use of precise terminology, and development of variety in writing style. Writing assignments are based on excerpts from essays, literary works, press articles, etc., chosen to illustrate styles and levels of contemporary written French. (LL) (UL)
39 Hours Fee: $503.06

**Introduction to Business French** CFRE 515
This PR/PE course introduces students to business French while continuing to develop their general competence in French. Students learn to master vocabulary specific to business, banking and administration, while becoming aware of formal and informal styles of written and spoken French suitable to the workplace. Materials include newspaper and journal articles as well as videoclips from business news. The language of instruction is French. This course is not open to native French speakers.
39 Hours Fee: $495.85

**Speaking and Writing French II** CFRE 601
Designed for students with good oral skills in French who wish to master major grammatical structures, develop vocabulary, and hone their writing skills, this course stresses the importance of distinguishing written from oral French and of developing of variety in writing style. Writing assignments based on essays, literary works, press articles, etc., chosen to illustrate styles and levels of contemporary written French. A literary work will form the basis for class discussions and written work. (LL) (UL)
39 Hours Fee: $503.06

**Advanced Business French II** CFRE 602
Students with a solid background in the language will find this course helpful in perfecting their ability to use French in business transactions and communications. There is a strong emphasis on developing business vocabulary, particularly correspondence formulae and terminology. Differences between English and French correspondence protocol is highlighted.

*Note: All students must take an interview/placement assessment before enrolling in this course. (See Interviews and Placement Assessments on the Chang School website at www.ryerson.ca/ce/openhouse).*
39 Hours Fee: $495.85

**Language and Culture II** CFRE 605
This course is for students who wish to further their knowledge of cultural studies, as well as literary and linguistic analysis. While gaining an appreciation of the language and culture of the Francophone regions outside Europe, students examine texts of all types. Essay-writing skills and organization form an integral part of the course. Special attention is given to language registers both written and oral as well as sociolinguistic issues in the Francophone world. (LL) (UL)

*Note: All students must take an interview/placement assessment before enrolling in this course. (See Interviews and Placement Assessments on the Chang School website at www.ryerson.ca/ce/openhouse).*
39 Hours Fee: $495.85

**English-French Translation II** CFRE 607
Students at this level are well-acquainted with all of the rules of French grammar. This course concentrates on making use of this knowledge through the development of a sound English-to-French translation methodology. Through exercises, students learn to express the same concepts naturally in the target language, without undue interference from the source language, using a variety of non-literary texts. (LL) (UL)
39 Hours Fee: $495.85

*CFRE 607, CFRE 602, and CFRE 707 can be taken in the same term.*

**Intro to 20th C French Literature II** CFRE 608
French literature is characterized by various types of experimentation with form, content and generic boundaries. Students will be invited to discover texts ranging from avant-garde Parisian theatre to the Nouveau roman and contemporary autofiction. This course will examine issues such as colonization and decolonization, feminism, immigration and alienation, identity, marginalization and otherness. (LL) (UL)
39 Hours Fee: $510.27

**Franco-Canadian Literature II** CFRE 609
This course presents Quebec and French-Canadian literature from the 1970s until present-day. Students will consider the aesthetic originality, the critical reception and socio-historical context of representative works by authors such as Normand Chaurette, Marie Laberge, Jean-Marc Dalpé, Daniel Poliquin, Nancy Huston, Dany Laferrière and Robert Lepage. Topics include the Francophone diaspora in Canada, minority and immigrant literatures, exile and marginalization, and autobiographical writing. (LL) (UL)
39 Hours Fee: $510.27

*CFRE 607, CFRE 602, and CFRE 707 can be taken in the same term.*
Effective Writing II  CFRE 610
This course complements FRE510 and is for students with a sound knowledge of French wishing to develop vocabulary and improve their writing. Through writing exercises, the course emphasizes clear explanation of French grammar, differences/parallels between written and oral French, use of precise terminology, and development of variety in writing style. Assignments are based on excerpts from essays, literary works, press articles, etc., chosen to illustrate styles and levels of contemporary written French. (LL) (UL)
39 Hours  Fee: $495.85

French in the Media I  CFRE 701
An advanced language course designed to improve significantly students' speaking, comprehension and writing skills through the analysis of contemporary issues and their representation in the francophone news media with an emphasis on journalistic and magazine writing. Topics broaden students' vocabulary, sensitize them to complex language structures and language registers. Oral presentations and debates focus on current events; students write short essays and work on a media-related project. (LL) (UL)
39 Hours  Fee: $503.06

Intro to Franco-Canadian Culture I  CFRE 704
This course introduces students to twentieth century and contemporary Quebec culture. Students will examine forms of cultural expression such as cinema, television, visual arts, literature, music and popular culture. Topics include politics and popular song, language and language laws, hockey and its heroes, Quebec media, the role of religious institutions, immigration, feminism, relations with First Nations peoples, and the challenges of multiculturalism. (LL) (UL)
39 Hours  Fee: $495.85

The Life and Times of the French Language  CFRE 706
This course is for students who wish to gain a better understanding of the breadth and wealth of contemporary French culture through a study of the evolution of the French language. Focusing on the contemporary evolution of the French language, including word origin and meaning, this course highlights the main cultural, political, and historical factors that influenced, and continue to influence, the development of the French language. (LL) (UL)
39 Hours  Fee: $501.00

Introduction to French-English Translation  CFRE 707
This course, taught in French, is designed to improve significantly students' appreciation of the general difficulties of translation from French to English, through a study of the characteristics of expression in each language and of the way they pertain to the difficulties of translation. Through numerous translation exercises, students learn to express the same concepts naturally in the target language, without undue interference from the source language. (LL) (UL)
39 Hours  Fee: $510.27
CFRE 707, CFRE 602, and CFRE 607 can be taken in the same term.

Children's Literature in French  CFRE 709
This course will consider the evolution of literature written in French for children and adolescents from the 17th century onward. Representative texts will be chosen from genres including fairy tales, comic strips, children's theatre, didactic novels, and the "problem novel." Topics under study will include the relationship between word and image, the role of religious and educational institutions, censorship, cultural diversity, and the notion of childhood. (LL) (UL)
39 Hours  Fee: $501.00

French in the Media II  CFRE 801
An advanced language course designed to improve significantly students' speaking, comprehension and writing skills through the analysis of contemporary issues in the francophonie using multimedia. Topics broaden students' vocabulary, sensitize them to complex language structures and language registers. Oral presentations and debates focus on the representation of current events in a variety of media including websites, social media, advertising, videoclips; students write short essays and work on a multimedia-related project. (LL) (UL)
39 Hours  Fee: $508.21

French Theatre: 20th C and Contemporary  CFRE 803
In this course, students will examine how theatrical conventions are challenged by authors who question the meaning of existence, and explore the limits of language and human relationships in our contemporary society. Possible readings include plays from the Theatre of the Absurd with Beckett and Ionesco as well as works by politically engaged playwrights who address topics such as exile and immigration, slavery and colonialism, race and gender. (LL) (UL)
39 Hours  Fee: $501.00
**Intro to Franco-Canadian Culture II**  
**CFRE 804**
This course introduces students to Franco-Canadian cultures outside Quebec. Cultural contrasts and continuity between Quebec, Acadian, Franco-Ontarian and Western French-Canadian communities will be emphasized. Students will examine forms of cultural expression such as cinema, television, visual arts, literature, music and popular culture. Topics include the French-Canadian diaspora, the Acadians and the Cajuns, bilingualism and language legislation as well as the cultural contributions of recent immigrants and the Métis. (LL) (UL)
39 Hours  
Fee: $501.00

**Senior French Seminar**  
**CFRE 900**
Prerequisite(s): Department consent
The senior seminar provides advanced students the opportunity to develop advanced research, presentation and writing skills in a specialized field of French. Students will normally be required to write a major paper. Course content varies according to the instructor’s research interests and expertise. Students must have a minimum 70 percent average in best four French courses or permission of the department prior to enrolling in this course.
39 Hours  
Fee: $501.00

**The Francophone Short Story**  
**CFRE 903**
This course will focus on the Francophone short story and short story collections. Through study of this literary genre, students will develop skills in literary analysis. This course will also teach students about the diversity of francophone literature and culture. Authors studied may include Michel Tournier (France), Annie Saumont (France), Biorago Diop (Senegal), Calixthe Beyala (Cameroon), Assia Djebar (Algeria), Maryse Conde; (Guadeloupe), Rene Depestre (Haiti), Anne Dandurand (Canada) and Bernard Assiniwi (Canada). (LL) (UL)
39 Hours  
Fee: $591.64

**French Studies**

**NEW**

**French Caribbean Literature and Culture**  
**CFRS 602**
This course, offered in English, will focus on the literature, culture and arts of the Francophone Caribbean (Martinique, Guadeloupe, Haiti). Issues of colonialism and postcolonialism, slavery and freedom, exile and immigration, tensions between race and gender, between languages (French and creole) will be examined through poetry, novels, storytelling, theater, music and film analysis. Readings include major authors such as Césaire (father of negritude), Condé, Schwartz-Bart, Chamoiseau, J.J. Dominique. (UL)
39 Hours  
Fee: $562.80

**FRESH START**

**Fresh Start Strategies**  
**CIFS 100**
Prerequisite(s): Department consent
The Fresh Start Strategies course is a non-credit course for those students with Required to Withdraw standing. It is designed to help students identify barriers to their academic success and address these barriers with targeted skill development, increased motivation and better insight about personal goals. This course is a joint initiative between the Chang School and Office of the Vice Provost Students.
28 Hours  
Fee: $226.60
FUNDRAISING MANAGEMENT

These courses provide a sound understanding of the role that fundraising can play in the charitable and voluntary sector. Interested students are encouraged to email the Community Services Program Assistant at m1johnso@ryerson.ca. For more information, visit www.ryerson.ca/ce/fundraising.

Fundraising Management
Related certificate(s): Fundraising Management (pg. 56)

Courses:

- **Operations of Fundraising** **CVFM 201**
  Students will systematically examine the thinking and preparation needed to develop the infrastructure in support of effective fundraising. Topics all relate to the fund development process and include sound financial management practices, including accounting, budgeting, reporting, and accountability; policies; development and evaluation of a strategic fundraising plan; and the critical elements of a well-configured database. Drawing on case studies, readings, and research, students will apply the knowledge acquired to real life situations.
  39 Hours  Fee: $671.98

- **Donor Centered Fundraising** **CVFM 202**
  Students will explore critical and emerging issues in the charitable sector: donor-centered fundraising trends and techniques; donor stewardship and recognition; developing a culture of philanthropy; ethics and professionalism; and diversity, social media, and new trends in donor engagement. Drawing on research, readings, and case studies, students will analyze issues that will inform current and future fund development practices.
  39 Hours  Fee: $671.98

- **Fundraising Campaigns** **CVFM 203**
  Students will examine major gifts fundraising campaigns, within and outside of a capital campaign context, and planned giving programs. Course topics include organizational readiness (e.g., feasibility study, case for support, campaign planning, goal setting, budgeting, timelines); leadership (staff and volunteer leadership, organizational structure); managing the campaign (identifying prospective donors, monitoring and concluding the campaign, reporting); and the adaptations required for different sized organizations. Research in major gift fundraising will be reviewed.
  39 Hours  Fee: $671.98

- **Entrepreneurial Fundraising** **CVFM 302**
  Approaches to corporate and foundation support will be examined from both the charitable sector and corporate/foundation perspective. The infrastructure necessary to support effective programs will be discussed: proposal and grant writing, donor identification, stewardship, and accountability. Research and practical application related to emerging trends and current practice will be reviewed: corporate social responsibility, sponsorship, cause marketing, and employee engagement. Entrepreneurial activities in fundraising will be explored, both by reviewing research and examining real-life examples.
  39 Hours  Fee: $671.98

- **Annual Giving Programs** **CVFM 303**
  The role of annual giving will be explored, including its interconnectedness to other fundraising programs and how it cuts horizontally across the organization. Students will review fundamentals of direct mail, online, and other models of giving. Special events and their role in engaging and stewarding donors will be explored in addition to event conception, planning, and execution. Gaming as part of a philanthropy program will be explored, including a review of the regulatory framework.
  39 Hours  Fee: $671.98
GATEWAY FOR INTERNATIONAL PROFESSIONALS

International professionals often come to Canada with a breadth and depth of experience and credentials that simply aren’t recognized here. The Chang School’s Gateway for International Professionals offers programming in several areas that accurately assesses your skills and provides you with the education and experience needed to succeed in the Canadian workplace at levels that correspond with your qualifications. For more information, visit www.ryerson.ca/ce/gateway.

Canadian Social Work Practice (IESW)

These courses are only open to internationally educated professionals with social service experience approved through the Internationally Educated Social Work Professionals (IESW) program admission process.

Please visit www.ryerson.ca/ce/socialwork or see page 129 for information on the IESW program. Related certificate(s): Canadian Social Work Practice (pg. 27)

★ Social Work Practice Seminar CVSW 31A/B
Prerequisite(s): CSWP 335 and SWP 341 and CSWP 402 and SWP 435 or Direct Entry
Corequisite(s): SWP 36A

Based on School’s Mission, this first practice seminar provides students with social work knowledge and skills for practice. Building on various theoretical perspectives, with an emphasis on anti-oppression practice, this course explores the process of social work assessment and various change processes. This course builds on knowledge from previous social work courses and the current practicum experience. It provides opportunities for students to reflect on and apply theory to practice for skill development.

Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Program.

78 Hours Fee: $1347.66

★ Field Practicum CVSW 35A/B
Corequisite(s): SWP 31A

This first field practicum provides opportunities for students to have direct contact with service users. Each placement offers the student beginning level experience with an emphasis on understanding social work skills, values and ethics within the community, organizational and policy context of practice. Most students attend placement two days a week for two semesters; alternate methods of completing this credit may be available to students with extensive prior experience or those undertaking an international placement.

Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Program.

364 Hours Fee: $1347.66

★ Field Practicum for Internationally Educated Social Workers CVSW 36A/B
Prerequisite(s): Department consent

This field practicum provides opportunities for participants to have direct contact with ‘client-consumers-people’ in need. Each placement offers the participant beginning level interventions with individuals, couples, or families, and/or groups. In addition, the field placement will be completed with a community project or an outreach or community development activity. Students are in a field placement two days a week for two semesters. As well, a paid placement known as a work study option may be available.

Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Program.

Placements are available in the Spring term.

200 Hours Fee: $1347.66

★ Foundations of Social Work CVSW 900
Prerequisite(s): Department consent

This course is a critical examination of social work from Canadian and international perspectives, including its contexts, debates, values, ethics and principles of practice, functions, and activities. Attention is given to the major theoretical frameworks to social problems and responses. Drawing on anti-oppression perspectives, students will develop beginning analytical skills in understanding social work and the promotion of social justice with specific attention to Indigenous and Francophone populations. This section of the course specifically addresses the Canadian context to social work and social welfare for students with international qualifications and practice experiences. (Equivalent to SWP 130 and SWP 131.)

Note: This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Program.

78 Hours Fee: $1347.66

Introduction to Social Services in Ontario CVSW 901
Prerequisite(s): Department consent

This course is designed to reflect the specific needs of internationally educated professionals who have experience in the social service field. The course offers an orientation to social services in Ontario, including current labour market demands and expectations. It introduces students to the skills, knowledge and conceptual frameworks utilized in social services, with an emphasis on understanding sector-specific vocabulary, terminology and employment.

Note: This course is restricted to internationally educated professionals and requires consent from the IESW Program.

30 Hours Fee: $324.87
**Special Topics I**  
*CVSW 917*

Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.

*Note:* This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Program.

39 Hours  
Fee: $671.98

**Special Topics II**  
*CVSW 918*

Prerequisite(s): Department consent

This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in SWP 917 or in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.

*Note:* This course is restricted to registered Certificate in Canadian Social Work Practice students in the IESW Program.

39 Hours  
Fee: $671.98

**Interviewing and Documentation in the Canadian Social Services Sector**  
*CVSW 921*

Prerequisite(s): Department consent

This course is for experienced internationally educated social workers who would like to expand upon their existing skill sets in the Canadian context. Opportunities will be available to practice skills in interviewing clients, note taking and documentation used in counselling agencies, shelters, and hospital settings, etc. Learners will receive ongoing feedback from both the instructor and their classmates via client simulations, and guest speakers from the social sector.

30 Hours  
Fee: $250.00

**Community Mental Health Relief Worker**  
*CVSW 930*

Prerequisite(s): Department consent

This course prepares IEPs to compete successfully for relief positions in the community mental health sector in the greater Toronto area. Course content includes theoretical and consumer perspectives, legal issues, crisis skills, suicide prevention, harm reduction, and documentation. The emphasis is on recovery model and anti-oppressive practice and includes post-course job search support.

30 Hours  
Fee: $322.81

**Dietetics (IDPP)**

Dietetics plays an important role in health care, industry, government, and education. It influences the development and promotion of consumer products, nutrition information, quality food service in health institutions, and various public policy-making choices.

For information about the Internationally Educated Dietitians Pre-registration Program (IDPP), visit [www.ryerson.ca/ce/idpp](http://www.ryerson.ca/ce/idpp) or see page 127.

**Orientation to Dietetics in Canada**  
*CVID 101*

Prerequisite(s): Department consent

In this module, learning will begin to examine professional standards and frameworks in dietetics, be exposed to the various roles of dietitians in the health and health care systems in Canada, and will reflect on individual bridging needs. This course is a mandatory requirement for other courses in the Internationally Educated Dietitians Pre-registration Program.

19.5 Hours  
Fee: $250.00

**Evidence-informed Practice**  
*CVID 102*

Prerequisite(s): Department consent

In this module, candidates will explore how evidence is used within dietetics practice in Canada, and will have opportunities to further develop skills in selecting, analyzing, summarizing, and presenting professional texts related to current issues in dietetics. This course is a mandatory requirement for other courses in the Internationally Educated Dietitians Pre-registration Program.

39 Hours  
Fee: $525.00

**Communication and Dietetics Practice**  
*CVID 103*

Prerequisite(s): Department consent

Using a variety of learning strategies, this course introduces values and frameworks that may influence effective communication with communities, clients, and colleagues. Learners will have the opportunity to begin to explore, practise, and analyze their own communicative skills in the context of dietetics practice. This course is a mandatory requirement for other courses in the Internationally Educated Dietitians Pre-registration Program.

19.5 Hours  
Fee: $216.30

**Food and Nutrition Foundations**  
*CVID 104*

Prerequisite(s): Department consent

Using both self-directed and facilitated approaches, learners will have an opportunity to review fundamental knowledge related to food, nutrients, and nutrient metabolism. In this module, learners will also be oriented to nutrition care processes in Canada. This course is a mandatory requirement for other courses in the Internationally Educated Dietitians Pre-registration Program.

29 Hours  
Fee: $375.00
- **Intercultural Communication and Dietetics Practice CVID 500**  
  Prerequisite(s): Department consent
  
  Using learning scenarios and simulations, this course will familiarize candidates with values and frameworks that influence communication with colleagues and clients. Explicit attention will be paid to the possible socio-cultural factors which influence communication. Candidates will have opportunities to explore, practice, analyze and enhance their own communicative skills in the context of dietetics practice. (This course requires personal disclosure and self reflection.)
  
  42 Hours  
  Fee: $725.00

- **Dietetics Practicum (PLA and Portfolio Formation) CVID 502**  
  Prerequisite(s): Department consent
  
  This course will help candidates become more familiar with standards for entry into dietetics practice in Canada so they are prepared to enter practicum placements. It will also assist candidates in enhancing their capacity to document professional knowledge, skills, and practical experiences for professional registration purposes. Specific emphasis will be given to the integration of prior experiences with learning gained within the IDPP.
  
  42 Hours  
  Fee: $675.00

- **Integrated Foods and Nutrition CVID 504**  
  Prerequisite(s): Department consent
  
  This course will examine foods, beverages and supplements prevalent in the diet with the goal of an integrated approach to nutritional care. Issues such as budgeting, therapeutic modifications, texture modifications, aesthetics of food, consumption patterns and multiculturalism will be considered from the perspective of the client/patient/resident in the provision of client-centred care.
  
  45 Hours  
  Fee: $725.00

- **Dietetics Practicum II - Administration CVID 505**  
  Prerequisite(s): Department consent
  
  The practicum will provide candidates with an opportunity to demonstrate competencies required for entry into dietetics practice in Canada. Candidates will complete a self-directed project with an administrative focus. The scope of each project will be developed individually by the candidate, and is supported and facilitated by a Registered Dietitian.
  
  75 Hours  
  Fee: $762.00

- **Dietetics Practice in Canada I CVID 511**  
  Prerequisite(s): Department consent
  
  Using an interdisciplinary and multi-level framework, this course will examine key aspects of dietetics practice in Canada. Dietetics practice will be positioned within an evolving health and health care context. Candidates will become familiar with Canada’s health system’s main structures and practice models, discuss and analyze health and its multiple determinants, and explore population health and health promotion frameworks, models, and strategies. Program planning and evaluation will also be explored.
  
  42 Hours  
  Fee: $675.00

  *This course consists of online modules in addition to those on campus.*

- **Dietetics Practice in Canada II CVID 514**  
  Prerequisite(s): Department consent
  
  Using an interdisciplinary and multilevel framework, candidates will be exposed to current models/dietetic practices related to the nutritional management of acute and chronic conditions in Canada. Dietetic practices will be positioned within an evolving health care context. Opportunities to consolidate, integrate, and apply understandings of current dietetics practice within the Canadian health system will be offered through perspective-building case studies, simulations, and other practice-based learning experiences. This course emphasizes critical analysis and skill development/demonstration.
  
  96 Hours  
  Fee: $1400.00

- **Enteral Nutrition Assessment CVID 515**  
  Prerequisite(s): Department consent
  
  Using case-based scenarios, this module provides an opportunity to practice and demonstrate assessment, planning, implementation, monitoring, and evaluation skills in enteral nutrition as part of nutrition care.
  
  22 Hours  
  Fee: $311.00

- **Parenteral Nutrition Assessment CVID 516**  
  Prerequisite(s): Department consent
  
  Using case-based scenarios, this module provides an opportunity to practice and demonstrate assessment, planning, implementation, monitoring, and evaluation skills in parenteral nutrition as part of nutrition care.
  
  22 Hours  
  Fee: $311.00
Project Proposal Development  
**CVID 519**

Prerequisite(s): Department consent

This course will support candidates in the planning and development of a proposal for a self-directed project, with an administrative focus, in the field of dietetics.

*Note:* Time spent in the field may vary based on the structure of projects for which the proposal is being developed. At minimum, this time may include meetings with representatives of the organization(s) for whom the proposal is being developed, as well as a half- to full-day visit to the organization.

22 Hours Fee: $311.00

Dietetics Practice I  
**CVID 520**

Prerequisite(s): Department consent

This course provides six weeks of supervised practical experience in dietetics in Ontario, with a particular focus on experiences related to health promotion/disease prevention. It offers opportunities for candidates to apply learning acquired through both their prior dietetic experiences and through the IDPP on-campus component, and is tailored to individual assets and learning needs. Candidates will continue to form portfolios which will identify and document their learning accomplishments and competencies.

225 Hours Fee: $762.00

Dietetics Practice II  
**CVID 521**

Prerequisite(s): Department consent

This course provides six weeks of supervised practical experience in dietetics in Ontario, with a particular focus on experiences related to the nutritional management of disease. It offers opportunities for candidates to apply learning acquired through both their prior dietetic experiences and through the IDPP on-campus component, and is tailored to individual assets and learning needs. Candidates will continue to form portfolios which will identify and document their learning accomplishments and competencies.

225 Hours Fee: $762.00

Workplace Communication in Canada (WCC)

Please visit [www.ryerson.ca/ce/wcc](http://www.ryerson.ca/ce/wcc) or see page 129 for information on the Workplace Communication in Canada program. Related certificate(s): Project Management for Technical Professionals (pg. 91)

Formal and Informal Communication in the Workplace  
**CDCE 310**

This course is designed to help international professionals enhance personal and professional success by using effective means of formal and informal communication in the workplace. By the end of this course, the learners will have developed skills in the areas of active listening, empathy, giving and receiving constructive feedback, and writing effective formal communication documents. Successful learners will start familiarizing themselves with strategies to effectively deal with conflict in the workplace and practice skills in writing formal documents such as emails, meeting minutes, and reports. Through workplace simulated scenarios and case studies, participants will learn to effectively manage common formal and informal conflict situations in the workplace and practice receiving and providing feedback in a safe environment fully supported by professional coaching.

39 Hours Fee: $599.00

Advanced Customer Focused Applications  
**CDCE 320**

This course is designed to help international professionals explore and practise customer focused behaviours common to the Canadian workplace in a safe environment fully supported by professional coaching. Through practical simulations and case studies, participants will practise strategies of dealing with common customer related situations and issues related to client-driven environment, while applying relevant evidence-based practice methods.

39 Hours Fee: $599.00

Effective Persuasion and Public Speaking  
**CDCE 330**

This course is designed to provide international professionals with practical persuasion, negotiation, and presentation skills essential to professional success in the Canadian workplace. Participants will explore cultural influences on business negotiations and develop a solid understanding about the role and value of effective public speaking in the workplace. By the end of the course, the participants will have acquired and practiced skills for designing and delivering persuasive and impactful presentations. In addition to persuasive writing and negotiating skills, successful participants will also learn and demonstrate effective networking and self advocating skills through interactive, workplace-related activities.

39 Hours Fee: $599.00
Teamwork and Organizational Behaviour  CDCE 340
This course is designed to help international professionals enhance professional success through practising effective behaviours in the Canadian workplace environment. Through simulations and case studies learners will practise dealing with culturally and ethically challenging situations in the workplace, personal career planning, networking, strategic planning, and effective team and group work. Learning will be conducted in a safe environment fully supported by professional coaching.
39 Hours Fee: $599.00

Exploring Leadership Skills  CDCE 400
Prerequisite(s): Department consent
This course will provide professionals who were educated and or trained outside of Canada with a roadmap to the development of leadership capabilities by identifying individual strengths and needs for enhanced professional communication skills. This course aims to inspire participants through in-depth self assessment of leadership skills, analytical exploration of success stories, and active participation in applied case studies and live simulations related to leadership roles in the Canadian context.
30 Hours Fee: $TBA

Effective Oral Communication  CDCE 910
This course is designed for international professionals who require improvement of their oral communication in the workplace. The course will offer bi-weekly classes of highly experiential activities using real life Canadian workplace activities. Participants will improve their fluency, clarity, and overall oral communication skills in a supportive and creative learning environment.
39 Hours Fee: $599.00

GEOGRAPHY
The Department of Geography offers a range of career-oriented and liberal studies opportunities. Courses in Demographic Analysis using statistical and GIS software, along with a wide range of related courses from several different disciplines, will be offered within the new Certificate in Demographic Analysis. Courses in Digital Geography provide both basic and advanced knowledge and skills in Geographic Information Systems (GIS) and their various applications. Courses in Geography present professionally related electives to complement various undergraduate programs and liberal studies options to give a broad perspective on human/environment interactions in different contexts. For more information, visit www.ryerson.ca/ce/gis.

Demographic Analysis
Related certificate(s): Demographic Analysis (pg. 34), Global Diasporas, Transnationalism, and Migration Cities (pg. 58)

Principles of Demographic Analysis  CODA 100
Students will undertake data exploration to support theoretical explanations of the impact of core demographic variables (fertility, mortality, and migration) on population counts, growth, composition, and structure. Students will investigate human populations in relation to their sociological determinants and consequence. The course concludes with an examination of the direction of population change and the impacts on Canadian society.
39 Hours Fee: $732.75

GIS Applications in Demography  CODA 110
This course introduces geotechnology applications to demographic analysis, specifically the use of GIS for spatial analysis of demographics. Students will have the opportunity to synthesize their learning about demographic issues with hands-on use of GIS applications built on census data analysis through discussions and the presentation of case studies related to a variety of issues including the implications of demographic change for health care, social services, education, the economy, etc. Lectures will include illustrative case studies applied to demographic and settlement patterns at provincial, municipality, and neighbourhood scales within Canada, with emphasis placed on Canada’s urban centres.
39 Hours Fee: $732.75
Advanced Demographic Applications  
Prerequisite(s): Department consent

This capstone course brings together the skills, knowledge, and tools acquired in the courses which have preceded it, and it requires their application to ‘real-world’ demographic applications. The best, affordable, current demographic software will be used in lectures and workshops to create life tables and population projections, including migration, for both small- and large-scale analysis. Examples of demographic analysis will be drawn from applications commonly used by school boards to project future school populations and adjust school boundaries, by energy suppliers, and by urban planning departments to project energy needs and the demand for building permits, etc. In addition to the use of statistical software such as SPSS, Haley demographic software will be introduced if it is available.

Note: This is a project-based, independent study course.

39 Hours  
Fee: $732.75

Digital Geography

Related certificate(s): Applied Digital Geography and GIS (pg. 17), Applied Digital Geography and GIS, Advanced (pg. 18), Community Engagement, Leadership, and Development (pg. 29), Computer Programming Applications (pg. 30), Demographic Analysis (pg. 34), Ethics (pg. 46)

Spatial Databases and Digital Cartography  
Prerequisite(s): Department consent  
Antirequisite(s): CODG100 and COGT100

This course introduces the fundamental concepts of digital spatial databases and cartography to students enrolled or contemplating enrolment in the Certificate in Applied Digital Geography and GIS. Spatial data, that is, data that are geographically referenced, are at the core of a geographic information system (GIS). The ways in which spatial data are structured in a database have enormous implications for their use and the ways in which the data are mapped have important consequences for their interpretation. This course will explore the processes of spatial data collection, input and display, and the basic geographic and cartographic principles underlying those processes. Thus it will focus specifically on the nature of spatial data, database structures, and the visualisation of digital spatial data. Both ArcGIS and MapInfo Professional GIS software will be used.

39 Hours  
Fee: $679.47

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Digital Geography and Spatial Analysis  
Prerequisite(s): Department consent  
Antirequisite(s): CODG110 and COGT110

This course introduces students to the geographic principles underlying the analytical capabilities of geographic information systems (GIS) and provides the ‘hands-on’ opportunity for students to utilize GIS for spatial analysis. Specifically, students will have experience with thematic mapping, attribute querying and spatial selection, geocoding, buffering, manipulating layers, basic topologic transformations, as well as implementation issues in the workplace. At the end of this course, students should have fundamental knowledge and skills in utilizing GIS to perform a variety of analytical applications.

39 Hours  
Fee: $679.47

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Digital Geography Applications in Utilities Planning  
Prerequisite(s): (CODG 100 or CODG 101) and (CODG 110 or CODG 102)

Geographic Information Systems provide utilities planners and managers with an array of analytical and productivity enhancing tools for managing data. In this course, practical knowledge and skills related to the understanding and use of digitally represented geographic databases are introduced. Emphasis will be given to linear networks such as gas, water, transportation, and electrical distribution facilities.

39 Hours  
Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Digital Geography Applications in Business Decision-Making  
Prerequisite(s): (CODG 100 or CODG 101) and (CODG 110 or CODG 102)

This course is directed at students wishing to apply digital geography and GIS solutions to business location problems. The course outlines the role of GIS in business decision-making. Topics include market area analysis, geodemographics, database acquisition and management, data mining, data quality, statistical analysis, software/hardware platforms, and georeferencing established business data.

39 Hours  
Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
Digital Geography Applications for the Municipal Professional CODG 125

Prerequisite(s): (CODG 100 or CODG 101) and (CODG 110 or CODG 102)

The course is directed at students wishing to apply digital geography and GIS in municipal settings. The course considers GIS as mission-critical business tools for municipalities as it develops students’ technical skills with GIS software. Topics include enterprise GIS, publishing and access to information, mobile GIS, data standards, governance, best practices, data dissemination issues, and municipal business solutions.

39 Hours Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Digital Geography Applications in Environmental Management CODG 126

Prerequisite(s): (CODG 100 or CODG 101) and (CODG 110 or CODG 102)

This course is directed at students wishing to apply GIS solutions in managing the diverse data representing the natural and human environment. This course uses both theoretical concepts and hands-on GIS experience in order to provide students with the knowledge and skills necessary for effective use of GIS in environmental management.

39 Hours Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Digital Geography Applications in Community and Social Services CODG 127

Prerequisite(s): (CODG 100 or CODG 101) and (CODG 110 or CODG 102)

This course explores the variety of ways in which geographic information systems (GIS) are utilized in the development and management of community and social services. Educational administrators, health professionals, police and social agencies have come to depend on GIS for strategic planning and day-to-day operations. This course focuses on the analytical capabilities of GIS and their potential uses for the improvement of social infrastructure. For example, network analysis can be employed by social service providers to determine a new location based on public transit access and also by school boards to determine optimal school bus routes; cluster analysis can be employed by crime analysts to determine hot spots of criminal activity to increase patrols; and also by epidemiologists to identify areas of disease. Special attention is given to data issues and students will be able to enhance their knowledge and skills of Microsoft Excel and Access as well as ArcGIS and MapInfo Professional.

39 Hours Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Legal and Ethical Issues in GIS and Digital Data CODG 130

Prerequisite(s): (CODG100 or CODG 101) and (CODG110 or CODG 102)

The advent of digital data and the transmission and manipulation of that data, especially in an Internet environment, have raised some particular legal, ethical, and practical issues. This course explores those issues concerning the use of digital data and software, including the liability of misinformation and the responsibility for errors, contractual provisions and exclusionary clauses, copyright, trademark law and ownership of data and software, privacy and the ability to access information and data, as well as the issues related to the introduction of digital data and information as evidence in court proceedings.

39 Hours Fee: $760.56

Issues and Innovations CODG 131

Prerequisite(s): (CODG100 or CODG 101) and (CODG110 or CODG 102)

This course is designed to provide the student with up-to-date information on new trends and products in geographic information systems. Topic areas are designed to change as technology and issues change.

39 Hours Fee: $760.56

Customizing GIS Software: Applications Programming CODG 132

Prerequisite(s): (CODG100 or CODG 101) and (CODG110 or CODG 102)

This course advances the efficient uses of spatial databases and GIS. The focus is on the refinement of the operation of GIS via customizing graphic user interfaces (GUIs), macro languaging and scripting. Use of market-leading tools will provide the means for developing the skills required for automating spatial processing algorithms. Equivalent to GEO 541.

39 Hours Fee: $679.47

Map Algebra: Topology and Overlay CODG 133

Prerequisite(s): (CODG100 or CODG 101) and (CODG110 or CODG 102)

How is information extracted from digital maps, air photographs, or satellite images? This course examines the logic and steps involved in fulfilling information needs via the manipulation of available layers from such products, using such operations as searching, selecting, sorting, regression, overlay, reclassification, cross tabulation, and other methods.

39 Hours Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
Digital Image Processing and Applications CODG 135  
Prerequisite(s): (CODG100 or CODG 101) and (CODG 110 or CODG 102)  
This course investigates the principles of remotely sensed digital data, the techniques used to process digital images, and the applications to spatial decision making. The formats of digital image data and the procedures used in image rectification and registration, image enhancement, and image classification are examined. There will be an emphasis on utilizing digital image data within a GIS. A number of specific applications within resource management, environmental impact assessment, and urban and regional planning will be undertaken to demonstrate the value of such integration in solving geographic problems. Equivalent to GEO 542.  
39 Hours  
Fee: $679.47  
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Web Mapping CODG 136  
Prerequisite(s): (CODG 100 or CODG 101) and (CODG 110 or CODG 102)  
This course will examine Web 2.0 technologies including Google Maps, Virtual Earth, the concept of ‘Mash ups’, crowd sourcing, cloud computing, resource oriented architectures, all in the context of digital web mapping and online GIS analysis with respect to the neogeography movement (non-expert users). Online mapping technology will be combined with online information sources to create new ways of effectively delivering geospatial analysis. Attention will be given to developing cartographically appealing and appropriate high impact websites while optimizing usability and performance.  
39 Hours  
Fee: $757.75  
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Digital Geography Applications CODG 150  
By means of two experts' presentations and class discussion, this computer lab-based demonstration workshop offers opportunities to the lay public to gain an appreciation of the variety of ways in which geographic information systems (GIS) are utilized by educational administrators, health professionals, police, criminal analysts, social work professionals and epidemiologists in the development and management of community, social, and health services. Topics explored include how GIS and cluster analysis are deployed to decide school locations based on public transit availability; to determine hot spots of criminal activity to increase patrols; and to identify areas of disease for disease control efforts.  
Note: Prior to the workshop, you may enroll online or in person. On the day of the workshop, you may enroll in person at the workshop location (VIC105, Victoria Building, 28 Victoria Street).  
2 Hours  
HST included  
Fee: $TBA

Spatial Database Management Systems CODG 210  
Prerequisite(s): CODG 132  
GIS professionals often need to work with very large datasets, both within and outside of a GIS. This course examines the management of those data, from modelling geographic space in different ways appropriate for user needs, to utilizing query languages specific to spatial data, and being able to integrate data in different formats. In addressing those topics, special focus will be put on the current object-relational database model and ESRI's ArcSDE. The importance of data warehousing to spatial decision-making will also be addressed.  
39 Hours  
Fee: $757.75  
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Advanced GIS Programming CODG 211  
Prerequisite(s): Department consent  
This advanced-level course is intended for students that have previous programming experience in Python and a strong interest in programming specifically for solving spatial problems. We will look at both a mainstream commercial product (ESRI's ArcGIS Desktop) as well as numerous free open source spatial and non-spatial toolsets. Students will build upon their solid foundation in Python by working with numerous python libraries that are commonly used to integrate, customize, automate, and extend GIS technologies to meet the requirements of end users.  
39 Hours  
Fee: $757.75  
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Spatial Statistical Methods CODG 212  
Prerequisite(s): Department consent  
This course is designed to provide GIS practitioners with a number of statistical tools that will enhance their analysis of spatially related phenomena. Three broad areas will be examined: clustering, spatial autocorrelation and spatial autoregression; interpolation using a variety of techniques including Kriging; and data mining. Each section is introduced by briefly examining standard, non-spatial statistical methods and contrasting them with the spatial techniques that will move understanding of spatial relations beyond the mere visualization to the exploration and modelling of spatial data.  
39 Hours  
Fee: $757.75  
Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
Internet GIS  
CODG 213
Prerequisite(s): Department consent

This course will examine the impacts of the Internet on traditional GIS by comparing the components of a distributed GIS with the traditional desktop platform. Investigation of Internet technologies that have made Web mapping and analysis possible will prepare students to work with a variety of these technologies. The course will also focus on the important elements of Web server administration, including running, setting up, and maintaining websites using different authoring technologies.

39 Hours  
Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

GIS Implementation  
CODG 220
Prerequisite(s): Department consent

This course is designed to provide a critical overview of the step-by-step procedures used in managing a GIS project from its inception through its development as a strategic plan to the management of its implementation. Opportunities will be provided for those working in the field to critically examine the project management approaches used within their organizations. Those who are not currently working in the GIS field will be given an opportunity to develop and carry forward a project through every step of the process as if they were acting as outside consultants in a field of their choosing.

Note: This is an independent study course.

39 Hours  
Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

GIS Project  
CODG 221
Prerequisite(s): Department consent

This course gives students the opportunity to work in a team and to consolidate their technical and conceptual knowledge by using a Geographic Information System to solve a real-world problem. It is important that students define their project so that it can be undertaken in one semester using data that are currently available. It is expected that students will use the skills developed in their specialty courses to define and carry out their analysis.

39 Hours  
Fee: $757.75

Material Fee: A material fee of $25 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Environment and Urban Sustainability

Related certificate(s): Social Sciences and Humanities Foundations (pg. 101)

★ Environment and Sustainability  CEUS 102
This course provides an introduction to the social, economic and environmental dimensions of sustainability in cities, particularly establishing the theoretical bases and understanding of the broad range of environmental problems that result when consumptive economies exploit their physical resources.

39 Hours  
Fee: $637.99

★ Sustaining the City's Environments  CEUS 202
This course provides insights into the promotion of geographically-balanced settlement structures, sustainable waste and water management systems, the efficient management of urban pollution, and effective and environmentally-sound transportation systems. These have been identified as being essential to sustaining the city's environment. Students will develop an environmental report card as their major project and will have the opportunity to see firsthand working urban systems of sustainability.

39 Hours  
Fee: $637.99

Geography

Related certificate(s): Criminal Justice and Criminology (pg. 32), Demographic Analysis (pg. 34), Global Diasporas, Transnationalism, and Migration Cities (pg. 58), Social Sciences and Humanities Foundations (pg. 101)

★ Geographies of Everyday Life  CGEO 106
This course examines environmental and spatial aspects of human life, primarily at the scale of the individual, the neighbourhood and the community. Specific topics to be considered include sense of place, mental maps, territoriality, community dynamics, and human impacts on the landscape.

(Ll)

39 Hours  
Fee: $581.34

★ Geography of the Global Village  CGEO 108
This course explores the ecological and demographic basis of globalization. Starting from a discussion of the impacts of the industrial revolution on current global socio-economic and environmental issues, this course examines population dynamics and quality of life indicators, the world food system and environmental deterioration.

(Ll)

39 Hours  
Fee: $581.34
For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).

**The Physical Environment**

CGEO 110

In this course, the physical environment is investigated from the perspective of appreciating the natural limits that earth systems impose. Themes in climatology, hydrology and geomorphology are examined in order to develop an understanding of how natural balances originate, and afford opportunities and constraints for a modern lifestyle. Specific topics include weather systems, water budgets, erosion by streams and waves, and the enhancement of stability in natural systems. (LL)

39 Hours  
Fee: $562.80

**Energy, Earth and Ecosystems**

CGEO 131

This course takes a systems-based approach to understanding the dynamics of Planet Earth and how humans interact with it. The principles, concepts, and applications of physical and environmental geography are introduced through learning about the energy that drives our ecosystems, the resources on which we depend, and the environmental challenges facing Canadian society in a global context. One component of the course is field-based.

39 Hours  
Fee: $641.08

**Location, Location, Location**

CGEO 151

This course provides an understanding of locational processes, especially those related to business (industry, retail, office) and residential land uses by concentrating on three themes. Social diversity examines how changing demographics create changes in neighbourhood characteristics. Economic restructuring considers how economic changes impact location and make-up of economic activities. Smart growth investigates managing city growth, while still maintaining healthy environments.

39 Hours  
Fee: $641.08

**Regions, Nations and the Global Community**

CGEO 206

This course examines spatial and environmental aspects of human life, primarily at the scale of the region, the nation and the global community. Specific topics to be considered include migration, regionalism, spatial equity and global interdependence. (LL)

39 Hours  
Fee: $581.34

**Marketing Geography**

CGEO 301

Antirequisite(s): GEO 302

This course addresses the spatial aspects of business decision making. Emphasis is placed on measuring the factors and assessing the methods associated with site evaluation and market area analysis.

39 Hours  
Fee: $562.80

**Retailing, GIS and Geodemographics**

CGEO 419

This course surveys practical, conceptual and methodological issues associated with the application of geographical techniques to retail marketing. A variety of GIS applications are introduced to delineate and analyse retail trade areas. The use of socioeconomic and demographic data at various spatial scales is emphasized. Methods include: geocoding, mapping, creation of market area profiles, population projections, clustering and interpretation of market segmentation data.

39 Hours  
Fee: $556.62

**Regional Analysis of Canada**

CGEO 505

The regional structure of Canada provides the focus for this course. Attention is given to the internal characteristics and problems of various regions, and to the interrelations which bind the regions together in a national framework. Emphasis is placed upon regional disparity, regional development concepts, and social and environmental variables. (UL)

39 Hours  
Fee: $562.80

**GIS, Geographic Data and Mapping**

CGEO 581

Students will learn about geographic data, and explore the power of visualization that comes from mapping them with Geographic Information Systems (GIS). GIS can transform data that are located on the earth’s surface into information that can be utilized in social, economic, political and environment decision-making. Through lectures and labs, students will examine the use of GIS and maps in their own academic area of interest.

39 Hours  
Fee: $594.73

**cyberspace@geography.ca**

CGEO 609

This course will examine the historical development of world communications systems, with emphasis on the growth of contemporary geo-communication networks such as the Internet and the WWW, and their relationship to socio-economic and environmental geography. From world city systems to rural and marginalized places around the globe, the examination and analysis of cyberspace should prove useful in understanding a new geography characterized by many as the “death of distance.” (UL)

39 Hours  
Fee: $562.80

**Canadian Immigration: Patterns and Place**

CGEO 691

Offering a geographic perspective on Canadian immigration patterns and policies, this course examines the ‘why, who and where’ of Canadian immigrant experiences. There is a particular emphasis on the changes in Canada’s spatial, social and economic landscapes as a result of Canadian immigration policies over time within the context of contemporary global economics and communication technologies and the inherent complexities of pluralistic societies.

39 Hours  
Fee: $562.80
Technology and the Contemporary Environment  CGEO 702
Antirequisite(s): CGEO 703
The contemporary world is influenced to a very considerable extent by technology. However, relationships between this technology and our environment continue to be the subject of considerable public debate. The geographic dimensions of these environmental controversies provide a convenient and meaningful framework for their analysis. In this course, both recurring and contemporary environmental issues are examined in terms of implications for North American society. GEO 702 is not available for credit to students who choose GEO 703. (UL)
39 Hours  Fee: $562.80

Perspectives on Environmental Management  CGEO 703
Antirequisite(s): CGEO 702
The deterioration of ecosystems and growing societal intolerance for environmental damages have raised concerns over the management of the earth's resource base. First, this course examines how public attitudes towards the environment have evolved and the corresponding growth of public participation in environmental decision making. Secondly, emphasis is placed on the ecological basis for environmental planning and analysis. Finally, the growing body of laws, regulations and guidelines which are designed to control environmental behaviours are considered.
39 Hours  Fee: $556.62

GIS in Business: Strategic Mgmt Decisions  CGEO 719
The key to sustaining a business is to know one's customers. By geographically referencing customer records, and linking them to data such as demographics, GIS enables business enterprises to evaluate their client-catchment areas. This course provides an introduction to GIS in the business environment, by combining lecture material, readings from the professional literature, site visits for the evaluation of systems, and labs designed to provide practical and technical competence. There is a 25 dollar lab fee for this course.
39 Hours  Fee: $572.07

The Geography of Recreation and Leisure  CGEO 802
Antirequisite(s): CGEO 803
This course explores recreation and leisure from a number of perspectives. It examines the relationship between recreational choice and demographic and life-style correlates, technology, and faddism. It evaluates symbolic recreational environments and the role of natural areas. It explores many of the social and environmental costs associated with recreational development. GEO 802 is not available for credit to students who choose GEO 803. (UL)
39 Hours  Fee: $562.80

Recreation and Tourism Analysis  CGEO 803
Antirequisite(s): CGEO 802
The growing importance of the recreation and tourism system in today's society has generated the potential for environmental impacts and development opportunities. This professionally related course examines the system and its role in the economy. Particular emphasis will be placed on planning, managing and developing recreation and tourism resources, and on identifying, measuring and evaluating impacts.
39 Hours  Fee: $562.80

The Outer Landscape of Culture  CGEO 820
This course examines the ways in which cultures express themselves through natural, built, and symbolic landscapes. The nature and significance of cultural change are considered at both regional and global scales. (UL)
39 Hours  Fee: $637.99

GIS and Fire Services Management  CGEO 911
Accessing information regarding sites is recognized as critical to the goals of preventing and suppressing fires. With Geographic Information Systems (GIS), location is the primary key for retrieving data, so site information can be very conveniently accessible. This course provides an overview of GIS for urban and rural Fire Services by introducing application opportunities, system components, and implementation issues. The format is a combination of lectures, and practical hands-on workshops.
39 Hours  Fee: $572.07

Diaspora and Transnationalism  CODS 101
The principle focus of this course will be on contemporary diasporas in the context of ever-accelerating globalization. Students will be introduced to the phenomenon of transnationalism, the multiple ties and interactions linking peoples and institutions across the borders of nation states. This course will demonstrate the ways in which contemporary transnational practices of global migrants are transforming cultural, social, political, and economic structures both within migrants' homelands and within their places of settlement.
39 Hours  Fee: $596.79
GERONTOLOGY

These interdisciplinary courses cover topics concerned with aging and the promotion of quality of life for older adults. For more information, visit [www.ryerson.ca/ce/gerontology](http://www.ryerson.ca/ce/gerontology).

**Gerontology**

Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg. 16), Gerontology (pg. 57), Health Studies (pg. 63)

- **Ability, Disability and Aging**  
  CGER 298  
  Psychosocial, biophysiological, and behavioural changes occur as a result of the aging process and this course provides students with the knowledge to assess these changes. Assessment rating scales will be analyzed and students will be provided with the opportunity to observe a range of assessment interviews.

  39 Hours  
  Fee: $599.88

- **Aging and the Individual**  
  CVGE 140  
  This course will explore the individual aging process focusing on normal and exceptional age related changes through biological, psychological, and socio-cultural frameworks. The dynamic interaction between the older person and the social and physical environments and the impact of these on the quality of life will be the unifying theme for this course. Teaching modes will include readings, lectures, a written assignment, discussion, and an experiential learning component. Equivalent to the Social Work 900 series elective course.

  39 Hours  
  Fee: $599.88

- **Aging and Society**  
  CVGE 141  
  This course explores the societal factors that influence both the process and outcomes associated with aging including social role transition, sexuality, the role of the family and social supports, education, ethnicity, social policy, finance and economics, transportation, housing, and health care. Learning will be facilitated through a variety of teaching modes, which include readings, lectures, written assignment, discussion, and an experiential learning component. Equivalent to Social Work 900 series elective course.

  39 Hours  
  Fee: $599.88

---

**Research in Diaspora and Globalized Cities**  
CODS 200  
Prerequisites: CODS 101 and CGEO 691  

This course will provide students with an opportunity to synthesize the skills, knowledge, and techniques acquired in the courses that form the Certificate in Global Diasporas, Transnationalism, and Migration Cities. Students will create an in-depth application to a real-world paradigm, scenario, or issue related to global diasporas, transnationalism, and migration cities. They will be required to present an academic paper. This capstone course provides an opportunity to develop advanced research, presentation, and writing skills in a specialized area of study.

39 Hours  
Fee: $596.79

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
★ Understanding Research  CVGE 205
This course provides students an understanding of the fundamentals of social science research applied to gerontology. Students learn how qualitative and quantitative research approaches are used to design studies, collect and analyze data, and interpret and evaluate research. Students will practice their planning and evaluation skills through the development of an evaluation proposal. Teaching modes will include readings, lectures, written assignments, an evaluation proposal, class discussion, and an experiential learning component. Equivalent to HSM 417.
39 Hours  Fee: $606.06

● Consent, Capacity and Decision Making  CVGE 271
This course gives an intensive analysis of the Substitute Decisions Act, the Health Care Consent Act, relevant portions of the Mental Health Act and other related Ontario law that informs older adults, their substitute decision makers, family members and care providers of the substitute decision making framework in Ontario.

The outcomes of this course are that students will be knowledgeable and conversant with consent, capacity and substitute decision making law in Ontario; that they will be able to correctly identify legal issues in substitute decision making fact situations; and they will be able to apply their knowledge of Ontario law in problem solving exercises.
39 Hours  Fee: $619.45

★ Aging and Interpersonal Skills  CVGE 297
The aim of this course is to facilitate growth and awareness of self and one's interpersonal communication style. Emphasis is placed on communication with the elderly, and on attitudes related to aging and the aged. Equivalent to FNP 200.
39 Hours  Fee: $599.88

"My instructors urged me to think critically about the broad nature of aging, and the small course sizes introduced me to contacts from several backgrounds and fostered rich class discussions. Now I have a deep understanding of the breadth of healthcare to carry me forward."
Dexter Roberts  Learner, Gerontology

GRAPHIC COMMUNICATIONS

Graphic Communications is one of the most vigorous and exciting industries in Canada today. The preparation of layouts, designs, files, proofs, and finished jobs in the printing industry require the use of advanced hardware, software, and technology. Knowledgeable and skilled professionals in the field are rewarded with challenging opportunities. Students may enroll directly into entry-level courses. No interview or portfolio is required. For more information, visit www.ryerson.ca/ce/graphiccomm.

Graphic Communications
Related certificate(s): Design Management (pg. 36), Graphic Communications (pg. 60)

● Graphic Communications Processes  CDGA 651
An introduction to graphic communications manufacturing processes with emphasis on the variety of methods available, and quality and cost considerations. Subject matter includes design, copy preparation, digital prepress, proofing, plating, ink and paper, various printing processes, and binding and finishing techniques. Suitable for people new to the industry.
39 Hours  Fee: $686.40

★ Layout and Typography I  CGRA 102
Introduces principles of page layout, typography and design. Familiarizes students with the terminology, typographic history and concepts commonly used by designers and prepress personnel. Develops a theoretical and practical understanding of page layout software and font management with a focus on quality conscious design for print.
39 Hours  Fee: $550.27
Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Introduction to Electronic Premedia I  CGRA 103
This course explores the fundamental concepts of premedia, from initial image capture to preparing documents for press via industry standard premedia workflows and practices. Students will capture digital images intended for a print environment using DSLR cameras, and manipulate those images using Adobe Photoshop. Students will learn to construct technically accurate documents using desktop publishing software. Students will explore the steps involved in processing press-ready PDFs, and how to prepare and evaluate different types of proofs prior to plate output. In addition, the basics of file inspection and evaluation will be discussed.
39 Hours  Fee: $550.27
Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
For the most current information, including scheduling options, visit www.ryerson.ca/ce.

★ Printing Processes I  CGRA 104

This course introduces students to the basic principles of the major conventional and digital non-impact printing processes. The course focuses on sheetfed offset lithography with emphasis on the printing process and principal press systems. Printing’s history and its importance to society are introduced. Material testing is introduced relative to printability, runability and end use performance. Safety is discussed. Students participate in a two-colour press run.

39 Hours  Fee: $550.27

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Estimating in the Graphic Arts  CGRA 116

Prerequisite(s): GRA 420 and GRA 422 and CGRA 423 and GRA 424 and CACC 100

Introduction to price list and cost estimating using manual and computerized methods. This course relies heavily on fundamental knowledge learned from courses in premedia, imposition planning, printing, and bindery and finishing. A hands-on approach is used for applying budgeted hourly rates (BHR), standards, materials costs, formulas, markups in producing accurate estimates. Emphasis is placed on the use of accurate specifications, the best imposition and production plan, with consideration to quality, turnaround time and cost efficient use of labour, equipment, manufacturing processes, paper and other materials. Manual, spreadsheet and database (MIS) estimating procedures will be taught.

39 Hours  Fee: $601.94

★ Printing Processes II  CGRA 204

Prerequisite(s): CGRA 104

The emphasis of this course is the manufacture and properties, including sustainability, of paper and ink used in printing processes. Material testing is conducted to evaluate substrates and ink for printability, runability and end use performance. The importance of the make-ready phase relative to production costs is introduced. Students participate in a four-colour offset press run. Problem-solving is emphasized through the use of simulators. The flexographic printing process is introduced, and students participate in a flexo press demonstration.

39 Hours  Fee: $550.27

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Layout and Typography II  CGRA 202

Prerequisite(s): CGRA 102

Develops the student’s understanding of illustration, typography and design, including design terminology, problem-solving, and design theory. Examines design elements and principles, with a focus on single-page design, design history and font management. Specific issues of vector-based design are addressed.

39 Hours  Fee: $550.27

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Introduction to Electronic Premedia II  CGRA 203

Prerequisite(s): CGRA 103

This course builds upon the foundation set in GRA 103. In this course, critical output requirements for offset lithography are stressed. Students will learn the principles of basic plate imposition and maximizing press sheets. This course explores the reproduction requirements of various printing methods as they pertain to premedia, with an emphasis on sheetfed offset lithography. In addition, students will expand upon the image manipulation skills learned in GRA 103 to explore the strengths and limitations of image editing programs. Core concepts of complex job planning are introduced in both lecture and labs.

39 Hours  Fee: $550.27

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Selling in the Graphic Arts  CGRA 230

This course explores the role of the sales representative in the graphic arts industries; including customer relationships, formulating a selective selling strategy, the nature and sources of product, customer and competitive knowledge, and using the consultative selling process. It extends the focus of the sales practice into self-presentation and selling oneself to further student skills in professional communication and presentation.

26 Hours  Fee: $418.18
HEALTH SERVICES MANAGEMENT

Health Services Management is a unique part-time program, the first of its kind in Canada. It is designed to meet the needs of present and aspiring managers in health service organizations. In keeping with Ryerson’s tradition of professionally relevant education, the program has been designed in close consultation with leading practitioners, employers, and professional associations. It provides education in management theory and practice which builds on previous professional education and experience. Individual courses in the Health Services Management part-time degree completion program are available to all Chang School students who wish to upgrade their knowledge and skills in the health services management area. Courses examine the Canadian health system and the manager’s role in the health services organization. For more details about the part-time degree program, visit www.ryerson.ca/~hsm/hsm.html.

Health Information Management

Related certificate(s): Health Informatics (pg. 61), Nursing Leadership and Management, Advanced (pg. 83)

**Managing Health Information Services**  CHIM 300
Prerequisite(s): CHSM 301 or HSM 315

This course will explore the manager’s role as it relates to planning, organizing, HRM, budgeting, supervising, evaluation, service delivery, and marketing. Further exploration will center around areas such as organizational development and culture; evolution of organizations; response to change; individual motivation; group dynamics; leadership styles; inter-departmental relations, decision-making; communication; team building; conflict resolution; managing change.

39 Hours  Fee: $591.64

**Healthcare Information Analysis**  CHIM 301
Prerequisite(s): CHSM 301

Emphasis will be placed on analysis methodologies and the concomitant use of current data analysis software, such as query and reporting tools, on-line analytical processing (OLAP), executive information systems and data mining tools. The key concept will be methods of transforming data into meaningful information for end-users. Analysis techniques include: trending through the use of historical data, impact analysis, variance analysis, and data modeling to allow for scenario testing. The identification of data sources such as Management Information Systems (MIS), the Canadian Institute for Health Information (CIHI), as well as other financial, clinical and demographic data repositories, will also be covered.

39 Hours  Fee: $591.64

**Binding and Finishing I**  CGRA 320

This study of basic binding and finishing technology places emphasis on the technical and managerial aspects of binding and finishing topics. These include: the history of bookbinding, an overview of binding equipment, bindery service workflows, the structural design of books, quality control, job planning, and productivity issues. Students will also learn the set-up procedures of the primary types of binding equipment by way of lab demonstrations and hands-on assignments, including, guillotine cutting, folding, hand bookbinding, and use of small and table top machines, drilling, padding, embossing and foil stamping, round cornering, film laminating, and shrink wrapping operations.

39 Hours  Fee: $578.25

**Intermediate Electronic Premedia I**  CGRA 323
Prerequisite(s): CGRA 203

Current aspects of file construction, preflighting and imposition will be introduced. In the creation of a multipage printed product, students will learn to plan and execute a multistage production plan involving everything from initial concept to plate-ready files.

35 Hours  Fee: $482.29

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

**Intermediate Electronic Premedia II**  CGRA 423
Prerequisite(s): CGRA 323

This course builds on basic imposition taught in GRA 323 by discussing complex imposition requirements. In addition students will expand their knowledge of image capture, retouching, and colour correction. Proofing as it relates to accurate colour evaluation will also be explored.

35 Hours  Fee: $589.41

Material Fee: A material fee of $40 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.
Health Information Systems Management  CHIM 302
Prerequisite(s): CHIM 301
This course takes a systems perspective in terms of database management, quality management and utilization management. Database management covers the full spectrum of definitions, data standards in terms of integrity, reliability and consistency, data transforming and cleaning prior to storage, and record linkage. Quality assurance and utilization management topics cover issues such as integrated/managed care with a focus on both process and outcome within an interactive cycle, identification of sentinel events and the development of indicators for measurement. Finally, product analysis and selection, including the RFP (request for proposal) process, will also be addressed.
39 Hours Fee: $591.64

Managerial Accounting and Finance  CHIM 403
Prerequisite(s): CACC 100 and CHIM 301
This course focuses on the unique financial management features, reporting policies and analytic tools in health services organizations. It examines different types of budgets including capital and operating budgets, fixed and variable budgets, financial activity budgets and also operating plans. It describes budgetary processes and tools and discusses capital expenditure plans, cash flow forecasts and variance analysis. Financial measurements, reporting and evaluations strategies are discussed.
39 Hours Fee: $579.28

Health Economics  CHIM 404
Prerequisite(s): CECN 104 and CECN 204
This course will take students beyond using the fundamental tools necessary to apply basic economic principles to the health care field. Exposure will be provided on a balance of population-based health economics and consumer driven, managed health care economics. Consideration will be given to linking performance indicators to social goals. Emphasis will be placed on quality of life measures both from the local and international scenes.
39 Hours Fee: $579.28

Issues in Health Information Management  CHIM 405
Prerequisite(s): CHIM 404
This course is designed to facilitate in-depth analysis of key trends and issues in health information management and to explore their implications for management practice. The course will examine current health information management delivery systems, their legislative, political, economic and social complexities, and their ability to influence and be influenced by health care professionals. Issues addressed will vary in response to developments in the field. Students will be asked to critically analyze these trends and issues in terms of their impact on the management of health information as a whole, the provider-client relationship, etc.
39 Hours Fee: $579.28

Practicum Seminar  CHIM 406
Prerequisite(s): Department consent
This course is offered in conjunction with HIM 407. Students and faculty supervisors establish learning contracts detailing the terms and conditions of fieldwork placements. Mid and final seminars provide an opportunity for students to apply theory and collectively share their experiences. This is a graded course.
39 Hours Fee: $579.28

Practicum  CHIM 407
Prerequisite(s): Department consent
Practicum project/exercise to be directly related to health information management. The practicum is the capstone course of the Health Information Management program, and provides the opportunity to apply management theory and concepts in a working environment which is specific to health information services delivery. Students evaluate and analyze onsite management issues within the context of their understanding of organizational systems. A pre-arranged number of hours, per week, will be spent over a negotiated time period in a setting other than their own work setting, although it may be in the same organization. Supervision will be provided by on-site preceptors.
39 Hours Fee: $579.28

Health Services Management
Related certificate(s): Gerontology (pg. 57), Health Informatics (pg. 61), Health Services Management (pg. 62), Health Studies (pg. 63), Nursing Leadership and Management, Advanced (pg. 83), Project Management (pg. 89)

The Healthcare Systems  CHSM 301
The course introduces participants to the organization and operation of the health systems of Canada. The initial section focuses on the client as the consumer of health services. Discussion is focused on the historical concepts of the provider-client relationships; integrated client-centered care. Also examined are major institutional and community components and the interrelationships; role of governments and the health professions in shaping the current system; funding; planning for healthcare; the impact of access to services with the shift from the institutionally-based illness model with curative technology to a wellness model stressing client rights, community development and health promotion in a climate of the learning organization with quality improvement initiatives.
39 Hours Fee: $591.64
★ The Management Cycle  
CHSM 305  
Prerequisite(s): CHSM 301 or HSM 315

The evolving role for the health services manager in the management cycle is the focus of this course. The course uses a case study approach to identify and discuss the manager’s role and responsibilities in key operational areas within the health services organization: planning, organizing, human resources management, budgeting, supervising, evaluating and marketing. Challenges for managers in each of these areas are examined to assist in the development of skills and models for effective management. Methodology: Lecture, case studies, discussion, guest experts.

39 Hours  
Fee: $591.64

★ Management Leadership and Decision-Making  
CHSM 306  
Prerequisite(s): CHSM 305 and (CHSM 301 or HSM 315)

In this course students examine theories of organizational development and culture, review how organizations evolve and respond to change. Students will apply theories of individual motivation, group dynamics and styles of leadership within the context of the departmental structure and inter-departmental relations. Case studies and role-playing are used to develop skills in decision-making, communication, team building, conflict resolution and managing change in multi-disciplinary, multi-cultural work settings. Methodology: Lecture, discussion, case studies, role playing.

39 Hours  
Fee: $591.64

★ Principles of Long Term Care Service Del.  
CHSM 307

Successful completion of this course will enable the student to understand and critically analyze the current system and the impact of expected changes on the delivery of service in the long-term care sector. The course will deal with the policies, values, concepts, and complexities of the health care system in the municipal, provincial, national and international contexts. It will also provide an understanding of the political processes and legislation that have shaped and will continue to shape the delivery of long-term care. Discussion will include the administrative issues and trends in the provision of services to culturally diverse clients of all ages and conditions in both community and institutional environments.

39 Hours  
Fee: $588.55

★ Project Management - Long Term Care  
CHSM 308  
Prerequisite(s): CHSM 301 and CHSM 307

The course provides the student with concepts and basic functions of project management. It will provide participants with the knowledge and skill to apply a project management approach to leadership in the long-term care sector. The course activities will consist of an examination of the key elements of effective project management including scope, time, cost, human resources, quality, risk, communications and change. Opportunities will be made available for skill development and knowledge application during the life of the course.

39 Hours  
Fee: $588.55

★ Trends in Long Term Care Service Delivery  
CHSM 309  
Prerequisite(s): CHSM 301 and CHSM 307

This course is designed to facilitate in-depth analysis of key trends and issues in long term care service delivery and to explore their implications for management practice. Students will examine current long term care delivery systems, their legislative, political, economic, and social complexities, and their ability to influence and be influenced by health care professionals. Issues addressed will vary in response to developments in the field. Students will be asked to critically analyze these trends and issues in terms of their impact on the long term care system as a whole, the provider-client relationship, etc.

39 Hours  
Fee: $588.55

★ Institutional Structure  
CHSM 310

This course is designed to explore the administrative, functional and management structures of modern Canadian healthcare institutions. Student learning will focus on understanding the corporate organizational structure, and the functions and relationships of major clinical and non-clinical departments. Healthcare organizations themselves are also analyzed with respect to the unique social role which they play and the contribution they make to the society in which they function.

39 Hours  
Fee: $588.55

★ Law for Health Managers  
CHSM 326  
Prerequisite(s): CHSM 301 or HSM 315

This course provides an overview of the Canadian legal system as it applies to health services delivery. It provides an overview of administrative, constitutional and tort law principles. It examines issues of organizational and individual liability, malpractice, patient rights, informed consent, treatment authorization and refusal, contracts, labour law and government regulation and identifies areas of legal ambiguity on issues including abortion, living wills, do-not-resuscitate orders, reproductive technologies, and artificial life support.

39 Hours  
Fee: $591.64

★ Managerial Epidemiology for Healthcare  
CHSM 330  
Prerequisite(s): COMS 102 and (CHSM 301 or HSM 315)

It is important for managers to understand the populations they serve. This course will illustrate how the manager can use epidemiological concepts and tools to improve management decisions - from setting rates to predicting staffing needs to marketing the services of the organization. Managers need to know the methods and ideas of epidemiology. The information will be presented in a manner that meets the needs of the healthcare manager. Some of the topics covered will be study designs and descriptive epidemiology; quantitative measures and terminology.

39 Hours  
Fee: $591.64

★ Certificate and degree credit  ★ Degree credit  ◇ Certificate credit  ◇ Course series
Financial Management  CHSM 407
Prerequisite(s): CACC 100 and CHIM 301
This course assumes a basic knowledge of accounting principles. It focuses on the unique financial management features, reporting policies and analytic tools in health services organizations. It examines different types of budgets including capital and operating budgets, and fixed and variable budgets. It describes budgetary processes and tools and discusses capital expenditure plans and cash flow forecasts. Financial measurement, reporting and evaluation strategies are discussed and students learn how to use a spreadsheet, and how to compute and compare budgets and to calculate variances.
39 Hours  Fee: $579.28

Program Planning and Evaluation  CHSM 408
Prerequisite(s): CHSM 417
This course develops conceptual and applied understandings of what a program is, how it is developed, and how its performance can be monitored and assessed. It describes the purposes, application and importance of planning and evaluation techniques in the health field and develops strategies for initiating and managing planning and evaluation activities. Fundamental elements of program planning and evaluation are detailed including the specification of program goals, objectives and operational indicators, and the matching of planning and evaluation questions to operational decision-making.
39 Hours  Fee: $579.28

Research Methodology  CHSM 417
Prerequisite(s): CHSM 326 and CHIM 301
This course builds basic skills in statistics and research methodology in the health field. To ensure the quality, appropriateness and cost-effectiveness of the services they provide, managers must make decisions based on the best available evidence. Even if they do not themselves engage in research activities, they should understand the research process, the assumptions which underlie different research strategies, and be able to critically assess research findings as the basis for decision-making. The course discusses the assumptions of clinical and social research models and the nature and use of health care statistical data.
39 Hours  Fee: $579.28

Practicum Seminar  CHSM 418
Prerequisite(s): Department consent
Offered in conjunction with HSM 419. The first pre-fieldwork seminar orients students to the process of experimental learning. Students and faculty supervisors establish learning contracts detailing the terms and conditions of fieldwork placements. Mid and final seminars provide an opportunity for students to apply theory and collectively share their experiences. Learning outcomes include an applied understanding of the management cycle, the challenges for managers and enhanced research and evaluation skills. This is a graded course.
39 Hours  Fee: $579.28

Practicum  CHSM 419
Prerequisite(s): Department consent
The practicum is the “capstone” course of the program, and provides the opportunity to apply management theory and concepts in a working environment. Students evaluate and analyse on-site management issues within the context of their understanding of organizational systems. A pre-arranged number of hours, per week, will be spent over a negotiated time period in a setting other than their own work setting, although it may be in the same organization. Supervision will be provided by on-site preceptors. This course is graded on a pass/fail basis.
39 Hours  Fee: $579.28

Human Resources Management in Healthcare  CHSM 437
Prerequisite(s): CHSM 326
This course will increase the understanding of the processes involved in merging human talents, needs and aspirations with the requirements of the client-centred health services organization. It builds on the theory and practice of leadership and communication skills, to develop skills and knowledge in human resources planning, recruitment, selection and evaluation. Topics include job analysis, performance appraisal, compensation, quality of working life, continuing professional education, collective bargaining, employee rights, career planning, etc. A case study approach will be used. Methodology: Lecture, discussion, case studies.
39 Hours  Fee: $579.28

I still have great work-life balance and actually enjoy my weekly assignments. I had some fears about the differences between online courses and the traditional in-class model, but the instructors have been superb and very supportive. I also enjoy collaborating and interacting with fellow health care professionals. It provides opportunities to see what others in the field are doing, and has even given me ideas on how I can effect change in my own workplace.

Daniel Smith
Learner, Health Informatics
Hindi

Are you interested in learning a phonetic language? Do you want to learn about Indian culture? Are you travelling to India, Pakistan, or Nepal? Do you have Indian friends, relatives, or business contacts? If you want to learn Hindi for any of these purposes, our non-credit courses are for you. Students who have no or very little knowledge of Hindi may enroll directly into COHI 101. For more information, visit www.ryerson.ca/ce/languages.

- **Introductory Hindi**
  - **COHI 101**
  This is a non-credit course which focuses on how to make your own Hindi sentences to express your thoughts in present, past, and future tenses. Emphasis is on understanding how to communicate original thought at the sentence level. The course begins with recognition of the Hindi alphabet in roman letters, leading to pronunciation of Hindi words and sentences. You come away understanding and speaking Hindi in simple, straightforward, everyday situations.
  
  *Note: Text and CD: Ratnaker Narale, Learn Hindi Through English Medium.*
  
  16 Hours  HST included  Fee: $344.02

- **Advanced Introductory Hindi**
  - **COHI 201**
  This is a non-credit course which focuses on how to make your own Hindi sentences to express your preferences and opinions in present, past, and future tenses. Emphasis is on understanding how to communicate original thought at the multi-sentence level. The course augments recognition of the Hindi alphabet in roman letters, leading to correct pronunciation of Hindi words and sentences. You will gain confidence in understanding and speaking Hindi in straightforward, everyday situations and communications.
  
  16 Hours  HST included  Fee: $344.02

- **Intermediate Hindi**
  - **COHI 301**
  This is a non-credit course which focuses on how to utilize what you learned in COHI 101 and COHI 201, and on how to continue making your own Hindi sentences to express your original thoughts and opinions in present, past, future, and conditional tenses. The course mainly focuses on writing letters and emails in Hindi to your friends and relatives; using synonyms, antonyms, idioms, phrases, proverbs in spoken Hindi; and participating in scenarios in order to learn how to engage in everyday conversations. Students are encouraged to read and write Hindi sentences; however, in general, the focus of this course is to understand and speak the Hindi language.
  
  16 Hours  HST included  Fee: $344.02

HISTORY

The Department of History offers a wide selection of courses, ranging from general surveys in European, African, Canadian, and American history to courses that examine themes in subjects such as modern international relations and the history of science and technology. Students enrolled in degree programs are responsible for ensuring that any course selected from those listed meets the specific requirements of their program.

- **History**
  Related certificate(s): Caribbean Studies (pg. 28), Ethics (pg. 46), Social Sciences and Humanities Foundations (pg. 101)

- **Ten Days That Shook The World**
  - **CHIS 104**
  This course explores transformative moments in history in order to understand their underlying causes and their social, cultural, political, and economic impacts on human beings and their societies. Each topic introduces students to the diverse ways historians practise their craft and seek understanding of the past and historical change so that they develop a deeper appreciation of what history “is” and “does” by considering multiple means of exploring and making sense of the past. (Formerly HST 114).
  
  39 Hours  Fee: $627.69

- **Inventing Popular Culture**
  - **CHIS 105**
  This course examines the history of popular culture, starting in the 19th century, seeking to define popular culture and understand its relationship to the formation of modern society. It considers such topics as the ideological use of popular culture, debates surrounding culture, notions of nation and community, and the growing dominance of commercial culture during a period when technology, human migration, and other factors increasingly blurred the boundaries of earlier cultural and social understanding. (Formerly HST 115).
  
  39 Hours  Fee: $627.69

- **Technology, Warfare and Social Change**
  - **CHIS 106**
  This course introduces students to the technological and social implications of warfare from the ancient to the modern age. However, rather than dwell on the minutiae of military technologies and battle strategies, it explores the technological connections between war and society through asking such questions as how conflict fostered technology exchanges and medical advances; how improved naval technology furthered exploration; how military technologies found civilian use; and how new technologies changed the ethics of war. (Formerly HST 116).
  
  39 Hours  Fee: $627.69
★ Colonization, Colonialism and Independence CHIS 107

This course provides a comparative history of colonialism, drawing attention to the motives behind territorial acquisition, the methods employed to establish colonial control, and the responses to the practice among subject populations, including the forms of resistance leading to independence. It traces the many legacies of colonialism, including the impact of cross-cultural encounters on both rulers and subjects, as well as the ways in which colonialism continues to influence the globe. (Formerly HST 117).

39 Hours

★ Themes in Modern Asian History CHIS 265

Antirequisite(s): HST 112 and HST 113

Using both regional and national perspectives, this course examines themes in modern Asian history, including colonization, the rise of nationalism, decolonization, the Asian-Pacific War (1931-45), diasporas within Asia, shifts in religions and popular cultures (such as cinema and sports), and the evolution of gender relations. The purpose is to develop students’ understanding of the shared and distinctive experiences of Asian nations in their journeys to modernization and in their struggles between tradition and modernity.

39 Hours

★ Ancient Greece and Rome CHIS 275

This course explores the emergence of both Greek and Roman societies (c.700 to c.100 BCE). It considers the rise of Greek city states, Athenian imperialism and its clash with the Spartans, plus the spread of Hellenism throughout the Mediterranean World. The course also examines the spread of Roman society from Rome, throughout Italy, to the conquest of the former Hellenistic Mediterranean as a means to highlight both the clashes and merging of cultures.

39 Hours

★ Ancient Egypt CHIS 559

Popular histories of ancient Egypt often only explore New Kingdom pharaohs, such as Tutankhamen and Ramses II. This course provides a much broader history, beginning with the roots of Egyptian civilization prior to c.3000 BCE and ending with the Late Period (c.323 BCE to 330 CE). It considers change over time in the political, social, religious, and everyday life of Egypt, as well as its economic and other ties with the wider world.

39 Hours

★ Rome: Republic and Empire CHIS 575

This course explores the Roman world from the Republican period (c.100-27 BCE) to the imperial era that followed. It examines struggles of leadership caused by the conquest of increasingly vast territories, the fall of the republic, the rule of the emperors, and defence of the outer boundaries of empire at its zenith. The course also considers Roman society and culture, and discusses the ramifications of Christianity, concluding with Constantine’s conversion in 312 CE.

39 Hours

★ Roman Society and Culture CHIS 580

This course examines the development of Roman society and culture from the Republican period (c.100-27 BCE) to the imperial era that followed. It considers the impact of the conquest of increasingly vast territories, the fall of the republic, the rule of the emperors, and defence of the outer boundaries of empire at its zenith. The course also considers Roman society and culture, and discusses the ramifications of Christianity, concluding with Constantine’s conversion in 312 CE.

39 Hours

★ Modern International Relations CHIS 590

Antirequisite(s): HIS 490 and CHST 604

To understand the complexities of the modern world, we must have a firm grasp of international relations. What forces - political, social, or economic - have changed our world since 1945? What was the Cold War and what does its ending mean? This course uses history to illuminate relations and developments in specific areas, such as Europe, the Middle East, and Asia. It also trains students in how to formulate questions and find information effectively. (Formerly HST 500).

39 Hours

★ The British Empire and the World CHIS 886

For nearly four centuries, Britain ruled over the largest colonial empire in the world. This empire was the product of a long history of naval and commercial opportunities shrewdly exploited by various British leaders. This course examines the key role played by the empire in assuring Britain’s prosperity, from the first settlements until the 1930s, along with the British colonial “model” and the decolonization that followed the end of the Second World War. (Formerly HST 722).

39 Hours

★ U.S. History: Colonial Era to 1877 CHST 110

Antirequisite(s): HIS 248

This course surveys the creation and development of the “Thirteen Colonies” and the American republic, from the 17th century through the period after the Civil War. Topics include: the settlement and growth of the colonies, European-Native relations, the American Revolution, the Constitution, westward expansion, Jacksonian America, the market revolution and rise of the factory system, slavery and abolitionism, women and reform, the Civil War, and Reconstruction. (LL)

39 Hours

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
World Turned Upside Down: Europe 1350-1789  
**CHST 111**

Antirequisite(s): HIS 279 and HIS 377

Early modern Europe was torn by contradiction and conflict. Rediscovery of the ancients and reinterpretation of the Bible produced a new culture but split Christianity. The nation state, the Atlantic economy, modern capitalism and new empires developed amid revolt and resistance. Growing literacy and modified gender relations reshaped society. Witches were still burned while scientists transformed knowledge; an age of reason emerged while war grew more terrible. Out of all this came Europe’s world domination. (LL)

39 Hours  
Fee: $581.34

Fact and Fiction: History Through Film I  
**CHST 119**

Clash of Empires: can an entertainment medium like the cinema provide a valid insight into our past? This course tries to answer that question and a host of others. Films used will illustrate the themes of discovery, conquest, colonization, and resistance from the time of Columbus to the end of the First World War. The topics will be international in scope, using examples from aspects of Asian, African, and Latin American history, and both Hollywood and international films. (LL)

39 Hours  
Fee: $605.03

U.S. History: 1877 to the Present  
**CHST 210**

Antirequisite(s): HIS 348

This course surveys the period from industrialization and westward expansion in the late 19th century up to the political shifts of the present day. Topics covered include: the rise of Big Business and unions, mass migration, the growth of cities, American imperialism, popular culture, the Great Depression and New Deal, war (First, Second, Vietnam, and others), the Cold War, civil rights and social movements, the New Right, and U.S. interests abroad. (LL)

39 Hours  
Fee: $605.03

Century of Revolution: Europe 1789-1914  
**CHST 211**

Antirequisite(s): HIS 279 and HIS 379

The French Revolution launched the modern age, in politics, society, the family, the arts, and war. The 19th century brought fresh revolutions: technology and industrialization transformed work and leisure, life and death; liberalism and revolutionary socialism challenged the old order; and science altered forever humanity’s place in the universe. Yet this was also a century of ruthless imperialism and aggressive and intolerant nationalism. This period is essential for understanding our world. (LL)

39 Hours  
Fee: $581.34

Themes in Latin American History  
**CHST 213**

Latin America is an area of increasing importance and interest. This course explores the history of Latin America through questions such as: How did colonization influence today’s societies in Latin America? What were the major differences between Spanish and Portuguese colonization? What were the reasons for and consequences of latter-day foreign influence in the region? What have been the major reasons behind the political instability of this region throughout the 20th century? (LL)

39 Hours  
Fee: $572.07

Fact and Fiction: History Through Film II  
**CHST 219**

This course follows the pattern set by HST 119. Films shown will examine aspects of colonial rule in Asia and Africa from the end of the First World War to the late 20th century. There will be an emphasis on the struggle for liberation from the grip of European empires, although the fate of Europeans suffering from oppression will not be ignored, nor will the neo-imperialism practised by the superpowers during the Cold War. (LL)

39 Hours  
Fee: $605.03

The History of The Caribbean  
**CHST 222**

This course examines the development of societies in the Caribbean from the intrusion of European explorers and settlers c.1492 to the dismantling of the slave systems in the 19th century, and beyond to issues, such as independence, affecting the region in modern times. (LL)

Note: Formerly COCR 944.

39 Hours  
Fee: $514.39

Canada to 1885: The Founding Societies  
**CHST 307**

Antirequisite(s): HIS 238 and HST 581

What past events lie behind French Quebec’s current attitude towards Canada? Why do Canadians have a love-hate relationship with the U.S.? How have the struggles of other nations influenced Canadian development? What principles do our political parties follow, and where do these ideas come from? These and other questions are examined in lectures and discussions. (LL)

| Multiple Ontarios: 1784 to the Present          | CHST 328 |
| Antirequisite(s): HST 550 and HST 650          |           |
| This course examines Ontario's social and      |           |
| economic development from the late 1700s to     |           |
| the present, emphasizing the province's long   |           |
| history of settlement by diverse populations.  |           |
| It considers Ontario's identity by juxtaposing |           |
| perspectives that emphasize Ontario's colonial |           |
| past and lasting loyalty to the British Empire |           |
| with those that present a multicultural,       |           |
| forward focused, industrializing, and         |           |
| urbanizing province. To highlight Ontario's    |           |
| continued diversity, the course explores       |           |
| “multiple Ontarios”: aboriginal, northern,     |           |
| rural, urban, and suburban. (LL)                |           |
| 39 Hours                                       | Fee: $598.85 |

| Canada from 1885: The Struggle for Identity     | CHST 407 |
| Antirequisite(s): HIC 190 and HIS 338 and HST 681|           |
| This course continues the examination of issues |           |
| studied in HST 307 at a later period. Also      |           |
| discussed are themes such as the reasons for,   |           |
| and the extent of, political and social protest |           |
| in Canada, the emergence of different visions   |           |
| of Canadian nationalism, and the opposition     |           |
| to these visions - the provinces’ struggle for |           |
| power, Quebec’s struggle for identity, and the  |           |
| West’s struggle for equality. (LL)               |           |
| 39 Hours                                       | Fee: $571.04 |

| History of Science and Technology II            | CHST 425 |
| Antirequisite(s): HIS 316 and HIS 417           |           |
| This course surveys the richness and diversity  |           |
| of scientific knowledge and the influence of    |           |
| technological change in Western civilization    |           |
| from the 1700s to the 21st century. From the    |           |
| Industrial Revolution, development of           |           |
| electricity, Darwinian evolution, Einstein’s    |           |
| relativity, and other breakthroughs, students   |           |
| learn how new theories and practices accelerated |           |
| the pace of change, created new problems,      |           |
| altered our understanding of the world and     |           |
| ourselves, and changed the social, political,  |           |
| and economic conditions surrounding modern life.|           |
| (LL)                                            |           |
| 39 Hours                                       | Fee: $571.04 |

| Major Themes in International Relations         | CHST 426 |
| Antirequisite(s): HIS 390 and HIS 490          |           |
| This course examines key aspects of international relations from the creation of the Westphalian system (1648) to the present. Topics include the methods and structures established to mediate relations between states, the bureaucratization of diplomacy, the rise of international institutions and law, the emerging notion of human rights, and the challenges to the Westphalian system engendered by globalization, international terrorism, and the rise of intrastate conflicts. (LL) |           |
| 39 Hours                                       | Fee: $621.51 |

| The American Civil War                         | CHST 501 |
| Antirequisite(s): HST 550 and HST 650          |           |
| This course surveys the history of the Civil War, from its origins in 19th-century tensions through to the end of Reconstruction in 1877. Topics include: slavery, the growth of sectionalism, birth of the Republican Party, breakdown of the political system, justifications for and against secession, the founding of the Confederacy, the military conflict, life on the home front, Union victory, sectional reconciliation, and postwar conditions for freed Blacks. (UL) |           |
| 39 Hours                                       | Fee: $562.80 |

| Crime and Punishment in Modern Canada          | CHST 503 |
| Antirequisite(s): HIS 390 and HIS 490          |           |
| This course is a historical inquiry into crime |           |
| and punishment in 20th-century Canada. The     |           |
| major focus of the course is an examination of |           |
| the social history of crime, which includes    |           |
| historical attitudes toward crime, definitions |           |
| of what actions constitute criminal behaviour   |           |
| and how they change over time, and finally, the |           |
| evolution of the relationship between the       |           |
| criminal justice system and social change. (UL)|           |
| 39 Hours                                       | Fee: $562.80 |

| War to War: World Conflict 1900-45             | CHST 504 |
| Antirequisite(s): HIS 390 and HIS 490          |           |
| The two world wars between 1914 and 1945 have  |           |
| transformed our planet. In 1900 Europe         |           |
| dominated international relations; since then   |           |
| we have seen the rise of the superpowers of    |           |
| the United States and the Soviet Union, and a   |           |
| shift in power to the non-European world of    |           |
| Asia, Africa, and Latin America. This course   |           |
| examines the causes and significance of these  |           |
| changes. Topics include political, economic,   |           |
| and military factors, war-making, and peace-    |           |
| keeping. (UL)                                  |           |
| 39 Hours                                       | Fee: $562.80 |
The United States after 1945

CHST 510

Between 1945 and the present, the U.S. experienced rapid social, economic, and cultural change that re-shaped racial, gender, ethnic, class, and sexual politics. This course examines the major domestic, cultural, and social issues of the post-Second World War period. Topics include: domestic anti-Communism, youth culture, consumer culture, social movements of the 1960s, identity politics, immigration, the labour movement, the rise of the New Right, and the culture wars. (UL)

39 Hours Fee: $598.85

Quebec in Canada: A History

CHST 511

The relationship between Quebec and the rest of the country is a complex one, involving conquest, submission, survival, compromise, cooperation and confrontation. This course explores the twists and turns of the historical relationship in order to provide a deeper appreciation of the place of Quebec in Canada and of the nature of modern Quebec society. (UL)

39 Hours Fee: $556.62

The Middle East: 1908 to the Present

Antirequisite(s): HIS 661

CHST 522

This course surveys the history of the Middle East from the eve of the First World War to the present. Important topics include the role of colonial powers in the region, the development of modern Middle Eastern societies and nation states, cooperation and conflict among the region’s countries, the impact of the Cold War, Arab-Israeli conflict, the Palestinian question, the roots of political Islam, and the Middle East’s place in the wider world. (UL)

39 Hours Fee: $556.62

Women and Gender in U.S. History

CHST 526

How did women contribute to the construction of modern America, to debates over war and peace, the struggle for civil and workers’ rights, the fields of leisure and entertainment, and their own fight for equality? Placing women’s experiences at the centre of historical analysis, this course develops students’ understanding of the major political, economic, and social developments of 20th-century America, while also examining how ideas about sexual difference have been constructed and deployed throughout history. (UL)

39 Hours Fee: $598.85

Toronto: Wilderness to Metropolis

CHST 527

In less than 200 years Toronto has grown from a small town into a major metropolis. This course looks at elements in that development, such as: immigration and its effects, 19th-century social classes and ethnic rivalries, the growth and movement of industry, pollution problems, the struggle over municipal services, urban calamities, the absorption of other communities, problems of the poor, the growth of suburbs, and the emergence of a multicultural city. (UL)

39 Hours Fee: $598.85

Themes in Pre-Colonial African History

CHST 533

This course deals with African history before European colonization. The approach is thematic and the course focus will shift with developments in the field. Some themes that might be included are: the use of oral tradition, the development of ancient civilizations and states in Africa, the spread of Islam, the Atlantic Slave Trade, trade networks, and the shift to “legitimate commerce.” This course is best taken with HST 633. (UL)

39 Hours Fee: $556.62

Espionage: A 20th-Century History

CHST 540

Hidden codes, special devices, fiendish villains, and top secrets all have a special place in popular culture, but as alluring as the mythology may be, it does not answer important questions about the role espionage plays in international relations. This course covers the evolution of spying and spy services from the late 19th century to the present, focusing on the effects of major events such as the two world wars, the Cold War, and 9-11. (UL)

39 Hours Fee: $562.80

Problems in 20th-Century Western Europe

CHST 551

This course avoids the survey approach by enabling students to concentrate on certain specific aspects of 20th-century Western European history. Each semester explores a different set of topics, which will be examined in some depth, taking into account social, political, economic, and geographical ramifications. Examples of subjects that might be examined include: “France in the 20th Century” or “Britain: Grandeur and Decline.” (UL)

39 Hours Fee: $562.80

Late Qing and Republican China, 1839-1949

CHST 555

This course covers the late Qing dynasty (1839-1911) and Republican China (1911-49). It explores China’s semi-colonization under Western and Japanese aggressions; reforms, rebellions, revolutions, frequent regime shifts, and political disintegration; the construction of new political theories and cultures; the rise of a Shanghai-centred urban popular culture; and evolving gender relations. Within these themes, an important subject is the role of Chinese people of different socio-economic classes, ethnicities, genders, and locales in creating the new nation. (UL)

39 Hours Fee: $562.80

Natives and Newcomers to 1763

CHST 580

How did the First Nations of the Canadian and American Great Lakes region develop through the millennia? What happened at their first encounters with Europeans? How did they face the challenges posed by missionaries and traders? What happened during the tragic epidemics of the 1600s? How did war and conflict re-shape the aboriginal world? Explore these and other important questions in indigenous history in this course. (UL)

39 Hours Fee: $562.80
Mediaeval Europe: 400-1400  CHST 584  
Antirequisite(s): HIS 277

This course traces the main developments in Europe from the fall of Rome to 1400. Within a broadly chronological context, we examine the political, religious, and social changes that occurred during that time. Topics include: the barbarian kingdoms, early Western Christianity, the Byzantine Empire, the rise of Islam, Charlemagne, the Moors and the Vikings, the development of the new kingship, the Crusades, and life, art, learning, and culture in the High Middle Ages. (UL)

39 Hours  Fee: $598.85

The History of Modern Propaganda  CHST 602

This course examines the role of propaganda, starting with its use by religious reformers in the 16th century, French revolutionaries of the 18th, and nationalisms in the 19th. The main focus, however, is the period after 1900. We explore propaganda during the two world wars, its use by totalitarian powers, and its impact on the Cold War. We place emphasis on studying the raw materials of propaganda: pamphlets, posters, radio broadcasts, and films. (UL)

39 Hours  Fee: $562.80

The Third Reich  CHST 603

This course introduces students to the history of Germany’s Third Reich and its international impact from its origins in the 1920s to the aftermath of its defeat in 1945. Topics include the birth of Nazism in Weimar Germany; Adolph Hitler’s rise to power; Nazi government, economy, and society; the Holocaust; territorial expansion; the conduct of the Second World War; the collapse of the Third Reich; and ongoing deliberations about its legacies. (UL)

39 Hours  Fee: $562.80

The Uneasy Peace: The Cold War, 1945-90  CHST 604  
Antirequisite(s): HIS 490 and CHIS 590 and HST 500

This course explores the story of the Cold War, a conflict that dominated international relations for much of the postwar period. Topics include the emergence of the United States and Soviet Union as superpowers, the division of Europe after 1945, the creation of Cold War alliances, decolonization, superpower conflict by proxy, the rise of regional powers, the collapse of the Soviet Union, and the legacy of the conflict for the 21st century. (UL)

39 Hours  Fee: $562.80

Themes in 20th-Century African History  CHST 633  
Antirequisite(s): HIS 556 and HIS 666

What historical dynamics have produced the Africa we know today? How far are today’s problems rooted in the colonial experience? This course examines the history of the continent from the beginning of the colonial period to the present. Some of the themes covered include: resistance to colonial rule, the development of nationalism, class formation, changing gender roles, Africa in the world economy, and democratization movements. This course is best taken with HST 533. (UL)

39 Hours  Fee: $556.62

Problems in 20th-Century Eastern Europe  CHST 651

This course avoids the survey approach by enabling students to concentrate on certain specific aspects of 20th-century Eastern European history. Each semester will be devoted to a different topic or topics, which will be examined in some depth, taking into account social, political, economic, and geographical ramifications. Examples of subjects that might be examined include: “Eastern and Central Europe 1914-91” or “The Soviet Union: From Lenin to Gorbachev.” (UL)

39 Hours  Fee: $556.62

People’s Republic of China, 1949-Present  CHST 655

This course covers the diverse years of the People’s Republic of China. For the Mao Zedong period, we explore socialist reformations, the Anti-rightist Movement, the Great Leap Forward, the Cultural Revolution, and the making of Communist citizens within a new hierarchy. For the post-Mao years, we examine how ongoing reforms and open door policies de-communized the country as part of our investigation into China’s painful and twisted journey to modernity in a global context. (UL)

39 Hours  Fee: $556.62

Natives and Newcomers from 1763  CHST 680

How did the First Nations of the Great Lakes defend their interests when settlers flooded the region after 1763? What happened to them in the American Revolution and other frontier conflicts? What were the results for natives when Euroamericans forced them onto reservations or demanded they assimilate? What were the impacts of modernization after 1850? Explore these and other critical issues in native-newcomer relations in this course. (UL)

39 Hours  Fee: $562.80

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Our lives are shaped by scientific knowledge applied to new inventions. This course examines how scientific technology both reflects and transforms our society, and how it created key fundamental industries in our high-tech, energy-dependent society. It covers the invention of modern electrical and transportation systems, modern warfare, problems of biotechnology, the ethics of industrial chemistry, nuclear energy and the atomic bomb, and the computer revolution. (UL)

39 Hours Fee: $562.80

This course examines the causes, conduct, and outcomes of the world’s first total war. Key themes include pivotal military events, soldiers’ experiences, and, especially, the interactions between the home front and the front lines that distinguished the Great War from earlier conflicts and that shaped its outcome and long-term consequences. Accordingly, the connections between the political, military, social, economic, and cultural dimensions of the war are central topics of study in this course. (UL)

39 Hours Fee: $562.80

This course explores a pivotal relationship in Canada’s development by looking beyond formal ties, such as treaties, to political, economic, and cultural forces with the United States. It starts in the 18th century, but the major focus is on the 20th century, when the two countries were never closer. Topics include the Cold War, economic links, tensions, culture and nationhood, and Free Trade. (UL)

39 Hours Fee: $562.80

This course is a cultural and social history of the American city, focusing on late-19th and 20th-century New York and Los Angeles. We examine how issues such as how immigration/migration, race, gender, sexuality, public space, architecture, urban planning, and consumerism have shaped the lives and cultures of cities and city residents. (UL)

39 Hours Fee: $562.80

While taking various forms, both the Renaissance and Reformation marked breaks with mediaeval Europe that radically transformed life in the early modern period. Each was built on, or incorporated, socio-economic changes, scholarly developments, the advent of printing, new forms of political authority, and stunning cultural and intellectual achievement. Yet while intermingled, the two movements were also fundamentally different while one commonly celebrated the human and worldly, the other sought a purified Christian faith. (UL)

39 Hours Fee: $598.85

In the early centuries of Islam, the study of the natural world was held in high esteem. Scientists and engineers were called upon to solve practical problems that emerged with the new religion. Debates occurred over whether, and to what extent, scientific inquiry was appropriate in Islam. This course surveys major developments in scientific knowledge and technological know-how, from the 7th-century rise of Islam to 1600 CE, along with their impacts upon the Western world. (UL)

39 Hours Fee: $562.80

Today the difference between astronomy and astrology is defined with clarity, with the former recognized as an established scientific discipline and the latter regarded as a pseudoscience, rejected for its lack of credibility. Such was not always the case, as astrology gave birth to astronomy. This course explores the complex interrelationship between the two from the third millennium BCE to 1700 CE. (UL)

39 Hours Fee: $598.85

This war rightly has been called a total war. New technologies and strategies affected civilians as much as the military, and the fighting raged across the globe. We examine the war in Europe, Asia, and beyond, exploring such questions as the role of aerial bombing, of science, of intelligence, and of propaganda in the conflagration while considering the war’s impact on daily life in occupied countries, and the distinct experience of the dictatorships and democracies. (UL)

39 Hours Fee: $562.80

Canada has undergone such profound social, cultural, constitutional, and political changes since 1968 that it can be argued that the country has experienced a “revolution.” The goal of this course is to examine the nature of this “revolution” and to give students a broad introduction to the major events and themes in contemporary Canadian history, including such topics as constitutional reform, multiculturalism, Quebec, free trade, cultural organizations, foreign policy, globalization, feminism, and Aboriginal rights. (UL)

39 Hours Fee: $598.85

Certificate and degree credit  Degree credit  Certificate credit  Course series
HOSPITALITY/TOURISM

If you are already active in the hospitality and tourism industry, the courses listed offer an ideal opportunity to upgrade your skills. If you are planning to pursue a career in hotel, resort, or restaurant management, they provide an excellent base for your professional development.

Hospitality and Tourism

Related certificate(s): Business Decision Analysis (pg. 24)

★ Food and Beverage Cost Control Systems  CHTF 201
This course examines control functions in food and beverage operations affecting profitability. Definition, planning, design, standards and analysis of food and beverage cost controls are studied. Topics include control of sales, income, inventory and labour costs, cost-volume-profit relationships, menu engineering and the use of technology in food and beverage planning and control.

39 Hours  Fee: $579.28

★ Service and Professionalism  CHTH 102
Antirequisite(s): CRMG 303
This course will introduce the students to quality service. General systems theory is used to investigate the concept of service excellence as a philosophical framework of developing a service management strategy to insure service quality. Current issues include regarding quality service and the organizational and managerial implications.

39 Hours  Fee: $737.90

★ Destination Management Systems  CHTI 746
Prerequisite(s): CITM 102 or Direct Entry
Hospitality and Tourism destinations promote themselves by developing dynamic inviting websites. Destination management strategies must embrace ICT (Information Communication Technologies). By critically examining different Destination Management Systems, students will learn what makes a successful site now that the Internet is a major distribution tool. Students will be guided to use the Internet to compare different Destination websites and they will learn how Search Engine Optimization can increase the traffic to their website.

39 Hours  Fee: $579.28

★ Tourism Concepts  CHTT 202
This course critically assesses travel and tourism as a system and develops its general interrelated and interdependent elements. Selected trends impacting the entire industry are also discussed as to their system wide impacts. Major economic, environmental and sociocultural concepts/impacts are discussed, including interactions between visitors and host communities. This course serves as a foundation for pursuing a career in any sector of the industry.

39 Hours  Fee: $737.90

★ Travel Product Distribution  CHTT 303
In this course a functional approach is used to describe and analyze issues related to the market distribution channels for travel products and services. Analyses of the roles of retail travel agents, wholesalers, tour operators and specialty channelers, such as meeting planners are included. Thus, this course provides information necessary for student managerial career planning in the travel and tourism industry.

39 Hours  Fee: $579.28

★ Sustainable Tourism Development  CHTT 510
Prerequisite(s): CHTT 303
This course critically examines sustainable and responsible tourism development practices at both the micro and macro levels of the industry. Case study analysis is an integral component of the course. A major focus will be on benefits and impacts associated with tourism development, as well as the strategies for maximizing benefits and minimizing adverse effects.

39 Hours  Fee: $628.72

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
HUMAN RESOURCES

These courses give you the opportunity to develop your knowledge and skills in human resources management. With their intensive focus on contemporary issues and management techniques, they can help you upgrade your professional qualifications or prepare you to pursue accreditation in this challenging and rewarding field.

Human Resources

All CMHR course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg. 16), Business Management (pg. 26), Design Management (pg. 36), Ethics (pg. 48), Facility Management (pg. 48), Health Informatics (pg. 61), Human Resources Management (pg. 55), Leadership in Organizations (pg. 73), Nursing Leadership and Management, Advanced (pg. 83), Occupational Health and Safety (pg. 85), Project Management (pg. 89), Project Management for Technical Professionals (pg. 91), Retail Management (pg. 99)

★ Organizational Behaviour and Interpersonal Skills  CMHR 405
This course introduces students to theories of organizational behaviour. Experiential learning and in-class practice is used to develop understanding of organizations, enhance interpersonal skills, and improve effectiveness in teams. Topics include motivation, communication, team dynamics, conflict, perception, attitudes, personality, power, influence and leadership.
39 Hours Fee: $639.48

★ Organizational Behaviour II  CMHR 505
Prerequisite(s): CMHR 405 or HTH 601
This course completes the introduction to organizational behaviour started in MHR 405 and emphasizes applied activities to enhance students' skills in applying organizational behaviour theory to the practice of management. Topics include: organizational culture, creativity, stress, negotiations, cross-cultural behavior, job design and organizational structure and design.
39 Hours Fee: $574.59

★ Industrial Relations  CMHR 522
This course examines theories of industrial relations, union organization and structure, labour legislation in Canada, negotiating and administering the collective agreement among other topics. The aim is to introduce the student to the complexities of the labour management relationship and to explore various techniques for successfully managing this critical area of business. (Formerly MGT 522.)
39 Hours Fee: $574.59

★ Human Resources Management  CMHR 523
This course exposes students to the dynamic and diverse field of Human Resources Management and provides a foundation in theory and practice for areas such as human resources planning, recruitment, and selection of staff, training and development, and compensation. Current events, human resources strategy, relevant legislation, and future trends are also explored. The course provides students with the fundamentals necessary to effectively administer the human resources function of an organization, and also develops their abilities to perform effectively in teams. (Formerly MGT 523 and MHR 728.)
39 Hours Fee: $574.59

★ Diversity and Inclusion in the Workplace  CMHR 600
Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry
The Canadian workforce has become more diverse in recent decades and is projected to be more so in the coming years. For example, women now account for almost half of the Canadian labour force. The aging of the Canadian population and the abolition of mandatory retirement means that a number of generations will be working side by side with each other. With globalization and the greater mobility of workers around the world, racial/ethnic minorities will soon account for one in three working Canadians in the not-too-distant future. A number of organizations have already realized the importance of all Canadians irrespective of gender, age, race/ethnicity, sexual orientation, religion and other dimensions of diversity in order to remain competitive on the global stage. This course will explore the opportunities and challenges of working in and managing diverse and inclusive workplaces.
39 Hours Fee: $574.59

★ Recruitment and Selection (Staffing)  CMHR 623
Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry
This course builds on the knowledge gained in MHR 523. It is designed to develop the student's knowledge, skills, and abilities in three significant integrated Human Resource areas: job analysis, recruitment, and selection. Students will interview an HR professional; write a job description and job specifications; investigate recruitment strategies and develop a job advertisement; examine various selection tools; and practice interviewing simulated job applicants. The course uses an experiential learning design, and students have opportunities to practice skills that are central to effective hiring decisions.
39 Hours Fee: $574.59
For the most current information, including scheduling options, visit www.ryerson.ca/ce.

★ Leaders as Coaches and Mentors  CMHR 638
Prerequisite(s): CMHR 405 or HTH 601
This course provides participants with the knowledge, skills, and abilities needed to both perform the roles of coaching and mentoring as they pertain to the development of employees and managers. It covers the planning for, implementation of, and evaluation of coaching and mentoring as well as the assessment and development of the interpersonal skills that are integral to these roles.

39 Hours  Fee: $574.59

★ Leadership  CMHR 640
Prerequisite(s): CMHR 405 or HTH 601
This course combines theory and practice by providing both a detailed overview of theories of leadership and an introduction to practical leadership techniques and group-level interpersonal skills for managers and supervisors. The course extends knowledge of leadership by building on the foundation of the leadership material provided in other organizational behaviour courses.

39 Hours  Fee: $642.57

★ Management of Change  CMHR 650
Prerequisite(s): CMHR 405 or HTH 601
This course will build on an understanding of organizational behaviour, and will focus on an understanding of change agents within organizations. By applying basic organizational behaviour and organizational theory concepts to change management, the course will explore forces for change, resistance to change, management of change, new theories and methods of change, and innovation and leadership in organizations. The course includes some emphasis on the implementation of information technology, and combines theory with practice.

39 Hours  Fee: $574.59

★ Special Topics in Org Behav and HR Mgmt  CMHR 670
Prerequisite(s): CMHR 405 and CMHR 523
This course provides students with the opportunity to pursue advanced studies on issues and themes of immediate and current significance in the fields of Organizational Behaviour and Human Resources Management. It allows students to access leading-edge research and to explore new and emerging models of practice. The particular theme, topic, and structure of the course will vary in response to changes and trends in the field, availability of specialists, and student interest.

39 Hours  Fee: $574.59

★ Human Resources Information Systems  CMHR 671
Prerequisite(s): (CMHR 523 and CITM 100) or (CMHR 523 and CITM 102) or Direct Entry
Human resources (HR) professionals are responsible for managing the organization’s key assets - human capital. Business information technology is pervasive in today’s organizations, and HR professionals are relying on human resources information systems (HRIS) to help them support strategic HR management and deliver effective HR services. Today’s HR managers must understand not only HRIS applications such as e-recruiting and compensation, but also the strengths and limitations of the technology infrastructure as they work with technology professionals in establishing and using HRIS. (Not available to students with credit for MHR 670 in F2009 and F2010).

39 Hours  Fee: $642.57

★ Cross-Cultural Dimensions of Organizational Behaviour  CMHR 700
Prerequisite(s): CMHR 405 or HTH 601
This course addresses the opportunities and dilemmas that managers face when working in multicultural and global environments. The course is designed to increase managers’ effectiveness in identifying, understanding, and managing the cultural components of management, recognizing cultural differences in managerial style, communicating across cultures, creating cultural synergy, managing globally competent people, entry/re-entry, managing ethically across cultures, and understanding, managing, and valuing diversity. Teaching methods include lectures, experiential exercises, group discussions, and audio/video presentations and cases.

39 Hours  Fee: $574.59

★ Occupational Health and Safety  CMHR 711
Prerequisite(s): CMHR 523 or Direct Entry
This course is designed to provide students with an introduction to the growing and changing field of Occupational Health and Safety Management. The multiple dimensions of the subject - technical, legislative, political, personal, and moral - will be covered. Topics will include: legislation, accident prevention, sickness, lateness and absenteeism, establishing corporate physical and mental health policies, practices and programs, monitoring of the workplace environment, and establishing industrial hygiene standards and corporate health and safety policies.

39 Hours  Fee: $574.59
**Negotiation and Conflict Resolution**  
CMHR 721

The primary objective of this course will be to explore the major concepts and theories of the psychology of negotiation and conflict resolution. A second objective is to enable students to apply these concepts and theories, through role-plays, class discussion and self-assessment, to analyze and adjust their negotiation and conflict styles to achieve better outcomes for themselves and others.

39 Hours  Fee: $642.57

**Training and Development**  
CMHR 733

Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry

This course examines the theory and practice of the training and development function of human resources management in work organizations. Students will learn how to assess needs, set learning objectives, design learning activities, and evaluate program effectiveness through hands-on experience. Related topics include: learning theory, budgeting, alternatives to training, staffing and societal issues, and training.

39 Hours  Fee: $574.59

**Managing Interpersonal Dynamics**  
CMHR 741

Prerequisite(s): CMHR 405 or HTH 601

The development of interpersonal skills is a lifelong process which involves understanding oneself and other people. A manager’s success is highly dependent upon his or her self-awareness and ability to interact effectively with subordinates, superiors, peers. The course combines conceptual and experiential learning and strongly emphasizes skill practice and feedback. It moves from a focus on the management of self to a focus on the management of others, individually and in groups. Topics include: increasing self-awareness, supportive communication, understanding others, using power and influence successfully, dealing with conflict, and managing group dynamics. This course is intended for students who already possess a conceptual foundation in organizational behaviour, who are seeking to learn more about themselves, and who want to enhance their interpersonal skills. (formerly MGT 741)

39 Hours  Fee: $642.57

**Compensation Management**  
CMHR 749

Prerequisite(s): CMHR 523 or HTH 503 or Direct Entry

This course provides theoretical and practical understanding in the development and administration of compensation systems. It examines the concepts and processes of rewarding employees, and focuses on major items of the compensation program, such as Job Evaluation, Compensation Surveys, Benefits and Services, Work Incentives, and Performance Appraisals. The course will also discuss some of the topical issues of Compensation Management such as Compensation for Managerial, Professional, and Exempt Employees, Government Guidelines and Regulations, and Compensation Information Systems. (formerly MGT 749).

39 Hours  Fee: $574.59

**Organization Theory and Design**  
CMHR 841

Prerequisite(s): CMHR 405 or HTH 601

Organization Theory and Design (CMHR 523 or HTH 601)

At some stage along one’s career path the entrepreneur or manager will have to confront issues such as the changing global environment, mergers and acquisitions, technological advances and innovations, organizational politics, and conflict resolution. Organizations must change to accommodate these new internal and external contingencies. This course aims to provide students with an in-depth understanding of organizational structure and design in relationship to these issues. Topics include: organization environment, organic and mechanistic structures, the open system concept, impact of technology, global organization structures and contemporary approaches, management of innovation and change, organizational culture and ethical values, and organizational politics. (formerly MGT 841).

39 Hours  Fee: $642.57

**Human Resources Planning**  
CMHR 849

Prerequisite(s): (CMHR 523 or HTH 503 or Direct Entry) and three of (CMHR 405, CMHR 522, CMHR 600, CMHR 623, CMHR 711, CMHR 733, CMHR 749)

This course addresses the strategic human resource management activity of planning for future human resource requirements. The importance of aligning human resources planning with corporate and business strategies is emphasized, as well as preliminary needs for human resources information systems, job analysis, and environmental scanning. The course is centred around analysis and forecasting of the organization’s future demand for human resources, and future supply of human resources. Related topics include: succession planning, career management, outsourcing, downsizing, and mergers and acquisitions.

39 Hours  Fee: $574.59

**Organization Development**  
CMHR 850

Prerequisite(s): CMHR 650

Organization Development (OD) is the system-wide application of behavioural science knowledge to the planned change of strategies, structures and processes in ways that engage organization members and lead to improvement of the human condition and organizational effectiveness. This is an upper level course that requires students to possess strong foundations in both organizational behaviour and change management. The course is highly experiential and includes a consulting project in which students, in small teams, conduct a comprehensive organizational diagnosis and make recommendations to improve the effectiveness of a local organization. The course also develops the student’s knowledge and competencies in intervention techniques such as OD contracting, process facilitation, team building and inter-group conflict resolution.

39 Hours  Fee: $642.57
Infrastructure Asset Management

Infrastructure asset management is a field in high demand, as much of our infrastructure is in need of renewal. Good infrastructure asset managers are required to achieve sustainable outcomes by applying holistic, systematic, and risk-based analyses and processes to decisions concerning an organization’s or government’s physical assets, including fixed plant and mobile equipment along with infrastructure.

Infrastructures needing management during their repair, renewal, and maintenance cycles include roads, airports, railroads, transit systems, tunnels, water systems, levees, canals, dams, solid waste, broadband, and public spaces.

Courses:

- **Infrastructure Asset Management Fundamentals** CKAM 100
  This course presents the basic principles and procedures involved in the introduction of an infrastructure asset management system and the implementation considerations of infrastructure asset management. It will provide participants with a broad understanding of how their organizations can benefit from optimal infrastructure asset management systems. It discusses the establishment of a framework; assessment of resources required; preparation, implementation, and monitoring of plans; and links with other elements of the organization. It focuses on the basic infrastructure asset management plan template, preparation steps, continuous improvement, and implementation. It also covers issues such as levels of service, condition assessment, and risk management.
  - 39 Hours
  - Fee: $755.00

- **Infrastructure Asset Financial Management and Practices** CKAM 110
  This course examines the ideologies of financial planning and reporting, as well as the tools and techniques used in infrastructure asset management. It covers the processes for lifecycle costing, valuation, financial forecasting, and reporting. It also provides an overview of issues and methodologies associated with asset assessment and financial forecasting standards, guidelines, and legislation. Related theories are explained and useful case studies presenting the application of solution-driven decision-making to practical infrastructure asset management problems are examined.
  - 39 Hours
  - Fee: $755.00

- **Infrastructure Asset Evaluation and Rehabilitation** CKAM 140
  This course examines the rehabilitation of civil infrastructure systems, including aspects of deterioration science, non-destructive assessment, maintenance, renovation, rehabilitation and preservation; mechanisms of mechanical, chemical, and biological infrastructure degradation; corrosion of steel condition surveys, evaluation of buildings and bridges repair, and preservation materials, techniques, and strategies; renewal engineering, construction planning, management, public policy, codes, and guidelines; and case studies. Defects and problems relating to safety and damage caused by external factors are described, and evaluation techniques for structural capacity and safety are presented. The course concludes with a consideration of economic evaluation of alternative rehabilitation strategies.
  - 39 Hours
  - Fee: $755.00

- **Engineering Risk Management** CKAM 120
  This course provides an overview of engineering risk management techniques in infrastructure asset management and renewal. It develops the participants’ capability to identify, assess, improve, and limit risk in the management and practice of engineering through the application of concepts and tools of risk engineering. Several concepts will be introduced, including the semantics of risk and hazard; risk as a social construct; principles of risk management; risk engineering; integrating risk controls within the engineering process; risk perception, communication, and acceptability; legal principles relating to engineering risks; risk identification and assessment; hierarchy of risk control; risk benefit analysis; positive risk; and quantitative and qualitative risk assessment methods. Systematic and structured hazard identification techniques and examples in infrastructure renewal are introduced.
  - 39 Hours
  - Fee: $755.00

- **Infrastructure Asset Maintenance, Planning and Scheduling** CKAM 130
  This course introduces processes in infrastructure asset management that are fundamental to effective planning, scheduling, and successful deployment. Participants will learn how to apply a maintenance assessment process and proactive maintenance timeline; coordinate roles and responsibilities of maintenance supervisors and planners; differentiate between reactive, preventive, and predictive maintenance; explain work measurement to the maintenance work team; use performance metrics, PM and schedule compliance, and backlog, efficiency, and labor utilization; and define the essentials of critical path planning. The course also examines ways in which physical assets show structural and non-structural distress. Defects and problems relating to safety and damage caused by external factors are described, as well as maintenance challenges, management issues, and resolving emerged problems. Participants engage in hands-on activities that build systems-independent process knowledge and skills.
  - 39 Hours
  - Fee: $755.00

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
Infrastructure Project Evaluation  
**CKAM 150**

This capstone course provides students with fundamental knowledge about project evaluation, particularly investment decisions and financial considerations within infrastructure organizations. It provides understanding of how a cost benefit analysis of a capital project is scoped, including cases to be analyzed, relationships between those cases, and the degree of analytical effort required in a cost benefit analysis. The determining of discount rates for the purpose of project evaluation and the sensitivity of project evaluation outcome to changes in the discount rate are also covered, as well as calculation of benefits and costs. Examination of the decision-making process includes economic project selection, how cost benefit analysis can be complemented by other forms of analysis, and how regional and national impacts are considered in project evaluation. Models and processes for carrying out cost benefit analyses are analyzed, and pavement lifecycle costing and maintenance evaluation and optimization are discussed.

39 Hours  
Fee: $755.00

---

**INTERDISCIPLINARY STUDIES**

In the professional world of community services, no discipline or profession operates in isolation. The following courses, many of which are available by distance education, will develop your understanding of issues faced in the field from an interdisciplinary perspective. They will provide the knowledge and skills you need to work effectively across professional and disciplinary boundaries. For more information, visit [www.ryerson.ca/ce/interdisciplinary](http://www.ryerson.ca/ce/interdisciplinary).

**Interdisciplinary Studies**

---

Program Planning and Evaluation Strategies  
**CINT 900**

This course will examine methods of program planning and evaluation that are applicable to health promotion practice. Students will study frameworks for planning human service programs and how evaluation is used for assessment of program effectiveness, for improvement of programs and for guiding resource allocation and policy development. (Formerly IST 900.)

39 Hours  
Fee: $579.28

Gerontology: Critical Issues and Future Trends  
**CINT 901**

This course will assess the influence of Canadian and world demographic trends on the community services for the elderly; assess the influence of recent Canadian research in the field of aging on the community services of the future; examine innovative and traditional programs administered both by government and private agencies in the Western industrial countries and evaluate their relevance for Canada. (Formerly IST 901.)

39 Hours  
Fee: $579.28

Disability Issues  
**CINT 902**

This course examines disability issues within a socio-political context. Such a perspective contends that it is not the specific type of disability condition which is the major source of disadvantage to the individual but the response that this condition evokes from the larger society. This course will challenge some of the traditional (and damaging) assumptions made about the needs of people labelled as being disabled and will present a framework for policy and practice designed to promote empowerment and inclusion. (Formerly IST 902.)

39 Hours  
Fee: $575.16
*Health Promotion and Community Development  CINT 904*

Students will be introduced to the history and development of health promotion and will examine health determinants from environmental, cross-cultural, psychosocial and biological perspectives. The focus will be on the exploration of health promotion strategies which incorporate community development, popular education and social marketing models. (Formerly IST 904.)

39 Hours  Fee: $579.28

*Conflict Resolution in Community Services  CINT 905*

Antirequisite(s): CINF 914 and CSWP 924

Professionals in a wide range of disciplines are likely to encounter situations which are fraught with conflict, whether the issue is dealing with community opposition to the development of a new facility, developing environmental standards, allocating limited resources to meet emerging societal needs or dealing with the conflicting demands and expectations of different stakeholders. This course is designed to enable students to develop consensus-building strategies that produce agreements that everyone can live with. The course utilizes case materials and examples drawn from different disciplines. (Formerly IST 905.)

39 Hours  Fee: $579.28

*Sexuality: Power and Pleasure  CINT 906*

This survey course examines the societal basis of attitudes and behaviours related to human sexuality. Students will be introduced to research and theoretical concepts in the literature that contributes to our understanding of sexuality. Sexuality is recognized as a complex and multi-dimensional component of human identity and experience, mediated and influenced by social constructs of gender, race, ethnicity, disability, sexual orientation, age and socio-economic opportunities. The course promotes critical self and social consciousness through challenging sex-negative religious traditions, institutional regulation/control of sexuality, and gender socialization including patriarchal family structure. Some of the topics to be considered are sexuality across the life course; sexuality and liberation; intimacy, love and relationships; sex and gender role socialization; sex, violence and the law, sex as a commodity and AIDS and sexual behaviour. (Formerly IST 906.)

39 Hours  Fee: $575.16

*Team Work for Community Services  CINT 907*

This course explores team practice in community services professions, as they transform practice to serve the needs of all stakeholders. The creation of new approaches to work with clients will be an outcome of the course. Theories of multidisciplinary, interdisciplinary and transdisciplinary team work will be presented. Different disciplinary perspectives will be respected and applied. Course methodology will allow the participants to model the theories and applications that form the core of the course. (Formerly IST 907.)

39 Hours  Fee: $575.16

*Homelessness in Canadian Society  CINT 908*

This course offers an interdisciplinary approach to understanding the complex problem of homelessness. Drawing on literature from Canada and the U.S., issues which underlie homelessness, the various ways in which these may be manifested, the ever changing characteristics of these populations, and the policy responses aimed at resolving issues are explored. The current state of statistical information, the views of frontline service providers and advocates, and the differing paradigms embedded in the various disciplines represented will form the basis for debate and shared learning. (Formerly IST 908.)

39 Hours  Fee: $579.28

*First Nations Issues  CINT 910*

Ogitchita Luwatilihunyuni (First Nations translation: strong helper’s hands). This course offers students an interdisciplinary approach to address how to become an ally to Aboriginal peoples. Designed for community service students both from mainstream and Aboriginal backgrounds, this course applies an anti-oppression perspective to understand the origins of issues confronting contemporary Aboriginal peoples. To appreciate the process of Aboriginal self-determination, a holistic approach guides the examination of community services and infrastructure responsive to the needs of First Nations’ communities. (Formerly IST 910.)

39 Hours  Fee: $579.28

*International Community Development  CINT 911*

This course will introduce the student to the challenges of sustainable community development in the developing world. The course begins with a broad exploration of the meaning of development and under-development and its relevance to Asia, Latin America, Africa and the Middle East today. This course will also explore various approaches which have been used in local, bottom-up developments as well as some tools which are now available to assist the community development facilitator. (Formerly IST 911.)

39 Hours  Fee: $579.28

*Community Development: International Field Experience  CINT 912*

This course provides an opportunity for students to deepen their understanding of development issues, and to experience part of their learning in an interdisciplinary, international, and intercultural setting. Following a brief in-class orientation at Ryerson, the field experience part of the course is held overseas. Canadian students will work with students from the host country on specific projects relevant to community development in that country. The country and projects selected may vary from year to year.

*Note: Students seeking admission to this course are required to submit an application form. For more information, see the Chang School website at www.ryerson.ca/ce.*

39 Hours  Fee: $591.64

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
NEW

**Issues of Migration**

This course examines the main concepts and issues in contemporary migration studies by employing historical and international perspectives. The course will examine the Canadian response and the evolution of a post-war system implemented to deal with refugees and immigrants. Case studies of immigrants to Canada and to other parts of the world are used to illustrate theoretical concepts and to promote an understanding of the contextual nature of contemporary migration processes. Comparisons with other societies such as Australia, the United States and to the European Union will be discussed. The course will use a critical social sciences approach to address the implications of the North-South, and South-South relationship in the creation of refugees and immigrant populations.

39 Hours  Fee: $579.28

**Settlement Experiences**

This course examines the settlement processes experienced by new immigrants and refugees. The course discusses the different forms of resettlement, receptions, repatriation, social capital and human capital. It will also discuss the theoretical approaches to citizenship, nationalism and multiculturalism. The course introduces the intersection of race, gender, class and citizenship. It reviews current debates regarding settlement policies and services provided to different classes of immigrants.

39 Hours  Fee: $579.28

**Responses to Migration**

The focus of the course will be on the determinants of responses to migrants and migration through an examination of topics including racism, the media, legal status, services available to newcomers, education and credential recognition, and issues of housing discrimination. The goals of this course are to familiarize students with factors known to contribute to negative or positive responses to migrants and migration. In addition students will learn to apply these factors to important practical issues in a critical and reflective manner such as understanding trends over time in migration attitudes and looking at present strategies that may be utilized to improve responses to migrants and migration.

39 Hours  Fee: $579.28

**Introduction to Fundraising**

This course provides a view of the Canadian voluntary sector and its organizations, as well as an introduction to concepts and issues related to the practice of fund development. This comprehensive overview also acts as a knowledge base for subsequent, in-depth study of the various aspects of fund development. The concept of philanthropy and various fund development approaches will be explored.

39 Hours  Fee: $579.28

**Community Development**

When citizens become involved in the development of their communities, the results are distinct from state or private led development. Participatory development requires planning and organizing as well as skills such as facilitation and mediation. This course uses case studies to blend considerations of different disciplinary approaches to Community Development with reflections on practice. Students will have an opportunity to learn skills and techniques for facilitating the process of participatory community development.

39 Hours  Fee: $579.28

**Community Collaborations**

This interdisciplinary course will assist students and practitioners to develop the knowledge and skills required to participate effectively in multi-sectoral community collaborations. The course will provide an overview of collaboration and will review common challenges and factors influencing success. Collaborative processes will be examined including community engagement and mobilization, outcomes-based strategic planning, implementation of strategies and sustaining momentum, governance, leadership, communications, and evaluation. Examples will be provided of community collaborations focused on improving outcomes for children, youth and families.

39 Hours  Fee: $579.28

**Writing for Disability Activism**

This is an applied writing course: you will write and think critically about writing. This is also an interdisciplinary course which means you will work with other learners across a range of disciplines and learn from and about a range of disciplines. Starting with writing from within the disability movement, we will introduce you to writing as a form of expression, inquiry, resistance, solidarity, and survival. We will draw on readings and examples from different disciplines and explore how writing changes depending on the disciplinary context. We welcome experienced and novice writers. Students should be interested in writing and social change.

39 Hours  Fee: $651.38

**Intro to Aboriginal Worldviews**

An introduction to Aboriginal worldviews in Canada with reference to Aboriginal worldviews globally. Students will be introduced to Aboriginal perspectives, values and spirituality. It includes an exploration of what constitutes “valid” knowledge, how knowledge shapes identity and how it influences the lives of Aboriginal peoples today. The role of worldviews as the basis of social justice and transformative change with the message that Aboriginal/Indigenous knowledges can be of value to all people of the world.

39 Hours  Fee: $579.00
NEW

Canada’s Story: An Aboriginal Perspective  CINT 923

This course will explore the background of Aboriginal peoples from the time of creation, through the processes of colonization, its present impacts and resistance to such impacts. It will address the arms of colonization such as the Indian Act, residential school system, child welfare and education. Aboriginal peoples’ survival, resistance and healing will also be a major component to this course.

39 Hours  Fee: $579.00

Primer in Civil Mental Health Law  CVIN 100

This workshop is designed to assist allied health and community care providers in understanding how civil mental health law interacts with mental health treatment. Learners will gain a better understanding of civil mental health law concepts and engage in a variety of case studies that will strengthen their practical knowledge of the subject.

3 Hours  HST included  Fee: $TBA

INTERIOR DESIGN

Professional interior designers make the most of the places where we live, work, and play. Using colour, space allocation, acoustics, illumination, patterns, and textures, they create beauty and functionality. Their services are needed in every imaginable interior setting – from corporate offices and shopping centres to restaurants, hotels, hospitals, and residences. If you would like to learn more about this fascinating field, then these courses may be for you.

Interior Design

Related certificate(s): Design for Arts and Entertainment (pg. 35), Design Management (pg. 36), Interior Design, Fundamentals of (pg. 70)

Design Theory  CDID 150

This is an introductory course that focuses on the multiple disciplines and concepts that impact the foundation of design at both a micro and macro level. Students will be introduced to the basic elements and principles that demonstrate visual organization and provide the tools for analyzing and synthesizing the application of design. This course will provide the theoretical underpinnings that allow students to creatively apply knowledge to both two- and three-dimensional design assignments and projects. In addition, the course may include field trips, collaborative and individual assignments, and in-class studio/lab work.

Note: Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students after the first class. Cost approximately $120. Required text: Art Fundamentals Theory and Practice, cost approximately $95.

39 Hours  Fee: $686.40

Interior Design I: Drafting  CDID 151

Prerequisite(s): CDID 150

The first of a series of courses providing an introduction to four primary performance objectives which relate to drafting, planning and research, professional ethics, and the sensory environment. The focus of this course is visual communication to provide the student with a foundation in manual drafting practices through a series of drawing exercises relating to small scale residential interior spaces. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRN 100 and IRN 200.

Note: Students with a suitable portfolio may be admitted to this course upon approval of the program department; see Open House on the Chang School website at www.ryerson.ca/ce/openhouse. Supplies and materials to be purchased by the student: A list of materials and equipment required will be given to students after the first class. Cost approximately $200-$225.

39 Hours  Fee: $591.64

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
**Interior Design I: Space Planning**

Prerequisite(s): CDID 151

This course introduces the analytic and problem-solving skills relating to space planning of small-scale residential interior spaces and sequences that function effectively for people using them. Visual communication using manual drafting practices learned in CDID 151 is applied to interior design studio exercises. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRD 100 and IRD 200.

Note: Students with a suitable portfolio may be admitted to this course upon approval of the program department; see Open House on the Chang School website at [www.ryerson.ca/ce/openhouse](http://www.ryerson.ca/ce/openhouse). Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $200.

39 Hours  Fee: $591.64

**Interior Materials and Finishes**

Prerequisite(s): CDID 150

“Interior Finishing” introduces the principles, regulations, standards, systems, materials, and details of standard residential and commercial floor, wall and ceiling surface treatments, millwork and textiles, and the finishes applied to them. Fire rating, VOC (volatile organic compound) emissions and sustainable design are introduced.

39 Hours  Fee: $610.18

**Design Dynamics I: Portfolio 1**

Prerequisite(s): CDID 150

Two-dimensional design problems introduce the student to the concept of spatial illusion; how line shape, texture value, and colour can be manipulated to create the illusion of space. Building on skills developed in the first project, students will explore colour and typography as a source of visual inspiration, and through a series of transformations will explore the projection of 2-D images into 3-D reality. CDID 155, combined with CDID 156, CDID 255, and CDID 256, is equivalent to IRD 100 and IRD 200.

Note: Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students after the first class. Cost approximately $180.

39 Hours  Fee: $591.64

**Kitchen and Bathroom Design**

Prerequisite(s): CDID 151

Kitchens and baths are essential to everyday living; they need to be designed so that they function as well as they look. Students will explore the specific requirements associated with kitchen and bath design. With an emphasis on the design process, this course covers the design of efficient and aesthetic kitchens and baths, including space considerations, equipment, current trends in materials, as well as human factors.

39 Hours  Fee: $600.91

**Interior Design I: Orientation (Sensory)**

Prerequisite(s): CDID 151 and CDID 152

Part 1 – This course segment, through a series of lectures and site visits, introduces the student to the interior design practitioner’s workplace and the ethics and standards of behaviour which prevail in the Association of Registered Interior Designers of Ontario (ARIDO).

Part 2 – The foundation in architectural drawing conventions and standards, and space planning introduced in CDID 151 and CDID 152 is applied to studio exercises which explore the interior sensory environment in terms of lighting and acoustics. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRN 100 and IRN 200.

Note: Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $150.

39 Hours  Fee: $591.64

**Interior Design I: Research Methods**

Prerequisite(s): CDID 151, CDID 152, and CDID 251

This course teaches the student to use systematic research methods to identify critical issues, gather information and data, analyze, synthesize, and draw reasoned defensible conclusions as a basis for design decisions. The course brings together the knowledge gained in the series of previous courses and requires the student to creatively design a residential environment for a specific client in plan and presentation forms. CDID 151, combined with CDID 152, CDID 251, and CDID 252, is equivalent to IRN 100 and IRN 200.

Note: Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $150.

39 Hours  Fee: $591.64

**Design Dynamics I: Portfolio 3**

Prerequisite(s): CDID 155 and CDID 156

Three-dimensional projects introduce students to the interior design workshop, and to problem-solving in the third dimension. Projects will include the construction of jigs, woodbending and joining to create linear planar structures, as well as additive and subtractive sculptural techniques in the development of low relief sculptural forms. CDID 155, combined with CDID 156, CDID 255, and CDID 256, is equivalent to IRD 100 and IRD 200.

Note: Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $120.

39 Hours  Fee: $591.64
Students undertake a major design project that will be a synthesis of all the skills and knowledge acquired in all the courses. The project work will require students to ideate, conceptualize, and construct a space that involves human scale and interaction. The major project will culminate in an oral presentation of the student’s solution from initial concept, development, three-dimensional projection, applied two-dimensional design, thematic colour development, and the practical utilization of space. CDID 155, combined with CDID 156, CDID 255, and CDID 256 is equivalent to IRD 100 and IRD 200.

Note: Supplies and materials to be purchased by the student: Students are expected to have all the required equipment from previous prerequisite courses. Additional supplies and materials are required. Cost approximately $150.

39 Hours  Fee: $591.64

This course develops skills in design communication and knowledge of basic computer applications used in the Interior Design program and profession. (Formerly IRC 102).

52 Hours  Fee: $597.82

This course is a first in a series in design communication for interior designers that develops freehand drawing skills, including perspectives and rendering methods using various media. (Formerly IRC 103).

52 Hours  Fee: $597.82

Antiquity to the Eighteenth Century: This course examines the history of design in pre-Modern culture. It investigates the relationship between the fine and applied arts in aesthetic, practical, theoretical, social and global contexts.

Note: A prerequisite may be waived if the student has specific academic/professional experience. Individuals without the prerequisites wishing to take this course must contact Winnie Leung, Acting Academic Coordinator, at wyleung@ryerson.ca for more information.

39 Hours  Fee: $591.64

Tracing the broad development in art, design and architecture from the classical period through to the Renaissance, this course will offer an analytical survey of images, objects and buildings that seeks to explain the historical, cultural and social contexts of the production of art broadly defined and to offer a means of understanding stylistic change and its meanings.

39 Hours  Fee: $597.82

This course explores the meanings of Modernism. Emphasis is placed on the influence of industrialization and consequent changes in materials and technique, in the search for design paradigms appropriate to the social structure and ideals of the modern world.

39 Hours  Fee: $591.64

This is an introduction to the study of art history from a cross-cultural perspective. The function of the pictorial arts (principally painting and sculpture) within religious, social and economic systems will be the primary focus of study. Students will be introduced to the diversity of artistic expression from across the globe and throughout history while they learn the fundamental principles and aims of pictorial expression and formal analysis. (LL)

39 Hours  Fee: $597.82

Students learn about the art of the past one hundred years, and the ways in which academic institutions, museums, public and private galleries define artistic practice. Contemporary art will be examined within the context of constructions of identity and place. Photography, video and artists’ use of the Internet will be studied, as well as works in traditional media. (UL)

39 Hours  Fee: $581.34

Primarily intended for students enrolling in the Interior Design program in September, this intensive one-week foundation course is designed to enhance drawing and communication skills. Students in their final year of high school who want to strengthen their portfolio may also attend with the written approval of their high school guidance counsellor or principal.

35 Hours  HST included  Fee: $739.96
- **Techniques in Watercolour**  
  CDID 801
  
  A universal interest course. This course is designed to expose participants to the diversity of visual effects in watercolour and to begin building mastery over those effects. Learn watercolour’s fluid and transparent properties. Use watercolour as a wash, a tint, and in full saturation. Experiment with watercolour in combination with pencil, ink, and a variety of drawing media. Exercises will offer direction for studying texture, surface and illusion. Course content is applicable to both fine art and commercial art purposes.

  **Note:** Supplies needed: Participants are responsible for purchase of materials (cost approximately $70). Do not buy any new materials before the opening class; however, do bring any watercolour supplies already owned. A list will be provided at the first class.

  19.5 Hours      HST included      Fee: $395.51

- **Drawing Fundamentals**  
  CDID 803
  
  Come test the theory: Everyone can draw! Everyone has the instinct toward language - verbal and visual. This course teaches the visual “language” that is natural to us all. It begins at the most rudimentary level and progresses through each of the developmental stages that lead to image-making skill. A series of exercises taken in sequence will build the powers of observation needed to transform a three-dimensional subject into a two-dimensional symbol. Learn the fundamentals of gesture, line, light and shade, and space. Commitment to weekly practice will determine the level of progress. The course objective is to make drawing a part of everyday life.

  **Note:** Course content is applicable to both fine art and commercial art fields.

  Participants are responsible for purchase of materials (cost approximately $70). No supplies are necessary at the first class.

  36 Hours      HST included      Fee: $546.33

- **Drawing With Mixed Media**  
  CDID 802
  
  A universal interest course. This course deals with a variety of media in the rendering of a broad range of three-dimensional subjects. In particular, the course covers ways of applying effects to the rendering of interiors, objects, and material surfaces. Among the surfaces to be covered are stone, wood, fabrics, metal, and glass. Exercises will offer direction for the specific study of texture, pattern, contrast, and the play of light. As well as lending drama and excitement to illustrations, emphasis is placed upon developing a personal style.

  **Note:** Supplies needed: Participants are responsible for purchase of materials (cost approximately $70). Do not buy any new materials before the opening class; however, do bring any pertinent supplies already owned. A list will be provided at the first class.

  19.5 Hours      HST included      Fee: $395.51

- **Colour Studio Workshop**  
  CDID 805
  
  The Colour Studio Workshop is an intensive studio-based, experiential course exploring colour theory and colour harmonies essential for fine artists, graphic artists, portfolio building, interior decorators and designers, architecture, fashion, and general interest.

  19.5 Hours      HST included      Fee: $462.46

- **Workshop in Computer-Aided Design**  
  CDID 831
  
  This introductory-level workshop is designed for the student or professional who is interested in computer-aided drafting using AutoCAD. Participants will learn to input their two-dimensional ideas into the computer using AutoCAD’s drawing and editing features. This hands-on course is designed to give students knowledge to start and finish a drawing on the computer and then plot it out.

  19.5 Hours      HST included      Fee: $462.46
JOURNALISM

We offer courses in Journalism, Magazine and Web Publishing, and Publishing to meet the needs of today's students and professionals. Whether you are taking courses for personal interest or professional development, we are sure to have something for you.

For course offerings in Magazine and Web Publishing, see page 272.
For course offerings in Publishing, see page 338. For more information, visit www.ryerson.ca/ce/journalism.
For information about the Certificate in News Studies, visit www.ryerson.ca/ce/newsstudies.

Journalism

Related certificate(s): News Studies (pg. 81)

- Interviewing: The Art and Craft of Asking Questions CDJN 448
  The French philosopher Voltaire once said, “Judge a man not by his answers, but by his questions.” The art of asking questions is one of the most important communication skills. This course provides journalists, writers, and anyone who wants to improve his or her interviewing techniques with relevant information and hands-on experience. In addition to practical assignments, guest speakers, and field trips, topics include research and focus, how to find and contact interviewees, preparing and asking questions, listening skills, specific tips for telephone, print, and broadcast interviews, and more.

  39 Hours  HST included  Fee: $728.64

- Freelancing the Future CDJN 449
  All social and economic indicators point to freelancing as the way of the future in journalism and communications. This seven-week workshop provides participants with the knowledge and skill to become self-employed professionals. Topics include finding and proposing ideas, marketing yourself, establishing and negotiating fees, preparing a business plan, market opportunities, tax advantages, what you need to get started, and much more.

  Note: Instructor: Paul McLaughlin is an award-winning magazine writer, broadcaster, and playwright. A journalist since 1973, he has been published extensively in most major Canadian magazines, and has worked as a producer and freelance interviewer for CBC Radio. He has written four books, including How to Interview (originally titled Asking Questions: The Art of the Media Interview). Paul has also produced videos, including Hockey Night in Hollywood, a CTV special starring Wayne Gretzky. A journalism instructor at Ryerson University, Paul has also taught journalism at Carleton University and Algonquin College.

  19.5 Hours  HST included  Fee: $395.51

- Copy Editing CDJN 450
  The skilled copy editor is a writer's best friend - even when he or she is the writer - and the reader’s champion. This course provides editors and writers with the tools to improve copy while preserving the text's good features and the writer's style. Topics include analyzing and editing copy for clarity and consistency, understanding style and conforming to it, editing copy to fit an allotted space, and writing headlines and cutlines.

  Note: Texts Required: CP Style Book, CP Caps and Spelling, available at the Ryerson University Campus Store.

  39 Hours  HST included  Fee: $722.46

- Writing for the Print Media CDJN 458
  This course is designed to improve your writing skills. Work with a reporter, an editor, a feature writer, a columnist, and a public relations specialist. You will write news stories, press releases, a feature story, and a column. Through discussions, assignments, and workshops, students will also learn interviewing techniques and media relations strategies that work. This is a practical course focused on making your writing more effective.

  39 Hours  HST included  Fee: $728.64

- Inside Journalism CDJN 466
  What draws people to journalism as a profession? And what keeps them there? What do journalists really do? How do they think? What happens behind the scenes? This course is an excellent primer for people considering the field of journalism as a first career choice or career switch. Students will explore the areas of print reporting, magazine writing, television news and current affairs, web reporting, column writing, and more; they will try their hand at some basic journalistic skills, and consider the profession from the viewpoint of popular culture, real-life stories from guest experts, and an evening in a working newsroom.

  39 Hours  HST included  Fee: $662.72

- How To Sell A Documentary CDJN 467
  This course guides students through the development stage of documentary filmmaking, teaching you how to refine your ideas, how to use research and interview techniques, and how to write a proposal or treatment. In this context, students will view different styles of documentary films and discuss their treatment of different issues raised. The course will culminate in a mock “pitch session” with a complement of commissioning editors from the broadcasting industry.

  Note: Instructor: Elizabeth Klinck has 25 years’ experience of documentary research and production for producers and broadcasters including the National Film Board of Canada, Witness (CBC), BRAVO!, Discovery Canada, HBO, and PBS. She has worked with such directors and broadcasters as Adrienne Clarkson, Donald Brittain, Alan King, John Kastner, and Guyanne Dyer.

  24 Hours  HST included  Fee: $716.88

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Finding Your Voice: The Art of Column Writing  
CDJN 477
Have you always yearned to be a columnist? Good news. There’s never been a better time to do so. With the Internet now augmenting the traditional guest-column market, every writer who builds the right kind of media platform stands on a soap box looking out on the world. This writing workshop will help you assemble the professional tools to craft columns that will be noticed. By drafting and polishing, you will find your unique voice.

Note: Instructor: Sarah Jane Grove is an award-winning columnist, best-selling author, and lecturer.

36 Hours  HST included  Fee: $640.05

Ethics and Law in the Practice of Journalism  
CJRN 123
Prerequisite(s): JRN 120 or CNNS 101
Antirequisite(s): BDC 915 and BDC 918 and PHL 800
This course prepares students for many of the ethical problems they will encounter as professionals and introduces them to the legal framework in which journalism is practised. Legal themes include defamation, contempt of court, search and seizure, and the Youth Criminal Justice Act. Ethical themes include fairness, conflict of interest, plagiarism and fabrication, protection of sources. Other considerations will include respect for privacy and freedom of expression. Best practices and guidelines for conduct are introduced, but students are also introduced to philosophical concepts and tools that can aid everyday decision-making. Practising journalists and media lawyers will help students gain command of these various and intersecting issues.

39 Hours  Fee: $635.93

Grammar  
CJRN 199
This mandatory course for journalism students is graded on a pass/fail basis. Students write a grammar placement test, and those who do not attain 75 per cent attend a mandatory tutorial and have two additional opportunities to attain the required mark. This course must be successfully completed before continuing to second-year journalism courses.

14 Hours  Fee: $212.18

History of Journalism  
CJRN 401
Prerequisite(s): JRN 120 or CNNS 101; JLS 600
This course studies the evolution of journalism from 1600 to the present. It examines the various forms that news took at different periods and in different places; how news influenced culture and was influenced by it, as well as by changing technology, business organization, and markets; how different audiences used and responded to news; and how the producers of news understood their work in relation to their society, their audiences, their employers and their peers.

39 Hours  Fee: $635.93

Journalism’s Best  
CJRN 404
Prerequisite(s): JRN 120 or CNNS 101
Antirequisite(s): ENG 700
Students examine the work of outstanding journalists in broadcast, newspapers, magazines and online through readings, lectures, videos, tapes and discussions. Students examine why certain pieces stand out in the context of their time and place.

39 Hours  Fee: $635.93

Documentary Survey  
CJRN 412
Prerequisite(s): JRN 120 or CNNS 101
Students screen long-form documentaries ranging from classics from the last 50 years to contemporary productions. Students come to understand how the conventions of documentary storytelling have changed over the decades. They explore issues of voice, stylistic and narrative conventions, shooting and editing styles, and other aspects of documentary.

39 Hours  Fee: $635.93

Journalism Workshops

Copy Editing: In Search of the Perfect Word  
CDJN 462
Copy editors edit above all to communicate to readers. But editors who love their readers also cherish their writers - and can become their best friends. Theirs is a creative job that improves the quality of copy. This workshop is for people who care about language and want to help writers, including themselves, tell readers what they mean in a clear, concise, correct, and interesting way. It deals with the basics - spelling, punctuation, and grammar - as well as knowing what to look for, conforming to style, editing for space, and making quick, logical, and defensible decisions.

12 Hours  HST included  Fee: $512.94

Writing for the Internet: The Word Online  
CDJN 464
The Internet is a communications medium filled with possibilities and limitations. Its hyperlinked, two-way, multimedia and interactive nature means that new skills and techniques - and some traditional ones - need to be carefully applied in order for content to communicate, compel, and build community. This two-day workshop will provide an introduction to skills necessary for effective online writing. That means new ways of conveying information in short, concise and innovative formats that will attract the eyes of internet users.

12 Hours  HST included  Fee: $553.11
Spin: Journalism PR and the Search for Truth  CDJN 469

We live in an age of “spin.” We are bombarded by prepackaged messages from politicians, lobbyists, business leaders and official “spokespeople” of all kinds. We are getting a lot of strategic communication but not much real communication. Sometimes it’s hard to know where to turn to find the “truth.” Historically, we’ve looked to the media for that, but all too often these days, the press seems to be seduced by spin as well, just another branch of the “spindustry.” This course examines the complex relationship between the PR industry and the mass media, the pervasiveness of spin in contemporary society, and the impact it has on us.

Note: Instructor: Ira Basen is a veteran CBC producer and former executive producer of CBC Radio’s Sunday Morning. He is completing a book on spin.

12 Hours  HST included  Fee: $512.94

News Studies

Introduction to News Studies  CNNS 101

Students are introduced to core values of journalism, the community of practice in which journalists operate, the essence of a basic news story, and the fundamental tools that reporters, editors and producers use. The course also examines the context of journalism practice: the role of journalism in society, changing technologies that affect journalism and changing public perceptions of the news media. In addition to learning about these things in theory, students will complete a small number of basic news writing assignments.

39 Hours  Fee: $635.93

Understanding Multimedia Journalism  CNNS 102

Prerequisite(s): JRN 120 or CNNS 101
Antirequisite(s): JRN 112, JRN 125

Students receive grounding in basic disciplines involved in using sound and pictures to tell nonfiction stories. Trends in modern multimedia journalism will be described, including the use of various digital platforms and social media. Students will emerge with a theoretical understanding of the interplay of various media in the news business today, and each student will also complete at least one basic reporting assignment using audio, video, and/or still photography, as well as text.

39 Hours  Fee: $635.93

Health and Science Journalism  CNNS 505

Prerequisite(s): Department consent

Using current debates in the health and science fields, students learn how to bridge the gap between scientific jargon and readers or audiences. They address the importance of evaluating claims and explore techniques for communicating complex ideas. Students will be enrolled in sections with a view to the amount of journalism experience they bring to the course, and assignments will be tailored to these differing levels of experience.

39 Hours  Fee: $635.93

Reporting Sports  CNNS 512

Prerequisite(s): CNNS 101

An introduction to working the beat in sports journalism, including developing sources and story ideas and maintaining a reporter’s independence from the pressures of commercial sport and home-team cheerleading. The impact of deadlines on sports journalism and sports writing, and an examination of what constitutes excellence in sports reporting will be discussed. Students will be enrolled in sections with a view to the amount of journalism experience they bring to the course, and assignments will be tailored to these differing levels of experience.

39 Hours  Fee: $635.93

Journalism and the Arts  CNNS 500

Prerequisite(s): CNNS 101

Journalism and the World of Business  CNNS 502

Prerequisite(s): JRN 120 or CNNS 101
Antirequisite(s): CJRN 502

An opportunity for students to explore reporting on culture of all kinds, including policies, personalities and performances, and to gain insight into the relationship between journalism and cultural production. The course introduces students to reviewing different works of art. Students will be enrolled in sections with a view to the amount of journalism experience they bring to the course, and assignments will be tailored to these differing levels of experience.

39 Hours  Fee: $635.93

Students learn how businesses behave and how journalists assess their performance, through investigative reporting, interpreting key financial documents, probing a business’s performance, practices and challenges, and narrating a company’s fundamental drama. The role of the business reporter and his or her relationship with sources will be analyzed.

39 Hours  Fee: $635.93

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
LABORATORY PRACTICE

These courses have been designed to equip graduates with managerial skills combined with practical knowledge (ranging from safety, environmental awareness, standards and regulations, specialized information technology systems, effective communications, recordkeeping, and technical writing) that laboratory work requires. For more information, visit www.ryerson.ca/ce/labpractices.

Procedural Laboratory Practice CKLP 100
This course will examine standards for professional communication and strategies for conducting literature searches. Students will discuss and use communication tools for communication of research findings, test results, and ideas. Standards of laboratory record keeping, especially notebooks will be discussed.
19.5 Hours Fee: $387.28

Standards and Good Practices CKLP 110
This course will introduce the general principles Good Research Practice (GxPs) and other quality standards as applied to quality management of the testing and manufacturing process (across a range of industries/sectors). It will also provide an overview of agencies and guidelines relevant to monitoring and compliance.
19.5 Hours Fee: $387.28

Intro to Lab Project Management CKLP 120
Organizations are using project management as the means to achieve results and their strategic plan. This course covers how organizations use project management and focus on the key aspects of project management such as scope, cost, time, risk, communications, and quality. Included in the course will be an overview of the project lifecycle and the key documents for each phase.
19.5 Hours Fee: $392.43

Intro to Laboratory Regulations CKLP 130
This course covers the scope of due diligence and regulatory frameworks for laboratory risk management focusing on environmental health and safety (EHS) management systems to address the broad spectrum of hazards inherent in routine and experimental practices. Included in the course will be an outline of what organizations, the employer, and you need to know and do to meet the intent of the vast number of environmental health and safety related regulations impacting laboratory operations.
19.5 Hours Fee: $392.43

Laboratory and Research Ethics CKLP 140
This course will identify and analyze key issues related to the ethics of conducting research in the laboratory sciences. With a Canadian focus, ethical issues will be explored using relevant and highly current case studies that will best illustrate ethical dilemmas, concerns, and issues. Students will be exposed both broad, foundational concepts and principles in research ethics as well as more specific content related to the particular issues that arise in laboratory-based research.
19.5 Hours Fee: $387.44

Sample Management CKLP 150
This course aims to inform learners about the various aspects of sample management such as sample collection, handling, tracking, shipping, and their storage according to special applications of Workplace Hazardous Materials Information System (WHMIS). Techniques involved in preparing various biological materials will be introduced. Personnel safety and risk assessment to meet the requirements of the Occupational Health and Safety Act of Ontario for the purposes of the operation of the laboratory will also be discussed.
19.5 Hours Fee: $362.56

Laboratory Info Management CKLP 160
This course will introduce the learner to Laboratory information management systems (LIMS) and its application in scientific and commercial laboratories. Students will be exposed to important features of LIMS that allow laboratories to record, manage, organize, and share large amounts of data for rapid search, retrieval, and reporting at various steps of the analytical and quality assurance process.
19.5 Hours Fee: $392.43

Data Handling CKLP 170
This course will introduce the learner how to use and effectively manage data. This course will also cover the topics of data handling, processes, and workflows in all types of laboratories from the smallest contract lab to the largest manufacturing plant.
19.5 Hours Fee: $362.56

Applied Technical Writing CKLP 180
This course will expose learners to the fundamentals of generating clear and effective scientific and technical documents. Students will pay particular attention to the generation of a wide range of scientific and technical documents generated for the purpose of information dissemination, proposal writing, scientific communication, documentation, and reporting. Emphasis will be on logical organization of information, elements of format and style, and basics of document structure.
19.5 Hours Fee: $362.56

LANDSCAPE DESIGN

Landscape Design combines the fields of art, science, and humanities. The certificate program offers an excellent education in the fundamental components that comprise the field of landscape design. Through course offerings, you will learn how to analyze, plan, design, manage, and sustain the built and natural environment. For more information, visit www.ryerson.ca/ce/landscape.

Landscape Design

Related certificate(s): Architectural Preservation and Conservation (pg. 19), Architecture (pg. 21), Architecture, Advanced (pg. 22), Computer Programming Applications (pg. 30), Landscape Design (pg. 72), Sustainability Management and Enterprise Process Excellence (pg. 104)

🔗 Landscape Design Communications and Theory  CKLA 300
The course begins by exploring the use of the line drawing including the landscape plan, sections, and elevations. It moves into the introduction of basic methods of designing landscape spaces and composing site content. Organizing systems include the grid and form composition.

Note: This course is delivered in a lecture/studio format.

39 Hours  Fee: $755.00

🔗 Landscape Construction, Materials and Methods  CKLA 310
The purpose of this course is to understand and investigate the origins, characteristics, and design applications and methodologies used in landscape construction. The process of designing, selecting, pricing, sourcing, constructing, and maintaining hard and soft landscape materials are discussed. Life cycle and sustainability of material selection is woven into the course content.

Note: Includes two Saturday or Sunday field sessions of three hours to visit landscape sites. Dates and times to be announced by the instructors.

39 Hours  Fee: $755.00

🔗 Plant Materials  CKLA 320
This course presents and evaluates deciduous and evergreen woody plant materials as basic structural design elements of the landscape. It covers introduced species as well as those native to Canada. Students will become familiar with the range of landscape applications for the species covered, as well as the relationship between their autecology and site selection.

Note: Includes two Saturday or Sunday field sessions of three hours to visit landscape sites. Dates and times to be announced by the instructors.

39 Hours  Fee: $755.00

🔗 Landscape Design Studio  CKLA 330
Prerequisite(s): (CKLA 300 or CKLA 707) and (CKLA 320 or CKLA 710)
This course deals with the application of landscape design theory in the development of landscapes based on site analysis and program criteria. This studio course will focus on the student’s individual exploration of the process of design development and problem solving as a means of preparing creative landscape solutions for a medium scale urban site.

39 Hours  Fee: $755.00

🔗 Ecology and Sustainable Landscapes  CKLA 400
This course examines the fundamental concepts and principles of ecology as a basis for sustainable landscapes. Ecosystem structure, processes, dynamics, and resilience are considered as a basis for facilitating the design and management of landscapes in a variety of land-use scenarios, particularly in urban regional environments. Sustainable land-use practices based upon ecological resilience are investigated. Several ecological frameworks for sustainable landscape design and management including Adaptive Management and Collective Action are presented and analyzed.

Note: Includes two Saturday or Sunday field sessions of three hours to visit landscape sites. Dates and times to be announced by the instructors.

39 Hours  Fee: $755.00

🔗 Horticultural Science  CKLA 410
This course introduces the fundamentals, principles, and practices of horticulture. Topics include flowering bulbs, annuals, perennials, lawns, ground covers, woody plants, and cultural requirements. Plant propagation and greenhouse structure, plating techniques and grafting, and pest and disease identification and control are discussed and demonstrated in the greenhouse and testing lab.

39 Hours  Fee: $755.00

🔗 Art and Management of Planting Design  CKLA 420
Perennial, grasses, and wildflower plant materials continue to be recognized as significant components of a successful landscape planting design. This course focuses on plant identification, planting combinations, and design compositions using native and exotic materials available in Southern Ontario.

39 Hours  Fee: $755.00
Making and Meaning of Landscapes  CKLA 430
This landscape design seminar/studio investigates grounding for sustainable design. We look at expressions of people’s relationship with the natural environment through principles and theories of landscape design and the historical experience of landscape space.
39 Hours  Fee: $755.00

Digital Landscape Design  CKLA 440
Prerequisite(s): CKLA 300 or CKLA 707
This digital tools course explores ways of conceiving and communicating landscape design ideas. Lectures and interactive lab activities focus on developing graphic plans, sections, elevations, axonometrics, and perspective drawings within the context of the built and natural environment. Colour rendering techniques, cost estimating applications, and business management are explored. Most projects are submitted electronically through Blackboard academic suite.
Note: Supplies to be purchased by the student: Students are required to purchase a student edition of software. Information will be announced in class.
39 Hours  Fee: $755.00

Landscape Restoration  CKLA 450
The purpose of this course is to develop an understanding of the basic principles involved in designing and implementing a restoration plan for a disturbed site with an emphasis on naturalization. Participants will receive basic instruction in site assessment, developing restoration objectives, implementation, and monitoring.
39 Hours  Fee: $755.00

International Business Law
The following courses span a range of legal issues. Some investigate general legal principles, theories, and procedures; others, the laws that govern various industries and activities within those industries; and some, the law as it concerns consumer rights and protection, management and labour, or safety in the workplace. These courses are of value to professionals in any field who wish to understand the legal environment in which Canadian business is conducted.

LAW

International Business Law
All CIBS course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Global Management Studies (pg. 59)

Legal Aspects of International Business  CLAW 724
Prerequisite(s): CLAW 122
This course will acquaint the businessperson with the legal aspects of doing business in a global environment. It will include legal considerations relevant to entrepreneurs engaged in import or export and to companies seeking greater presence in foreign countries as well as legal principles applicable to multinational corporations. Topics covered will include: bilateral and multilateral trade agreements including the GATT, the EC and the Canada-U.S. Free Trade Agreement; legal aspects of the international sale of goods; legal aspects of financing international sales of goods; forms of business organization abroad; licensing and franchising; international protection of intellectual property; comparative anti-trust legislation; conflict of laws and international settlement of disputes. Students choosing LAW 724 should be in their graduating year. (Formerly IBS 800)
39 Hours  Fee: $574.59

Business Law  CLAW 122
This is an introductory course, prerequisite to further studies in law. The course begins with a discussion of the nature and sources of law and an examination of the court system in Canada, the Charter of Rights and Freedoms, and a survey of the more important aspects of the law of torts. The course then concentrates on the legal requirements for the formation of a valid contract. Other major contract law topics include interpretation, privity, discharge, breach, and special types of contracts. Selected cases will be examined.
39 Hours  Fee: $574.59

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
★ The Law of the Marketplace CLAW 525
Prerequisite(s): CLAW 122
An examination of the law concerning the marketplace in Canada. Common law precedents and federal and provincial statutes which govern business practices and define legal rights and remedies in the commercial environment are analyzed. Major topics include product liability, consumer warranties, misleading advertising, regulation of competition, hazardous products, packaging and labeling, consumer credit transactions, and privacy and freedom of information legislation. Relevant statutes and selected cases are examined.
39 Hours Fee: $574.59

★ Employment and Labour Law CLAW 529
Prerequisite(s): CLAW 122
This course is designed to acquaint the student with a general understanding of labour and employment law, particularly in Ontario. The role of common law and Ontario statutes affecting workers is examined. Legislation and case law concerning hiring employment contracts, employment standards, human rights, privacy, health and safety and wrongful dismissal is reviewed. The latter part of the course introduces the collective bargaining relationship with particular concentration on the Labour Relations Act. Relevant statutes and selected cases are examined.
39 Hours Fee: $574.59

NEW ★ Intellectual Property Law CLAW 601
Prerequisite(s): CLAW 122
This course addresses the salient elements of statutory intellectual property as well as trade secrets / confidential information. The Course delves both into the details of “traditional” intellectual property, its justification, its abuses as well as the exotic emerging versions, such as rights of personality / celebrity, geographical indicators, traditional knowledge, farmer’s rights and sound and smell trade-marks. The foundation of the course starts with an examination of the relevant international treaties, both the venerable and recent. The pivot of the course is the use and exploitation of IP in a business setting which will engage anti-competition issues.
39 Hours Fee: $558.50

★ Advanced Business Law CLAW 603
Prerequisite(s): CLAW 122
This course begins with an examination of the law governing business relationships and forms of business organizations, including the legal requirements for the formation of the corporation and partnership. Special contractual relationships affecting business are studied followed by an examination of the law pertaining to secured transactions and bankruptcy procedures. The course also surveys the law of real property, including the leasehold interest and mortgages. Relevant statutes and selected cases are examined.
39 Hours Fee: $574.59

★ Issues in Information Technology Law CLAW 723
Prerequisite(s): CLAW 122
This course focuses on emerging legal problems associated with the growth of information technology in Canada and internationally. It focuses on the legal protection of electronic information and technology through patents, copyright, trademarks and trade secrets, and upon contractual issues (electronic signatures, problems of verification, contracts which must be in writing, and security of information) in the procurement of products and services, especially through the Internet and other e-commerce conduits. A range of other topics, such as data protection and privacy, the regulation of the Internet, the harmonization of law globally, computer crime, and remedies will be discussed. Students should be in their graduating year.
39 Hours Fee: $574.59

★ Information Access and Protection of Privacy CZLW 100
This course will provide an introduction to the history, theories, and key concepts relevant for the appropriate administration of access and privacy legislation. It will examine access and privacy concepts and principles through the examination of provincial Freedom of Information and Protection of Privacy Acts, with an Ontario emphasis.
36 Hours Fee: $771.89

★ Health Information Access and Privacy CZLW 110
Laws governing health information privacy, access, and management have an impact on healthcare providers, public bodies with a role in the healthcare sector, employers, professional regulatory bodies, fundraisers, insurers, and researchers. This course is designed to assist these individuals develop a thorough understanding of the policies, practices, laws, and regulation that address confidentiality, privacy, and security of health information.
39 Hours Fee: $647.26

★ Law for Forensics Professionals CZLW 120
The legal environment in which computer security and digital forensics practitioners operate is complex and rapidly evolving. Criminal law, commercial law, privacy and human rights, intellectual property law, the rules of evidence, and rules of civil procedure are all involved. This course will introduce students to these and other laws and legal frameworks (Canadian and international) as they affect the work of security and forensics professionals. Particular emphasis will be placed on the legality of ethical hacking, collection and preservation of digital evidence, privacy, rights of the accused, and the role and responsibility of the expert witness in court. Students will be taught basic legal concepts, how to read and understand relevant statutes an case law, and how to prepare an expert report for lawyer/client, law enforcement, or the court.
39 Hours Fee: $795.58

★ Certificate and degree credit ★ Degree credit ★ Certificate credit ★ Course series
LEARNING AND TEACHING

Learn and Teach in Higher Educ I
CILT 100
Prerequisite(s): Department consent
This seminar will introduce registrants to teaching and learning methods in higher education. Through critical analysis of research on higher education, as well as reflection upon one's own teaching experience, participants will engage in their own professional development. This seminar is designed for individuals with all levels of teaching experience who wish to further develop their teaching skills. Topics covered include active learning, inclusivity, information literacy, statements of teaching philosophy, and presentation skills.

18 Hours HST included Fee: $TBA

Learn and Teach in Higher Educ II
CILT 105
Prerequisite(s): Department consent
This seminar is designed to help prepare participants for an academic career in teaching. Participants are expected to have some experience in teaching at a third-level institution. The overarching goal of this seminar is to allow participants to develop their practical teaching skills. This is achieved through engagement in pedagogical issues pertaining to higher education and the application of practical skills. The framework of this seminar is in the development of a teaching dossier.

18 Hours HST included Fee: $TBA

LIGHTING DESIGN

These multidisciplinary courses are designed to provide you with the broad knowledge base and wide range of skills required as professionals in the lighting industry. For more information, visit www.ryerson.ca/ce/lxdesign.

Lighting Design
Related certificate(s): Design for Arts and Entertainment (pg. 35), Facility Management (pg. 48), Lighting Design (pg. 74)

★ Lighting Fundamentals
CDID 501
This course gives an overview of illuminating engineering and design. Concepts, nomenclature, and equipment are defined. Topics include basic electricity and energy, colour and colorimetry, photometry, sources of light and daylight, units of lighting measurement and calculations. Students gain a foundation of technical information sufficient to understand rudiments of lighting design. This course is recognized for CEU credit by IESNA (Illuminating Engineering Society of North America). Equivalent to a one-term professional elective in the Architectural Science Program. (Equivalent to one Professional elective from Table I, see Undergraduate Program Calendar at www.ryerson.ca.)

39 Hours Fee: $802.79

★ Human Factors in Lighting
CDID 502
Prerequisite(s): CDID 501
This course provides the human factors and psychology background necessary to understand the human needs served by lighting. Within the context of practical applications to interior and exterior lighting problems, the course material covers basic vision and perception in depth and provides an introduction to psychological processes, such as attention, aesthetic appraisal, and cognition, that play a role in human response to lighting. This course is recognized for CEU credit by IESNA (Illuminating Engineering Society of North America). Equivalent to a one-term professional elective in the Architectural Science Program.

39 Hours Fee: $802.79
★ Introduction to Lighting Design
Prerequisite(s): CDID 501

This course emphasizes the use of the design process for developing lighting systems design as applied to a number of practical problems. Students will present their proposed lighting systems design solutions in a formal setting for evaluation. Lighting system performance metrics (visibility, glare, psychological effects), various computational methods and light sources are studied and solutions applied to practical problems of lighting interiors. Equivalent to a one-term professional elective in the Architectural Science Program. (Equivalent to one Professional elective from Table I, see Undergraduate Program Calendar at www.ryerson.ca.)

Note: Individuals with industry experience may contact Academic Coordinator Gerry Cornwell at gerry@cornwell.ca for consideration to enroll in this course without the required prerequisites.

39 Hours Fee: $802.79

★ Advanced Lighting Design
Prerequisite(s): CDID 501, CDID 502, CDID 503, and CDID 504

This studio course is the culmination of the skills learned in the prerequisite courses, applied to specific, complex lighting design problems. Emphasis is on comprehensive, practical solutions to design, budget, energy and systems issues. Students will be guided by a working professional, and will study the application of elements of lighting which are more difficult to quantify, such as colour, form, space, plane, rhythm, balance, and texture. Students will also study examples of the use of light in other media such as film, theatre, and public events. Equivalent to a one-term professional elective in the Architectural Science Program.

39 Hours Fee: $802.79

★ Lighting Energy Management
Prerequisite(s): CDID 501

This course studies various integrated building systems and the interrelationship between these systems and lighting of various types. Using case studies and assignments, students will evaluate the methods of, and the results from, applying energy-efficient lighting design. Attention is given to codes and energy regulations currently being enforced within the building industry internationally, nationally, and locally. Equivalent to a one-term professional elective in the Architectural Science Program.

39 Hours Fee: $802.79

★ Entertainment Lighting Design
Prerequisite(s): CDID 501

This studio course is an introduction to the techniques of theatre lighting design. The focus of the course is lighting design issues and methods in theatre lighting. The emphasis is on hands-on practice and experience. Students will complete one major theatre lighting design assignment.

39 Hours Fee: $845.02

★ Lighting Design Practicum
Prerequisite(s): CDID 501, CDID 502, CDID 503, CDID 504, CDID 550, and CDID 551

This course is an advanced-level course which stresses individual study, self-motivation, the skills required to research information, oral and written presentation, and client communication skills. Students work with the guidance of a recognized Canadian or international lighting designer on a significant project or projects.

39 Hours Fee: $845.02

★ Lighting Research Practicum
Prerequisite(s): CDID 501, CDID 502, CDID 503, CDID 504, CDID 550, CDID 551

This course is an advanced-level course which stresses individual study, self-motivation, the skills required to research information, oral and written presentation, and client communication skills. It provides an opportunity for students to investigate a problem in either lighting technology or lighting applications (e.g., a behavioural or perceptual effect) with a faculty member, or an adjunct such as the National Research Council, or an independent consultant, or an industry lamp/luminaire manufacturer. The student may define the research question in collaboration with the supervisor, or may work on an ongoing research practicum with a faculty member, and will define, conduct, and report on the investigation that answers the question.

39 Hours Fee: $845.02
MAGAZINE AND WEB PUBLISHING

Magazine and Web Publishing courses are designed for individuals who are planning a career in web publishing or the magazine industry, working at a magazine or website and looking to sharpen the skills they use in the job and/or broaden their knowledge of the other disciplines within their company, or thinking of starting up their own magazine or website.

For course offerings in Journalism, see page 262.

For course offerings in Publishing, see page 338.

For more information, including instructor biographies, visit www.ryerson.ca/ce/magazine.

Magazine and Web Publishing
Related certificate(s): Magazine and Web Publishing (pg. 75)

+/ So You Want to Start a Magazine CDJN 101
It’s exciting, starting a new magazine, but a lot more complicated than it looks. To help you do it right, this two-day course, taught by one of Canada’s top magazine consultants, covers all of the practical aspects of launching a print or online magazine today. Topics include: understanding your audience; translating your idea into a viable business; developing editorial that wows readers; getting and analyzing printing quotes; how to get the best prices for ads and subscriptions; how to promote a new magazine; tips about circulation, fulfillment, production and newsstand sales; how to write your own launch timeline and business plan; and much more.

Note: For more information, please see www.ryerson.ca/ce/StartaMagazine.

14 Hours HST included Fee: $770.45

+/ Magazine and Website Publishing CDJN 112
This course provides an overview of the business challenges and opportunities confronting magazine publishers today. All aspects of managing magazines, print or web-based, are touched upon: editorial, marketing, management, integration of web and print, advertising, production, and distribution; plus the challenges in starting a new publication. Guest speakers from the industry provide insights and the chance to ask questions and discuss issues. This course complements all other courses in the certificate program.

39 Hours Fee: $671.98

+/ Magazine and Website Editing CDJN 113
This course is a practical, step-by-step introduction to print and online magazine editing. The emphasis is on learning job skills in a workshop environment. Topics include: planning and coordinating print and web content, developing strong story ideas, working with contributors, handling manuscripts, writing display copy, budgets, the ethics of editing, and libel law. Class members get a chance to use their skills when they produce their own prototype magazines, working in small groups.

39 Hours Fee: $671.98

+/ Introduction to Magazine Design CDJN 116
In this course, we analyze how and why magazines look the way they do and develop professional visual awareness. We explore visual communication with specific readerships and compare traditional print publications with new online applications, with a focus on typography, grids, and formats; the anatomy and overall design direction of a magazine; assigning; developing design concepts; the cover; working out a book map; the aesthetics of magazine design; and technical considerations.

39 Hours Fee: $671.98

+/ Writing for Magazines and the Web CDJN 117
Intended for those with a serious interest in writing and selling non-fiction articles to print or online magazines or other communication venues, this is an introduction to the basics of conceiving, focusing, pitching, researching, structuring, writing and revising both short and longer feature articles. The course includes lecture/instruction, classroom exercises, and writing workshops with feedback from peers and the instructor. In addition to the recommended reading and weekly handouts, students are expected to read a wide variety of Canadian and American periodicals, and to complete (for grading) four shorter writing assignments, and one (1,000-word) feature story on a topic of their choice, targeted to an online or print publication. CDJN 117 combined with CDJN 118 is equivalent to JRN 124.

39 Hours Fee: $662.71
Advanced Feature Writing  CDJN 118

Prerequisite(s): CDJN 117

This project-intensive advanced course is designed for serious students of magazine feature writing to further develop their reporting and narrative skills. Students must have a familiarity with the basics of conceiving and focusing story ideas for specific markets as well as the fundamentals of researching, reporting, interviewing and writing, as covered in CDJN 117. The course emphasizes what is called literary journalism, which combines journalism's concern for solid reporting and factual accuracy with many of the dramatic techniques of fiction. At its best, this kind of feature writing holds readers’ interest, entertaining them while simultaneously providing the depth and context necessary to understand complex issues and events or capture the essence of a profile subject. There will be short writing assignments as well as one longer feature, which must contain some or all of the elements of the course: evidence of on-the-scene reporting, a narrative arc consisting of a well-crafted beginning-middle-end, character development, the use of dialogue instead of (or in addition to) traditional quotation, the use of symbol to support theme, etc. Students are expected to come to the first class prepared to discuss story ideas and move on quickly to writing a query letter. CDJN 117 combined with CDJN 118 is equivalent to JRN 124.

Note: Candidates seeking admission by experience must produce a portfolio of feature work published in magazines and/or substantial magazine-style features from newspapers. For more information, contact the instructor at 416.466.5167.

39 Hours  Fee: $662.71

Magazine Fact-Checking and Research  CDJN 120

Independent fact-checking happens mainly at magazines, but the skills taught in this course can be used in any medium. In the magazine business, fact-checking is a key entry-level job, a way for aspiring writers or editors to learn how a magazine works and how professional writers put together a story, and to develop relationships with editors that can lead to assignments or jobs. For writers, the more they know about what happens to an article in fact-checking, the better prepared they’ll be to provide what editors want - and to protect their copy. This course looks at why magazines employ fact-checkers; how fact-checking fits into the editorial process; how to document fact-checking according to industry standards; what to check and what not to check; finding research sources and judging their authority; the fact-checking telephone interview; working with writers and editors; and legal and ethical considerations.

19.5 Hours  Fee: $170.80

Magazine Copy Editing  CDJN 119

This course is an introduction to the skills and knowledge required to ensure a high degree of clarity, consistency, and accuracy, as well as precise and appropriate use of language, in magazine editorial copy - print or web-based. After a magazine article has been edited, the copy editor attends to the finer details - checking grammar, punctuation, spelling, consistency of style, logic, and usage - and shepherds the article through the proofreading and production process. These “polishing” skills will be covered in this course, along with commonly used reference works, Canadian spelling, proofreader’s marks, copy editing on computers, copy fitting, line editing, bias-free language, working with designed pages, and writing display copy. One lesson will be devoted to fact-checking. While students from many backgrounds may benefit from this course, successful copy editors need an above-average command of the language they’re working in, and a wide-ranging general knowledge.

39 Hours  Fee: $671.98

Magazine Packaging  CDJN 121

This course focuses on packaging print and digital service journalism in ways that will delight readers and help them easily access the information they need, in print or online. The course looks at planning and assigning a story package for print, web, and tablet; editing stories destined for packages; and working with art directors and digital producers to create packages. A variety of types of stories will be discussed and provided by both the instructor and the students, from long features to visual stories to instructional pieces to words-and-pictures infographics. Students are encouraged to think of magazines as both print and digital products.

Note: Classroom Delivery uses in-class workshops, round-tables, story meetings, quick editing exercises, and hands-on group activities. Traditional lecture format is kept to a minimum and time is made available for one-on-one discussions with the instructor as well as peer feedback; Distance Delivery teaches the same skills and techniques, but makes use of online discussion forums, video and audio interviews, and self-assessment quizzes to augment the learning experience.

19.5 Hours  Fee: $170.80
Advanced Magazine Editing  CDJN 122
This hands-on course focuses on effective editing of individual magazine articles - sometimes known as substantive editing - to help writers grab readers’ attention at the start and keep them reading to the end. Areas covered include assigning or acquiring manuscripts; tailoring content for specific readerships; coaching writers according to their individual strengths and weaknesses; editing for completeness and clarity; effective cutting and silken transitions; and use of imagery, anecdote, and a variety of voices and rhythms to make an article sing. A must for anyone planning to edit longer manuscripts - and a very useful course for anyone planning to write them. (Formerly Substantive Editing for Magazines)
19.5 Hours  Fee: $370.80

Success as a Freelancer  CDJN 123
Prerequisite(s): CDJN 117
This is a primer on how to run a freelance business as a writer or editor. It is aimed at students who are looking to get ahead in freelance work in the magazine and web industry (and beyond) and looking to gain hands-on tools and feedback to achieve their goals.
19.5 Hours  Fee: $370.80

The Art of Pitching  CDJN 124
A singularly focused and practical, step-by-step course moving a would-be freelance writer through the finicky and often frustrating pitch process - from bright idea to research and sources to final query - thereby delivering a quality and saleable magazine pitch into the right editor’s hands.
19.5 Hours  Fee: $370.80

Magazine Advertising Sales and Marketing  CDJN 201
On average, Canadian magazine advertising sales representatives earn more than magazine editors and find it easier to step into the role of publisher. (All magazine publishers must have a thorough understanding of advertising sales.) This course provides students with the knowledge and skills required to sell magazine advertising in today’s highly competitive marketplace. Fundamentals taught include: using standard research tools to develop sales presentations, sales call preparation, working with advertising agencies and closing sales. Guest speakers from the advertising field add to the learning experience.
19.5 Hours  Fee: $370.80

Magazine Marketing and Circulation  CDJN 202
Never before has marketing meant as much to a magazine’s success as it does today. Circulation (the selling of magazines themselves, rather than their advertising pages) currently offers more potential for revenue growth - and more career opportunities - than any other area of magazine publishing. This course focuses on marketing magazines to readers, covering all systems and methods that successful circulation marketing employs. Topics include: the magazine market in Canada, identifying markets for specific titles, key variables determining marketing success, subscription acquisition and renewals, bulk sales, controlled circulation uses and strategies, pricing, newsstand sales, database marketing, branding and ancillary revenue from readers, and the roles of magazine fulfillment, audits and modelling.
19.5 Hours  Fee: $370.80

Layout Software for Magazine Editors  CDJN 204
Many editors are expected to have some knowledge of the InDesign page layout program used to edit and format text, place artwork, create page layouts and organize editorial production and copy flow. This course will provide you with the basics of the InDesign program. Instruction is fast-paced, hands-on, and is taught in a Macintosh computer lab.
Note: This course will be taught in a Macintosh computer lab. Enrollment is limited to 16 students.
19.5 Hours  Fee: $370.80

Magazine Production  CDJN 205
In addition to the fundamentals of print production, this course includes the basics of multi-purposing text and pictures for the Web, as well as creating digitally-formatted documents that will display on e-readers, tablets, and mobile devices. This course helps today’s magazine production professional acquire the skills to publish on multiple platforms, provides an overview of current magazine production practices, including how magazines are printed and bound, and how to schedule and budget magazine production. Students will learn about magazine formats, advertising delivery through ad portals, pre-media, printing process, and quality control across all platforms.
Note: This course will include a guided printing plant tour.
39 Hours  Fee: $610.18
Creating Website Editorial  CDJN 206
From chats and blogs to streaming video, the editorial elements available for websites differ radically from those for ink-and-paper magazines. For magazine editors with website responsibilities, the trick is to use those things creatively to attract and hold readers while still maintaining the magazine's identity and mission. This course provides students with a valuable understanding of web tools and opportunities to workshop appropriate content for them. It also addresses the most common strategic, logistical, and business-related challenges that come with producing great magazine websites.
19.5 Hours Fee: $370.80

The Online Publishing Toolkit  CDJN 207
Print remains important, but online publishing is gaining ground, seeing some titles moving (or launching) wholly online. Today’s publisher or editor needs to manage “print plus”: a modern multi-platform, multi-media magazine. Find out how to deliver content to readers whenever, wherever, and however they wish. Learn about such vital tools as content management systems, mobile apps, “the cloud,” digital versions and mobile editions, social media, micro sites, analytics, ad portals, and more.
19.5 Hours Fee: $370.80

Ad Sales on the Web  CDJN 208
Ad sales in the digital age requires traditional persuasive skills, but operating in a whole new world of design, accountability, and instant measurement. Digital delivery is a big part of the future of magazine publishing. Become familiar with the ways online advertising is priced, pitched, measured, designed, and packaged. Learn about rich text, standard ad formats and pricing, positioning your publication against such heavy-hitting competitors as Google, and exercising your creativity to meet online advertisers’ needs. Understand the metrics that matter most to advertisers and agencies and how to package and deliver them.
19.5 Hours Fee: $364.62

Entrepreneurship
CENT 500
This introductory course is designed primarily for non-business students who are interested in starting a business of their own. Topics include assessing entrepreneurial potential, opportunity identification, market assessment, organizing, promoting, and financing the business, intellectual property, buying an existing business or considering a franchise. Students will be expected to work on developing a business plan. This course is not available to programs within the Ted Rogers School of Management, with the exception of Retail Management.
39 Hours Fee: $574.59

Entrepreneurial Behaviour and Strategy  CENT 526
This foundation course is designed to stimulate the student’s interest in entrepreneurship, thereby cultivating the entrepreneurial spirit. By means of case studies, articles, videos and presentations, students will have the opportunity to learn about many prominent entrepreneurs who have demonstrated commitment, passion, risk-taking, strategic thinking and implementation, and the ability to develop core competencies as they create and grow their successful enterprises. Various topics in entrepreneurship will be introduced as a result.
39 Hours Fee: $574.59
**Identifying Opportunities**

CENT 601

This course examines the process of opportunity identification for both start-up and existing business environments. It is designed to cultivate the mindset and skills required for students to engage in opportunity identification activities and make them part of their daily regimen in their personal and professional lives. The entrepreneurial process begins with the pursuit of a perceived opportunity. As such, the ability to identify a valid opportunity is paramount to the field of entrepreneurship.

39 Hours

Fee: $574.59

**Multicultural Opportunities**

CZEN 300

This course examines the process of multicultural opportunity identification for both start-up and existing business environments. It is designed to cultivate the mindset and skills required for students to engage in opportunity identification activities and make them part of their daily regimen in their personal and professional lives. The entrepreneurial process begins with the pursuit of a perceived opportunity; as such, the ability to identify a valid opportunity is paramount to the field of entrepreneurship.

39 Hours

Fee: $574.59

**Multicultural Venture Startups**

CZEN 500

Prerequisite(s): CENT 526 and CMKT310

This course will focus on the distinct challenges facing those individuals who are new to Canada as well as entrepreneurs who would like to target a particular multicultural niche market. The process of business planning will be featured. Students will be required to develop a business plan for a new venture targeting selected multicultural cohorts.

39 Hours

Fee: $574.59

**Global Management**

Related certificate(s): Business Decision Analysis (pg. 24), Business Management (pg. 26), Entrepreneurship and Multiculturalism (pg. 44), Ethics (pg. 46), Facility Management (pg. 48), Global Management Studies (pg. 59), Retail Management (pg. 99), Strategic Marketing (pg. 103)

**Introduction to Global Management**

CGMS 200

This course introduces the concepts and complexities of the contemporary business environment with an emphasis on competitiveness, quality, and the main functional areas of management: Planning, Organizing, Controlling, and Leadership. The course recognizes the global context within which managerial decisions are made. Topics include: origins of management, forms of business ownership, entrepreneurship and intrapreneurship, organizational structure, strategy, operations management, international business, social and ethical issues. Instruction will be provided for effective presentations and library research skills. A globally oriented management simulation may be used. (Formerly MGT 200)

39 Hours

Fee: $651.84

**Operations Management**

CGMS 401

Prerequisite(s): (CGMS 200 or MGT 200 or MGT 121) and (COMS 102 or OMS 204)

Production and operations management are activities that relate to the creation of goods and services through the transformation of inputs into outputs. Topics include: What is production and operations management; productivity, competitiveness and strategy; quality management; product and service design; process selection; design of work systems; learning curves; inventory management: MRP, JIT; maintenance and reliability; project management: P.E.R.T. and C.P.M. (Student groups are required to visit a manufacturing or service facility, produce a report, and do a formal presentation to the class covering the course topics investigated during the tour.) (Formerly MGT 401)

39 Hours

Fee: $574.59

**Introduction to Managerial Economics**

CGMS 402

Prerequisite(s): [(CGMS 200 or MGT 200 or MGT 121) and (CQMS 102 or OMS 204) and CGMS 202] or Direct Entry

A primary emphasis of managerial economics is the application of economic theory and methodology to the practice of business management and decision making. Students will learn how economic tools can be applied to achieve business goals and to address managerial challenges. Topics include: optimization, risk analysis, demand theory and estimation, production and cost theory, market structure and pricing practices. (Formerly MGT 402)

39 Hours

Fee: $574.59

**Quality Management**

CGMS 422

Prerequisite(s): [(CQMS 102 or QMS 204) and CGMS 202] or Direct Entry

Quality has become a critical component of many successful businesses. The quest for quality has led to the emergence of a set of analytic tools that help identify, study and improve business processes. The course examines the development of these management tools and the role that they play in continuous improvement activities. In particular, the student will become familiar with problem solving strategies that begin with a structured qualitative analysis of business situations, incorporate quantitative management methods and lead to well-reasoned decisions. Appropriate software support will be used. (Formerly QMS 402).

39 Hours

Fee: $574.59
★ Project Management  CGMS 450  
Prerequisite(s): CGMS 401 or MGT 401 or MGT 100 or Direct Entry

This course focuses on how projects contribute to the strategic goals of the organization. The linkages for integration include the process of selecting projects that best support organizational strategy and all the technical and managerial processes to complete those projects. The goals for prospective project managers are to clearly understand the role of the project in their organizations and to master project management tools/techniques and interpersonal skills necessary to orchestrate projects to completion. (Formerly MGT 806)

39 Hours  Fee: $574.59

★ Management Control  CGMS 502  
Prerequisite(s): [CACC 406 or CACC 410] and (CGMS 401 or MGT 401) or Direct Entry

A main course objective is the acquisition of essential managerial skills for achieving overall organizational goals. A management control system embraces all aspects of corporate operations; thus students should acquire prior knowledge in organizational behaviour, economics, accounting, finance, and marketing. Major areas discussed: organizational structures and behaviour, management control structures; management planning and control processes. The teaching mode is lecture plus a case seminar. Students must be prepared to strongly defend their points of view during case discussions. Student evaluation consists of short objective tests, individual written case reports, group case presentations, individual participation, and a final exam (essay type). (Formerly MGT 502)

39 Hours  Fee: $574.59

★ International Marketing  CGMS 522  
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry

Basic marketing principles are applied to world markets. Emphasis in the course is given to the analysis of economic, political, cultural and social factors. This course also covers conditions relevant to the implementation of marketing strategies in world markets. (Formerly IBS 522 and MKT 522)

39 Hours  Fee: $574.59

★ Issues in Operations Management  CGMS 528  
Prerequisite(s): CGMS 401 or MGT 401 or Direct Entry

This course will provide an evolving survey of leading-edge topics in operations management. Current topics include: world class manufacturing, manufacturing as a competitive weapon, competing on quality, competing on productivity, competing on new products and processes, planning and implementing operations strategies over time, health and safety as a competitive advantage. Student groups will be required to prepare case studies and a major paper. (Formerly MGT 528)

39 Hours  Fee: $574.59

★ Business-to-Business e-Commerce  CGMS 550

Some of the most significant changes caused by electronic commerce are in the way that businesses trade with one another. This course will cover the key elements needed to operate in the virtual business marketplace, with special emphasis on the impacts on the supply chain. Topics covered will include issues in procurement, logistics and manufacturing, as well as an examination of the trading communities that are emerging as players in this new marketplace. (Formerly MGT 550)

39 Hours  Fee: $574.59

★ International Economics  CGMS 601  
Prerequisite(s): (CECN 104 and CECN 204) or Direct Entry  
Antirequisite(s): CECN 607, CECN 707  

This is a one semester course introducing students to the theory of international economics and its applications to business. The course examines why nations trade and why at the same time many countries try to limit trade by introducing trade barriers. It looks at the role of the WTO and Canadian trade policy. The course also introduces the theory of exchange rates and looks at issues surrounding international policy coordination. (Formerly IBS 601)

39 Hours  Fee: $629.18

★ The North American Business Environment  CGMS 690|  
Prerequisite(s): CGMS 200 or MGT 200 or Direct Entry

This course provides an overview of the North American business environment. It examines the cultural, political and economic environments in Canada, the US and Mexico. Trade and economic integration issues are discussed including an assessment of the North American Free Trade Agreement (NAFTA) and the potential impact on these three countries of the proposed Free Trade Area of the Americas (FTAA). The course will also introduce students to the key institutions that impact trade and business activities in North America and will examine the strategies used by foreign multinational corporations in penetrating North American markets. Current and controversial issues such as trade in bulk water and a continental energy plan will also be covered. The long run international competitive position of North American firms is also examined in this course. GMS 690 is designed to provide a suitable comparative framework for understanding other regional markets and will be particularly useful for international and exchange students.

39 Hours  Fee: $629.18
The Asian Business Environment  CGMS 691
Prerequisite(s): CGMS 200 or MGT 200 or Direct Entry
This course examines cultural, demographic, political and economic issues that shape the Asian business environment. The region as a whole is profiled but particular attention is paid to China and India as emerging super powers. The importance of foreign direct investment to the development of this region is underscored as well as the emergence of Asian multinationals and their approach to outward direct investment. The challenges encountered by Western firms in penetrating Asian markets are discussed in detail. Consideration is given to the role of government in business transactions in this part of the world and the need for innovative strategies when dealing with Asian business partners. Special topics will include globalization versus sustainable development and the role of Asian countries in global outsourcing.
39 Hours  Fee: $629.18

The European Business Environment  CGMS 692
Prerequisite(s): CGMS 200 or MGT 200 or Direct Entry
This course focuses on European economic integration and the implications for business. The nature of the European business environment is examined including a discussion of the economic and political institutions, culture and demographic trends. Market size, growth, trade and investment prospects for the Euro zone countries and the UK are examined. The foreign market entry strategies of multinational corporations active in this region will also be discussed. The course will also consider the prospects for Eastern Europe and the challenges these countries face in implementing free enterprise market reforms. Implications for EU enlargement are discussed.
39 Hours  Fee: $629.18

The Middle Eastern Business Environment  CGMS 695
Prerequisite(s): CGMS 200 or MGT 200 or Direct Entry
This course examines the business environment and the complex cultures of this highly misunderstood region. The course focuses on the impact of religion, politics, culture and history on the prospects for conducting business in the Middle East. The impact of Sharia banking on business is a particular focus of this course. Specific countries in the Middle East are profiled to underscore intra-regional differences in the importance of religious, political and regulatory factors. Foreign market entry strategies appropriate to Islamic countries are also presented using Western firms as case studies.
39 Hours  Fee: $629.18

International Trade  CGMS 723
Prerequisite(s): CGMS 401 or MGT 401 or HTF 506 or Direct Entry
An analysis of the important business function of international trade. After a review of the importance of exports for Canada's income and employment needs, students focus attention from an export manager's perspective, on such topics as export organization, research, and pricing, export documentation and correspondence; export marketing strategies; government and private export assistance; export finance; marine insurance and export shipping. This course also includes an examination of international databases and involves direct company field research. Students who have taken MKT 522 or IBS 522 should have a stronger foundation for applying this course. This course is intended as a fourth year course. (Formerly IBS 723 and MGT 723)
39 Hours  Fee: $574.59

Management of International Enterprise  CGMS 724
Prerequisite(s): CGMS 401 or MGT 401 or HTF 506 or Direct Entry
An analysis of the management policies of the multinational business corporation in Canada and the world. Topics covered: the evolution of the multinational corporation, its organization, structure, planning and goals. Also covered are business strategies including marketing, production, logistics, technology, personnel and labour relations, finance, investment and acquisition, and ownership, concerns of host countries including Canada, and policies for host governments. Lectures, discussion, and case problems. (Formerly IBS 724 and MGT 724)
39 Hours  Fee: $574.59

Ethics and Regulation of Int'l Bus  CGMS 802
Prerequisite(s): CGMS 401 or MGT 401 or MGT 100 or Direct Entry
This course examines the vital role that ethics plays at all leadership levels within a company. Students will discover the importance of instilling ethical values as a key to long term success. Exposure to thought-provoking cases and literature will heighten student awareness of the need to develop strong ethical leadership in dealing with customers, the community, and employees. Students will also be exposed to the critical role of governments in regulating international business behaviour. (Formerly MGT 802)
39 Hours  Fee: $574.59
Principles of Transportation  CGMS 803
Prerequisite(s): CGMS 401 or MGT 401 or MGT 100 or Direct Entry
Antirequisite(s): CECN 710
This course examines the field of Traffic and Transportation management in order to provide a professional level of competency for students who wish to pursue careers in Purchasing and Materials Management and/or professional transportation management. Course topics include: transportation regulation and deregulation, transportation economics, buying transportation services, truck transportation, rail transportation, air, marine and pipeline, computers in transportation, customs and excise, dangerous goods, packaging, damage prevention, and carrier claims. (Formerly MGT 803)
39 Hours  Fee: $574.00

Manufacturing Management  CGMS 805
Prerequisite(s): (CGMS 401 or MGT 401) or Direct Entry
This course will focus on manufacturing management techniques and manufacturing technology. Current topics include: quality of design, systems for eliminating defects, simplified production planning and control systems, managing the supply chain, activity-based costing and performance measurement-making “bean-counting” relevant. The students will learn decision models and management techniques for evaluating technological options used by flexible manufacturing operations to sustain competitive advantage. The course will also include cases from major manufacturing industries such as automotive, plastics, and apparel. (Formerly MGT 805)
39 Hours  Fee: $574.59

Studies in Global Supply Chain Management  CGMS 804
Prerequisite(s): CGMS 401 or MGT 401 or MGT 100 or Direct Entry
This course will expose the student to many of the topics currently dominating the study of global supply management. Subjects may include: locating potential suppliers; the importance of cultural and communication skills; legal practices; currency factors; logistics; supplier payment, channel payment, and more. Students will be expected to write and present papers on various topics using both primary and secondary research techniques. (Formerly MGT 804)
39 Hours  Fee: $TBA

Foundations of Management Workshop  CZMN 110
Prerequisite(s): Department consent
This workshop is designed to provide nonbusiness degree graduates with skills to optimize success in the Foundations of Management Course Series offered through the Ted Rogers School of Management. Classes will focus on essential business skills including numeracy, statistics, business communications, business case writing, and the use of selected business software applications.
20 Hours  HST included  Fee: $680.84

International Business
All CIBS course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Global Management Studies (pg. 59)

Practicum in International Business  CZIB 100
Prerequisite(s): CCMN 443, IBS 522, IBS 723, IBS 800, and CMHR 700
Students will work with a client in business, either in Canada or abroad, in order to study and to document an international business project in an actual organizational setting. They will work with a faculty advisor and an on-site supervisor. Students will plan the project with the faculty advisor. Students may conduct the project at their current place of business. If this is not possible, they may select a suitable client organization. Although the faculty advisor will assist in any way possible, it is the responsibility of the student to find a suitable client and project.
39 Hours  Fee: $683.31
MARKETING

There is scarcely any field of professional activity that does not require the expertise of a skilled and knowledgeable marketing specialist. The following courses can help you develop broad-based or industry-specific marketing skills, either to upgrade your present qualifications or as preparation for a new career. For more information, visit www.ryerson.ca/ce/marketing.

MARKETING

There is scarcely any field of professional activity that does not require the expertise of a skilled and knowledgeable marketing specialist. The following courses can help you develop broad-based or industry-specific marketing skills, either to upgrade your present qualifications or as preparation for a new career. Marketing

All CMKT course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. Related certificate(s): Business Decision Analysis (pg. 24), Business Management (pg. 26), Design Management (pg. 36), Entrepreneurship and Multiculturalism (pg. 44), Facility Management (pg. 48), Fashion Coordination and Styling (pg. 50), Global Management Studies (pg. 59), Retail Management (pg. 99), Strategic Marketing (pg. 103)

★ Principles of Marketing CMKT 100
Prerequisite(s): CINF 912
This course introduces students to the fundamental building blocks of marketing: the theories, principles and concepts of market behavior; marketing metrics and financial marketing; and the skills to leverage this knowledge with IT tools to execute marketing strategies. Students begin to develop the quantitative and qualitative skills and knowledge to make effective and ethical decisions in both the consumer and business markets. Topics include financial marketing, the marketing mix, environmental scanning, segmenting, targeting and positioning. Students planning to enter the Marketing Management Major must obtain a 2.67 GPA (B-) in this course.
39 Hours Fee: $730.12

★ Marketing Metrics and Analysis CMKT 300
Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry
This course provides students with state-of-the-art contemporary demand and supply marketing metrics and analytic tools, such as marketing research, share of mind, margins and profits, product, sales force, and channel management, advertising media and web metrics to integrate marketing performance with the firm’s strategic thrusts and corporate finances. Students are introduced to the case method as a model for critically analyzing situations and developing evidence-based, ethical decision-making skills using marketing theory and marketing metrics. (No transfer credit ruling).
39 Hours Fee: $574.59

★ Understanding Consumers and the New Media CMKT 400
Prerequisite(s): CMKT 300
Antirequisite(s): MKT 502, CRMG 302
The online world is becoming more social and therefore more like the offline world. This shift has changed the nature of marketing from one-way mass communication to a conversation. This course uses social science theories to understand consumers and design effective marketing strategies with an emphasis on digital media applications. This theoretical course is fundamental to analyzing, interpreting, and understanding the personal, psychological, social, and economic aspects of the marketing environment. (No transfer credit ruling).
39 Hours Fee: $574.59

★ Marketing Research CMKT 500
Prerequisite(s): CMKT 300
This course examines the role of marketing research in making strategic marketing decisions through the application and use of the scientific method and traditional quantitative and qualitative marketing research tools. Students hone their quantitative skills by developing a deeper understanding of the importance of large datasets, Web analytics and secondary analysis, and the role of financial and other marketing metric data in evidence-based and ethical decision-making. Group project work develops communication and teamwork skills. (No transfer credit ruling).
39 Hours Fee: $574.59

★ Effective Persuasion CMKT 504
Prerequisite(s): CMKT 100
This course covers the fundamentals of the sales process and personal persuasion in the business world. Students work individually and in groups to discuss the theories and practice of effective techniques for selling themselves, their ideas and/or their products to prospective employers and/or customers. Students participate in discussions and role playing to develop an ethical understanding of customer interface, and high level communication and interpersonal skills, which are the cornerstones for successful selling. (No transfer credit ruling).
39 Hours Fee: $574.59

★ Innovations in Marketing CMKT 510
Prerequisite(s): CMKT 300
This course focuses on understanding current issues, trends and challenges facing marketers from the perspective of marketing theory, marketing metrics, and IT tools and capabilities. Issues include brand equity, the social web, advertising and communication, business to business marketing, “green” marketing, marketing and public policy and product/service innovation.
39 Hours Fee: $574.59

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
This course provides an opportunity for students to integrate skills and knowledge already learned about marketing theory and principles, marketing metrics, and the strategic opportunities afforded by technology. Using comprehensive cases that reflect a variety of marketing issues, situations and challenges, students enhance their written and oral communication skills through case analysis and presentations conducted in teams. The course focuses on enhancing analytic, synthesis, integration and research skills to arrive at an evidence-based recommendation. (No transfer credit ruling).

39 Hours

Fee: $574.59

This course advances and enhances skill with marketing metrics through experience with relational databases, data preparation, data analysis, predictive analysis, decision modeling, and common software suites. Using case studies and spreadsheets, students gain insight into when and how to apply data modeling techniques, such as linear regression, logistic regression, decision trees, neural analysis and customer clustering, and their role in strategic decision-making and market plan development. (No transfer credit ruling).

39 Hours

Fee: $574.59

This advanced course provides students with a deep understanding of the integration of all marketing functions, practices and theories in order to address strategic problems and challenges. Case studies, class discussions and small group projects with external clients allow students to apply their theoretical knowledge, and employ their IT and quantitative skills, while experiencing real business situations and the challenges of developing effective marketing strategies in a dynamic business environment. (No transfer credit ruling).

39 Hours

Fee: $587.98

This course presents a comprehensive framework for analyzing competition and developing successful marketing strategies. Students develop advanced skills in quantitative and qualitative tools and techniques in order to analyse, predict and understand a company's relative position, the general market situation, the future of the industry, and the opportunities, threats and environmental forces that may impact the future success of an industry, a company, a product or a service. (No transfer credit ruling).

39 Hours

Fee: $574.59

This course provides students with the opportunity to work in groups to develop a complete integrated marketing plan for a real client. The plan includes a complete set of actionable tactical and strategic recommendations based on primary and secondary research that addresses the client's problems and issues and identifies future opportunities. There is a strong emphasis on interpersonal skills as students manage their project timelines and their relationship with their client. (No transfer credit ruling).

39 Hours

Fee: $704.37

This course exposes students to the fundamental concepts and strategies related to marketing in sport and recreation organizations. The course adopts an applied approach and emphasizes university/college, technology, sport sponsorship, focusing on the practical application of theory. Topics include the Canadian sport industry, sport brands, media and distribution, promotion and events.

39 Hours

Fee: $574.59
International Sport Marketing  
**CMKT 829**  
*Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry; Antirequisite(s): MKT 827*  
This course exposes students to the concepts and theories related to marketing in international sports organizations. The course adopts an applied approach and emphasizes both professional and Olympic sport, focusing on the practical application of theory. Topics include sport agents, marketing world sporting events, financing, marketing sport facilities, ambush marketing, events sponsorship, and anti-doping.  
39 Hours  Fee: $574.59  

**Applied Research Project  
CMKT 850**  
*Prerequisite(s): CMKT 100 or HTM 302 or Direct Entry*  
Students work in groups to complete a research project for an organization, association or company. The project includes primary and secondary research that addresses the client’s problems and issues and identifies future opportunities through a set of actionable recommendations. There is a strong emphasis on interpersonal skills as students manage their project deliverables and their relationship with the client.  
39 Hours  Fee: $574.59  

MATHEMATICS  

The mathematics courses outlined here will introduce you to new concepts and problem-solving skills that are relevant to a variety of personal and professional interests.  

**Mathematics**  
Related certificate(s): Data Analytics, Big Data, and Predictive Analytics (pg. 33), Financial Mathematics Modeling (pg. 52)  

**Transcendental Functions  
CKMT 101**  
Students will investigate the properties of polynomial, rational, radical, logarithmic, exponential, and trigonometric functions with the applications in the rate of change and graphing.  
52 Hours  Fee: $755.00  
*An Academic Bridging Course. Meets the Grade 12 MHF4UI (Advanced Functions) requirement for admission to a Ryerson program. This course can be taken concurrently with CKMT 102. Please contact Undergraduate Admissions and Recruitment for details.*  

**Advanced Calculus and Vectors  
CKMT 102**  
Students will solve problems involving geometric and algebraic representation vectors in three-dimensional spaces and will explore the equation and graph of lines and planes related to vectors. Students will also study the derivatives of various types of functions and its applications in optimizations and graphs.  
52 Hours  Fee: $755.00  
*An Academic Bridging Course. Meets the Grade 12 MCV4UI (Calculus and Vectors) requirement for admission to a Ryerson program. This course can be taken concurrently with CKMT 101.*  

**Advanced Data Management  
CKMT 103**  
This course broadens students’ understanding of mathematics as it relates to managing data. Students will apply methods for organizing large amounts of information; solve problems involving probability and statistics; and carry out a culminating project that integrates statistical concepts and skills. Students will also refine their use of the mathematical processes necessary for success in senior mathematics.  
52 Hours  Fee: $755.00  
*An Academic Bridging Course. Please contact Undergraduate Admissions and Recruitment for details.*  

The quality of the course content, especially in marketing courses, have been exceptional. Instructors are often industry practitioners who bring amazing knowledge and real life examples, as well as bring together a variety of media to support learning.  

Student Comment - Chang School Student Survey 2013
**NEW**

Data Analytics: Advanced Methods  
**CKMT 105**

This course builds on the previous Basic Methods course and covers more advanced concepts including classification and clustering algorithms, decision trees, linear and logistic regression, time series analysis, and text analytics. The course will provide applied knowledge on how to analyze large-scale network data produced through social media. In this context, topics include network community detection, techniques for link analysis, information propagation on the web, and information analysis of social media.

39 Hours  
Fee: $755.00

**Linear Algebra**  
**CMTH 108**

Systems of linear equations, determinants, vectors, geometry, linear transformations, matrices and graphs, number fields, applications.

52 Hours  
Fee: $987.16

**Discrete Mathematics I**  
**CMTH 110**

This course covers the fundamentals of discrete mathematics with a focus on proof methods. Topics include: propositional and predicate logic, notation for modern algebra, naive set theory, relations, functions and proof techniques.

52 Hours  
Fee: $1065.44

**Mathematics for Professional Programs**  
**CMTH 125**

Basic Algebra, finite series, coordinate geometry, trigonometric functions, radicals and exponents, exponential and logarithmic functions, and a basic introduction to statistics.

52 Hours  
Fee: $1065.44

**Calculus and Computational Methods I**  
**CMTH 207**

Calculus of functions of one variable and related numerical topics. Derivatives of algebraic, trigonometric and exponential functions. Differentiation techniques and applications of derivatives. Techniques of integration, numerical integration.

*Note: It is recommended that students take OAC or Grade 12 U Calculus prior to taking this course.*

52 Hours  
Fee: $917.12

**Probability and Statistics I**  
**CMTH 304**

Prerequisite(s): CMTH 310 or MTH 240 or MTH 231

Topics include: Brief Introduction to Statistics. Description of Numerical Data. Elements of Probability Theory. Discrete Probability Distribution. (Hyper-geometric, Binomial, Poisson). Normal Distribution and its applications. Sampling Distributions. The t-distribution and the X²-distribution. Confidence Interval and Hypothesis Testing concerning the mean, variance and proportion of a single population. Confidence Interval and Hypothesis Testing concerning the mean and proportion of two populations, the F-distribution. SAS will be used in this course.

52 Hours  
Fee: $864.59

**Calculus and Computational Methods II**  
**CMTH 310**

Prerequisite(s): CMTH 207

Integration techniques, improper integrals, sequences, infinite series, power series, partial derivatives, maxima and minima.

52 Hours  
Fee: $917.12

**Probability and Statistics II**  
**CMTH 404**

Prerequisite(s): CMTH 304 or MTH 380

Antirequisite(s): MTH 480

Topics include: Multivariate Distributions. ANOVA one- and two-way. Simple linear regression models; multiple regression analysis including variable selection techniques; regression diagnostics, goodness of fit test. Non-linear regression. A statistics computer package may be used in this course.

39 Hours  
Fee: $579.28

**Introduction to Stochastic Processes**  
**CMTH 500**

Prerequisite(s): CMTH 404 or MTH 480

39 Hours  
Fee: $592.67

**Numerical Analysis I**  
**CMTH 501**

Prerequisite(s): CECN 230 or MTH 231 or (CMTH 108 and CMTH 310); Antirequisite(s): MTH 510

52 Hours  
Fee: $864.59
**NEW**

★ **Computational Methods In Mathematics**  
**CMTH 600**  
*Prerequisite(s): CMTH 501 or MTH 510*

Topics include: Statistical simulation of random variables and stochastic differential equations. Numerical solutions for partial differential equations, finite differences and finite-element methods. Optimization methods: linear programming, the simplex method and non linear programming. The Matlab software will be used in assignments as a numeric and symbolic tool.

52 Hours  
Fee: $864.59

★ **Financial Mathematics I**  
**CMTH 700**  
*Prerequisite(s): Prerequisite: CMTH 500*

Topics include: Introduction to the fundamental topics in financial mathematics including fixed income instruments and derivative pricing. Stochastic calculus, martingales and Ito's formula are the main modeling tools used in the course. Pricing and hedging for a wide range of option contracts and future derivatives are developed for several models and by means of analytical and numerical techniques.

52 Hours  
Fee: $864.59

★ **Financial Mathematics II**  
**CMTH 800**  
*Prerequisite(s): CMTH 700*

This course covers fixed income derivatives and the quantitative aspects of risk and portfolio management in modern finance. It introduces single factor interest rate models and pricing and covers analysis of risk measures and their properties, market, credit risk and an overview of other types of risks. The course also develops portfolio optimization techniques. Case studies and preparation for financial certification programs (FRM and PRM) are also included.

52 Hours  
Fee: $864.59

**MIDWIFERY**

★ **Aboriginal Childbearing**  
**CMWF 108**

This course investigates the realities and experiences of Aboriginal women and families during the childbearing year and how they are shaped by Aboriginal ways of knowing, being and living as well as the intergenerational effects of colonialism. Through a decolonized lens, students examine issues affecting health and wellness balanced with critical analysis around the role of Aboriginal midwives in their communities, working as allies, and providing culturally secure care and support.

39 Hours  
Fee: $593.70
MINING MANAGEMENT

Mining is an incredibly diverse sector, with more than 120 occupations ranging from skilled trades to high-tech professionals, including managers, financial analysts, environmental coordinators, and community developers. There is an urgent need in the mining industry for employees who have practical as well as theoretical skills such as project management, and who understand and have been exposed to real-world cases and simulations. This program will prepare students to work in a global environment and use cross-disciplinary skills to span the disconnects between science and business and community development and business. For more information, visit www.ryerson.ca/ce/mining.

Mining Management

Related certificate(s): Mining Management (pg. 78)

Resource Valuation, Financing, and Investor Relations

This course integrates skills in financial statement analysis, economic analysis, quantitative analysis, taxation, and the valuation of equity and fixed income securities within the context of the mining sector. Topics include interrelation of economic and market conditions, security valuation techniques, specific requirements of individual and institutional investors, development of suitable investment policies, ethical investing, construction of multi-asset portfolios, implementation of the plan, monitoring the profile, responding to changes, and measurement and evaluation of performance. 39 Hours Fee: $785.28

Risk Management and the Mining Sector

Prerequisite(s): CZMM 403 and CZMM 420

This course addresses the design and operation of a risk management system within the context of the mining sector. Management, investment, and hedging strategies are discussed, with specific consideration given to the measure of market risk, including commodity, credit, operational, environmental, and liquidity risks. The functional role of risk management professionals within an extractive sector firm is also reviewed, with emphasis on their function as designers and implementers of risk management policies, procedures, and practices. 39 Hours Fee: $785.28

Mining Management Accounting

Prerequisite(s): CZMM 403 and CZMM 420

Designed for mining sector majors who wish to have a greater foundation in accounting, this course introduces basic management accounting concepts to students in the context of the mining sector. Topics covered provide a good balance between the concepts and procedures used in accumulation and use of data by management accountants to facilitate planning and decision-making. Mining sector cost behaviours and their implications for planning, reporting to management, ethical accounting practices, and control are stressed. 39 Hours Fee: $785.28

Mining in the Global Environment

Prerequisite(s): CZMM 403 and CZMM 420

Intended for students who wish to expand their knowledge of mining management in an international setting, this course provides an overview of the global mining business environment. The political, economic, social, technological, environmental, and legal characteristics of the remote environment in which mining companies operate are addressed. There will be particular emphasis on the principles of sustainable development in international operations. 39 Hours Fee: $785.28

Related certificate(s): Mining Management (pg. 78)

CSR, Sustainability, and Mining

This course addresses the triumverate of the sustainability model - economy, society, and environment - in the context of corporate social responsibility in the mining sector. Students will be introduced to the challenges facing mining firms in balancing the economic sustainability of the firm with the need for long-term economic, social, and environmental benefits for the community in which they operate.

39 Hours Fee: $785.28

Exploration and Development Operations

Prerequisite(s): CZMM 403 and CZMM 420

The principle emphasis of exploration and development operations is the application of operations management theory (productivity, quality management, project management) to the mining sector. Topics include exploration methods, drilling engineering, reserves estimation and appraisal, production operations, safety and the environment, the role and importance of sustainable development in extractive sector operations, abandonment operations, and site rehabilitation. This course is intended for students who wish to be more familiar with the operations of extractive sector firms and will highlight operations from mining, oil and gas, and renewable energy projects.

39 Hours Fee: $785.28
Corporate Strategy in the Mining Sector  
**CZMM 500**

Prerequisite(s): Department consent

This capstone course addresses the practice and concepts of strategic management in the extractive sector using appropriate theoretical models and frameworks. Students examine the concept of strategy creation within the sector and the manner by which external and internal drivers influence strategic choice and implementation. Interwoven throughout the course are the concepts of stakeholder engagement, ethics, and corporate responsibility.

39 Hours  
Fee: $785.28

---

**NEUROSCIENCE**

The interprofessional Certificate in Advanced Neuroscience-Stroke Care offers health care providers the opportunity to develop an advanced understanding of evidence-based practices and research across the continuum of neuroscience and stroke client-centred care.

Neuroscience

Please visit [www.ryerson.ca/ce/neuroscience-stroke](http://www.ryerson.ca/ce/neuroscience-stroke) or see page 80 for information on the Interprofessional Certificate in Advanced Neuroscience-Stroke Care.

---

Critical Appraisal of Evidence  
**CVNS 600**

Prerequisite(s): Department consent

This course will provide interprofessional health care providers with an interest in a neuroscience-stroke specialty with the knowledge and skills required to critically appraise evidence to inform and apply findings to practice. Course content will be taught in the context of the interprofessional team and will be directly applicable to the delivery of patient-centered care. This course is designed to engage students in interactive, application-focused learning.

*Note: Ontario Telemedicine Network (OTN) Videoconference/Internet: Delivery of courses takes place via two-way videoconferencing systems at various site locations (dates and times - TBA) plus a mandatory weekly Internet component.*

39 Hours  
Fee: $745.11

---

Health Promotion Paradigms  
**CVNS 620**

Prerequisite(s): Department consent

This course is designed for health care professionals, health educators, as well as those with functional management responsibilities from all health disciplines interested in advancing health promotion, risk factor management and chronic illness prevention within the Ontario Stroke System. The purpose of this course is to develop core competencies in health promotion and prevention of transient ischemic attack and stroke in an interprofessional context across the continuum of stroke care.

39 Hours  
Fee: $745.11
Brain Structures and Cognition  
**CVNS 630**

Prerequisite(s): Department consent

This course provides an advanced knowledge of brain structure, function, consequences of brain injury, and related clinical applications for interprofessional neuroscience-stroke settings. The main focus of this course is on the organization of the human brain and the role of the brain in motor control, attention, language, memory, executive function, and emotion. The course is designed to engage learners in interactive, application-focused learning. Equivalent to PSY 434.

*Note: This course is only available to students registered in the Certificate in Advanced Neuroscience-Stroke Care.*

39 Hours  
Fee: $728.63

---

Neuro-Stroke Assessment  
**CVNS 640**

Prerequisite(s): CVNS 640

This course will provide information for the development of clinical core competencies and knowledge important in neuroscience-stroke assessment for complex stroke clients and their families. This course will promote the utilization of emerging best practice and evidence and will examine domains of neuroanatomy, neurophysiology, and assessment to support client, goal setting, care interventions, and complex stroke recovery decision making by inter-professionals practicing in the neuroscience stroke care continuum.

39 Hours  
Fee: $745.11

---

Client Stroke Rehabilitation Recovery  
**CVNS 650**

Prerequisite(s): CVNS 640

This course provides information for the development of clinical core competencies and knowledge in rehabilitative care, recovery and life re-engagement planning for complex stroke clients and their families. By promoting the use of emerging best practice and evidence in neuroscience-stroke care, this course will examine areas essential to the philosophy of stroke recovery, assessments for goal setting, current treatments, and care interventions for use by inter-professionals practicing in the neuroscience stroke care continuum.

39 Hours  
Fee: $745.11

---

Leadership in Stroke Care  
**CVNS 660**

Prerequisite(s): Department consent

This course establishes foundational knowledge of the theory research and practice of transformational and situational leadership important in inter-professional collaboration. Grounded in the realities within neuroscience-stroke care settings, students will examine the topics of power and influence, communication, diversity, conflict management, decision making and problem solving, team effectiveness, altering behaviour, and change management.

39 Hours  
Fee: $745.11

---

New Media

The following series of courses provides instruction that is relevant to new media production in business, in the communications industry, in architecture and interior design, and in education and the arts. Courses explore production concepts and the creative possibilities of composition, computer imaging, and many other aspects of new media.

**Equipment/Facilities Use:** Please note that equipment and facilities use outside of class time will not be provided.

---

**Combined Media**

Related certificate(s): Design for Arts and Entertainment (pg. 35), Film Studies (pg. 51), Image Arts (Film Studies, New Media, or Photography Studies) (pg. 67)

---

Visual Studies I  
**CMPC 101**

This course will deal with the fundamentals of expression and interpretation in the visual arts. Students will undertake applied exercises related to the elements and principles of composition and design. Completed projects will be critiqued with reference to traditional and contemporary design issues. The course's main setting is the studio, where a variety of materials and approaches are explored.

*Note: Supplies and materials to be purchased by the student: A list of supplies and materials required will be given to students after the first class. Cost approximately $70.*

39 Hours  
Fee: $639.02

---

Art and the Classical Tradition  
**CMPC 103**

This course examines the evolution of Western Art from its origins in pre-historic times to the early 19th century. Issues and context considered include: aesthetics and antiquity; classical revivals of the Renaissance; Neo-Classicism; art in the service of religion in Medieval and Baroque Europe; and the birth of individualism during the Enlightenment and the Romantic periods. (Formerly first half of MPC13AB).

39 Hours  
Fee: $639.02

---

Concepts and Theories  
**CMPC 201**

This lecture course introduces the concepts and theories that animate visual work in all media and forms, providing a foundation for students embarking upon their studies in the culture industries. It offers theoretical, historical and cross-disciplinary perspectives, and is designed to establish a framework of knowledge that will enhance understanding of the cultural and technical power and limitations of various media.

39 Hours  
Fee: $639.02

---

Certificate and degree credit  
Degree credit  
Certificate credit  
Course series
**Art in the Modern World**  
*CMPC 203*  
Prerequisite(s): CMPC 103

This course provides a contextual survey of 20th century art in the West from its roots in 1900s to its proliferation of styles in the 1960s. The modernist ideologies inherent in movements such as Conceptualism, Feminism and Postmodernism will also be examined, as will the impact of burgeoning digital technologies. (Formerly second half of MPC13AB).

39 Hours  
Fee: $639.02

**Introduction to Web Presentation**  
*CDNM 109*

Students develop a public presentation strategy that includes designing and constructing a web page featuring their student work or business profile. Students produce a printed poster using text, graphics, and manipulated images. By conducting creative, technological, and academic research, students gain an introduction to Adobe Photoshop, Dreamweaver, and Flash animation, as well as basic HTML5 and CSS3. Design and usability concerns will be discussed and students will learn to apply these concepts to their work. Equivalent to MPM 107.

39 Hours  
Fee: $633.87

**Introduction to Interaction Design**  
*CDNM 121*

Students will learn core programming skills using Processing (an open source platform) to generate dynamic images with the goal of creating interactive experiences. This course introduces students to data-based and code-based practice. Students will examine behavioural media and how to design for it and develop their own artistic and thematic concerns through projects. Emphasis will be placed on finding and creating structure and meaning in new media experiences. Equivalent to MPM 207.

39 Hours  
Fee: $633.87

**Flash for New Media**  
*CDNM 209*

Students will use Flash and Action Script to create an algorithmic design, animation, and a dynamic interface. This studio class introduces students to fundamental concepts, techniques, and strategies of computer programming as an art form by teaching how to code interactive programs. The course investigates the interplay between creative expression and technological capability. Equivalent to MPM 206.

39 Hours  
Fee: $633.87

**Video and Audio for New Media**  
*CDNM 221*

This studio class introduces students to fundamental concepts, techniques, and strategies for video production. Project development and production, media literacy, reflective thinking, and public presentation strategies are aimed at creating a strong foundation in media. Video and audio production formats for the web will be examined. Equivalent to MPM 106.

Note: Supplies to be purchased by the student: $50–$100; details will be provided at the first class.

39 Hours  
Fee: $633.87

**Introduction to Physical Computing**  
*CDNM 322*

This course introduces students to the conceptual and technical concerns associated with making physical and hybrid experiences. Students will use open source software (Processing) and hardware (Arduino) to develop works that span the gap between virtual and physical worlds. (Equivalent to MPM 308.)

Note: Knowledge of scripting or coding is an asset. Supplies to be purchased by the student: $50

39 Hours  
Fee: $610.18

**Advanced Media and Design Topics**  
*CFPN 542*

This course allows students to explore ideas, applications and projects in emerging and interdisciplinary media. It is open to students in all programs, and collaborative project ideas will be encouraged. Students will be active participants in the research, design, and development of selected multi-platform and interactive networked projects.

39 Hours  
Fee: $626.66

**Co-Operative Internship**  
*CFPN 547*

This course will give students the opportunity to work in professional production situations and settings which will provide them with professional experience with the medium/media of choice. Internship contacts will be the responsibility of the student. All internships are subject to departmental approval in advance.

39 Hours  
Fee: $626.66

**Media Studies**

**New Media**

These courses may be taken as individual courses for professional or personal development. Related certificate(s): Image Arts (Film Studies, New Media, or Photography Studies) (pg. 67)

The Chang School has created these distinctive, interdisciplinary program offerings in response to the demand for education that focuses on the specialized needs of the sector. For more information, visit www.ryerson.ca/ce/nonprofit.

### Nonprofit

**Related certificate(s):** Advancing the AODA: Principles and Practices of Accessibility (pg. 16), Community Engagement, Leadership, and Development (pg. 29), Entrepreneurship and Multiculturalism (pg. 44), Fundraising Management (pg. 56), Nonprofit and Voluntary Sector Management (pg. 82), Nursing Leadership and Management, Advanced (pg. 83)

#### ★ Understanding the Nonprofit Sector  CINP 900

This course provides students with critical insight into the origins and the ideological, social, political, legal and economic contexts of the rapidly changing nonprofit and voluntary sector allowing them to grasp the complexity, diversity and challenges facing nonprofit organizations today. Topics include: defining the scope and nature of this sector; the welfare state and the role of the non-profits; the political and legal operating environment of non-profits; and understanding the changing ideological and economic landscape.

39 Hours  Fee: $579.28

#### ★ Developing Effective Organizations  CINP 901

The emphasis in this course, is on developing approaches that both employees and volunteers in nonprofit organizations can use to deal effectively with the issues facing their organizations. The course explores principles and practices of management and administration as they are adapted to board-staff relations, board governance, recruiting and motivating volunteers, human resource management, accountability, organizing for and managing growth and change, analysis of an organization’s market and organizational strategic planning.

39 Hours  Fee: $579.28

#### ★ Program Evaluation  CINP 902

In the current climate of increased demands for public accountability, nonprofit organizations need to develop sound program planning and evaluation skills. Both funding and public demands for internal and external accountability at the program and organizational levels will be explored. This course will focus on the development of knowledge and skills to plan and evaluate programs and services in a variety of human service organizations. Topics include models of evaluation and strategies for assessing accountability.

39 Hours  Fee: $579.28

#### ★ Strategic Planning  CINP 910

Setting measurable objectives and building plans at the organizational level is difficult for non-profits, but essential to address growing demands for accountability. This course teaches students how to develop and present annual goals and strategic plans for internal and external audiences. It also examines the ongoing process of adjusting strategic plans to ensure the organization achieves its annual objectives. Topics covered include mission statements, environmental analysis, goal formulation, strategic options, and organizational level evaluation.

39 Hours  Fee: $591.64

#### ★ Advocacy and Governmental Relations  CINP 911

Voluntary and nonprofit organizations need to advocate effectively on behalf of their constituencies and their organization. The course provides hands-on, applied training that will enable those working in the third sector to advocate and lobby effectively on behalf of their specific constituency, and also as part of broader coalitions (social movements) for change. Topics include influencing the public policy process, identifying and accessing government bodies and resources, developing effective public and government relations strategies.

39 Hours  Fee: $591.64

#### ★ Marketing for Nonprofit Organizations  CINP 912

Antirequisite(s): CMKT 100

When an organization understands its various audiences and employs the right tactics to reach them, it can achieve positive results including: increased government funding and supportive regulatory environments, generous philanthropic support, motivated staff and volunteers, and informed and responsive clients. This course provides students with a clear understanding of the role of marketing in a nonprofit setting, including its impact on fundraising, client services, government relations and volunteer management.

39 Hours  Fee: $591.64

#### ★ Leading Through Change  CINP 913

Antirequisite(s): CMHR 650

Societal transformations affecting the nonprofit sector today are so fundamental that they demand new models of action. This course provides tools to plan for changes necessitated by economics and political restructuring, emerging informational technologies and increasing demographic diversity. Topics include environmental scanning, organizational diagnosis, planned change strategies, managing transitions, overcoming resistance, mobilizing commitment among volunteers, and changing the organizational culture. The role of leadership will be underlined throughout with reference to several different leadership theories.

39 Hours  Fee: $591.64

★ Certificate and degree credit ★ Degree credit ○ Certificate credit ★ Course series
Issues of Diversity  CINP 914

Antirequisite(s): CINT 905 and CSWP 924

The challenges facing organizations today require management, staff, and volunteers to work together collaboratively. Developing effective problem-solving skills and understanding group dynamics is key to addressing issues of diversity, change, and conflict. This course will explore diversity as it relates to patterns of communication, dynamics of team function, volunteer and staff recruitment and development, and various approaches to team building. Teaching practical skills will be a key component in this course.

39 Hours  Fee: $591.64

Financial Management  CINP 915

It is essential for those working in the nonprofit sector to understand the competitive funding environment in which they operate. Students will gain understanding of the fiscal environment, including discussions of different funding sources and mechanisms, financial information systems, and budgetary priorities and processes. This course also provides students with the financial analysis tools required to use the budgetary and financial information relevant to public and para-public organizations, as well as developing reporting and evaluation skills.

39 Hours  Fee: $579.28

NGOs and World Governance  CINP 916

This course investigates the expanding role of Non Governmental Organizations (NGOs) in the creation and implementation of public policy at a global level. It addresses the evolution of international NGOs (INGOs) as significant actors on the policy stage. The course analyses these organizations, with particular emphasis on the diversity of organizations, the types of activity in which they are engaged, and how their structures and activities have combined to increase their role in global governance.

39 Hours  Fee: $582.37

Critical Issues in the Third Sector  CINP 920

Prerequisite(s): CINP 900 and CINP 901 and CINP 902

Critical Issues in the Nonprofit and Vol. Sector. Changing its focus each year, this course offers students opportunities to identify and explore current issues relevant to their own organizations and areas of interest. It presents students with a chance to examine critical issues in far greater depth than would normally be the case. Students will conduct guided research, applying theory to practice, in an area of their choosing.

39 Hours  Fee: $579.28

Performance Measurement Fundamentals  CVNP 150

This workshop will focus on performance measurement in the private, public, and non-profit sectors. Topics include best practices in defining, monitoring, and using objective indicators of the achievement of an organization’s goals and targets. Similarities and differences in performance measurement in the public and private sectors and in for-profit and nonprofit organizations will be reviewed. Other topics include the execution of performance measurements and governance and performance measurement cycle; engaging stakeholders.

6 Hours  HST included  Fee: $161.71
The G. Raymond Chang School of Continuing Education, in cooperation with the Daphne Cockwell School of Nursing, has been highly responsive to the needs identified by nurses for high-quality, accessible, degree-level educational opportunities. Credit courses are offered in three categories:
(a) degree-credit professional courses selected from the BScN program,
(b) prerequisite and professionally related elective arts courses, and
(c) specialized credit electives in the Certificate in Advanced Nursing Leadership and Management.

More information and resources are available online at www.ryerson.ca/ce/nursing, including room numbers, regional access centre locations, course outlines, information on the 19- and 30-month part-time degree in Nursing, and the Nursing Academic Planner.

Please note that all nursing courses involve computer use. Students require access to a computer with Microsoft Windows (Windows 2003 minimum) and Internet Explorer.

Nursing
Related certificate(s): Health Services Management (pg. 62), Nursing Leadership and Management, Advanced (pg. 83)

Nursing Practice I  
Prerequisite(s): CNUC 832, CNUR 600, CNUR 805, CPHL 302 and [(CNUR 850 and CNUR 860) or NUR 80B]  
Corequisite(s): CNUR 810 and CNUR 833

This is the first of two clinical courses in which the students will use nursing and other theorists to guide their practice. Students will apply teaching-learning, communication, health promotion and community health principles when working with individuals, groups and families in community-based settings. Students will practice culturally sensitive, creative and flexible nursing. Emphasis will be placed on critical thinking, self reflection, utilization of research findings and the application of concepts from leadership and change.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

208 Hours  
Fee: $1180.80

Nursing Practice II  
Prerequisite(s): CNCL 700  
Corequisite(s): CNUR 820 or CNUR 823 or CNUR 824 or CNUR 825 or CNUR 826 or CNUR 827 or NUR 828

This clinical course will provide students with the opportunity to consolidate program and course learnings. Using theoretical approaches that are relevant to the practice setting, students will assume responsibility for more complex assignments expected of a beginning level baccalaureate graduate. Critical thinking and reflective practice will be key components of this course. Emphasis will be placed on the multiplicity of nursing roles in hospital and community settings. Students may apply theory from their nursing elective in the final practice setting. Clinical group meetings will be scheduled throughout the term.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory. Registration also requires submission through the Central Placement Office several months prior to actual enrollment date.

208 Hours  
Fee: $1180.80

Community Nursing  
Prerequisite(s): CNUR 816 and CNUR 830  
Corequisite(s): CNUR 600

This course will focus on the role of the community health nurse in working with individuals, families and communities and populations. It will examine in detail current frameworks of illness prevention, health promotion and community development. Nursing roles in a variety of health promotion approaches will be examined. These will include the medical approach, behavioural change strategies, educational strategies, empowerment and advocacy, and social change related to socio-economic environment. The theoretical concepts will be linked to a discussion of current examples of community health programs and research.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

39 Hours  
Fee: $597.82
☆ Epidemiology: Major Health Problems  CNUR 600
Prerequisite(s): CNUR 850; Corequisite(s): CNUR 860
In this course students will examine the principles and methods of epidemiology and apply these to selected populations. Major health problems across the lifespan and recommended intervention strategies will be explored from a primary, secondary and tertiary perspective. How the nurse applies knowledge of epidemiology, when working with individuals, families and communities, will be examined. Current literature and research findings will be utilized to direct discussion and analyze issues.
Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.
39 Hours Fee: $591.64

☆ Health Assessment  CNUR 816
This course provides the student with knowledge and skill in the area of health assessment across the lifespan. Content will focus on interviewing, the health history, mental status, cultural beliefs and values, physical assessment of body systems, and will include trans-racial considerations. Assessment of the family, as well as domestic violence screening and assessment are incorporated.
Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

☆ The Evolution of Theoretical Knowledge  CNUR 805
In this course, the student will explore the philosophical evolution of nursing knowledge as an art and a science. Using a transformation theory base, the student will analyze a variety of nursing theories, concepts, and models, and the root of her/his own perspective of nursing practice. Major emphasis will be placed on the use of a theoretical framework to direct the processes of assessment, clinical judgment, care planning and evaluation. The interrelationship of systems theory and nursing theories, and their application to practice is examined.
Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.
52 Hours Fee: $788.37

☆ Gerontological and Geriatric Nursing  CNUR 820
Prerequisite(s): (CNUC 832 and CNUR 805 and CNUR 816) or (NSE 32B and NSE 31B and CNSE 407 and NSE 306)
Corequisite(s): NSE 418 or CNCL 800
This course will give students an opportunity to expand their knowledge and skill related to the promotion, maintenance, and restoration of health of the elderly client and family in institutional and community settings. Assessment of the physical and psychosocial well-being of elderly clients, their families and plans of care based on nursing theory will be presented. Current research findings in nursing and related fields will be presented and discussed.
Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

☆ Concepts in Contemporary Nursing Practice  CNUR 810
Prerequisite(s): CNUR 832 and CNUR 850 and CNUR 860
The focus of the course is to analyze, and apply theory and contemporary concepts associated with health and illness, health care delivery, and family development though the lifespan. Discussion will involve individuals and families with a focus on contemporary nursing practice at primary, secondary, and tertiary levels. Examples of concepts to be explored are: client-nurse diversity, self-care, and care-giver burden, chronic illness, resilience, and powerlessness.
Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.
39 Hours Fee: $591.64

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
☆ Adult Health
CNUR 823
Prerequisite(s): (CNUC 832 and CNUR 805 and CNUR 816) or (NSE 32B and NSE 31B and CNSE 407 and NSE 306)
Corequisite(s): NSE 418 or CNCL 800

This course provides opportunities for study and integration of pathophysiological and nursing concepts related to the impact of acute and traumatic conditions on individuals and families across the life span. Emphasis will be placed on assisting students to develop advanced assessment skills and complex interventions. Example of populations include clients experiencing multiple trauma, advanced stage of HIV infections, burns, organ transplants, acute cardiac, respiratory and neurologic episodes.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.

39 Hours
Fee: $579.28

☆ Women's Health
CNUR 824
Prerequisite(s): (CNUC 832 and CNUR 805 and CNUR 816) or (NSE 32B and NSE 31B and CNSE 407 and NSE 306)
Corequisite(s): NSE 418 or CNCL 800

This course will provide students with opportunities to develop a depth and breadth of knowledge and skills in the nursing care of women with a variety of health and illness related issues. The course will examine issues of importance to women's health in the context of family, work and recreation. The theoretical and research literature will be examined relating to issues such as: women and body image, women and infertility, women and aging, women as health care providers, and women and stereotyping in society. Students will be encouraged to examine nursing's role with the interdisciplinary team in a variety of health care settings, addressing the needs of women. Students will be expected to demonstrate application of concepts.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.

39 Hours
Fee: $575.16

☆ Family Health
CNUR 825
Prerequisite(s): (CNUC 832 and CNUR 805 and CNUR 816) or (NSE 32B and NSE 31B and CNSE 407 and NSE 306)
Corequisite(s): NSE 418 or CNCL 800

Through this course, students will examine issues relevant to families in various life transition stages. Most particularly, students will have opportunities to develop a depth and breadth of knowledge and skills and apply these while working with families in the child rearing or child bearing phases. Issues relevant to beginning, developing and intergenerational families will be addressed using theoretical literature and recent research in family nursing science. Focus will be on advanced nursing practice with the family as context and family as client. Students will be expected to demonstrate application of concepts.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

The scheduling of this course reflects the classroom instruction. In addition, students are required to participate in a weekly Internet component.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.

39 Hours
Fee: $579.28

☆ Community Mental Health
CNUR 826
Prerequisite(s): (CNUC 832 and CNUR 805 and CNUR 816) or (NSE 32B and NSE 31B and CNSE 407 and NSE 306)
Corequisite(s): NSE 418 or CNCL 800

This course will provide students with opportunities to develop a depth and breadth of knowledge and skill in the practice of mental health nursing in community settings. There will be an emphasis on development of comprehensive assessment skills, the principles of psychiatric rehabilitation, case management, and interdisciplinary teamwork skills. Using selected examples of current community initiatives, theoretical literature and research findings, students will have an opportunity to discuss a variety of models and resources that support clients and families. Discussion and analysis of current mental health reform issues and other relevant health policies and legislation will be included.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.

39 Hours
Fee: $579.28
End of Life Care  CNUR 827
Prerequisite(s): (CNUC 832 and CNUR 805 and CNUR 816) or (NSE 32B and NSE 31B and CNSE 407 and NSE 306)
Corequisite(s): NSE 418 or CNCL 800

This course will provide students with opportunities to develop depth and breadth of knowledge and skills in the nursing care of clients/patients and families at end of life. The course will examine paradigms that link traditional and non-traditional models of palliative and hospice care to the broader and deeper context of advanced illness in all developmental stages of life and living. The theoretical and research literature will be examined relating to issues such as: diversity of culture, gender, disability, spirituality, physical and psychosocial needs, rural vs. urban health care settings. Current research findings in nursing and related fields will be presented and discussed. Students will be encouraged to examine nurses’ role with the interdisciplinary team. Students will be expected to demonstrate application of concepts.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Current Issues and Future Perspectives  CNUR 830

This course will examine the legal, political, economic and social complexities of current health care delivery systems. Current issues and future perspectives in health care will be critically analyzed in relation to their implication for and their influence on the organized profession, individual nurses and nursing practice. Students will be expected to take personal and professional action in addressing some of these issues through their use of the political process and in the application of research finding. At a beginning level, students will participate in the development of health and social policy.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Leadership Development for Practice  CNUR 831
Prerequisite(s): CNUR 830

This course will focus on the nurse’s role in providing leadership and facilitating change in both personal and professional contexts. Content will include analysis of theory and concepts related to leadership, followership, change and effective communication within a diverse workforce. The impact of Informatics on the delivery of nursing and health care will be explored. The use of research findings and their application to practice will be emphasized. Students will be expected to identify and apply leadership strategies for personal development and professional practice.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Organizational Context of Practice  CNUR 833
Prerequisite(s): CNUR 831

This course expands students’ knowledge of the macro, meso and micro-level factors in the health care system impacting service delivery and professional practice. Students critically analyze forces in the internal and external operating environments influencing strategic management decisions and organizational behaviours. This analysis fosters an enhanced understanding of the broad contextual factors shaping nursing roles and influencing how nurses enact their roles within different health service organizations and settings.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.

39 Hours  Fee: $591.64

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Research Methods  

CNUR 850  

Corequisite(s): CNUR 805  

In this course students will examine the contribution of research to the development of nursing science. They will explore the relationships between research and knowledge; and theory and practice. The focus will be on understanding the components of the research process, in the positivist and naturalist paradigms, as well as mixed methods designs. Students will use computer technology to search the nursing and health-related literature. The ethical conduct of research will be addressed. Students will learn to interpret and critically appraise nursing research studies, applying research findings to practice, and identifying areas for further nursing research.  

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.  

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.  

39 Hours  

Fee: $579.28

Statistics and Nursing  

CNUR 860  

Prerequisite(s): CNUR 850  

In this course the emphasis is on the preparation of statistical data, its analysis and interpretation within the context of the positivist research paradigm in nursing research. Descriptive and inferential statistics will be examined and utilized, from nursing research databases. Students will use computer technology to process numerical data and conduct statistical analyses. Strategies for critically reviewing, integrating and disseminating statistical findings from nursing research will be discussed as well as the implications of the findings for nursing practice.  

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.  

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times. The end dates for these sections have been adjusted to accommodate this requirement. Details will be provided at the start of each course.  

39 Hours  

Fee: $579.28

University Skills for Nurses  

CVNU 101  

The purpose of this workshop is to provide nurses entering Post-RN BScN degree studies with an introduction to the basic scholarly skills required for success in university level education. Topics include the basic steps for writing university essays and using APA format; networking and learning with others through computers; classroom presentation skills; library article searches online; and time management skills for busy nurses returning to school.  

Note: This is a non-credit workshop.  

16 Hours  

Fee: $88.13

Material Fee: A material fee of $15 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

CRNE Preparation Workshop  

CVNU 110  

This workshop prepares nurses to write the Canadian Registered Nursing Examination (CRNE). It will provide an overview of the CRNE exam design; promote problem-solving and critical-thinking skills using clinical simulation activities; and promote exam-taking strategies by offering mock multiple-choice exams. The simulated activities will be derived from different practice areas, including maternal health, paediatrics, mental health, palliative, and medical-surgical care.  

Note: For workshop details, including instructor biographies, see Canadian Registered Nurse Examination (CRNE) Preparation Workshops on the Chang School website at www.ryerson.ca/ce/nursing. The first day of the workshop can be accessed by webinar.  

This workshop is a combination of CVNU 111 and CVNU 112, offered at a cost-saving rate.  

24 Hours  

HST included  

Fee: $432.60

CRNE Preparation Workshop I  

CVNU 111  

Prerequisite(s): Department consent  

This is Part 1 of the CRNE Preparation Workshop and is designed to assist nurses to prepare for the Canadian Registered Nursing Examination (CRNE). The session provides nurses with an overview of the CRNE exam design and identifies strategies for creating an effective eight-week study plan. Participants will also have an opportunity to write a one-hour mock exam and review their results.  

Note: For workshop details, including instructor biographies, see Canadian Registered Nurse Examination (CRNE) Preparation Workshops on the Chang School website at www.ryerson.ca/ce/nursing.  

This workshop can be accessed on campus or via live webinar.  

8 Hours  

HST included  

Fee: $103.01
CRNE Preparation Workshop II CVNU 112
Prerequisite(s): CVNU 111

This workshop is designed to augment the strategies introduced in CVNU 111 to assist nurses preparing to write the CRNE exam. This workshop includes in-class learning designed to promote problem-solving and critical-thinking skills through multiple-choice exam examples and simulated clinical activities. The simulated activities will be derived from different practice areas, including maternal health, paediatrics, mental health, and medical-surgical care. Learning is further supplemented by online learning modules.

Note: For workshop details, including instructor biographies, see Canadian Registered Nurse Examination (CRNE) Preparation Workshops on the Chang School website at www.ryerson.ca/ce/nursing.

16 Hours HST included Fee: $360.49

Paediatric Health Assessment CVNU 280
Prerequisite(s): CNUR 816 or NSE 13B and Department Consent

This course provides students with the knowledge and skills necessary for the health assessment of infants, children, and adolescents. Physical assessment techniques will be addressed across all paediatric developmental stages. Assessment of pain, nutritional status, mental health, and psychosocial needs will also be incorporated. Implications of cultural diversity and the determinants of health for the assessment of child and family will be considered.

Note: It is strongly recommended that students have previous experience in a pediatric environment.

Successful completion of a university Health Assessment course may be accepted as equivalent to the course prerequisite. The scheduling below reflects the online component only. In addition, participants must participate in an on-site skills integration workshop at Sick Kids Hospital in Toronto, Ontario (date to be announced).

For more information, please see www.ryerson.ca/ce/paediatric.

51 Hours Fee: $744.08

★ Health and Social Policy CVNU 317

This course explores the definition of policy, and its contexts, development, and effects at the community, professional, corporate and government levels. It introduces concepts related to policy content, process, outcome, and analysis and it investigates the nurse’s role in policy development. The relationship between health and social policy to people, their environments, their health, and nursing is addressed through critical analysis, discussion, small group process, expert guest presentation, and independent study. Case studies relating to current health and social policies will also be reviewed in the classroom setting. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Students enrolled in Internet sections of this course are required to write the course test and/or exams online at preassigned dates and times that may vary or extend past the scheduled course end date. Details will be provided at the start of each course.

39 Hours Fee: $579.28

★ Health Law CVNU 320

The objective of this course is to give students an understanding of the components of negligence actions, labour arbitrations, discipline proceedings, and inquests. The relationship between standards of practice, ethics, and different legal proceedings will be reviewed. Particular emphasis will be given to the impact of the intervention by nurse managers on the development and outcome of the case. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

39 Hours Fee: $591.64
Financial Management  CVNU 321

This course will examine the financial strategies and processes used by health care institutions and agencies to manage their human and material resources. The specific mechanisms used by hospitals to develop and monitor their budgets as well as trends in reimbursement and management information systems will be reviewed. Basic accounting principles will be included to facilitate examination and use of financial statements and balance sheets. Considerable time will be devoted to reviewing the concepts related to staffing, budgeting, and monitoring to assist the student to develop a budget for a prototype nursing unit. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

39 Hours  Fee: $579.28

Quality of Life: The Client's Perspective  CVNU 324

This course focuses on exploring the knowledge and skills required to form genuine partnerships with individuals, families, and groups. Patient stories and qualitative research findings about quality of life, as a lived experience, will provide opportunities for students to critically reflect on the values that guide practice and the nurse-person relationship. Thinking consistent with human science will instruct students as they synthesize the literature on quality of life and explore their participation in partnership with clients. Equivalent to Nursing Elective: Special Topics in the BScN program.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

39 Hours  Fee: $591.64

Advanced Leadership and Management  CVNU 360

Prerequisite(s): Department consent

This course will build on core components of nursing leadership and management, with a specific focus on first-line management roles, using the LEADS in a Caring Environment Framework. Students will examine theories and concepts related to leadership capabilities, as well as develop management knowledge and skills. Applied learning methodologies will be used to develop students' self-reflective, analytical leadership, and management skills.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Applicants must complete an application for pre-approval prior to registering in this course, see the Chang School website at www.ryerson.ca/ce/nursing.

39 Hours  Fee: $601.94

Change and Innovation  CVNU 370

Prerequisite(s): CVNU 360 and Department Consent

This capstone course is an integrative course that provides the opportunity for students to apply the LEADS framework and related theories and concepts in a health services setting. Students will plan a change and/or innovation project based on a selected nursing leadership/management issue. A project report will be completed to provide evidence of the application, synthesis, and integration of the dimensions of the LEADS framework, as well as the individual student's focus of study for the certificate.

Note: In order to take this course, you must be a Regulated Registered Nurse (RN) and have a registration/licensure with a College of Nurses in a Canadian province or territory.

Applicants must complete an application for pre-approval prior to registering in this course, see the Chang School website at www.ryerson.ca/ce/nursing.

39 Hours  Fee: $601.94
NUTRITION

These courses enhance knowledge of nutrition in related fields of study.

Nutrition

Related certificate(s): Food Security (pg. 54)

★ Nutrition for Nursing Practice CFNN 111
This course introduces nutrition as one of the interrelated determinants of health and examines both the role of environments and the importance of individual self-determination and self-knowledge in health promotion. The topics covered will include the basics of healthy eating, macro- and micronutrients, nutrition assessment, and nutrition principles through the lifespan. Student participation will entail group learning, self-assessment and self-reflection.

39 Hours  Fee: $597.82

OCCUPATIONAL HEALTH AND SAFETY

These courses may be completed by distance education as well as in the classroom. For more information, visit www.ryerson.ca/ce/ohs.

Occupational Health

Related certificate(s): Advanced Safety Management (pg. 15), Advancing the AODA: Principles and Practices of Accessibility (pg. 16), Facility Management (pg. 48), Occupational Health and Safety (pg. 85)

★ Foundations of Aetiology CENH 222
This is a foundation course to the study of epidemiology, which itself is the core science of occupational and public health. The course will provide the framework required for upper level courses in communicable disease control, infection control and food hygiene. Lectures will cover the concepts underlying food and water quality control and the development and control of communicable and occupational diseases in human populations. Laboratory exercises will enable students to understand the methods used by public health and occupational health laboratories to evaluate food, water, environmental and clinical specimens, and to interpret laboratory reports.

65 Hours  Fee: $923.30

★ Occupational Health and Safety Law COHS 208
Antirequisite(s): CMHR 711
This course begins with an examination of the Workplace Safety and Insurance Act and how the compensation system operates. An emphasis is placed on a detailed examination of the Occupational Health and Safety Act and the Canada Labour Code Part 2. A thorough analysis of the elements of the Internal Responsibility System is provided (duties, committees, work refusals). Secondary federal and provincial legislation is also covered. The course concludes with issues related to enforcement, prosecutions and due diligence.

Note: COHS cannot be replaced by CMHR 711 as a course credit towards the Certificate in Occupational Health and Safety.

39 Hours  Fee: $595.76
**Accident Theory and Analysis**  
**COHS 323**  
Prerequisite(s): CPC 106 or in OC006

This course examines accident causation theories and methods used to model accidents, the investigation process, accident reporting and coding, and noteworthy accidents in history.  
*Note: Prerequisites apply to undergraduate students only. Chang School students without the course prerequisites must enroll by fax. Please print and fill out a Mail-In Enrollment Form and fax the form, including your credit card number and expiry date, to: Client Support, The G. Raymond Chang School of Continuing Education, Ryerson University, Fax Number: 416.979.5196.*

39 Hours  
Fee: $584.43

**Integrated Disability Management**  
**COHS 477**

This course explores the key concepts of Integrated Disability Management. A multi-disciplinary approach to managing all forms of disability will be put forward based on sound best practice disability management techniques. Government legislation and regulations will be reviewed as well as the influence of non-governmental organizations. Multiple models of disability management will be presented. The assessment and evaluation of various return to work processes will be undertaken development and implementation. This course replaces OHS (COHS) 777.

39 Hours  
Fee: $584.43

**Occupational Health**  
**COHS 508**

This course is designed to introduce the student to the scientific basis of occupational health, specifically the relevant principles and concepts of toxicology, biophysics and ergonomics. The nature of common occupational health hazards and their effect upon the human body are examined. Examples of common protective measures and controls are also reviewed. This course is not available to students in OC001, OC003, or OC005.

39 Hours  
Fee: $584.43

**Ergonomics**  
**COHS 516**  
Prerequisite(s): ENH 220 and CPC 106 or in OC006

This course is designed to provide a comprehensive overview of ergonomics emphasizing applications to product design and prevention of musculoskeletal injuries. The focus includes anthropometry, workplace design, and biomechanical and other human factors. It also covers physical and cognitive principles relevant to human performance and well-being that are reflected in workspace, interface and task design including controls and displays and manual materials handling. Ergonomic assessment methodologies will be used to assess design features and possible musculoskeletal problems.  
*Note: Prerequisites apply to undergraduate students only. Chang School students without the course prerequisites must enroll by fax. Please print and fill out a Mail-In Enrollment Form and fax the form, including your credit card number and expiry date, to: Client Support, The G. Raymond Chang School of Continuing Education, Ryerson University, Fax Number: 416.979.5196.*

39 Hours  
Fee: $575.16

**Safety Evaluation Techniques**  
**COHS 523**  
Prerequisite(s): CMTH 125 and CPC 106

This course introduces principles of evaluation and surveys a range of methods used to evaluate safety, including the use of injury data, task analysis methods, goal structuring notation and safety cases, and introduces various qualitative and quantitative methods for evaluating safety including inspections, FMEA, fault tree analysis, HAZOP, human error identification methods, and related evaluation techniques.  
*Note: Prerequisites apply to undergraduate students only. Chang School students without the course prerequisites must enroll by fax. Please print and fill out a Mail-In Enrollment Form and fax the form, including your credit card number and expiry date, to: Client Support, The G. Raymond Chang School of Continuing Education, Ryerson University, Fax Number: 416.979.5196.*

39 Hours  
Fee: $575.16

**Hazard Recognition and Control**  
**COHS 608**

This course introduces the techniques of hazard recognition and control and examines specific hazards—primarily of a physical and safety nature. Hazard recognition and hazard control are shown to be interrelated since inadequacies of control measures in themselves may constitute hazards. Not available to students in OC003 or OC006.  
*Note: This course is not open to ENVO, ENVS, or ENVC students.*

39 Hours  
Fee: $595.76

**Safety Control Methods**  
**COHS 623**

Building upon earlier courses emphasizing hazard recognition and evaluation, this course examines the major categories of control methods, respiratory protective devices and measures essential to eliminate or reduce workplace hazards. The course emphasizes plant design, ventilation design, preventive maintenance, housekeeping, respiratory personal protective equipment and hygiene.

52 Hours  
Fee: $757.47

**Systems Management I**  
**COHS 718**

Basic concepts of management, decision-making and engineering design that affect the OHS specialist. Introduces individual elements of the contemporary OHS management system. Each element is considered from an evidence-based perspective, as a background for implementing codified management systems standards and best practices guidelines. Students will set health and safety priorities, develop management system plans, and negotiate health and safety requirements in the manufacturing, distribution, use, and/or disposal phases of a product or process life-cycle.  

39 Hours  
Fee: $579.28
### Sectoral Applications I  
**COHS 723**
This course is concerned with two of the primary sectors of the economy: industrial and construction. The safety hazards and protective measures associated with machinery, equipment and tools, confined spaces, hoists, trenching, industrial trucks and electrical sources are examined. Relevant legislation is presented.

52 Hours  
Fee: $763.65

### Seminars  
**COHS 810**
Prerequisite(s): OHS 311

This course will examine a selection of topical issues drawn from the fields of Occupational Health and Safety. Each topic will be presented by a person or persons actively involved in the subject, and the discussions that follow will utilize small or large group as appropriate.

39 Hours  
Fee: $584.43

### Systems Management II  
**COHS 818**
Prerequisite(s): COHS 718

This course continues the theme of OHS 718, offering exposure to further programs and components of a mature, comprehensive OHS system in the workplace. Programs covered include those concerning: health and safety management systems, workers’ compensation, re-employment of injured workers, workplace violence, vehicles/transportation, off-the-job health and safety, “wellness,” substance abuse, labour relations, and regulatory compliance.

39 Hours  
Fee: $591.64

### Sectoral Applications II  
**COHS 823**
Prerequisite(s): COHS 723

This course continues the survey undertaken in OHS 723 Sectoral Applications I. Following an analysis of the particular hazards and control measures found in the forestry, mining and transportation industries, the course focuses on narrower sectors of the economy such as health care facilities, retail outlets, offices and utilities.

52 Hours  
Fee: $763.65

### Measurement and Analysis  
**CVOH 217**

This course is designed to introduce the terminology, concepts, equipment, and techniques of occupational health and safety measurement and analysis. Topics covered include occupational hygiene, air sampling, data evaluation, biological sampling, and the assessment of heat stress, noise, vibration, radiation, illumination, and ventilation systems. Equivalent to OHS 421.

39 Hours  
Fee: $591.64

### Topics in Occupational Health and Safety  
**CVOH 221**

This course is an advanced seminar course that explores different means of inquiry into occupational health and safety. The course gives students an opportunity to learn the skills required to source out, research, examine, and synthesize topics in OHS in some depth. In the workplace, OHS professionals need to investigate issues they may not have expertise in. The students obtain an in-depth exposure to topics by researching and analyzing information, figuring out the implications for the workplace, summarizing the issues, and offering recommendations.

39 Hours  
Fee: $591.64
PHILOSOPHY AND MUSIC

In Music, we offer a range of courses in the traditions, development, variety, and cultural implications of various kinds of music.

In Philosophy, we cover both the ‘Big Questions,’ such as “What can we know?” or “How should we live?” or “Does God exist?,” as well as subject-oriented areas, such as philosophy of religion or ethics and health care. Sometimes, we deal with questions that have been discussed for thousands of years. Each generation has to answer them again, either expressly or by the implications of the choices they make and the beliefs they adopt. At other times, we deal with questions arising from the social arrangements and technologies we face right now - situations which may never have existed before. What unites these inquiries is the ‘philosophical turn;’ we learn how to uncover, evaluate, and use the most basic principles appropriate to the questions we tackle.

Humanities

Students enrolled in Ryerson degree programs are responsible for ensuring that any course selected from those listed meets the specific requirements of their program. For more detailed information regarding specific program restrictions, check the Undergraduate Calendar at www.ryerson.ca.

-six courses-

○ Ethics Capstone Course COPH 200

This course requires participants to produce a 30 to 40-page scholarly essay, case study research paper, or project in another form of equivalent scholarship and depth on an ethical issue or an area of ethical theory. Normally, the participants will have a designated supervisor to oversee their work, although it is expected that their efforts will be largely self-directed.

Note: This course may be taken as individualized study/directed reading; please contact the Academic Coordinator, Alex Wellington, at awelling@philosophy.ryerson.ca prior to enrolling.

39 Hours

Music

Related certificate(s): Design for Arts and Entertainment (pg. 35), Music: Global and Cultural Contexts (pg. 79)

★ Intro to World and Early European Music CMUS 101

This course provides basic knowledge and understanding of music in culture, with emphasis on listening skills and repertoire. Brief survey of world music and the Medieval, Renaissance and Baroque periods in European music. The functions of music in culture. Study of music vocabulary and early genres of music. Not available to Performance Production students. MUS 101 is not available for credit to students who choose MUS 300. (LL)

39 Hours

★ Voices Without Borders: Global Chorus CMUS 105

This course surveys vocal repertoire from around the globe, and may include African drumming songs, ‘mingge’ from China, Mexican ‘corridos’, Indian ‘lok geet’, Canadian folk songs, South-Asian ‘qawwalis’, and Eastern Europe folk song, among others. Students will explore the unique social histories and aesthetics of selected vocal genres with an eye to the breadth of stylistic approaches and forms of transmission in various cultural traditions. (LL)

39 Hours

★ The Architecture of Music CMUS 106

From the Pythagorean monochord that ancient Greeks used to align with the Music of the Spheres to the Chinese bamboo pipes that sounded the first Chinese pentatonic scale, each culture has created its own coherent structure. This course introduces students to the historical development and foundational theories of both ancient and contemporary musical form through the exploration of musical genres around the world. Lectures will situate musical theories in their socio-historical and cultural contexts. (LL)

39 Hours

★ Music and Film CMUS 110

The use of music with film has evolved from early stereotyped borrowing of nineteenth century classical European repertoire to newly created scores that enhance and support the dramatic themes of the film. This course explores the relationship between music and film, the functions and effects of music and how the music supports or plays against the visual images. Analysis of selected film genres will demonstrate how music can strengthen the film’s dramatic themes. (LL)

39 Hours

★ Introduction to Classical Music CMUS 201

This course examines Western music from the Classical, Romantic and Modern periods (approx. 1750 to the present day). Survey of the development of major styles, genres and forms of European music, including symphony, concerto and sonata. Lives and works of the great composers including Mozart, Beethoven and Stravinsky. Not available to Performance Production students. MUS 201 is not available for credit to students who choose MUS 300. (LL)

39 Hours

★ Certificate and degree credit ★ Degree credit ○ Certificate credit ★ Course series
**Music Cultures of the City**  
CMUS 211

Large urban centres such as Toronto offer a tremendous variety of events, from superstars in the Rogers Centre to amateur folk musicians in local coffee houses. What are the ways we might better understand the relationship between music culture and the culture of the city? This course considers genres from a number of areas including popular music, world music, jazz and classical music. It examines issues of production, distribution and performance, as well as reception, venues and audiences.

39 Hours  
Fee: $571.04

**Global Guitar**  
CMUS 303

The guitar, or plucked lute, is the de facto instrument of the masses in the western world. Through lecture, audio-visual screenings, discussion and experiential learning, this course explores the ways in which the guitar and its global variants have given voice to individuals and groups around the world, from ancient Persia and India to Africa and the Americas, and in so doing examines the impact of class, gender, race, politics and commercialization on creative self-expression.

39 Hours  
Fee: $598.85

**Music, Religion and Spirituality**  
CMUS 401

This course explores the dynamic interrelationship of music, religion and spirituality in a multicultural context. Topics will include the role, style, and conception of music in the Islamic, Christian, Hindu, Jewish, Buddhist, Tibetan, and Taoist faiths, amongst others. The processes and traditions of spiritual practice through and with sound will be explored. The course will also analyze the musical forms through which these devotional practices are undertaken.

39 Hours  
Fee: $581.34

**Latin American Music**  
CMUS 403

Latin America’s music spans indigenous Andean panpipe music, African-derived carnival music, Haitian voodoo ritual, Brazilian samba, and hip-hop music in Latin American urban centres, among others, and reflects the dynamic cultural fusions of past and present. Through lecture, audio-visual analysis and experiential musical exercises, this course explores the socio-cultural, historical and political impact of Latin American musical genres, and investigates music as a tool for healing, identity negotiation, political fomentation, and group expression.

39 Hours  
Fee: $598.85

**Chinese Instrumental Music**  
CMUS 406

This course explores the traditions and practice of Chinese instrumental music through score study, analysis of instrument technique and historiography, examination of pedagogy and transmission, and ensemble performance. Traditional folk, classical, and contemporary nationalized musical forms will be studied, with a particular emphasis on the stylistic differences of once discrete regions. Instruments studied may include: dizi, xiao, erhu, yanqin, ruan, sanxian, liuqin, guzheng, and Chinese percussion. (UL)

39 Hours  
Fee: $571.04

**Traditional Musics of the World**  
CMUS 501

This course examines musical cultures around the world, focusing on traditional genres. Course content covers conceptual, structural, rhythmic and modal systems. The functions and meanings of music in diverse cultures will be examined. Representative genres will be studied, including the Indian raga, Turkish fasıl (suite) and Japanese gagaku (court music). (UL)

Note: Restriction: TH001, TH002, TH003

39 Hours  
Fee: $562.80

**Popular Music and Culture**  
CMUS 505

This course explores the development of North American, British and non-western popular music. Lectures investigate key historical periods and genres which define the popular idiom in the west, such as blues, jazz, country, rock n’ roll, folk, rap, and electronica, as well as popular idioms from beyond the western world. Changes in technology, economics and demographics will be discussed, as will links between popular music and the prevailing social conditions of each period. (UL)

Note: Restriction: TH001, TH002, TH003

39 Hours  
Fee: $562.80

**Chinese Music Studies**  
CMUS 506

This course explores a variety of Chinese musical genres including folk, classical, contemporary hybrid and popular forms. Topics may include: the philosophical roots of music in Chinese cosmology; music and meditation; Beijing and Cantonese opera; censorship and propaganda in the Cultural Revolution; Chinese rock in the Tiananmen Square protest; and the growth of Chinese music internationally. Both Chinese instrumental and vocal music will be examined through a socio-historical, political, and stylistic lens. (UL)

39 Hours  
Fee: $571.04
Philosophy

Related certificate(s): Advancing the AODA: Principles and Practices of Accessibility (pg. 16), Community Engagement, Leadership, and Development (pg. 29), Criminal Justice and Criminology (pg. 32), Ethics (pg. 46), Health Studies (pg. 63), Social Sciences and Humanities Foundations (pg. 101)

Plato and the Roots of Western Philosophy  CPHL 101
An introduction to Philosophy, using Plato’s Republic. Topics include: How ought we to live our lives? What is justice? What is the nature of society and the individual? What social arrangements (educational, political, economic) best serve the ideals of justice and happiness? (LL)
39 Hours  Fee: $581.34

Philosophy of Religion I  CPHL 110
Antirequisite(s): PHL 610
This course examines religion from a philosophical perspective. What is the nature of the “divine”? Can we give a rational account of religious experience? Can we prove the existence of God? Can the idea of God be reconciled with the presence of evil in the world? Is atheism a viable alternative to faith? These are just some of the questions this course explores. We will consider both western and eastern religions. PHL 110 is not available for credit to students who choose PHL 610. (LL)
39 Hours  Fee: $581.34

Ancient Greek Philosophy  CPHL 187
This course explores major themes in Ancient Greek thought. The course covers some of the doctrines Plato and Aristotle developed to answer a wide range of questions, e.g., What is the good life for a human being? What is knowledge? How should we distinguish reality from appearances? What kinds of things exist? What is the soul? Is the soul immortal? In addition, we may examine the ideas of other philosophers of this period. (LL)
39 Hours  Fee: $570.01

Problems in Philosophy  CPHL 201
Antirequisite(s): PHC 180
This course serves as an introduction to philosophy by focusing on problems and issues which have occupied thinkers down through the centuries. For example, how can we relate talk about the cause and effect relationship governing physical events with talk about people making free choices? How do mind and body relate? What do we really know about the physical world or other people’s minds? Can we know whether God exists? Are moral judgements objectively true or false? (LL)
39 Hours  Fee: $581.34

Critical Thinking I  CPHL 214
Antirequisite(s): CSSH 105, PHC 182
A course designed to develop clarity of thought and method in the construction, analysis and evaluation of both unsupported claims and those supported by arguments. While there will be some exposure to the notion of logical form, the emphasis here is upon informal principles and arguments stated in ordinary language. Topics include the nature and methods of argument, classification and definition, along with some common fallacies and some questions about meaning and language. Restriction: Criminal Justice, Politics and Governance, Psychology, Sociology, Undeclared Arts. PHL 214 is not available for credit to students who choose SSH 105. (LL)
Note: Restriction: AC001, CJ001, PG001, PS001, SO001, AV001
39 Hours  Fee: $581.34

Ethics and Health Care  CPHL 302
Antirequisite(s): CPHL 509
This course examines ethical issues arising in the delivery of health care at both the level of the practitioner/client relationship (confidentiality, informed consent, euthanasia, abortion) and at a broader social level (justice and resource allocation, new technologies, professionalisation and power). The course will draw on: a) general philosophical analysis of central concepts (good, right, justice, personhood, autonomy, authority, integrity, health); b) general theoretical perspectives (feminism, “the Biomedical model”, Utilitarianism, deontology); and c) student professional education and clinical experience in nursing.
39 Hours  Fee: $567.95

Freedom, Equality, Limits of Authority  CPHL 306
Antirequisite(s): PHC 181, PHL 181
In light of our moral concepts and theories, this course critically examines current controversies concerning individual freedom and responsibility, social equality, and the limits of governmental authority. Topics are drawn from issues like the following: censorship of hate literature, pornography, and advertising; prohibition of drugs, gambling, and prostitution; group-differentiated rights concerning aboriginal peoples, cultural sovereignty, affirmative action, and pay equity. (LL)
39 Hours  Fee: $571.04

Certificate and degree credit  Degree credit  Certificate credit  Course series
★ **Business Ethics**  
**CPHL 307**  
Antirequisite(s): CITM 407, ITM 734

This course examines ethical issues and controversies concerning contemporary business practices and situates them within the broad intellectual framework of a free market society. Discussion will draw from such topics as: the concept of a market society, consumer sovereignty, utilitarian and contract models of business ethics, profit making and social responsibility, self interest and altruism, the concept of business as a practice, mechanistic and organic conceptions of business, advertising, human rights, and conflicts of interest.

39 Hours  
Fee: $562.80

★ **Philosophy of Human Nature**  
**CPHL 333**

This course examines philosophical writings about human nature. Topics may include: 1) What meanings are there for the word ‘nature’? 2) How do we differentiate human nature from the nature of other sorts of beings? 3) What makes a response to a problem a human response? The course presumes that there are no unquestioned first principles, such as the existence of God, the inherent goodness of humans, or the objectivity of truth claims and values. (LL)

39 Hours  
Fee: $562.80

★ **Ethics in Professional Life**  
**CPHL 334**  
Prerequisite(s): ACS 105 or CSSH 105 or any PHL course.

This course examines the many ways that organizations and professions institutionalize values, influence beliefs and attitudes, and guide conduct through prescriptions for professional practices and missions and mandates for organizations. The course focuses on prominent issues such as codes of ethics, conflict of interest, dirty hands, and whistle-blowing. Readings emphasize the complexities of virtue and moral agency for professionals and organizations, while comparing and contrasting selected established and emerging professions.

Note: This course may be taken as individualized study/directed reading: please contact the Academic Coordinator, James Dianda, at jdianda@ryerson.ca prior to enrolling.

39 Hours  
Fee: $562.80

★ **Existentialism and Art and Culture**  
**CPHL 366**

Through literature, visual art, film, and theory, this course explores existentialist lines of thought and their implications for modern day life. Existentialism is a philosophical and cultural movement critical of social illusions and self-deceptions that thwart genuine freedom. Exploring experiences of anxiety, futility, and isolation, analyzing the nature of the individual's relation to society, morality and religion, and arguing for the irrational nature of reality, existentialist theorists and artists seek to promote freedom, creativity, authenticity. (LL)

39 Hours  
Fee: $562.80

★ **Human Rights and Justice**  
**CPHL 400**

This course aims to provide the philosophical background and conceptual tools which would enable students to recognize and handle complex contemporary issues and conflicts involving human rights. Topics include: classic and contemporary theories of rights and justice; equity and affirmative action; children's rights; gender, sexual orientation and equality rights; aboriginal, language and cultural rights; human rights and cultural relativism. The course will combine lectures and discussion of selected philosophical readings and case studies.

39 Hours  
Fee: $562.80

★ **Philosophy and Mass Culture**  
**CPHL 401**

This course will explore the phenomenon of popular culture from various philosophical perspectives. Philosophers are divided in their assessment of the aesthetic and moral worth of mass culture. While some thinkers, like Walter Benjamin and, more recently, Noël Carroll, tend toward an optimistic appraisal, others, like Theodor Adorno, adopt a much more critical attitude. Popular culture as a whole will be examined, but special attention will be given to film, photography, and television.

39 Hours  
Fee: $562.80

★ **Issues of Life, Death and Poverty**  
**CPHL 406**  
Antirequisite(s): PHC 181, PHL 181

In light of our moral concepts and theories, this course critically examines current controversies concerning the sanctity of life, the constraints on ending life, and our obligations to provide the conditions for an acceptable life. Topics are drawn from issues like the following: abortion, euthanasia, capital punishment, genetic manipulation, war, torture, global poverty, famine relief, and basic welfare rights. (LL)

39 Hours  
Fee: $571.04

★ **Ethics in Health Services Management**  
**CPHL 444**

This course translates the principles, theories and practices of ethical decision making into information and applications which will be relevant to healthcare administration. The course builds on the recognition of the influences and factors that impact on health care managers' ethical decision making. Topics and issues which will be addressed in the course include: the role of market forces, integrated medicine, technology, and their impact on quality assurance programs.

39 Hours  
Fee: $562.80

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
Philosophy of Punishment CPHL 449
What is the meaning of legal punishment? Why should we punish criminals (including natural and artificial persons, individuals and collectives)? In what ways should they be punished? How important is proportionality of punishment? How significant are expected consequences of punishment? This course critically examines developments in philosophical thinking about the conceptual foundations of punishment, focusing on theories of deterrence, retributivism, and restorative justice. Readings are comprised of classic and contemporary works by philosophers.
39 Hours Fee: $562.80

Philosophy of the Natural Environment CPHL 500
The rise of environmental philosophy challenges the “anthropocentric paradigm” that has dominated Western thought. This course explores the implications of this challenge for our conception of ourselves, the basis for both human and natural values, and our obligations within the human and biotic communities. Topics include: traditional philosophical attitudes towards nature, obligations to future generations, “animal rights”, individual versus holistic models of value in relation to ecosystems, species and wilderness, and conflicts between human and natural values. (UL)
39 Hours Fee: $556.62

Social Thought and the Critique of Power CPHL 501
What is power, and who really holds it in contemporary society? Is our government’s power over us legitimate, and what are its proper limits? Do democracies really succeed in giving power to ordinary people? When is it right for citizens to rebel against the powers that be? Such questions and others will be addressed by way of a study of some of the great social and political philosophers of the modern world. (UL)
39 Hours Fee: $556.62

Ancient and Modern Ethics CPHL 503
This course explores seminal works in Western ethics. It analyzes different responses to such questions as: What kind of life is ultimately worth leading? What makes a person good? What makes an action right? Are there moral demands that bind everyone? If so, can we know what they are? Does morality have its foundations in religion? Reason? Emotion? Social practices? Contributions from such thinkers as Aristotle, Aquinas, Hume, Kant, and Mill will be studied. (UL)
39 Hours Fee: $562.80

Philosophy of Art CPHL 504
The objective of this course is to provide students with an overview of a number of different theories concerning the nature of art. It will address such matters as the relationship between art and truth, the appropriate criteria of art criticism, the distinction between art and non-art, and the nature of aesthetic values. (UL)
39 Hours Fee: $562.80

Ethics and Disability CPHL 507
The life circumstances of disabled people are shaped by powerful ideological forces rooted in moral and political philosophy. This course introduces important intellectual traditions underpinning the human quest for justice. From this base, students ‘test out’ various ethical approaches, grappling with fundamental questions: How shall we be guided in approaching new reproductive technology, end-of-life decisions and asymmetrical relations of care? Are there limits to individual autonomy? How shall we distribute health care and social resources?
39 Hours Fee: $562.80

Bioethics CPHL 509
Antirequisite(s): CPHL 302
Recent advances in biomedical sciences have raised a host of ethical concerns involving the sanctity and quality of life, fairness, equality, and autonomy. New and revolutionary developments call for legislative reform and policies designed to keep research and its applications within appropriate boundaries. This course examines issues such as cloning, assisted reproduction, genetic screening, gene therapy, organ donation, and resource allocation within a framework of moral principles and contemporary debate. PHL 509 is not available for credit to students who choose PHL 302. (UL)
39 Hours Fee: $556.62

Environmental Ethics CPHL 525
Do animals have rights? Should trees have standing? Do ecosystems have interests? What ethical obligations do present generations owe to future generations? How should distributive justice implications of environmental decision making be addressed? The course will discuss a variety of ethical perspectives on human-environment relationships, including distinctly environmental philosophies such as deep ecology, social ecology, and ecofeminism. Readings will discuss the applications of theories to local and global environmental problems.
39 Hours Fee: $627.69
This course examines the rights, freedoms, and obligations of the media and practising journalists. Issues may vary somewhat from year to year, but the following are typical: the grounds and limits of freedom of expression; moral responsibilities respecting truth, balance, and objectivity; media ethics and business pressures; obligations to the public, to the audience, to source, to colleagues, to the employer, and to oneself. The course includes case studies as well as regular discussion of ongoing media activity.

39 Hours

Fee: $562.80

This course explores modern and recent answers to ethical questions such as: What makes an action right? What makes a person good? Are there moral demands that bind everyone? If so, can we know what they are? Does morality have its foundations in reason? Emotion? Social practices? Contributions from such thinkers as Hegel and Bradley, Moore, Ross, Foot, Williams, Gilligan, and MacIntyre will be studied. (UL)

39 Hours

Fee: $562.80

For existentialists, freedom is not a given, but something to achieve. Reading authors like Kierkegaard, Nietzsche, Sartre, Beauvoir and Heidegger, we’ll ask what aspects of the human condition tend to thwart true freedom: Self-deception? Social norms or religious codes? Anxiety in confronting death? Longing for absolute justification for life’s meaning? Alienation arising from an overestimation of reason or technology? We’ll also consider what is required for authenticity, responsibility, freedom, and, possibly, the meaning of faith. (UL)

39 Hours

Fee: $562.80

This course examines historical and contemporary philosophical perspectives on love and sex. Questions considered may include: What is romantic love? What are the relations between love, monogamy and marriage? Is adultery always morally wrong? What are the relations between love/sex and personal identity, gender and biology? What are sexual perversions? What is the moral status of prostitution and the commodification of sex? How should we define the concept of sexual harassment? (UL)

Note: A Spring/Summer section will be offered in Europe. For more information, contact Dr. R. Murray, Faculty of Arts, at 416.979.5000, ext. 6160.

39 Hours

Fee: $562.80

This course examines ethical issues relating to the allocation of resources in health care contexts. The course will begin with an introduction to various philosophical accounts of distributive justice. Some of the questions examined include: What distinguishes health care from other goods distributed by society? Should market forces determine the allocation of health care? How should we balance the rights of care providers with the claims that clients make to receive health care?

39 Hours

Fee: $591.64

What is law? What makes something a legal norm? Should citizens always obey the law? What is the relationship between law and morality? This course will explore competing theories of law, such as natural law and positivism, and touch on crucial debates over civil disobedience, purposes of punishment, and interpretation of legal texts. It will deal with contemporary controversies over the legal regulation of human behaviour, for instance in matters of sexual morality. (UL)

39 Hours

Fee: $562.80
**Philosophy of Human Rights**

Are human rights universal? Are they absolute? Have civil and political rights been privileged in relation to social and economic rights? Should some human rights be understood as collective or group rights to address issues of cultural identity?

This course critically examines the works of contemporary philosophers articulating diverse accounts of human rights, alongside objections which have been raised by Feminists, Cultural Relativists, and advocates of The Full Belly Thesis, and other perspectives. (UL)

39 Hours  
Fee: $627.69

**Beyond the Western Academic Tradition**

This course is an introduction to some major world religions and philosophies, systems which continue to inform the actions of cultures outside mainstream Euro-American tradition. Theoretical concerns can include such subjects as cultural relativism, differing cultural views on the nature of decisions and their justification, and the difficulties of adequately describing what is going on in a different cultural setting. More practical concerns can include such subjects as the problems of exporting political and economic systems across cultural boundaries, or of getting notions such as those of individual rights to make sense in a radically different conceptual milieu.

39 Hours  
Fee: $562.80

**Religion, Science and Philosophy**

The physical sciences have contributed to philosophical debates regarding the apparent conflict between religious and scientific outlooks. In particular, religion and science seem to suggest different accounts of human nature, the universe, and our place in it. This course is concerned with issues such as: the basis for religious and scientific claims, nature and intelligent design, causality and free-will, and the emergence of mind. (UL)

39 Hours  
Fee: $562.80

**Philosophy and Film**

This course examines the medium of film from several philosophical perspectives. Questions to be considered may include: What distinguishes film from other mass media and art forms? Do technical developments alter the definition of film? Is there a language of film? What can film teach us about the nature of perception? Does film contain an inherent gender bias? Has film created a captive audience, or is it the truly democratic art form? (UL)

39 Hours  
Fee: $562.80

**Intellectual Property and Technology**

This course examines the multifaceted aspects of developments in intellectual property policy. Students will explore the diverse ethical norms, social practices, and legal doctrines which are used to both justify and to critique existing policies. The course will introduce students to the basic types of intellectual property rights - copyright, patents, trademarks, and trade secrets. It will survey various ethical theories or perspectives which are brought to bear on the topic.

39 Hours  
Fee: $562.80

**Philosophy of Religion II**

Prerequisite(s): CPHL 110 or CPHL 709

This course offers students an opportunity for advanced study of what philosophers have had to say about religion. Readings will be drawn from influential historical philosophers, and from contemporary philosophers. Some topics will pertain to theistic religions, some to non-theistic religions, and others to both. Topics may include: religious language; ethics and the meaning of life; the concept of the Sacred; the relationship between religious beliefs and evidence; and puzzles about the characteristics of God. (UL)

39 Hours  
Fee: $572.07

Certificate in Ethics  
(See page 46)

**Getting excited about school (for the first time, probably). Opening my mind to a new area (arts). My background is technical (engineering).**

Student Comment - Chang School Student Survey 2013
PHOTOGRAPHY

As photography continues to hold its own as a leading medium of communication, opportunities for skilled photographers have never been greater; at the same time, more and more people are discovering the creative rewards that photography offers to the hobbyist. Whatever your level of interest, you’ll find many exciting and novel opportunities to cultivate your artistry and technical skills in the following courses and workshops.

Equipment/Facilities Use: Please note that use of equipment and facilities outside of class time will not be provided. Extra time may be purchased.

For more information, including instructor biographies, visit www.ryerson.ca/ce/photography.

Photography

Related certificate(s): Design for Arts and Entertainment (pg. 35), Image Arts (Film Studies, New Media, or Photography Studies) (pg. 67), Photography Studies (pg. 86)

★ Analog Photography  CDFP 320

For photographers who want to improve their photographic skills, and for beginners, this course offers an intensive investigation of the basics of black and white photography. Substantial time is given to learning the basic technical aspects of photography: precise exposure, processing of film, darkroom procedures, and printing skills receive particular emphasis. As well, the major approaches to black and white photography are explored through lecture and assignment projects. (Formerly Techniques of Photography I)

Note: Supplies to be purchased by the student: Film and photographic papers (minimum $150). The student must have a manually adjustable small/medium format camera and access to a tripod.

39 Hours  Fee: $640.16

Material Fee: A material fee of $65 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

★ Photography for Ad Agencies  CDFP 322

Learn what an art director does so you can create value as a photographer. Find out what’s expected of a photographer Study layout, design, type, advertising photography, and the shoot process. Discover how art directors produce advertising in a variety of media - and then make ads yourself. Study estimating, casting, location scouting, logistics - what you need to know to create the shots required. Meet ad photographers and learn to build a creative business relationship. Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar at www.ryerson.ca). (Formerly Art Direction/Design Techniques)

Note: This course is suitable for both digital and traditional photographers. Instructor: Stewart Hood (Winter).

Supplies to be purchased by the student: Layout pad, felt pen markers, acetate and overlay materials, drafting tools, artboard, etc. Cost minimum $85-$100.

39 Hours  Fee: $593.70

★ Photography Production I  CDFP 328

This course introduces students to the fundamentals of photographic and lens-based imaging. It includes operation of the hand camera and digital photographic practices, image processing and print production, and exploration of meaning through images in relationship. Short, topic-orientated production assignments with critiques will be given. (Equivalent to MPS 106.)

39 Hours  Fee: $635.93

★ Photography Production II  CDFP 329

Prerequisite(s): CDFP 328 or CDFP 383

This course advances the development of core photographic concepts and skills learned in production. It includes an overview of camera systems, image production, and an understanding of fundamental studio lighting for portraits and still life. Through a series of assignments, students explore the nature and meaning of photographic images and discipline for self-directed work. (Equivalent to MPS 206.)

39 Hours  Fee: $635.93

<tbody>
<tr>
<td>Digital Printing</td>
<td>CDFP 332</td>
<td>This workshop format course is for the serious digital photographer wanting to learn how to make exhibition quality prints. Students will work with Adobe image manipulation applications learning advanced techniques in Photoshop, Camera Raw, and Lightroom to reveal a professional workflow. Information on calibrating your computer with the printing facility will be covered. There will be input from galleries and professional printing facilities to enable the student to experience firsthand what standards are required to produce ideal prints. Work will be reviewed frequently to solve specific printing problems from students' own printers or the professional labs they use. Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar at <a href="http://www.ryerson.ca">www.ryerson.ca</a>). 39 Hours  Fee: $694.64</td>
</tr>
<tr>
<td>Photoshop for Photographers</td>
<td>CDFP 367</td>
<td>A workshop course designed for the serious photographer wanting to learn retouching and image enhancement techniques using Adobe Photoshop. Topics covered include techniques for skin retouching; adding sparkle to the eyes; careful use of the Liquify Tool for slimming; balancing faces using selection and masking techniques; using layer blending modes; and compositing elements from different shots, as used in still life and fashion shooting, high dynamic range, panoramas, etc. Note: Students must have a working knowledge of Photoshop CS3 or later versions. Instructor: Rob Davidson 39 Hours  Fee: $651.38</td>
</tr>
<tr>
<td>Photography and Digital Imaging</td>
<td>CDFP 333</td>
<td>An introduction to photographic technologies and concepts related to digital printing. Students will acquire skills related to a range of creative ideas about images, while gaining a basic understanding of the concepts of lens-based image-making. Emphasis will be placed on learning the core principles of photographic technology as well as fundamental visual skills for photographers. By the end of the course, students will have acquired a working knowledge of basic tools, capture, printing, and workflow. (Equivalent to MPS 107.) 39 Hours  Fee: $651.38</td>
</tr>
<tr>
<td>Photography and the Web</td>
<td>CDFP 358</td>
<td>An entry-level workshop course in which students will begin to acquire the basic skills related to the hardware and software required for web image production. Tools, applications, and creative methods in making photographic images in a screen-based environment using digital applications are covered. Emphasis is on cross-disciplinary instruction in an inter-media working environment. Students will initially explore the context of time-based and moving-image systems, digital imaging, electronic sound, image formation, recording, and sequencing. (Equivalent to MPS 207.) 39 Hours  Fee: $651.38</td>
</tr>
<tr>
<td>Advanced Fashion Photography</td>
<td>CDFP 381</td>
<td>This advanced workshop format course is for the serious fashion photographer. Students must have advanced camera, lighting, and Photoshop or Lightroom knowledge. They will be introduced to fashion styles and trends through both lighting and shooting. Industry standards and sources for selling and exhibiting fashion photographs will also be addressed. Under the instructor's guidance, students will work with models and make-up artists. Student work will be discussed in group critique sessions. Equivalent to one Professional elective from Table I (see Undergraduate Program Calendar at <a href="http://www.ryerson.ca">www.ryerson.ca</a>). Note: Students must have a DSLR camera with lenses ranging from 35mm to 105mm, a light meter, and a radio slave unit. They should also bring their laptops to class. A prerequisite may be waived if the student has specific academic or professional experience. Individuals who do not have the prerequisites and who wish to take this course must contact the instructor, Struan, at <a href="mailto:struan@struanphoto.com">struan@struanphoto.com</a> (<a href="http://www.struanphoto.com">www.struanphoto.com</a>) or Dennis Miles, Academic Coordinator, at <a href="mailto:dmiles@ryerson.ca">dmiles@ryerson.ca</a> for more information. 39 Hours  Fee: $783.22</td>

</tbody>
</table>

Certificate and degree credit  Degree credit  Certificate credit  Course series 179
**Advanced Portrait Photography**  
CDFP 382  
Prerequisite(s): CDFP 329 or CDFP 384

This workshop format course is for the serious amateur or aspiring professional portrait photographer. It is an advanced course concerned with an in-depth look at portrait photography. Emphasis will be on developing and refining your techniques in a variety of settings and lighting conditions. Projects will examine critical and aesthetic issues in portrait photography from singles to large groups, under studio and location settings. Both traditional and digital photography will be covered. Equivalent to one Professionally Related elective in Image Arts from Table I (See Undergraduate Program Calendar at www.ryerson.ca).  

Note: Students must have a DSLR camera with lenses ranging from 35mm to 105mm, a light meter (if using film), and a radio slave unit or flash sync cord. Those shooting digitally should also bring their laptops to class.

39 Hours  
Fee: $593.70

---

**History of Photography I**  
CDFP 391

Students will study the evolution of photography, from the early experiments with light sensitivity of silver salts to the establishment of portable photographic technologies. A historical overview of the medium's development from both technical and stylistic viewpoints will be examined. The course traces the development and positioning of the photographic medium within the context of modernist expression, from early attempts to contextualize photography as art, to the development of small format, handheld cameras. Cultural writings about photography will also be investigated, in relation to broader historical, theoretical, and political considerations. (Equivalent to MPS 401.)

39 Hours  
Fee: $579.28

---

**Documentary Photography**  
CDFP 392

This workshop course is designed to introduce students to ideas and methods of producing documentary photographs and portfolios. The course includes instruction in practical techniques (effective metering, flash, etc.), as well as an exploration of the history and vocabulary of documentary photography. The goal is the production of a documentary portfolio (prints, books, or digital slide show ready for a professional venue). Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar at www.ryerson.ca). (Formerly Commerical Photography I)

Note: Supplies to be purchased by the student: Suitable camera (any format), or access to one, and printing supplies.

39 Hours  
Material Fee: A material fee of $75 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

---

**Studio Lighting I**  
CDFP 389  
Prerequisite(s): CDFP 329 or CDFP 384

This course offers an intensive investigation into all aspects of studio lighting photography. The course consists of a series of lectures, critiques, and extensive studio sessions learning the basic techniques. Particular attention is paid to controlled lighting, precise exposure, and the techniques of electronic flash as they apply to studio photography. Emphasis is placed on learning to balance compositional elements within the frame to produce an articulate photograph. Other topics include filters, special effects, and an introduction to the business of commercial photography. Equivalent to one Professionally Related elective in Image Arts from Table I (see Undergraduate Program Calendar at www.ryerson.ca). (Formerly Commerical Photography I)

Note: Students must own or have access to a digital interchangeable lens camera with at least 10 megapixels and at least one lens in the “normal” to moderate telephoto range (equivalent to 50mm to 90mm on full frame sensor).

39 Hours  
Fee: $582.37

---

**History of Photography II**  
CDFP 398  
Prerequisite(s): CDFP 391

This course continues the investigation started in CDFP 391 and examines the development of photographic practice throughout the course of the twentieth century. Different genres of photography will be explored, from approaches to documentary and landscape photography, to the development of conceptual and theoretical ideas at play in contemporary photographic expression. Discussion of the major figures and influences in photography will be supplemented by an examination of the development of traditional photographic processes and digital technology. (Equivalent to MPS 401.)

39 Hours  
Fee: $579.28
Creative Wedding Photography  CDFP 403
Prerequisite(s): CDFP 329 or CDFP 384
This course introduces essential photographic and business skills required by a wedding, event, and portrait photographer. Through lectures, practice shoots, and assignments, students will learn how to enter the freelance photography field, choose the right equipment, deal with clients, be prepared to handle various lighting situations, and develop a portfolio.

Note: Instructor: Margaret Diotalevi (Fall & Winter).
39 Hours  Fee: $746.14

Magazine/Editorial Photography  CDFP 404
Prerequisite(s): CDFP 329 or CDFP 384
The successful assignment requires research, execution, the appropriate lenses and accessories, objective editing, and a compelling choice of media output. Today’s sophisticated viewers expectations are higher than ever before. Images must be more communicative, articulate, and artistic in both content and presentation. This results-oriented course will concentrate on preparing, executing, and presenting the successful photo essay, utilizing contemporary output and display formats.

(Formerly Photography Assignments)

Note: Students must have an interchangeable lens digital camera.
Instructor: Larry Frank.
39 Hours  Fee: $746.14

Architectural Photography  CDFP 405
Prerequisite(s): CDFP 329 or CDFP 384
This course will teach both the history and development and practice of architectural photography. The emphasis will be on practical method and skill development through creation and technique.

Note: Students must have an interchangeable lens digital camera.
Instructor: Andrej Kopac (Fall).
39 Hours  Fee: $746.14

NEW

Studio Lighting III  CDFP 415
Prerequisite(s): CDFP 390
This course continues the investigation of the techniques and approaches to CDFP 390 (see the calendar description). In addition to exploring more advanced studio lighting, students will also explore the use of flash lighting combined with ambient light outside of the studio environment.

Note: Students must own or have access to a digital interchangeable lens camera with at least 10 megapixels and at least one lens in the “normal” to moderate telephoto range (equivalent to 50mm to 90mm on full frame sensor).
A prerequisite may be waived if the student has specific academic or professional experience. Individuals who do not have the prerequisites and who wish to take this course must contact the Instructor, Rob Davidson, at rob@rdaphoto.com or Academic Coordinator, Dennis Miles, at dmiles@ryerson.ca for more information.
39 Hours  Fee: $725.00

Photography Workshop in France  CDFP 559
Prerequisite(s): Department consent
In the spring, Ryerson University’s G. Raymond Chang School of Continuing Education will offer a full-credit photography course in Paris, France, designed in cooperation with photography curators and directors of photographic institutions in that city. Combining practical, historical, and theoretical components, this unique program will take full advantage of the tremendous range of cultural resources available in Paris. The two weeks of the course will include lectures and organized visits to the city’s great museums, photography collections, and archives not available to the general public. These activities will be combined with supplementary lectures and readings, as well as independent study. Students will be responsible for production of a written journal which documents work seen and lectures given. Equivalent to NPF 559 or PP8 205.

Note: Faculty: Marta Braun, MA, teaches art history, photo history, and film theory in the School of Image Arts and the Ryerson/Eastman House MA Program. She is the author of Picturing Time: The Work of Etienne-Jules Marey, published by the University of Chicago Press. She has lived and worked in France and is thoroughly familiar with French language and culture. Her long-standing association with French artists and curators will provide students with a unique behind-the-scenes experience.

Course Coordinator: Peter Higdon, a photographer represented by Toronto’s Stephen Bulger Gallery, is Collections Curator at the Ryerson Image Centre, the University’s internationally recognized research centre and gallery. He has lectured and taught in both day and continuing education programs, has resided in Paris, and travelled widely in France.

Note: Faculty: Marta Braun, MA, teaches art history, photo history, and film theory in the School of Image Arts and the Ryerson/Eastman House MA Program. She is the author of Picturing Time: The Work of Etienne-Jules Marey, published by the University of Chicago Press. She has lived and worked in France and is thoroughly familiar with French language and culture. Her long-standing association with French artists and curators will provide students with a unique behind-the-scenes experience.

Course Coordinator: Peter Higdon, a photographer represented by Toronto’s Stephen Bulger Gallery, is Collections Curator at the Ryerson Image Centre, the University’s internationally recognized research centre and gallery. He has lectured and taught in both day and continuing education programs, has resided in Paris, and travelled widely in France.

The course is open via application to those enrolled in the joint Ryerson/George Eastman House MA Program in Photographic Preservation and Collections Management as well as undergraduates and continuing education students. Contact Peter Higdon at phigdon@ryerson.ca or 416.979.5000, ext. 6843, for information on how to enroll in this course.

Enrollment is limited to 14 students.
39 Hours  Fee: $TBA

Certificate and degree credit  Degree credit  Certificate credit  Course series
Aboriginal Media Culture in Canada  CDFP 573

Mainstream imagery of Aboriginal people has a long and problematic history. The image of “the Native” has historically been used in western popular culture and media as a device of social and political control. This course examines the historical misrepresentation of Aboriginal people and culture, as well as contemporary Aboriginal photo/media based practice, and how Aboriginal artists and cultural producers have subverted, critiqued, challenged, and changed the perception of Aboriginal people through the medium of film and photography.

39 Hours  Fee: $593.70

Photography Studies Intensive  CDFP 999

Students now have the opportunity to obtain the Certificate in Photography Studies over 12 intensive, 5-day weeks. This unique fast-track program covers all required production, technology, and studio courses.

Note: To gain access to priority enrollment, students should register in the certificate program in advance of the priority enrollment period. Please visit www.ryerson.ca/ce/photointensive for further details.

312 Hours  Fee: $4,812.23

Advanced Studio Lighting  CFPN 532

This is a course in studio lighting for photographers. Through practical studio projects within a workshop environment, students will be exposed to more sophisticated ideas about light and lighting in relation to a variety of subjects and techniques. The course is designed to help students expand and deepen their technical, conceptual and aesthetic insight while working with light through creative projects.

Note: Supplies to be purchased by the student: A list of supplies and materials required will be given to students after the first class. Students should have access to a digital flash meter.

Maximum enrollment is 15 students.

It is recommended that CDFP 389 and CDFP 390 be completed before enrolling in this course. See information about prerequisites.

39 Hours  Fee: $575.16

Media Business Studies  CFPN 536

This course will cover general business practices including marketing, finance, accounting, statutes and regulations particularly applicable to the successful operation of small media businesses. A case study approach will be used.

39 Hours  Fee: $610.18

The Human Figure  CFPN 539

An investigation of uses of the human figure in traditional fine arts and contemporary graphic media. This workshop course will explore representation of the figure in two- and three-dimensional design contexts as well as in time-based and electronic forms. Participants will have the opportunity to combine studio and laboratory work with theoretical and historical studies.

Note: It is recommended that CDFP 329, CDFP 384, or MPS 206 be completed before enrolling in this course.

39 Hours  Fee: $626.66

Historical Processes Workshops  CFPN 543

This is a production course dealing with the use, design and construction of composite images using various media. Students will be encouraged to explore the use of captured, hand-rendered, and machine-fabricated images, in both static and temporal combinations. Various methods of image construction ranging from photographic to digital will be used. Selected traditional processes as well as experimental techniques will be discussed. The acceptance and use of these will depend on the sophistication and willingness of individuals to explore and take chances in imagery.

Note: It is recommended that CDFP 329, CDFP 384, or MPS 206 be completed before enrolling in this course.

39 Hours  Fee: $626.66

Using Your Digital Camera  CDFP 908

This workshop is designed to help you learn how to use your digital camera and how to improve your photography skills. Through a combination of hands-on demonstrations, lectures, and weekly assignments, you will learn how to get the most from your digital camera. Workshop topics include a review of basic camera operation and photographic techniques; a comprehensive study of the features and settings of digital cameras; how to manage image files and memory cards; basic editing of photographs using Adobe Photoshop; and how to share and print great looking digital photographs. You will also participate in group discussions and receive one-on-one feedback on your photographs to improve your skills as an image maker. A digital SLR camera, or compact camera with manual controls, is recommended. If you don’t already have a digital camera to use during the workshop, a “camera selection” discussion during the first class can help you decide what to purchase.

Note: Supplies to be purchased by the student: Approximately $25 for digital printing.

18 Hours  HST included  Fee: $535.61
The Travelling Camera  CDFP 915
This workshop is for you if you take photographs (film-based or digital) when you travel - whether for keeping personal memories, or for editorial or commercial publication. With the instructor’s experienced guidance, you will be able to experiment with your travelling camera in and around Toronto and will have opportunities to discuss problems and issues when your work is viewed in class. You will learn what to include in your kit and what to leave behind, taking into account your individual travel plans and picture-taking goals. The workshop emphasizes taking pictures and learning techniques that will give you more confidence when you are photographing in unfamiliar conditions or unusual situations.
18 Hours  HST included  Fee: $534.57

Fine Art Child and Pet Photography  CDFP 945
This workshop emphasizes a fine art approach to infant, baby, child, and pet portraiture. There will be reviews/discussions of photo fundamentals and key principles: posing, safety, timing, and tricks of the trade. Students will be provided with the necessary skills to photograph indoor and outdoor portraits. This workshop will focus on technical theory and practice. With the instructor’s guidance, students will experiment each week and will have opportunities to discuss challenges during critiques.
18 Hours  HST included  Fee: $534.57

Sports Photography  CDFP 955
This workshop is geared to amateur photographers/sports parents who want to improve their abilities to photograph their child’s amateur sports. There will be a review of basic photography fundamentals: aperture, shutter speed, and ISO. The workshop will provide understanding of the key principles of sports photography, namely positioning and timing, and will provide students with necessary skills to photograph both indoor and outdoor activities.
15 Hours  HST included  Fee: $372.85

PHYSICAL ACTIVITY

These courses will impart the critical physical activity knowledge and hands-on skills required to promote, assess, and develop physical activity approaches for individuals, families, and communities. For more information, visit www.ryerson.ca/ce/PracticeinMotion.

Physical Activity

Related certificate(s): Physical Activity: Assessment and Promotion (pg. 87)

Health and Physical Activity  CFNA 100
Prerequisite(s): PLN 203
This course will discuss the determinants of health and physical activity, focusing on the specific physical activity-health connection. The course will examine the epidemiologic trends of physical activity and fitness, with special emphasis on the active living movement, health risk analysis and evaluation in North American populations.
Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the academic coordinator at paul.gorczynski@ryerson.ca prior to enrolling in this course.
39 Hours  Fee: $579.28

Lifestyle and Fitness Assessment  CFNA 201
Prerequisite(s): CFNA 100 and CPLN 303 and FNP 300, Co-requisite: FNN 400
This course will discuss theoretical and practical health-related fitness evaluation. Methods of physical activity participation and lifestyle habit evaluation will be reviewed. The topic of body composition will be emphasized, describing assessment by a variety of methods and discussing the contexts of the different measurements. Musculoskeletal fitness assessment will be discussed and practiced.
Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the program director at mleeblic@ryerson.ca prior to enrolling in this course.
39 Hours  Fee: $579.28
PHYSICAL ACTIVITY

★ Physical Activity and the Environment  CFNA 202
Prerequisite(s): CFNA 100
The emerging research regarding the built environment’s impact on health will be critically examined within a small group format. Specifically urban ecology and design, and adaptive planning and policy will be explored as it related to physical engagement and the current body weight discourse. Both social and environmental circumstances will inform the framework of this course.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the program director at mleeblic@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $579.28

★ Exercise Science and Physiology  CPLN 303
Prerequisite(s): PLN 203
The course will discuss the various mechanisms and principles of the body’s acute responses to different levels of physical activity. The course will focus on the essentials of movement and the functionality of the muscular-skeletal system, on the impact of exercise on basic energy systems, and on the cardiorespiratory function and performance.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the program director at mleeblic@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $579.28

★ Nutrition and Physical Activity  CFNA 300
Prerequisite(s): FNN 201 and PLN 203
The course will discuss the special nutritional needs and practices of active individuals. The course will focus on various levels of activity, discussing the metabolic needs and adaptations to the different levels of stress and types of activity. A variety of sports will be examined through the perspective of nutritional requirements and adjustments.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the program director at mleeblic@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $579.28

★ Exercise Intervention  CFNA 301
Prerequisite(s): CFNA 201
This course will discuss the significance and describe the incremental value of exercise intervention with a focus on health related fitness outcomes. Students will receive theoretical and practical instruction on physical activity and exercise prescription, training techniques, and methods, as well as program modification.

Note: This course is restricted to students currently enrolled in a Food and Nutrition degree or equivalent or who have graduated from a Food and Nutrition program or equivalent. Permission may be granted with specific academic/professional experience by contacting the program director at mleeblic@ryerson.ca prior to enrolling in this course.

39 Hours Fee: $579.28

★ Anatomy  CVPA 200
In this course, the essentials of anatomy are presented, including an overview of the organization and structure of the body. Systems are examined with particular attention to skeletal and muscular organization as this applies to physical activity.

30 Hours Fee: $401.69

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
These introductory courses in physics have applications across a wide variety of professional fields. A basic understanding of the principles of physics is an important step in your understanding of science.

**Physics Quick Start**  
**CKPS 105**

The Physics Quick Start Workshop is designed to give students an opportunity to refresh their essential skills and knowledge that are expected for students entering first year physics courses. The workshop will be delivered in an intensive format and is not for credit, but the students will be given tests and assignments to be able to gauge their progress.

30 Hours  
HST included  
Fee: $407.27

**Physics I**  
**CKPS 115**

Meets the Grade 12 U Physics requirement for admission to a Ryerson program. Introductory physics. Kinematics in one and two dimensions, dynamics, gravitation. Work, power, and energy. Heat quantities. This course is laboratory and problems oriented. Equivalent to the first half of PCS 15A/B.

52 Hours  
Fee: $755.00

**Physics II**  
**CKPS 215**

This course is a continuation of CKPS 115. Fluids, basic electricity. Waves and optics. Atomic and nuclear physics. This course is laboratory and problems oriented. Equivalent to the second half of PCS 15A/B.

52 Hours  
Fee: $755.00

**Physics for the Health Sciences**  
**CPCS 106**

An introduction to the physical ideas related to the fields of environmental and occupational health; mechanics, work/energy, fluids, sound, thermodynamics, basic electricity, the electromagnetic spectrum and nuclear quantities.

52 Hours  
Fee: $575.29

**Physics in the News**  
**CPCS 111**

A presentation of important scientific topics to equip non-science students with tools to understand technical issues that affect humanity. The course content may include topics such as energy, global climate, space-travel, high-tech devices, national security and weapons systems which are introduced at a conceptual level and discussed in an accessible style with emphasis on critical analysis of contemporary sources. Topics covered may vary from year to year to reflect emerging issues and new developments. (LL)

39 Hours  
Fee: $597.00

**Physics I**  
**CPCS 120**

Antirequisite(s): PCS 125 and PCS 211

A calculus based course covering fundamental physics concepts: units, vectors, linear motion, circular motion, force and motion, work and energy, collisions, gravitation, electrostatics, capacitance, and simple DC circuits.

65 Hours  
Fee: $961.41

**Physics II**  
**CPCS 130**

Prerequisite(s): CPCS 120;  
Antirequisite(s): PCS 125 and PCS 211 and (PCS 102 or SCI 104)

A continuation of Physics I, calculus-based course. An introduction to oscillations, mechanical waves, magnetism, electromagnetism, optics and nuclear physics. The laboratory is an essential and autonomous part of the course.

78 Hours  
Fee: $1232.30

**Introduction to Astronomy**  
**CPCS 181**

This course will examine astronomical ideas both in relation to their times and in the light of current scientific theory and technical data. Application of the scientific method will be emphasized in evaluating these data and theories. Method of collection and analysis of data will be presented to help the nontechnical student in asking fundamental questions about scientific theories. Topics covered include cosmology, origin of the stars and galaxies, evolution of stars, the solar system, exobiology, death of stars, stellar remnants and the age of the universe. (LL)
POLITICS AND PUBLIC ADMINISTRATION

The Department of Politics and Public Administration offers a full-time undergraduate program in Politics and Governance and a part-time undergraduate program in Public Administration and Governance, the latter of which consists of a certificate, advanced certificate, and a degree. This program is specifically designed for people working in the public and para-public sectors, nongovernmental organizations and advocacy groups. These courses may also be of interest to those aspiring to careers in the broader public service, private-sector employees in regular contact with the government, and those interested in gaining knowledge about public administration and public policy in Canada.

Politics and Public Administration

Related certificate(s): Aboriginal Knowledges and Experiences (pg. 13), Ethics (pg. 48), Nursing Leadership and Management, Advanced (pg. 83), Occupational Health and Safety (pg. 85), Public Administration and Governance (pg. 93), Public Administration and Governance, Advanced (pg. 94), Public Administration and Leadership (pg. 95), Social Sciences and Humanities Foundations (pg. 101)

Public Administration in Canada

Students with no academic background or professional experience in public administration, but who already have a degree from a recognized university, are required to successfully complete this one-semester, specially designed immersion course in public administration as a requirement of admission to the post-baccalaureate Certificate in Public Administration and Leadership. This course offers a concentrated introduction to concepts of public administration; the rule of law; the machinery of government; the relationship between the state and the citizen; political and administrative accountability; the structure and process of policy formulation, implementation and evaluation; intergovernmental relations; the budgetary process; issues in personnel management; and E-government.

39 Hours Fee: $776.01

People, Power and Politics

This course provides a critical introduction to the main themes in the study of politics, including state-building, nationalism, ideology, democracy, participation, development, security and globalization. We focus on the interrelated struggle for power and justice that lies at the heart of politics, raising questions crucial to informed, engaged citizenship: How do we define the “common good?” Who should wield power and why? How should power be shared? How should we resist the misuse of power?

39 Hours Fee: $630.78

Power and Influence in Canadian Politics

Antirequisite(s): POC 180 and POL 102 and CPPA 120

Against a backdrop of political culture, ideology, regionalism, French-English relations and socio-economic differences this course will examine citizen participation in Canadian democracy through parliamentary and extra parliamentary mechanisms. In particular, the course introduces the central components of the contemporary Canadian political system most visible to citizens: political parties, elections, the media and pressure/interest groups. (Canadian)

39 Hours Fee: $576.19

Canadian-American Relations

Prerequisite(s): POG 210 or (POL 101 and POL 102) or POL 27B or POL 332 or CPPA 120

This course provides a comparative analysis of US and Canadian politics and of international relations between the two countries. To this end, it explores the comparative history and political cultures of the two countries; the institutions of their respective political systems; elections, political parties and voting; regionalism; federalism; public policies; and specific Canadian-American issues like free trade, climate change, national security and the war against terrorism, Arctic sovereignty and other current topics. (Canadian)

39 Hours Fee: $562.80

Human Rights and Global Politics

Prerequisite(s): POG 225 or POG 315 or CPOL 208 or CPOL 540 or CPPA 125

Should universal human rights be considered a global norm? Or should concerns of national sovereignty and cultural pluralism take precedence? Discourses of human rights are powerful and ubiquitous and are used in many varied and complex ways in the contemporary world. This course will examine the historical emergence of human rights discourses in the West, their institutionalization, and their deployment in the contexts of the Cold War and the war on terror. A range of theories, critiques, and contemporary debates about human rights will be explored. (Global)

39 Hours Fee: $562.80
Politics, Media and Technology  CPOG 444
Prerequisites: POG 240

The mass media has transformed how societies communicate about, and perceive, political ideas. This course examines the interplay of media, technology and politics, discussing such topics as the relationship between print and the rise of modern democracy; the impacts of television on contemporary politics, especially election campaigns; and the emerging political influences of the Internet and social media. The course will also analyze the structure of ownership of global media systems and its impact on international communications. (Comparative)
39 Hours  Fee: $562.80

Politics and Governance Topics  CPOG 490
Prerequisites: POG 210 and POG 214 and POG 225 and POG 235 and POG 240

This course will explore selected topics chosen by the instructor through applied and theoretical reading, class discussion, and presentations from guests who are experienced practitioners at all levels of government. The themes will vary according to the instructor, but will focus on particular challenges in politics and governance. Please consult the department website for more detail.
39 Hours  Fee: $596.79

The Politics of Human Needs  CPOL 106

The central consideration of politics in general is the attainment of the ‘good society’. Examining how fundamental human values shape the political institutions that we create, this course adopts a ‘human needs approach’ to politics. Identifying the basic needs of humans, the course investigates how well or poorly countries are able to provide for those human needs. It compares and contrasts the varying approaches to wealth creation and wealth distribution currently populating the world system. (LL)
39 Hours  Fee: $581.34

Politics and Film  CPOL 128

Films often mirror society in both intentional and unintentional ways. Some are overtly political, some reflect changing values and some are made purely for entertainment. This course will reflect on the various political perspectives which enable students to critically assess films. It will assess the role films play in reinforcing or debunking stereotypes. These themes will be examined in the context of the film industry in Canada and internationally. (LL)
39 Hours  Fee: $581.34

Immigration and Settlement in Canada  CPOL 129

Canada is often described as a country of immigrants. By examining Canada’s immigrant tradition, this course introduces students to a number of distinctive characteristics of Canada as a political community. Topics and themes include: changes in Canadian immigration policies; immigration and Canadian identity; how global migration is transforming modern politics; and the nature of human rights in an age of migration. Is Canada becoming a uniquely multicultural political community? (LL)
39 Hours  Fee: $581.34

Globalization and World Politics  CPOL 208
Antirequisite(s): POG 225

This course examines political conflict and instability in world politics. What are the political consequences of globalization? Why is nationalism and ethnic intolerance on the rise? What explains the eruption of political unrest and war? These issues are explored through current examples of political upheaval around the world. (POL 208 is not available for credit to students who choose POG 225.) (LL)
39 Hours  Fee: $581.34

Canadian Politics and Social Policy  CPOL 220
Antirequisites: POG 210, POG 316, POL 27B, POL 120, POL 302, POL 332, CPPA 120

This course examines the development and role of social policy in Canada. A major theme is the ideas, values and beliefs which shaped income support, health care and education policy and the impact of the welfare state on individual well being and opportunity. The course will focus on the politics of social policy and the factors which have led to the erosion of the welfare state in Canada.
39 Hours  Fee: $572.07

Women, Power and Politics  CPOL 501
Antirequisite(s): POG 442

Have women come a long way? What is feminism? How do racial minority, aboriginal, immigrant, or lesbian women differ in the way in which they prioritize political and social issues? What about the impact of religion, class and disability? This course examines public policies in Canada relating to women and work (the “glass ceiling”, gender segregated labour force, domestic labour), sexuality (harassment, violence), health (reproductive technology), family, and political representation. How do different women identify directions for change? (POL 501 is not available for credit to students who choose POG 442.) (UL)
39 Hours  Fee: $571.04
For the most current information, including scheduling options, visit www.ryerson.ca/ce.

Power, Change and Technology  CPOL 507
How does technology shape society? How does it shape us? On what basis are decisions made in a technological society? What type of future will modern technology create? Who is in control? This course will examine these questions and the impact of technology on cultural, economic and political life in modern society. The political implications of future developments in reproductive and biotechnologies, global communications, automation, etc. will be evaluated. (UL)
39 Hours Fee: $562.80

Issues in Third World Politics  CPOL 540
This course examines the 'Third World' and the structures of domination from colonization to the contemporary neoliberal order. The focus is on issues of global inequality, gender, ethnic, racial and religious inequality, human security, development and democracy, and the interventions of global and regional institutions. The course will also examine whether social and political movements in the Middle East, Asia, Latin America and Africa offer hopes to advance struggles for democracy and global justice. (UL)
39 Hours Fee: $556.62

Social Movements and Politics  CPOL 601
This course will examine social movements that effect political change, their historical roots, their international dimensions, and the ways in which they fit within the social movement literature. Students will be introduced to the major approaches and debates in the academic study of social movements. Emphasis will be placed on understanding social movements historically and in context, especially in view of developments in political economy, expansions/contractions in popular democracy, and the impact of information technologies. (UL)
39 Hours Fee: $573.10

Politics of Technology and Globalization  CPOL 607
This course examines the role of technology within a global context. What will it mean to be part of a global audience, work in a global factory, shop in a global supermarket, be governed by a world government? Can technology help to solve problems of environmental depletion and pollution? What role does technology play in escalating militarism around the world? Can technology reduce the gap between the rich and the poor within nations and between nations? (UL)
39 Hours Fee: $562.80

Practicum  CPPA 50A/B
Prerequisite(s): Department consent
Antirequisite(s): PPA 31B, PPA 51B
Enrolment in the Practicum Option and this course requires evidence of at least two years of full-time and appropriate work experience relevant to the application of knowledge and skills in public administration. Students must also have completed PPA333 and at least seven of the courses in Required Group 3 in order to be enrolled in this course. Students will conduct reviews of literature relevant to their practicum project, and a substantive research paper drawing on those reviews and their public sector work environment and experience. (Formerly PPA30A/B).
78 Hours Fee: $1197.28

Cdn Public Administration I: Institutions  CPPA 101
This course looks at contemporary public administration in democratic society. It is examined in light of alternative methods of organization, including that of the private sector, as well as our fundamental requisites for democracy, such as the rule of law. It also examines the role of the machinery of government in maintaining the public system of administration as it undergoes contemporary attempts to restructure the role of the state under the ongoing demands of its leaders and citizenry. (Formerly PPA 322).
39 Hours Fee: $598.85

Cdn Public Administration II: Processes  CPPA 102
Prerequisite(s): CPPA 101 or PPA 322
This course introduces the process of leading and managing the public sector in Canada with an emphasis on the problems of political and administrative accountability. Students are introduced to the structure and process of policy formulation, implementation and evaluation; as well as to topics in intergovernmental relations; and the impact of public-private partnerships. The prime foci are the budgetary process, issues in personnel management and the drive for economies and efficiencies; government regulation, and e-government. (Formerly PPA 422.)
39 Hours Fee: $598.85

Canadian Politics and Government  CPPA 120
Antirequisite(s): CPOG 110, POG 210, POL 27A/B, POL 101, POL 102, CPOL 220, POL 332
In analyzing Canada’s federal political system, this course assesses the ideas, interests and institutions that help define the limits of both state and societal power. It will provide students with a clear understanding of the workings of the system of governance guiding their everyday lives as citizens and as professionals. Topics include political culture and ideas; the social and economic context; and the constitutional and institutional mechanisms of governance. (Formerly POL 302, POL332)
39 Hours Fee: $598.85
Ontario Politics and Government  
Antirequisite(s): POG 310 (formerly PPA 522)

The Government of Ontario plays a central role in the lives of Ontarians, taking responsibility for such things as health, education, transportation, and municipal governments. It is also a major player in the economies of the province and the country. This course examines the structure and operation of the Ontario government, as well as the ideological, economic, social, and political forces at work in the making and operating of the government.

39 Hours  
Fee: $598.85

Local Politics and Government  
Antirequisite(s): POL 123, POG 410

This course examines the structures that influence local government decision-making. A significant amount of the material will draw from the Greater Toronto Area (GTA); however, relevant examples from other jurisdictions within Canada will be discussed. Weekly topics include: the history of local/municipal government, democracy versus efficiency, urbanization, political and administrative structures, finance, sustainable cities, and the role of major stakeholders such as business, labour, and citizens groups in the municipal arena.

39 Hours  
Fee: $598.85

Indigenous Politics and Governance  
Antirequisite(s): CRM 400 and POG 440

This course examines the social, political, legal, and historical context of Indigenous peoples in Canada and their political mobilization. Through an exploration of key challenges, flash points, and current issues, the course will foster a better understanding of Indigenous efforts around self-government, nation-building, recognition/implementation of Aboriginal and treaty rights, land claims, and the socio-economic gap that disadvantages Indigenous peoples in Canada.

39 Hours  
Fee: $598.85

Rights, Equity and the State  
Antirequisite(s): POG 315

This course provides a critical examination of how the State manages the issue of human rights. It explores the development of human rights through the Charter of Rights and Freedoms; the Canada Human Rights Act; provincial codes; landmark judicial rulings; and the impact of United Nations conventions, covenants and declarations on Canadian state practices. Students are encouraged to situate an understanding of human rights issues within a broader social, political, economic and public administration framework.

39 Hours  
Fee: $598.85

Public Policy  
Antirequisite(s): PPO 370 or PPA 422

This course offers both a thematic and a practical introduction to the Canadian public policy-making process, beginning with the context in which ideas, institutions and interests inform public policy. With the use of a variety of contemporary social, economic and environment policy cases, the course examines the process by which public policy is formulated, implemented and evaluated - including its success rate. Lastly, the changing nature of, and contemporary challenges to, policy making are explored. (Formerly PPA 623).

39 Hours  
Fee: $598.85

Theories of the State  
Antirequisite(s): CPPA 702

This course examines major theoretical perspectives on modern industrial states, including pluralism, neoliberalism, Marxism and feminism. An effort is made to relate each perspective to relevant political issues of the day. In the final section of the course a number of thematic issues are considered from the perspective of state theory such as the role of social movements in shaping state policies and the impact of globalization on democracy and the viability of the nation-state. (Formerly PPA 525).

39 Hours  
Fee: $598.85

Administrative Law  
Antirequisite(s): CPPA 702

This course examines the statutory and regulatory basis of Canadian public administration. The course explores existing techniques of control of delegated power and their role in influencing conduct. It analyses the regulatory function of administration, as well as the institutional and procedural characteristics and practices of administrative tribunals and judicial review. (Formerly PPA 303).

39 Hours  
Fee: $598.85

Financial Management  
Antirequisite(s): PPA 400

This course will provide students with an overview of public sector planning and budgetary processes, the financial management systems within governmental organizations, and mechanisms for ensuring accountability. Changing structures of accountability and the merging of private and public sector budgeting, planning and management principles will be critically evaluated. Students will also be given hands on training in accessing the financial and budgetary information relevant to public and parapublic organizations. (Formerly PPA 600).

39 Hours  
Fee: $598.85
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CPPA 319</td>
<td>Politics of Work and Labour</td>
<td>This course examines how labour, employers and government interact to regulate how Canadians work. Students will acquire an enriched understanding of the employment environment in their career field. An historical context is first established to explain the evolution of work, unions and government labour policy in Canada. The course then examines the legislative framework before exploring such controversial employment issues as union organizing, public sector collective bargaining, strikes, minimum wage, overtime, and health and safety issues. (Formerly POG 319).</td>
</tr>
<tr>
<td>CPPA 402</td>
<td>Program Planning and Evaluation</td>
<td>When governments choose to intervene in a policy area, they create programs. This course examines the process by which planning and evaluation of government programs takes place and explores the various methods that are used to determine whether programs are achieving their objectives. Programs in a broad range of areas will be examined, including health, criminal justice, education, welfare, environment, housing, poverty, and development. (Formerly PPA 602).</td>
</tr>
<tr>
<td>CPPA 333</td>
<td>Research Methods in Public Administration</td>
<td>This is a one-semester course utilizing both lecture and lab experience. No familiarity with the fundamental elements of research or statistics is assumed. The course gives students of public administration the practical methods needed to statistically describe and analyze phenomena and to present those results. Emphasis throughout the course is on practical uses and application of these techniques, rather than on their mathematical derivations. (Formerly PPA 524).</td>
</tr>
<tr>
<td>CPPA 403</td>
<td>e-Government</td>
<td>Deployment of information and communication technologies (ICTs) in public administration has influenced the state's internal operations, modes of service delivery, and interactions between the state and society. The course examines e-government policy, e-administration, e-service, and e-democracy. It also investigates key challenges e-government faces: privacy and security, digital divide, and legal infrastructure. (Formerly POG413).</td>
</tr>
<tr>
<td>CPPA 335</td>
<td>Theories of Bureaucracy</td>
<td>This course surveys different approaches to organization and bureaucracy in advanced industrial societies. The major focus is on the exercise of power and control in organizations and the implications of this for different organizational groups. The course also examines a number of areas about which traditional approaches have been relatively silent, especially those dealing with race, gender and class. Another major theme of the course involves analysis of the changing nature of work, focusing on how new information technologies have affected the distribution of power and control in the workplace. (Formerly PPA 624).</td>
</tr>
<tr>
<td>CPPA 401</td>
<td>Collaborative Governance</td>
<td>This course examines the expanding use of “partnerships” between government and other agents, both public and private, in the delivery of “public goods”. Challenged by fiscal pressures and demands for more involvement in policy-making and delivery of services, governments have experimented with new mechanisms ranging from integrated procurement to networked regulation. This course will consider the ideological drivers, management practices and consequences of these new administrative arrangements on governance, public administration and democracy. (Formerly PPA 601).</td>
</tr>
<tr>
<td>CPPA 404</td>
<td>Issues in Public Administration</td>
<td>This course responds to key issues in today’s rapidly evolving public sector. Students will examine key issues in Canadian and comparative context. Using applied and theoretical reading, class discussions, case studies and presentations from guests who are experienced practitioners at all levels of government, the course emphasizes issue analysis in the context of public sector change and reform. Consequently, the issues covered by this course will change from year to year. (Formerly PPA 604).</td>
</tr>
<tr>
<td>CPPA 414</td>
<td>Comparative Public Policy</td>
<td>Contemporary public policy is inherently comparative in nature. Policy advisors, decision-makers and citizens are increasingly exposed to the policies of other jurisdictions. They are also increasingly prone to use this information to settle policy disputes. Comparisons of several countries and policies are used in order to better understand the nature of policy making in general. These countries and policies may vary from year to year in order to study current policy issues.</td>
</tr>
</tbody>
</table>
Intergovernmental Relations  
**CPPA 425**

Prerequisite(s): CPPA 102 or PPA 422 or (CPOG 110 and POG 210) or POL 332 or CPPA 120;  
Antirequisite(s): POG 416

This course examines both the formal and informal relations between the federal and provincial governments of Canada, as well as the effect these relations have on Canadian politics and public policies. Themes include national unity and regional diversity, elite decision making and democratic participation, the Aboriginal question, Quebec separation, and the effects of federal/provincial turf wars on social, environment and economic policies and programs. The course culminates in a 1st Minster’s Conference simulation. (Formerly PPA 650).

39 Hours Fee: $598.85

Public Sector Leadership  
**CPPA 501**

Prerequisite(s): CPPA 211 and CPPA 404

This course will offer an overview of literature in public sector leadership in a comparative context (Canadian, other Westminster systems, republican regimes), and include the opportunity to hear and meet public sector leaders who have experienced leadership first-hand. The capstone assignment will focus on leadership in a chosen field of inquiry. Designed for students in the post-baccalaureate Certificate in Public Administration and Leadership, this course should be attempted by undergraduate students only upon completion of all undergraduate program courses.

39 Hours Fee: $627.69

---

**Program and Portfolio Management**

These courses cover the distinct body of knowledge, skills, and strategies relevant to managing multiple projects and programs. For more information, visit [www.ryerson.ca/ce/ppm](http://www.ryerson.ca/ce/ppm).

---

**Overview of Program Management**  
**CKPP 110**

Prerequisite(s): Department consent

This course will review the meaning and significance of a program, as well as the specialized processes and techniques required to manage a program, such as program monitoring, measurement and control, managing change, risk management, objective achievement and program leadership.

Note: Enrollment for this course requires permission of the instructor/department. Please complete and submit an application for pre-approval form or contact Debbie Wilk, Manager, Program Support, at dwilk@ryerson.ca.

19.5 Hours Fee: $500.58

---

**Overview of Portfolio Management**  
**CKPP 120**

Prerequisite(s): Department consent

This course will review the meaning and significance of a portfolio, as well as the specialized processes and techniques required to manage a portfolio, such as project and program selection, communication, risk, and portfolio balancing.

Note: Enrollment for this course requires permission of the instructor/department. Please complete and submit an application for pre-approval form or contact Debbie Wilk, Manager, Program Support, at dwilk@ryerson.ca.

19.5 Hours Fee: $500.58

---

**Program and Portfolio Governance**  
**CKPP 130**

Prerequisite(s): CKPP 110 or CKPP 120

This course will investigate Project/Program/Portfolio Management Office (PMO) paradigms, as well as the concept of organizational maturity and how it can be effectively used to deliver projects. The course will also review the roles and responsibilities of management, sponsors, internal committees, and other stakeholders in project and program delivery.

19.5 Hours Fee: $456.29
Program and Portfolio Management

Organizational Strategy Through Projects
Prerequisite(s): CKPP 110 or CKPP 120

Ultimately, the success of any organization can be measured by its ability to achieve its strategic plan. Projects are the means through which organizations ‘get things done’, while portfolios are the link between projects and strategy. This course will review the basic elements of strategic planning, how they are developed and maintained, and how organizations can use programs and projects to deliver strategic objectives.

19.5 Hours
Fee: $456.29

Financial Measurements for Success
Prerequisite(s): CKPP 110 and CKPP 120

Project success is typically measured as ‘on time’, ‘on budget’, and ‘on scope’. However, the success of programs and portfolios is measured in terms of contribution to the organization, i.e., the achievement of strategic objectives or the advancement of their organization’s strategic plan, including whether the program returned its investment, increased market share, improved customer satisfaction, or increased productivity. This course explores various metrics for calculating success, and how they can be used to effectively communicate the success of programs and portfolios to stakeholders.

19.5 Hours
Fee: $454.23

Managing Programs and Projects Virtually
Prerequisite(s): CKPP 110 and CKPP 120

Virtual teams are now common, but present challenges to most organizations. Traditional models of team building offer only anachronistic means for dealing with the increased complexity of managing global teams. This course looks at tools and techniques that will assist in project governance, team building, task coordination, scheduling, cost management, and other project-related areas for virtual teams.

19.5 Hours
Fee: $478.95

Enterprise Risk Management
Prerequisite(s): CKPP 110 and CKPP 120

This course is designed to fulfill the demand from organizations for advanced expertise in the critical area of enterprise risk management. Because programs and portfolios are becoming increasingly larger, more complex, and more globally diverse, risk management is a key factor in their success or failure. In this course, students will explore the identification, assessment, and appropriate response to enterprise risks including looking at brand, legal, and organizational risks.

19.5 Hours
Fee: $454.23

Advanced Leadership Skills
Prerequisite(s): CKPP 110 and CKPP 120

This course supports current and aspiring program and portfolio managers by cultivating communication, negotiation, group facilitation, conflict resolution, and stress management skills. Participants will identify their personal areas of strength and opportunities for growth through a series of tools and exercises, including an individual plan for development based on their needs and interests. This course allows participants to continually refresh and improve their interpersonal skills in a supportive environment, with constructive feedback and involvement from fellow professionals.

19.5 Hours
Fee: $478.95

Leading Organizational Change
Prerequisite(s): CKPP 110 or CKPP 120

Change is the only certainty in business. The globalization of business has accelerated organizational change over the last twenty years and will likely continue to do so well into the 21st Century. Projects and programs are used by organizations to implement change. This course is designed to understand what organizational change can mean to individual stakeholders within and outside of the organization. The course will provide tools and techniques to lead your team and organization through change.

19.5 Hours
Fee: $454.23

Creating Balanced Portfolios
Prerequisite(s): CKPP 110 and CKPP 120

For portfolios to be successful, they must ensure that the organization’s strategic objectives are achieved. The most critical element of a portfolio is to select the best group of projects and programs to be executed in the portfolio at a given time. This involves the careful balancing of numerous factors, including human and non-human resources, budget risk, timing, and priorities. This course will examine the techniques that can be used to select and prioritize project and programs for a portfolio, and to ensure that the portfolio is balanced across multiple dimensions.

19.5 Hours
Fee: $454.23

Crisis Management and Program Recovery
Prerequisite(s): CKPP 110 or CKPP 120

This course examines the factors which contribute to project failure, and the ways in which project management processes can reduce their likelihood. Students will be equipped with tools and strategies for effective project management in public and private sectors, in addition to learning how projects can be used to advance an organization’s strategic plan.

19.5 Hours
Fee: $454.23
Global Program Management  
**CKPP 280**  
Prerequisite(s): CKPP 110 or CKPP 120

Global programs are becoming more common. This course will examine the unique features of global project, such as working with international teams, measuring program success, defining program objectives, program monitoring, and control.

19.5 Hours  
Fee: $454.23

Program and Portfolio Management Research  
**CKPP 310**  
Prerequisite(s): CKPP 110 or CKPP 120

Under the supervision of an industry expert, students will explore the scholarship surrounding a particular issue arising from program or portfolio management. Students will be encouraged to study issues relevant to their own workplace and career interests. Merits of this course include the unique learning benefits of in-depth study, self-selected and personally-relevant subject matter, as well as maximal scheduling flexibility. Students will be graded on the basis of either a literature review or a research paper, which they must have pre-approved by their course supervisor.

39 Hours  
Fee: $755.00

Program and Portfolio Management Practicum  
**CKPP 320**  
Prerequisite(s): CKPP 110 or CKPP 120

In this practicum, students will consider the knowledge gained throughout the certificate in a practical environment. Students will spend time in a project management organization, exploring which project management theories work, which fail, as well as what skills and strategies might improve their host organization. Students will be assessed on the basis of a case study which they will prepare after acquiring pre-approval from their course supervisor.

39 Hours  
Fee: $755.00

ACT II STUDIO: Acting Skill Development

Acting Without Text  
**CSAC 240**  
Prerequisite(s): CSAC 102 or CSAC 106

In-depth work with the most basic and simplest kind of acting using concepts of Zone of Silence, Intention, Action, Activity, and Environment. This important course will help you to be more playful, more truthful, and more present in dramatic situations.

Note: Instructor: Richard Beaune

12 Hours  
HST included  
Fee: $196.73

Meisner Technique I: Listening  
**CSAC 442**  
Prerequisite(s): CSAC 114

Sanford Meisner was the last of the great triumvirate (Stella Adler and Lee Strasberg are the other two) who pioneered Stanislavsky’s system in America. His unique approach helps actors, “Live truthfully under imaginary circumstances”. This course on the art of listening, focuses on the foundation of the technique and will increase concentration, promote relaxation in the actor and relieve self consciousness.

Note: Instructor: Cindy Christensen

12 Hours  
HST included  
Fee: $196.73

PROGRAMS FOR 50+

Programs for 50+ at The Chang School offers a broad range of special programs to provide you with personal enrichment, self-actualization, and a continuing connection to society in a community of like-minded people. In addition, from time to time, special workshops, lecture series, and courses designed to enhance these learning opportunities are offered. Visit [www.ryerson.ca/ce/programs50plus](http://www.ryerson.ca/ce/programs50plus) for more information.

The 50+ Festival is our annual celebration of later life learning that showcases our theatre program along with a wide range of stimulating lectures, speakers, and talented older adults. To learn more, visit [www.fiftyplusfestival.ca](http://www.fiftyplusfestival.ca).

The Caring Clown program is for older adults who want to make a difference in the community. A specific training program allows Caring Clowns the opportunity to bring joy and laughter to isolated seniors in long-term care homes. Find out how you can make a difference at [www.ryerson.ca/ce/caringclown](http://www.ryerson.ca/ce/caringclown).

The Estelle Craig ACT II STUDIO is a theatre school and creative drama centre providing training and performance opportunities for adults 50+. It has grown to become a prominent leader in the area of older adult theatre education and creativity. For a more detailed description of this program, visit [www.ryerson.ca/ce/act2](http://www.ryerson.ca/ce/act2).

The LIFE Institute is the largest program partner in Programs for 50+ and offers a wide variety of study groups and lecture courses in the Arts, Humanities, Sciences, and Technology and Contemporary Issues, along with social activities to keep you connected. For more information about their current offerings, visit [www.thelifeinstitute.ca](http://www.thelifeinstitute.ca).

Meisner maintained that the actor should never do or say anything until something makes the action or words necessary. In part two of Meisner’s technique, the Art of Connection, we will focus on the actor building their trust with working from an instinctual place with the other actor and the ability to connect through the actor’s behaviour.

Note: Instructor: Cindy Christensen
14 Hours HST included Fee: $231.75

Meisner Technique III: Truth CSAC 444
Prerequisite(s): CSAC 443
This section will focus on creating and bringing a vibrant and authentic inner emotional life to the work. It will build on the foundational principles of the first two courses and will introduce text work.

Note: Instructor: Cindy Christensen
14 Hours HST included Fee: $235.00

ACT II STUDIO: Clown and Comedy

Introduction to Clown CSAC 109
Prerequisite(s): CSAC 114
The clown touches on your most authentic self and is the basis of all acting. Discover your personal clown through games, improvisation and intuitive exercises meant to evoke a sense of fun. Learn to become keenly aware of your environment and develop an honest response to your impulses. Learn to interact with your audience with openness.

Note: Instructor: Vrenia Ivanoffski.
The instructor will have some noses for sale or bring your own.
12 Hours HST included Fee: $196.73

The Art of Comedy CSAC 180
Prerequisite(s): CSAC 114
Discover what makes comedy work. We’ll look at the elements of comedy - timing, rhythm, framing, intention, takes, physicality, character, and other skills. A variety of scripts from Sheridan to Neil Simon will be explored for their style and particular demands. During the hour lunch break, you’ll rehearse with a scene partner. We’ll then reconvene to view the scenes and discuss them.

Note: Instructor: Vrenia Ivanoffski
12 Hours HST included Fee: $183.00

Clown Cabaret CSAC 209
Prerequisite(s): CSAC 109
This class will give you playing opportunities to explore and hone your unique clown character. From this we’ll craft a short clown “turn” which expresses your clown’s special relationship to the world. The class will culminate in a Clown Cabaret performance. Class limit: 9 students.

Note: Instructor: Vrenia Ivanoffski
12 Hours HST included Fee: $196.73

NEW

Comedy Performance Preparation CSAC 386
Prerequisite(s): CSAC 180
Using the play “The Dining Room”, by A.R. Gurney, we will do scene and character analysis as a class. You will have a chance to try several scenes during this process. Scenes will be assigned on the completion of this phase.

Note: Instructor: Vrenia Ivanoffski
Those enrolling in this course must plan to take the follow-up course, CSAC 387.
18 Hours HST included Fee: $187.58

NEW

Comedy Performance CSAC 387
Prerequisite(s): CSAC 386
Continuing our work on “The Dining Room”, you will have the opportunity to experience the stages of presenting a show from rehearsals, to move-in, technical and dress rehearsals, opening night, closing the show and strike.

Note: Instructor: Vrenia Ivanoffski
24 Hours HST included Fee: $196.62

ACT II STUDIO: Directing

Directing: An Introduction CSAC 127
Prerequisite(s): CSAC 114
Everything about directing from concepts to opening night. Also a valuable course for actors who want to know about the view from the other side.

Note: Instructor: Vrenia Ivanoffski
16 Hours HST included Fee: $244.10

Directing Practicum I CSAC 129
Prerequisite(s): CSAC 127
Take a scene/short play from auditions to opening night! You’ll get guidance and feedback as you put your skills into practice in rehearsals and production meetings. Pieces will be presented at the Shaw and Stratford lectures. (Those who have previously completed CSAC 129 may join this class for a nominal fee).

Note: Instructor: Vrenia Ivanoffski
21 Hours HST included Fee: $272.95

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
ACT II STUDIO: Improvisation

♦ Introduction to Improvisation CSAC 182
Activate your imagination and learn to think on your feet. Limited to 16 students.

Note: Instructor: Katherine Ashby

Students who have completed CSAC 182 may take CSAC 282, CSAC 382, CSAC 482, or CSAC 582 in any order.

8 Hours HST included Fee: $133.89

♦ Improvisation I: Fun and Games CSAC 282
Prerequisite(s): CSAC 182
Finding the fun is the most important skill an improviser can have. We will focus on finding the fun and releasing ourselves to play while brushing up on some old improv games and learning new ones. Limited to 16 students.

Note: Instructor: Katherine Ashby

14 Hours HST included Fee: $231.75

♦ Improvisation II: Group Mind CSAC 382
Prerequisite(s): CSAC 182 or CSAC 282
This magical workshop will use games, scene work, and music to lead you to work as a group with one mind - Group Mind. You will discover how to take the focus and pressure off of yourself and become part of a creative whole. Limited to 16 students.

Note: Instructor: Katherine Ashby

14 Hours HST included Fee: $231.75

♦ Improvisation III: Character CSAC 482
Prerequisite(s): CSAC 182 or CSAC 282
In this important class, we will focus on building characters emotionally, physically, and intellectually. You will find what works best for you and discover how this helps your improvisation work to become more exciting and creatively rich. Limited to 14 students.

Note: Instructor: Katherine Ashby

14 Hours HST included Fee: $231.75

♦ Improvisation IV: Making a Scene CSAC 582
Prerequisite(s): CSAC 182 or CSAC 282
We will work on Long Form scenes, learning what to focus on in order to build a scene without the pressure to be funny. Limited to 14 students.

Note: Instructor: Katherine Ashby

14 Hours HST included Fee: $231.75

ACT II STUDIO: Introductory Acting

♦ Introduction to Acting I CSAC 101
Discover the joy of acting in a playful, relaxed, and supportive environment. You’ll stimulate your imagination, awaken your senses, develop your listening skills, and learn about stagecraft.

Note: Instructor: Vrenia Ivanoffski

12 Hours HST included Fee: $154.49

♦ Introduction to Acting II CSAC 102
Prerequisite(s): CSAC 101
Discover the actor’s basic tools for bringing text and characters to life, with a special session devoted to movement, breath, and voice.

Note: Instructors: Vrenia Ivanoffski and Liz Rappeport

15 Hours HST included Fee: $195.69

♦ Introduction to Scene Study CSAC 114
Prerequisite(s): CSAC 102 or CSAC 106
Breathe life into text! Using David Mamet’s ‘Duck Variations’ we’ll analyze the text and explore motivation, character, structure, rhythm, and how to make interesting choices.

Note: Instructor: Vrenia Ivanoffski

12 Hours HST included Fee: $172.01

ACT II STUDIO: Lectures/Forums for Theatre Lovers

♦ Shaw Festival Preview CSAC 501
These spirited lectures will enrich your theatre-going experience. Lectures on selected plays being offered this season at the Shaw Festival will be spiced with lively anecdotes, readings, short scene presentations, discussions, and background information on authors and theatre history. Enjoy some coffee, tea, and cookies and informal discussion during the half-time break.

Note: Instructor: Vrenia Ivanoffski

8 Hours HST included Fee: $75.19

♦ Stratford Festival Preview CSAC 502
These spirited lectures will enrich your theatre-going experience. Lectures on selected plays being offered this season at the Stratford Festival will be spiced with lively anecdotes, readings, short scene presentations, discussions, and background information on authors and theatre history. Enjoy some coffee, tea, and cookies and informal discussion during the half-time break.

Note: Instructor: Vrenia Ivanoffski

8 Hours HST included Fee: $75.19
ACT II STUDIO: Mask

Introduction To Neutral Mask  CSAC 190
This course will take you on a powerful journey of physical self discovery. You will experience how to move in an authentic, energized, and intentional way, devoid of personal character traits and physical noise which can interfere with your acting. This course will help you find a calm, joyful, and centred core from which to work.

Note: Instructor: Vrenia Ivonoffski
Please wear comfortable, solid coloured clothes you can move in.
9 Hours   HST included   Fee: $153.00

ACT II STUDIO: Monologue and Scene Study

Monologues: The Basics  CSAC 106
Learn the building blocks for a solid emotionally connected monologue. Class limit: 10 students.

Note: Instructor: Les Porter
12 Hours   HST included   Fee: $175.09

Scene Exploration I  CSAC 115
Prerequisite(s): CSAC 106 or CSAC 114
Learn how to analyze and activate a short text and make strong choices using objective/obstacle/action. Develop and strengthen your creative impulses through scene work and improvisation. Class work will be presented at a matinee or in class. Class limit: 12 students.

Note: Instructor: Aaron Willis
18 Hours   HST included   Fee: $282.22

Scenes From Canadian and Other Plays  CSAC 215
Prerequisite(s): CSAC 115
An intermediate level course in scene study. Develop a process that works for you through in-depth studies with a partner. Rehearsal with your scene partner between classes is expected. Class work will be presented at a matinee. Class limit: 12 students.

Note: Instructor: Les Porter
18 Hours   HST included   Fee: $282.22

Comedy Monologues  CSAC 306
Prerequisite(s): CSAC 106
Discover the challenges of comedy - structure, timing, and characterization. Each participant will prepare, for performance at one of the Matinees, one monologue selected from a range of genres from the comedy of manners of Oscar Wilde to the corrosive satire of George F. Walker. Class limit: 12 students.

Note: Instructor: Les Porter
12 Hours   HST included   Fee: $196.73

Readers' Theatre Techniques  CSAC 313
Develop special skills needed for staged readings: act while holding the script, create a defined character, make strong choices, and work off other actors.

Note: Instructor: Vrenia Ivonoffski
This course is a prerequisite for those wishing to act in Readers' Theatre performances.
4 Hours   HST included   Fee: $75.19

NEW

Scene Study: Tennessee Williams  CSAC 314
Prerequisite(s): CSAC 215
Tennessee Williams' plays require actors to have a solid grounding in the craft of acting. Through the process of scene study, we will apply the principles of Uta Hagen's approach to acting to hone your own technique and help you to inhabit Williams' iconic characters. We will also explore how Williams' experience of the South impacts the world of these plays.

Note: Instructor: Catherine Hayos
CSAC 559 is an ideal accompaniment to enrich your experience of this course.
21 Hours   HST included   Fee: $328.00

Advanced Scene Study: Beckett  CSAC 516
Prerequisite(s): CSAC 315, CSAC 515, CSAC 517, CSAC 586, or CSAC 517.
Through lectures, discussion, and scene study, we'll explore Samuel Beckett's unique style of “humour through adversity”, and experience how he captures the spirit of everyday life. Texts include 'Waiting for Godot' (read at least once before first class), 'Endgame,' 'Happy Days,' and 'Rough for Theatre I'. Scenes will be performed with costumes and props at a matinee. Class limit: 10 students.

Note: Instructor: Geoffrey Baines
21 Hours   HST included   Fee: $322.39

ACT II STUDIO: On-Camera Acting

Acting on Camera A to Z  CSAC 169

Note: Instructor: Graham Orwin
Supplies needed: An additional fee of $10 will be collected in the first class to cover the costs of materials.
15 Hours   HST included   Fee: $230.72
Focus on Film I  
Prerequisites: CSAC 169
Build on your on-camera skills with short film scenes. We'll focus on script work, blocking, and performance consistency. Class limit: 10 students.

Note: Instructor: Graham Orwin
Supplies needed: An additional fee of $10 will be collected in the first class to cover the costs of materials.

ACT II STUDIO: Playwriting

Playwriting Basics  
CSAC 151
What makes a play tick? Why use the stage rather than a novel or film to tell a story? We will clarify the essential components that make up an effective stage play: plot, conflict, character, shape, and dramatic tension. In-class writing exercises will help illustrate some of these points, but you will not be required to write a play for this class. Required reading: Albee's 'The Zoo Story' and Molnar's 'The Play's the Thing'.

Note: Instructor: Mitchell Cushman

Rewrites: Beyond Tinkering  
CSAC 253
Editing your own work is a difficult task. We will tackle short writing exercises to demonstrate how to transform a script rather than merely tinker with it.

Writing the Monologue  
CSAC 454
If it bends, it's funny; if it breaks, it's not funny - or so they say. Bending and breaking the rules is what comedy on stage is all about, but first you need to learn the rules. We'll learn how to make an audience laugh by exploring what makes us laugh. Discover your own comic view, how to express it, and with what structure and tone. Class limit: 12 students.

Writing Comedy for the Stage  
CSAC 455

Reading Plays: Contemporary Comedies  
CSAC 457
Comedy is one of the most powerful tools a playwright has. Keep an audience laughing and there's no end to the connection you can forge with them or ideas you can impart. In this discussion-based Reading Plays class, we will look at works by some comedic masters of the past few decades including Tom Stoppard, Alan Ayckbourn, Michael Frayn, Martin McDonagh, Yasmina Reza, and Michael Healey.

Note: Instructor: Mitchell Cushman

NEW

NEW

NEW
NEW

Reading Plays: Tennessee Williams  CSAC 559
We’ll explore the work of this masterful post-war dramatist and look at Williams’ life and how the characters, settings, and action of his plays resonate with his personal experience. Please read “The Glass Menagerie”, “Cat on a Hot Tin Roof”, “Summer and Smoke”, and “A Street Car Named Desire”. Additional reading: “Memoirs” by Tennessee Williams, and/or “The Kindness of Strangers: The Life of Tennessee Williams” by Donald Spoto.

Note: Instructor: Catherine Hayos

This course is an ideal accompaniment to enrich your experience of CSAC 314.

8 Hours  HST included  Fee: $110.00

ACT II STUDIO: Shakespeare Study

Shakespeare: Yes You Can!  CSAC 105
Hate Shakespeare? Love Shakespeare? Get to know the Bard better! Embark on a journey through the textual codes that guide the actor. A fascinating course for actors and non-actors alike, guaranteed to change forever how you approach the printed word. Texts provided.

Note: Instructor: Vrenia Ivonoffski

14 Hours  HST included  Fee: $231.75

ACT II STUDIO: Voice and Movement

For all Voice and Movement courses, please wear comfortable, non-binding clothing you can move in and shoes that you can slip on and off, if possible. Bring a mat or large towel, a notebook, and water. Also, have a short (1 minute max) memorized piece of text to work with.

Voice Work Basics  CSAC 111
Discover how your voice works and develop a clearer and more open, expressive voice. Class limit: 14 students.

Note: Instructor: Kate Lushington

8 Hours  HST included  Fee: $118.45

Movement Lab I: Grounding and Taking Space  CSAC 322
Develop physical presence on and off stage. We’ll do movement which will help you feel more connected to your intention and character and help you develop more ease and stability in movement and performance. Class limit: 12 students.

Note: Instructor: Liz Rappeport

3 Hours  HST included  Fee: $37.09

Movement Lab II: Fluidity and Expressiveness  CSAC 323
Increase your comfort, depth, and range of expressiveness. We’ll work with simple and gentle movements which will engage your whole body to help you release energy blocks and feel more free to move.

Note: Instructor: Liz Rappeport

3 Hours  HST included  Fee: $37.09

Transformative Movement Intensive  CSAC 424
This workshop will transform you by changing the way you think about your body, by uniting body and mind in movement and by opening you to the kind of presence that actors need to commit to an intention, take space, find ease, and feel energized. We’ll work with deep relaxation, alignment, self-discovery through movement, authentic movement, dance, sound, and Neutral Mask. The class will be held in an airy studio location at Ryerson.

Note: Instructors: Liz Rappeport and Vrenia Ivonoffski

13 Hours  HST included  Fee: $193.64

Caring Clown

Through several courses, students are trained in clowning techniques and achieve an understanding of aging and the dementia process. For information about the Caring Clown program, see page 110 or visit the website at www.ryerson.ca/ce/caringclown.

Strengthen Your Clown Character  CSCC 200
The workshop will focus on strengthening and deepening your clown character. Discover both the innocence and experience of your clown by expanding your clown’s physicality and different emotional states. When you commit more deeply to the world of your clown, you inspire a greater degree of trust in others, and yourself.

Note: Limited to 12 students. Supplementary workshop for the Caring Clown program.

4 Hours  HST included  Fee: $36.05

Clowning Into the World of the Other  CSCC 201
Bring a new dimension to your caring clown. Learn new skills of play and engagement to add to your practice. This workshop focuses on entering the world of the resident and keeping the play alive while staying “in clown”. Group warm-ups and partner games will strengthen non-verbal and physical listening skills. Your clown can then indulge in playful experiences that facilitate brain stimulation and improve social interaction.

Note: Supplementary workshop for the Caring Clown program.

4 Hours  HST included  Fee: $36.05

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Music Therapy and Caring Clown  
**CSCC 202**

Music enhances mental, physical, emotional, and spiritual well-being and is a powerful tool designed to widen the scope of a Caring Clown practice. Through hands-on experience with various musical instruments, voice and breath work, you will learn basic techniques to use in your work. Explore how music creates a therapeutic connection as it relates to issues around aging such as memory, focus, and pain management.

*Note: Supplementary workshop for the Caring Clown program.*

4 Hours  
Fee: $0.00

- **Caring Clown Basics**  
**CSCC 910**

This course focuses on the understanding and practice of clowning techniques used in therapeutic facilities, with emphasis on long term care homes. Included are the history, ethics, and principles of Caring Clown and therapeutic humour; information related to aging, dementia, and other chronic illnesses and the care facility environment; and creating a unique character. Includes development of a character clown and role playing practice for individual and small group clowns.

*Limited enrollment, by interview. (Formerly CSAC 910)*

*Note: This course is part of the Caring Clown program.*

21 Hours  
HST included  
Fee: $260.59

- **Caring Clown Practicum**  
**CSCC 911**

This practicum continues the work begun in CSCC 910, by giving students opportunities to gain practical experience as caring clowns in various long term care homes. Students will clown with individual and small groups of residents in designated units. Students will be expected to spend time in rehearsal outside of regular class hours and submit a written journal outlining their experiences and learning. Upon successful completion, students will have opportunities to volunteer in long term care homes.

*Limited enrollment, by interview. (Formerly CSAC 911)*

*Note: This course is part of the Caring Clown program.*

17 Hours  
HST included  
Fee: $85.48

Media Arts

Learn the latest in media arts in a supportive environment. Study films and cinema history, attend writing workshops, make your own films, and direct you own movie, with like-minded, creative peers.

- **Film Club**  
**CSMA 111**

Join us as we watch a film and discuss the approaches and themes with Kevin Courrier, film critic and instructor at The G. Raymond Chang School of Continuing Education.

*Note: This course is not restricted to older adults.*

12 Hours  
HST included  
Fee: $57.69

**PROJECT MANAGEMENT**

These courses in project management provide you with an opportunity to acquire a level of knowledge and expertise that will permit you to contribute effectively to the management and the control of costs within any project environment. For more information, visit [www.ryerson.ca/ce/pm](http://www.ryerson.ca/ce/pm).

**Project Management**

For further information about Professional Development Units (PDUs), see Project Management Institute at [www.ryerson.ca/ce/deignations](http://www.ryerson.ca/ce/deignations).

*Related certificate(s): Architectural Preservation and Conservation (pg. 19), Architecture (pg. 21), Architecture, Advanced (pg. 22), Community Engagement, Leadership, and Development (pg. 29), Computer Programming Applications (pg. 30), Design Management (pg. 36), Energy Management and Innovation (pg. 40), Facility Management (pg. 48), Health Studies (pg. 63), Nursing Leadership and Management, Advanced (pg. 83), Project Management (pg. 89), Project Management for Technical Professionals (pg. 91), Sustainability Management and Enterprise Process Excellence (pg. 104)*

- **Strategic Project Mgt (Tech Prof)**  
**CKPM 123**

This highly practical, interactive course will equip technical professionals with team-building expertise and communications in service to delivery on strategic projects. This course also equips technical professionals to perform project manager roles with within an engineering sector organization including managing scope, quality, time, cost, risk, and communications. Through situational analysis and scenario analysis, participants will gain key non-technical competencies needed to build and lead effective project teams.

39 Hours  
Fee: $755.00

- **Fundamentals of Project Management**  
**CKPM 202**

This course will familiarize the student with the concepts and basic functions of the project management body of knowledge, including scope, quality, time, cost, risk, procurement, human resource, and communication management. The integration of these functions into a project management system, and the role of the project manager and project support staff, will be examined. This course will provide students with a basic knowledge of project management as preparation for other courses in the program.

39 Hours  
Fee: $755.00

*Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999 (page 331)).*
Planning and Scheduling  CKPM 203
Prerequisite(s): CKPM 202 or CITM 750

The course deals with the application of the Critical Path Method (CPM)/Pert Networks for time control of a project. Topics covered include: the total project as a system, criteria for assessing the suitability of network presentations, project analysis, and decision-making, and the use of computers for network analysis and report production. The practical aspects of installing and operating a planning and scheduling system are emphasized throughout the course. (39 PDUs)

Note: Students must have access to Microsoft Project for Windows to be successful in this course. The Apple (Mac) operating system is not supported by this course.

39 Hours  Fee: $755.00

Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999 (page 331)).

Project Management Systems  CKPM 207
Prerequisite(s): CKPM 202 or CITM 750

This course will provide the candidate with the concepts, knowledge, and skills to enable creation of a basic project development and management system using MSProject as the primary tool. Candidates will identify required components; design a basic project development and management system; set up, plan, and create project plans; schedule the activities; cost the project; communicate the information to others; manage changes as they occur; and evaluate the results. A study of this area requires the candidates to understand the needs of clients, the needs of parent organizations, the limitation of system applications, and an understanding of the hardware and the software interface windows, menus, templates, and other features. (39 PDUs)

Note: Students must have access to Microsoft Project for Windows to be successful in this course. The Apple (Mac) operating system is not supported by this course.

39 Hours  Fee: $755.00

Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999 (page 331)).

Project Risk and Quality Management  CKPM 209
Prerequisite(s): CKPM 202 or CITM 750

The Project Management Institute (PMI) recognizes Risk and Quality Management as two of the key knowledge areas of project management. This course covers the fundamental aspects, analytical tools, and methods of both areas. In particular, the course covers the basic processes of risk planning, identification, qualitative analysis, quantification, risk response development, and risk control. The course also deals with concepts of quality and their integration into project planning, execution, and control. It addresses the customer and the organizational perspectives on quality, the cost of quality and the use of statistical tools to manage quality improvements in projects. (39 PDUs)

39 Hours  Fee: $755.00

Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999 (page 331)).

Leadership in Project Management  CKPM 211
Prerequisite(s): CKPM 202 or CITM 750

A successful project manager not only understands the technical project management skills (scope, schedule, cost, quality, and risk), but also has solid leadership and other soft skills. This course is designed to introduce students to leadership concepts and skills as they apply to projects. In addition, the course will discuss other soft skills required by a project manager, including team building, managing conflict, communication, and other tools and techniques. (39 PDUs)

39 Hours  Fee: $755.00

Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999 (page 331)).

Project Cost and Procurement Management  CKPM 212
Prerequisite(s): CKPM 202 or CITM 750

Management of cost and contracts is one of the key functions of the project manager. This course will outline various key concepts of project cost management including: financial and management accounting fundamentals, cost management system fundamentals, basic budgeting and responsibility accounting, and cost management reports. In addition, the course will review the procurement cycle including RFPs, contracts, and legal requirements. (39 PDUs)

39 Hours  Fee: $755.00

Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999 (page 331)).
Management of Projects in the AEC  CKPM 213
Prerequisite(s): CKPM 202
Market assessment, bidding strategies and advanced procurement methods are examined in the context of organizational structures required for the various delivery methods. An in-depth examination of techniques of time and cost control required to support these techniques is carried out. This course places emphasis on the application of theory to practice through cases studies. (39 PDUs)

39 Hours  Fee: $755.00

Project Development and Control  CKPM 214
Prerequisite(s): CKPM 202
This course examines the context of the business environment in which AEC projects are planned and developed and executed. It investigates the contractual relationships of key stakeholders in order to identify mutual influences and their impact on key project constraints. It reviews advanced techniques of time and cost trade-off, resource allocation and implications of project cash flow analysis and assessment. (39 PDUs)

39 Hours  Fee: $755.00

Emerging Trends in Project Management  CKPM 215
Prerequisite(s): (CKPM 202 or CITM 750) and CKPM 203, CKPM 209, CKPM 211, CKPM 212
Building on the core courses, this course will explore four to six key topics in project management. The topics in the course will change depending on current issues and availability of subject matter experts. The course will allow students to understand the background to the issue, discuss the impact on project management, and present their ideas. (39 PDUs)

39 Hours  Fee: $755.00

Project Management Internship  CKPM 216
Prerequisite(s): Prerequisite:(CKPM 202 or CITM 750) and CKPM 203, CKPM 209, CKPM 211, CKPM 212
Students choose from two options: a field placement or a research/development project. All options emphasize student’s development as an emerging professional. For field placement, students must arrange for an opportunity to volunteer as a project manager and submit a report. The research/development project offers students the opportunity to explore an area of specialization in more detail. (39 PDUs)

Note: This course may be taken as individualized study/directed reading; please contact the Academic Coordinator, John Estrella, at jestrella@ryerson.ca prior to enrolling.

39 Hours  Fee: $755.00

Enterprise Project Mgt (Tech Prof)  CKPM 456
Prerequisite(s): CKPM 202
This course examines the critical enterprise role of the project director or executive team, analyzes why significant progress has not been made, and explores how this holistic approach can be used to manage projects in today’s complex organizations. Through situational analysis and scenario analysis, there will also be a focus on extreme project management - a project in which the stakes are high, the luxury time is nonexistent, quality is paramount, and resources are few. (39 PDUs)

39 Hours  Fee: $755.00

PMP Exam Prep Workshop  CKPM 980
The PMP Examination Preparation Workshop is designed to prepare students for the PMP exam offered by PMI through providing them an overview the key project management concepts, sample exam questions, and hints and tips. Students must have good knowledge of project management tools, techniques, processes, and procedures. The workshop will provide the contact hours required for the PMP exam.

48 Hours  Fee: $1193.16

Material Fee: A material fee of $100 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

PMP Exam Prep  CKPM 990
Prerequisite(s): CKPM 202
This course features specialized support in preparation for the Project Management Professional (PMP) exam.

Note: Students must have taken CKPM 202 based on the revision of the PMBOK guide used in the PMP exam they intend to write.

24 Hours  Fee: $658.25

Material Fee: A material fee of $100 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Note: This course is offered in the Spring/Summer term as part of ‘Project Management Bootcamp’ (CKPM 999).

Project Management Bootcamp  CKPM 999
Project Management Bootcamp allows participants to complete six of the courses required to earn the Certificate in Project Management through an intensive program. Lectures and coursework are scheduled four days a week and the fifth day is allotted to a self-study/group work with access to instructor support. Students will have PMP exam prep simulations with sample question and answer review led by the instructor.

Note: For more information, visit www.ryerson.ca/ce/pm.

234 Hours  Fee: $5169.00
PSYCHOLOGY

Psychology courses address questions about the nature of human behaviour: how and why we act, think, feel, and reason, and how these questions are investigated through research.

Psychology

Related certificate(s): Community Engagement, Leadership, and Development (pg. 29), Criminal Justice and Criminology (pg. 32), Demographic Analysis (pg. 34), Ethics (pg. 46), Gerontology (pg. 57), Health Studies (pg. 63), Mental Health and Addictions (pg. 77), Psychology (pg. 92), Social Sciences and Humanities Foundations (pg. 101)

Clinical Supervision - Best Practices  
COPS 150  
Prerequisite(s): Department consent

This course is for psychologists, psychiatrists, MSW social workers, and mental health professionals who are engaged in clinical supervision; or PhD students in a Clinical Psychology program who have completed the first year of their program, preferably with supervisory experience. Topics include models of supervision; core competencies of supervisors; techniques of supervision; crisis intervention; teaching and learning in supervision; gatekeeping functions; supervision across theoretical models; corrective feedback; mentoring of supervisees; and ethical and legal considerations.

39 Hours HST included Fee: $668.90

NEW

Sleep and Dreaming  
COPS 151

The course provides students with biobehavioural perspectives on sleep. Topics will include healthy sleep across the life cycle; sleep deprivation; understanding how we produce sleep and maintain wakefulness; dreams; and sleep disorders. The course will emphasize theoretical and therapeutic perspectives with empirical support.

39 Hours HST included Fee: $591.00

Independent Study  
COPS 250  
Prerequisite(s): (CPSY 102, CPSY 105, CPSY 11A/B, or CPSY 11), CPSY 601, and Department Consent

In this course students produce a comprehensive paper in a selected area. Each student is assigned a faculty member from the Department of Psychology to guide the development of the project.

Note: This course is the final course of the certificate. To enroll, candidates must have successfully completed the above prerequisites, plus an additional three electives from either the Certificate in Mental Health and Addictions or the Certificate in Psychology.

Students planning to enroll in this course should contact the continuing education academic coordinator, Department of Psychology (416.979.5000, ext. 6195), in the first week of September or January, in order to be assigned a departmental faculty advisor.

39 Hours Fee: $591.64

Research Methodology  
COPS 601

In this course, students will be introduced to basic statistical concepts and procedures, learn to analyze data with the aid of a calculator, and gain experience in using computer software to analyze larger data sets. There will be an emphasis on research design as related to the appropriateness of various statistical procedures.

Note: Formerly CPSY 601.

39 Hours Fee: $572.07

Introduction to Psychology I  
CPSY 102  
Antirequisite(s): PSY 11, CPSY 105

This course introduces students to psychology, the scientific study of behaviour and cognition, by examining the basic principles of psychology and their applications to everyday experience. The course surveys some core areas of psychology including research methods, biological bases of behaviour, sensation and perception, memory, and cognition.

39 Hours Fee: $581.34

Perspectives in Psychology  
CPSY 105  
Antirequisite(s): CPSY 102

This course introduces students to psychology by exploring several viewpoints within the discipline, such as the biological, behaviourist/learning, cognitive, and psychodynamic perspectives. The emphasis is on examining the ways in which these perspectives have influenced our understanding of how people act, think, and feel, and the contributions that each has made to psychology as a discipline. PSY 105 is not available for credit to students who choose PSY 102. (LL)

Note: Students may not enroll in CPSY 105 if they are also taking or have already passed PSY 11B or PSY 11.

39 Hours Fee: $581.34

Social Psychology  
CPSY 124  
Antirequisite(s): CPSY 102 or CPSY 105 or PSY 11  
Antirequisite(s): CPSY 504, PSY 24

This course examines the influence of social factors on the behaviour of the individual. Topics include affiliation, aggression, prejudice, social cognition, the development and measurement of attitudes, persuasion, socialization, conformity and group behaviour. These topics are explored from a North American and cross-cultural perspective.

39 Hours Fee: $571.04
Introduction to Psychology II

Prerequisite(s): CPSY 102 or CPSY 105

This course continues the introduction to psychology from PSY 102, with a focus on applying psychological principles in different contexts. The course surveys some core areas of psychology, including personality, development over the life span, behaviour in a social context, and psychological disorders.

39 Hours
Fee: $581.34

Psychopharmacology

Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102
Antirequisite(s): CPSY 607

This course examines a variety of issues surrounding the use, mechanisms, and actions of psychoactive or mind-altering drugs. The course focuses on two main contextual topic areas: drug addiction, and drug treatment of mental illness. Each of these areas is explored in depth, including the role of genes, biochemistry, cognition, and personality factors.

39 Hours
Fee: $556.62

Psychological Addictions

Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course introduces students to basic principles and issues in the area of addiction, the factors that influence its development, and the methods used to treat it. The similarities and differences between addictive disorders and other forms of psychopathology are discussed. The course studies both experimental and clinical approaches to addiction. The course covers the various instruments and methods used by addiction researchers and clinicians and discusses their strengths and weaknesses.

39 Hours
Fee: $562.80

Psychology of Gender

Prerequisite(s): PSY 11 or CPSY 102 or CPSY 105
Antirequisite(s): PSY 535

This course involves an examination and critique of psychological theory and research related to gender. Broad topics to be addressed include: gender development, stereotyping and gender roles, sexism, and the impact of gender on intimate relationships, achievement, and psychological and physical health. A key goal of the course is to foster an appreciation for how gender may be relevant to students' working and personal lives. PSY 304 is not available for credit to students who choose PSY 535. (LL)

39 Hours
Fee: $571.04

Psychology of Thinking

Antirequisite(s): PSY 108

This course discusses human information-processing abilities and limitations in critical-thinking contexts such as solving problems, making decisions, testing hypotheses, and understanding probabilities. Individual and social factors that affect the efficiency of these processes will be examined, and the consequences of poor thinking processes for the individual and for society will be considered. PSY 308 is not available for credit to students who choose PSY 108. (LL)

39 Hours
Fee: $571.04

Biological Psychology

Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course is concerned with integrating the understanding of human behaviour and the understanding of physiological mechanisms relating to behaviour, particularly those of the nervous system and brain. Students are introduced to neurons and neurophysiology, neuroanatomy, neurochemistry, and the methods used in physiological research. These core areas allow students to understand how nervous system mechanisms contribute to sensorimotor function, ingestion, sexual behavior, memory, thought, language and consciousness, addictions and psychological disorders.

39 Hours
Fee: $562.80
★ Psychological Disorders  
**CPSY 325**  
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102  
Antirequisite(s): CPSY 606  
This course examines conceptions of abnormality, how psychological disorders are classified, and how they are treated. The DSM classification system and alternative systems will be critically considered, and the causes of psychological disorders will be discussed from a variety of perspectives (e.g., behaviourist, humanist, sociocultural). Specific disorders to be discussed include mood disorders, schizophrenia, substance-related disorders, somatoform and dissociative disorders, personality disorders, eating disorders, and anxiety disorders. In addition, the course includes consideration of cross-cultural factors, and legal and ethical issues. (Formerly the first half of PSY 040.)  
39 Hours  
Fee: $562.80

★ Social Psychology  
**CPSY 504**  
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102  
Antirequisite(s): CPSY 124, PSY 24  
Social Psychology is an extremely diverse field that generally deals with people in social situations. Core topics include social behaviour such as aggression, obedience, conformity, intimate relationships, and how groups function. They also include attitudes, social cognition, social perception, prejudice and feelings of guilt, all of which are assumed to affect social behaviour. Basic methodological issues will be discussed as they pertain to the above topics. PSY 504 is not available for credit to students who choose PSY 124. (UL)  
39 Hours  
Fee: $556.62

★ Clinical Psychology  
**CPSY 335**  
Prerequisite(s): CPSY 325  
Clinical psychology concerns the assessment, diagnosis, and treatment of individuals who experience social, emotional, behavioural, and mental health problems. Topics covered include the history of clinical psychology, professional and ethical issues, assessment and diagnosis of mental health problems, modalities of treatment (e.g., individual, group, family), therapeutic orientations and their methods and techniques, and current issues. This course combines a study of theory, research, and practice. (Formerly the second half of PSY 040.)  
39 Hours  
Fee: $562.80

★ Adult Development  
**CPSY 402**  
Prerequisite(s): CPSY 105 or PSY 11 or CPSY 102  
Antirequisite(s): PSY 22B  
All of us hold beliefs about what it means to be an adult and what it means to grow old. In this course, students examine their beliefs in light of scientific evidence on adult development and aging. Theories and empirical findings related to changes in physical, cognitive, personality, and social processes are examined. Contextual influences of family, culture, and historical era are emphasized. A recurrent theme is the tremendous diversity and individual variability in aging.  
39 Hours  
Fee: $562.80

★ Personality Theory  
**CPSY 505**  
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102  
This course discusses the pattern of psychological characteristics that differentiate each of us from others and lead us to act consistently across some situations. Major perspectives on the understanding of these patterns are discussed, including the theorists aligned with each approach. (Formerly the first half of PSY 036.) (UL)  
39 Hours  
Fee: $562.80

★ Environmental Psychology  
**CPSY 518**  
Prerequisite(s): CPSY 102 or CPSY 105  
Antirequisite(s): PSY 217  
Environmental psychology examines the interaction between people and their physical, natural, and human environments both large scale such as cities, and small scale such as residences. The course studies how we perceive and think about our environments, how our thoughts, emotions, and actions are influenced by our environments, and how we in turn affect the environments we inhabit and use.  
39 Hours  
Fee: $562.80

★ Developmental Psychopathology  
**CPSY 602**  
Prerequisite(s): CPSY 320 and (PSY 11 or CPSY 102 or CPSY 105)  
Antirequisite(s): PSY 32B, PSY 32  
This course examines psychological disorders in children and adolescents, taking into account the developmental context in which such disorders occur. Topics include classification and assessment, anxiety disorders, depression, conduct disorders, attention deficit disorder, autism, schizophrenia, and eating disorders.  
39 Hours  
Fee: $562.80
Psychology of Health and Health Care  CPSY 605
Prerequisite(s): PSY 11 or CPSY 102 or CPSY 105

This course will offer insight into the psychological influences on health, with an emphasis on the application of psychological principles to health care delivery and disease prevention. Among the topics discussed are general health promotion, patient-practitioner interaction, stress, pain, and psychological issues in chronic and life-threatening illness.

39 Hours  Fee: $562.80

Abnormal Psychology  CPSY 606
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102
Antirequisite(s): CPSY 325

This course studies clinical syndromes ranging from the mild patterns of personality pathology to the more severe disorders. In addition, the techniques involved in the diagnosis of disorders and the types of therapy available will be examined. PSY 606 is not available for credit to students who choose PSY 325. (UL)

39 Hours  Fee: $556.62

Drugs and Human Behaviour  CPSY 607
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102
Antirequisite(s): CPSY 214

This course introduces students to the social, psychological and biological factors involved in the use and effects of psychoactive drugs and drug-taking behaviour. The course examines two aspects of drug use: addiction and the drug treatment of mental disorders. It addresses current issues such as the use of designer and performance-enhancing drugs. Topics range from historical, social, and cultural aspects of psychoactive drug use, to neurobiology and pharmacology underlying drugs and drug use. PSY 607 is not available for credit to students who choose PSY 214. (UL)

39 Hours  Fee: $562.80

Psychology of Sport  CPSY 614
Prerequisite(s): CPSY 105 or PSY 11 or CPSY 102

This course examines sport by applying psychological theory and research to the many different domains of sport. Topics include personality and the athlete; attention, anxiety, and arousal; motivation, leadership, exercise adherence, and development of expert performance. (UL)

39 Hours  Fee: $562.80

Psychology of Immigration  CPSY 620
Prerequisite(s): CPSY 105 or CPSY 102

In this course we will examine the issue of immigration from the perspective of experiences of immigrants and receiving societies. Broad topics to be addressed include: (i) immigration trends and societal effects, (ii) acculturation, ethnic identity, and cultural conflict, (iii) causes, forms, and experiences of prejudice and discrimination against immigrants, and (iv) strategies for promoting acceptance of diversity (e.g., multiculturalism). Throughout, the Canadian context of immigration will be emphasized. (UL)

39 Hours  Fee: $562.80

Psychology of Human Sexuality  CPSY 621
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course examines contemporary knowledge and attitudes towards human sexuality. Multiple perspectives will be presented, including psychosocial, cross-cultural and psychobiological. Sexuality across the life span will be examined, including issues pertaining to: biological sexual differentiation, intimacy and communication, gender role development, varieties of sexual relationships and behaviour, contraception, procreative technologies, and sexually transmitted diseases and HIV. (UL)

39 Hours  Fee: $562.80

The Psychology of Criminal Behaviour  CPSY 622
Prerequisite(s): CPSY 300 and CPSY 325

This course covers a range of topics regarding the onset and maintenance of criminal behaviour. A variety of perspectives are examined, including biological, learning, and psychodynamic theories, and many areas within psychology are discussed, including social psychology, cognition, lifespan development, individual differences, and the identification and treatment of psychological disorders. Specific topics may include risk factors, typologies of offenders, special populations, risk-assessment instruments, treatment and rehabilitation of offenders, and interventions to reduce criminal behaviour.

39 Hours  Fee: $562.80

Personal Growth and Positive Psychology  CPSY 706
Prerequisite(s): PSY 11 or CPSY 105 or CPSY 102

This course focuses on growth and well-being. The first part of the course will examine different models of what is meant by growth and well-being, including the Jungian psychoanalytic, humanistic psychology and existential psychology perspectives, as well as those of Native Peoples, Yoga/Hinduism, Buddhism and Zen Buddhism. The remainder of the course will survey positive psychology’s empirical findings on factors that contribute to growth and well-being (e.g., optimism, hope, meaning-making, self-esteem). (UL)

39 Hours  Fee: $556.62
Every society produces stressors to which the members of that society must respond. In our society stress is commonplace, but the origins, effects and handling of stress are often poorly understood. Through the examination of psychological models of stress, this course seeks to make students aware of the stressors present in our society and of their own personal resources for adjustment and growth. PSY 707 is not available for credit to students who choose PSY 805. (UL)

39 Hours  Fee: $562.80

This course presents a comprehensive review and critical analysis of empirical findings on death, dying and bereavement. There will be a discussion of research-based techniques for dealing with the problems and stresses encountered in helping the dying or grieving person to adjust.

39 Hours  Fee: $562.80

This course will offer insight into stress, its consequences, and what individuals can do to cope. There is a balance of theory and applied information, and although we will concentrate on psychological variables, physiological issues are also considered. Among the topics discussed: popular models of stress, sources of stress, the influence of cognitions and personality on one’s appraisal process, and strategies for successful stress management.

39 Hours  Fee: $562.80

This course is designed to provide students with a sound knowledge of behaviour theory and a set of skills essential to the behaviour modification process. Course requirements include completion of a project in which students design and implement a programme to modify some aspect of their own behaviour (e.g., smoking, over-eating, coping with interpersonal conflict).

39 Hours  Fee: $562.80

This course involves an examination and critique of psychological theory and research related to prejudice, discrimination, and intergroup relations. Broad topics to be addressed include: the causes of prejudice, contemporary manifestations of prejudice and discrimination, experiences of the targets of prejudice, and approaches to reducing prejudice and group inequality. PSY 807 is not available for credit to students who choose PSY 940. (UL)

39 Hours  Fee: $562.80

In general, community psychology is concerned with the application of psychological principles to social issues such as child abuse, homelessness, school violence, racism, crime, and chemical dependency. This course will examine a number of topics related to community psychology including theories of community psychology, research methods, community mental health, prevention programs, the community practitioner as social change agent, and applications of community psychology to other settings and situations.

39 Hours  Fee: $556.62

Cross-cultural psychology is the critical and comparative study of cultural effects on human psychology. This course examines the linkages between cultural norms and behaviour, and the ways in which particular human activities are influenced by different, sometimes dissimilar, social and cultural forces. Topics covered will include motivation, development, emotion, social perception and social interaction. Some applied aspects of cross-cultural psychology, such as prejudice and acculturative stress, will also be discussed.

39 Hours  Fee: $565.89
This program provides a curriculum that is relevant to the current and emerging practice of public relations in order to equip students with the skills necessary to perform.

Public Relations

Related certificate(s): Public Relations (pg. 96)

- **Public Relations Principles** CDPR 100
  This course presents students with the basic concepts and principles of public relations. Topics explored include the history and trends, processes, and practices areas of public relations. Students will also learn the elements of communication planning and implementation, including research, communication plan development, writing, and evaluation. Public Relations Principles I is the foundation course for all other courses in the Public Relations certificate program. (Formerly CDPR201) (Equivalent to BDC 917/RTA 917).

  39 Hours  Fee: $667.00

- **Business Presentations** CDPR 102
  Prerequisite(s): CDPR 100 or CDPR 201
  
  Public relations (PR) practitioners must be adept at developing business presentations for themselves and their business leaders. This course will identify and review the principles for effective business presentations. PR practitioners will develop practical skills to build effective presentations to meet communications objectives for multiple stakeholders.

  Note: Students with five years of professional PR experience may apply to the Academic Coordinator, Nick Douloff (ndouloff@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

  19.5 Hours  Fee: $399.64

- **Advanced PR Writing** CDPR 103
  Prerequisite(s): CDPR 111 and (CDPR 100 or CDPR 201)
  As public relations (PR) practitioners advance in their careers, there are more opportunities to prepare reports, plans, speeches, and proposals for senior leadership, executives, and clients. The advanced PR writing course will provide PR practitioners with examples and extensive practice to continue to hone their writing skills. Particular focus will be on clarity, plain language, organization of thoughts and ideas, and understanding audience information needs.

  Note: Students with five years of professional PR experience may apply to the Academic Coordinator, Nick Douloff (ndouloff@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

  19.5 Hours  Fee: $399.64

- **Planning Programming and Budgeting** CDPR 104
  Prerequisite(s): CDPR 100 or CDPR 201
  This course will explore the management of public relations and communication programs within organizations. Topics include identifying and setting strategy, creating and executing effective public relations projects, and the foundations of budgeting.

  39 Hours  Fee: $689.49

- **Research and Program Evaluation** CDPR 105
  Prerequisite(s): CDPR 104, CDPR 111, and (CDPR 100 or CDPR 201)
  This course provides an opportunity for learners to apply techniques of research and evaluation to investigate public relations issues. Students will learn both qualitative and quantitative strategies for public relations practice. Working both individually and in small groups, student will conduct a systematic secondary research report and a primary research report; learn to create and apply online metrics platforms; and conduct a study of an organizational public relations campaign.

  39 Hours  Fee: $689.49

- **Media Relations** CDPR 106
  Prerequisite(s): CDPR 100 or CDPR 201
  This course will provide students with strategies and tactics to develop and deliver effective media relations activities, including relationship building, media planning, media training, and interviews, along with supporting materials such as media releases, media kits, media conferences, and Q&As.

  39 Hours  Fee: $689.49

- **Public Relations Project** CDPR 107
  Prerequisite(s): Department consent
  This course will provide learners with an opportunity to assess the theory and skills required by an actual public relations challenge. Students who work in public relations are expected to submit a program or project report including an assessment of their work based on best practices. Students who, because of employment or other sufficient reasons, are unable to submit a program or project report may receive the required credit by doing a major paper.

  39 Hours  Fee: $689.49

- **Social Media in Public Relations** CDPR 108
  Prerequisite(s): (CDPR 100 or CDPR 201)
  This course will explore the impact of social media on the role of the public relations practitioner. It will identify and review in detail principles for effective engagement with stakeholders and customers, using core social media tools for listening, messaging, relationship building and participating in social networks and other online communities.

  39 Hours  Fee: $689.49
NEW

Reputation Management  CDPR 110
Prerequisite(s): CDPR 100 or CDPR 201
A strong and lasting reputation is an organization’s most important attribute. Establishing and enhancing this intangible asset is a complex and intensive process. This course will examine the role of the public relations practitioner in building, enhancing, and managing an organization’s reputation.
19.5 Hours  Fee: $399.00

Writing for Public Relations  CDPR 111
Prerequisite(s): CDPR 100 or CDPR 201
Learners will study the strategy and the basic concepts of effective public relations writing, including the use of a variety of communications tools used in public relations programs. The emphasis will be on the preparation of materials such as media releases, newsletters, brochures, letters, memos, reports, proposals, backgrounders, and public service announcements within the context of program planning and audience targeting.
39 Hours  Fee: $689.49

Internal Communications Management  CDPR 113
Prerequisite(s): CDPR 100 or CDPR 201
This course will explore the theory and practice of the key PR function of internal communications management. A discussion of the management and planning of internal communications, the politics of organizations and needs of employees, together with practical applications of traditional and social media, will provide students with the tools to advise senior management and effectively deal with internal audiences.
39 Hours  Fee: $689.49

Corporate Social Responsibility  CDPR 115
Prerequisite(s): CDPR 100 or CDPR 201
This course will explore the foundations and philosophy of corporate social responsibility (CSR), its role as a governance function, reporting requirements, and emerging trends. Areas of exploration will include the roles and responsibilities of the public relations practitioner in developing a CSR program; in securing engagement, buy-in, and support for the program; and in developing strategies to address the needs of stakeholders, including clients, shareholders, employees, activists, the community, and the environment.
19.5 Hours  Fee: $399.64

PUBLISHING

Learn how to turn a manuscript into a book, a report, or other document. Editing, design, production, sales and marketing, new digital workflows – master all the skills involved in this complicated process through our Publishing courses and certificate program.
For course offerings in Journalism, see page 262.
For course offerings in Magazine and Web Publishing, see page 272.
For more information, visit www.ryerson.ca/ce/publishing.

Publishing
Related certificate(s): Publishing (pg. 97)

Publishing Overview: Trade  CDPB 100
This course provides an overview of all aspects of general or trade publishing, including children’s and mass market books. Specific topics include the structure and economics of the publishing industry in Canada; publisher-author relations; subsidiary rights and co-publishing; administration, editorial, design, production, and marketing. Over the 13 sessions, students will take a book from conceptualization to marketing.
39 Hours  Fee: $715.24
Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 342)).

The Business of Book Publishing  CDPB 101
Prerequisite(s): CDPB 100 or CDPB 200
This course is designed for non-financial people who are interested in the financial and management aspects of publishing. Specific topics include strategic planning and business management; understanding financial statements, budgeting, and forecasting; the decision to publish; sales, promotion, and distribution; contracts, copyright, subsidiary rights, and legal concerns; program planning, co-publishing, and packaging; and human resources considerations.
39 Hours  Fee: $715.24
Copy Editing for Books, Journals, and Reports  CDPB 102

This course outlines the basics of copy editing: consistency, correctness, and clarity. It is useful for people interested or working in any area of publishing and document preparation, including books, journals, reports, and newsletters. The emphasis is on ways to communicate the author’s message clearly and effectively to the reader. Specific topics include the editorial process; the author-editor relationship; house style and style sheets; editing on hard copy and on-screen; useful reference works; common problems in spelling, grammar, punctuation, and word usage; common issues in stylistic editing, such as reducing wordiness, editing to length, adjusting language level, and improving sentence variety; avoiding bias; editing titles and headings; editing captions, figures, tables, and maps; preparing preliminary pages and end matter, including notes, bibliographies, and appendices; conventions of different kinds of publishing; design considerations; an introduction to proofreading; editing indexes; and the job market.

Note: To enter CDPB 102, ideally you will score 80 or higher on the Diagnostic Grammar Test. This is a self-administered test to help you determine whether you should take Practical Grammar and Punctuation (CDPB 312) first.

This is a closed-book test. Give yourself 30-45 minutes to complete it. Once you have completed the test, please see the Diagnostic Grammar Test Marking Sheet for solutions.

If you score between 70 and 80 and decide to proceed directly into Copy Editing, please review grammar basics (See Practical Grammar by Maxine Ruvinsky). Under 70: we highly recommend that you take Practical Grammar and Punctuation (CDPB 312) before tackling Copy Editing.

39 Hours  Fee: $715.24

Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 342)).

Production for Books, Journals, and Reports  CDPB 103

This course is for individuals who are interested in the integral part production plays in the publishing process. Topics include print production management; the relationship between production, editorial, and marketing; the publishing team's structure and roles; project management and quality assurance of photography, illustration, and design; typography; prepress, proofing, paper, and printing processes (including digital printing); bindery processes; Internet applications related to print production; dealing with freelancers and suppliers; budgeting and scheduling; and emerging technologies. On successful completion of this course, the student will be familiar with an overview of the entire production process, concepts, products, and procedures for each aspect of print production, relationships within the publishing company and outside with the graphics community at large, and resources for further self-directed learning. The student will also be better prepared to manage print-related initiatives in all aspects of the publishing enterprise.

Note: Students are strongly recommended to take CDPB 100 or CDPB 200 before taking this course.

39 Hours  Fee: $715.24

Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 342)).

Introduction to Book Design  CDPB 104

This course outlines the basics of good book design in the context of evolving computer technology. The focus of the course is to equip the student with the knowledge, skills, and procedures necessary to make appropriate choices in designing books. Specific topics include designing appropriately for different audiences, selecting appropriate typefaces and sizes, making page layouts with photos and illustrations, matching visual structure to editorial structure, selecting appropriate materials, designing jackets and covers, and cost implications of design decisions. Although no specific computer application will be taught, students may be expected to complete assignments using either word-processing or page-layout applications.

Note: Students with experience in design or publishing may be admitted by permission of the coordinators.

39 Hours  Fee: $715.24

Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 342)).
Publicity for Book Publishers  CDPB 110
Generating publicity for a book and author plays a key role in a publisher’s overall marketing plan. The quality of publicity can determine whether a book succeeds or not. In today’s publishing world, creative publicity counts; the competition for people’s attention is fierce. This course looks at the many types of book publicity practised today. These include author media appearances, special events, tours, and a growing number of online initiatives. We will discuss campaigns, trade shows, and the need to position clearly the book and author. Students will look at case studies, undertake research, and create media kit materials. The course will also introduce the related field of public relations, which includes developing a publisher profile, improving brand awareness, involvement in the community, and occasionally a little crisis control.

39 Hours  Fee: $715.24

Publishing Overview: Education  CDPB 200
This course presents an overview of publishing in the following areas: elementary and high schools; colleges and universities; scholarly, legal, professional, business, and reference publishing. Students are expected to gain an understanding of the structure of these areas of the industry, who the publishers are, what they produce (from books to CD-ROMs to material delivered via the Internet), how they produce their products, who constitutes the market in the various areas, and how the publishers reach those markets.

39 Hours  Fee: $715.24

Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 342)).

Literary Rights Management  CDPB 201
Prerequisite(s): CDPB 100 or CDPB 200
This course provides an in-depth look at the exploitation of book subsidiary copyrights from the perspective of a rights manager or literary agent. Topics include serial and book club, foreign and translation, and film, television and ebook rights; working with scouts and co-agents; strategies used in relationship building, such as attending book fairs; and techniques used in the selling and negotiation of these copyrights. Students will gain a better understanding of copyright issues today.

Note: Students with equivalent experience may be admitted by the permission of the coordinators.

39 Hours  Fee: $681.25

Substantive and Stylistic Editing  CDPB 202
Prerequisite(s): CDPB 102
This course is for people interested in substantive editing, or the restructuring and improvement of book-length manuscripts for publication. Emphasis will be on gaining experience in the techniques of editing non-fiction and novels, but a full range of editorial topics will be covered, including how to assess manuscripts and acquire books; techniques for stylistic or line editing; editor-author relationships; scheduling; agents; research and permissions; and the editor’s role in most aspects of the publishing process.

Note: Students with experience in editing may be admitted by permission of the coordinators.

39 Hours  Fee: $715.24

Visual Skills for Publishing  CDPB 212
Visual literacy is the ability to interpret elements of design and understand how they are used in specific contexts, but visual skills must be honed if we are to become visually literate. This course addresses the integral role of visual communication in all aspects of publishing. Topics include the history of photography; image research and editing; permissions; editing and design of tables, graphs, diagrams, and maps; editorial-design and marketing-design interaction; technology and typography fundamentals; and effective print and web design.

39 Hours  Fee: $715.24

Note: This course is offered in the Spring/Summer term as part of ‘Publishing Intensive’ (CDPB 999 (page 342)).

Publishing for Children  CDPB 301
This course is designed for those who are interested in the particular considerations of publishing books for children. Through a combination of lectures, class discussion, and assignments, the following aspects are covered: different kinds of children’s books, from board books to novels; working with authors and illustrators; the special design and production requirements of children’s books; marketing books for young people; and issues such as censorship and sexism.

19.5 Hours  Fee: $399.64
Government Reports  CDPB 302
Prerequisite(s): CDPB 102

This course examines the particular problems involved in the preparation and publishing of government and other reports. The approach taken is one of project management, and the skills taught are applicable to many settings. The specific topics covered include working with inexperienced writers; committees as authors and editors; explaining the production process and timetable; establishing editorial, design, and production timetables within strict deadlines; simultaneous publication in English and French; and specific requirements, including documentation and confidentiality.

Note: Students with experience in editing may be admitted by permission of the coordinators.

19.5 Hours  Fee: $399.64

Scholarly and Reference Publishing  CDPB 304
Prerequisite(s): CDPB 102

This course provides a detailed examination of the publishing process for scholarly and reference books. Discussion focuses on the stages of publishing, including acquisition (proposal evaluation and developmental editing), editing (substantive and copy editing), production, and marketing of scholarly books. The central concerns of the editorial and marketing departments are explored at each stage, with attention to the ways in which the scholarly publishing industry differs from the trade and educational publishing industries. Other topics covered include the peer review process; budgeting for and funding of scholarly books; scholarly journals; CD-ROMs and reference books; and electronic publishing. Homework and assignments involve specific editorial skills related to scholarly and reference publishing (treatment of illustrations, tables and figures, notes, bibliographies, indexes).

Note: Students with experience in editing may be admitted by permission of the coordinators.

19.5 Hours  Fee: $399.64

Trade Books: Fiction  CDPB 306

This course examines the publishing of fiction. Specific topics examined are working with creative writers; particular problems of novels, short stories, or collections; genre editing; and formula fiction. The course provides hands-on experience in how to evaluate problems in fiction manuscripts and the various types of editing (structural, stylistic, copy) they require. It focuses on problems that are specific to fiction, such as dialogue, setting, and character development.

19.5 Hours  Fee: $399.64

Editing Books for Children and Teens  CDPB 309
Prerequisite(s): CDPB 100 or CDPB 102 or CDPB 200 or CDPB 301

This course is for those interested in editing books for young readers, from toddlers to teenagers. Topics include acquisitions of children’s and YA (young adults’) books; substantive editing and stylistic editing for picture books, novels, and non-fiction; author-editor relationships; and the particular considerations of editing books for developing readers.

Note: Students with experience in editing and/or within the children’s book industry may be admitted by permission of the coordinators.

19.5 Hours  Fee: $399.64

Proofreading for Books, Journals, and Reports  CDPB 310
Prerequisite(s): CDPB 102

This course will present the knowledge and skills needed for the proofreading of typeset material, with additional attention to proofreading electronically published texts. It will be of interest to those involved in the editorial process, layout, and management of the production process. Subjects will include principles and vocabulary of typography and layout; tools and reference materials; copy-to-copy and ‘cold’ proofreading methods; editorial responsibilities; evaluation of typesetting practice, including word breaks, spacing, and balance; proofreading of illustrations, figures, tables, and maps; preliminary pages, headers and footers, folios, and documentation; colour checking; second and subsequent proofs; printers’ proofs; and on-screen proofreading methods.

Note: Students with experience in copy editing may be admitted by permission of the coordinators.

19.5 Hours  Fee: $399.64

Indexing for Books, Journals, and Reports  CDPB 311
Prerequisite(s): CDPB 102

This course is for anyone going into publishing of non-fiction books, journals, or reports, or those already working in publishing who wish to add to their skill set. The focus will be on back-of-the-book indexing with additional application to journals, reports, and websites. Specific topics include general principles of indexing; kinds of indexes and their parts; the mechanics of indexing and indexing software; alphabetizing; punctuation; names and titles of publications in an index; editing an index; and the business of freelance indexing. Although the emphasis is placed on the practical craft of indexing, the art of an elegant index will also be addressed.

Note: Students with experience in editing may be admitted by permission of the coordinators.

19.5 Hours  Fee: $399.64

Material Fee: Students may be required to purchase student versions of indexing software.
Practical Grammar and Punctuation  
**CDPB 312**

This course demystifies subjects that many people today find daunting. It is aimed at native English speakers who feel they write competently but who wish to improve their understanding of grammar and punctuation, either for their own writing or in preparation to study editing. It will focus on building a useful vocabulary of language terms; identifying types of words (parts of speech) and their function in a sentence; studying groups of words (phrases and clauses), how they interrelate, and how punctuation illuminates these relationships; reviewing the roles of punctuation marks; applying punctuation principles to create clear, grammatical sentences; and understanding the evolving nature of “correct” English. If English is your first language and you would like to feel more confident in your writing skills, this course will interest you.

39 Hours  
Fee: $715.24

Digital Publishing and Production  
**CDPB 803**

Digital publishing and production is an ever-changing and integral area of the publishing industry. This course addresses the relevant technologies, workflows, and formats encompassing digital publishing. Topics include ebook formats, digital workflow, markup languages and associated technologies, digital publishing tools and processes, digital asset management, specifications, and metadata.

**Note:** To succeed in this course, you must know the fundamentals of computer use in either the Mac or Windows environment: creation and use of file folders; copying and deleting files; cutting and pasting; downloading files from Blackboard, email, or a website; and browser use. If you do not have these computer skills, it is strongly recommended that you take Production for Books, Journals, and Reports (CDPB 103) and/or Visual Skills for Publishing (CDPB 212) before tackling this course.

39 Hours  
Fee: $715.24

Publishing Intensive  
**CDPB 999**

The Publishing Intensive allows participants to complete six of the eight courses required to earn the Certificate in Publishing through an intensive three-month (12-week) program. This unique fast-track program covers both print and digital publishing, including overviews of industry sectors, both trade and educational, as well as skills-based training in copy editing, production, sales and marketing, and design skills for publishing.

**Note:** Enrollment is limited to 24 students.

To gain access to priority enrollment, students should register in the certificate program in advance of the priority enrollment period.

For more information, visit www.ryerson.ca/ce/publishing or contact the Academic Coordinators, Brad Horning and Meg Taylor, at publish@ryerson.ca.

234 Hours  
Fee: $4092.61

**RADIO, TELEVISION, AUDIO/VIDEO PRODUCTION**

The School of Radio and Television Arts is housed in the Rogers Communications Centre, a multimillion-dollar facility dedicated to the study of communications and electronic media. If you’re driven to be part of the multifaceted communication industry, this is the place to get started. For more information, visit [www.ryerson.ca/ce/rt](http://www.ryerson.ca/ce/rt).

Broadcasting and Media Production

Additional supplies may be required ($30-50). Related certificate(s): Media Writing Fundamentals (pg. 76)

**NEW**

**Creative Processes**  
**CRTA 102**

This introductory course focuses on principles, theories and practices of content development for a variety of media genres, formats and distribution platforms. Students explore the development of creative and fact-based content by using processes such as rapid prototyping, iterative design, story-chasing and script writing. Students emerge from the course with an understanding of how to take their creative ideas from inception to the creation of compelling content. (Formerly BDC 102).

39 Hours  
Fee: $642.00

**NEW**

**Media Writing**  
**CRTA 212**

Prerequisite(s): BDC 102/CRTA 102

Building on RTA 102 (Creative Processes), this courses focuses on writing for the screen and related platforms with an emphasis on fictional storytelling. Students consider major theories and schools of writing which will inform students? work and how they tell stories. Students then build on those theories to write their own script. (Formerly BDC 202).

39 Hours  
Fee: $642.00

**NEW**

**Dramatic Writing**  
**CRTA 941**

Prerequisite(s): BDC 202 or CRTA 212

This course demystifies the process of writing for the screen and encourages students to find their unique dramatic voice by writing an original script. Students analyze principles of dramatic storytelling and current dramas at the script level. Using story editing exercises, students learn how to structure a story, build dramatic tension and craft moving characters. By the end of the course, students develop an appreciation of the nature and purpose of drama. (Formerly BDC 941).

39 Hours  
Fee: $642.00

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
NEW

★ Advertising Copywriting  CRTA 942
Prerequisite(s): (BDC 102/CRTA 102 and BDC 202/CRTA 212) or BDC 901/CRTA 901

This course hones the student’s abilities in advertising copywriting and commercial writing. Students study and practice copywriting style and mechanics for traditional media such as radio and television and emerging and immersive methods of reaching consumers via Social Media and the Internet. Students learn effective strategies how to evaluate consumer needs and deliver a compelling message to motivate an audience. (Formerly BDC 942).

39 Hours  Fee: $642.00

NEW

★ Comedy Writing  CRTA 943
Prerequisite(s): BDC 102 and BDC 202/CRTA 212

This course covers the fundamentals of comedy writing with special focus on the techniques of writing comedy for television and the web with an emphasis on sketches and sitcoms. Students take part in story editing exercises, designed to simulate industry practices. This course's key goal is to develop students' creative and comic voice in their writing. (Formerly BDC 943).

39 Hours  Fee: $642.00

NEW

★ Writing for Animation  CRTA 944
Prerequisite(s): (BDC 102 and BDC 202) or CRTA 212

This course is designed to cover the fundamentals of writing for animated series designed for television and other platforms. Students will learn the language and process of writing for animation and consider the rich creative history of animation. Students will be required to create a fully realized animated script by the end of the semester. (Formerly BDC 944).

39 Hours  Fee: $642.00

NEW

★ Writing for Factual and Reality Programs  CRTA 945

In this course students learn the story chasing-development, writing techniques and production practices related to lifestyle, current affairs, science, business, entertainment and reality programming. Students learn how to shape their research, found material, interviews, narration, b-roll and stills into coherent and emotionally engaging stories while working within tight constraints of time, genre and format. Students also analyze the ethical dilemmas and social trends that fact-based and reality programming represent. (Formerly BDC 945).

39 Hours  Fee: $642.00

RESEARCH AND INNOVATION

Research and Innovation Skills  CRIS 101
Prerequisite(s): Department consent

Research and Innovation Skills is an intensive two week program designed to equip social sciences and humanities graduates with the skills that are in highest demand by employers. This program provides a well-rounded portfolio of employable skills including basic web design and coding, online content creation, app development, principles of effective presentations, data collection and analysis, marketing concepts, reading financial statements, preparing budgets and project plans, job search and interview skills, entrepreneurship, and change management.

80 Hours  HST included  Fee: $717.30

Research and Innovation Internship  CRIS 102
Prerequisite(s): Department consent

Research and Innovation Internship is a funded internship placement program. Participants will be coached by mentors in their applications to three different types of paid internship positions: within external companies and at Ryerson; applied research projects as part of a work team; or working with or creating a startup. This highly competitive process is restricted to students selected during the first week of CRIS 101. Internships begin on or after May 21.

40 Hours  HST included  Fee: $1333.24
# Residential Care for Children and Youth

The following courses will allow you to build on your understanding of the principles, values, and philosophies underlying residential care for children and youth, along with the practical knowledge that you can apply on the job. For more information, visit [www.ryerson.ca/ce/rccy](http://www.ryerson.ca/ce/rccy).

## Residential Care for Children and Youth

For related courses, see Child and Youth Care (page 154).

### Communications in Residential Care  
**CVCY 101**

This course will introduce the student to the importance of communications and its central role in helping the client. The student will focus on the use of self interaction, interpreting, collecting, analyzing, and presenting verbal and written information with children, youth, co-workers, and allied professionals. (Equivalent to CYC 301.)

39 Hours

Fee: $591.64

### Human Growth and Development  
**CVCY 102**

This introductory course will build on studying, identifying, and describing the stages of human development along the continuum of the human life span. The growth of the child will be followed from birth to adulthood to old age, including physical, emotional, and intellectual development.

39 Hours

Fee: $610.18

### Principles of Group Care  
**CVCY 103**

This course examines group dynamics and process. A developmental framework will be used to explore the uniqueness of group work with children and youth. Roles of group members, the stages of group, and the role of groups in maintaining a therapeutic milieu will be reviewed and applied in community settings. (Equivalent to CYC 402.)

39 Hours

Fee: $591.64

### Residential Care Techniques  
**CVCY 104**

This course, founded in contemporary, competency-based Child and Youth Care practice, explores approaches, strategies, and techniques in residential care. Areas covered will include: approaches to group care, characteristics of effective programs, family involvement; intervention planning; needs based interventions; therapeutic discipline, crisis and opportunity; activities; and the role of supervision. (Equivalent to CYC 808.)

39 Hours

Fee: $591.64

### Health, Ethics and Professionalism  
**CVCY 105**

This course is designed to demonstrate knowledge of the major pieces of federal, provincial, and municipal legislation currently governing the profession. Areas to be covered will include: advocating, personal, professional and ethical behaviours, health and safety, pharmaceutical and food guides. (Equivalent to CYC 347.)

39 Hours

Fee: $591.64

### Reflective Practice Seminar  
**CVCY 200**

Prerequisite(s): CVCY 101, CVCY 102, CVCY 103, CVCY 104, and CVCY 105

This course is designed to enable the student to integrate theoretical knowledge and practice skills under the field instruction of a qualified practitioner in the community. The student must submit a portfolio to document achievement of competency goals. (Equivalent to CYC 806.)

39 Hours

Fee: $579.28
RETAIL MANAGEMENT

Far-reaching trends in everything from technology to philosophy have transformed the retail industry. Today you must keep a watchful eye on global advancements while you master electronic communications and devise strategies to keep one step ahead of the competition. Ryerson, the only university in Ontario to offer a Bachelor of Commerce degree in Retail Management, can prepare you. Our Retail Management program was designed with the input of industry leaders and blends the most modern aspects of retail with the traditional components. For more information, visit www.ryerson.ca/ce/retail.

Retail Management

All CRMG course fees include a $2.00 fee for materials. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce. For information on the Course Series in Retail and Services Management, visit www.ryerson.ca/ce/retail (page 120). Related certificate(s): Entrepreneurship and Multiculturalism (pg. 44), Retail Management (pg. 99)

★ Intro to Retail and Services Management CRMG 200

Retailing is one of the most fascinating, challenging and multi-faceted environments, business students will be exposed to. The objective of the course is to provide both an understanding of the key retail strategy components as well as change the student focus from a consumer to a business manager. This will be accomplished through examining the many key functional areas within a retail business including location and market strategy, store design and layout, merchandise planning, human resources, financial strategy and customer relationships. The understanding of these functional areas will illustrate how retailers can adapt to the competitive and continually changing environment by formulating strategies, which result in profitable performance. An introduction to retail profit drivers will be a key element of the course.

39 Hours Fee: $733.21

★ Retail Operations Management CRMG 301

Prerequisite(s): CRMG 200 and COMS 102

This course will focus on how retail companies compete by designing and operating effective value chains. Operations strategy guides retailers as they buy merchandise and move it to the marketplace via efficient processes. Internal and external value chains are linked so that costs are reduced and inventory levels are optimized. The processes, that are the building blocks of successful retail organizations, include planning, inventory management, location selection and resource scheduling.

Note: This course is part of the Retail Operations Course Series.

39 Hours Fee: $574.59

★ Retail Consumer Insight CRMG 302

Prerequisite(s): CRMG 200; CMKT 400 and MKT 502

The course introduces the key theoretical concepts to the understanding of consumer behaviour. Building on this foundation the retail/consumer relationship will be examined through the case study method. Topics such as the retail brand, consumer research and value equations will be introduced and examined.

39 Hours Fee: $690.98

★ Service Quality Management CRMG 303

Prerequisite(s): CRMG 200

Antirequisite(s): CHTH 102

The quality of service that customers experience in retail settings is affected by many factors. As a result, the challenge for retailers is to provide an environment that instills a focus on customers and delivers the service required to satisfy those customers. This course will introduce students to service quality management frameworks and principles. It will examine how they are reflected in key organizational and management strategies, particularly those related to the management of the retail workforce.

Note: This course is part of the Retail Operations Course Series.

39 Hours Fee: $661.11

★ Buying Process I CRMG 400

Prerequisite(s): CRMG 200

This course examines the role of the buyer and his/her place in the marketing function of retail organizations. Course content focuses primarily on the procurement process, and intended outcomes include a thorough understanding of the buyer’s contribution to assortment and resource development, relationships with other functions within the organization and interpretation of target customer needs. (Formerly FSN 451.)

Note: This course is part of the Retail Buying Course Series.

Students with three years’ work experience in the field may apply to the Academic Coordinator, Sean Sedlezky (ssedlezk@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

39 Hours Fee: $574.59
★ Intro to Logistics and Supply Chain Mgmt CRMG 434
Prerequisite(s): CRMG 200

This course serves as an introduction to the fundamentals of global supply and distribution networks management (traditionally known as Supply Chain and Distribution Channel). The course is primarily focused on the planning, implementation, monitor and control of global, regional and local distribution networks in support of retail business operations. The course covers fundamentals of supply and distribution networks, the link between distribution networks and marketing strategies, and the link between supplier networks and inventory management. Supply and distribution networks include aligning supply networks with corporate strategies, implementation of corporate sustainability and social responsibility related policies, global transportation, and supporting information technology. Throughout the course, analytical tools and methods are utilized to support decision making and manage supply and distribution networks uncertainty.

39 Hours Fee: $661.11

★ Visual Merchandising and Space Planning CRMG 452
Prerequisite(s): CRMG 200

Students will study the theories and practices related to visual merchandising and space planning. An examination of leading edge visual merchandising practices will be explored with respect to in-store design and layout. Space planning software will be used to plan in-store displays, window and fixture design and configuration. (Formerly FSN 452.)

Note: This course is part of the Retail Buying Course Series.

Students with three years’ work experience in the field may apply to the Academic Coordinator, Sean Sedlezky (ssedlezk@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

39 Hours Fee: $574.59

★ Retail Strategy CRMG 500
Prerequisite(s): RMG 700 and CFIN 300
Antirequisite(s): BUS 800

This course examines how ethical marketing and operational strategies can be utilized by retailers to improve performance in a highly competitive and rapidly changing multicultural environment. The strategic planning process will be explored from the perspectives of both small and large retailers. Environmental analysis, strategy development, implementation and control issues will provide a framework for the course. A variety of teaching and learning methods will be used to examine issues and foster reflective thinking among students.

39 Hours Fee: $574.59

★ Franchising CRMG 902
Prerequisite(s): CRMG 200

The focus of this course is on business format franchising - the transfer of a particular business format or way of conducting business. The costs and benefits of franchising from both the franchisee’s and franchiser’s point of view will be explored. Franchiser/franchisee communication and relationship will be discussed. Students will examine how to determine the feasibility of a franchise opportunity, the legal dimensions of franchising, characteristics of the typical franchisee, and international franchising as a means of expansion.

Note: Students with three years’ work experience in the field may apply to the Academic Coordinator, Sean Sedlezky (ssedlezk@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

39 Hours Fee: $574.59

★ Relationship Marketing CRMG 907
Prerequisite(s): CRMG 200

The relationship between the consumer and the retailer has been perceived as a transaction and marketing strategy has been based on this perception. Retailers are moving to an ethical relationship view of the buying process - the building of a long term relationship with the customer as the central theme of marketing strategy. This course will explore the underlying theories, values and benefits of doing business through one-to-one relationships with consumers using technological advances. A one-to-one customer-centric approach enables retail marketers to reach customers from multicultural backgrounds, a distinguishing feature of the Canadian marketplace.

39 Hours Fee: $574.59

★ Advanced Buying Process II CRMG 909
Prerequisite(s): CRMG 400

This course compliments Buying Process I by introducing students to concepts of merchandise management. Course content emphasizes analytical and quantitative aspects of merchandising planning and expected outcomes include a complete understanding of financial strategy as it relates to merchandise management, the development of dollar merchandise plans, measures of productivity and vendor performance analysis. Information technology and decision support systems represent and integral part of the course content. (Formerly FSN 551)

Note: This course is part of the Retail Buying Course Series.

39 Hours Fee: $574.59
**Multi-Channel Retailing**

**CRMG 910**

Prerequisite(s): CITM 350 or CRMG 200

“Multi-channel retailing provides the student with a comprehensive view of the dominant theme for retailers in the 21st Century. The course focuses on the importance of operating and integrating multiple channels of merchandising. By providing an integrated solution to the consumer the retailer reinforces its brand, responds to the consumer’s buying patterns, increasing sales and customer loyalty. An integrated multi-channel strategy must be seamlessly linked and present the same marketing face to the customer. The course helps the student to develop the skills to analyze a firm’s current multi-channel strategy and recommend an integrated strategy to help meet customer needs: optimize sales effectively and efficiently for the retailer. The student will have the opportunity to reinforce her learning through a consulting assignment to a firm in the industry.”

Note: Students with three years’ work experience in the field may apply to the Academic Coordinator, Sean Sedlezky (ssedlezk@ryerson.ca), for consideration to enroll in this course without the required prerequisites.

39 Hours  
Fee: $574.59

**Retail Sales Management**

**CRMG 911**

Prerequisite(s): CRMG 200

Based on the notion that salesmanship and effective selling have been lost in the role they play in delivering exceptional customer service and improved GMRSS. Focus on building effective leadership skills and programs for selling and the relationship to increasing productivity and customer loyalty.

39 Hours  
Fee: $642.57

**Managing B2B Channels**

**CRMG 916**

Prerequisite(s): CRMG 200 and CMKT 100

This course will explore how organizations leverage channels of distribution for value creation and competitive advantage. It delves into strategies that companies use to bring products and services from their point of origin to their point of consumption. Product proliferation, media fragmentation, retailer power and the internet have required excellence in channel design and management. The course will cover key concepts and strategies related to channel management, in light of traditional and new channels of distribution.

39 Hours  
Fee: $642.57

**Retail Business Analytics**

**CRMG 919**

Prerequisite(s): CRMG 200

This course focuses on the application of forecasting tools in retail management and business operations. The course introduces students to the fundamentals of time series forecasting methods, such as exponential smoothing and moving average as well as advanced econometric tools such as ARIMA and ARCH/GARCH models. The course also introduces students to forecast consumer behaviour using discrete choice models. This is a hands on course that requires students to work with real life data sets to forecast consumer demand/behaviour.

39 Hours  
Fee: $642.57

**Leading in Retail Service Organizations**

**CRMG 925**

Prerequisite(s): CRMG 200 and RMG 700

The success of any retail strategy is intrinsically linked to its service strategy and how well it translates to the satisfaction of its customers. This course will focus on the processes involved in the alignment and implementation of service management strategies. Its emphasis will be on the optimization of operational capacity and capability, including the facets of customer satisfaction, the engagement of the retail workforce and the use of problem solving techniques.

Note: This course is part of the Retail Operations Course Series.

The RMG 700 prerequisite may be waived if the student has specific academic or professional experience. Individuals who do not have the prerequisite and who wish to take this course must contact the Academic Coordinator, Sean Sedlezky, at ssedlezk@ryerson.ca for more information.

39 Hours  
Fee: $642.57

**Industry Project**

**CZRM 100**

Prerequisite(s): Department consent

This course will serve as an optional “capstone” project for individual students with an interest in completing a major independent study or for a company-sponsored cohort to provide an experiential learn project that is integrated with corporate training initiatives and current retail problems.

Note: Students must complete five credits toward the certificate and submit a request to the department before enrolling in this course to ensure appropriate academic foundation and identification of a faculty advisor.

39 Hours  
Fee: $676.10
ROBOTICS AND EMBEDDED SYSTEMS

These components – mobile, miniature, or standard – are utilized in different types of applications, including telecommunications, power distribution, electrical and electronic products, transport, and factory, medical, or commercial automation systems. Embedded systems are present in a wide range of manufactured products and system components. The infusion of this technology is expected to grow at a phenomenal pace and has increased the demand for professionals who are technologists with simultaneous expertise in both software and hardware. For more information, visit www.ryerson.ca/ce/robotics.

Robotics and Embedded Systems
Related certificate(s): Robotics and Embedded Systems (pg. 100)

- **Embedded Systems Programming** CKRE 100
  This course provides students with knowledge on the differences between embedded design and traditional electronic device design. Students engage in hands-on experiences of embedded systems applications and design procedures through the planning and execution of design phases. Hands-on robotics and embedded systems device development is facilitated with an embedded system development kit. This course also provides project management process flow-throughs on planning and executing complete robotics and embedded systems designs, including the document system requirements for new designs as well as those for improving existing systems.
  
  Note: C programming experience is recommended.
  39 Hours Fee: $755.00

- **Digital Logic and Hardware Architecture** CKRE 110
  This course provides the core knowledge and competencies of logic design, Boolean algebra, and essential Verilog and VHDL statements describing behavioural functions such as counters and other finite state machines. Participants master the ASIC design flow from examples of logic and circuit design analysis, computer abstractions, and performance metrics.
  
  39 Hours Fee: $755.00

- **Programming Robotics Systems** CKRE 120
  Embedded software is found in today’s electronic and robotic devices. This hands-on course introduces and then augments participants’ knowledge of C programming, including the embedded language features required for robotics and embedded systems programming. The course expands participants’ competencies in embedded systems programming, including practical, hands-on, in-class programming activities. Participants are to bring a laptop with a WiFi connection to every class.
  
  Note: C programming experience is recommended.
  39 Hours Fee: $755.00

- **Embedded Systems Hardware Architecture and Implementation** CKRE 130
  This course provides a broad overview of robotics and embedded systems architecture. Students will gain a working and practical knowledge of embedded hardware, firmware, and applications. The course covers concepts pertaining to current embedded technology as it exists in the industry today, including many diagrams and applicable computer code.
  
  39 Hours Fee: $755.00

- **Real-Time Embedded Systems Programming** CKRE 140
  This course will introduce and explore the programming language and operating systems facilities essential to the implementation of real-time, reactive, embedded, robotic, and/or networked systems. It will provide the knowledge of practical system issues raised from design and programming. Differentiated issues arising from design, concurrent, reactive, safety-critical and embedded systems will be explored in depth. Simple hands-on development is facilitated with an embedded system development kit.
  
  Note: C programming experience is recommended.
  39 Hours Fee: $755.00

- **Emerging Issues in Robotics and Embedded Systems** CKRE 150
  This capstone course will allow participants to synthesize and apply what they have learned to robotic or embedded device design, device building, and implementation. Participants will analyze selected case scenarios and best practices when building their embedded device product. The final work project allows participants to demonstrate a broad mastery of learning across the curriculum and to hone their ability to employ specific strategies that incorporate best practices and meet regulatory requirements. The work project and resulting embedded device product may be used by the participant for career portfolio purposes.
  
  Note: This course may be taken as individualized study/directed reading; please contact the Academic Coordinator, Alex Ferworn, at aferworn@ryerson.ca prior to enrolling.
  39 Hours Fee: $755.00

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
SOCIAL SCIENCES

Social Sciences
Related certificate(s): Social Sciences and Humanities Foundations (pg. 101)

★ Learning and Development Strategies
CSSH 102
Assuming that the 21st century will be led by those who learn best, the objective of this course is to equip students to realize their full potential and maximize their learning in the program, as well as prepare them for lifelong learning. The course will include opportunities for self-assessment, team work, application and skill development. (Formerly ACS 102)
39 Hours Fee: $572.07

★ Critical Thinking I
CSSH 105
Prerequisite(s): CPHL 214
Rational discourse has long been viewed as a principal force for social change. In this course, we will examine the structures and principles that undergird all forms of rational discourse, and we will learn how to assess the logical strength and persuasiveness of particular discourses. These skills will be applied to arguments found in everyday life, and to the formulation of one's own positions. (Formerly ACS 105)
39 Hours Fee: $572.07

★ Academic Writing and Research
CSSH 205
From an interdisciplinary perspective, this course introduces the fundamentals of research, interpretive skills, and argument-based essay writing. Writing-intensive, the course explores some of the social and cultural implications of written communication. By examining a variety of texts, many of which address the interface of culture and technology, this course asks how we write and why.
39 Hours Fee: $572.07

★ Research Design and Qualitative Methods
CSSH 301
This course will focus on the student gaining an understanding of the uses of qualitative research designs and techniques. Topics include sampling methods, questionnaire design and implementation, interviews, focus groups, participant observation, and action research. Methodological assumptions, concepts and procedures will be presented. Students will develop their ability to review existing literature and to construct their own research. (Formerly ACS 301)
39 Hours Fee: $562.80

SOCIAL WORK

Your awareness of human diversity gives you insight—it’s what motivates you in your fight to help solve social problems. If you want to work for social change in an urban environment, these courses are for you.

Social Work
Related certificate(s): Aboriginal Knowledges and Experiences (pg. 13), Community Engagement, Leadership, and Development (pg. 29), Nursing Leadership and Management, Advanced (pg. 83)

★ Social Policy: Welfare and Programs
CSWP 302
Prerequisite(s): SWP 132 and SWP 331
This course examines major concepts, roots, and social, cultural, political and economic trends shaping social policy and social welfare in Canada. It explores the increased needs for social protection and the desires for recognition by diverse groups and focuses on the impacts of the re-structuring of social systems and globalization on exclusion and structural inequalities. The discussions address social welfare programs, practices and current challenges for service users, social work and social change. (SWP 302 and SWP 402 replace former equivalent course SWP 22A/B).
39 Hours Fee: $579.28

★ Power, Resistance and Change
CSWP 335
Prerequisite(s): SWP 132 and SWP 331
Theories of power and oppression, understandings of intersectionality, forms of resistance, and processes of social change will be examined in the course. Identified social issues and problems will be related to social work theory and practice. The course emphasizes skills of critical thinking, self-reflection, and dialogue and their relationship to social change processes.
39 Hours Fee: $579.28

★ Social Policy and Social Inclusion
CSWP 402
Prerequisite(s): CSWP 302
Building on SWP 302, this course focuses on approaches and tools for social action and social change, moving students from a theoretical knowledge of social policies to a practical, action-oriented focus on making social claims visible and building program capacity. It examines issues of governance, funding structures, voices, exclusionary processes, and experiences with the social welfare system. The course explores strategies of collaboration and citizen engagement for social inclusion and social change. (SWP 302 and SWP 402 replace former equivalent course SWP 22A/B).
39 Hours Fee: $579.28
Social Work Research: Part I  
Prerequisite(s): (CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course provides an introduction to quantitative social research epistemologies relevant to an anti-oppression practice framework. The course explores ethics, ownership, research for and with marginalized communities, inclusiveness and critical reflexivity while designing and conducting research. It critically examines steps in the quantitative research process. As a strategy to effect change, students will acquire the knowledge and skill to conduct quantitative research and to critically assess research articles in the literature from an anti-oppression framework. (SWP 538 and SWP 638 replace former equivalent course SWP 38A/B).

39 Hours  Fee: $575.16

Social Work Research: Part II  
Prerequisite(s): CSWP 538

Building on Part I, this course provides an introduction to qualitative research from critical, interpretive, anti-oppression and Indigenous peoples’ perspectives. The course explores ethics, ownership, research for and with marginalized communities, inclusiveness and critical reflexivity while designing and conducting research. Students will acquire knowledge and skills to conduct qualitative research, program evaluations and community-based research as a strategy for effecting change. (SWP 538 and SWP 638 replace former equivalent course SWP 38A/B).

39 Hours  Fee: $575.16

Race and Ethnicity  
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course examines current debates around the concepts of race and ethnicity in Canada. The historical and contemporary social context of race and ethnicity will be examined with respect to interrelated discourses of gender, class, sexual orientation, nation, and colonialism. Anti-oppression and anti-racism responses will be explored.

39 Hours  Fee: $579.28

Crisis Intervention  
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course will offer a background in theories and strategies of intervention in crisis situations. A number of important themes will be addressed including: the helper/client relationship, suicide intervention, violence against women, sexual assault, childhood sexual abuse and incest, recovery and aftermath of trauma, crisis related to substance abuse, illness, death and loss, poverty and homelessness, and community programs for crisis intervention. Students will have an opportunity to practice crisis intervention skills through role plays and vignettes.

For degree program students: All second-year Social Work courses.

39 Hours  Fee: $579.28

Social Work  
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course focuses on the theory, context and practice of social group work. Different theoretical foundations for social group work are explored, as well as the impact of funding, agency mandates and socio-political climate. Social group work processes and activities are critically examined, including exploration, assessment, group design, implementation and evaluation. A commitment to social work values is stressed, along with the intersection of social location with social group work practice.

39 Hours  Fee: $579.28

Social and the Law: Children and Family  
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course will focus on the many areas of the law that social workers need to be familiar with in order to work with children and families (e.g. marriage, co-habitation, separation, divorce, custody, access, child protection and substitute decision-making). Students will be helped to understand their legal obligations as social workers and to become more comfortable with what might be expected of them in working with lawyers and in courts.

Note: For degree program students: All second-year Social Work courses.

39 Hours  Fee: $579.28

Queer Theory and Identities  
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry; Antirequisite(s): POL 510

Same-sex affectional and physical expression has rarely been accepted in Euro-centric cultures. Social institutions have explicitly regulated and stigmatized specific sexual/emotional behaviours. The course examines these social dynamics and their consequences for people who express difference. The on-going organizing and strategizing of excluded people and communities is a central theme of the course. Social work responses will be explored with attention to diversity, with the aim of providing inclusive and relevant services.

Note: For degree program students: All second-year Social Work courses.

39 Hours  Fee: $579.28
Ethics and Values for Social Work  CSWP 914
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course examines the nature of values, ethics and human rights, discusses major sources of ethical misconduct, mistakes and dilemmas in social work, and seeks to assist students in developing and applying frameworks for ethical decision-making in practice. Theoretical orientations to ethics and the current context of values and ethics within our social/economic/political context are critically examined. Conflicts between personal, professional, workplace and public values and a critical evaluation of codes of ethics are explored.

39 Hours  Fee: $579.28

Special Topics I  CSWP 917
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.

39 Hours  Fee: $575.16

Special Topics II  CSWP 918
Prerequisite(s): Department consent

This course provides students with the opportunity to pursue advanced seminar studies on issues and themes of immediate and current significance in the field of social work, where the content of the proposed seminar is unavailable in SWP 917 or in the curriculum. Seminars will be offered where there is demonstrated student interest, and available faculty expertise in the subject.

Note: This course will focus on international social work.

39 Hours  Fee: $579.28

Substance Use and Abuse  CSWP 919
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course provides a framework for understanding fundamental concepts in substance use and critically examining addiction as a social construct. It addresses some key domains in the addiction field, including: underlying theories of addiction, stigma and its impact on diverse populations, pharmacology, screening and case management, Canadian drug policy, prevention and harm reduction. Students will gain a critical understanding of the scope of the addiction field and its relevance to direct practice and social policy.

39 Hours  Fee: $579.28

Addressing Substance Use and Abuse  CSWP 920
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry

This course focuses on current best practices in addiction treatment, with an emphasis on linking theory, research and practice. Assessment tools and research-based treatment interventions are critically examined for their relevance and application to diverse client populations. Self-help, alternative treatment approaches and methods of evaluating treatment outcome are also explored. Students will leave the course with core knowledge and skills in applying different treatment approaches to a variety of service settings and contexts.

39 Hours  Fee: $579.28

Disability, Community and Society  CSWP 921
Prerequisite(s): (CSWP 302 and SWP 331 and CSWP 335 and SWP 341 and CSWP 402 and SWP 435) or Direct Entry
Antirequisite(s): CDST 501, CINT 902

This course provides a framework for critically analyzing disability issues consistent with an anti-oppression/social justice perspective, one that explores the societal roots of disability disadvantage. Students are introduced to the concepts of oppression, devaluation, ableism, and intersectionality and to a range of theories including social role valorization. We challenge some of the traditional (and damaging) assumptions made about the perceived “needs” of disabled people and examine strategies that can make a positive difference at the individual, community and societal levels.

39 Hours  Fee: $579.28

Strategies for Addressing Conflict  CSWP 924
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry
Antirequisite(s): CINT 905, CINT 914

Conflict is a natural and common phenomenon in social interaction. Depending on how conflict is dealt with, the results can be positive or negative. This course is designed to provide students with practical skills and specific strategies for dealing with conflict in a variety of social work contexts: between individuals and social systems, between family members, between groups, between co-workers, and between participants of the public policy development process. This course will help the student to identify when different types of strategies may be more effective and how to implement them. Students will participate in hands-on case studies and role plays. They will be given an opportunity to re-explore real life conflicts from their own experiences.

39 Hours  Fee: $575.16
**Strong Helpers’ Teachings**  
CSWP 925  
Ogitchita Luwatilhunyunih (Aboriginal Translation) is designed to build upon the content and learning from SWP 435. It provides students with an understanding of an anti-colonial theoretical framework when approaching social work with Aboriginal peoples. Students examine how social policies and research inform social work practice with Aboriginal peoples, with an emphasis on self-determination/sovereignty and Aboriginal research methodologies. They gain an understanding of the strengths of Aboriginal worldviews in helping others and address how to integrate these into their practice.  
39 Hours  
Fee: $575.16

**Critical Practice with Queer Populations**  
CSWP 926  
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry  
LGBTQQI2 (Lesbian, Gay, Bisexual, Transgendered, Transsexual, Intersexed, Questioning, Two Spirited). The course examines and explores the historical and contemporary role of social work practice and research as it understands and relates to sexuality and gender and the social dynamics of heterosexism and homophobia. Critical self-reflection is one of many approaches used to identify those strategies that influence the social, political and professional contexts of social work practice within this domain.  
39 Hours  
Fee: $579.28

**Advocacy in Social Work**  
CSWP 927  
Prerequisite(s): (CSWP 302, SWP 331, CSWP 335, SWP 341, CSWP 402 and SWP 435) or Direct Entry  
This course will focus on social work advocacy, building upon an anti-oppressive, structural approach to social work, addressing social location, privilege, power-over, power-with, conflict and social change. More specifically, various types of advocacy will be analyzed with reference to social movement mobilization, transformative change, and social work values. Students will be offered an opportunity to participate in advocacy, as part of the on-going advocacy processes in the community.  
39 Hours  
Fee: $579.28

**Indigenous Health and Well Being**  
CSWP 933  
Taking a global perspective, Indigenous health and wellness will be explored through the decolonizing theoretical framework of the Anishinaabe Medicine Wheel - a balance of physical, mental, emotional and spiritual well-being. The health status of Indigenous people globally, the Indigenous peoples of North America, and more specifically Aboriginal peoples of Canada will be discussed through social and political determinants of health lens. The course will also focus on promising health promotion practices and programs.  
39 Hours  
Fee: $579.28

**Community Engagement Foundations**  
CSWP 934  
This course will establish the historical evolution and theoretical underpinnings of community engagement as a process for enacting and supporting active citizen participation in community and civic affairs. The student will learn models, principles, and methods of community engagement. The course will cover a range of analytic frameworks from which action on community engagement and community development can occur.  
39 Hours  
Fee: $579.28

**Engaging Diverse Communities**  
CSWP 935  
This course will focus on building practice skills for working with diverse communities and engaging excluded groups in order to improve the well-being of their neighbourhoods and/or organizations. Students will learn to assess and understand the demographics of an area, the implications of these findings for guiding community outreach and engagement initiatives successfully, and how to develop and support implementation of an engagement plan with diverse communities and groups.  
39 Hours  
Fee: $579.28

**Community Engagement Practices**  
CSWP 936  
This course will study best practices for community capacity-building and improving community well-being. It will focus on the knowledge and skills required to effectively support the community engagement process. Case studies and experiential exercises will be used in the course to convey the skill-set that a community practitioner needs for effective community engagement and leadership development.  
39 Hours  
Fee: $579.28

**Community Engagement Capstone**  
CSWP 937  
Prerequisite(s): Department consent  
This capstone course provides an opportunity to integrate and apply the knowledge and skills acquired through previous courses. Individually or in small groups, and with course instructor approval, students select a project that reflects their own personal or professional interests. Examples of possible projects include the development of a presentation based on analysis of a set of real life scenarios or the analysis of a community issue or situation from the student’s own professional milieu.  
39 Hours  
Fee: $579.28

For the most current information, including scheduling options, visit [www.ryerson.ca/ce](http://www.ryerson.ca/ce).
Aboriginal Knowledges in Practice
CVSW 932
Prerequisite(s): Department consent

The goal is to integrate and apply knowledges gained from previous courses. Learning opportunities are available for students working in non-Aboriginal and Aboriginal work places as well as those who are non-employed or students. Students will be given an opportunity to select a project that relates to their personal or professional interest when possible. The project or research focus is intended to promote positive change.

39 Hours  Fee: $593.70

SOCILOGY

Courses offered in Sociology are designed to encourage the critical examination of today's complex society and to broaden individuals' understanding of the world in which they live.

Note: Students enrolled in Ryerson degree programs are responsible for ensuring that any course selected from those listed below meets the specific requirements of their program.

Sociology

Related certificate(s): Community Engagement, Leadership, and Development (pg. 29), Criminal Justice and Criminology (pg. 32), Food Security (pg. 54), Gerontology (pg. 57), Social Sciences and Humanities Foundations (pg. 101)

How Society Works
CSOC 103
Antirequisite(s): SOC 11B, CSOC 104, CSOC 105, SOC 111

This course provides an introduction to some of the major issues in sociology. It examines how societies come into existence, how they are organized and maintained, and how they change. The major sociological perspectives are used to understand the relationship between culture, institutions and social behaviour; the process of socialization; globalization and the political-economic structure of Canadian society; and the resulting social inequalities of class, race and gender. SOC 103 is not available for credit to students who choose SOC 11A/B or SOC111 or SOC112, SOC104, or SOC 105, or SOC 107. (LL)

39 Hours  Fee: $581.34

Understanding Society
CSOC 104
Antirequisite(s): SOC 11B, CSOC 103, CSOC 105, SOC 111

This course provides an introduction to some of the major issues in the discipline of sociology. Topics include: the major theoretical debates of classical sociology; research methods and problems; culture and socialization; the evolution of human societies; and the structure of Canadian society. Professionally-related examples are used throughout the course.

39 Hours  Fee: $581.34

Introduction to Sociology
CSOC 105
Antirequisite(s): SOC 11B, CSOC 103, CSOC 104, SOC 111

This course presents the major schools of sociology, which include Functionalism, Critical Theory, Feminism, Interactionism, and Postmodernism. These schools are used to examine a number of fundamental social inequalities such as those based on class, race, ethnicity, gender, and sexuality. In addition, through the lenses of the major schools of sociology, this course also examines the impact of contemporary media institutions and communications technologies on the social construction of knowledge and the construction of socially significant identities and ideologies.

39 Hours  Fee: $630.78
★ Sociology of the Everyday CSOC 107

A sociological perspective allows us to see generality in particularity, and strangeness in the familiar. This course gives the students a sociological perspective useful for investigating ordinary, common everyday activities and interaction that most of us find routinely engaging. Some concentration is provided to the urban experience of everyday life. Through examining seemingly mundane behaviours—eating, chatting, watching TV, etc., students study underlying structures that shape social behaviour and learn about historical and qualitative social research methods.

39 Hours  Fee: $630.78

★ Popular Culture CSOC 202

Antirequisite(s): SYC 185

What is considered popular culture is up for debate. This course examines different ideas about popular culture and how they inform our personal politics, consumption practices, and common-sense ideas about the world. We consider how different cultural industries are shaped, packaged for consumption, but sometimes resisted. Using a critical approach we sociologically examine cultural forms such as advertising, social activism, television, the cult of celebrity, music, electronic and film media, leisure customs, and everyday practices. (LL)

39 Hours  Fee: $581.34

★ Social Class and Inequality CSOC 203

Antirequisite(s): SOC 420

This course examines the distribution of power and wealth in society. As a social reality, inequality leaves no one untouched, whether or not we are conscious of it. This course traces the origins of social inequality and reflects on the various interpretations of social stratification. At the macro level, analysis examines how patterns of inequality are reproduced and altered over time. At the micro level, analysis considers how inequality shapes individual career choices and other experiences. (LL)

39 Hours  Fee: $581.34

★ Sociological Perspectives on Crime CSOC 319

Prerequisite(s): CSOC 103 or CSOC 104 or CSOC 105 or SOC 111

This course examines the social context of crime in Canadian society. Issues include the social construction of crime, problems of measuring crime, the major sociological explanations of crime, and the social role of the police professional.

39 Hours  Fee: $562.80

★ The City and Social Problems CSOC 402

Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111

The city today exists in crisis and promise. The sociological perspective sheds light on issues and problems that face cities both locally and globally. Issues covered include: homelessness and poverty; immigration and physical mobility; the ecological crisis; economic development vs. decline; housing; segregation; crime; and the meaning of community in an urban context.

39 Hours  Fee: $627.69

★ At Work in a Changing World CSOC 472

Prerequisite(s): (CSOC 103 or CSOC 104 or CSOC 105 or CSOC 107) and (SOC 300 or SOC 420 or CSOC 525 or CSOC 608 or CECN 104 or CMHR 522)

This course offers an overview of different approaches to work settings and complex organizations in urban industrial society. We will discuss classical theories of bureaucracy, the managerial tradition, and critical perspectives drawn from contemporary Sociology, including studies focusing on diversity in the workplace. Also examined are the modern enterprise, state and government, community/volunteer organizations and social movements, and alternatives to dominant organizational forms.

39 Hours  Fee: $579.28

★ Immigration, Borders and Belonging CSOC 474

Prerequisite(s): (CSOC 103 or CSOC 104 or CSOC 105 or CSOC 107) and (SOC 300 or SOC 420 or CSOC 525 or CSOC 608)

Immigrants, refugees, and temporary migrant workers are a part of a global phenomenon of population migration. This course provides an overview of Canadian immigration history, trends, policies, and theories, from a sociological perspective. We will examine migration issues and contexts, with attention to diversity, inequality, citizenship, identity, and belonging. We will look at the obstacles, challenges and opportunities for newcomers and long-term immigrants and their descendants both in the Canadian and global contexts.

39 Hours  Fee: $562.80

★ Youth and Society CSOC 500

Prerequisite(s): (CSOC 103 or CSOC 104 or CSOC 105 or SOC 111) and (SOC 300 or SOC 420 or CSOC 525 or CSOC 608)

This course examines youth in contemporary society, their behaviour, roles, hopes, expectations and attitudes. It places young people within a sociological framework that emphasizes contemporary social, economic and political realities. The variables of social class, race and ethnicity, and gender are stressed; and key issues such as youth and media, the law, the family, employment and education are explored in depth.

39 Hours  Fee: $562.80

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
Making a Living: Sociology of Work  
**CSOC 501**

Antirequisite(s): SOC 180, SYC 180

This course examines work as a central human activity. At different points in our lives, we all end up participating in work, in its varied forms. Work is a source of identity and meaning in life. The organization of work in current times, however, is problematic. As presently organized, for many, it is alienating, unchallenging, precarious, and devalued. This course questions why and how work is presently organized, and how it can, and has been envisioned differently. (UL)

39 Hours  
Fee: $562.80

Violence and the Family  
**CSOC 502**

Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or CSOC 107 or SOC 111 or Direct Entry

This course explores the nature of violence, its manifestations in family life, its root causes, its consequences, and the social reaction to this violence. The family is viewed as a major social institution that is affected by the changes that occur within society. The primary goal is to facilitate students’ understanding of violence and its relationship to family life within the socio-cultural context.

39 Hours  
Fee: $562.80

Health and Society  
**CSOC 506**

The health care system in Canada is in crisis. Using relevant contemporary sociological theory, this course examines the historical evolution of modern medicine and the medical model, and their implications for society, health, and health care today. Topics include: the distribution of health and illness within Canadian society, environmental and occupational health, aging and health, gender issues in health care, and medical technology and ethics. (UL)

39 Hours  
Fee: $562.80

Race and Ethnicity in Canadian Society  
**CSOC 507**

Antirequisite(s): SOC 300, POG 313

This course provides an introduction to the concepts, theories and research methods most relevant to the study of racism and ethnicity in everyday life. The development of multicultural societies and the historical context of racial and ethnic groups in Canada are examined. The role and impact of governmental and non-governmental policies (on immigration, employment and employment equity for example) will be discussed in the context of a variety of social institutions such as schools and the judicial system. SOC 507 is not available for credit to students who choose SOC 300 or POG 313. (UL)

39 Hours  
Fee: $562.80

Media and Images of Inequality  
**CSOC 525**

Prerequisite(s): CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or SOC 118 or CINT 902;
Antirequisite(s): Anti-requisite: CDST 525

This course examines the relationship between the representation of inequality on film and television and contemporary social structure. Students will study media, culture, socialization, power and inequality, critically examining images of disability, race, age, ethnicity, gender, social class and sexual orientation. Strategies and responses of various groups will be considered along with an analysis of cultural and social change.

39 Hours  
Fee: $579.28

Sociology of Gender  
**CSOC 603**

This course examines the historical and cross-cultural expressions of gender inequality, and its consequences for both men and women. Emphasis is also placed on issues related to gender inequality in contemporary Canada, including gendered divisions in the workplace and the family, the role of governments in equity issues, and the process of socialization. The course concludes with an examination of prospects for the future. (UL)

39 Hours  
Fee: $562.80

Families: Difference and Diversity  
**CSOC 605**

Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry
Antirequisite(s): SOC 21B

Family life is shaped by social, economic and legal forces. This course is designed to explore how family structures and family dynamics have changed over time. The course looks at topics such as colonization, immigration, cohabitation, heterosexual and same sex marriage, childrearing theories, violence, divorce and remarriage. The course also explores the importance of laws and state policies for family structures.

39 Hours  
Fee: $562.80

Work and Families in the 21st Century  
**CSOC 606**

Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry
Antirequisite(s): SOC 21B

Family life is shaped by the relationship between the division of labour in the home and employment responsibilities in the workplace. This course is designed to explore how divisions of labour in the home and the workplace have changed over the years. The course looks at topics that include the gender and racial division of labour in the paid workforce and the home, motherhood, fatherhood, pregnancy work, as well as informal and marginal paid work such as sex work and migrant labour.

39 Hours  
Fee: $562.80
Women, Power and Change  
CSOC 608
Prerequisite(s): SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry
Antirequisite(s): SOC 28 A/B

This course examines the development of Canadian feminist movement, theories, issues, and practices and its impact on the lives of females and males in Canada. Globalization and issues of inequality and diversity among girls and women frame the exploration of the Canadian female condition in the paid and unpaid work realms, from the 1800s to the present.

39 Hours  Fee: $571.04

Women and Human Rights  
CSOC 609
Prerequisite(s): (SOC 11B or CSOC 103 or CSOC 104 or CSOC 105 or SOC 111 or Direct Entry) and (SOC 300 or SOC 420 or CSOC 525 or CSOC 608); Antirequisite(s): SOC 28B

This course examines the abrogation of fundamental rights and the social control of girls and women in historical, contemporary and cross-cultural perspectives. The patriarchal policies and practices of the state are examined around issues of law and public policy, marriage, same-sex relationships and custody, sexual violence and pornography, sexuality and reproductive control, education and healthcare. The role of religion and media in legitimizing and maintaining patriarchal structures and in denying rights are also explored.

39 Hours  Fee: $571.04

Sex, Gender Identities and Sexualities  
CSOC 633

This course examines the social and personal significance of sexuality in our lives and the relationship between the two. It discusses sexuality as it intersects with topics such as sexual orientation, race, disability, gender identity, sex work, the military, fashion and music. In a world where same sex relations, trans identities and non-heteronormative identities are becoming more common, how is it they are still highly problematic for many individuals, families, cultures and religions? (UL)

39 Hours  Fee: $562.80

Aging, Culture and Society  
CSOC 704

Aging is a social as well as a biological phenomenon. This course uses social, historical, legal, ethical and literary insights to examine four main themes: the meaning of aging, the personal experience of aging, the societal phenomenon of aging, and the future of an aging society. A humanistic approach provides an understanding of aging and the issues which arise in the face of aging and death. (UL)

39 Hours  Fee: $627.69

Law and Justice  
CSOC 705

In our highly regulated society, law has become an increasingly significant element. The course analyses the nature and functions of law in society, how law influences social behaviours, and how social values and actions shape law. The degree to which justice is served by law is a central question. The course focuses primarily on Canadian law but comparative materials are also used. (UL)

39 Hours  Fee: $562.80

Globalised Labour and Consumption  
CSOC 706
Prerequisite(s): (CSOC 103 or CSOC 104 or CSOC 105 or CSOC 107) and (SOC 300 or SOC 420 or CSOC 525 or CSOC 608 or ACS 402)

Does the global economy allow for just and fair social relations? Recent sociological theories of social change analyze socio-economic processes, social relations, social structures, and global economic institutions. Topics discussed will include post-industrial, post-fordist, and post-modern society; patterns of restructuring the economy and the state; the global city; global and local cultures; the global consumer; and fragmenation and inequality in global space.

39 Hours  Fee: $562.80

Issues in War and Peace  
CSOC 802

This is an introduction to theories and contemporary issues in the study of war and peace, coupled with forays into the past as needed. Its goal is to help students develop an understanding of what war is, what causes it, what its effects on society are, and whether it could be overcome. (UL)

39 Hours  Fee: STBA

Sociology of Food and Eating  
CSOC 808

This course provides insights on social, historical and economic processes that shape what and how we eat. We will review how the food system is organized and how it affects people’s food choices. We will discuss the relations between broader social and economic structures, such as class and gender relations, access to food, and everyday eating practices. We will also study causes of problems in the food systems, such as hunger, obesity and the farm crisis. (UL)

39 Hours  Fee: $562.80
Information technology is now one of the major influences in modern life. Given the unprecedented rates of change, how do we formulate reasonable expectations? How do we make choices when we don’t know what the future of technology holds? To answer questions such as these, we need to learn more about the interaction between technology and society. This course looks at the use and impact of information technology in areas such as engineering, medicine, manufacturing, education and law. It looks at issues such as privacy, personal dignity, and the kind of life we want to lead. The course provides a historical framework and ideas which may be applied to other areas of technological change. (UL)

39 Hours
Fee: $562.80

Women and Islam
CSOC 885
This course will explore the position of women and gender relations in contemporary Muslim societies and North American Muslim communities, introducing a comparative perspective to the issues of Muslim women in their homelands and diaspora. Our discussions will focus on comparing different controversial issues within Islam, such as Muslim women’s identity, veiling, Muslim family life, Muslim women in the war zones, and Muslim women’s activism in their homeland and in the United States and Canada. (UL)

39 Hours
Fee: $562.80

Spanish
These courses offer opportunities to increase your professional qualifications. In order to choose the appropriate course level, you are advised to consult the guidelines on the Department of Languages, Literatures, and Cultures website at www.ryerson.ca/llc. Students who have no knowledge of Spanish may enroll directly into CSPN 101. However, all students must take the Spanish Placement Test or attend one of our interview/placement assessment sessions. CSPN 101 to CSPN 601 are language courses designed for non-native speakers. For more information, visit www.ryerson.ca/ce/spanish.

Introductory Spanish I
CSPN 101
This course for students with no knowledge of Spanish uses a communicative approach, emphasizing oral comprehension and expression without omitting the written aspects of Spanish. Students learn basics of grammar. Historical, social and cultural aspects of the Spanish-speaking world are introduced through the study of short readings. Not open to students who have completed Grade 12 or OAC Spanish. An on line placement test is required. (LL)

Note: Supplies to be purchased by the student: Additional supplies and materials are required (cost TBA).

39 Hours
Fee: $517.48

Introductory Spanish II
CSPN 201
This course uses a communicative approach emphasizing oral comprehension and expression without omitting the written aspects of Spanish. Students develop their knowledge of the basics of Spanish grammar. Historical, social and cultural aspects of the Spanish-speaking world are introduced through the study of longer readings. Not open to students who have completed Grade 12 or OAC Spanish. An on line placement test is required. (LL)

Note: Supplies to be purchased by the student: Additional supplies and materials are required (cost TBA).

39 Hours
Fee: $508.21

Intermediate Spanish I
CSPN 301
This course for students with a basic knowledge of Spanish uses a communicative approach to learning a new language. Students become increasingly familiar with complex sentence structures and with the vocabulary required for a good working knowledge of the language. Appropriate cultural readings and exposure to the Spanish-speaking world are integral parts of the course. (LL) (UL)

Note: Supplies to be purchased by the student: Additional supplies and materials are required (cost TBA).

39 Hours
Fee: $508.21
★ Intermediate Spanish II CSPN 401
This course for students with an intermediate knowledge of Spanish uses a communicative approach to learning a new language. Students become increasingly familiar with complex sentence structures and with the vocabulary required for a sound working knowledge of the language. Appropriate cultural readings and exposure to the Spanish-speaking world are integral parts of the course. (LL) (UL)
Note: Supplies to be purchased by the student: Additional supplies and materials are required (cost TBA).
39 Hours Fee: $508.21

★ Spanish Conversation and Pronunciation CSPN 402
This PR/PE course is intended to enhance oral proficiency by focusing on vocabulary expansion, knowledge of syntax, auditive comprehension, and correct pronunciation and intonation. Some emphasis will be placed on the significance of linguistic registers and regional varieties of Spanish. Students will improve their Spanish through a range of oral practice activities including the analysis of audiovisual materials, films and plays as well as discussion of written texts from a variety of sources.
39 Hours Fee: $624.60

★ Advanced Spanish I CSPN 501
This course is for students who have achieved an intermediate level of fluency in Spanish and who wish to develop their listening comprehension, oral communication, correctness and spontaneity of expression, sensitivity to language registers as well as the written aspects of the language. Newspaper clippings, magazine articles and videos introduce students to various aspects of the Spanish-speaking world. A novel is studied, and medium-length essays and commentaries improve writing and analytical skills. (LL) (UL)
Note: Supplies to be purchased by the student: Additional supplies and materials are required (cost TBA).
39 Hours Fee: $503.06

★ Spanish Grammar for Native Speakers CSPN 510
This course, taught in Spanish, is intended for students who grew up in a Spanish-speaking environment and need to acquire a formal knowledge of the written language. Grammar is taught through the four skills of language acquisition but the focus is on spelling, idiomatic expressions, and vocabulary. Weekly readings introduce students to the complexity of the Spanish grammar, through readings on the rich diversity of the Hispanic world, particularly their own cultural and literary heritage. (UL)
39 Hours Fee: $624.60

★ Introduction to Business Spanish CSPN 515
This course, offered in Spanish, is intended to introduce students with an intermediate level of fluency to the Spanish-speaking business world, through the study of realistic situations and specialized vocabulary. Students will study business documents such as letters, memos and job applications in order to have a sound knowledge of written business Spanish. They will use oral activities such as role play to develop their understanding of cultural business practices in Spanish speaking countries.
39 Hours Fee: $501.00

NEW
★ Spanish Gram. for Native Speakers II CSPN 610
This course, taught in Spanish, is the continuation of SPN 510, intended for native speakers of Spanish wishing to improve their formal knowledge of the written language. Grammar is taught through the four skills of language acquisition. Language practice focuses on spelling, anglicisms, idiomatic expressions, and vocabulary. Weekly readings help students gain a better understanding of the rich diversity of the Hispanic world, particularly their own culture and literary heritage. (UL)
39 Hours Fee: $508.00

★ Advanced Spanish II CSPN 601
This course is for students who feel comfortable using Spanish, but who wish to perfect their listening comprehension, oral communication, correctness and spontaneity of expression, sensitivity to language registers as well as the written aspects of the language. Newspaper clippings, magazine articles and videos introduce students to various aspects of the Spanish-speaking world. A novel is studied, and medium-length essays and commentaries improve writing and analytical skills. (LL) (UL)
Note: Supplies to be purchased by the student: Additional supplies and materials are required (cost TBA).
39 Hours Fee: $508.21

★ Advanced Business Spanish CSPN 702
This course is designed to give advanced students a solid foundation in business vocabulary and a concrete background in business and cultural concepts in order to succeed in the Spanish-speaking world. It seeks to develop cross-cultural competence for business purposes in order to apply this knowledge effectively in communicative situations. Students will have already mastered the fundamentals of Spanish grammar and the general vocabulary needed for basic everyday communication. Through the study of realistic situations and specialized vocabulary, students will acquire an in-depth knowledge of the Hispanic business community.
39 Hours Fee: $508.21

For the most current information, including scheduling options, visit www.ryerson.ca/ce.
**Introduction to Latin American Culture I**  
CSPN 704

This course, offered in Spanish, is designed to introduce students to South American culture. Literary works by authors such as Jorge Luis Borges, Gabriel García Márquez and Luisa Valenzuela will be examined in relation to social and political themes in Latin American society. The study of painting, sculpture, cinema, music and popular culture from various countries will lead to an enhanced awareness of cultural diversity in South America. (LL) (UL)

39 Hours  Fee: $510.27

**Contemporary Spanish Fiction**  
CSPN 708

This course, offered in Spanish, will explore Spanish fiction from the onset of the Civil War to the present. Through the study of short stories, plays and novels by authors such as Federico García Lorca, Juan Marsé and Esther Tusquets, students will develop skills in literary analysis and gain an understanding of modern Spanish literature. Textual analysis, oral participation and composition form an essential part of the course. (LL) (UL)

39 Hours  Fee: $495.85

**Spanish of Spain and Latin America**  
CSPN 710

This course, offered in Spanish, will present an in-depth study of the present-day grammatical structure of the Spanish language as well as introducing students to the history of Spanish from its Latin origins to its current use in Spain, Latin America and elsewhere. Students will analyze the language and the cultural context of a variety of texts from Spain and Latin America. The norms and variations of Modern Spanish will be studied. The course will be given in Spanish using multimedia. (LL) (UL)

39 Hours  Fee: $501.00

**Introduction to Latin American Culture II**  
CSPN 804

This course is designed to introduce students to the culture of Mexico, Central America and the Spanish-speaking Caribbean. Literary works by authors such as Laura Esquivel, Carlos Fuentes and Nicolas Guillén will be studied in relation to social and political themes in Latin American society. The study of painting, sculpture, cinema, music and popular culture will lead to an enhanced awareness of cultural diversity in the Spanish speaking world. The language of instruction is Spanish. (LL) (UL)

39 Hours  Fee: $510.27

**Cultural Context of Writing**  
CSPN 810

Intended for students who need to improve their writing skills in Spanish, this course will study five major modes of writing: description, narration, exposition, argumentation and academic discourse. Students will engage in the in-depth analysis of texts from various sources: Spanish and Latin-American literature, journalistic writing, advertising, scholarly articles, etc. The course is structured in such a way as to help students understand the cultural complexity of the relationship between the writer and the intended reader. The language of instruction is Spanish. (LL) (UL)

39 Hours  Fee: $510.27

**Spanish Studies**

**NEW**

**Spanish Caribbean Literature and Culture**  
CSPS 502

This course, offered in English, is intended to introduce students to the Spanish speaking Caribbean. Through the study of literature, painting, and cinema, students will have a broad overview of Hispanic Caribbean cultural traditions. Students will study three principal countries: Cuba, Puerto Rico and the Dominican Republic. Major authors to be studied may include Rosario Ferré, Miguel Piñero, Nicolas Guillen, Aida Cartagena Portalatin, Julia de Burgos, Gertrudis Gomez de Avellaneda and Lydia Cabrera. (UL)

39 Hours  Fee: $562.80
Spanning the Gaps programs are aimed at giving both high school students and adults an accessible pathway to post-secondary education. For more information, visit www.ryerson.ca/ce/access.

Academic Skills for Success CYSG 109
This workshop will give students an overview of the skills necessary for academic success in a post-secondary environment. Students will learn how to write a university level essay, generate ideas using critical thinking skills, utilize time management techniques to meet deadlines, and tailor learning based on learning styles. This small, interactive workshop is presented in an engaging classroom environment and provides students with the skills to be self-directed learners and utilize campus resources effectively.

18 Hours HST included Fee: $62.83

Academic Preparation CYSG 110
Students will gain practice writing university-level essays, generate ideas using critical-thinking skills, utilize time management techniques to meet deadlines, and learn to properly tailor learning based on their individual learning styles. This interactive workshop will provide a comprehensive set of skills for success in a post-secondary environment. It is presented in an engaging classroom environment and will provide students with a comprehensive group of skills to become self-directed learners.

27 Hours HST included Fee: $206.00

Sustainability is regarded as a global issue that will impact society and the world we live in. These courses provide you with an opportunity to acquire cross-disciplinary knowledge of sustainability-related issues. For more information, visit www.ryerson.ca/ce/sustain.

Fundamentals in Sustainability I CKSS 100
This course provides conceptual, theoretical, historical, and practical frameworks for understanding how society addresses sustainability issues. Through an international lens, it facilitates the development of systems-thinking skills based on an integrated, multifaceted, and interdisciplinary approach to ethical, economic, political, social, and legal aspects of societal decision-making concerning sustainability issues. Its purpose is to provide an integrated and holistic understanding of the social-economic-environmental context underlying local and global sustainability decision-making in the public, private, and NGO sectors.

39 Hours Fee: $755.00

Fundamentals in Sustainability II CKSS 101
Through guest expert lectures, this course will identify and analyze key sustainability challenges that society faces today and might anticipate in the future. The course will explore how decisions made by society and its constituent parts have led to unsustainable activities. These decisions and some of their consequences will be explored in depth to provide students with an understanding of social, economic, and environmental interconnections. The course will also actively consider sustainability solutions to identified challenges.

39 Hours Fee: $755.00
Designing a Sust-Enterprise  
**CKSS 102**  
*Prerequisite(s): Department consent*

This final course in the certificate is centred on independent learning under direction of a project supervisor. Students will be required to undertake a project, in partnership with an external organization (such as a corporation or business, government body, or NGO partner), to integrate and apply sustainability’s 3BL of all of social, economic, and environmental dimensions. Competencies acquired through coursework, experiential learning, professional experience, and personal interest are applied to a selected sustainability issues of either the learner’s choosing or through the learner undertaking a sustainability gap-analysis report that follows the Sustainable Development Strategy (SDS) framework as a guide for analysis. The project allows students to propose specific strategies and solutions that incorporate best sustainability practices and better regulatory requirements. 

*Note: This is a project-based, independent study course.*

39 Hours  
Fee: $755.00

---

Sustainability Topics and Trends  
**CKSS 201**

Building on CKSS 100 and CKSS 101, the two Fundamental Courses in Sustainability, this course will explore four key topics in sustainability with a focus on social and economic dimension of sustainability. The topics in the course will change depending on current issues faced by society and availability of subject matter experts. The course will allow students to understand the background to the issue and why society is where it is. Students will explore possible solutions using the sustainability frameworks of earlier courses to frame the discussion.

39 Hours  
Fee: $755.00

---

Lean Six Sigma Contin Improvement  
**CKSS 210**

Lean Six Sigma is an effective strategy for process improvement and problem solving used in an increasing array of business and technical environments. It can be implemented in isolated applications or as an enterprise-wide strategy for managing quality with strict adherence to sustainable business enterprise practices. Sustainable quality leadership is attained when Lean Six Sigma is combined with a Continuous Improvement approach to quality. Applied case studies will be analyzed, including case studies in sustainable product and services R&D, commercialization, and delivery and performance improvement.

39 Hours  
Fee: $755.00

---

Lean Six Sigma Sust Bus Enterprise  
**CKSS 211**

This course introduces the Lean Six Sigma principles that underlay modern continuous improvement approaches and sustainability excellence imperatives for private enterprise, industry, government, and other organizations. Lean Six Sigma principles are applied through case studies to organizations and sectors to demonstrate how to improve quality, productivity, sustainability adherence, customer satisfaction, employee engagement, time-to-market and financial performance. Lean Six Sigma in sustainable business enterprise precepts, methods, and techniques learned focus transformation efforts on efficiency and sustainable growth.

39 Hours  
Fee: $755.00

---

Lean Six Sigma Quality Assurance  
**CKSS 212**

The course provides students with strong proficiencies in Lean Six Sigma Quality Assurances principles and practices so that they may practice decisive solution execution under pressure and be capable of leading effectively in assuring and approving quality of processes, strategies, products, and services in a sustainable manner. Students will apply Lean Six Sigma Quality precepts, methodologies, process mapping, and best practices in order to execute, with confidence, consensus-building and results-based decisioning regardless of the challenges faced.

39 Hours  
Fee: $755.00
Courses offered cover topics including business skills for the creative cultural sector, as well as make-up skills and techniques for theatre, film, and photography. Courses have been developed and will be taught by experienced professionals. For more information, visit www.ryerson.ca/ce/aeadmin and www.ryerson.ca/ce/makeup.

Arts and Entertainment Administration
If you work in the cultural sector, these courses can help you develop entrepreneurial skills to support your creative work. For information about the Arts and Entertainment course series, visit www.ryerson.ca/ce/aeadmin or see page 110.

Making a Living in the Arts  CDAM 100
For arts managers, potential managers, and individual artists, this foundational course provides an overview of the business skills required throughout the creative chain - creation, production, marketing and promotion, pricing and selling, distribution, and managing finance - in the context of leadership within an environment of changing technology. The course addresses current practice in the for-profit and not-for profit sectors and is suitable for individuals with various levels of experience.
19.5 Hours  Fee: $313.12

Audience Outreach and Engagement  CDAM 102
Expanding and enriching the audience experience is vital for the ongoing success of all artistic endeavours, from performing arts groups to visual artists. This course offers ways to address the interchange between the product and the audience; the building of a successful initial experience to develop loyalty to the art and/or event; different kinds of engagement strategies in the digital world; and multiple marketing techniques to cross-cultural and intergenerational audiences.
19.5 Hours  Fee: $313.12

Social Media Mktng Arts and Ent  CDAM 104
This course, for artists of all disciplines, examines strategies and techniques of media and digital technology used for marketing and promotion. Theory and practice are demystified so as to understand the why and the how. Canadian case studies are presented to illustrate successful approaches.
19.5 Hours  Fee: $313.00

Make-Up Artistry for Film Video and TV  CDTH 431
Prerequisite(s): CDTH 448
This is a professionally oriented course geared to helping you break into the field of make-up artistry. It is designed for those people who are committed to becoming working professional make-up artists and to achieving a level of proficiency sufficient to work in the many areas of the industry. The course covers aging, clowns, facial lifts, wax, latex aging, beards, bald pates, blood and gore, historical make-up, reading and understanding scripts, business for the freelance artist, as well as make-up for film, television and theatre, the structure of hairpieces, and wigs, and hair goods maintenance. This course is ideal for those who wish to enter a professional union, e.g., NABET, IATSE, etc.
Note: Maximum enrollment is 14 students.
Supplies to be purchased by the student: Students must have a basic make-up kit and must purchase supplies.
100 Hours  HST included  Fee: $1610.29
Material Fee: A material fee of $35 is included in the total fee indicated above. For further information, see Material Fees on the Chang School website at www.ryerson.ca/ce.

Special Effects Make-Up for Stage and Screen  CDTH 435
This course is designed to introduce students to the world of three-dimensional special effects make-up. Some topics covered will be face casting, mould-making, and foam prosthetics, as well as other professional laboratory and make-up techniques.
Note: Maximum enrollment is 12 students.
Supplies to be purchased by the student: Students must have a basic make-up kit and must purchase supplies amounting to about $130.
100 Hours  HST included  Fee: $1629.88
- **Introduction to Make-Up Techniques for Theatre and Film** CDTH 448

  This course provides an introduction to make-up materials, equipment, and techniques; facial anatomy; and foundations. Photographic and wedding make-up applications are studied.

  **Note:** Supplies to be purchased by the student: Students will be required to purchase make-up supplies.

  40 Hours HST included Fee: $804.11

- **Make-Up and Wiggery CTHP 312**

  Prerequisite(s): THP 202 or THP 402

  An introduction to make-up and wigs for theatre technicians, designers, and make-up artists. Make-up materials, equipment, basic techniques, the structure of hairpieces, modern and period wigs and their maintenance will be studied.

  39 Hours Fee: $637.99

- **Costume Painting and Dyeing CDTH 460**

  Introduction to dyeing and fabric painting for the novice individual who wishes to survey and experiment with a multitude of fabric dyeing and painting techniques to develop their own fabric manipulation practice. Historical and theatrical applications of dyes and paints are explored. Topics may include resist dyeing techniques, silk screening, stamping, stenciling, silk painting, marbling, and costume breakdown. Classes begin with a short lecture and demonstration followed by hands-on exercises.

  **Note:** Supplies and materials to be purchased by the student.

  19.5 Hours HST included Fee: $371.85

- **Costume Specialty Building CDTH 461**

  Through historical and theatrical applications, students will explore and experiment with a variety of materials and techniques used in the creation of specialty costumes. Topics may include the techniques and methods used in the application of leather, wire, foam, buckrum, crin/horsehair ribbon, feathers and metallics in the creation of armour, soft sculpture, puppets, masks, millinery and accessories. Classes begin with a short lecture and demonstration followed by hands-on exercises.

  **Note:** Supplies and materials to be purchased by the student.

  19.5 Hours HST included Fee: $371.85

- **Costume Surface Design CDTH 462**

  An introduction to the aspects of creating texture and decoration with fabric and trims. Using historical and theatrical methods, students will experiment with creating fabric texture, embellishments and unique yardages. Topics may include the use of dissolvable stabilizers, smocking, slashing, fabric flowers, ribbon work, frogging, appliqué, and incorporating alternative objects into surface design. Classes begin with a short lecture and demonstration followed by hands-on exercises.

  **Note:** Supplies and materials to be purchased by the student.

  19.5 Hours HST included Fee: $371.85

- **Fabric Dyeing and Costume Painting CTHP 612**

  Prerequisite(s): THP 202 or THP 402 or FSN 10B or FSN 220

  An introduction to the methods and materials used in theatrical costume painting, dyeing and breakdown. Students may be required to work on costumes for actual productions.

  26 Hours Fee: $406.85
URBAN AND REGIONAL PLANNING

Courses in Urban Planning are designed to prepare students with substantive knowledge about cities and regions, and with thinking and problem-solving skills for those who contribute as leaders in the community and the profession of urban and regional planning.

Planning

NEW

★ Urban Transportation Planning CPLE 525
Prerequisite(s): PLG 420 or in UP002 or UP003
This course emphasizes the basic principles and techniques in the planning, operation and management of both private and public transportation systems. Topics include data requirements in transportation planning, evaluation of transportation alternative, implementation, and the decision-making process. Emphasis is on travel demand and supply analysis. Specifically, the classic four-stage model (trip generation, trip distribution, modal split and trip assignment) is examined. Cost and capacity relationships are also covered.

Note: A prerequisite may be waived if the student has specific academic/professional experience. See the section on prerequisites for more information. Individuals without the prerequisites wishing to take this course must contact Christopher DeSousa, Academic Coordinator, at chrisdesousa@ryerson.ca for more information.

39 Hours Fee: $618.00

★ Multicultural Cities and Public Policies CPLE 725
This one semester course will address current topic relevant to the practice and profession of planning.

Note: Starting from a base of critical thought, this course examines the theory and popular debate about why our climate is changing, then expands to explore how the change is manifested on a global and local scale. Building on the observed change, this course also discusses forecasted environmental effects and explores how, as a society, we can best adapt to and mitigate the change.

This course is open to students in either their third or fourth year of a four-year program.

39 Hours Fee: $579.28

★ Selected Topics in Planning CPLE 745
Prerequisite(s): PLG 420 or in UP002 or UP003
A current topic in the planning profession will constitute the subject of the course. The topic will be selected from issues, regions, or projects in planning in which students require competence.

39 Hours Fee: $609.15

★ Conflict Resolution and Dispute Negotiation CPLE 895
Prerequisite(s): PLG 420 or in UP002 or UP003
Antirequisite(s): CINT 905
Conventional ways of handling public disputes no longer seem to be working. Planners who are involved in building new facilities, dealing with community opposition, developing environmental standards, or allocating limited resources to meet emerging social standards, face stiff opposition no matter where they turn. The result is costly, time-consuming, and erodes public confidence in our basic institutions. This course will use case studies, projects, and participatory techniques to show how public dispute management can lead to consensus building strategies that not only save time and money, but produce broadly acceptable agreements.

39 Hours Fee: $575.16

★ Foundations of Planning CVUP 100
Prerequisite(s): Department consent
This course will address the following areas: planning concepts; planning techniques; planning theory; policy in the planning realm; and the institutional context of planning. While the course will address the basis of physical design and related planning concepts and techniques, it will also focus on contextual factors impacting on planning practice and the theoretical underpinnings of planning.

75 Hours Fee: $1024.24
WRITING WORKSHOPS AND SEMINARS

You can be the writer you've always dreamed of becoming. Let our group of talented instructors help unlock and develop your talents in short fiction, novel, poetry, or dramatic writing. Explore specialized genres. Tell your own life story. Enhance your business writing skills. For more information, including instructor biographies, visit www.ryerson.ca/ce/writing.

Autobiographical Writing

- True to Life: Writing Your Own Story CWWR 336
  Adventure, turbulence. joy: we all contain a universe of stories. Is it time for you to get started, or restarted, in putting your personal narratives on paper? This relaxed, supportive workshop will help you find the tales you want to tell and the craft and technique to make them compelling to read, whether as memoir, personal essay, or a beginning exploration. Each week students are given a choice of topics and asked to bring in a short piece of new writing. The instructor provides encouragement, structure, and practical feedback to help students discover and hone their unique voices. Learn how to dig deep and stay on track; how to cut, sharpen and polish; and where to send the work you want to share with the world.
  
  Note: Instructor: Beth Kaplan
  25 Hours HST included Fee: $440.84

- True to Life: Writing Your Own Story - Level II CWWR 436
  Prerequisite(s): CWWR 336
  The path to good writing may be difficult, yet in a supportive workshop setting, the journey is focused and companionable. This course is for writers intent on exploring their life stories for memoir or personal essay. Students will delve deeper into the emotional truth of the stories they need to tell, and into the vital art and craft of editing and rewriting. New work will be read and discussed each week.
  
  Note: Instructor: Beth Kaplan
  25 Hours HST included Fee: $440.84

Creative Travel Writing CWWR 952

“What am I doing here?” was the late travel writer Bruce Chatwin's guiding question. Creative travel writing, as practised by such noted writers as Bill Bryson, Mary Morris, and Paul Theroux, is more than a catalogue of places visited, buses missed, and cathedrals toured. It is the story of the author's relationship to place; it is both outer and inner journey. In this workshop you will be taken through exercises designed to trigger memory, sharpen your powers of observation, and create travel stories and articles using techniques borrowed from the craft of fiction: characterization, description, dialogue, etc. Beginning writers are welcome.

Note: Instructor: Ann Ireland
25 Hours HST included Fee: $440.84

Genre and Specialty Writing

- Writing for The Children's Market CWWR 298
  This lively workshop is jam-packed with concrete advice, gossip about the industry, and anecdotal information. We move from picture book to young adult novel, non-fiction to science fiction, with many stops along the way. The works of well-known Canadian authors are studied to deconstruct the writer’s craft, and each student is encouraged to read aloud their own works in progress. By the end of the session, you will have the tools to tackle your children’s book and a thorough understanding of the wonderful world of children’s lit. Beginning writers welcome.

  Note: Instructor: Sharon Jennings
  24 Hours HST included Fee: $440.84

- Beyond Writing Romance Novels CWWR 305
  Writing commercial fiction for women doesn't mean writing a cliché romance novel. Thanks to novelists like Diana Gabaldon, Janet Evanovich, and Helen Fielding, modern romantic fiction has expanded to include chick lit, mystery, suspense, comedy, family sagas, and more. If you’re interested in writing commercial fiction for women, this course will help you understand where you want to go within the genre and how to get there. Using building blocks of fiction (characterization, view point, dialogue, character arc, conflict, etc.), you’ll learn how to develop a story that will grab an editor’s attention and hold on until the happy ending. Beginning writers welcome.

  Note: Instructor: Lynda Simmons
  24 Hours HST included Fee: $440.84
The Art of Promotional Writing  CWWR 367

Writing copy that tempts, persuades, and inspires others is a fundamental component of business and organizational success. This workshop will sharpen your ability to compose clear and effective promotional copy in many different forms, in print and online. You will develop your skills by examining and discussing texts from a wide range of sectors, and by completing practical in-class exercises and weekly assignments. Sharing your work and engaging in constructive dialogue will further strengthen your promotional writing skills.

Note: Instructor: Morgan Holmes
20 Hours  HST included  Fee: $382.13

Writing Television Situation Comedy  CWWR 446

This course teaches the craft of writing for today’s television situation comedies. Scripts of classic and current shows are analyzed for form and style, but the primary goal is for each student to complete an original script for an existing show. He or she will participate in the entire process, beginning with the story pitch, on to the outline and through the various stages of writing and rewriting, ending with the final round-table polish. This project-oriented course gives the student a sense of the TV sitcom workplace. Beginning writers welcome.

Note: Instructor: Kenn Scott
24 Hours  HST included  Fee: $440.84

Creative Writing Playground  CWWR 525

This beginner’s course explores creative writing for fun. Each class will include time to read student work aloud, get feedback, as well as generate fresh material. The course includes a series of writing tools and exercises, as well as ways to reclaim creativity in daily living. The toolbox is a collection of exercises including freefall, clustering, and writing tennis. Students will emerge with the opportunity to create their own customized toolbox for future practice.

Note: Course format will be a conversation as opposed to a lecture. Each week there will be homework of no more than 250 words.
25 Hours  HST included  Fee: $440.84

Writing Creatively About Grief  CWWR 530

Students will learn techniques, methods, and devices for writing evocative creative non-fiction (e.g., memoir, personal essay) and poetry on loss and grief. Through the reading and writing of non-fiction and poetry, we will work towards making our experiences of grief speak to others. Subject matter is not limited to the death of a loved one, but can include, for example, a divorce/break up or losing a part of a person through injury or illness.
25 Hours  HST included  Fee: $440.84

WRITING WORKSHOPS AND SEMINARS

Writing

Whether you’re a budding novelist or a seasoned scribe, you’ll find a wide range of fascinating and enriching opportunities to hone your skills and expand your repertoire. Study in class or online — either way, you’ll be part of a dynamic writing community.

Writers and the New Media  CWWR 369

This hands-on course is for writers who want to create and maintain a website featuring their own work. You will learn weblog software, web authoring software (such as Dreamweaver), design a site made up of several pages, get a domain name and server, and post your site to the web. There will be time during class to work on your webpages. We will examine usability and design issues, web strategy, and web presence. Homework will include bringing in content for your site such as your bio, written material, photos, and links. The goal of this course is to have a website completed and online by the end of the course.

Note: Students are encouraged to purchase a web host provider for their website: costs are approx. $100 for one year.
Instructor: Rhonda Abrams
24 Hours  HST included  Fee: $440.84

The Writer’s Tools  CWWR 400

Every passage of writing uses a number of essential elements: the point of view, verb tense, what will be exposition and what will be action (telling and showing), necessary descriptions, suitable rhythms of sentences and paragraphs, and how much to reveal to the reader and how much to withhold. Using students’ exercises and analyses of passages from the world’s literature, students will gain an understanding of how to structure and improve their own work.

Note: Instructor: Lewis DeSoto
16 Hours  HST included  Fee: $307.97

Short Fiction Writing - Level III  CWWR 402

This advanced workshop will further explore various elements of effective writing. Students will read their stories in class and be provided with a critical analysis of their work.
25 Hours  HST included  Fee: $424.36
v Short Fiction Writing - Level I  CWWR 410
Do you want to write a story, but have no idea how to start? Do you need encouragement? A firmer grasp on basic techniques? This is an introductory workshop designed to help you find your voice and your nerve. In an atmosphere of good humour and mutual respect, participants will write and read aloud their own work. The instructor will emphasize point-of-view, plotting, dialogue, and character development, always with an eye to releasing the writer within you.

Note: Instructors: Cordelia Strube (in-class sections) and Ann Ireland (distance sections).
25 Hours  HST included  Fee: $441.88

v Short Fiction Writing - Level II  CWWR 411
In this intermediate workshop, the instructor leads frank but supportive discussions about stories written by class participants and distributed ahead of time. Various elements of effective writing are examined, such as creating character, writing dialogue, using the rhythms of spoken language, managing plot, controlling point of view, and writing technical or historical passages. At least one class is devoted to the business of publishing fiction.

Note: Instructor: Cordelia Strube
25 Hours  HST included  Fee: $440.84

v Novel Writing - Level I  CWWR 420
"Don't tell me the moon is shining; show me the glint of light on broken glass." -Anton Chekhov

The course includes thoughtful discussion of the elements of novel writing: inspiration and the sustaining of ideas, plotting, setting, character, and point of view. Students will receive feedback on their work from both the class and the teacher. Each class will be structured around writing exercises to build practical skills, a discussion of student manuscripts, as well as a lesson on important facets of narrative technique. Students will learn how to build a novel narrative (a novel outline) and how to write scenically (one strong chapter). Beginning writers welcome.

Note: Instructors: Susan Glickman (Fall and Spring terms) and Cordelia Strube (Winter term).
25 Hours  HST included  Fee: $440.84

v Novel Writing - Level II  CWWR 421
This is an intermediate-level course for those who are writing regularly and have already begun a novel, and who value giving and getting regular feedback on their work. Participants will have the chance to present up to 50 pages to the group for discussion and should have some of this draft material ready before the course begins. Using students' own work and in-class exercises when appropriate, we will address such topics as plot, pacing, characterization, point-of-view, and getting published. A continuation of Novel Writing - Level I.

Note: Instructor: Susan Glickman
25 Hours  HST included  Fee: $440.84

v Short Fiction and Novel Writing - Level III CWWR 425
The focus of this workshop will be rewriting; learning to look at a manuscript critically, with an eye toward developing the story or novel's potential. Participants will present at least three chapters or stories from a work-in-progress for discussion and evaluation. Objectives will include strengthening structure, narrative drive, deepening characterization, trimming exposition, and intensifying scenes. Participants will be encouraged to experiment, to make mistakes, to scratch out, and, if necessary, to start over. Rewriting is often perceived as difficult, but anything can be changed, shaped, and reshaped. This workshop will communicate to its participants that there is no fear in rewriting, only promise.

Note: Instructor: Cordelia Strube
25 Hours  HST included  Fee: $440.84

v Writing Poetry: Rapping, Reading, Revising  CWWR 430
This class is for all lovers and practitioners of the most ancient and vibrant form of literature. We'll discuss great examples of the art, and listen to poets on tape. In-class exercises on such topics as voice, imagery, diction, rhyme, meter, and line-breaks will help you hone your craft, and you will get feedback from the instructor and your fellow students in a supportive workshop environment. A field trip to the lively Toronto performance scene will provide an opportunity for students to read their own poems in public.

From The Horse’s Mouth - Getting Published  CWWR 450
A round table discussion with celebrated editors and agents, moderated by teacher and editor Brian Henry. This afternoon workshop draws together senior figures from the publishing industry. Following the presenters’ introductory remarks, discussion will be opened up to the floor to address the concerns and questions of those aspiring writers present, both of fiction and non-fiction, interested in improving their chances of getting published. Questions addressed will include: What are the editors looking for?

Note: In addition to a literary agent and a senior editor from a publishing company, one of our panelists will provide expertise in self-publishing.

Moderator: Brian Henry.

3 Hours  HST included  Fee: $110.21

Works in Progress: Writing Workshop  CWWR 514
This workshop is for writers intending to complete a full-length work - novel, short story collection, screenplay, stage play, or memoir - with the emphasis on ‘story.’ Over the term, writers will have the opportunity to submit their work to the class for evaluation. Focusing on structure, narrative drive, characterization, syntax, and editing, the group discussions are intended to spark insight into the work-in-progress. In addition, the writer’s life will be examined to provide practical advice on publishing, agents, and earning a living as a writer.

Note: Instructor: Cordelia Strube

30 Hours  HST included  Fee: $505.13

From Vapour to Paper: Journal Writing  CWWR 395
Anne Frank kept one. So did Jim Morrison. Joan Didion describes hers as a way of keeping the lines open to herself. And bloggers, on the other hand, open their lines to the universe. Keeping a private journal is not about making art, but rather, tracking your own ideas, secret inventions, recipes, insights, dreams, nightmares, song lyrics, cartoons, prayers, and so on. This workshop will expand your definition of journal; offer guidance in how best to structure your own journal; and offer practical tips on security, daily discipline, and journal-block.

5 Hours  HST included  Fee: $149.35

Instructors Who Are Thinkers and Practitioners
Our instructors combine theoretical knowledge with practical, on-the-job experience – and they pass that experience on to their students. Instructors at The G. Raymond Chang School of Continuing Education are high achievers who we attract from industry and the business community, along with Ryerson University faculty.

I have had some incredible professors who bring solid real life experience to the classroom. They exponentially increase the value of the learning experience.
